San Diego, Cal. October 29th 1900.

To the Honorable Board of Aldermen
of the City of San Diego, Cal.

Gentlemen:-

I herewith return to your Honorable Body an ordinance entitled, "An ordinance to provide for the leasing of certain real estate owned by the City of San Diego, California".

My reasons for returning this ordinance to your Honorable Body are as follows:

First- The City does not possess any title whatever in and to Pueblo Lot 1283, except the streets, alleys and parks of La Jolla.

As this Pueblo Lot constitutes a portion of the townsite of La Jolla, I do not think it was the intention of your Honorable Body to lease its highways for the purpose of oil prospecting.

Second- The City of San Diego does not own the other Pueblo Lot numbered 1256, as called for in the said ordinance. It is therefore useless to put the City to the expense of advertising a lease for sale on a property that the City does not possess.

For the reasons stated above I return the said ordinance to your Honorable Body without my approval.

Very Truly

Edwin M. Capps

Mayor of San Diego, Cal.

An Ordinance Authorizing and Directing the Mayor of the City of San Diego, California, to Execute, and the City Clerk of Said City to Attest the Execution of a Quitclaim Deed in the Name, For and on Behalf, and as the Act and Deed of the Said City of San Diego, California, to the Owners of Lots in Sherman's Addition to the Said City of San Diego, and Directing the City Clerk to Deliver Such Deed to the County Recorder of the County of San Diego, State of California, for Recordation.

Whereas, it appears from the records and proceedings of the board of trustees of the city of San Diego, county of San Diego, state of California, that at an auction sale of certain lands held in the said city of San Diego, California, on the 3rd day of June, 1867, pueblo lot numbered 1155 of the pueblo lands of said city, containing one hundred and sixty (160) acres, together with other land, was sold to Matthew Sherman at and for the price of \$160.00, and that said sum was paid to and received by said city therefor, and that the deeds executed under and by virtue of said sale conveying said property to said Matthew Sherman, were inadvertently and incorrectly signed by the trustees of said city individually instead of being signed by them as trustees of said city, and for and on behalf of the said city of San Diego; and,

Whereas, said pueblo lot numbered 1155 has since said sale and the execution of said deeds to the said Matthew Sherman been subdivided into lots and blocks, and is now known as "Sherman's addition," and,

Whereas, lots and blocks in said Sherman's addition have been sold according to the map of said addition made for said Matthew Sherman by James Pascoe, county surveyor of the county of San Diego, which said map is now on file in the office of the county recorder of said county; and,

Whereas, it appears that the said city of San Diego has no right, title, or interest in or to said property, or any portion thereof, except for delinquent taxes, or where said city has acquired title to some lot or lots in said Sherman's addition since said pueblo lot 1155 was so subdivided; and,

Whereas, the common council of said city is desirous of correcting any and all errors in the execution of said deeds or either of them, or in any part of both or either of said deeds.

Therefore, be it ordained by the common council of the city of San Diego, as follows:

Section 1. Section 2. That said deed shall contain a recital that it is made pursuant to this ordinance to correct a defect in the execution of the said deeds made by the said city by and through its said board of trustees to Matthew Sherman, bearing date June 14th, 1867, one of which deeds was recorded June 15th, 1867, in Book 2 of Deeds at page 317, and the other was recorded August 8th, 1867, in Book 2 of Deeds at page 332, in the office of the county recorder of said county of San Diego, state of California, which said deed shall also recite that the said city of San Diego does not convey any interest which said city has acquired in said property for delinquent taxes, or otherwise since said pueblo lot 1155 was so subdivided. It being the intention of said common council that said deed to be so executed by the said mayor and city clerk shall correct any error in the execution of said deeds, so executed in the year 1867, or either of them, and that such deed to be so executed by said mayor and city clerk shall overcome any possible question that the said city of San Diego did not by the said deeds so executed in the year 1867 by the said board of trustees convey all the right, title, interest, and estate of every name and nature whatsoever that the said city had in said pueblo lot 1155, at the time said deeds were so executed in the said year 1867.

Section 3. That this ordinance shall take effect and be in force from and after its passage and approval.

A message from the Mayor returning without his
approval an ordinance providing for the payment of
the claims of the San Diego Electric Railway Company
for sprinkling trucks during August and September 1900,
is presented and read.

