Article 9: La Jolla Planned District

Division 1: General Rules

$159.0101 Purpose and Intent

(a) It is the purpose of the La Jolla Planned District to require that
development and redevelopment of land in the central core area, outlying
neighborhood commercial centers, and the cultural and multi-family areas
west and north of the village commercial core of La Jolla will be
accomplished in a manner that retains and enhances the economic,
historical, architectural, educational, civic, social, cultural, and aesthetic values, and the overall quality of life within the community. The intent is to implement the goals and objectives of the adopted La Jolla Community Plan (1976), the La Jolla - La Jolla Shores Local Coastal Program Addendum (1983), and the Progress Guide and General Plan of the City of San Diego.

(b) In accordance with the public health, safety, and general welfare, these regulations are intended to protect the unique character of La Jolla by:

1. The maintenance and encouragement of a diversified and balanced land use pattern including adequate levels of community retail services and residential development opportunities within the commercial areas while limiting additional office use;

2. The protection and enhancement of scenic vistas to the ocean, shoreline and hillside areas;

3. The maintenance of traditional building scale and facades in new commercial developments;

4. The provision of plazas, courtyards, malls, and other public amenities which serve to enhance the pedestrian environment;

5. The encouragement of small lot development in keeping with the traditional rhythm and spacing of buildings along the major retail oriented streets;

6. The beautification of the streetscape through appropriate landscaping, street furniture, and sidewalk surface treatment;
(7) The protection of architecturally, historically and culturally significant structures;

(8) The prevention of commercial encroachment into adjacent residential development;

(9) The preservation and maintenance of cultural uses in the Cultural Zone;

(10) The preservation of the traditionally diverse and harmonious architectural styles, and design preferences reflecting the community's history and to encourage complementary design and construction; and

(11) The maintenance of the traditional scale and character of residential development bordering the commercial village core and shoreline areas.

(c) These regulations are intended to improve traffic circulation and access to recreation, visitor-serving retail, cultural and residential uses through specific restrictions on office development and the provision of off-street parking standards. The office restrictions and parking standards are consistent with the need to maintain the pedestrian scale of the commercial areas, reduce peak hour traffic congestion, and assure that office uses do not come to dominate such areas nor adversely affect the retail continuity of the major commercial streets. Additionally, these regulations are intended to ensure that new residential development and
redevelopment is compatible with the traditional scale and character of the multi-family area and complementary to the Cultural Zone.

§159.0208 Coastal Housing Determination of Residential Use Feasibility

(a) California Government Code Section 65590 mandates that local
governments enforce certain regulations dealing with housing projects
located in the Coastal Zone. Section 65590 (c) provides:
The conversion or demolition of any residential structure for purposes of a
nonresidential use which is not "coastal dependent," as defined in Section
30101 of the Public Resources Code, shall not be authorized unless the
local government has first determined that a residential use is no longer
feasible in that location. If a local government makes this determination
and authorizes the conversion or demolition of the residential structure, it
shall require replacement of any dwelling units occupied by persons and
families of low or moderate income pursuant to the applicable provisions.

(b) The San Diego City Council has authorized the City Manager to make the
initial determination as to the feasibility of residential use where such
determinations are required by Government Code Section 65590 (c).

(1) Government Code Section 65590 (g) contains the following
definitions:

(A) "Conversion" means a change of a residential dwelling,
including a mobilehome, as defined in Section 18008 of the
Health and Safety Code, or a mobile home lot in a mobile home park, as defined in Section 18214 of the Health and Safety Code, or a residential hotel as defined in paragraph (1) of subdivision (b) of Section 50519 of the Health and Safety Code, to a condominium, cooperative, or similar form of ownership; or a change of a residential dwelling, including a mobilehome, or a mobilehome lot in a mobilehome park, or a residential hotel to a nonresidential use.

(B) "Demolition" means the demolition of a residential dwelling including a mobilehome, as defined in Section 18008 of the Health and Safety Code, or a mobilehome lot in a mobile home park, as defined in Section 18214 of the Health and Safety Code, or a residential hotel, as defined in paragraph (1) of subdivision (b) of Section 50519 of the Health and Safety Code, which has not been declared to be a public nuisance under Division 13 (commencing with Section 17000) of the Health and Safety Code, or any local ordinance enacted pursuant to those provisions.

