Said returns, and the canvass thereof, showed the following results:

For the proposition to annex State College Grounds----- Yes-----4 Votes.

Against the proposition to annex State College Grounds ----- No. -----0 Votes.

Thereupon, a Resolution No. 54335, recorded in Book 55 of Resolutions, declaring the result of the Special Election held in certain territory designated as State College Grounds, in the County of San Diego, State of California, for the purpose of the submission of a proposition to annex certain additional territory designated as State College Grounds to the City of San Diego, on the 16th day of July, A.D. 1930, was presented, read and on motion adopted by the following vote, to-wit: Ayes--Councilmen Alexander, Dowell, Irely, Maire, and McMullen. At this time the Special Committee, consisting of the City Clerk, City Attorney, City Auditor, and City Treasurer, made the following report on the sale of four hundred thousand dollars (\$400,000.00) City of San Diego El Capitan Bonds:

On considering the bids submitted, several were reported that were not in accordance with the notice inviting bids nor the way authorized by the people at the time the bond issue was submitted, in that alternate bids were received based on rates of interest less than 5% as per invitation.

The unanimous recommendation of your Special Committee is that consideration be given only to those bids which are based upon the 5% rate and which are in full accordance with the notice inviting such bids.

Although the last ruling of the City Attorney is to the effect that based on recent court ruling the council may by resolution, previous to sale, change the rate of interest on bonds authorized, such court decision was in reference to bonds the total issue of which would be unsold at the time of council action.

In the present instance with a total sale of \$1,230,000.00 of which \$680,500.00 remain outstanding as of June 30, 1930, all having coupons showing a rate of 5% interest, it is his opinion that it now is impracticable to attempt to change the rate of interest, and furthermore, the entire stock of unsold bonds is printed, showing throughout the 5% rate. To issue any conflicting securities would lead to injustice to holders of same, and confusion in accounting.

It is hereby recommended that the bid of National Bank Italy and Associates, San Francisco, with premium of \$32,713.00 being highest and most favorable of all considered, be accepted.

Thereupon, after considerable discussion on the matter, on motion action was withheld until Wednesday, July 23rd, 1930, at the hour of 11:30 o'clock A.M.

A message from the Mayor was presented and read as follows, to-wit:  
 "August 16th, 1930.

To The Common Council  
 City of San Diego.  
 San Diego, California.  
 Gentlemen:

I am returning herewith, Document #259777 being a proposed ordinance amending Ordinance #7376 relating to Dairy products, with my veto.

This proposed Ordinance would amend Ordinance #7376 of the City of San Diego, by adding thereto, two new sections, which sections would in effect, require that all milk that is sold in the city of San Diego, be produced in a County wherein only cows which are regularly tuberculin tested and found to be non-reactors, are permitted to be kept for dairy purposes. The herds of San Diego County, have for sometime past, met that requirement. Indeed, San Diego County is the only County in California, if I am correctly informed, that could meet those requirements. This feature of the Ordinance would insure to the consumers

of milk, that they were purchasing milk of a very high grade. I agree with you in desiring for our citizens, milk that is pure and satisfactory for consumption.

This proposed amendment also provides, that before milk shall be sold in the city of San Diego, it shall meet the following requirements, "Milk shall be delivered to the Distributing Plant in San Diego within four hours after the completion of each milking". This clause appears to me, to be objectionable and unnecessary. It seems to go beyond the requirements of assuring to our people, the proper milk. I fail to see where this would add anything to the safety of our milk supply or give protection to the producers. On the other hand it is objectionable in that it would in effect, place a wall around San Diego County, as far as milk supply is concerned.

This proposed amendment will allow Cream produced from milk of a grade not lower than Grade (A) milk for pasturization, and produced on Dairies scoring not less than seventy percent, and produced from herds from which all tuberculin reactors have been removed, may be sold. This will raise to a very high standard, the cream brought into the city of San Diego, and will assure to all consumers, that not only the milk, but the cream will be of a high standing.

The statements of Dr. E.M. McDonald member of the State Dairy Board, Dr. Lesem, our own Health Officer, and Dr. Warren Fox Health Officer of Imperial County, was to the effect that with the observance of the other conditions prescribed in the Ordinance, for the production, that the time limit from the milking to the Distributing Plant, is not of paramount importance, and as San Diego is attempting to build up among the Counties of Southern California, a feeling of cooperation and support, and is attempting to make of San Diego and of its Harbor, a business and distributing point for this end of the state, it seems not good tact to unnecessarily place in the Ordinances of this city, a provision that is not necessary in insuring our people of a proper milk and cream supply.

