COUNCILMEMBER EMERALD CONTINUES TO ADVOCATE FOR FULL FUNDING FOR THE MID-CITY CENTERLINE

After 30 years of hard work, Councilmember Marti Emerald was pleased that the SANDAG Transportation Committee on Friday, April 19th added an additional \$23 million for the Mid-City Centerline. “After decades of promises, the community of City Heights will finally have the access to public transportation that they were promised and I’m thrilled to be a part of that” said Emerald. The final recommendation will be approved by SANDAG Board of Directors in May and construction is anticipated to begin in 2014.

The project consists of two freeway level bus stations that will serve bus-only lanes on the I-15 at El Cajon Boulevard and University Avenue. The communities near these stations have been waiting for this project for nearly 30 years.
