We ought all to pull together, and if we do we can make San Diego the most attractive place in the world.

I will state that if the entire route is smoothed up and prepared ready for the reception of the oil, that after this work is accomplished, I will be glad to furnish and will furnish the oil for same.

San Diego, Calif. November 20, 1903.

To the Honorable Common Council
of the City of San Diego,

Gentlemen:—

We make you the following proposition Concerning the improvement of certain Streets and drives in this City.

1. The City shall prepare the roads bed by smoothing off the same so as to make a good driveway free from ruts, stones or mounds, and in good condition to receive oil, So as to make a continuous driveway as follows: Commencing at Sixth and "B" Streets thence to Date, thence swinging through the Park North on the west side to some cross street near the North line of the Park, thence west to Fifth Street, thence

North to University Boulevard; thence east on said Boulevard to the intersection of said boulevard and Park Boulevard; thence South of Park Boulevard and a street to the City park and thence through the City Park by way of the improved track on Twelfth Street.

2. The City shall put on the oil in a good and workman like manner.

3. We will furnish and pay for the oil on tracks at San Diego, provided the whole work of preparing roadbed, and putting on first Coat of Oil be done by February 15th, 1904.

4. If these Conditions be complied with, we will furnish the oil for a second Coat at such time as is deemed best that the same should be put on in order to produce best results.

We trust that the City will be able to comply with these Conditions, and thereby quickly produce a driveway as an additional attraction to our expected Winter Visitors, and we hope that the work may be done within the time limited.

Very Respectfully

University Heights from the South line of Pueblo Lot 1111 to the North end of said Avenues, boulevard, Streets and alleys, all contained in said Pueblo Lot 1111, together with certain protests against said proposed Street Closing, herewith reports and recommends as follows:

That the petition of the San Diego Electric Railway Company be granted, provided that Florida Street shall only be closed from the present North line of Adams Avenue to the north end of said Florida Street; and provided further, that the Street Railway Company will dedicate for the use of the public, a street 80 feet in width, the South line of which shall be coincident with the South line of Pueblo Lot 1111, from the west line of Campus Avenue to the west line of Florida Street, said Street to be known as Adams Avenue,

The action this proposed will remove Adams Avenue, from the west line of Campus Avenue, to the west line of Florida Street, about 125 to 150 feet South of its present location, and overcomes the objections cited by Laura M. We recommend that the City Attorney be instructed to prepare and present to the Common Council the necessary papers to carry this recommendation into effect; the Electric Railway Company to pay all expenses of advertising.

to cause to be constructed a cast-iron water pipe line running from the main at the intersection of Lewis Street and First Street in said City, thence running along First Street to Stockton Street; thence along Stockton Street to Front Street; thence along Front Street to the South line of the County Hospital farm in said City; said pipe line to consist of fifteen hundred and sixty-seven (1667) linear feet of four-inch (4") cast-iron water pipe; provided, that the expense for such pipe and material, and constructing such pipe line, shall not exceed the sum of eleven hundred and twenty-five dollars ($1125.00). The Report of the Finance Committee in the matter of Sale of Improvement Bonds, 25 Series of Water Improvement Bonds, amounting to about $25000.00, and 7 Series of the Sewer Extension Bonds, amounting to about $2500.00, was read and, on motion of Alderman Cribben, adopted by the following vote, to-wit:-

Ayes Aldermen Cribben, Rainbow, Perrin, Jones, Myers, Landis, Kelly, and Johnson.

Noes. Alderman Stoade.

Absent None.

The Report as adopted is as follows, viz:-

San Diego, Cal., March 5th, 1904.

To the Common Council,
City of San Diego.

Gentlemen:

The Finance Committee, to whom was referred the communication from citizens, asking the Council to place one of the issues of Municipal Improvement Bonds of the City of San Diego, for sale, on subscription at par and accrued interest that citizens of the City may subscribe therefor, herewith recommends that the advertisement now being made for the sale of the Water Improvement Bonds and the Sewer Extension Bonds be withdrawn, and that said bonds be sold at once, to-wit: 25 Series of the Water Improve-

ment Bonds, amounting to about $125000.00, and 7 series of the Sewer Extension Bonds, amounting to about $2500.00.

We also recommend that the proceeds of the sale of said portion of said Bonds to be sold at once be used exclusively for the purchase of the cast iron and steel which will be required in the construction of said water improvement and sewer extensions; that the balance of said bonds be held and not offered for sale until specially authorized by the Common Council.

We further recommend that the City Clerk be authorized to receive subscriptions for and sell said portion of said bonds herein recommended to be sold, and that the persons subscribing therefor, deposit 5% of the face value of the bonds subscribed for. Said sale to be made subject to confirmation by the Common Council.

The estimate of the Civil Engineer shows that the money received from the sale of the Bonds herein recommended to be sold will be ample to purchase the cast iron pipe and specials required by both water and sewerage systems, and also the steel for the trestle work. By allowing from six to nine months in which to deliver the cast iron after the contract therefor has been awarded, thus allowing the foundry furnishing said material to ship the same by water, the price therefor will be reduced from $4.00 to $6.00 per ton, amounting to about $15,000.00, which amount, together with the interest saved on the $190000.00 of bonds held by the City, amounting to about $7500.00, means a net saving to the City, of about $22500.00.

