A Message from the Mayor is presented and read as follows, to-wit:
"TO THE HONORABLE COMMON COUNCIL, December 9th, 1924.
OF THE CITY OF SAN DIEGO, CALIFORNIA.

GENTLEMEN:

I am returning herewith document #166568, being an ordinance passed by your Honorable Body on December 1st, 1924, appropriating the sum of \$1745.00 from the Reserve Fund. I am returning this ordinance with my veto for the following reasons:

1. - It appropriates money for the payment of claims which have never been properly authorized.

2. - That the conditions that this ordinance proposes to relieve were not and are not emergencies that can be construed as constituting a public emergency requiring immediate action to preserve the public peace, health and safety.

3. - That the Reserve Fund of the City is provided by the Charter as a fund to be held for real public emergencies and not as a convenience fund to be used when other funds are not easily available and that this fund should be regarded as a trust to be guarded for use in real emergencies.

I submit the following as being the facts as nearly as I can determine them. One Thousand Dollars of this money is for the payment of Gen. Goethals who came here just previous to the recent Water Bond Election, spent only a few hours in the City and rendered some sort of a report which as far as I know has not been made public. I can find no authorization for his employment, either directly or indirectly, even Resolution #32152, adopted September 2nd, 1924 authorizing Mr. Rhodes to render a report for water development, specifies that it is to be "based upon engineering reports on file -----"

Practically all the balance of the appropriation in the ordinance is for payment of a Mr. Hoopes who did some sort of work in designing a dam for El Capitan and made some calculations.

Both of these expenditures might be legitimate but certainly should be taken from other than emergency funds, if a proper charge against the City.

The Council criticized Mr. Freeman for stepping outside the bounds of the Ordinance authorizing his employment, and without any authorization whatever the Council could hardly consistently justify the employment of an engineer at a fee of what appears to be \$1,000.00 for one day's work.

As I understand it, General Goethals was brought to San Diego by one Councilman. If this action was sanctioned by the Council it would seem that a direct appropriation for his payment should be made from the proper funds, the ordinance stating exactly what the money is to be used for.

(Signed) John L. Bacon
Mayor. "
