The hour of 10:00 o'clock A.M. having arrived, the time set for hearing the appeal of Susanne R. Dailey from the Zoning Committee decision in denying application of Warren and Susanne Dailey for a variance to the provisions of Ordinance No. 12989 on portions of Lots 2, 3, 4 Block 43 W. P. Herbert's Subdivision, for operation of a boarding home for aged ambulatory persons at 4385 36th Street, Morey S. Levenson, attorney, appeared to speak in behalf of the appellant. Before Mr. Levenson was heard, the Mayor requested the clerk to read the Zoning Engineer's report in the matter, which report was read.

Mr. Levenson spoke, saying that several protestants had signed in misunderstanding of the use proposed on the property. Some signers, he stated, believed that "ambulatory" meant patients who were in a condition to need ambulance transportation. He said that there were other misunderstandings. Mr. Levenson showed photographs of surrounding properties and residences, and picture of the house proposed to be converted into boarding home for the aged.

The following persons spoke:

Roy Wehlage entered a verbal protest, and presented a petition in opposition to the appeal. P. M. Martin and Mrs. Roy Wehlage were heard in verbal protest. Mrs. Wehlage contended that the improvement would occupy more than the permitted coverage of ground area in the zone in which it is located. The Zoning Engineer said that if the appeal were sustained, the Planning Commission would check the plans and ground area and permit no more than the allowed coverage to be used.

Rear Admiral Allen, U.S.N.-retired, spoke in favor of the appeal. He said that elderly persons should be permitted to be housed in residential areas, and should not be forced into commercial zones.

The City Attorney, the Zoning Engineer, and the Planning Director all spoke in connection with questions put by the Council.

A point was raised on the necessity for having a zone variance to conduct a home for the aged, it being said that a boarding house would be permitted and that there seemed to be a matter of the age of the guests involved. The Planning Director stated that if State aid were involved or patients (or guests) were more than sixty five years of age, the State of California enters the picture and that certain permits from the State are then needed.

RESOLUTION NO. 90862, recorded on Microfilm Roll No. 10, requesting the City Attorney to give a written opinion for the meeting of September 21, 1948, whether or not a zone variance is needed to permit a Boarding Home for Aged Persons, with a maximum of seven boarders, all ambulatory, to be operated in the dwelling at 4385 36th Street in Zone R-4, was on motion of Councilman Godfrey, seconded by Councilman Crary, adopted.

Douglas Young, of the Qualitee Dairy, protested verbally, stating that the benefits derived from the proposed one-way streets would be small, but that detriment would be great.

Herbert Sponholz, of the Arden Farms, protested, saying that it would create a traffic hazard and an almost impossible operation for his company.

E. D. Sherwin, San Diego Gas & Electric Company, stated that there would be a traffic problem, because 10th and 11th Avenues do not go through to Harbor Drive, and that traffic congestion would result at Imperial Avenue.

A letter from the San Diego Public Safety Committee, endorsing the one-way streets, was read.

The City Traffic Engineer said a severe traffic problem exists at 12th Avenue and Market Street. He felt that north-bound traffic on 11th Avenue would relieve congestion at 12th and Market. He said the City offers to lend assistance to those affected, to solve their problems of truck movements through use of wrong-way channels. He said that traffic signals installation and parking problem assistance is contemplated. He recommended the one-way traffic on the two avenues.

J. C. Wilson, of the San Diego Public Safety Committee, felt that the one-way traffic would be of general benefit.

Ellis Barron, San Diego Public Safety Committee member, spoke for establishment of the one-way traffic as a safety measure.

Edgar Hastings, of the San Diego Public Safety Committee, said that it is necessary for traffic flow to install the one-way streets to National and Imperial Avenues and for traffic to flow out into Harbor Drive. He said business in the south end of 10th and 11th avenues block traffic and monopolize the streets.

The Mayor then declared the hearing closed.

Councilman Blase moved to table the matter, which motion failed to receive a second.

RESOLUTION NO. 91791, referring back to the City Manager for continued study, the matter of establishing additional sections of Tenth Avenue and Eleventh Avenue as one-way streets, was on motion of Councilman Godfrey, seconded by Councilman Dorman, adopted.

It was requested by Councilman Dail, that the matter of one-hour parking on Logan Avenue be taken up out of order, inasmuch as a group of business men in the area had waited all morning to be heard.

The report of the City Manager recommending that a one-hour parking limit be established on Logan Avenue between Evans Street and Marcy Avenue for the period commencing November 30th, 1948, and ending January 15th, 1949, and stating that the Police Department will lend all assistance possible during the period covered, was read.

Representatives of the San Diego Taxpayers Association asked to be heard on a matter listed later on the agenda regarding death benefits to City employees engaged in hazardous work, and opposing changes in the pension system without careful study.

Guilford Whitney, president of the San Diego Taxpayers Association, spoke, stressing the need for adequate study of the matter, and read an extract from the City's committee minutes. He asked for a delay of action for further study. He wanted a comparison made between hazardous occupations in the City and private employment.

RESOLUTION NO. 91893 - See page 193

The matter of the hearing on the City Engineer's Assessment, continued from an earlier hour at this meeting, was resumed, for the installation of Sewer Main and Water Main in West Point Loma Boulevard, Famosa Boulevard, Rialto Street, Temecula Street, et al, in Loma Alta No. 2, it being noted that Mr. Geo. A. Westover, attorney, for whose appearance the hearing was held over, had arrived.

Mr. Westover spoke, saying that the sewer is unusable by a large number of property owners. The City Engineer said that there are only 3 whose basements could not

be drained - otherwise they can all be served.

Mr. Peoples spoke, saying that 12 need pumps to make the sewer usable, and that 20 others will have to run lines across other properties to reach the sewer.

The Mayor asked Mr. Peoples to furnish legal descriptions of properties that cannot be served.

The City Engineer said that the statements made by Mr. Westover and Mr. Peoples that a 100% increased assessment had been made, is not true - the increase, he said is 53%.

F. D. Harris spoke regarding the original petitions. He said that several protestants were present at last week's hearing, but did not speak inasmuch as they expected to be heard at this continued hearing. Therefore, he contended the Engineer's report on percentage of protests was not correct.

A recommendation from the City Manager, in connection with the then-proposed improvement, dated July 31, 1945, was read.

Father Joseph di Christina thanked the Council for its proposed action.

The Mayor said that the Park and Recreation department will determine how much land will be needed for recreational purposes.

It was pointed out by the Mayor and members of the Council that the entire 17 acres may not be used for recreation, but that the City may have other uses for portion of the property.

Father Joseph di Christina stressed the need for all the land, and said that, although the property is located in what might be termed an industrial area, it should not be used for warehouses. Neither should housing be constructed there, as the Mayor said might be case, since baseball diamond is needed, and there is no desire to have the balls driven through residence windows.

