The following Message from the Mayor, vetoing an Ordinance providing for the payment of certain claims for fire insurance on Fire Engine Houses is read, and referred to the Fire Committee, viz;

San Diego, California, February 23, 1905.

To the Honorable Common Council

of the City of San Diego, California.

Gentlemen:-

I return without my approval, an ordinance authorizing the Auditing Committee to pay claims for fire insurance.

I transmit herewith a copy of the report of the Board of Fire Commissioners, of special meeting held September, 17th, 1904, called for the purpose of investigating the insurance on Engine Houses. I fully concur with the ideas of the Board of Fire Commissioners in this matter, and think the following amounts are sufficient to carry.

\$500.00 on Engine House No.3.

\$500.00 on Engine House No.5.

\$300.00 on Engine House No.11.

\$300.00 on Engine House No.2.

With the apparatus and firemen always on hand to fight a fire, should one occur, the chance of any of these buildings to burn down is very small, and the amount of insurance recommended will cover an possible damage from fire that the City might sustain.

It is hard to ever reduce an amount once placed on city buildings, and the money can be used to better advantage in completing the buildings. We have never carried more than

\$300.00 on the Golden Hill chemical engine house, and as a matter of fact property owners in that vicinity reduced insurance on adjacent property when the chemical engine was installed therein. The amount of insurance necessary to be placed will bear a thorough investigation.

All of which is respectfully submitted.

Frank P. Frary,

Mayor of the City of San Diego, California.

San Diego, California March 17th 1905.

The following report of the Street Committee in the matter of oiling certain streets in the City of San Diego, is read and on motion adopted, viz:

San Diego, California, March 17th 1905.

To the Common Council,
City,

Gentlemen,-

The Street Committee to whom was referred a Communication from Klauber,

Wangenheim Company, offering to furnish oil to oil "I" street, between 6th and 7th streets, provided the City will fix the street and apply the oil; also, an ordinance providing for the purchase of crude oil and the oiling of Logan avenue from 16th street to 26th street: 26th street from Logan avenue to National avenue; and National avenue from 26th street to 31st street, herewith reports as follows;

Owing to the immense amount of work in repairing the streets and driveways of the City which the street force will be called upon to do at once, we feel that it is not a wise policy for the City to use its street force in the making of new roads or in the oiling of streets and driveways. We therefore recommend that an ordinance be adopted to prohibit the Board of Public Works from allowing the street force, or any portion thereof to be engaged in making new roads or in applying oil to graded streets but that all such work be done by contract.

We further recommend that the necessary steps be taken at once to accept the offer of Klauber, Wangenheim Company and others for the furnishing of oil to the City to all various streets and driveways, and that the Board of Public Works be instructed to take the necessary steps to let the work of preparing the streets and driveways and applying the oil thereto by public contract at the earliest possible moment.

We further recommend that all ordinances directing the Board of Public Works to use the street force of the City for the grading of new roads and the preparation and oiling of graded streets, the terms of which ordinances have not already been complied with, be rescinded.

We further recommend that the sum of \$825.00 be appropriated for the purchase of crude oil for oiling Logan avenue from 16th street to 26th street; 26th street from Logan avenue to National avenue; and National avenue from 26th street to 31st street.

We further recommend that the Board of Public Works be authorized to purchase two teams of horses for the use of the Street Department at a cost not to exceed \$500.00 also, to purchase two sets of harness for said teams at a cost not to exceed \$110.00 and that they be authorized to employ five additional permanent men for the Street Department at a salary of \$60.00 each per month, as fixed by Ordinance No 1248.

Respectfully submitted.

John W. Lambert,

A message from the Mayor vetoing an ordinance providing for a boulevard along the south line of the City park, is read and ordered filed, viz:

San Diego, California, March 29th 1905.

To the Honorable Common Council

of the City of San Diego, California:

Gentlemen:-

I return herewith, without my approval, an ordinance for a boulevard along the south line of the fourteen hundred acre park in the City of San Diego.

I return this without my approval for the reason that it is uncertain whether the Council has a right to establish, in the City Park, a legal street, subject to all conditions therewith.

The questions to be determined in this matter, are:

1st. Has the Common Council the power to establish a legal street in any portion of the City Park, and order it graded?

2nd. Can a legal assessment for street improvement be levied against the abutting property?

3rd In case of such assessment will not the City be liable for one half the expense of grading and caring for the street?

The street or boulevard described in this ordinance runs over a very rough section of the City Park, and would necessitate heavy cuts and fills and very expensive bridges. If the City's share of this expense is to be paid out of the Park Improvement Funds it will take all the money which will be apportioned to that fund for the next four years to pay the street assessment.

All of which is respectfully submitted.

Frank P. Frary,

Mayor of the City of San Diego, California.

The following report of the Water Committee in the matter of replacing 30th street water main on El Cajon avenue, between reservoir and the City Limits, is read and on motion adopted, viz.

San Diego, Calif, April 19th 1905.

To the Common Council

City of San Diego, California.

Gentlemen:

The Water Committee to whom was referred a communication from the Board of Public Works, recommending the replacing of the 30th street water main between the reservoir and the City Limits, herewith reports as follows:

We have examined the condition of this water pipe line particularly that portion

thereof on El Cajon avenue from Ohio street to the City limits and have ascertained that this portion of said pipe line is utterly unfit for the work required of it and is a source of a great expense and annoyance to the City; thousands of gallons of water go to waste daily. We therefore recommend that the Board of Public Works be authorized to do said work either by contract or by days labor as in their judgment will be the quicker method.

We believe that this matter is one which will admit of no delay and therefore present herewith an ordinance containing the urgency clause and recommend its adoption.

Respectfully submitted,

S. T. Johnson,
