The following report of the Superintendent of Finance on communication from the Mayor appoint J.J. Hetzel to examine the records of the City, is read and ordered filed, viz:

San Diego, California, April 17th, 1912.

To the Honorable Common Council,  
City of San Diego, California.

Gentlemen:-

In re document No. 49825 "Communication from the Mayor recommending the appointment of J.J. Hetzel to examine the records of the City," referred to this department for recommendation as to whether the amount \$1500.00 as agreed upon between the Mayor and his expert is a correct sum for the city to pay for the annual audit provided for by charter, would respectfully call your attention to the following language of the charter:

OF THE MAYOR

ARTICLE III - CHAP.1 - Sec. 3.

"He shall see that the laws of the State and the ordinances of the city are observed and enforced. He shall appoint a competent person or persons, expert in matters of bookkeeping and accounts, to examine the books, records, conditions and affairs of every department, board or officer, at least once every year, and enforce such examination. An person refusing to submit to, or to permit such examination, or purposely delaying or impeding the same, may be suspended from office by the Mayor, and removed for malfeasance in office. He shall have a general supervision over all the departments and public institutions of the city and see that they are honestly, economically, and lawfully conducted. He shall take all proper measures for the preservation of public order and the suppression of all riots and tumults, for which purpose he is authorized and empowered to use and command the police force; and if such police force is insufficient, it shall be his duty to call upon the Governor for military aid, in the manner provided by law, in order that such riots or tumults may be properly and effectually suppressed."

It does not seem reasonable that the framers of the charter intended to grant such broad powers to the Mayor and then permit those persons directly interested in the results of such investigation to hamper or delay such investigation by the failure to pay for services, as per agreement between the Mayor and the expert, and, not knowing as to the extent the Mayor desires the expert to carry on such investigation, we must assume that the Mayor is acting within the bounds of reason, until such work is completed. As we have no means at this time of knowing whether the \$1500.00 limit is a reasonable compensation.

On March 25th when the Auditor and Mr. Hetzel appeared before the Council, at my request they communicated with the City Attorney. He advised them and they so reported to the Council that Judge Andrews advised "The Council had no jurisdiction, the matter being entirely in the hands of the Mayor." Notwithstanding this statement the communication was referred to this department. After again consulting with the Attorney yesterday, I am further advised that it is a matter entirely within the powers of the Mayor. He may hire whom he pleases to audit accounts, and pay such reasonable amounts as he may deem proper.

Under the circumstances I feel that it would be only proper, therefore, to recommend the document be filed. After the work is completed, and the bills rendered to the city, it might be proper for the Council to investigate the reasonableness of such charge when the number of persons employed or the amount of time consumed and the work performed is made known to this body by the Mayor of his expert.

Respectfully submitted,

Percival E. Woods

Supt. Dept. Finance, Ways & Means."

A Message from the Mayor vetoing an ordinance fixing the tax rate and levying taxes for the fiscal year 1912, is presented and read, viz:

"May 13th, 1912.

To the Common Council

of the City of San Diego, California.

I hereby return Document No.51226, filed May 9th, 1912, being an ordinance fixing the rate and levying taxes for municipal purposes for the fiscal year 1912, without my approval, for the reason that in my judgment no sufficient provision has been made for the Library Fund. By and through the rate which you have fixed, and by other moneys which will be paid into the City Treasury during the year 1912, you will have for the purpose of running the City of San Diego over eight hundred thousand dollars. And this does not include the provision made for Park purposes, Pueblo Land purposes, and bond and interest, and I submit that with the sum of eight hundred thousand dollars, at your disposal for the running of the City during the coming year, ample provision could and

should be made for the Public Library.

It certainly seems inequitable to me to increase the Salary Fund nearly one hundred per cent. and decrease the provision for the Library almost seventy per cent.

Again it seems to me that the provision for the Blacksmith Fund is uncalled for, for the reason that each Department should pay its own blacksmith expenses. I feel confident that this position taken by me will be borne out by an examination of the methods made use of by any large corporation.

Respectfully submitted,

James E. Wadham,

Mayor of the City of San Diego."

The following report of the Superintendent of Finance on the petition of the Hotel and Rooming House Keeper's Association in the matter of the collection of garbage, is presented, read and ordered filed, viz:

"May 29th, 1912.

To the Honorable, the Common Council,
San Diego, Calif.

Gentlemen:-

Document No.51076, being "Petition of the Hotel and Rooming House Keepers' Association," referred to this department, we respectfully submit the following report:

After several meetings with the petitioners, et al, and represenatives of the San Diego Sanitary Reduction Company, we are of the opinion that the principal complaint is in re apartment house charges for collection of garbage, viz., thirty cents per apartment, petitioners maintaining that they are subject only to charges as provided in Section 15, Ordinance No.3180, commonly known as the "Garbage Ordinance."