W. W. Prickett, 3246-1/2 Bayside Walk, spoke, saying that he circulated a portion of the petition presented. He said that the Famosa Drive location is the best, inasmuch as only one bridge will be built at the present time.

The hour of 10:00 o'clock A.M. having arrived, the time set for hearing on the matter of fire station being constructed and operated in portion of Collier Park, the Vice Mayor invited interested persons to be heard.

P. S. Packard, representing the Door of Hope (occupants of portion of Collier Park under permit from the City), asked that the proposed fire station be moved from the corner to a point 250 feet down Soto Street.

Fire Chief George Courser presented the background on the project for construction of a fire station in Collier Park, and showed photographs of the park. He said the Door of Hope's suggested location will cause annoyance from truck noise and sirens to the neighborhood. The Chief also mentioned the necessity of getting the fire equipment out of the property and onto the streets, which are unpaved in the area the opponents suggest.

Mr. Packard objected to the fire station in the Door of Hope's "front yard", stating that it would be annoyance to the patients, and would upset landscaping plans as well as plans for a nurses' home.

Park Director Leo Calland clarified the Park Commission's position in offering no objection to the occupancy of Collier Park by the fire station, and that either of the locations hereinbefore mentioned was stated by him to be acceptable.

Philip Gildred spoke regarding the necessity of the Door of Hope's development, and suggested the use of the property "next door".

Col. Rolin W. Shaw, secretary of the Ocean Beach Chamber of Commerce asked to be informed of the Planning Commission's findings in connection with its hearings on the proposed use and occupancy of portion of Collier Park for a fire station.

The Planning Director said that the use of the site sought by the Fire Chief was approved by the Commission.

Col. Shaw spoke in favor of the Fire Department's requested location.

Mr. Packard stated that noise from the fire station would be a strain on the hospital occupants.

Councilman Blase moved to deny the Door of Hope's appeal from the Planning Commission's finding approving the fire station location.

Vice Mayor Wincote expressed the opinion that the Collier Park site is not a good one. He felt that for the amount of money it would take to pave the surrounding area, a suitable site could be purchased.

Mr. Gildred spoke again, saying that the station should not be placed in the park, and that the park should be beautified. He expressed the opinion that the park property should not be taken merely to provide a free site.

The Chief said the site is well located, and was not selected merely because it is City-owned and free.

Mr. Gildred stated that the board of directors of the Door of Hope would be willing to acquire a site, if a suitable one can be found in the area desired, and present it to the City in lieu of using the park property for a fire station.

RESOLUTION NO. 92371, recorded on Microfilm Roll No. 14, referring to the City Manager for Conference with the Door of Hope directors the matter of a site for a fire station in the Ocean Beach area, and to report back to the Council in one week thereon, was on motion of Councilman Godfrey, seconded by Councilman Dail, adopted. (See later reference to this proposed Ordinance - which has not been assigned a number - in these minutes).

Councilman Crary presented a communication from Lorline F. (Mrs. Harry R.) Arnott, addressed to the Council attention of Mr. Crary, having to do with "dogs in season" in the La Jolla area, referring to calls made to the Police Department and the City Pound in connection therewith, was presented by the Clerk and read to the Council. On motion of Councilman Crary, seconded by Councilman Godfrey, referred to the City Manager.

Vice Mayor Blase brought up the matter of the lighting of two newly-installed lighting districts before the proceedings can be put through for furnishing current therefor. He pointed out that districts are put in, lights turned on for one night at a dedication ceremony, then turned out for a period of some three months due to lack of funds to carry the district until an ornamental street lighting district can be formed and assessments collected for lighting the same. The City Manager reported that in years past the City would carry the financial part of furnishing the current from its Street Lighting Fund until proceedings had been carried through, but there are not sufficient moneys in said Fund for that purpose. He said, however, that if the Council directed him so to do he would keep the lights burning after the dedication, and if funds would be made available.

RESOLUTION NO. 93169, recorded on Microfilm Roll No. 16, authorizing and directing the City Attorney to prepare and present an Ordinance appropriating funds for the furnishing of electric current in completed street lighting districts, for which proceedings have not yet been taken and completed, was on motion of Councilman Wincote, seconded by Councilman Crary, adopted.

The question of action heretofore taken on the proposed Ordinance prohibiting use or possession of intoxicating liquor on Santa Clara Point, Mission Bay Park, in connection with a scheduled meeting with members of the Mission Bay Park Advisory Committee, was brought up by the Planning Director. He said it was his understanding that the Council was not to take action on the prohibitory ordinance until such time as the Committee had met with the Council and had also taken action thereon.

On motion of Councilman Wincote, seconded by Councilman Crary, the action in passing and adopting the Ordinance prohibiting the use or possession of intoxicating liquor on Santa Clara Point, Mission Bay Park, was reconsidered, and the ordinance continued for one week.

Councilman Godfrey brought up the matter of purchases of liquor by minors, referring specifically to the serious episode a few evenings previous to this meeting, in which minors were involved, and for which the consumption of liquor was said to have been responsible. The City Attorney made a verbal report, stating that the manner of revocation, etc., of liquor licenses is under the jurisdiction of the State Board of Equalization. Several members of the Council felt that 30-day suspensions of licenses for sale of liquor to minors may not be sufficient penalty, and thought that a study should be made of the situation.

RESOLUTION NO. 93170, recorded on Microfilm Roll No. 16, referring to the City Manager for report on the matter of sale of liquor to minors in the City of San Diego, was on motion of Councilman Godfrey, seconded by Councilman Crary, adopted.

At this time, a majority of the members of the Council executed the following:

Official Bond of Alex M. Lesem, as Director of Public Health;
Official Bond of Oscar G. Knecht, as Chief Inspector;
Contract with San Diego Gas & Electric Company for the furnishing of electric current for the lighting of Crown Point Lighting District No. 1.

There being no further business to come before the Council, the meeting was, on motion of Councilman Crary, seconded by Councilman Wincote, adjourned at the hour of 11:30 o'clock A.M.

He said, also, that the requirements in the zone variance would be the minimum requirements for a subdivision, and that the various departments interested felt that the standard of those conditional requirements should not be reduced. On motion of Councilman Blase, seconded by Councilman Godfrey, the report and the original communication to which it refers, were ordered filed.

There was considerable discussion on the advisability of adopting such an ordinance. Councilman Crary stated that the ordinance had been prepared

by the City Attorney on his request, and that he had been urged by various business firms to sponsor such an ordinance, because many were coming in from out of town and interfering with the business of regularly established firms in this city. The Mayor pointed out that it might be justified, inasmuch as other surrounding cities have similar licensing regulations, it tends to build up trade barriers in this metropolitan area which might be detrimental rather than beneficial. Councilman Wincote suggested that it could properly be brought to the attention of the governing bodies of other San Diego County municipalities that the City of San Diego is considering this proposed ordinance, and that they might prefer to repeal their ordinances instead of having this city adopt such an ordinance.

