A Message from the Mayor is presented and read, viz:

"October 6, 1911.

To the Common Council

of the City of San Diego.

I herewith return Document No.45318 without my approval for the reason that I do not see the necessity of creating so great an expense for an automobile for the use of the Health Department.

I am informed that a high-powered automobile is required for the reason that the Milk and Dairy Inspector of the Health Department is obliged to use a machine for the purpose of visiting different dairies in the County with no limit upon the distance that he will go from the City of San Diego. This I object to unless the County of San Diego bears part of the expense, submitting, as I do, that any inspection outside of the City of San Diego should at least partly be borne by the County.

I concede the importance of the proposed inspection of outside dairies but it becomes my duty, so far as I am able to do so, to confine City officials and employees within their jurisdiction. If the City Milk and Dairy Inspector is to go beyond the City limits in the execution of his duties the County and the people within the County will receive a benefit, the expense for which would be borne solely by the City.

Respectfully submitted,

James E. Wadham,

Mayor of the City of San Diego."

The following report of the Superintendent of Police in the matter of hotel runner's soliciting customs on steamships, is presented, and read, viz:

"San Diego, California, October 18th, 1911.

Returned to the Common Council:

It seems that the proprietors of the two hotels names, the Keystone Hotel and the Detroit Hotel have continued to have solicitors for their hotels travel on the Steamers Yale and Harvard between East San Pedro and San Diego, notwithstanding the efforts of the Hotel Keepers Association of this city to discontinue placing solicitors on these boats. The proprietors of these two hotels claim that their action is caused by unfair practices of the proprietor of the leading hotel of the city. I doubt whether the municipal authorities can prevent solicitors for any hotel traveling upon steamships between San Pedro and this city, though I believe it is perfectly within the powers of the Common Council to fully regulate the granting of licenses to solicitors operating at the wharves and docks in this city and to exclude these solicitors from all such wharves and docks if it is deemed wise to do so.

On account of these two hotels continuing to put solicitors upon these boats, it is charged that some disorder has been created at the wharves. The steamship companies, if they desire to do so, can apply to the Governor of this State, under Act approved March 23, 1901, for the appointment of special officers on the premises or boats of such companies. When these boats reach their wharves at this city, the police powers of this

city can be called upon to preserve good order at the docks.

I recommend that the hearing in this matter be continued for two weeks and the steamship companies be advised that they should ask for the appointment of special officers by the Governor, in case they find it necessary. For the time being, I have directed that two additional officers be sent to the wharves to preserve good order.

I herewith transmit communication dated October 18, 1911, concerning this general matter, from the President of the Hotel and Rooming House Keepers Association.

John L. Sehon,  
Supt. Department of Police, Etc."

On motion the report of the Superintendent of Police is adopted and hearing continued until November 1st, 1911.

The following report of the Superintendent of Police on a communication from the Chief of Police preferring charges against Patrolman Martin, is read and adopted, viz:

"November 28th, 1911.

Forwarded to the Common Council:

It is at times necessary for Police Officers to use force in making arrests, but an officer should not exercise greater severity, nor use more force than is necessary to make the arrest.

Unnecessary force is unjustifiable. From the report of Chief Wilson, it appears that Patrolman Martin was unnecessarily severe and did use more force than was required in making the arrest referred to, and I recommend that the recommendations of the Chief of Police be approved, and that Patrolman Martin be suspended from duty without pay for the period of thirty days.

John L. Sehon,

The following report of the Committee heretofore appointed to investigate and report to the Council the available water supply in the vicinity of San Diego, is read and adopted, viz:

"San Diego, California, December 5, 1911.

To the Common Council

of the City of San Diego, California.

Your Committee heretofore appointed to investigate and report to the Council on the water supply immediately available in the vicinity of San Diego for the purpose of supplying the City of San Diego with water, beg to report that, in our judgment, the only immediate available source of supply is, and would be, the Southern California Mountain Water Company; that we have interviewed this Company and are assured that it would be willing to dispose of its reservoirs, reservoir sites, conduits and all other property necessary or proper to supply the City of San Diego, but have not attempted, nor do we feel authorized, to go into detail with the said Company as to price and terms until further authorized by the Common Council.

Your Committee beg further to report that it has made a personal examination and investigation of other proposed and prospective reservoir sites and possible dam sites which might be developed for the purpose of supplying the City of San Diego, which, by development, would present very encouraging prospects.

