Introduction

This report provides an analysis of the financial and administrative obligations of Community Facilities District No. 2 (Santaluz) Improvement Area No. 4 ("IA No. 4") of the City of San Diego resulting from the sale of the \$9,965,000 Series A of 2004 Special Tax Bonds (the "Bonds") issued in February, 2004.

IA No. 4 is a legally constituted governmental entity established under the Mello-Roos Community Facilities Act of 1982, (the "Act") as amended. The Act provides an alternative method for the financing of certain public capital facilities and services. Specifically, IA No. 4 is authorized to issue up to \$10,500,000 in bonds and has sold \$9,965,000 in bonds. The proceeds of the Bonds were used for purposes of constructing certain road, water, and sewer related facilities necessary to meet increased demands placed on the City of San Diego as a result of the development of IA No. 4.

The bonded indebtedness of IA No. 4 is both secured and repaid through the annual levy and collection of special taxes from all property subject to the tax within the improvement area. In calculating the special tax liability for fiscal year 2012-2013, this report examines the financial obligations of the current fiscal year and analyzes the level of development within IA No. 4.

A map showing the property in CFD No. 2 is included in Exhibit A.

The information provided in this report is derived primarily from documents developed at the time IA No. 4 was formed and from data provided by the City. The information sources include the RMA, annual budget information for IA No. 4, debt service schedule and building permit information provided by the City, special tax delinquency data provided by the County of San Diego, and historical development status and special tax prepayment records maintained by David Taussig & Associates.

This report is organized into the following sections:

Section I

Section I provides an update of the development status of property within IA No. 4.

Section II

Section II analyzes the previous year's special tax levy.

Section III

Section III determines the financial obligations of IA No. 4 for fiscal year 2012-2013.

Section IV

Section IV reviews the methodology used to apportion the special tax requirement between Developed Property and Undeveloped Property. A table of the 2012-2013 special taxes for each classification of property is included.

I. Special Tax Classifications and Development Update

Special Tax Classifications

The methodology employed to calculate and apportion the special tax is contained in a document entitled the Rate and Method of Apportionment of the Special Tax. The Rate and Method of Apportionment defines two categories of property, namely "Developed Property" and "Undeveloped Property." The category of Developed Property is in turn divided into eight separate rate classifications which vary with dwelling unit size and type for residential development and acreage for non-residential development. A table of the Developed Property rate classifications is shown below.

Improvement Area No. 4
Development Property Classification

Class	Designation		
1	Residential Property	Greater than 4,600 sf	
2	Residential Property	4,400 – 4,600 sf	
3	Residential Property	4,100 – 4,399 sf	
4	Residential Property	3,900 – 4,099 sf	
5	Residential Property	3,600 – 3,899 sf	
6	Residential Property	Less than 3,600 sf	
7	Residential Property	Affordable Unit	
8	Non-Residential Property	Not Applicable	

Developed Property is distinguished from Undeveloped Property by the issuance of a building permit. Specifically, property for which a building permit was issued as of March 1 of any year will be classified as Developed Property in the following fiscal year. In addition to the issuance of a building permit, property is classified as an affordable unit if a deed restriction, resale restriction, and/or regulatory agreement has been recorded in favor of the City providing for affordable housing.

Development Update

IA No. 4 encompasses the residential development known as "Fairbanks Summit." Fairbanks Summit, which comprises most of IA No. 4, consists of approximately 115 acres situated in northwestern San Diego County, 20 miles north of the City's downtown area and six miles north of the La Jolla/Golden Triangle area. The community is 100% built-out with 226 dwelling units.

Table 1 below lists the prepayments that have occurred to date. These parcels are not considered taxable property and are not subject to the CFD special tax in fiscal year 2012-2013 and for each subsequent year. Therefore, these parcels are not included in the development figures in the paragraph below or in Table 2 below.

As of March 1, 2012 building permits for 223 residential units, including 36 affordable units, had been issued. Table 2 below indicates the cumulative Developed Property, by class, within IA No. 4.

II. Fiscal Year 2011-2012 Special Tax Levy

The aggregate special tax levy for fiscal year 2011-2012 equaled \$811,853. As of June 30, 2012, \$785,327 in special taxes had been collected by the County. The remaining \$26,526 in special taxes are delinquent, resulting in a delinquency rate of 3.27 percent.

Pursuant to the Bond Indenture, IA No. 4 has covenanted to determine each year whether or not any owners of property within IA No. 4 are delinquent in the payment of their special taxes. If such delinquencies exist IA No. 4 is required to commence judicial foreclosure proceedings no later than October 1, against (i) parcels with delinquent special taxes in excess of \$10,000; and (ii) all properties with delinquent special taxes in any fiscal year in which the City receives special taxes in an amount which is less than 95% of the total special tax levied and the amount in the Reserve Account is less than the Reserve Requirement.

It is anticipated that foreclosure proceedings will be initiated against two delinquent parcels prior to October 1, 2012.

