Notes/Background:
Neighbors Helping Neighbors is a program Groundwork is initiating in Southcrest/Shelltown. It is based in the knowledge that sustainable change must be community-driven through outreach, engagement, and support. Neighbors Helping Neighbors is facilitating all three through the canvassing of four distinct neighborhoods (see map) on a quarterly basis with information and services related to water quality (trash abatement/arundo control); water conservation (rain barrels/home audits); energy savings (CFL bulbs); and related services.