(C) "Feasible" means capable of being accomplished in a successful manner within a reasonable period of time, taking into account economic, environmental, social, and technical factors.
(2) The requirements of the statute must be met in all housing projects within the Coastal Zone, even if no other local government discretionary action is required. The City Manager will not approve permit applications which have not already satisfied the requirements of Government Code Section 65590. There are no exemptions provided for small projects, nor is occupancy or income level of tenants a factor that can be considered as part of the Government Code Section 65590 (c) review.

(c) A completed application must be submitted together with a statement of facts which support the applicant's contention that residential use of the subject property is infeasible based on specific economic, environmental, social and/or technical factors. The use designation identified for the property by the approved land use plan for the area and the applicable land development regulations (e.g., zone, planned district) should also be described in relation to residential use and the proposed nonresidential use of the property.

(d) This review is not desired to evaluate the merits of the proposed nonresidential use, but only to determine whether or not any residential use of the property is feasible. Moreover, if it is determined that residential use is not feasible, the project applicant may still be required to meet the requirements of City Council Policy 600-03 which implements the requirements of Government Code Section 65590 (b). The provisions
of Council Policy 600-03 are administered by the City Housing Commission.

§159.0210 Special Use Permit

(a) An application for a Special Use Permit may be approved, conditionally approved or denied by a Hearing Officer in accordance with Process Three. The Hearing Officer's decision may be appealed to the Planning Commission, in accordance with Land Development Code Section 112.0506 (Process Three Appeals).

(b) The Hearing Officer may approve the Special Use Permit if the following findings are made in addition to the findings specified for particular uses:

(1) The project is consistent with the Purpose and Intent Section of the La Jolla Planned District Ordinance (Section 159.0101);

(2) The project is consistent with the applicable Use and Development Regulations of the La Jolla Planned District Ordinance; and

(3) The project is consistent with the standards identified in Sections 159.0210 and 159.0211.

(b) Heritage Structure Preservation and Re-use

Any Heritage structure in Zones 1, 2, 3, 4 and 5 only, proposed for preservation and re-use not consistent with the Land Use and Density
requirements of the La Jolla Planned District Ordinance, shall comply with all of the following standards:

(1) The structure shall be evaluated by the Historical Resources Board which shall make a finding that the structure is worthy of preservation if one or more of the following appropriate findings can be made that:

(A) The structure is part of a historical event or personage in the development of the region.

(B) The structure is architecturally significant in that it exemplifies a specific architect, architectural style, or period of development.

(C) The structure is architecturally unique and worthy of preservation.

(D) The structure is an integral part of a neighborhood development style, and an important "part of the scene" of urban development.

(2) The project site and structure's rehabilitation proposals shall be reviewed by the Historical Resources Board for consistency with the building's and project site's design and historical conservation elements.

(3) The use and development regulations of the La Jolla Planned District shall apply except as follows:
(A) The project may be exempt from the permitted uses and density requirements of the La Jolla Planned District Ordinance, provided it can be proven that it is economically imperative to provide relief from such land use requirements. A Hearing Officer may approve, conditionally approve or deny, in accordance with Process Three. The Hearing Officer's decision may be appealed to the Planning Commission in accordance with Land Development Code Section 112.0506. The Hearing Officer may approve or conditionally approve the exemption if a finding can be made that the use and density will not negatively impact surrounding properties and the neighborhood, and will be consistent with the community plan.

(B) The project may be exempted from the standard parking requirements consistent with Section 159.0404 of the La Jolla Planned District Ordinance.

(C) Landscaping, planting and vegetation standards shall be consistent with the applicable development regulations of the La Jolla Planned District Ordinance, except when these standards conflict with heritage structure preservation or existing matured vegetation on site. The new landscaping proposed shall compliment the existing vegetation and
landscape design. The Historical Resources Board recommendations shall be considered in the City Manager's decision.

(c) Existing Cultural Use within Zone 6 Demolition

A Hearing Officer may approve, conditionally approve or deny, in accordance with Process Three, a Special Use Permit for the demolition, alteration, reconstruction or other change of any portion of an Existing Cultural Use within Zone 6. The permit may be approved or conditionally approved only upon the specific finding that such demolition, alteration, reconstruction or change is being made in conjunction with a permitted addition, enlargement, restoration or rearrangement of a permitted cultural use within Zone 6.