We are further of the opinion that the City of San Diego should forthwith proceed to acquire its own supply of water and we recommend that this Committee be authorized to deal with the Southern California Mountain Water Company to the extent of ascertaining from said Company the lowest price and terms upon which said system could be acquired.

We further recommend that the question of supply of water to the City of San Diego should be dealt with without delay, believing as we do, that the present phase of the question is such that it demands immediate attention and action, and one of the principal causes for this conclusion on the part of your Committee is that in case we are unable to deal with the Southern California Mountain Water Company that it would be necessary for us to proceed to acquire a source of supply from other sources, which would require the full period of time between now and the expiration of the present contract with the Southern California Mountain Water Company.

Respectfully submitted,

James E. Wadham,

Herbert R. Fay,

Edwin M. Capps."

Thereupon a resolution confirming the appointment of Mayor James E. Wadham, Councilman H.R. Fay and City Engineer Edwin M. The following report from the Superintendent of Fire and Sewers in the matter of sewer pipe, is read and adopted, viz:

"To the Honorable

The Common Council of the City of San Diego.

Gentlemen:-

Some months since, bids were received for furnishing pipe for the sewer extensions contemplated by the bond issue. There was about \$5000. difference between the bids for vitrified pipe and concrete pipe, in favor of the latter. On my recommendation, the contract with the concrete pipe company was entered into. Mr. Capps, our City Engineer, informed the Council that he favored the vitrified pipe. Without discussing the relative merits of the two pipes here, I wish to say the contract was made, as I fully believed, in the best interest of the City. However, the concrete pipe company have not been furnishing the amount of pipe contracted for and I have been compelled to purchase vitrified pipe to keep the work progressing. The concrete people have been required to test every joint of pipe and none but the very best has been accepted by the City. I am not prepared to recommend the annulment of the contract with the Glazed Cement Pipe Company, as that Company, by entering the field, was largely instrumental in our being able to secure a lower bid from the Vitrified Pipe Company; and for the further reason that they have made an investment of several thousand dollars in our city and should have fair consideration. This Company, and not the City, have been the losers. Although much notoriety has been given this matter through the press and otherwise, the public have had but little knowledge of the annoyance to which Mr. Capps and myself have been subjected.

If you, gentlemen, agree with my proposition, I will continue the use of such pipe as the Glazed Cement Pipe Company can furnish, coming up to the requirements, and purchase the remainder in the open market, to the best advantage, in order to avoid delay. At the same time, as Mr. Capps' views are not in accord with the action of the Council as to the kind of pipe used under the city's contract, I think it but just and fair to him that he be relieved of any responsibility in the matter, and the entire sewer construction be placed

under the supervision of Mr. F.M. Lockwood, as Engineer of the Sewer Department.

This suggestion is made with the approval of Mr. Capps, for whom I entertain the highest regard as an engineer and a citizen, and for the sole purpose of relieving him from an unnecessary strain. His duties in connection with out harbor improvements require his entire time, and he should not be required to assume unnecessary burdens.

Respectfully,

A.E. Dodson,

Superintendent Department Fire & Sewers."

A Message from the Mayor vetoing an ordinance authorizing the City Assessor to appoint temporary deputies and fixing their compensation, is presented and read, viz:

"December 5, 1911.

To the Common Council

of the City of San Diego, California.

Herewith I return Document No. 46733, being an Ordinance authorizing the City Assessor to appoint temporary deputies and fixing their compensation, without my approval, for the reason that, I think, the ordinance should designate the work that is to be performed by these extra deputies.

If in the opinion of the Council, said deputies are necessary to make up the books I would be disposed to approve the ordinance, but if such deputies are to serve in any wise in the collection of personal taxes, which I understand to be the fact, then I cannot approve the ordinance for the reason that, in my judgment, the Statute prescribed a percentage to be allowed the Assessor for the collection of personal taxes, and such being the case I do not think the City should incur any liability on account of the collection of such personal taxes.

I further disapprove of the ordinance being made an emergency ordinance, believing as I do, that the same does not fall within the provision of the Charter for emergency ordinances.

Respectfully submitted,

James E. Wadham,

Mayor of the City of San Diego."

