Upcoming water use restrictions for San Diego residents. In declaring that San Diego is suffering from a long-term drought and that water coming into San Diego is being reduced by both the Metropolitan Water District of Southern California and the San Diego County Water Authority, the Council approved strong water conservation measures. Effective June 1, 2009, residents of the 4th District and throughout the city are restricted from irrigating their lawns and landscape except for certain days of the week. If you have an odd numbered address you can only water outside on Sunday, Tuesday and Thursday between the hours of 6:00 p.m. in the evening and 10:00 a.m. in the morning. If you have automated sprinklers, they can only be running for a maximum of 10 minutes. If you have an even numbered address you can only water outside on Saturday, Monday, and Wednesday between the hours of 6:00 p.m. in the evening and 10:00 a.m. in the morning. If you have automated sprinklers, they can only be running for a maximum of 10 minutes. Lack of water is a major natural resource crisis we will be facing in the foreseeable future. I strongly encourage all San Diegans to not take these actions lightly. Follow the new water use rules, and conserve water in every way you can to help avoid severe drastic actions in the future that will cost us all.
