W. A. BOLTON, MANAGER

22 YEARS IN SAN DIEGO

L. BOLTON, SECRETARY

1901 EL CAJON AVE.

SAN DIEGO, CALIFORNIA

April 4, 1935.

City Council,
San Diego, Calif.

Gentlemen:

Not with intent to meddle and not questioning your individual and collective ability, I want to suggest that STREET CARS, unable to turn out or stop suddenly for other traffic, should not be allowed more speed than at present.

If it is permitted, the chances are that there will be many more accidents.

Another matter of utmost importance is the matter of horribly rough roads in our most beautiful park.

Hundreds of men are PLAYING with picks and shovels and raking up leaves somewhere or nowhere----. Why not put our CITY ROAD EQUIPMENT to work with these men and

PAVE THE ROADS IN BALBOA PARK.

Florida Street (Powder Canyon) was cut thru but too poor to travel.

EIGHTH STREET extension running thru the PARK is usually too rough to travel. The South side of the park from Sixth to Ninth is a disgrace (DATE STREET)... With all the SERA MONEY and Men really WASTING, why not use it so that when people come to see San Diego's Fair or Exposition, they may, at least have pavement instead of rough ranch roads to ride over ????

This is not for publication but thousands of us feel the same way. Hope you'll use every influence to improve these roads.

Thank you