RESOLUTION NO. 93323, recorded on Microfilm Roll No. 16, continuing said proposed Ordinance for four weeks (until the meeting of May 3, 1949), and requesting Mayor Harley E. Wicks from the Zoning Committee decision in denying her application for continuance of operation of the Aberfeldy Dog Kennels at 6453 Pacific Highway, on Lots 10 to 13 Block 3 Stephan's Addition, in Zones R-4 and C, the operation of which Kennels is permissible under previously-granted zone variances until July 1, 1949, the Mayor inquired if any interested persons were present who desired to be heard.

Mr. Tucker, manager of Western Shores Motel, also representing Fox & Hounds Motel and other property owners, protested any further operation of the kennels. He said many guests had left the motels as a result of the nuisance created by the dogs.

Report of the Zoning Engineer was read to the Council.

Mr. Tucker spoke again, protesting the 6-months extension recommended by the Zoning Committee, although it had denied the application for 3-year extension.

Mrs. Wicks explained the reason for her request, saying that the operators of the kennels to whom she leases, are boarding dogs owned by service personnel on duty in Japan and that it will be difficult to notify them of the closing of the kennels and to secure authorizing for transfer to other kennels of the dogs now being kept at the Aberfeldy Kennels.

Mrs. Anton Partman, who resides in the back of the kennels, protested, stating that the barking keeps her and her family an aggravated nervous condition.

Mrs. Hanks, the lessee of the kennels, said she did not know that the dogs were annoying her neighbors, and that she had asked them to call her if they were doing so. She offered remedial means on the barking. She said she would need to notify the dogs' owners in Japan, and would need additional time therefor.

Bruce Taylor protested Mrs. Hanks' statement that the dogs were not causing trouble. Mrs. Hanks replied that she was referring to disturbance of the motels.

Mr. Smith, owner of the property adjoining the kennels protested the further extension of the zone variance. He said that the kennels depreciated his property, and that they made it impossible to improve or sell his land.

RESOLUTION NO. 93494, recorded on Microfilm Roll No. 17, overruling and denying the appeal of Mrs. Bess G. Wicks from the Zoning Committee decision in denying her application for 3-year extension of Zone Variance to operate Aberfeldy Dog Kennels at 6453 Pacific Highway, on Lots 10 to 13 Block 3 Stephan's Addition, and sustaining said Committee in denying said extension as well as denying the Committee's extension to December 31, 1949; which will therefor make the zone variance expire July 1, 1949, was on motion of Councilman Crary, seconded by Councilman Blase, adopted.

The hour of 10:00 o'clock A.M. having arrived, the time set for hearing on the proposed ordinance incorporating Lots 3 to 11 Block 4 and Lots 3 to 6 Block 8 College Park Unit No. 1 into "R-1" Zone, and repealing Ordinance No. 13559 insofar as it conflicts, the clerk reported that no written protests had been received.

Thereupon, the Mayor inquired if any one was present who desired to be heard.

Mrs. John Meek, Jr., asked for the reading of protest filed with the Planning Commission, which protest was read. She said that was not the one to which she referred, but that it would suffice.

Report from the Planning Commission, signed by the Assistant Planning Director, was presented and read.

Mrs. Meek entered a verbal protest on the proposed zoning.

The Planning Director made a verbal report in the matter, and showed the Council and interested property owners a map of the district.

Mrs. Meek said she would not object to the R-1 zone if the existing C Zone properties were also brought into R-1.

Robert A. Crist protested Mrs. Meek's action in beginning the construction of what he termed a non-confirming development. It was pointed out that she has the right to such an improvement inasmuch as the ordinance under discussion has not been adopted.

Then Mrs. Meek said that she wants at least an "R-4" zone.

John Meek spoke in favor of the protest against the re-zoning.

The Mayor then declared the hearing closed, inasmuch as speakers were covering the same points, over and over.

At this point the Mayor left the meeting and Vice Mayor Blase took the Chair.

On motion of Councilman Dail, seconded by Councilman Godfrey, the matter of proposed re-zoning in portion of College Park Unit No. 1 was referred back to the Planning Commission, to see if a compromise could be effected to satisfy both factions. There was considerable discussion on the effects of such an ordinance, it being pointed out that anyone having on his land any of the above-mentioned "nuisances" would be deemed guilty of a misdemeanor, and would be subject to fine and imprisonment or both as a separate offense for each and every day the provisions of the ordinance are violated, which ordinance was declared to be an emergency measure and would take effect and be in force from and after its passage.

It was felt that the effects should be studied carefully before adoption, the Mayor stating that every person maintaining even a fish pool in his garden would be liable under the terms of the ordinance as drawn and presented.

Present---Councilmen Crary, Blase, Dorman, Dail, Godfrey, Mayor Knox.
Absent---Councilman Wincote
Clerk---Fred W. Sick.

The hour of 2:00 o'clock P.M. having arrived, the time set for hearing on the proposed Ordinance amending Title II, consisting of Sections 36, 37, 38, 39, 40, 41, 42, 43, 44, 45 and 46, both inclusive, of Ordinance No. 3179 (New Series), adopted May 14, 1946, regulating Auctioneers and Auction Houses, the Mayor announced that the hearing would be held, as scheduled, but that no action would be taken until the Council members elected April 19, 1949, are seated.

The Mayor invited the opposition to be heard first, since, upon inquiring of those interested in attendance how they like to proceed, there was no preference indicated.

Morey Levenson, attorney, spoke for opponents, representing, in particular, San Diego Art Galleries and Sam Fischer, licensed auctioneer. He expressed the belief that the Ordinance is in some particulars practically prohibitory. He said that the Ordinance did not originate with the City Manager, and was not the City's Ordinance for regulatory purposes, but that it came from Mr. Jennings, of the Better Business Bureau. Mr. Levenson said that it is a composite Ordinance based upon jewelry and allied products Ordinances of various small communities and from no metropolitan Ordinance. He claimed that only the "most vicious" and the "worst features" of those Ordinances had been incorporated into the proposed Ordinance. He said it is designed to prevent competition. He opposed the "Class" type, and the increased bond of \$5,000.00 instead of the existing \$1,000.00 bond. He maintained that there has been no arrest or prosecution under the existing Ordinance to his knowledge that justifies the \$5,000.00 bond clause. He opposed the provisions of Section 40 regarding the time limitations on holding the auction. Mr. Levenson protested the inclusion of prohibition against sale of jewelry by auction during the months of November and December. Section 42 provisions regarding the 25% unit volume, and the inventory, were opposed. Section 43 (b), Mr. Levenson said, is ambiguous in referring to the written inventory. He said it would be impossible to ascertain the amount of silver, for instance, left on a used plated item. He opposed Section 43(c) regarding payment for article before any further sale is made, and Section 43(e) regarding the attendance of a member of the Police Department and the \$15.00 per day payment for such officer. He said that Section 43(e), in his opinion, is unconstitutional. Section 44, regarding the 25% excess of unit volume on closing out a stock of goods is a provision of restraint. Section 46 was said to be a matter of prohibition of certain businesses, and that it contains unconstitutional provisions. Mr. Levenson said that the Ordinance is not designed to protect the buying public, but is for the purpose of shutting out of competition, and is for the benefit of creditors of a distressed merchant. He said it is an unfair and an unconstitutional Ordinance. He stated that the Chief of Police says there is no auction problem in San Diego. Mr. Levenson requested that there be a conference held with the City Attorney, the Police Department, and the Better Business Bureau.