The San Diego Sanitary Reduction Company maintain that they cannot and will not remove garbage from apartment houses at prices fixed in the above mentioned ordinance unless the city enforces each and every provision of said ordinance.

Petitioners state they will have garbage removed by other parties, if the San Diego Sanitary Reduction Company refuses to remove the same.

This department intended to recommend petitioners be permitted by law to have such outside parties temporarily so remove garbage, it being understood by this department that such an action would be agreeable to both parties. We are advised since this temporary arrangement, the San Diego Sanitary Reduction Company held a meeting and decided to abandon the entire contract supporting such action with a statement that the San Diego Sanitary Reduction Company is now, and has been losing money each month, and do not consider it advisable to continue under the present arrangements.

Under the existing serious conditions we are of the opinion that some decisive action should be taken at this time.

We respectfully recommend that a temporary incinerator be erected on Tide Lands near the foot of Ninth or Tenth streets, and an ordinance be adopted permitting the licensing by the Common Council of persons, firms or corporations to do the business of collecting and hauling garbage, refuse and waste matter to the said temporary incinerator where the City will dispose of same.

We are of the opinion that this would be the cheapest method for temporary purposes.

Respectfully submitted,

Percival E. Woods,

Supt. Dept. Finance, Ways & Means."

The following report of the Superintendent of Police on the petitions of N.Kapsas and George Topuzes for class "A" restaurant liquor licenses, is read and adopted, viz:

"San Diego, California, June 10, 1912.

TO THE COMMON COUNCIL,

OF THE CITY OF SAN DIEGO.

Gentlemen:-

In the matter of granting Class "A" restaurant liquor licenses to N. Kapsas at 1055 Fourth street and George Topuzes at 1228 C street and 1347-4th street, I desire to report as follows:

Both of these restaurants have partitions through the center of their rooms, very close to the fronts of the booths. These partitions are primarily to obscure from view any one sitting in the booths and are meant as evasions of the Liquor Ordinance. In this connection I would recommend as follows:

1st. That no restaurant be granted a Class A liquor license where any dining room (or other place wherein meals or liquor is served) has a floor area of less than 600 square feet.

2nd. That the partition screens in front of the lines of boxes be ordered removed.

3rd. That no part of the front of any booth or box be permitted to have a greater height than 42 inches from the dining room floor, so that all these boxes would be converted into merely stalls, with open fronts.

4th. That when these changes are made N. Kapsas at 1055-4th street and George Topuzes at 1228 C street and 1347-4th street be granted either Class A or Class B restaurant liquor licenses, as each applicant may elect.

Very respectfully,

John L. Sehon,

Supt. Dept. of Police, etc."

The following report of the Superintendent of Fire and Sewers on the petition of F.W. Ruhnow for a moving picture show license, is read and adopted, viz:

"San Diego, Calif., June 12, 1912.

In reference to the petition of F.W. Ruhnow for license for a moving picture show at the Grand Theater, I would respectfully report:

This particular location has been a perpetual source of annoyance to the Building Electrical and Fire Departments. It is an old frame structure, which has long since

outlived its Usefulness. It is located in the heart of one of our best business blocks and its occupancy as a theater or picture show is not at all desirable to the Fire Department. The owner, and various tenants have caused no end of trouble, but it is there and possibly will be for years. The only thing the city government appears able to do with it is to watch it constantly and endeavor to avoid a serious accident.

Recent the representatives of the three departments above named, inspected the place and found it anything but satisfactory. An investigation of the condition has satisfied me that the change asked for, namely: To grant the petition, would be better than a continuance of the former occupancy as a vaudeville show. Upon the assurance of the present proprietor to immediately make certain changes enumerated to him in writing, such as disuse of the stage, disconnecting the wiring from the rear of the room and widening the exits, I recommend the granting of the petition.

Respectfully,

A. E. Dodson, Superintendent.*

"August 13, 1912.

To the Honorable Common Council,

San Diego, Calif.

Gentlemen:-

In re Document Nos. 53480, 53481 referred to this office for a report. After consulting with City Attorney, W.R. Andrews and Deputy City Attorney Wright, I find two disclaimers have previously been filed in this matter, but owing to defective description on the part of engineer in connection therewith, it was again necessary to bring suit to quiet title. On further examination we find there is a pipe line in and across the portion of land in question, and the Deputy City Attorney informs me that he will secure to the City the right to take up any pipe or pipes belonging to the City that may be in or upon said land. Otherwise I know of no reason at this time why the suit should be defended, it appearing to be simply an exchange of roadway, the City waiving claim in the interest to a 40 foot strip and securing in lieu thereof a 100 foot boulevard.

Respectfully,

Percival E. Woods,

Supt. Dept. Finance, Eays & Means."