Said message is as follows (by)

San Diego, Cal.
Dec 27th, 1900
To the Honorable Board of Aldermen
of the City of San Diego, California.
Gentlemen:

I herewith return to your Honorable Body
an ordinance entitled, "An Ordinance allowing and ordering
"paid the claims of the San Diego Electric Railway Company
one for \$581.00 and the other for \$145.78 for street sprinkling and

San Diego, Cal August 31st 1900

"the City of San Diego, California."
My reason for returning this ordinance to your honorable body, is that the bill is extortionate, and unjust. I have my opinion upon the following analysis of the bill presented for payment by the company. The first bill for \$581.10 is numbered 8476, placed in the street fund, and reads as follows:

City of San Diego;

San Diego, Cal.

To San Diego Electric Railway Company, etc.

Street sprinkling from July 30th to August 31st, inc.

230 tanks 1,150,000 gals, covering 1,116,200 ft., at 50 cts. per 1000 lin. ft.

From July 30th. to August, 31st, inclusive, there were just 29 working days. Now by dividing the number of feet of street covered, 1,116,200 by 29 we have just 40076 feet covered each day: also the actual total length of the street traversed by the car lines, (exclusive of the numerous pavements) and the old cable track) is 111040 feet, it would indicate, that the company sprinkled, each day very nearly the whole of the street occupied by their car lines, during the period, from July 30th to August 31st, excluding Sundays. From my own personal knowledge I know this to be untrue, and I believe the residents along any of the car lines of this city will bear me out in this statement. Upon returning Mr. J. W. Harkett the Superintendent of Streets, he stated that they did not.

If they sprinkled any street, or portion of a street more than once a day, to make up the amount stated in their bill, I am exceedingly unnecessary and unjustified. In accordance with the written statement of J. W. Harkett our Superintendent of Streets, J. W. from 3rd. to 6th. Ave. St. should be sprinkled six times a week, and all other streets traversed by the street car lines twice a week. Mr. Harkett also states that this is all that was necessary to keep the car streets in good order during the month of August, but it is must be borne in mind that the sprinkling should be thoroughly done. It will be whether this was done by the San Diego Electric Railway Company during the month of August and first part of September 1900.

Assuming for the moment, that the Company placed the quantity of water and covered the number of linear feet of street as stated in their bills. You will observe that in the first bill the statement is made that 1,150,000 gallons of water covered 1,162,200 lin. ft. of street. This would equal 990 gallons per 1000 lin. feet of street sprinkled.

Our Superintendent of Streets informs me, that to sprinkle the streets of this City, and he derives his knowledge from actual personal experience, it takes 1000 gallons of water to sprinkle from 550 to 600 lin. ft. of street, and that this is the minimum amount used by him to sprinkle the street. This equals about 1700 gallons per 1000 lin. ft., instead of 990 gallons as shown in the bill.

The second bill for #145th numbered 8626 placed in the street fund reads as follows.

'San Diego Cal Oct 1st 1900.

City of San Diego California

To San Diego Electric Railway Company &c

Street Sprinkling from Sept 1st 1900 to Sept 10th 1900.

64 Tanks 320,000 Gals. Covering 291,560 feet of 50' per M. \$145.78"

From Sept 1st to Sept 10th there were just eight working days. by dividing 291,560 ft. by 8 we have 36,445 feet or 89% of their entire Car lines as above describes, or indicating that the Company sprinkled the entire streets occupied by their Car lines, exclusive of the bituminous streets 7.12 times in eight days.

In the covering and quantity of water used per 1000 ft. of street, a few more gallons of water were used than in the first bill, to wit, 1098 gallons per 1000 feet or about 65% of the minimum amount necessary to make fair work, in fact, practically. This bill is a parallel of the first.

Upon my requesting Mr. S. H. Hackett, Superintendent of Streets to make an estimate of the cost to the City, to have sprinkled the same streets traversed by the San Diego Electric Car lines. for the month of August 1900. the sprinkling to be thorough using the minimum amount of 1700 gallons of water to the 1000 lin. of street, he submits the following.

Distances 5th St. from A to University	10600 ft.	\$5.30 each time

K St. 16th to 22 ^d 8 " "	6.40
22 ^d , K to Hfts 8 " "	4.24
	<u>\$187.53.</u>

I notice in this statement that Antie St from S to H has been omitted, this portion is 1440 ft long and figured the same per 1000 ft. of street as above estimate we have 1440 ft at 50¢ per 1000 ft. equals \$0.72 each time, and 8 times per month equals \$5.76, by adding this amount to the total as given \$187.48 we have just \$188.24 actual cost to the City to have sprinkled the same streets during the month of August 1900. instead of \$581.10 as per bill, or about 31%.

