SAVE A NEIGHBOR WITH NEIGHBORHOOD BEAT!

Council Member's Alvarez and Emerald Host Community CPR Training Program

What: Dr. James Dunford, City of San Diego Medical Director, recently shared a study that found that CPR is not being performed by bystanders in certain neighborhoods throughout the city of San Diego.

In an effort to educate citizens about the importance of CPR and Automatic External Defibrillators (AED), Council Member's Alvarez and Emerald are partnering with Rural/Metro Ambulance, the city of San Diego's ambulance provider, to host *Neighborhood Beat*, a city-wide community CPR training program.

Who: Council Member's David Alvarez and Marti Emerald are partnering with Rural/Metro Ambulance to host a FREE community and AED training, and inviting citizens from throughout San Diego County to attend.

All members of the community are invited to attend the CPR and (AED) training, and learn vital life-saving skills. Bilingual translation will be provided.

When:

Saturday, January 2, 2012
9-11AM

Where:

Cesar Chavez Elementary School
1404 S. 40th St.
San Diego, CA 92113

Event hosted in the school library
