That the said party of the second part shall cause its said water pipe lines to be so located as to do the least damage consistent with good engineering, and whenever any property shall be destroyed or damaged, it shall be paid for at its actual value, and all waste material to be deposited in a neat and uniform manner and in such form and position to do the least damage to the lands on which the same is deposited.

That said right of way hereby granted to said second party shall be used by it as a portion of its right of way for the extention and maintenance of water mains for the City of San Diego and not otherwise.

That in the event of damage to any of the crops or trees now on or which may be hereafter planted or grown on the lands of the said first parties in said Otay or National Ranchos, occasioned by or arising out of the party of the second part, its agents, employees or licensees in crossing over the lands of the first parties, exclusive of said right of way, the amount of such damage or loss shall be paid by second party to said first parties.

The said party of the second part hereby agrees to construct a road at its own cost and expense from a point near the westerly side of said Quarter Section 24 and running thence easterly to a point near the center line of Quarter Section 14, said road to be along the right of way or as close thereto as near as may be and the said party of the second part further agrees to remove within thirty days from date hereof the present existing fence located along the northerly line of the present pipe line of second party across Quarter Sections 14, 17 and 24 of said Otay Rancho to the south side of said right of way of second party now running through said sections, and to erect said fence along the south side of said right of way and on the southerly side of the above mentioned road.

IT IS UNDERSTOOD AND AGREED that the first parties and their heirs, successors, assigns and lessees shall at all times have the right to take water for the domestic purposes as hereinafter defined from said pipe lines, at the same rate and subject to like conditions, rules and regulations as those fixed and made applicable from time to time to other consumers obtaining supplies of water from said pipe lines; provided, that the right hereby granted to take water from said pipe lines under this clause shall be limited to not to exceed twelve three-quarter inch services in all, over, along and across the Otay Ranch and that portion of the Rancho de la Nacion lying south of the Telegraph Canyon County Road owned by the parties of the first part, which are the taps heretofore mentioned and were granted by said City to R. E. Harrison Company by agreement made and entered into May 28, 1923.

The parties hereto agree that the term "domestic purposes" shall be defined and construed to include water used for household use, live stock, horses, cattle and sheep, lawn and shrubbery and ordinary house gardens.

There is hereby reserved to the said first parties the right where said pipe lines or conduit is covered to a sufficient depth so that no damage shall result or where the conduit is in tunnel, to cross and recross, haul seed, farm implements, crop produce and transport any and all equipment incident and necessary to the operation of farming and improvement of the lands held on either side of the right of way hereby granted by said first parties; provided that where any damage shall result to the property of said City, including its pipe lines, conduits or tunnels, caused by such crossing or recrossing, cropping or cultivating or otherwise from such use the said first parties shall be liable therefor and shall pay the actual amount of such damage.

Incident to and as a part of this agreement the City of San Diego agrees to permit the owner, his heirs, successors, assigns and lessees of property herein mentioned and lying contiguous to tunnel sections of the conduit and such other portions of the right of way across said Otay Rancho and that portion of the Rancho de la Nacion lying south of the

Telegraph Canyon County Road which may be used without injury to the City's pipe lines, to crop and cultivate the surface of the ground in the right of way above the tunnels or where otherwise permitted so long as it shall not interfere in any manner with the construction, operation and maintenance of the tunnel and pipe lines and their appurtenances by the City of San Diego.

As shown on sheet A-1 and 2 attached drawing, the material taken from the South Portal of tunnel #1 shall be placed on the ground as near as practicable within the space designated "Proposed dumping area".

As shown on Sheet B of attached drawing, the City of San Diego does agree to provide and maintain a drainage channel about 320 feet in length with 8 foot base $1\frac{1}{2}$:1 side slopes during the depositing of material from the south portal of Tunnel No. 2 and the north portal of Tunnel No. 1 and thereafter the City shall maintain this storm and drain channel free and clear at all times. If the space of the channel is required in disposing of excavated materials the City shall provide, install and maintain adequate culvert pipe.

As shown on Sheet C of attached drawings of north portal Tunnel No. 2 the City agrees that the new material shall be so deposited as well as the old material already dumped shall be leveled down in such manner as to permit of plowing and farming without damming up the cross drainage and rendering the valley land unfit for farming.

As shown on Sheet D of attached drawings the material taken from tunnel No. 3 at its south portal shall be placed on the ground as near as practicable within the space designated "Proposed dumping area".

The City of San Diego does agree, as shown on drawing Sheet E north portal Tunnel No. 3, if necessary or expedient, to provide the necessary concrete drain pipe culvert and head wall and also to move if necessary the present pumping plant located vicinity north portal of tunnel No. 3 about ten feet in a southwesterly direction, placing same on a suitable concrete foundation and again connecting the pump with the intake line to the City's main pipe line and to the discharge line of the R. E. Harrison property. Where possible, proper care shall be taken to place the best earth on the surface of all deposited material.

IT IS HEREBY COVENANTED AND AGREED by and between the parties hereto that this grant of easement shall not become effective for any purpose whatsoever until the said party of the second part shall abandon and second party by these presents does abandon all that portion of a certain easement and right of way for pipe line granted by R. E. Harrison Company, a corporation, on May 28, 1923, and recorded in Book 937 of Deeds at page 463, records of San Diego County, California, and described as follows:
