Honorable Mayor and Council of the City of  
San Diego  
Civic Center, San Diego, California

Gentlemen:

Mr. Forrest Hiatt has done a great deal over the past years to advertise San Diego to the floral industry of the country, and I am sure you gentlemen know that he has propagated several roses of unusual beauty.

I have looked over his plans for a rose garden in Balboa Park, and if this plan could be worked out over the next several years, so that the expense would not fall on the City in one year, I think it would be well worth the time, money and effort expended for it, as it would be, in my opinion, an attraction for the kind of people we want in San Diego. I feel that there is no one in the City more competent to undertake a project of this kind than Mr. Hiatt, whom I have known for a great many years.

I hope that you can give this your very serious consideration, and thanking you, I am

Sincerely yours,

HAL G. HOTCHKISS