The next speaker for the opposition was Sam Fischer, 2426 4th Avenue. Mr. Fischer said that the terms of the Ordinance make it impossible to operate auctions. He favored regulation, but said that the terms of the Ordinance indicates that auctioneers are crooks and thieves. He said that auctions are a necessity in many instances. Then he read a letter from Mr. Jennings, of the Better Business Bureau, asking him to withdraw his application for membership in the Bureau (which membership he said had been solicited), since the Bureau had never had any auctioneer members. He reiterated many of Mr. Levenson's objections. He said that it would be impossible to hold the merchandise, at required, for 15 days - it would take 6 warehouses to hold it. He said that having to register the name of the purchaser with the Police Department constitutes an indignity to which he would not be a party; he would refuse to carry out such a regulation. He said he would go out of business before complying with that regulation. Mr. Fischer said there is nothing in the ordinance covering relations between auctioneers and clients, which point he felt should be covered.

Sol Blanc, a retired auctioneer, at the present time a realtor, said that the proposed Ordinance is the "rottenest, most assinine Ordinance" he has ever seen. He said that the only thing that was left out was a guardian for the customers. Mr. Blanc contended that the Ordinance is constitutional.

Robert Kelts, 1541 - 4th Avenue, said that he wished to "speak on the Ordinance, neither for nor against it". Then he outlined several of his experiences in attending auction sales and making many purchases at the same.

Leon Radin, 3505 - 5th Avenue, auctioneer, said that the Ordinance would put at least 3 auctioneers out of business.

Daniel Thomas, auctioneer, 1564 El Cajon Boulevard, spoke for a regulatory Ordinance, but opposed the Ordinance as presented.

C. T. McKinley, 633 Bon Air Place, La Jolla, attorney, spoke on the need for auctions; said that a certain type of regulation creates an unfortunate state of mind, and a group of bad citizens.

At this point the Mayor announced that the proponents would be heard.

Alonzo Jessop, J. Jessop & Sons, 1041 5th Avenue, jeweler, spoke against merchandise being brought in for auctions, detrimental to businesses. He said much of the auctioneering is unfair to the legitimate merchant. Mr. Jessop stated that the proposed Ordinance is a good one, and that its adoption will protect the public.

Frank Jennings, of the Better Business Bureau, said that he did not write the ordinance, as charged; and that it was based on those of several large cities throughout the country, which cities he named, rather than on ordinances of small communities as maintained by Mr. Levenson. He said it was designed to protect the public. Mr. Jennings reviewed the Ordinance, point by point: the bond, the 10-day limit, the jewelry November and December sales prohibition, the 25% unit volume, the pay-when-sold clause, the police officer in attendance. He said that there is nothing unfair in the Ordinance.

E. B. Gould, 4205 Pacific Highway (Lyon Van & Storage Company), said that into auctions is fed new merchandise, which should not be allowed. He said merchandise is brought in and sold as local distressed merchandise. He said that this Ordinance does not "protect" the local merchant. He thought possibly something should be added regarding the purchase of a business and the immediate auction. He thinks the bond might even be increased. He said the limited time and fee are not exorbitant. He asked about the license period and the business. Mr. Gould brought up the "blind packages" sale. He mentioned Section 46, saying that they should apply to only certain other sections, namely 40, 41, 42, 43, 45 (and possibly 44). He spoke for the distressed merchant, but also for protection of the public. He thought the Ordinance ought to protect the honest auctioneer, also.

At this time the Mayor declared the hearing concluded, and stated that action would be taken at a later date, as announced at the beginning of the hearing.

On motion of Councilman Dail, seconded by Councilman Crary, the hearing on the proposed Auction Ordinance was continued until the hour of 2:00 o'clock P.M., Tuesday, May 17, 1949.

ORDINANCE NO. 4039 (New Series), amending Section 17 of Ordinance No. 3390 (New Series), (Electrical Code), adopted April 8, 1947, prescribing fees, was on motion of Councilman Crary, seconded by Councilman Blase, placed on its final passage at its first reading, by the following vote, to-wit: Yeas---Councilmen Crary, Blase, Dorman, Dail, Godfrey, Mayor Knox. Nays---Councilmen None. Absent---Councilman Wincote.

Thereupon, on motion of Councilman Crary, seconded by Councilman Blase, said Ordinance was adopted, by the following vote, to-wit: Yeas---Councilmen Crary, Blase, Dorman, Dail, Godfrey, Mayor Knox. Nays---Councilmen None. Absent---Councilman Wincote.

Prior to the final reading of such Ordinance, a written or printed copy thereof was furnished to each member of the Council.

Communication from the City Manager reporting on request of Warner Austin for a moratorium on the minimum monthly rental requirement covering Parcels 1, 2, and 3 of the Bonita Bay lease, and recommending amendment to Section 6 of the lease by removing the minimum monthly rental requirement covering the areas used for boat operations until the area has been declared usable again for sail boats by the Planning Director, and the Director of Parks and Recreation. The City Manager's letter states that it seems unjust for the City to enforce the terms of the lease when the condition that stands in the way of a profitable operation (work in the area making it impossible to take sail boats in and out) was brought about by the City's construction work and was not anticipated at the time of execution of the lease.

RESOLUTION NO. 93568, recorded on Microfilm Roll No. 17, authorizing the City Manager to enter into an amendment of lease, entered into the 11th day of June, 1946, for operation of concessions on Bonita Bay, waiving the minimum monthly rental for six months beginning the first day of May, 1949, all as more particularly set out in form of lease filed in the office of the City Clerk under Document No. 401311, was on motion of Councilman Crary, seconded by Councilman Blase, adopted.