To the Honorable Common Council,
San Diego, California.

Gentlemen:-

Document No.53484 referred to this office for report permit me to recommend to your Honorable Body that the City Attorney be instructed to render an opinion covering the point in relation to the time that the harbor is legally under the jurisdiction of the Common Council. Until such an opinion is filed, I am of the opinion that it would not be well for the City to take over the matter of collection of harbor rentals.

Respectfully,

Percival E. Woods,

The following report of the Superintendent of Finance on a communication from American District Telegraph Company transmitting statement of gross receipts, is read and ordered filed, viz:

"August 29-12.

To the Honorable Common Council,  
San Diego, Calif.

Gentlemen:-

Document No.52446 being "Communication from American District Telegraph Company, transmitting statement of Gross receipts for year ending February 29th, 1912" referred to this Department for investigation and report, permit me to submit the following:-

Upon investigation I find that this amount \$2195.62 is reported to be the sum of total gross earnings of all revenue of the messenger department. The salaries of the messengers for the delivering of telegrams not being considered a revenue or earning of the District Company. I understand the franchise of the Western Union Telegraph Company permits them to call for and deliver telegrams, hence the only revenue which should be considered at this time would be the gross earnings by reason of other services performed by these messengers.

Respectfully,

Percival E. Woods

"August 30, 1912.

To the Honorable Common Council,
San Diego, Cal.

Gentlemen:-

In re document No.54146 being "Communication from City Engineer amount sidewalking yet to be done on Girard street between Cave and Prospect, La Jolla" submitted to this department for a report, as to the portion to be sidewalked along city property,

beg leave to submit the following for your consideration.

Attached herewith is a diagram showing the proposed sidewalk that should be constructed by the City. You will notice at a point on the diagram where the bath house is now located the said bath house extends over into the sidewalk. The question that arises is "Shall the bath house be moved and sidewalk constructed along its proper place or shall the City construct a sidewalk out in the street without moving the bath house,"

Also we desire to call your attention to the graded portion along the bluff running some 935 feet which portion should be sidewalked. Please advise this department as to just what portion, and in what manner you desire us to call for bids covering the construction of proposed sidewalk.

Yours very truly,

Percival E. Woods,

Supt. Dept. Finance, Ways & Means."

Gentlemen:-

In re document No.54045 being "Petition of Seymour Low for rebate on ice cream license used only twenty days" referred to this department for report:

We can see no objection to an extension of time being made on the portion unused, but do not believe it would be good policy to establish the precedent of refunding in such cases.

The following report of the Superintendent of Finance on a communication from Marshall A. Frank Company in re insurance of working men, is presented and read, viz:

"September 5th, 1912.

To the Honorable Common Council,
San Diego, California.

Gentlemen:-

Document No.54152 being "Communication from Marshall A. Frank Company in re insurance of working men on harbor improvement" all having been referred to this department for a report beg leave to submit the following:

Some time ago this department took up with the City Attorney as to the advisability of the City carrying liability insurance. The attorney has given the matter considerable attention. After consultation with the City Attorney, we are of the opinion that a municipal corporation, such as the City of San Diego, could well afford to carry their own insurance risks..

Should the City decide to come under the liability law and carry liability insurance with various companies, the only liability insurance we would carry would be on the employees in departments other than Police and Fire.

Certainly the City of San Diego would desire to reimburse a member of the Police Force or a member of the Fire Department in the same manner as they would a member of any other department.

Respectfully,

Percival E. Woods,

Supt. Dept. Finance, Ways & Means."

The following report of the Superintendent of Police on the petition of Door of Hope for financial assistance, is read and adopted, viz:

"9/15/12.

Returned to the Common Council. I have had a conference with the petitioners and the Chief of Police and Capt. of Detectives on this subject. The Door of Hope under the management of the petitioners has greatly assisted the Police Dept. in helping some of the women of the restricted district, especially the young women.

Normally the offence charged against these women is vagrancy, a State offence, and in my opinion the greater part of the support given by County and Municipal aid should be defrayed by the County.

On account of the great assistance given the Police Dept. by the "Door of Hope", I recommend that the management of the "Door of Hope" be allowed \$25.00 per month from the General Fund to be used in aiding this work.

John L. Sehon, Supt. Dept. Police."

A Message from the Mayor vetoing an ordinance providing for the purchase of the site of Fort Stockton for a park, is presented and read, viz:

"September 10, 1912.

To the Common Council  
of the City of San Diego, California.

I hereby return, without my approval, Document No.54414, being an ordinance providing for the purchase of the site of Fort Stockton for a park, transferring \$14,896.00 from the Park Improvement Fund to the General Fund for the purpose of purchasing about seven blocks of land in Old Town, for the reasons:-

First, that it does not appear that said land is needed for public use, and the only power given to the Council under the Charter to purchase land is when the same is needed for public use. It certainly was not the intent of the Charter to give the Council a power to purchase any and all property for public parks, or otherwise, that the Council might deem convenient or advantageous to the City of San Diego.

