To the Common Council of the City of San Diego,
Gentlemen:—

The undersigned members of the Special Committee selected to ascertain the propriety of contracting for sprinkling the streets of our city for the next year would respectfully report:

We are satisfied that the present system requires too great an expenditure of city funds, and that a more economical method must be adopted.

The majority of the Committee think that the contract system is detrimental to the interest of the wage earners of the city, but we think if a contract can be made which will require the persons employed in sprinkling the streets to be bona fide residents of the City of San Diego, and men of families; also that the contractor be required to drive his own team, or pay his driver not less than a stipulated price per day, and no one person to be permitted to contract for more one team, that the objection offered by the majority of the Committee will be materially less.

By this method the man who actually does the work can be protected in his wages, and the city get the benefit of a lower rate.

We therefore recommend the adoption of an Ordinance that will put the above provisions in effect.

Respectfully submitted,

A. E. Dodson, Geo. B. Watson,
H. Sweeney,

At this time Alderman Watson was excused from further attendance at this session of the Board.

San Diego Cal. Oct 8. '97.

To the Hon. Common Council, of the City of San Diego.
Gentlemen:

We, the Special Committee appointed by the chairman of the Joint Committee of the whole for the purpose of ascertaining if any arrangements could be made between the City of San Diego and the Dixon Sanitary Crematory Company as to change of location, or annulling the contract between the city and the said crematory company, would respectfully report. We find the company's representative in this city is entirely powerless to remove the crematory without authority from the company, neither can he enter into negotiations with the city to suspend operation, or to annul the contract, without the same authority.

We further ascertain that it will take about \$3000 to change the location, and would take at least \$6000 to annul the contract at the present time, if the company would concede to such arrangement; and as there is no money in the city treasury for the purpose of meeting either of these expenses, we are unable to make any recommendation in the premises

Minority report on application of C. Butler for a liquor license at
 To the Hon: the Common Council San Diego, California
 Gentlemen:

I most respectfully report for the information of your Honorable Body my reasons for voting "no" at the meeting of the Health and Morals Committee before whom the application of C. Butler, for a saloon license was laid at its last meeting.

The license in question had the names of five persons recommending that it be granted, while in opposition to it there was laid before the committee a protest against granting said license signed by twenty three (23) bona fide voters, and residents of the block, and its vicinity, in which it is proposed to establish said saloon.

Upon investigation I found that there was, and is, a very strong sentiment among the whole of the residents of the neighborhood against a saloon being opened in their midst under any circumstances, and my conscientious conviction is that it is an exercise of arbitrary authority to force a saloon upon any portion of our community where there is a strong and honest opposition to it expressed by a large portion of the residents of the immediate vicinity. It is a rare thing to have a protest filed against granting a liquor license in this city, and where there is one I hold that it should receive due weight and consideration. It will not redound to the credit of the City Council to force a saloon upon any respectable portion of our citizens where the opposition is so strongly expressed as in the case before you, and I sincerely hope that the wishes of a sober, law abiding community will have weight enough with this honorable body to deny this application and let the applicant select a place for a saloon where there will be no opposition to it.

Respectfully submitted

The following Report of the Joint Water Committee in the matter of fixing water rates for the ensuing year was read and on Motion of Alderman Nutt was adopted

Said report as adopted is as follows to-wit:-

San Diego California  
February 24<sup>th</sup> 1898

To the Honorable Common Council of the City of San Diego

Gentlemen:-

We your Joint Water Committee, to whom you referred the matter of investigating and recommending to you the Maximum rates that shall be charged or collected by any corporation, company, or person supplying water to the said city and its inhabitants, for the year beginning on the 1<sup>st</sup> day of July, 1898, and ending on the 30<sup>th</sup> day of June 1899, beg leave to report to you as follows:

We find upon investigation, that in pursuance of a notice duly given to the San Diego Water Company, by the passage of Ordinance No. 480 of the ordinances of said city, approved December 6<sup>th</sup>, 1897, requiring each and every corporation, company, or person supply<sup>ing</sup> water to this city or its inhabitants, to furnish to the Common Council, in the month

of January, 1898, a detailed and verified statement, (showing the name of each water rate payer, his or her place of residence, and the amount paid by each of such water rate payers, during the year ending December 31<sup>st</sup>, 1897, and also showing all revenue derived from all sources and an itemized state<sup>ment</sup> of such expenditures made for supplying water during said time) has been furnished by the said San Diego Water Company.