A communication from the City Engineer concerning contract with Glazed Cement Pipe Company, is presented, read and ordered filed, viz:

"San Diego, Cal., Dec., 29th, 1911.

To the Honorable Common Council,

San Diego, California.

Gentlemen:-

Upon examination of the short hand notes taken at the proceedings before your Honorable Body on December 23rd, 1911, concerning the contract with the Glazed Cement Pipe Company, I note that the real issue was lost sight of by a digression into the old issue of the virtues of cement pipe. In-so-far as this particular contract is concerned, this issue was settled when this contract was let. The real issue or question now before your Honorable Body is whether the contract with the City is being complied with, which in my opinion is not being done; neither can this company in my opinion do so with the machinery they have in use. The legal aspect of the contract is of course within the province of the City Attorney.

With your permission I beg leave to make a few statements:

The specifications as prepared by me for the manufacture of cement sewer pipe were thoroughly inspected by Mr. Bent, Manager of the Glazed Cement Pipe Company, before he bid upon the work. It was Mr. Bent's representations that pipe manufactured by his patented machine was so dense and uniform that it would readily withstand 40 to 60 pounds internal hydrostatic pressure per square inch without leakage. He readily consented and suggested that 40 pounds be incorporated into the specifications. Considering this pressure unnecessary I reduced it to 25 pounds and later to 15 pounds into the final specifications, deeming this sufficient to test its porosity, which was all this clause in the specifications was intended for and not for the purpose of testing the tensile strength of the shell of the pipe, as was supposed to be the purpose by the engineers who gave testimony on December 23rd. Mr. Bent now takes exception to this pressure test of 15 pounds, saying it is unnecessary and too technical.

My information and belief is that Mr. Bent had not had practical experience in the manufacture of cement pipe with the machine he is now using and he was therefore unable to bid intelligently upon the work, hence his difficulties and failure to meet the specifications.

With regard to the merits of cement pipe versus vitrified pipe, the opinions of Engineers Jas. D. Schuyler and Frank H. Olmstead who were employed by the cement pipe Co., to extol the virtues of their product on December 23rd, 1911, are strikingly at variance with former opinions of the same engineers upon the same subject matter, as may be seen from the following:

"Los Angeles, Calif., Nov., 19, 1904.

Dear Sir:-

Your letter of November 15th is before me. While City Engineer of Los Angeles, the cement lined tunnel of the outfall sewer below a long stretch of inverted syphon, where the sewage was under pressure, was almost destroyed by the action of gases engendered by the pressure, the neat cement being resolved, apparently, into a gypsum, occasioned by the union of the sulphuric acid from the sewage and the lime in the cement. In this case, owing to the size of the conduit, vitrified pipe would not have answered, but, could it have been used, would have been entirely unaffected by these conditions.

Yours truly,

Frank H. Olmstead."

"NIGHT LETTER

THE WESTERN UNION TELEGRAPH COMPANY.

Los Angeles Calif 19 June 1911.

W.S. Dickey Clay Mfg. Co.

Kansas City Mo.

Glazing or vitrifying the surface of sewer pipe is done for the purpose of rendering the pipe impervious to water and avoid its saturation with germ laden sewage. It is a sanitary measure as essential to health as the lining of bath rooms with tile, the glazing of water closets and the general use of glass in operating rooms of hospitals. I would not accept unglazed pipe on any sewer or advise its use. Hard burning is not sufficient to accomplish the impervious condition of pipe essential to safe sanitary use.

James D. Schuyler, Consulting Engineer." 410 PM.

I quite agree with both of the above statements. I do not think it overdrawn when I say that at least twenty-five engineers will condemn cement pipe for sewers to one who will advocate its use. I will further venture the opinion that not one engineer out of

one hundred will have the temerity to say that salt glazed vitrified clay sewer pipe is not the very best pipe that can be procured the world over for sewer purposes.

The people of San Diego are entitled to the best their money will purchase. I am prepared to prove that not one cent is being saved to the city by the use of this inferior pipe.

It has been stated to your Honorable Body that the appearance in the field of the Glazed Cement Pipe Co., as a competitor caused a reduction of about \$10,000 in the bid of the Vitrified Pipe Co. Actual facts show that the prices for vitrified pipe submitted in the bid of the Vitrified Pipe Company were identically the same as had been regularly charged for the pipe all along, before, during and after their bid was submitted and vitrified pipe is at present being sold to this city at the same prices. This city has gained absolutely nothing by reason of such competition.