The second bill of \$145.78 is practically a parallel of the first bill, and the actual cost to the City to have performed the same work for the first ten days of September 1900 would have been 31% of \$145.78 equal to \$45.20,

Neither the San Diego Electric Railway Company nor any one else, except our Superintendent of Streets, has ever had any authority to sprinkle the streets of the City. Consequently no official recognition or supervision of the work was made by the Superintendent of Streets, in what the Company did, was done entirely upon their own responsibility.

In view of what has been said above I do not believe this City is warranted in paying the bills

for the amounts called for. Therefore return the said Ordinance to your Honorable Body, without approval. I recd. a letter that an ordinance had passed by your Honorable Body ordering the first bill to be paid in the sum of \$188.24. and the second bill for \$45.50. the amount that the City would have to expend, had it done its own work.

Very Truly
Ours
E. M. Copps.

Mayor of the City of San Diego California.

V. E. Shaw appears before the Board on behalf of the Sand Diego Electric Railway Company and files with the Board the affidavit of A. L. Wilson showing the days on which the sprinkling cart was used the amount of water used and the number of feet of street covered. Thereupon on motion of Alderman Watson action in said matter was deferred until the next meeting of the Board.

A communication from the City Attorney transmitting a connected Resolution of Intention to change the grade of the South East corner of Third and Putnam Streets, was read and filed. Thereupon said Resolution of Intention was read and on motion of Alderman Blochman ~~was read~~ and adopted by the following vote, To-wit:-

Said Resolution of Intention as adopted is as follows, viz:
Resolution of Intention

To change the grade of that portion of Third street in the City of San Diego, California, at the intersection of the south line of Putnam Street, with the east line of said Third street in said City,

Whereas, it appears to said Common Council, and the said Common Council hereby finds that the said petition contains the names of the owners of a majority of the property affected by said proposed change of grade.

Now, Therefore, Be it Resolved, By the Common Council of the said City of San Diego, California, That it be, and is hereby declared to be the intention of the Common Council of the said City of San Diego, California, to change and establish the grade of that portion of Third Street in the said City of San Diego at the intersection of the east line of said Third street with the south line of Autmeg Street as follows:

At the intersection of the east line of said Third street with the south line of said Autmeg street, change the grade from 256 feet above the datum-line of levels as fixed by Ordinance No. 3 of the ordinances of the said City of San Diego, California, entitled, "An ordinance establishing a datum-line for the grading of streets in the City of San Diego, State of California, and providing for the manner of establishing grades by ordinance", approved June 30, 1886, to 256.5 feet above the said datum-line, that the grade of said Third street between the point proposed to be changed by this resolution, and the point heretofore fixed and established by the ordinances of said City, at the intersection of the said east line of said Third street with the intersection of the north line of Maple Street, and that the grade of said Autmeg street from the said point proposed to be changed hereby, to the intersection of the south line of said Autmeg street with the west line of Fourth street, heretofore fixed and established by the ordinances of said City, shall be of uniform ascent and descent.

The following message of the Mayor vetoing an ordinance
authorizing the Board of Public Works to place cement gravel
on the National City dike was read and filed and is as
follows, to wit;

San Diego, Cal. February 26th, 1901.

To the Honorable Board of Aldermen
of the City of San Diego, Cal.

Gentlemen:

I herewith return to your Honorable Body an ordinance
entitled, "An ordinance authorizing the Board of Public Works
of the City of San Diego, California, to advertise for bids and
let a contract for placing cement gravel upon the National City
Dike."

My reasons for returning this ordinance to your Honor-
able Body are as follows:

First: I am informed by our Superintendent of Streets,
that he has found a sufficient quantity of a very desirable
material, in the same street in which the dike is located,
to cover the dike. This will cost the city for the simple
hauling and spreading, thus saving the \$500. expenditure as
called for in the ordinance.

Second: The price of the cement gravel, as proposed in the
ordinance, will cost \$1.50 per cubic yard delivered on board of
the cars at the dike, thus securing only 333 1/3 yards, which will
properly cover 400 feet of the dike, which would be of no practical
value to the traveling public.