I am also mindful of the fact that there is at least, some doubt as to whether the clause compelling deliverance to the distributing plants in San Diego within four hours after completing of each milking, could be sustained in Court.

Respectfully submitted  
(signed) Harry C. Clark  
Mayor."

Thereupon, on the adoption of the Ordinance notwithstanding the Mayor's Veto, the roll call showed the following vote, to-wit: Ayes--Councilmen Dowell. Noes--Councilmen Alexander, Irely, Maire, and McMullen. Absent--None. Thereupon, the President declared the veto sustained.

A message from the Mayor was presented and read as follows, to-wit:  
August 21, 1930

TO THE MEMBERS OF THE CITY COUNCIL.  
Gentlemen:

I am returning herewith Document No. 259776, being a proposed ordinance placing Normal Heights and vicinity into various zones, with my veto.

The Planning Commission prepared a preliminary zoning of the area covered by this proposed ordinance. Proper notices of a hearing were posted. A Copy of the notice of zone hearing is attached to this veto as an exhibit. This shows that the original thought of the Planning Commission as to the zoning of Villa Lots 82, 83, and 84, Normal Heights, was that it should be placed in Zone R-1.

On or before said hearing an application was made by the owners of Villa Lots 82, 83, and 84 to change the zoning of said lots from Zone R-1 to Zone R-4. This request, I understand, was considered by the Planning Commission and was temporarily granted on the understanding that it was satisfactory to the neighborhood involved. At a hearing before the Planning Commission a protest was filed objecting to the zoning of the heretofore mentioned lots as Zone R-4 and requesting that they and all the other property in this neighborhood should be retained in Zone-R-1. After consideration the Planning Commission unanimously made such a recommendation to the City Council, forwarding the zone map showing their recommendations.

The Council, by this ordinance, has changed the recommendation of the Planning Commission. This has been done without any notice of zone hearing or any opportunity for the property owners in this district to make objections.

The legality of zoning when done by the Council without giving proper notice of hearing and giving property owners an opportunity to express themselves is, to say the least, very doubtful. All zoning laws are difficult to sustain and in the event of a contest good reasons for discrimination in zoning must be presented. In this particular case there was presented a request for the exclusion of the three lots heretofore referred to, by the attorney-in-fact of the owner and a communication from the owner of lot 85. On the other hand there was presented to the Council the objection to the placing of these lots in Zone 4 by a large percentage of property in this neighborhood. These facts, together with the recommendation of the planning commission, are the reasons that I have in mind in saying that the legality of this ordinance is doubtful.

A Great deal of weight should be given to the recommendations of the Planning Commission who are giving consideration and study to these problems.

Whether the zoning is carried on by the Planning Commission or by the Council directly it should not be done without proper notice of zone hearing and a full opportunity being given to property owners to express their desires in the matter. The fact that this was not done is a reason for this veto.

Respectfully submitted,  
Harry C. Clark  
Mayor.

"February 11, 1931

To The Common Council  
City of San Diego, California.  
Gentlemen:

I am returning Document #265003, being a proposed Ordinance regulating interior and exterior lathing and providing for the licensing of lathing contractors.

I have been unable to satisfy myself of the need of this ordinance. Under the Uniform Building Code now in general use on the Pacific Coast, the chapter on Plastering, also provides for lathing, which would indicate that the policy of providing for lathing under plaster regulations, is still the general policy. It seems to me that having one party responsible for lathing and one for plastering will make it more difficult to fix responsibility in case of unsatisfactory work. For these reasons, I cannot give my approval to this Ordinance, so I am herewith returning it with my Veto.

Respectfully submitted  
Harry C. Clark, Mayor"

Thereupon, on the adoption of said ordinance notwithstanding the Mayor's Veto, the roll call showed the following, to-wit: Ayes--Councilmen Dowell, and Maire. Noes--Councilmen Alexander, Bennett, and Irely. Absent--None.

Mrs Dowell presented amendments to the ordinance, which were read.

Councilman Dowell made a motion to adopt the amendments, but there was no second to the motion.