Mr. Bent in his testimony before your honorable body, made several statements which I feel it unnecessary to discuss and in which, to be charitable, I will say he was mistaken.

In conclusion, permit me to again strongly recommend that your Honorable Body take the necessary steps to install suitable machinery to manufacture our own vitrified clay sewer pipe as recommended by me in a previous communications

I would further recommend that under no condition any pipe other than salt glazed vitrified clay pipe be permitted to be placed in the sewer system of this city.

Very truly,

Edwin M. Capps, City Engineer."

A resolution recommending that the Superintendent of the Department of Fire and Sewers continue the use of cement sewer pipe, is presented and read, viz:

"RESOLUTION NO. \_\_\_\_\_

WHEREAS, on or about June 15th, 1911, the City of San Diego, California, through its Common Council, entered into a contract with the Glazed Cement Pipe Company for furnishing and delivering to the Sewer Department of said city of so much glazed cement sewer pipe and wyes as may be required in the laying and construction in said City of certain lines of sewer, more specifically set out in said contract, being Document No. 42764 on file in the office of the City Clerk of said City, and

WHEREAS, thereafter, on December 11th, 1911, there was adopted by this Common Council a resolution, being No. 9728, in which it was recited that said Glazed Cement Pipe Company had produced less than one-half of the quantity of pipe required by said contract, and that it appeared that said company was unable to furnish the amount required by said contract, thereby causing a long delay in the completion of the construction of said sewers, and said resolution cited the manager of said company to appear before said Common Council on Monday, December 18th, 1911, at 10:30 a.m. and show cause, if any he had, why said contract should not be cancelled, and

WHEREAS, on said date said hearing was duly continued until Saturday, December 23rd, 1911, at 9 a.m., and

WHEREAS, on said last mentioned date said hearing was had, at which time testimony was given by Arthur S. Bent, manager of said company; by James Dix Schuyler, hydraulic engineer, and former City Engineer Olmstead of Los Angeles, both of whom testified to the excellent qualities of the pipe constructed, and that they would have accepted ninety per cent. of the pipe rejected, and further, that they would prefer the class of cement

pipe furnished to vitrified pipe at the same price, or even at a slightly higher price for concrete pipe, now be it

Resolved, That after a thorough hearing of the subject matter, preceded by a visit to the works where said sewer pipe was thoroughly examined and severe tests made, and after examining sections of cement pipe taken from the C street sewer, where it has been successfully used for four years, it is the opinion of this Common Council that all pipe being used from said works does comply, practically, with the requirements of the contract, and it is therefore recommended that the Superintendent of the Department of Fire and Sewers continue the use of such pipe."

On motion said resolution is adopted by the following vote, to-wit:

A communication from the Superintendent of the Department of Finance, Ways and means concerning the contract with the Glazed Cement Pipe Company for furnishing cement sewer pipe to the City, is read and ordered filed, viz:

December 29, 1911.

TO THE HONORABLE COMMON COUNCIL

OF THE CITY OF SAN DIEGO.

Gentlemen:-

This Common Council did on the 11th day of Dec. 1911 cite the Glazed Cement Pipe Company to appear before said body and show cause why its contract with the city should not be rescinded.

After considering all points of contention, it is manifest that the merits of vitrified clay pipe or glazed cement pipe for sewer purposes should not enter into argument at this time.

While the pipe furnished is not technically up to specifications, it does not appear at this time that there exists sufficient reason to warrant the abrogation of said contract.

The foregoing is respectfully submitted as the result of my consideration of the matter.

Percival E. Woods,

Supt. Dept. Finance, Ways & Means."

A Message from the Mayor vetoing an ordinance regulating the construction, repair and inspection of buildings, is presented and read, viz:

"December 6, 1911.

To the Common Council

of the City of San Diego, California.

I herewith return Document No.46675, being an ordinance regulating the construction, repair and inspection of buildings, without my approval, for the reason that in my judgment the ordinance creates a liability on the part of the City which should not be assumed by the City.

I am advised that this feature was not submitted to the City Attorney before the same was passed and I respectfully submit that this phase of the ordinance should be carefully considered.

This ordinance is objected to by every architect with whom I have discussed the same as being one out of which nothing but friction and law suits would necessarily follow.