III. Fiscal Year 2012-2013 Special Tax Requirement

The Rate and Method of Apportionment states that the special tax on Developed Property may be reduced from the assigned special tax if the following three conditions are met: (i) it is not necessary to levy a special tax pursuant to steps two through four described in Section D of the RMA in order to meet the special tax requirement; (ii) all authorized IA No. 4 Bonds have already been issued or the City Council has covenanted that it will not issue any additional IA No. 4 Bonds (except refunding bonds); and (iii) all facilities identified on Exhibit C to the Purchase and Financing Agreement have been acquired. The City has determined that all three conditions have been met. Therefore, the special tax on Developed Property is reduced from the assigned special tax. The total special tax requirement is equal to \$696,120 and is shown in detail below.

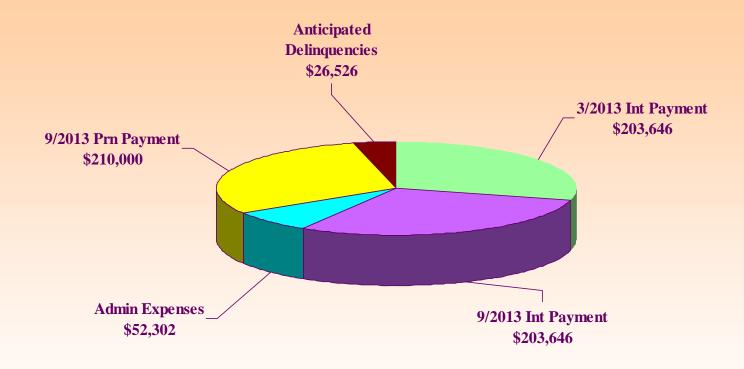

The debt service amounts due as shown in the table below reflect the following bond calls: (i) \$60,000 bond call in September 2006 following a special tax prepayment, and (ii) \$1,055,000 bond call in March 2011, of which \$55,000 was from a special tax prepayment and \$1,000,000 was from excess construction proceeds. Please see Exhibit B for the debt service schedule for the Bonds.

Gross Special Tax Requirement = \$696,120

IV. Method of Apportionment

Maximum Special Taxes

The amount of special taxes that IA No. 4 may levy is strictly limited by the maximum special taxes set forth in the Rate and Method of Apportionment.¹

On each July 1, commencing July 1, 2004 and ending on July 1 of the tenth fiscal year in which special taxes are levied in IA No. 4, the maximum special tax rates shall be increased by two percent (2%) of the amount in effect in the previous fiscal year. On July 1 of the eleventh and twelfth fiscal years in which special taxes are levied in IA No. 4, the maximum special taxes may be increased by up to two percent (2%) of the amount in effect in the previous fiscal year, provided that such increase is necessary to meet the special tax requirement. There will be no increase in the maximum special taxes that may be levied after the twelfth fiscal year in which special taxes are levied in IA No. 4. Fiscal year 2003-2004 was the first year in which special taxes were levied in IA No. 4. Therefore fiscal year 2012-2013 is considered the tenth fiscal year and will be the last year of mandatory escalation of the maximum special tax. The fiscal year 2012-2013 maximum special tax rates for each classification of property are shown in the table on the following page.

Apportionment of Special Taxes

The special tax that is apportioned to each parcel is determined through the application of Section D of the Rate and Method of Apportionment. Section D apportions the special tax requirement in three steps which prioritize the order in which Developed Property, Undeveloped Property and other taxable property are taxed.

The first step states that the special tax shall be levied against each parcel of Developed Property at 100 percent of the assigned special tax. If the special taxes raised pursuant to the first step are less than the special tax requirement, then the second step is applied. The second step states that the special tax shall be levied against each parcel of Undeveloped Property at up to 100 percent of the maximum special tax. The third and fourth steps are designed to accommodate changes in land use and are intended to be used only as a last resort. Since actual land uses have not substantially deviated from the original projections, these steps are not necessary.

Application of the first step generates special tax revenues of \$828,090 from Developed Property which is more than sufficient to meet all obligations for IA No. 4 for fiscal year 2012-2013. Therefore, the fiscal year 2012-2013 special tax for each parcel of Developed Property is reduced to approximately 84 percent of the maximum special tax to provide \$696,120 in special tax revenues.

The fiscal year 2012-2013 assigned/maximum and actual special taxes are shown for each classification of Developed Property and Undeveloped Property in the following table and graphically on the following page.

-

Technically, Section C states that the maximum special tax for a parcel of Developed Property is equal to the greater of (i) the "Backup Special Tax" or (ii) the Assigned Special Tax. The Backup Special Tax was established for the contingency of a shortfall in revenues resulting from significant changes in development densities. The contingency for which the Backup Special Tax was established does not exist and hence, all discussion of maximum tax rates for Developed Property focuses on the Assigned Special Tax.
