THE CITY OF SAN DIEGO

Excavation Moratorium Waiver

FORM
DS-350

OCTOBER 2014

This form shall be used when a waiver is requested in accordance with Municipal Code Section [§62.1206](#) & [§62.1207](#) - Excavation Moratorium Waivers. Excavations shall not be permitted in a moratorium street without a valid moratorium waiver. Not all requests will be granted. Please fill out the form thoroughly and explain the need to waive the moratorium. This completed form may be submitted with the construction plans for the proposed work.

1. Project Name: _____ **Project Number:** _____

Project Address: _____

2. Property Owner/Permit Holder Name: _____ **E-mail:** _____

Address: _____ **City:** _____ **State:** _____ **Zip Code:** _____

Telephone: _____ **Fax Number:** _____

3. Describe the Scope of the Work:

Street/Road: _____ Between: _____ and: _____ is a Moratorium

Street as defined in Municipal Code Section [§62.1203](#) for: Overlay Slurry

The Moratorium Expires on: _____ **Street Classification:** Residential Collector Major Arterial

4. Based on the scope of work, the project qualifies for a waiver due to one or more of the following reasons:

(Check all that apply)

- An emergency exists that:
 - Endangers the health and safety or property of the citizenry; and
 - Requires excavation in order to remediate the emergency.
- New service to a specific location cannot be provided either:
 - Through existing conduit.
 - Where trenchless technology is impractical due to one or more of the following:
 - Soil conditions
 - Proximity of facilities
 - Where trenchless technology is economically impractical compared to trenching and resurfacing performed in accordance with approved standards.
 - The Public Utility demonstrates to the City Engineer's satisfaction that the service cannot be provided from another location.
- The installation relocation by non-government owned Public Utility is both:
 - Required by the City, County, State or Federal Government; and
 - Not required as a result of an underground utility district established pursuant to Section [§61.050](#).
- Only a Non-Linear Excavation or an exploratory excavation will be made. The City Engineer may authorize an exploratory excavation with an area not to exceed five feet by five feet.

Printed on recycled paper. Visit our web site at www.sandiego.gov/development-services.

Upon request, this information is available in alternative formats for persons with disabilities.

Add any additional information and any additional justifications for the proposed work (*attach additional sheets if necessary*).

5. Resurfacing Requirements (*check circumstance that applies*).

By approval of this Moratorium Waiver, the requester agrees to repair and resurface the street in accordance with the City of San Diego Municipal Code Section [§62.1208](#) and [§62.1209](#), and follow required City of San Diego Standard Drawings and specifications.

- The excavation is in the direction of traffic. The excavator shall resurface the entire excavation area plus the excavation influence area on each end of the excavation area, and the entire width of the street from curb to curb or where a raised median is present the excavator shall resurface from curb line to raised median.
The influence area extended around the perimeter of the excavation is _____ inches.
- The excavation is perpendicular to the direction of traffic. The excavator shall resurface the entire length of excavation from curb to curb or for the length of the excavation plus the excavation influence area extending on each end of the excavation, whichever is less. The resurface shall also include the excavation area plus the excavation influence area on each side of the excavation area.
The influence area extended around the perimeter of the excavation is _____ inches.
- A raised median is present and the excavation is perpendicular to the direction of traffic. The excavator shall resurface either from the raised median to the curb or for the length of the excavation plus the excavation influence area extending on each end of the excavation, whichever is less. The resurface shall also include the excavation area plus the excavation influence area on each side of the excavation area.
The influence area extended around the perimeter of the excavation is _____ inches.