I do not wished to be placed in the position, nor is it my intention to question, the honest intention or ability of the Building Inspector now in the employ of the City of San Diego, nor have I had the time to give the whole ordinance, consisting of one hundred ten pages, minute consideration, but I have taken up with architects in whom I have confidence the first twenty-four pages of the ordinance, and the following objections have been suggested to me, as to the first twenty-four pages:-

The Building Ordinance clause making strain sheets compulsory is a hardship.

It is a questionable policy to make Inspector, and the Council, through him, responsible for elaborate engineering data. A certificate from a responsible engineer or architect would be a better requirement, stating the computations made in the Building Ordinance.

The provisions for roof additions to height of various buildings desirable, as in Los Angeles.

Page 11, Sec. 18. Eight inch court walls unnecessary in some cases - six inch tiling should be permitted.

Sec. 19. Two or three inch tile fire-proofing for skeleton construction should be permitted when cement grouted and tile tied. Four inch masonry, plus one inch grout, space equalling five inches, is a hardship and loss of space.

Sec. 21. Four inch casing to interior columns hardship for limited space. Two or three inch tile allowed elsewhere.

Two inch concrete is inconsistent as brick is a better fire protection when tied. Cancel hard burned brick - soft brick is preferable.

Sec. 22. Hard burned clay, or porous terra cotta, inconsistent.

Pages 15,16 and 17. Confuses an unnecessary steel percentage under column minimum diameters. If standard design and construction is demanded most other clauses are unnecessary and may become contradictory.

A text book ordinance not required.

Cement testing requirements ponderous and almost certain to become dead letter.

The load test and tamping test by Inspector ample protection.

No reference made to the most important item of concrete work - time of striking forms.

Page 18, Sec. 26. Standard elevator doors a hardship and unnecessary in certain cases - a contradictory clause. Where fire protection is demanded wire glass and metal frame should be used.

Sec. 31. Wording not clear and areas need consideration.

Under this ordinance buildings such as Marston's Store could not be constructed.

Sec. 32. Heights require consideration. Hotel and lodging houses at four stories and apartment houses at five stories inconsistent.

Ordinances on new construction relating to open ceilings and the right to build apartment houses in said construction inconsistent.

Sec. 39. No spacing for cornice brackets - projection of corners - should be regulated.

Allowable stress on concrete two hundred pounds per square inch and on hollow tile three hundred pounds per square inch very inconsistent.

Sec. 55. Pipe recess should not be filled.

Sec. 59. No.16 wire sufficient.

I am further informed that under this ordinance it would be impossible to erect or construct a building similar to the one now being constructed by Mr. Marston on C street, between Fifth and Sixth streets.

Respectfully submitted,

James E. Wadham,

Mayor of the City of San Diego."

A Message from the Mayor vetoing an ordinance transferring one thousand dollars from the Salary Fund to the Office Fund, is presented and read, viz:

"January 6, 1912.

To the Common Council  
of the City of San Diego, California.

I return herewith Document No.47,517, being an ordinance transferring one thousand dollars from the Salary Fund to the Office Fund, for the reason that Section 3, Chapter 4, Article 1, of the City Charter has not been complied with, the Charter providing that when the Common Council pass an ordinance for the immediate preservation of the public peace, health or safety, which contains a statement of its urgency, the same can be made an emergency ordinance. I do not consider that the mere recitation of the urgency is a compliance with the Statute, such recitation being merely a conclusion.

I am also unable to conceive of any declaration that could bring said proposed ordinance within the emergency clause of the charter.

Respectfully submitted,  
James E. Wadham,  
Mayor of the City of San Diego."

A Message from the Mayor vetoing an ordinance authorizing alteration of Cadillac automobile into a roadster and purchase a new machine, is presented and read, viz:

"January 17, 1912.

To the Common Council,

of the City of San Diego, California.

I herewith return Document No.46709, being an ordinance authorizing the Department of Finance, Ways and Means to have the present City "Cadillac" automobile made over into a roadster, and to purchase one new 1912 Model "Cadillac" automobile for the use of the Common Council, without my approval, for the reason that it seems to me that each Department having an automobile that one of the machines now owned by the City could be used to advantage by the Common Council for the purpose of making inspections, and save the expense necessarily appurtenant to the maintenance and operation of a machine for the Council.