RESOLUTION NO. 93569, recorded on Microfilm Roll No. 17, waiving any claims under Ordinances Nos. 3816 (New Series) and 3897 (New Series) against the United States for water supplied by the City under ordinances for use of the U.S. Navy and the Federal Public Housing Administration; authorizing the Director of Water to adjust water rates (so) that the Government will be required to pay for use of the Navy under Ordinance No. 3993 (New Series) such rates as will allow the Navy credit for differential heretofore paid by the Navy between rates established by 3816 (New Series) and 3897 (New Series) and those rates established by 3184 (New Series), waiver made and Director of Water ordered to effect adjustment upon understanding and agreement that for use of the Housing Administration rates established by 3993 (New Series) will be paid by the United States, and that after the Navy has received credit for the differential in water rates then the United States will pay for water served the Navy the rates prescribed in Ordinance No. 3993 (New Series), authorizing the City Clerk to send certified copies of said Resolution No. 93569 to the Commandant of the Eleventh Naval District and to the proper officer of the Public Housing Administration, was on motion of Councilman Blase, seconded by Councilman Dorman, adopted.

Prior to the passage of Resolution No. 93569, said Resolution was read in full to the Council.

There being no further business to come before the Council, the meeting was, on motion of Councilman Crary, seconded by Councilman Blase, adjourned at the hour of 4:13 o'clock P.M.

The Mayor recognized a delegation scheduled to be heard on the proposal of the San Diego Chamber of Commerce in connection with downtown parking, and asked if there would be any objection to moving the matter forward on the order of business. No objection was offered to hearing the matter at this time.

The hour of 10:00 o'clock A.M. having arrived, the time set for hearing on downtown parking matters, on proposal of the San Diego Chamber of Commerce, the Mayor invited any one interested in the subject to be heard.

Arnold Klaus, assistant manager of the Chamber of Commerce spoke briefly, and introduced:

Arthur H. Marston, Jr., Vice Chairman of the Traffic and Parking Committee of the Chamber of Commerce, who read a communication heretofore filed with the Council. He said that in some areas 1/2-hour periods of parking would be desirable, but that 1, 2 and up to 4 1/2-hour periods would be justified in some other areas. Mr. Marston said that there are many violations on overtime parking time limits - some as long as all-day parkers. He indicated that there are many supporters of the plan proposed by the Chamber, and read the names of many of those persons and firms whom they represent. He then read a portion of a letter from the Chief Administrative Officer of San Francisco, in which the officials of that city favor shorter parking time periods. He said that off-street parking would be encouraged, and that lots on the perimeter of the city with shuttle bus service, now being used in some cities, would be possible;

Jack Stocking, Chamber of Commerce transportation committee member, read a letter from the Chamber of Commerce president, which letter had also been previously filed with the Council, for the lengthening of loading zones by the prohibiting of parking in 2 meter zones adjoining such loading zones prior to 10:00 A.M., Monday through Saturday.

Questions were asked by Councilman Kerrigan of Marston regarding the use of lots. He answered that parkers can now use the street 8 hours for 40 cents. Councilman Schneider asked Mr. Marston about the survey to which he referred that had been made regarding overtime parking. He answered that short-time parking would make it uneconomical to stay overtime and "feed" the meters. He answered Mr. Kerrigan's question regarding the perimeter lots, saying that would be an added service for all-day parkers who work downtown. He said a study is being made of the idea, and more study needs to be made.

Mr. Klaus said the above-named speakers concluded the Chamber's presentation.

Paul N. Henneberg, 3919 Oregon Street opposed the Chamber of Commerce and the Chamber of Commerce plan. He said that the City has no right to charge for use of the City streets, that the streets belong to the adjoining property owners, and that only they have the right to the streets' use charge.

N. J. Haering, 1072 University Avenue, said a 10-minute time period would be good.

Elmer H. Hartman, 3787 - 29th Street, said that parking meters are a racket. He recommended the use of parking lots.

Jack Hanna, La Mesa, parking lot owner, said downtown parking lots need to be subsidized. He said that Los Angeles requires establishment of off-street parking facilities in connection with downtown construction, and cited an example of a height-limit building which was permitted to be built only when parking was provided. Mr. Hanna said that it is up to the merchants and landlords to recognize the need for a solution to the parking problem, and to subsidize lots.

A communication signed by Virgil B. Windle, chairman of the Traffic Advisory Committee, addressed to the City Manager, reporting that it will recommend a major street plan and a major parking plan as soon as some further information is available, was presented and read by the clerk. Mr. Windle spoke. He suggested that the matter be referred back to the committee for study and recommendation.

RESOLUTION NO. 93644, recorded on Microfilm Roll No. 17, continuing the matter of downtown parking, as proposed by the San Diego Chamber of Commerce, until such time as the City Manager makes a report thereon, was on motion of Councilman Dail, seconded by Councilman Kerrigan, adopted.

The hour of 10:00 o'clock A.M. having arrived, the time set for hearing on the City's report on estimated cost for the paving and otherwise improving of a portion of Diamond Street, the clerk reported that no written protests had been received. Thereupon, the Mayor inquired if any interested persons were present who desired to be heard. No one appeared to be heard, and no written protests were presented.

RESOLUTION NO. 93645, recorded on Microfilm Roll No. 17, finding that the proposed improvement of a portion of Diamond Street, within the limits and as particularly described in said Resolution, is feasible and that the lands to be assessed therefor will be able to carry the burden of such proposed assessment, authorizing and directing the City Engineer to prepare plans and specifications therefor, was on motion of Councilman Wincote, seconded by Councilman Schneider, adopted.

The hour of 10:00 o'clock A.M. having arrived, the time set for hearing on the City Engineer's Assessment No. 1854, for the paving and otherwise improving of portion of Garrison Street, within the limits and as particularly described in Resolution of Intention No. 90476, the clerk reported that a written appeal had been received from Fred A. Heilbron and Carroll N. Anderson, which appeal was presented to the Council and read.

Mr. Heilbron spoke, saying that an injustice had been done, and asked that it be corrected. He objected to removal of curbs and gutters, their replacement, and assessment therefor. He said that such work had been paid for once, and that the assessment twice for the same work is illegal.

The City Engineer made a verbal report on the matter of removal and replacement of the curb. He said all the work done was necessary. He stated that removal of the curb was paid for by the City, but replacement charged to the property.

RESOLUTION NO. 93646, recorded on Microfilm Roll No. 17, continuing the hearing on the Engineer's Assessment No. 1854 for the paving and otherwise improving of portion of Garrison Street until the hour of 10:00 o'clock A.M., Tuesday, May 17, 1949,

The hour of 10:00 o'clock A.M. having arrived, the time set for hearing on the proposed Ordinance incorporating Lots 37 to 44 Block 126 and Lots 5 to 12 Block 127 Choates Addition into C Zone, the clerk reported that no written protests had been received.

Thereupon, the Mayor inquired if any property owners were present who desired to be heard. No one appeared to be heard, and no written protests were presented.