(d) Hotel/Motel Development (Including Timeshares)

Hotel and motel and timeshare development may be permitted in Zones 1, 2 and 3 only, subject to Special Use Permit if all the following findings can be made:

(1) The proposed project complies with all applicable use and development regulations contained in the La Jolla Planned District.

(2) The proposal consists of redevelopment of an existing hotel site, and/or additions to an existing hotel, and such additions do not exceed 30 percent of the existing hotel size, and number of rooms, or 20 guest units whichever is greater. Where the proposal consists of a new development, the maximum den density does not exceed
60 guest units per acre nor will the additional rooms cause the total number of new rooms in the Zone to exceed the amount indicated in Table 159-02A.

(3) The total number of new hotel/motel rooms and timeshares in any Zone shall not exceed the amounts indicated in Table 159-02A.

Article 9: La Jolla Planned District

Division 3: Zones

§159.0301 Planned District Zones

(a) The following six zones are created along the designated street corridors in order to maintain and encourage development of a land use mix consistent with each zone's use and function. The division into zones will set forth permitted uses, land use densities and allocations for ground floor uses consistent with the Local Coastal Program and Community Plan Guidelines, as well as special restrictions for the development of the cultural and multi-family zones, above ground parking facilities, drive through establishments, hotel/motel development, setbacks and access requirements.

(b) The boundaries of the six zones are designated on Drawing Nos. C-690.2 and B-3934.

(c) ZONE 1: Girard Avenue and Prospect Street

(1) This zone includes the primary retail and visitor oriented commercial area in the core of La Jolla. This area is characterized by high levels of pedestrian activity. Standards for this zone are
designed to maintain that pedestrian scale and continuity, and
preserve and enhance the retail development pattern of department
stores, and small retail shops and restaurants.

(2) Subarea 1A, included in this zone is comprised of the area on the
seaward or north side of Prospect Street from Cave Street to Eads
Street. This subarea has been identified because of its unique
orientation to the ocean. The La Jolla Planned District addresses
development standards for the protection and enhancement of
public ocean views.

(d) ZONE 2: Herschel Avenue

This zone includes an area characterized by community serving office
development intermixed with retail establishments. Development
standards for this zone are designed to permit the limited grouping of
community serving professional offices, and to encourage residential uses
to provide a transition zone to the single-family residential areas to the
east.

(e) ZONE 3: Fay Avenue

This zone includes an area characterized by a mixture of community
serving offices and retail establishments. Development standards for this
zone are intended to maintain that community serving retail/office balance
and encourage residential uses to provide a transition zone to the multi-
family residential areas to the west.

(f) ZONE 4: Pearl Street and La Jolla Boulevard
This zone includes neighborhood commercial areas characterized by small retail shops. Development in this zone is dominated by community serving and visitor service retail uses. This area, unlike the other zones, is automobile oriented because of its location along major streets. Development standards for this zone are intended to maintain the retail community serving and visitor serving uses, and encourage the development of some community serving offices, and residences.

(g) ZONE 5: Multi-Family Zone

(1) This zone includes the multi-family area to the west and north of the commercial core area and extends northward, northwestward and westward to the shoreline. This area is of major importance due to its location adjacent to the shoreline, its relatively higher density and its location as the connecting link between the commercial core and the scenic shoreline and bluffs areas. Standards for new residential development and for redevelopment are intended to maintain the scale and character traditionally associated with these older residential portions of the village.

(2) Subarea 5A, included in this zone, comprises the area on the seaward, or northwesterly, side of Prospect Street from Eads Avenue to La Jolla Boulevard. This subarea has been identified because of its unique orientation to the ocean. The standards are intended to protect and enhance public ocean views.

(h) ZONE 6: Cultural Zone
(1) This zone includes a unique assemblage of cultural uses representing the distinctive architectural, cultural, educational and historical heritage of La Jolla. A large portion of the properties in the zone were donated to the institutional cultural users who have enjoyed the privilege of a tax-free status for their entire existence. The regulations are intended to provide that the highest land use priority shall be reserved for these existing cultural uses. The design standards are intended to maintain the area's unique architectural appearance and scale.

(2) Subarea 6A, included in this zone, comprises the area on the seaward, or northwesterly, side of Prospect Street from approximately Eads Avenue to approximately Cuvier Street. This subarea has been identified because of its unique orientation to the ocean. The standards are intended to protect and enhance public ocean views.