Again it seems to me that the Council could hire an auto for these inspection trips and save, first, the cost of an automobile, and secondly, the expense of a chauffeur, and the maintenance and operating incident to the ownership of a machine.

Relative to the providing of an automobile for the Health Board it seems to me that this is probably essential and important and it is not my intention herein to comment adversely to the provision that you wish to make for the Board of Health.

Again, I submit for your consideration that, as a general rule, the interests of

City will be best subserved by advertising for bids.

Respectfully submitted,  
James E. Wadham,  
Mayor of the City of San Diego."

It is moved and seconded that said ordinance be reconsidered and that same be adopted notwithstanding the veto of the Mayor, which motion is defeated by the following vote, to-wit:

A Message from the Mayor vetoing an ordinance placing the office of Pueblo Forester and Assistant Pueblo Forester under the control of the Department of Streets, is presented and read, viz:

"January 17, 1912.

To the Common Council  
of the City of San Diego, California.

I herewith return Document No.43762, being an ordinance placing the office of Pueblo Forester and Assistant Pueblo Forester under the control of the Department of Public Streets and Buildings, without my approval, for the reason that I do not believe that this office should be placed under the direct supervision of any one branch of the Common Council.

It must be admitted that the present Department of Pueblo Forester has produced excellent results at a minimum expense and the fund for this Department is derived from a special and separate tax, but I submit it should be under the control of the Council as a whole.

Respectfully submitted,  
James E. Wadham,  
Mayor of the City of San Diego."

It is moved and seconded that said ordinance be reconsidered and that same be adopted notwithstanding the veto of the Mayor, which motion is defeated by the following vote, to-wit:

A Message from the Mayor vetoing an ordinance appropriating money for relief of Madeline Roberts, is presented and read, viz:

"January 29th, 1912.

To the Common Council of the City of San Diego, California.

I herewith return Document No.48086, being an ordinance appropriating money for the relief of Madeline Roberts, without my approval, for the reason that I am unable to act on the same intelligently, and I respectfully submit that an ordinance should recite sufficient facts to enable the Mayor to act on the Ordinance without resorting to outside inquiry.

Again, I submit that the power or authority of the City to make payments in the way of relief money should be carefully considered, and that if these payments can be made it is solely for the purpose of carrying out a Police regulation, and the amount should be payable from the Police Department Fund.

Respectfully submitted,

James E. Wadham,

Mayor of the City of San Diego."

It is moved and seconded that said ordinance be reconsidered, which motion is adopted.

A Message from the Mayor vetoing an ordinance creating and establishing certain offices and employments in the various departments of the City government, is presented and read, viz:

January 31st, 1912.

To the Common Council  
of the City of San Diego, California.

I return herewith Document No. 48000, being an ordinance creating and establishing certain offices and employments in the Finance, Auditor, Assessor, Treasurer, Engineer, Legal, Clerk, Public Works, Health and Plumbing, and Pueblo Lands Departments of the City of San Diego, and fixing the compensation appurtenant thereto, without my approval, for the following reasons:

FIRST. The Auditor has discharged the outside deputy assessor for the reason that he is no longer necessary and I therefore suggest that the office be vacated.

SECOND. I do not think that any provision should be made for City Justice, for the reason that the City Justice claims that he holds office under the State law and until this matter is determined I do not think that the City should create the office.

THIRD. I am opposed to the raising of the Deputy City Attorney from one hundred and twenty-five dollars unless the Deputy City Attorney be required to give to the City his undivided attention. I do not think that deputies should draw salary from the City and be permitted to practice law on their private and individual account. If the amounts now paid are not sufficient to obtain good attorneys for the salaries offered then I submit that the salaries should be raised sufficiently to obtain undivided time and attention to the City's business.

Should your Honorable Body reconsider this ordinance I respectfully request that in such reconsideration that you create the office of Secretary to the Mayor, and suggest that the salary be fixed at one hundred dollars per month. I do not ask authority at this time to fill the office but am of the opinion that due and proper consideration of the reports of the several Boards, Officers and other heads of Departments, which the Charter prescribed shall be furnished to the Mayor during the month of January, will necessitate additional assistance and this request is made for the purpose of clothing me with authority to make such appointment should I deem a Secretary necessary.

Respectfully submitted,  
James E. Wadham,  
Mayor of the City of San Diego."