I therefore return the said ordinance to your Honorable
Body without my approval

Very truly
Edwin M. Cooper

Mayor of San Diego, California.

Report of the Joint Ways and Means Committee, fixing the rate for the fiscal year 1901. Transmitted, read and adopted, and is as follows, to-wit:

San Diego, California, May 7th 1901.

To the Honorable Common Council

of the City of San Diego, California:

Respectfully:

We, your Joint Ways and Means Committee, do hereby report that the estimate of the probable necessities for the various departments of the City for the fiscal year 1901, upon which to base the rate for Municipal taxes for said year, herewith report and recommend as follows:

Upon the total assessment roll for the fiscal year 1901, viz: \$12,444,000, we estimate that there will be a small percentage of delinquencies, and have therefore based our estimate upon \$12,000,000 net valuation.

We recommend that your Honorable Body adopt a rate of \$1.10 upon the \$100.00 assessed valuation, which we recommend to be apportioned as follows:

Fire Department Fund.

Rate of \$1.17 upon the \$100.00 assessed valuation will produce which amount will provide for maintaining the fire department during the current fiscal year, and also provide for furnishing a chemical engine and the necessary apparatus for the engine house on Golden Hill.

Salary Fund.

Rate of \$1.17 upon the \$100.00 assessed valuation will produce \$22,400, which amount, together with the estimated apportionments from other sources, will provide for the salaries of the officers and employees as now fixed.

Police Department Fund.

The revenue derived from the Police Court and the City Justice Court is estimated to be sufficient to provide for the necessary expenses of the Police Department, other than salaries, which are paid from the Salary Fund; therefore, no levy is recommended for the Police Department Fund.

Street Fund.

Rate of \$1.14 upon the \$100.00 assessed valuation, together with the estimated apportionments from other sources, will produce \$18,530, which amount will provide in full for maintaining the Street Department during the current fiscal year, and \$4000 for the

Labor during the winter months, and also provide \$800 - for heat and light of May.

Rate of \$.01 upon the \$100.00 assessed valuation will produce \$1200 which will provide in full for maintaining the street department during the current fiscal year, and also for water used in flushing the streets.

Street Light Fund.

Rate of \$.15 upon the \$100.00 assessed valuation will produce \$18,600 - the amount required for the payment of lighting the street and public places under provisions of the contract with the Gas, Gas and Electric Light Company.

Public Improvement Fund.

Rate of \$.003 upon the \$100.00 assessed valuation will produce \$360, which will provide water and material to properly care for Parks and Plazas for the current fiscal year.

Public Health Fund.

Rate of \$.007 upon the \$100.00 assessed valuation will produce \$840, which amount will provide in full for maintaining the Health Department during the current fiscal year.

Public Building Fund.

Rate of \$.05 upon the \$100.00 assessed valuation together with the estimated apportionments from license, will produce \$11400, which amount will provide in full for heating of Public Buildings, Gas and Water and gas attendants, Plaza Purchase, and for gas used by the city, and also order \$6,000.00 for payment on new City Hall building.

Office Fund.

Rate of \$.01 upon the \$100.00 assessed valuation will produce \$1200 - which will provide in full for the Stationery, Books, Postage, Rent, etc. fuel and water for the various departments, if proper economy is used.

General Fund.

Rate of \$.045 upon the \$100.00 assessed valuation together with the estimated apportionment from other sources, will produce \$6400 - which amount will provide for the general and contingent expenses of the city during the current fiscal year, including the special election held January 17th, 1901, General Municipal Election held April 2nd, 1901, and the special election held April 20th, 1901, the total expense of which election amount to \$4707.10.

Legal Fund.

The revenue derived from the delinquent taxes, viz. \$1000 - is sufficient to provide for the necessary expenses of the legal fund.

Therefore, no levy is recommended for said fund.

Fire Hydrant Fund.

Rate of \$.085 upon the \$100.00 assessed valuation will produce \$10.900, which

Amount will pay for the rental of the Fire Hydrant - New calculated.

Library Fund.

Rate of \$.05 upon the \$100.00 assessed valuation, together with the estimated

Apportionments from other sources, will produce \$6.20, which will provide for the

Necessary expenses of the Public Library during the current fiscal year.

School Bond Interest and Sinking Fund.

Rate of \$.05 upon the \$100.00 assessed valuation will produce \$6.000

which provide for the redemption of bonds and payment of interest required.