§159.0302 Permitted Uses

The following regulations apply to all the zones and are not subject to modification or variance except as noted. No building or improvement or portion thereof shall be erected, constructed, converted, established, altered, or enlarged, nor shall any lot or premises be used except for one or more of the following purposes:

(a) Zones 1, 2, 3 and 4 –
(1) Retail establishments as identified in Appendix A of the La Jolla Planned District, subject to the ground floor and street frontage requirements of Section 159.0306.

(2) Offices, subject to the ground floor and street frontage requirements of Section 159.0306, and density requirements of Section 159.0307(c)(1).

(3) Residential Development which shall be limited to 29 dwelling units per net acre and subject to the development controls of the La Jolla Planned District.

(4) Hotels/Motels in Zones 1, 2, and 3, subject to a Special Use Permit, provided that the required findings are made as identified in Section 159.0211(c). Hotels/Motels are not permitted in Zones 4, 5, or 6.

(5) In Zones 1, 2, 3, and 4, other uses which shall be permitted, subject to a Special Use Permit consistent with Sections 159.0210 and 159.0211 of the La Jolla Planned District, are as follows:

(A) Private clubs, fraternal organizations and lodges

(B) Churches and religious facilities

(C) Civic buildings

(D) Public and private libraries

(E) Other uses designated in Section 151.0401 that are permitted in other commercial zones of the City under a Conditional Use Permit are permitted in Zones 1, 2, 3 and 4

40
provided they are processed as a Special Use Permit and comply with all the requirements and standards of Sections 159.0210 and 159.0211 of the La Jolla Planned District.

(b) Zone 5 -- Residential development or redevelopment which shall be limited to 29 dwelling units per acre shall be permitted. In addition, those cultural uses, and accessory uses thereto, listed in Appendix E, are permitted with a Special Use Permit in accordance with Section 159.0211(n).

(c) Zone 6 -- Only cultural uses and accessory uses thereto, as listed in Appendix E of the La Jolla Planned District shall be permitted.

(d) Parking Lots and Parking Structures:

1. Surface parking lots (including street level roof areas of underground parking structures) complying with the requirements of Section 159.0404(g).

2. Above ground parking structures, may be permitted with a Special Use Permit in Zones 2, 3, 4, or 6 subject to the provisions in Section 159.0211(h) of the La Jolla Planned District Ordinance. Above ground structures are not permitted in Zones 1 or 5.

§159.0303 Change of Use

A change of use that requires compliance of the project with the La Jolla Planned District is any change of use that includes but is not limited to the following:

(a) Residential use to any type of commercial use including offices and retail;
(b) Commercial retail or service establishments to banks or savings and loans, business or professional offices, or restaurants;

(c) Banks or savings and loans to business or professional offices, or restaurants;

(d) Business or professional offices to restaurants;

(e) Restaurant to office or retail;

(f) A non-drive-thru use to a drive-thru use;

(g) Any use to a timeshare project; and

(h) Any change of an establishment or tenancy which would require an increase in the number of off-street parking spaces based on the parking ratios contained in Section 159.0404, or would affect the street level use requirements of this ordinance as identified in Section 159.0306.

(i) Any change from an Existing Cultural Use within Zone 6 to any other use. Demolition of all or any part of an Existing Cultural Use within Zone 6 shall be considered a change of use.

(j) No use (vacant) to any use.

§159.0304 Previously Conforming Uses

Land Development Code Chapter 12, Article 7, Division 1 (General Review Procedures for Previously Conforming Premises and Uses) applies except that expansion or enlargement of previously conforming uses is not permitted. Any change in building facade materials or colors shall conform to the provisions of the La Jolla Planned District.
§159.0305 Accessory Uses

An accessory use is intended to serve only the occupants of the principal permitted uses on the premises and not the general public. It shall be permitted only if it complies with all of the following requirements:

(a) Accessory uses shall be limited to those uses which are customary, incidental to, related to and clearly subordinate to a permitted principal use established on the same premises. In Zones 5 and 6, accessory uses are limited to those uses listed in Appendix E.

(b) The combined gross floor area of all accessory uses on any premises shall occupy not more than 20 percent of the gross floor area occupied by the principal permitted uses.

(c) All accessory uses shall be located in the same building or buildings which they serve with the exception of loading areas or refuse collection areas. There shall be no entrance to any accessory use except through a foyer, lobby, fully enclosed court or a similar interior area.