It is moved and seconded that said ordinance be reconsidered, which motion is adopted.

A Message from the Mayor vetoing an ordinance appropriating money to discharge the claim of Volcan Land & Water Company, against the pueblo lands of the City within the Linda Vista Irrigation District, is presented and read, viz:

"February 7, 1912.

To the Common Council

of the City of San Diego, California.

I herewith return document No. 48,489, being an ordinance "Appropriating money to discharge the claim of Volcan Land & Water Company as a successor to Live Oak Corporation, against the pueblo lands of the City of San Diego within the Linda Vista Irrigation District, without my approval, for the reason that the amount, to-wit: six thousand eight hundred and ten dollars is appropriated from the Pueblo Land Improvement Fund and I submit that this payment should be made from the General Fund.

The Charter provides that the Common Council shall levy annually, in addition to all other taxes provided for in the Charter, two cents on each one hundred dollars valuation of property for the purpose of improving the pueblo lands north of the San Diego River, and I cannot bring myself to the conclusion that the compromise of an old debt created, if at all, many years prior to the enactment of this provision of the Charter (which I understand came into existence January 26th, 1909) is an improvement of the pueblo lands. It seems to me that this Fund could only be appropriated for improvements, or liabilities for improvements, which occurred since the 26th day of January, 1909.

Respectfully submitted,

James E. Wadham,

Mayor of the City of San Diego."

The following report of the Superintendent of Police on the petitions of Geo. Topuzes for a restaurant liquor license at No. 1228 C street and 1114 Fourth street, is read and ordered filed, viz:

"San Diego, California, February 26, 1912.

To the Common Council

of the City of San Diego, California.

Gentlemen:-

I herewith return application of George Topuzes for a restaurant liquor license at 1228-30 "C" street, and also application from the same party for a restaurant liquor license at 1114 Fourth street.

The petitioner, George Topuzes, is applying for restaurant licenses at these two Places as successor to the firm of Topuzes & Solak. Some time ago, the Common Council placed the firm of Topuzes & Solak on probation and granted them a new license for their Fourth street address. I have not considered that the firm of Topuzes & Solak should be permitted to conduct their places known as the Oyster Loaf, but the Common Council decided to place them on probation and grant them the additional license as a means of securing a

closer supervision and control over the Oyster Loaf Restaurant.

While I cannot recommend Mr. Topuzes' petition, still I see no objection to Mr. Topuzes purchasing the interest of his former partner, Mr. Solak.

Very respectfully,

John L. Sehon,

Supt. Department of Police, Etc."

Thereupon a resolution authorizing the Auditor to issue a restaurant liquor license to George Topuzes, successor to Topuzes & Solak, at 1228 C street and 1114 Fourth street, is presented, read and on motion adopted.

A Message from the Mayor vetoing an ordinance authorizing the Department of Finance Ways and Means to have present city automobile "Cadillac" made over into a roadster, and to purchase one new 1912 Model "Cadillac" automobile, is presented and read, viz:

"February 19th, 1912.

To the Common Council

of the City of San Diego, California.

I herewith return Document No. 48403, being an ordinance authorizing the Department of Finance, Ways and Means to have the present city automobile "Cadillac" made over into a roadster, and to purchase one new 1912 Model "Cadillac" automobile, without my approval,

for the reason that Section Three of said proposed ordinance appropriates the same out of the Public Health Fund of the City of San Diego, and Section Two provides that the Two Thousand Dollars to be expended for the automobile, is for the use of the Common Council. This I consider a violation of Section Ten, Chapter Two, Article Six of the Charter of the City of San Diego, wherein it provides that there can only be paid from the Public Health Fund expenses of the Health Department, including the scavengers and all expenses of the disposing of garbage, etc.

Secondly, because I consider the expenditure of two thousand dollars for an automobile for the use of the City Council (considering that all Departments are provided with automobiles) unnecessary and extravagant.

Respectfully submitted,

James E. Wadham,

Mayor of the City of San Diego."

Councilman Sehon moves that said ordinance be reconsidered, which motion is adopted.

Whereupon Councilman Sehon moves that said ordinance be adopted notwithstanding the veto of the Mayor, which motion is adopted by the following two-thirds vote, to-wit:

The following report of the Superintendent of Police on the petition of E.S.  
Desmond for a restaurant liquor license at the Pelican Inn, Ocean Bay Beach, is read and  
adopted, viz:

"San Diego, California, February 26, 1912.