On motion of Councilman Dail, seconded by Councilman Godfrey, the award of contract on said Alley was again continued until the meeting of May 17, 1949.

Communication from California Taxpayers' Association, addressed to Mayor Knox, was presented by the Mayor who asked that it be considered. The communication points out that the Salary Ordinances of the City of San Diego do not list the count of budgeted positions for each classification title within a department and requests that the Council adopt inclusion of the "count of positions" in the published ordinance. That communication was read to the Council. After some discussion, and verbal reports by the City Manager and

the Assistant City Attorney, the communication was referred to the City Manager for report.

Petition of San Diego Junior Chamber of Commerce for the inclusion of a \$3,000.00 in the 1949-50 Budget toward cost of entry of float in the January 1, 1950 Tournament of Roses, Pasadena, was presented.

The matter of the application and offer of the San Diego Transit System, setting forth the terms and conditions relative to abandonment of its street railway franchise and the removal of its property from certain City streets, was brought up for consideration. It was soon revealed that the matter would entail considerable discussion and consume a great deal of time, and inasmuch as the noon hour had arrived, the matter was postponed until the afternoon session.

At this time Mayor Knox left the meeting, and Vice Mayor Godfrey took the Chair.

A delegation of women from the Silvergate Riding Club was present, and asked for consideration of the petition of Silvergate Riding Club and others for establishment of a bus stop and cross walks in Balboa Park, at Date Street Drive and Park Boulevard south and 18th Street and Park Boulevard north "prior to 15 May, 1949". The petition states that the intersection had a step when street cars were in service, and served the Balboa Park Riding Academy and the north approach to Balboa Stadium, but that it was abandoned with the changeover to buses "because there is no off-street landing area and buses must stop in a lane of traffic and unload passengers onto the side of the street", and states various reasons for a need for the installations referred to.

Mrs. Richard Pourade spoke for the doing of the work petitioned for, without delay.

RESOLUTION NO. 93652, recorded on Microfilm Roll No. 17, referring petition of Silvergate Riding Club and others for establishment of a Bus Stop and Cross Walks in Balboa Park, at Date Street Drive and Park Boulevard south and 18th Street and Park Boulevard north, to the City Manager with power to act, was on motion of Councilman Schneider, seconded by Councilman Dail, adopted.

Upon reconvening at the hour of 3:43 o'clock P.M., the roll call showed the following:

Absent----Councilmen None.
Clerk---Fred W. Sick

The Communication from the City Manager recommending adoption of the proposed ordinance regarding abandonment of street railway franchise and removal of San Diego Transit System Property from certain City streets, in connection with change-over from street car operation to buses, was presented and read.

As the ordinance was being discussed, Donald Hanson, San Diego Transit Company representative entered the meeting, and was asked by the Council to come sit near the Council so that various aspects of the ordinance and the company's operations could be discussed.

Members of the Council asked Mr. Hanson about the provision for a maximum of three years for removal and covering of tracks. The reply by Mr. Hanson was that no reference to that particular matter had been made in the company's application to Public Utilities Commission. He said that he felt it would be an advantage to the City and to the company to spread out the work over a 3-year period, both from the company's financial point of view in doing the work by its own forces and so that lesser amount of City streets would be torn up at one time. He said that overheads and bridges would come down immediately. He said, also, that the cost of removal of facilities is provided for by the Public Utilities Commission over a 10-year period. Mr. Swan thought that the rails taken up from the streets should be given to the City, possibly for use in construction of a fishing pier. Mr. Hanson said that the company had always co-operated in such matters by giving old rails to the City for construction purposes, but did not feel that he could commit the company to turning over all the rails to the City. Mr. Hanson said that the most difficult tracks, causing the greatest inconvenience to the street surfaces, would be the first to be removed.

Then the Council asked for a 2-year removal period, instead of the 3-year period provided in the ordinance, with extensions for good cause, if necessary and based on "good reason" only.

On motion of Councilman Swan, seconded by Councilman Godfrey, the proposed ordinance was amended to add to the end of Section 1 "provided that the work outlined therein be completed within two years". On the same motion, the proposed ordinance was amended by inserting in line 3 of Section 2, after the words San Diego Transit System, the words "and within the time herein specified".

Then the matter of steel poles in the center of some of the streets was brought

up for discussion. Mr. Hanson could not say if his company owned all of such poles outright, or if their use was shared by other utilities. He said that where his company owns the poles outright, it will remove them, and felt sure that other users would remove their facilities therefrom when his company removed its - resulting in complete removal of the poles.

Mr. Swan wanted the City indemnified against harm in connection with removal of the company's facilities. Assistant City Attorney Higgins said that the company's liability exists until the facilities are removed, under its franchise. He said, further, that the new franchise would provide for holding the City harmless from liability created by the company.

Mr. Hanson said that if all tracks were to be required to be removed, and the streets put into good condition, the company would not have considered conversion to buses, inasmuch as the cost thereof would have been prohibitive.

ORDINANCE NO. 4044 (New Series), recorded on Microfilm Roll No. 17, accepting the proposal of San Diego Transit System (successor to the San Diego Electric Railway Company) for the removal of certain track and overhead structures in connection with the substitution of bus service for street railway service on certain street railway lines within the City, and the restoration of certain streets, and relieving the San Diego Transit System from all obligation under the provisions of its several franchises with respect to track removal and street restoration of said lines where bus service is substituted for street railway service and on certain other streets referred to in said proposal, except as set forth in said proposal (with amendments made by the Council to the ordinance during this session), was on motion of Councilman Wincote, seconded by Councilman Dail, placed on its final passage at its first reading, by the following vote, to-wit: Yeas---Councilmen Swan, Wincote, Schneider, Kerrigan, Dail, Godfrey, Mayor Knox. Nays---Councilmen None. Absent---Councilmen None.

Thereupon, on motion of Councilman Wincote, seconded by Councilman Dail, said Ordinance was adopted, by the following vote, to-wit: Yeas---Councilmen Swan, Wincote, Schneider, Kerrigan, Dail, Godfrey, Mayor Knox. Nays---Councilmen None. Absent---Councilmen None.

Communication from the City Engineer, reporting on notices sent to property owners asking whether they want the contract awarded for the improvement of the Alley in Block 93 E. W. Morse's Subdivision, stating that 50.7% are against the award, 49.3% for the award, and recommending abandonment of the proceedings, was presented.

There was considerable discussion on the matter, on which the award of contract had been postponed twice, and on which proceedings had been abandoned twice and commenced again.

Mr. Chidester, who had been mainly responsible for previous abandonments and award continuances, spoke again, in opposition to the award. He said that one of his neighbors had called the public works department, and that repairs had been made in the alley, making it unnecessary to do the paving.

