I. Introduction

This Mello-Roos Community Facilities District Administration Report presents the findings of the research and financial analysis performed by David Taussig & Associates, Inc. to determine the special tax requirement of Community Facilities District No. 4 (Black Mountain Ranch Villages) ("CFD No. 4") of the City of San Diego for fiscal year 2006-2007.

CFD No. 4 is a legally constituted governmental entity established under the Mello-Roos Community Facilities Act of 1982, (the "Act") as amended. The Act provides an alternative method for the financing of certain public capital facilities and services. Specifically, CFD No. 4 is authorized to issue up to \$30,000,000 in bonds to finance the acquisition and construction of certain road, water, sewer system, and utility improvements necessary to meet increased demands placed on the City of San Diego as a result of the development of CFD No. 4.

This report is organized into the following sections:

Section II

Section II provides an update of the development activity occurring within CFD No. 4.

Section III

Section III analyzes the previous fiscal year's special tax levy and includes a discussion of delinquent special taxes.

Section IV

Section IV determines the financial obligations of CFD No. 4 for fiscal year 2006-2007.

Section V

Section V reviews the methodology used to apportion the special tax requirement between Developed Property, Final Mapped Property, and Undeveloped Property. A table of the 2006-2007 special tax rates for each classification of property is included.

II. Special Tax Classifications and Development Update

Special Tax Classifications

CFD No. 4 is comprised of Zone 1 and Zone 2. The methodology employed to calculate and apportion the special taxes for both Zone 1 and Zone 2 are contained in a document entitled the Amended and Restated Rate and Method of Apportionment for CFD No. 4. The Amended and Restated Rate and Method of Apportionment defines three categories of property, namely "Developed Property", "Final Mapped Property," and "Undeveloped Property". The category of Developed Property is in turn divided into separate special tax classifications based on the location, type of use, and the structure built thereon. Developed Property in each Zone which is Residential Property (other than Affordable Units) is categorized into one of several Land Use Classes based on residential floor area. A table of the Developed Property classifications for Zone 1 and Zone 2 is shown below.

Community Facilities District No. 4 Developed Property Classification Zone 1 and Zone 2

Land Use Class	Land Use	Residential Floor Area/ Description
1	Residential	<= 1,500 sf
2	Residential	1,501 – 1,750 sf
3	Residential	1,751 – 2,000 sf
4	Residential	2,001 – 2,250 sf

Developed Property is distinguished from Final Mapped Property and Undeveloped Property by the issuance of a building permit. Specifically, property for which a building permit was issued as of March 1 of any year will be classified as Developed Property in the following fiscal year so long as it is located within a final map that was recorded as of January 1 of the prior fiscal year. For example, all property for which building permits were issued prior to March 1, 2006 and which is located within a recorded final map that was recorded as of January 1, 2006, will be classified as Developed Property in fiscal year 2006-2007. Furthermore, Final Mapped Property is distinguished from Undeveloped Property by the recordation of a final map. Specifically, property that is not located within a recorded final map that was recorded as of January 1, 2006, will be classified as Undeveloped Property in fiscal year 2006-2007.

Development Update

Background research was conducted to determine the amount and type of development activity that occurred during the previous fiscal year. Review of the City of San Diego's building permit records indicated that prior to March 1, 2006, building permits had been issued for a total of 260 residential units and 16,000 square feet of non-residential floor area in Zone 1. Prior to March 1, 2006, building permits had been issued for a total of 17 residential units. A total of 28.61 acres in Zone 2 remain as Final Mapped Property, and 202.30 acres in Zone 2 remain as Undeveloped Property. The table below indicates the cumulative amount of Developed Property by special tax classification, Final Mapped Property, and Undeveloped Property for Zone 1 and Zone 2, respectively.

III. Fiscal Year 2005-2006 Special Tax Levy

The aggregate special tax levy for fiscal year 2005-2006 equaled \$680,886. As of June 19, 2006, \$665,629 in special taxes had been collected by the County. The remaining \$15,257 in special taxes are delinquent, resulting in a delinquency rate of 2.24 percent.

IV. Fiscal Year 2006-2007 Special Tax Requirement

The Amended and Restated Rate and Method of Apportionment for CFD No. 4 states that the special tax on Developed Property may be reduced from the assigned special tax if the following three conditions are met: (i) the Council is no longer required to levy a Special Tax pursuant to steps two through five of Section D of the Amended and Restated Rate and Method of Apportionment in order to meet the special tax requirement; (ii) all authorized CFD No. 4 Bonds have already been issued or the Council has covenanted that it will not issue any additional CFD No. 4 Bonds (except refunding bonds) to be supported by Special Taxes; and (iii) all facilities identified on Exhibit A to the Purchase and Finance Agreement have been acquired. Since all three conditions have not been met, the fiscal year 2006-2007 special tax for each parcel of Developed Property is equal to the assigned special tax.

Therefore, the special tax requirement is equal to \$775,732 for fiscal year 2006-2007. Revenues raised through the fiscal year 2006-2007 levy will be used to pay for administrative expenses and/or authorized facilities.

V. Method of Apportionment – Amended & Restated RMA

Maximum Special Tax Rates

The amount of special taxes that CFD No. 4 may levy is strictly limited by the maximum rates set forth in Section C of the Amended and Restated Rate and Method of Apportionment.¹

The fiscal year 2006-2007 maximum special tax rates for each classification of property are shown in the table on the following page.

Apportionment of Special Taxes

The special tax that is apportioned to each parcel is determined through the application of Section D of the Amended and Restated Rate and Method of Apportionment. Section D apportions the special tax requirement in five steps which prioritize the order in which Developed Property, Final Mapped Property, Undeveloped Property, and other taxable property are taxed.

The first step states that the special tax shall be levied against each parcel of Developed Property at 100 percent of the assigned special tax. If the special taxes raised pursuant to the first step are less than the special tax requirement, then the second step is applied. The second step states that the special tax shall be levied against each parcel of Final Mapped Property at up to 100 percent of the maximum special tax. If the special taxes raised pursuant to the second step are less than the special tax requirement, then the third step is applied. The third step states that the special tax shall be levied against each parcel of Undeveloped Property at up to 100 percent of the maximum special tax.

The fourth and fifth steps are designed to accommodate changes in land use and are intended to be used only as a last resort. Since actual land uses have not substantially deviated from the original projections, these steps are not necessary.

Application of the first step generates special tax revenues of \$775,732 from Developed Property in Zone 1 which is equal to the total fiscal year 2006-2007 special tax requirement. The fiscal year 2006-2007 maximum and actual special tax rates are shown for each classification of Developed Property, Final Mapped Property, and Undeveloped Property in the following tables. The fiscal year 2006-2007 actual special tax rates are also shown graphically on the following page. The Special Tax Roll, which lists the actual special tax levied against each parcel, is shown in Exhibit A.

¹

Technically, Section C states that the maximum special tax for a parcel of Developed Property is equal to the greater of (i) the "Backup Special Tax" or (ii) the Assigned Special Tax. The Backup Special Tax was established for the contingency of a shortfall in revenues resulting from significant changes in development densities. The contingency for which the Backup Special Tax was established does not exist and hence, all discussion of maximum tax rates for Developed Property focuses on the Assigned Special Tax.
