

Solar Energy Systems Ordinance

§112.0502 Process One

An application for a permit, map, or other matter acted upon in accordance with Process One may be approved or denied by a staff person designated by the City Manager pursuant to Section 111.0205. A public hearing will not be held, **unless an appeal hearing is otherwise required as set forth in Section 141.0418.**

§129.0107 Decision Process for Construction Permits

A decision on an application for a *construction permit* shall be made in accordance with Process One, **except where state law requires an appeal hearing.** The type of permit, ~~and the~~ decision maker, **and appeal rights if any,** are described in Chapter 12, Article 9, Divisions 1 through 8.

§129.0308 Decision Process for an Electrical Permit

(a) A decision on an application for an Electrical Permit shall be made by the Building Official in accordance with Process One, **except where state law requires an appeal provision as described in Section 129.0308(b).** The Electrical Permit shall be approved if the Building Official determines that the work described in the permit application and the accompanying plans complies with the requirements of the Electrical Regulations, other applicable laws and ordinances, and any applicable *development permit*.

(b) **In accordance with state law, an applicant may appeal a Building Official's denial of a permit application for a small rooftop solar energy system by filing an application for a Process Two appeal hearing as further described in Section 141.0418(c).**

§131.0222 Use Regulations Table for Open Space Zones

The uses allowed in the open space zones are shown in Table 131-02B.

**Table 131-02B

§141.0418 Solar Energy Systems

(a) This section regulates the following solar energy system types, which for the purpose of this section are collectively referred to as solar energy systems, except where necessary to explicitly distinguish between the two types:

(1) Small rooftop solar energy systems: Small rooftop solar energy systems are those devices or structural design features of a building whose primary purpose is to provide for the collection, storage, and distribution of solar energy for space heating or cooling, electric generation, or water heating, which are not larger than 10 kilowatts alternating current nameplate rating or 30 kilowatts thermal and are installed on a single dwelling unit or duplex development.

(2) Other solar energy systems: The subcategory “other solar energy systems” applies to any other solar energy system devices or structural design features of a building whose primary purpose is to provide for the collection, storage, and distribution of solar energy for space heating or cooling, electric generation, or water heating that are not within the scope of a small rooftop solar energy system per Section 141.0418(a)(1).

- (b) Solar energy systems are permitted as a limited use in the zones indicated with an “L” in the Use Regulations Tables in Chapter 13, Article 1 (Base Zones) subject to the regulations in Section 141.0418(b). The regulations are intended to facilitate the use of renewable energy technology to meet environmental and energy goals and meet state law provisions that explicitly apply to small rooftop solar energy systems and require administrative approvals in a timely manner and a process for an *applicant* to appeal a denial to the Planning Commission.
- (1) Installation of a solar energy system shall require approval of a Process One *construction permit* in accordance with the following:
- (A) An Electrical Permit shall be obtained for a proposed solar energy system, or if the scope of work also involves the *development* of a new *structure* or requires structural modifications to an existing *structure* to support the solar energy system, then a Combination Building Permit and Electrical Permit shall be obtained.
- (B) The *construction permit* application shall be submitted in accordance with Sections 112.0102 and 129.0105.
- (C) Within a planned district (subject to Land Development Code Chapter 15), a separate Planned District Ordinance Permit shall not be required in addition to the *construction permit* required for a solar energy system pursuant to Section 141.0418 (b)(1).
- (2) Solar energy systems are exempt from the regulations requiring undergrounding of utilities and from the screening requirements required by Section 142.0910.
- (3) Solar energy systems as an *accessory use* are permitted to encroach into required *yards* and the angled *building envelope* plane as follows:
- (A) Solar energy systems may encroach into required *side yards* and rear *yards* where securely attached to a *structure* or element of a *structure* that is permitted to project or encroach into the required *setback* or angled *building envelope* plane in accordance with Section 131.0461. Standalone solar energy systems may encroach into required *side yards* and rear *yards* in compliance with Section 131.0461.
- (B) Within the Mission Beach Planned District Ordinance, proposed *encroachment* of a solar energy system shall comply with Section 1513.0304(d).
- (4) Solar energy systems shall comply with all applicable height limits, except that solar panels may be added to a *previously conforming structure* that does not

conform to the existing height limit of the Coastal Height Limit Overlay Zone (Section 132.0505) or the Clairemont Mesa Height Limit Overlay Zone (Section 132.1305), if the proposed solar panels do not exceed the height of the existing structure, consistent with the California Solar Rights Act.

- (5) None of the regulations in Section 141.0418 grant any deviation from the Environmentally Sensitive Lands Regulations (Chapter 14, Article 3, Division 1) or Historic Resource Regulations (Chapter 14 Article 3, Division 2).

