

OFFICE OF
COUNCILMAN ANTHONY YOUNG
 CHAIRMAN, COMMITTEE ON BUDGET AND FINANCE
 DISTRICT FOUR

CITY OF SAN DIEGO

MARCH 10, 2010 WEEKLY UPDATE

On Monday, March 8, 2010, Councilman Young was joined by Mayor Sanders and many community members to break ground on the new state of the art children’s playground at Martin Luther King Park. This project will include the replacement of playground equipment and upgrade the play area and accessibility improvements.

COUNCIL ACTIONS:

On Wednesday, March 3, 2010, more than 1,000 community members attended a Community Forum at Mount Erie Church hosted by Councilman Young, Rev. Walter Wells, Pastors On Point, President Lei-Chala Wilson of the San Diego NAACP, President and CEO Ray King of the Urban League, Dr. Shirley Weber and BAPAC to hear the concerns of African American Students at UCSD regarding several racist incidents directed at them. Students from the Black Student Union (BSU) were joined by representatives from UCSD on a panel making presentations to the community. On Thursday, March 4, 2010, backed by the overwhelming support from the community, David Ritcherson and Finann Kefiezighi, co-presidents of UCSD’s BSU, reached an agreement with UCSD’s administrators to address diversity issues and recommendations which improve the campus climate throughout the UC San Diego community. Recommendations that will be put into action include: funding BSU’s programs to increase diversity in students enrolled at the school; funding the program coordinator position for African American and Chicano/Latino Arts and Humanities studies; and having places on campus for indoor and outdoor display of art representing under-represented communities. UCSD will also create a task force to recruit, support and retain under-represented faculty, rewrite the student Code of Conduct requiring students to adhere to the Code of Conduct to the maximum extent. These actions are only part of the many recommendations agreed to by the University and the Black Student Union after the Community Forum. The University has also retained the Dean of UC Berkley’s Law School to advise them on race matters and assist with improving the campus climate. We are proud of these young men and women for putting their

education on the line in order to ensure they are not subjected to racist incidents and help ensure the campus of UCSD is truly a campus that values and embraces diversity in every way possible. I thank the community for joining me and many others in clearly stating that racism will not be tolerated in any form, and that swift and direct action be taken whenever it arises.

On Tuesday, March 9, 2010, the San Diego City Council voted unanimously to fund an additional portion of the FY 2010 Street and Sidewalk Maintenance program.

This action will provide for the replacement of sidewalks which have been damaged by tree roots citywide. Locations which need repair are reported by citizens and City personnel. The Street Division uses the following criteria to identify and prioritize repair locations for both contractual services and City forces work: the severity of the damage; the age of the request; other repair projects occurring at the same location; proximity to high pedestrian traffic facilities; and conflicts with other construction projects. The severity of the damage and the age of the request are the highest priorities. Locations to be repaired include sidewalks, curbs and gutters, and curb ramps. As we drive the 4th District my staff and I are identifying damaged sidewalks. However, we also need you to report any damage you see to my office at (619) 236-6644 or Streets Division at (619) 527-7500 (press "0" to get a live operator) and report sidewalks damaged by tree roots so they can be added to the list for repairs.

On Tuesday, March 9, 2010, the San Diego City Council voted unanimously to approve funding toward the acquisition and rehabilitation of the Vista Grande Affordable Housing Project, located at 5391 and 5411-5425 Santa Margarita Street in the 4th District.

Originally built in 1986, the Vista Grande Apartments is a 49-unit apartment complex. The rehabilitated apartments will include two-, three- and four-bedroom units. These older buildings offer a large potential for energy and water savings in the rehabilitation work. Proposed improvements include: new insulated roof; energy-efficient doors, windows, ceiling fans, lighting and appliances; a solar heating or electrical system; water-efficient plumbing fixtures and tankless water heaters; and water saving irrigation and drought tolerant landscaping. Exterior improvements include painting, fencing and gate repairs, landscaping, roofing, walkways, site drainage, lighting, and parking resurfacing. Also included is the incorporation of accessibility improvements to the playground area.