 To accomplish the construction of the upstream portion of the base of a projected major impounding dam, which first construction may serve as a diversion dam for the diversion of the unregulated and /or impounded waters of the river and may be heightened ultimately to accomplish a major impounding reservoir; and  
 To first negotiate for the acquisition of the necessary lands for reservoir purposes and rights-of-way for temporary and permanent roads; to prepare and file drawings and specifications with the State of California, Department of Public Works and make the necessary application for approval of the construction of the dam; and to move a reach of the City's existing El Capitan pipe-line necessary to prevent its being submerged; and to acquire, install and operate necessary pumps to avail all the unregulated flow and/or impounded water of the San Diego River up to 15,000,000 gallons of water per day until a gravity pipe-line is installed from the mission reservoir to the municipal distributing system; and to install a silt removing trap or sedimentation basin to desilt the unregulated flow of the river during periods of excessive turbidity; and to provide or construct such tem-

A message from the Mayor was presented and read as follows, to-wit:  
"27 July 1931.

The Honorable, the Common Council,  
City of San Diego, Calif.  
Gentlemen,

Herewith I am returning, without my approval, the ordinances attached. My reasons for exercising the veto power given me by the provisions of the city charter, are in this instance, as follows:- That this will deplete the Reserve Fund to approximately \$20,000, which is an insufficient amount to meet the requirements of the city from this fund, based on previous experience and anticipated needs, now apparent.

For your guidance, the following facts are presented:

(a). Attached hereto is an itemised statement of the moneys transferred from the Reserve Fund for the Fiscal Year 1930-1931, which you will note is \$233,533.17. Deducting the major item No. 13084, it leaves a balance of \$126,011.35.

(b). Forty Thousand dollars alone was transferred for unemployment relief. I cannot conceive of that emergency being less during the coming winter; the prospects are that it may be even greater.

(c). The average miscellaneous items each fiscal year, for strict emergency, appear to show that more than \$50,000 per year is necessary to be used for this fund. This is composed of annual storm damage which for 1930 was \$8500, for 1929, \$5000; for 1927, \$34,000; pipe line repairs for two years reached \$25,000 per year. Bridge repairs, rewards for homicide cases, reservoir repairs, special legal cases, emergency drainage work, settlement of claims for damages, etc.

(d). Not the least important is the fact that the State Engineer has ordered this city to repair the Hodges Dam as set forth in the bond election, in the amount of \$160,000, it requiring two-thirds vote to carry, if the election loses, the city must repair the dam or be confronted with the State Engineer turning the water out of the dam. It is obvious that the money would have to come from some such source as the Reserve Fund. It is my belief that to begin the year with less than from \$50,000 to \$75,000 in this fund is ill advised.

Respectfully

Walter W. Austin, Mayor of San Diego."

Thereupon, on motion to adopt the ordinances, one appropriating \$32,500.00 from Reserve Fund in part payment of special engineering services of Vernon Charles LeClerc, R. Robinson Rowe, Alfred Pierce and Paul R. Watson, and the other appropriating \$2250.00 from Reserve fund in part payment of Engineering services rendered by R. Robinson Rowe, notwithstanding the Mayor's veto, the roll call on the motion showed the following vote, to-wit: Ayes--Councilmen Irely, Russo, and Stahel. Noes--Councilmen Alexander, and Maire. Absent--None.

Irving Vernier to erect a Duplex in Zone R-1, on Lot 7, Block 14 Mission Hills, and suspending the provisions of Ordinance No. 12990 insofar as the provisions relate to the property mentioned, was presented, read and on motion adopted.

San Diego county enjoys superior climatic conditions and healthful surroundings, making it an ideal location for the establishment of a hospital.

The National Government, by locating in San Diego its great Naval Hospital, has recognized these conditions and taken advantage of them.

Although San Diego county is the fourth in population in the entire state no state institution or activity of major importance has ever been allotted to it.

If the county is given this state hospital it will work to the benefit of tradesmen and farmers, thus returning, to a certain degree, the large sums which are paid

I am returning unsigned herewith, Ordinance signed by a majority of the City Council on the date of August 26th, 1931, repealing Ordinance No. 7767, same being known by Document No. 270886 for the following reasons:

"To regulate and control the use of the streets, sidewalks, highways, roads and public places for any and all purposes; to prevent encroachments upon and obstructions to the same, and require the removal of any encroachments or obstructions thereon".

FOURTH: Your further attention is directed to a communication addressed to The Mayor, under August 29th., 1931 on the subject, and signed by H.B. Daniels, Assistant City Attorney.