That no corporation, company, or person responded to such notice or furnished such statement except the San Diego Water Company, and that the said San Diego Water Company is the corporation, company, or person supplying water to the city of San Diego or its inhabitants, that would be affected by the rates fixed by such ordinance.

Said Water Company was present by its attorneys officers and representatives at each and every meeting of your Joint Committee.

Your Committee commenced its investigations on the 9<sup>th</sup> day of February 1898 and adjourned from time to time

In order to determine the basic element to be used in establishing such rates and the value of the investment of the San Diego Water Company, employed in furnishing and supplying water to <sup>the</sup> said city and its inhabitants thereof, and also the amount that ought to be allowed in order to pay the <sup>fairly</sup> necessary operating expenses of the said San Diego Water Company in supplying water to this city and the inhabitants thereof, we called before us a number of witnesses, both on behalf of the City of San Diego and the inhabitants thereof and the San Diego Water Company; and a large amount of testimony (both oral and documentary) touching the above question, was introduced and considered by your Committee at its various meetings.

After hearing and fully considering the said evidence, as well as the statements furnished to the Common Council by the San Diego Water Company, and hearing the arguments of Counsel on behalf of the Water Company and the City of San Diego and

the inhabitants thereof, we have formulated, drawn and herewith present an ordinance based upon the evidence taken as above stated, fixing the maximum rates that should be charged and collected by any corporation, company or person supplying water to this city and its inhabitants thereof, ~~we have formulated, drawn, and herewith present an ordinance, based upon the evidence taken as above stated, fixing the maximum rates that should be charged and collected by any corporation, company, or person supplying water to this city and its inhabitants thereof to take effect on the 1<sup>st</sup> day of July, 1898.~~

In the judgement of your Committee, based upon the said evidence taken by it at its various meetings, as above stated, the rates fixed by the said ordinance herewith presented will be sufficient to furnish a fair income on the investment of the San Diego Water Company, employed in furnishing water to this city and the inhabitants thereof over and above the fairly necessary operating expenses of the said San Diego Water Company, in rendering the services required of it.

In our judgment the rates so fixed will yield a fair revenue after the payment of the taxes on the property of the said San Diego Water Company and the cost of furnishing the water and operating its system of water works.

All of the evidence, of every kind and nature, taken and used in making our investigations (both oral and documentary) are herewith submitted with this report and we herewith submit the same to you for your consideration and recommend the adoption of the said ordinance presented herewith.

All of which is respectfully submitted

We members of above Committee recommend the adoption of the said ordinance excepting that we recommend that the rates for fire hydrant rental be fixed at \$50<sup>00</sup> per each hydrant in place of \$60<sup>00</sup> as provided in said ordinance

Said Report as adopted as follows viz:-

San Diego Cal March 2<sup>nd</sup> 1898  
To the Common Council  
City of San Diego.

Gentlemen:-

The special Committee, to whom was referred the Annual Message of the Mayor to report to the Common Council as to the disposition of certain recommendations contained therein report as follows:

We recommend that that portion of the Mayor's message regarding the final dispositions of garbage, together with the report of the Board of Public Works as to the disposal of tin cans, ashes etc; be referred to the Special Committee on the disposal of garbage.

In the matter of leasing buildings for City Hall and Fire Department purposes we recommend the adoption of the joint Resolution instructing the City Clerk to advertise for bids for leasing to the city a building for City Hall purposes; and that the matter of leasing buildings for the use of the Fire Department be referred to the Public Building Committee.

We find that many of the old papers and records are stored in boxes in various portions of the City Hall for want of better places in which to store them. In many cases the destruction

of these papers would occasion great loss. In order that <sup>they</sup> may be properly preserved and safely kept we recommend that the City Clerk be instructed to ascertain if a fire proof vault can be secured for the use of the City in which these records <sup>papers</sup> and may be stored, and at what cost. we also find that a filing case, with book shelves and cupboards attached, is necessary for the keeping of papers and records in the office of the City Clerk and would therefore recommend that the City Clerk be instructed to ascertain the cost of such filing case, and report the result of his investigations to the Common Council.

We recommend that no action be taken in the matter of new Headquarters for the Police Department until bids have been received for a building to be used for City Hall purposes.

We recommend that the matter of the construction of a road to the Cemetery be referred to the Joint Street Committee.