(d) In Zones 5 and 6, no signs, displays or advertising relating to the accessory uses shall be visible from any street.

Please refer to Appendices B and C for illustrations of the development regulations.

(a) Minimum Lot Area and Dimensions

(1) In all zones the minimum lot area size shall be 2,500 square feet, with a minimum frontage of 25 feet and a minimum lot depth of at least 100 feet, except as indicated in 159.0307(a)(2).

(2) Any lot which qualifies under the definition of a lot as set forth in the La Jolla Planned District and which does not comply in all respects with the minimum lot dimensions specified herein may nevertheless be used as permitted and otherwise regulated by the provisions applicable to the La Jolla Planned District, consistent
with Land Development Code Section 113.0103 and Section 113.0237.

(3) Lot Splits

(A) Where any lot legally existing as of October 1, 1984, is subsequently divided into two or more lots, the maximum total combined area of office use on all lots resulting from the division shall not exceed the square footage limitation listed for the zone in which the lots are located prior to lot subdivision. See Section 159.0306.

(B) For purposes of the square footage limitations in the La Jolla Planned District, a parcel shall be defined as any contiguous piece of land which as of October 1, 1984, was comprised of one or more lots which were occupied generally by one building development, or by a general parking area, or was vacant, or any combination of the foregoing. Lot split requirements shall be as indicated in Section 159.0307(c).

(C) No parking exceptions shall be provided for newly created lots smaller than 6,000 square feet.

(b) Yard and Setbacks

Except as provided in Section 159.0402, the following minimum yard and setback requirements shall be observed:

(1) Front Yards
(A) Zones 1, 2, 3 and 4 -- No requirement.

(B) Zones 5 and 6 -- A 15-foot minimum front yard is required, measured from the front property line to the building. A five-foot maximum encroachment into said yard may be approved, provided such encroachment does not exceed 50 feet in total length for any one encroachment and further provided that an additional equivalent landscaped area is provided directly in front of the building and behind and adjacent to the required yard (see also Section 159.0307(b)(6), and Appendix G).

(2) Street Side Yards

(A) Zones 1, 2, 3 and 4 -- No requirement.

(B) Zones 5 and 6 -- A 10-foot minimum yard is required. A 3-foot encroachment into said yard may be approved, provided such encroachment does not exceed 50 feet in total length for any one encroachment and further provided that an additional equivalent landscaped area is provided directly in front of the building and behind and adjacent to the required yard. (See also Section 159.0307 (b)(6), and Appendix G).

(3) Interior Side Yards

(A) Zones 1, 2, 3 and 4 -- None required, except that a four-foot side yard shall be provided if any portion of the side lot line
abuts residentially zoned property. Such side yard shall be
increased seven feet for any building height above 20 feet.

(B) Zones 5 and 6 -- A four-foot minimum yard is required.
Such yard shall be increased to seven feet for building
heights above 20 feet.

(4) Rear Yards

(A) Zones 1, 2, 3 and 4 -- None required, except that a 15-foot
rear yard shall be provided if any portion of the rear lot line
abuts residentially zoned property. Such rear yard shall be
increased three feet for any building height above 20 feet.

(B) Zones 5 and 6 -- A 15-foot minimum rear yard is required.
Where the rear yard fronts along an alley, the rear yard may
be reduced to 10 feet.

(5) Street Frontage Setback

All Zones -- A minimum 16-foot setback, measured from the curb
to the building, shall be required. This is a separate requirement
that must be met in addition to any front yard setback required by
Section 159.0307(b)(1). See Appendix B.

(6) Street Corner Lot Setbacks

(A) Zones 1, 2, 3 and 4 -- A building on a street corner lot shall
be set back behind an imaginary line that connects a point
on each of the street front property lines which is distant
from the corner by a length equal to 20 percent of the
parcel frontage along that street, or 20 feet, whichever is less. See Appendix B. A 20 percent setback deviation at the property line may be approved as long as an additional equivalent area is made available behind the imaginary line linking the setback points at the property line.

(B) Zones 5 and 6 -- Refer to Section 159.0402 for requirements.

(c) Floor Area Ratio

(1) Maximum Base Density. Except as provided in Section 159.0307(c)(2), the maximum development density shall be as indicated in Table 159-03D.