The Committee believes the saving affected by following the procedure outlined herein to be of great importance and benefit to the City, and therefore recommends the adoption of the necessary papers to carry this recommendation into effect.

Respectfully, M. J. Perrin,
Geo. H. Crippen,
J. P. M. Rainbow,
E. H. Wright,
Chas. L. Good,

That the Superintendent of Streets of said City having then on the 12th day of February 1904 caused to be conspicuously posted, along the line of said contemplated work, notices of the passage of said resolution declaring intention in the manner and form required by law, and the said Superintendent of Streets having also caused a notice, similar in substance to that posted, to be duly published in the manner and form required by law for a period of ten (10) days in the San Diego Union and Daily Bee, a daily newspaper published and circulated in said City and designated by said Common

To the Common Council,
City of San Diego,

Gentlemen;

The Water Committee to whom was referred a Communication from the Board of Public Works, recommending that the proper steps be taken at once for the installment of an additional Main Pumping Plant upon the lands recently purchased from J. H. Sefton et al in Mission Valley, herewith reports and recommends as follows;

The amount required for this Pumping Plant according to the estimate of the Superintendent of the Water Department is about $ 30,000 The Committee feels that it would not be wise to incur so large an indebtedness at this time for this purpose, and makes the following recommendations;

We recommend that a pumping plant be installed on the land recently purchased from J. H. Sefton, about one half mile north of Auxiliary Plant No. 6; said plant to consist of an engine and pumps of sufficient power and capacity for the present emergency but to become a part of the permanent plant of sufficient size to raise 1,500,000 gallons of water per day, and to be of a style and kind that may eventually become a part of the proposed additional main pumping plant to be hereafter further considered.

We also recommend that a new flume of sufficient capacity to carry the water furnished by the plant above specified be constructed, which flume shall extend from this plant to the flume at Aux-

iliary Plant No. 6,

We further recommend that the Capacity of the flume from Auxiliary Plant No. 6, to the main pumping plant near Old Town be increased to a size sufficient to carry the additional amount of water

Said Report as adopted is as follows, viz:-

San Diego, Cal., May 4th, 1904.

San Diego, Cal., May 4th, 1904.

To the Common Council,
City of San Diego,
Gentlemen:-

The Ways and Means Committee, to whom was referred the estimates of the probable necessities for the various departments of the City Government for the fiscal year 1904, upon which to base the rate for municipal taxes for said year, herewith reports and recommends as follows:-

Upon the total assessment roll for the fiscal year 1904, viz:- $14,422,404, we estimate that there will be a small percentage of delinquencies, and have therefore based our estimates upon a net valuation of $13,500,000.

We recommend changes in the estimates as submitted by the Auditor, as follows:-

That a Combination Chemical Engine be purchased for University Heights, instead of a Steam Fire Engine, thereby reducing the estimate of $9225 for a fire engine for University Heights to $3225; that the estimate of $1900 for new hose for the Fire Department be reduced to $1000; that the estimate of $800 for an Assistant Engineer of the Fire Department for 8 months be stricken out; that $400 be added to the estimate to pay for the cement work at the Golden Hill Engine House at Twenty-third and "F" streets, which work was done after the estimate had been made. These changes will reduce the estimate of $30,935 for the Fire Department fund to $23,635, which amount is fully provided for by the levy herein recommended.

That the estimate for the Public Building Fund be increased $700, which additional amount will be required for rent of buildings for the Fire Department during the time the new buildings are being erected. The estimate for this fund, together with the increase, is fully provided for in the levy herein recommended.

That the estimate for the General fund be increased $1200, to provide for the extra expense of the Board of Equalization, and for the pur-

chase of a book typewriting machine and metallic filing cases for the City Clerk's office, which expenses were incurred after the estimate had been made. The levy herein recommended fully provides for the estimated expenses chargeable to the General fund.

We also recommend that no levy be made for the Police Department fund or for the Legal fund, as revenues derived from sources other than taxes will amply provide for these funds.

We also recommend that the expenditures of the Water Department be kept within the amount of revenues of said department; we therefore recommend that no levy be made for the Water fund.

We recommend that your Honorable Body adopt a rate of $1.48 upon the $100 assessed valuation, which we recommend be apportioned as follows:-

Fire Department fund,	.175
Salary fund,	.21
Street fund,	.185
Sewer and Drainage fund,	.018
Street Light fund,	.145
Park Improvement fund,	.005
Public Health fund	.005

Water Bond, Interest and Sinking fund,	.31
Sewer Extension Bond, Interest and Sinking fund.	.043
Water Improvement Bond, Interest and Sinking fund,	.074
Bridge Bond, Interest and Sinking fund,	.005
Fire Improvement Bond, Interest and Sinking fund,	.017
Total,	$1.48

We present herewith an ordinance to carry this recommendation into effect and recommend its adoption.

Respectfully,

H. M. Landis,