Katie Bristow, owner of Lots 25, 26, 27, 28 said it was she who called for the repairs, which were made. She opposed the award, asserting that the money needed for the improvement could be spent to better advantage. She said she would, of course, abide by the decision of a majority of the property owners and the decision of the Council in the matter.

Members of the Council expressed the view that the award should be made, and felt that the City should not be called upon to bear the expense of the running of proceedings heretofore incurred.

RESOLUTION NO. 93718, recorded on Microfilm Roll No. 17, accepting bid of Daley Corporation for the paving and otherwise improving of the Alley in Block 93, E. W. Morse's Subdivision, and awarding contract therefor, was on motion of Councilman Dail, seconded by Councilman Wincote, adopted.

On motion of Councilman Kerrigan, seconded by Councilman Wincote, the matter was referred to the City Attorney for preparation and presentation of the necessary Ordinance to incorporate the above-mentioned property in to Zone C.

Communication from the City Planning Commission, reporting that it had by a 5-0 vote reaffirmed its former recommendation for the granting of the petition for the rezoning of Lots 3 to 11 Block 4 and Lots 3 to 6 Block 8 College Park Unit No. 1, into Zone R-1, from existing R-4 and C Zones, was presented and read.

Mrs. John Meek, Jr., 5056 College Avenue, spoke for herself in opposition to the re-zoning, and said she represented three other property owners who also opposed the change to Zone R-1.

An unidentified woman spoke at much length in opposition to the re-zoning, and presented material from notes given to her by a Mr. Marshal, who was not present to speak.

Mr. Meek spoke in protest to the proposed R-1 Zone, and favored being left in the existing C Zone.

The Mayor pointed out that the hearing would doubtless develop into another long one, as it had before, and suggested that it be continued until the afternoon session inasmuch as he and some members of the Council had engagements they must keep. As a result, the Council took a recess until the hour of 2:30 o'clock P.M., this date, on motion of Councilman Dail, seconded by Councilman Kerrigan.

Upon reassembling at the hour of 2:38 o'clock P.M., the roll call showed the following:

Present---Councilmen Swan, Wincote, Schneider, Kerrigan, Dail, Mayor Knox.
Absent----Councilman Godfrey
Clerk-----Fred W. Sick.

At this time the hearing, although not scheduled as such, was resumed on the Planning Commission's report for re-zoning portion of College Park Unit No. 1.

Wilson W. Wied, who stated that he had been retained to represent nine property owners, spoke in favor of the proposed re-zoning. He outlined the deed restrictions involving the property under consideration. All are single-family restrictions with the exception of one parcel, he said, and the owners have joined in the petition to re-zone. He exhibited photographs of the existing development. He said it is the desire of the property owners to conform to restrictions contained in their deeds. He requested that the proposed ordinance be adopted.

Mr. Dowling, 5053 College Avenue, gave various reasons for adoption of the Ordinance, and he challenged some of the statements made in the morning session.

Dr. W. H. Wright said that the College Avenue district under consideration should not be permitted to become a commercial area.

Mrs. Meek spoke again, and read a letter from Wilson W. Wied addressed to her, indicating spite work, she said on the part of their neighbors. She also read a letter from herself and Mr. Meek, addressed to the Planning Commission.

Dr. Wright refuted statements of the Meeks regarding his signature on the petition for re-zoning.

Mrs. Shriver said Mrs. Meek has ruined her property, an acre in area. She said that if the Meek property is permitted to stay in the C Zone, she wants her property to be in the existing R-4 zone.

Mrs. Meek attempted to speak again, but the Mayor said he felt the Council had had all the evidence it needed to act upon the recommendation.

A motion was made by Councilman Kerrigan, seconded by Councilman Wincote, to sustain the recommendation of the Planning Commission and to refer the matter to the City Attorney for preparation and presentation of the necessary Ordinance. After the roll had been called, it was revealed that such an Ordinance had been prepared, and was contained in the file under consideration.

It was then proposed to adopt the ordinance, but the interested parties had left the Council Chamber. On motion of Councilman Kerrigan, seconded by Councilman Schneider, a formal hearing on the matter of re-zoning the hereinbefore mentioned property by placing the same into Zone R-1 was set for the hour of 10:00 o'clock A.M., Tuesday, May 31, 1949.

A woman, who did not give her name, spoke on the matter of the Catalina Boulevard bus, saying that the service is most unsatisfactory, operated as a shuttle bus,

rather than as a through bus to the downtown area of the City, as she felt it should be. Discussion between the speaker and members of the Council revealed that conferences with the San Diego Transit Company had disclosed that the short shuttle bus line has insufficient patronage to be a paying proposition.

Copy of letter, signed by G. J. Gambardella, addressed to Railroad Commission of the State of California, as committeeman University Avenue Bus Petition, asking for extension by the San Diego Transit System of the University Avenue Number 7 bus line beyond Euclid Avenue and to continue east down University Avenue to Rolando Boulevard and University Avenue, was presented. The hour of 10:00 o'clock A.M. having arrived, the time set for hearing on Resolution No. 93530 of Preliminary Determination for the paving and otherwise improving of the Alley in Block 55 Ocean Beach, the clerk reported that no written protests had been received.

Thereupon, the Mayor inquired if any interested property owners were present who desired to be heard. Charles Alfred Halen and Mrs. Geoffrey Rothero were heard verbally, in protest. The City Engineer reported, verbally, that said protests constituted 4% of the area proposed to be assessed for said improvement.

RESOLUTION NO. 93789, overruling and denying verbal protests of Charles A. Halen and Mrs. Geoffrey Rothero against the proposed improvement of the Alley in Block 55 Ocean Beach, within the limits and as particularly described in Resolution No. 93530 of Preliminary Determination, was on motion of Councilman Schneider, seconded by Councilman Swan, adopted.

RESOLUTION NO. 93790, determining that the proposed improvement of the Alley in Block 55 Ocean Beach, under Resolution No. 93530 of Preliminary Determination, to be feasible and that the lands to be assessed therefor will be able to carry the burden of the proposed assessment, and finding and determining that public convenience and necessity required the improvements, and that the Special Assessment Investigation, Limitation and Majority Protest Act of 1931 shall not apply, was on motion of Councilman Swan, seconded by Councilman Kerrigan, adopted.

The hour of 10:00 o'clock A.M. having arrived, the time set for hearing on Resolution No. 93531 of Preliminary Determination for the paving and otherwise improving of the Alley in Block 35 Ocean Beach, the clerk reported that no written protests had been received.

Thereupon, the Mayor inquired if any interested property owners were present who desired to be heard. Les Tank asked for information on the type of improvement to be used, and specifically why 5" cement concrete was called for in the specifications. The City Engineer replied that bids for cement concrete are now coming in cheaper than for asphalt.