Secondly, for the reason that the Council have no jurisdiction or power to transfer or otherwise deal with moneys belonging to the Park Improvement Fund. Section three, article seven, of the Charter provides:-

"That all parks, plazas and squares now open and dedicated to the public use, or which may hereafter be opened or dedicated to the public use, shall be under the exclusive control and management of said Board of Park Commissioners with power to lay out, regulate and improve the same.

And Section four, of said Chapter, provides,

"That said Board of Park Commissioners shall also have power - - - - to expend the moneys provided by the Common Council or received from any other source, for the purpose of managing and improving said parks, plazas and squares."

An Section five of said chapter, provides,

"That the Common Council shall levy annually, in addition to all other taxes provided for in this Charter, not less than five cents, nor more than eight cents, on each one hundred dollar valuation of property, for the purpose of maintaining and improving said Parks, plazas and squares."

It will therefore be seen that the only purposes for which the money in the Park Improvement Fund can be used are for the purpose of maintaining and improving the parks, plazas and squares now owned by the City of San Diego, and not for the purpose of purchasing additional parks.

If, as recited, in your ordinance, in the tax levy for 1912 there was embraced in the Park Improvement Fund an estimate of a sufficient sum of money to purchase said site over and above the requirements of the Board of Park Commissioners for other park purposes, such action on the part of the Council was, in my judgment, illegal and void. The Charter provides how the levy shall be made for park purposes and how the same shall be expended, and I can not consent to a violation of the provisions of the Charter of the City of San Diego, which, in my judgment, approval of the ordinance before me would necessarily be.

Respectfully submitted,

James E. Wadham,

Mayor of the City of San Diego."

Councilman Sehon moves that said ordinance be reconsidered, which motion is adopted.

Whereupon Councilman Sehon moves that said ordinance be adopted notwithstanding the veto of the Mayor, which motion is adopted by the following two-thirds vote, to-wit:

Gentlemen:

I respectfully return the application of the Wm. Simpson Construction Company without my approval.

If it were not for the storage of lumber contemplated, I could recommend granting the petition, but the storage of lumber, hay or other combustible material within the fire limits is too hazardous to encourage.

~~~~~

The following report of the Superintendent of Fire and Sewers in the matter of appointment of additional inspector in Building Department, is read and adopted, viz:

"September 18, 1912.

To the Honorable,

The Common Council of the City of San Diego.

Gentlemen:-

As the building permits in the building inspector's office have already passed the sum of \$7,000,000 this year, and as it is impossible for the Inspector to scrutinize and properly pass upon all applications for buildings within the fire limits, I am compelled to place an assistant in the office with him. I have therefore detailed Mr. D.A. Wood inspector in that office.

This matter has been more urgently brought to my attention by the Board of Fire Underwriters, whose representative stated that although the city, on account of its improved fire department had been granted a material reduction in rates, this reduction would not be permanent unless the building ordinance was more rigidly enforced within the fire limits, therefore I hope you will approve my action in this matter, as I believe it of material importance to the city to have the building ordinance more rigidly enforced in the business district than it has been in the past. I have also instructed Mr. Wood to personally see that all buildings erected within the fire limits comply strictly with the building ordinance, and to prosecute within the courts, any and all violations of the same.

Respectfully,

A. E. Dodson,

Superintendent Department of Fire and Sewers."

"October 10th, 1912.

To the Honorable Common Council,

San Diego, California.

Gentlemen:-

In re Document No.53391 being "Communication from S.W. Grier in re rental of Lot 2, Block 24, Middletown" referred to this department for report.

This Department is of the opinion, owing to the fact that no taxes would be paid on this lot and street assessments will have to be paid by the City, we feel it would be fair and reasonable to offer a lease on Lot 2, Block 24, Middletown, on a basis of valuation \$4500.00, 7% annually, payable in advance in monthly installments at the office of the Department of Finance, Ways & Means, City Hall, for the period of five years.

In event a longer lease should be given the rental should be based on the valuation as reappraised each five years by means of arbitration, one arbitrator to be named by the Council, one by the lessee, and those two select the third, the lessee to continue his rental at 7% on the new valuation payable as herein provided..

We recommend that an advertisement be inserted offering to lease this property on this basis at once.

We further recommend that the money received from such lease be placed in a Fondlings' Home Fund. Such moneys accumulating after expenses have been deducted to be turned over to one or more Fondlings' Home Institutions of this City.

Respectfully,

Percival E. Woods,

Supt. Dept. Finance, Ways & Means."