Returned to the Common Council:

I have not favored the granting of a restaurant liquor license to the Pelican Inn at Ocean Bay Beach originally, as the temptation to make the Pelican Inn an improper road house is too strong for the average person to resist. However, I can see that, for a number of reasons, people there desire to be able to secure wine, ale or beer with bona fide meals, and I would not object to a restaurant liquor license being granted the petitioner, with the proviso that no guests shall be served with any refreshments whatever or entertained in any way on the second floor of the building, and that the sale of wine, ale or beer only with bona fide meals will be permitted only on the ground floor, the upstairs of the building being reserved exclusively for the living apartments of the petitioner.

Very respectfully,

John L. Sehon,

Supt. Department of Police, Etc."

A Message from the Mayor vetoing an ordinance authorizing the execution of a lease to Buchanan Lumber Company of certain tide lands, is presented and read, viz:

"March 7, 1912.

To the Common Council

of the City of San Diego, California.

I herewith return Document No.49077, filed February 26th, 1912, being an ordinance authorizing the execution of lease by the City of San Diego to Buchanan Lumber Company, a corporation, of certain tide lands and submerged lands on and in the Bay of San Diego, without my approval, for the following reasons:-

Firstly; because I deem the rent therein reserved inadequate.

Secondly; for the reason that any improvements made on the water front, in future, should be in conformity with those designed by the Harbor Engineer, as contemplated on the water front by the City of San Diego, thus enabling a connection, without additional cost, when the city improvements of the Harbor shall be extended to the point described in said document.

Thirdly; for the reason that in case the City exercise the reservation made in letter "G", Page Four, of said document that the damage to be claimed by the lessee shall be limited to the actual cost, without interest.

Respectfully submitted,

James E. Wadham,

Mayor of the City of San Diego."

The following copies of communications are read and ordered filed, viz:

"March 12, 1912.

Judge W.R. Andrews,

City Attorney.

San Diego, California.

My dear Judge:-

After my conversation with you, I immediately rang up our attorney, Mr. Sweet, and the following are his words: 'Mayor Wadham is entirely wrong if he made the assertion that I consider the transfer of the money from the Pueblo Fund to have been used to pay the Linda Vista assessment. I never made any such statement, and I did not even know that there was such a fund as the Pueblo Fund until Mayor Wadham told me. Also, I have never looked into the question of the legality of the transfer and am not in a position to give an opinion on the subject.'

Now Judge, there is something wrong somewhere, and I am glad to have the opportunity of righting a wrong impression in your mind. In the meantime, however, the pueblo lands of San Diego have been sold, along with about 10% of delinquents. Sylvester Kipp, Brooks, Donohue and Gould bought in those properties. The delinquents will have to pay dollar for dollar in addition to 50% penalties and 2% a month; this will mean \$18,000, or \$20,000. that the city will have to pay if they don't accept the proposition of Mr. Chas. Gould within the time limit.

The Santa Fe Railroad yesterday paid its assessment in full without one dollar discount. It is a mistake if the City of San Diego does not take advantage of this last offer, and the City of San Diego will be to blame for delaying the development of San Diego County from three to five years, if this assessment is not paid.

Very truly yours,

Not reviewed

ED FLETCHER

after dictation.

S.W.F."

"March 14, 1912.

Mr. Ed Fletcher,

1548 D street, San Diego, Calif.

Dear Sir:-

Yours of the 12th inst., touching the claim of your Company against the City on account of the Linda Vista Irrigation District assessment, is received.

I notice your quotation from Mr. Sweet. So far as your claim is concerned, I do not understand why you do not present it to the Auditing Committee. Certainly that body has never yet refused to direct a warrant to be issued, and may never do so. Should there be a refusal, however, either on the part of the Auditing Committee to allow the claim, or on the part of the Auditor to issue your warrant, your attorney will no doubt advise you properly as to the remedy. I believe that the Council, in passing the ordinance making the appropriation, and the City Attorney in advising that such appropriation could lawfully be made, have each gone as far in serving you as it is within their power to do.

Respectfully,

W.R. Andrews,

City Attorney."

Thereupon a resolution approving text of letter written by City Attorney to Ed. Fletcher in the matter of the assessment on the Linda Vista Irrigation District, is presented,