Refunding Bond Interest and Sinking Fund.

Rate of \$.15 upon the \$100.00 assessed valuation will produce \$18.000-

which amount will provide for the redemption of bonds and payment of interest

required.

We therefore, recommend the adoption of an Ordinance in accordance

with the apportionments hereto attached marked "Exhibit A"

Gentlemen:--

The Joint Committee on Gas, Electric Lights and Telephones, to whom has been referred at various times petitions to establish low arm electric lights at the intersections of "N" street and Milton avenue; First and Elm streets; on Brooklyn Heights; Union and Date streets; Fifth and "G" streets, herewith reports and recommends as follows:

We recommend that provision be made at the earliest possible moment for the establishment of the light at the intersection of "N" street and Milton avenue, as we believe this to be very necessary. The report of the Joint Public Building Committee to whom was referred the matter of changing the steam pipes from the Heaters to Boilers, and sundry repairs to City Hall was presented and on motion adopted and is as follows viz:

San Diego, Cal., Oct. 7th 1901,

To the Common Council

City of San Diego

Gentlemen:-

The Joint Public Building Committee, to whom was referred the communication from the Board of Public Works asking for authority to have the pipes for heating the City Hall connected with the boiler, herewith recommend that the authority asked for be granted provided the cost does not exceed \$60.00. for the reason that a great saving

of fuel will be affected by connecting with the boiler, and for the further reason that it will cost fully as much to put new grates in the heater (which will have to be done before it can be used at all) as it will to change the pipes to the boiler.

We also recommend that the roof of the City Hall be painted and repaired at a cost not to exceed \$75.00. This is very necessary in order to prevent leaks and damage to the interior of the building.

The steam pipes and radiators should be overhauled and repacked to prevent leakage, and we recommend that the work be done at a cost not to exceed \$25.00.

We present herewith an Ordinance to carry these recommendations into effect and ask that it be adopted, as this work should be done at once.

The Report of the Joint Water Committee recommending a pipe line for furnishing an adequate supply of water to the United States Military and Naval Reservations on Point Loma was presented read and on motion of Alderman Landis was adopted and is as follows viz:

San Diego, Cal., Oct 18th 1901.

To the Common Council

City of San Diego,

Gentlemen:-

The Joint Water Committee, after investigating the needs of the various parts of the city in the matter of the water supply, herewith reports and recommends as follows:

We find that the matter demanding our first attention is to furnish an adequate supply of water to the United States Military and Naval Reservations on Point Loma. The City Engineer, by instruction of the Council contained in Joint Resolution No. 1353, has made a survey and estimate of the cost of the construction of a pipe line for furnishing an adequate supply of water to these Reservations. He has also ascertained from the Officers in charge what is desired on the part of the Government; and has also been informed that the Government would furnish Soldier Labor for trenching and back filling for repairing the pipe line on the Reservations.

We also find that the two inch pipe now in use is entirely too small to supply the amount of water required, and that some of it is badly worn and will have to be replaced at an early date.

We therefore recommend that the said two inch pipe now used to supply the United States Military and Naval Reservations on Point Loma with water be replaced with pipe of a larger size.

Before the two inch pipe can be taken up it will be necessary to lay the larger pipe, and we therefore recommend that the Board of Public Works be instructed to cause the pipe line to be laid in accordance with the aforesaid survey and estimate of the City Engineer.

Inasmuch as there will be no expense for trenching and back filling on that portion of the pipe line

On the Reservations, we believe that the estimate of the City Engineer may be safely reduced to \$17,000.00. We therefore recommend that the total Expense for doing the work herein mentioned be limited to \$17,000.00; and that the money for said purpose be taken from the Water Works improvement Fund.

Respectfully  
Geo. B. Watson.

H. M. Landis.

J. S. Clark.

J. W. Lambert.

M. W. Jenks.

A. H. Kayser.

Gentlemen:-

The Joint Finance Committee, to whom was referred a Communication from the Auditor transmitting an Ordinance providing for the transfer of the sum of \$2,500.00 from the Water Works Improvement Fund to the general and Office funds, to make good the deficiency in these latter named funds created by reason of the extra expenses in connection with the Water Bond Sale, herewith recommends that the transfer be made, so that outstanding warrants may be paid.

We also recommend that \$500.00 be transferred from the Water Works Improvement Fund to the Public Health Fund in order to pay all the indebtedness incurred at the pest House.