Mr. Tank then asked about improvements which constitute encroachments in the alley, such as houses and fences. The Engineer said that where there were only minor encroachments, of an inch or two, the owners would probably not be required to remove them, but that if they were major encroachments such as to create a nuisance their owners would have to take them out of the right of way.

RESOLUTION NO. 93791, recorded on Microfilm Roll No. 17, determining that the proposed improvement of the Alley in Block 35 Ocean Beach, under Resolution No. 93531 of Preliminary Determination, to be feasible and that the lands to be assessed therefor will be able to carry the burden of the proposed assessment, and finding and determining that public convenience and necessity require the improvements, and that the Special Assessment Investigation, Limitation and Majority Protest Act of 1931 shall not apply, was on motion of Councilman Schneider, seconded by Councilman Kerrigan, adopted.

At this time the Mayor left the Chair, and Vice Mayor Godfrey assumed the duties of Chairman.

Before the Mayor could leave the Chambers, Vice Mayor Godfrey announced that he had an award to make to Mayor Knox. He presented the Mayor with a 10-year service pin for the time he had been with the City of San Diego as member of the City Council and as Mayor, outlining his elections and re-elections.

The hour of 10:00 o'clock A.M. having arrived, the time set for hearing the appeal of T. T. Crittenden from the decision of the Zoning Committee in granting to Asa G. Snyder, Howard W. Snyder and Eva Snyder, variance to Ordinance No. 12988, to make the rear 1/2 of the first floor of the existing two-story building on Lot 26 Block 3 Marine View at 3651-1/2 Kite Street, in an R-1 Zone into a habitable apartment, with a 10-foot rear yard and a lot coverage of 40%, on conditions set forth in the Committee's Resolution No. 3846, the clerk read the petition of protest.

Then the report of the City Zoning Engineer was read.

Mr. Crittenden spoke at great length, and expressed disappointment that the full Council was not present to hear the case. He reviewed the history of the property in question thereon.

Mr. Baughman, of the City Planning Office, appeared and testified, on request of Mr. Crittenden, on representations made when application was made by the Snyders for improvements permits. Mr. Crittenden commented that improvements were made, but not in accordance with permits. He referred to "bootleg" apartments on the premises, and read correspondence with City departments thereon. He also referred to house numbers assigned and to water service ordered. Mr. Crittenden spoke of the numbers of persons who occupied the apartment. He also mentioned the present occupancy of the premises, and said that there was evidence of immoral conduct of children there. He read a Zoning Committee report in the matter. He said, further, that the premises are and will continue to be, a fire hazard regardless of improvements that might be made.

Councilman Wincote asked about agreements regarding promises for destruction of the premises by former owners.

Councilman Kerrigan felt that the question is "is it better to have property occupied, or used merely for the storage of junk?"

Henry Shurre, 1306 Torrence Street, spoke regarding the appearance of the premises, and told that Mr. Snyder has said he intends to continue operation by adding a fourth apartment. He, too, said the place is a fire trap.

A group of residents, who were not identified by name or residence, arose in protest to the Snyders' operation of the premises.

Estelle Henderson spoke, saying that she represented Judge Daney, at his request, in opposition to the zone variance.

Jack Karn spoke about the bad appearance of the building in question. He said it is a shed - not fit for apartments, and has the tenement look.

Mr. Laderness, a property owner at Pennsylvania Avenue and Kite Street, said he thought the Council should take immediate action, and not refer the matter back to the Zoning Committee, as was proposed by Councilman Kerrigan, who said that new evidence had evidently been presented which had not been heard by the Committee.

On motion of Councilman Schneider, seconded by Councilman Swan, the matter was referred back to the Zoning Committee for further study and recommendation.

The hour of 10:00 o'clock A.M. having arrived, the time set for hearing on proposed Ordinance incorporating the North 300 feet of Lot 2 Partition of Pueblo Lot 1783 (Bird Rock area) into Zone R-2 as petitioned for by the Board of Education for school building construction, the clerk reported that no written protests had been received.

Dr. R. C. Dailard, Deputy Superintendent, spoke in behalf of San Diego Unified School District for the re-zoning of the property from the R-1 to R-2. The original petition requested R-4 Zone, and letter from the School District to the Planning Commission made the same request. Hearings were held on an R-2 zone, however, and proceedings by the Planning Commission were carried through on such a zone and were recommended that way to the City Council.

No one appeared to be heard in protest to the re-zoning, and no written protests were presented.

Stymans (unsigned), and from R. J. Cauble, which appeals were presented to the Council.

Thereupon, the Mayor inquired if any interested property owners were present who desired to be heard. R. J. Cauble presented a verbal appeal, and questions on why he should be included in the assessment district were answered by the City Engineer.

RESOLUTION NO. 93848, recorded on Microfilm Roll No. 18, overruling and denying the appeals of R. J. Cauble and Mary F. Styman from the City Engineer's Assessment No. 1857, overruling and denying all other appeals thereon, for the paving and otherwise improving of portion of Collier Avenue, within the limits and as particularly described in Resolution of Intention No. 89860, confirming and approving said Assessment, was on motion of Councilman Schneider, seconded by Councilman Swan, adopted.

The hour of 10:00 o'clock A.M. having arrived, the time set for hearing on the City Engineer's Assessment No. 1858, made to cover the costs and expenses for the installation of sewer in 43rd Street, Beta Street and Public Right of Way, within the limits and as particularly described in Resolution of Intention No. 91184, the clerk reported that written appeals had been received from Lewis H. Fishell, 5370 Churchward Street, owner of Lot Q Block 5 Las Alturas No. 4, protested verbally, stating that she had just installed cesspools upon demand of the Health Department, as had others of her neighbors, and felt that they should not be called upon for additional expense for sewers. It developed that the City Engineer's Department and the Health Department were sometimes not co-ordinated in such matters, and members of the Council deplored that fact.

It was asked if the Churchward Street improvement could be cut off, and the City Engineer expressed the belief that it could, but felt that it would be better if he were given an opportunity to study the same and report at a later meeting to the Council thereon.

The hour of 10:00 o'clock A.M. having arrived, the time set for hearing on the proposed ordinance incorporating portions of Blocks 4 and 8 College Park Unit No. 1 into "R-1" Zone, on which informal hearings had previously been held on the City Planning Commission's recommendations thereon, the clerk announced that written protest had been received from Thomas A. and Elsie Marshall, John Meek, Jr., Marie L. Meek, L. S. and Genevra Blankenship, which protest was presented to the Council.

Thereupon, the Mayor inquired if any interested property owners were present who desired to be heard.

L. S. Blankenship, 5082 College Avenue, spoke in protest to the re-zoning.

Wilson Wiede, attorney representing the nine petitioners who requested the re-zoning spoke for the re-zoning.
