Honorable Frank Curran, Mayor  
&  
Honorable members of the San Diego City Council:

Gentlemen:

The Club Social Latino, as well as many other Social & Civic Organizations, has received a plea from our younger generation of Mexican-American scholars for our support in their efforts to secure for their meritorious use in Cultural development, the "Ford" building which is in Balboa Park.

The scholars of reference herein, are called "Los Toltecas de Aztlan" and they maintain an office at Centro de Estudios Chicanos, Campanile Drive, San Diego State College.

Our Club Social Latino, by unanimous vote, has decided to support the petition of the above named organization of our youth, in keeping with the aims and goals of our own organization, "To aid in the Cultural Development of Mexican-Americans." We are proud to see our youth take an active interest in Cultural and work skills development (for they include carpentry) at a time when so many others are joining the ominous ways of militancy.

Respectfully yours,