We recommend that that portion of the Mayor's Message in regard to the revision of the City Charter be referred to the Special Committee appointed in that matter, and that the Committee appointed by the Chamber of Commerce for the same purpose be invited to meet with the Special Committee of the Common Council for consultation and advice. In this matter of Charter revision we heartily endorse the sentiment of the Mayor, that we should formulate and agree upon amendments, simple in form and in keeping with our requirements; have same submitted to the people for their ratification, and if adopted see that our representatives at the <sup>next</sup> Legislature are men of sufficient ability to push same upon the statute books.

To the Common Council,

Gentlemen:—

We, your duly appointed Board of Equalization for the year 1898, would respectfully report:

We find the desirable and rent producing property in the better portion of the city assessed rather below its salable values. The best residence portion of the city is also assessed at a fair valuation, but with the exceptions named we find nearly all the real property valued above what it would bring upon the market.

On referring to the records of the Equalization Boards for the past two years we find the same conditions existed then as now, and yet we find property that had been reduced those years again returned by the Assessor at about the old valuations. The improvements are assessed at only 25 per cent of their real value, and while we believe the principle of favoring those who invest in improving and beautifying our city is proper, we would recommend that the basis be increased in the future.

We find the assessment is about 20 per cent higher than the same property is assessed by the County.

So far as the Assessor is concerned we find that all property is well graded in values, and no partiality is shown, but it seems to be his intention to assess property at a high valuation for the purpose of securing sufficient revenues to defray city expenses; but we believe the proper move is to assess the realty at its actual cash value, and let the question of revenues take care of itself.

Therefore we recommend that you adopt a Resolution  
 "That the Assessor be requested to assess the real estate  
 of the City at its actual cash value, and that he assess  
 improvements at not less than 35% of their real value."

We also desire to call your attention to the impos-  
 sibility of recovering what we believe to be a proper tax  
 from National banks.

We therefore recommend that the Council memorialize  
 the Legislature to enact suitable remedies.

Respectfully,

S. H. Olmsted,

H. Sweeney,

W. H. Doddridge,

A. E. Dodson,

H. A. James,

A. Beard.

Said report of the Ways and Means Committee was now adapted, and is as follows, viz:-

To the Honorable, the Common Council of the City of San Diego, California.

Gentlemen:

We, your Joint Ways and Means Committee, to whom was referred the estimates of the probable necessities for the various departments of the City for the fiscal year 1898, upon which to base the rate for municipal taxes for said year, respectfully report and recommend as follows:-

That upon the total of the assessment roll for fiscal year 1898, viz: \$12,738,180., we estimate there will be 95% collected by the City, and have therefore based our estimate upon \$12,100,000. net valuation.

That under the provisions of Joint Resolution No 997, adopted by your Honorable Body April 4<sup>th</sup> 1898, recommending this Committee to endeavor to keep the tax levy within one dollar limit, we have made an apportionment as shown by "Exhibit A", attached hereto and made a part hereof, which apportionment we recommend be adapted should your Honorable Body consider it for the best interest of the City to make the rate \$1.00 upon the \$100.00 assessed valuation.

Your Committee also considered the urgent necessities of certain public improvements, and have made an apportionment including such improvements therein as shown by "Exhibit B", attached hereto and made a part hereof, which apportionment will require a rate of \$1.07 upon the \$100. assessed valuation, and which apportionment we recommend be adapted should your Honorable Body consider it for the best interest of the City to make the rate in excess of \$1.00 upon the \$100.00 assessed valuation.

The apportionment shown upon said "Exhibit A" will provide the following amounts for the following purposes, viz:

Rate of fourteen cents and five mills (.145) upon the \$100.00 assessed valuation will raise \$17,545.00, which amount will pay for the chemical engine already contracted for; and the necessary horses, harness and appliances therefor, and provide for maintaining the fire department during the fiscal year.

#### Police Department Fund.

The revenues derived from the Police Court and the City Justice Court are estimated to be sufficient to provide for the necessary expenses of the police department, other than salaries which are paid from the Salary Fund, therefore no levy is recommended for the Police Department Fund.

#### Street Fund.

Rate of fourteen cents and five mills (.145) upon the \$100.00 assessed valuation, will raise \$17,545.00, which will provide \$650.00 for completing the Rose Canon road, as now contracted for, \$3,000.00 for constructing the Mt.