(c) Special Permit Review Requirements for Small Rooftop Solar Energy Systems

- (1) In order to be eligible for the special permit review in Section 141.0418(c), a solar energy system must meet the definition for a small rooftop solar energy system per Section 141.0418(a) and must comply with applicable height requirements per Section 141.0418(b)(4).
- (2) In reviewing the *construction permit* application for a small rooftop solar energy system, the Building Official shall evaluate only whether the small rooftop solar energy system meets applicable health and safety requirements of local, state, and federal law.
- (3) The Building Official shall administratively approve the small rooftop solar energy system, unless the Building Official determines there is substantial evidence of a specific, adverse impact upon the public health and safety, which for the purpose of this section means a significant, quantifiable, direct, and unavoidable impact based on objective, identified, and written public health and safety standards, policies, or conditions as they existed on the date the application was deemed complete, and there is no feasible method or alternatives to satisfactorily mitigate or avoid the specific, adverse impact.
- (4) If the Building Official determines that the proposed small rooftop solar energy system could have a specific, adverse impact upon the public health and safety, then the Building Official shall issue written *findings* notifying the *applicant* that:
 - (A) The permit for the small rooftop solar energy system is denied, and the basis for that denial in accordance with Section 141.0418(c)(2);
 - (B) Pursuant to state law, an *applicant* may appeal a decision of the Building Official in accordance with the appeal procedures in Section 141.0418(c)(5);
 - (C) To appeal the Building Official decision, the *applicant* shall file an application for a Process Two appeal hearing with the City Manager no later than 12 *business days* after the *decision date* by the Building Official; and

- (D) The *applicant* shall be responsible for all administrative costs associated with processing the appeal.
- (5) Process for Applicant to Appeal. Notwithstanding Section 112.0504, the Process Two appeal hearing shall be subject to the following:
 - (A) Persons Who Can Appeal. The decision of the Building Official may be appealed to the Planning Commission by the *applicant*. No other persons can appeal.
 - (B) Request for a Process Two Appeal hearing. The *applicant* may appeal a decision of the Building Official by filing an application for a Process Two appeal hearing with the City Manager no later than 12 *business days* after the *decision date*. The application shall include the contents for appeal identified in Section 112.0510(a).
 - (C) Grounds for Appeal. The decision of the Building Official may be appealed on the grounds that the stated *findings* to deny the permit pursuant to Section 141.0418(c)(4) are not supported by substantial evidence.
 - (D) Scheduling an Appeal Hearing. The City Manager shall assign a date for an appeal hearing before the Planning Commission no later than 10 calendar days after the date on which an application for the appeal hearing is filed with the City Manager. The appeal hearing shall generally be held within 60 calendar days following the filing of the application for the hearing.
 - (E) Power to Act on the Decision at Appeal Hearing. The Planning Commission may affirm, reverse, or modify the staff decision to deny a small rooftop solar energy system in accordance with the following:
 - (i) A decision to affirm the staff decision shall require a *finding* based on substantial evidence in the record that the proposed small rooftop solar energy system could have a specific, adverse impact upon the public health and safety.
 - (ii) If the Planning Commission determines that there is not substantial evidence that the small rooftop solar energy system could have a specific adverse impact upon the public health and safety, then the staff decision shall be reversed and the project shall be approved.
 - (iii) If the Planning Commission determines that conditions of approval would mitigate the specific adverse impact upon the public health

and safety, then the staff decision shall be reversed and the project shall be conditionally approved. Any conditions imposed shall mitigate at the lowest cost possible, which generally means the permit condition shall not cause the project to exceed 10 percent of the cost of the small rooftop solar energy system or decrease the efficiency of the small rooftop solar energy system by an amount exceeding 10 percent.

§142.0905 When Mechanical and Utility Equipment Screening Regulations Apply

This division applies to all multiple unit residential, commercial, and industrial *development* that proposes mechanical or utility equipment, whether or not a permit or other approval is required for the *development*, except that solar energy systems developed in accordance with Section 141.0418 are exempt from the mechanical and utility equipment screening regulations.

~~§142.0911~~ — Solar Energy Systems

- ~~(a) — Solar energy systems as an *accessory use* are exempt from the requirements of Section 142.0910(a) and from regulations requiring undergrounding of utilities.~~
- ~~(b) — Solar energy systems are permitted within rear and side *yards*.~~

§151.0103 Applicable Regulations

- (a) [No change.]
- (b) The following regulations apply in all planned districts:
 - (1) through (3) [No change.]
 - (4) Solar energy systems regulations contained in Land Development Code Section 141.0418.
 - ~~(4)~~ (5) Alcoholic beverage outlets regulations contained in Land Development Code Section 141.0502;
 - ~~(5)~~ (6) Adult entertainment establishments regulations contained in Land Development Code Section 141.0601; and
 - ~~(6)~~ (7) Child care facilities regulations contained in Land Development Code Section 141.0606; and

(7) (8) Parking Regulations for Reduced Parking Demand Housing in Land Development Code Section 142.0527, except where the Planned District Ordinance provides a lower parking ratio than allowed in Section 142.0527.

(8) (9) Medical marijuana consumer cooperative regulations contained in Section 141.0614, when that use is specifically allowed by the Planned District Ordinance.

§155.0238 Use Regulations Table of CU Zones

The uses allowed in the CU zones are shown in Table 155-02C:
