

San Diego, California
November 17, 1955

The City Council of San Diego
San Diego, California

Sirs:

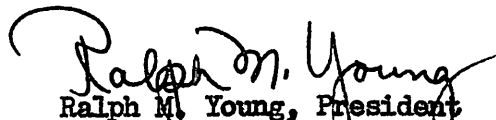

We request that the San Diego City Council give serious consideration to including a cross country course in the master plan for Balboa Park, the course to be established in the region adjacent to and south of Morley Field.

In recent years various places have been used for cross country courses. As the city has developed and expanded, each of these courses have been done away with.

In this sport, when a boy is tired and straining to do his best, he cannot be expected to watch out for cars at street crossings. The area near Morley Field is ideal in that an excellent course could be laid out in a region completely away from automobile traffic.

It is our belief that it can be established at little cost without detriment to any part of the present master plan and would serve a very useful purpose as well as an athletic center for the youth of the community.

Respectfully submitted,

Ralph M. Young, President
San Diego Track Officials Association
