The Common Council shall have power to submit to the electors of said City at any election any question required to be so submitted by the constitution, the law, this Charter, or by ordinance; provided, that in case such question is required by said constitution, law, charter, or ordinance to be submitted at a special or other particular kind of election, it shall be so submitted, and not otherwise.

Section 2. Any proposed ordinance may be submitted to the Common Council by a petition signed by registered electors of the City equal in number to the percentages herein after required. The signatures to the petition need not all be appended to one paper, but each signer shall add to his signature his place of residence, giving his street and number. One of the signers of each such paper shall make oath before an officer competent to administer oaths, that the statement therein made are true, and that each signature to the paper appended is the genuine signature of the person whose name purports to be thereunto subscribed. If the petition accompanying the proposed ordinance be signed by electors equal in number to fifteen per cent. of the entire vote cast for all candidates for Mayor at the last preceding general election at which a Mayor was elected, and contains a request that said ordinance be submitted forthwith to a vote of the people at a special election, then the Common Council shall either:

(a) Pass said ordinance without alteration within twenty days after the attachment of the Clerk's certificate of sufficiency to the accompanying petition (subject to a referendary vote under the provisions of section 2 of this Chapter); and if the ordinance shall be passed by the Common Council, but shall be vetoed by the Mayor, and on reconsideration shall fail of passage by the Common Council the, within five days after determination that said ordinance shall have so failed of final adoption, the Common Council shall proceed

to call a special election at which said ordinance, without alteration, shall be submitted to a vote of the people; or,

(b) Forthwith after the Clerk shall attach to the petition accompanying such ordinance his certificate of sufficiency, the Common Council shall proceed to call a special election at which said ordinance, without alteration, shall be submitted to a vote of the people.

If the petition be signed by electors equal in number to at least five per cent. but less than fifteen per cent. of the entire vote cast for all candidates for Mayor at the last preceding general election at which a Mayor was elected, then such ordinance, without alteration, shall be submitted by the Common Council to a vote of the people at the next general municipal election that shall occur at any time after thirty days from the date of the Clerk's certificate of sufficiency attached to the petition accompanying such ordinance.

Any number of proposed ordinances may be voted upon at the same election, in accordance with the provisions of this section; provided, that there shall not be held under this section of the Charter, more than one special election in any period of six months.

The Common Council may submit a proposition for the repeal of any such ordinance, or for amendments thereto, to be voted upon at any succeeding general city election; and should such proposition, so submitted, receive a majority of the votes cast thereon at such election, such ordinance shall be repealed or amended accordingly. Whenever any ordinance or proposition is required by this charter to be submitted to the voters of the City at any election, the City Clerk shall cause the ordinance or proposition to be printed, and he shall enclose a printed copy thereof in an envelop with a sample ballot, and mail the same to each voter, at least ten days prior to the election, but the Common Council may order such ordinance or proposition to be printed in the official newspaper of the City and published in like manner as ordinances adopted by the Common Council are required to be published, and may order that such publication shall take the place of the printing and mailing of the ordinance or proposition, and of the sample ballot as first above provided.

Section 3. No ordinances passed by the Common Council (except when otherwise required by the general laws of the state, or by the provisions of this charter, respecting street improvements, and except an ordinance for the immediate preservation of the public peace, health, or safety, which contains a statement of its urgency, and is passed by a two-thirds vote of the Common Council, but no grant of any franchise, shall be construed to be an urgency measure, but all franchise shall be subject to the referendary vote herein provided, shall go into effect before thirty days from the time of its first passage and its approval by the Mayor, and if during said thirty days a petition signed by electors of

the City equal in number to at least seven per cent. of the entire vote cast for all candidates for Mayor at the last preceding general election at which a Mayor was elected, protesting against the passage of such ordinance, be presented to the Common Council, the same shall thereupon be suspended from going into operation, and it shall be the duty of the Common Council to reconsider such ordinance, and if the same is not entirely repealed, the Common Council shall submit the ordinance as is provided in Section 2 of the Chapter, to the vote of the electors of the City, either at the next general election or at a special municipal election to be called for that purpose, and such ordinance shall not go into effect or become operative unless a majority of the qualified electors voting on the same shall vote in favor thereof. Said petition shall be in all respects in accordance with the provisions of said Section 2, except as to the percentage of signers, and be examined and certified by the Clerk in all respects as is therein provided.

Section 4. The holder of any elective office may be removed at any time by the electors qualified to vote for a successor of such incumbent. The procedure to effect the removal of an incumbent of an elective office shall be as follows: A petition signed by electors entitled to vote for a successor to the incumbent sought to be removed, equal in number to at least twenty-five per centum of the entire vote for all candidates for the office, the incumbent of which is sought to be removed, cast at the last preceding general municipal election, demanding an election of a successor of the person sought to be removed, shall be filed with the City Clerk; provided that the petition sent to the Common Council shall contain a general statement of the grounds for which the removal is sought. The signature to the petition need not all be appended to one paper, but each signer shall add to his signature his place of residence, giving the street and number. One of the signers of each such paper shall make oath before an officer competent to administer oaths, that the statements therein made are true, and that each signature to the paper appended is the genuine signature of the person whose name purports to be thereunto subscribed. Within ten days from the date of filing such petition the City Clerk shall examine and from the great register ascertain whether or not said petition is signed by the requisite number of qualified electors, and if necessary, the Common Council shall allow him extra help for that purpose, and he shall attach to said petition his certificate showing the result of said examination. If, by the Clerk's certificate the petition is shown to be insufficient, it may be amended within ten days from the date of said certificate. The Clerk shall within ten days after such amendment, make like examination of the amended petition, and if his certificate shall show the same to be insufficient, it shall be returned to the person filing the same without prejudice, however, to the filing of a new petition to the same effect. If the petition shall be found to be sufficient the Clerk shall submit the same to the Common Council without delay. If the petition shall be found to be sufficient, the Common Council shall order, and fix a date for holding the said election, not less than thirty days nor more than forty days from the date of the Clerk's Certificate to the Common Council that a sufficient petition is filed.

The Common Council shall make or cause to be made publication of notice, and all arrangements for holding of such election, and the same shall be conducted, returned, and the result thereof declared in all respects as are other city Elections. The successor of any officer so removed shall hold office during the unexpired term of his predecessor. Any

person sought to be removed may be a candidate to succeed himself, and, unless he requests otherwise, in writing, the Clerk shall place his name on the official ballot without nomination. In any such removal election, the candidate receiving the highest number of votes shall be declared elected. At such election if some other person than the incumbent receives the highest number of votes, the incumbent shall thereupon be deemed removed from the office upon qualification of his successor. In case the party who receives the highest number of votes should fail to qualify within ten days after receiving notification of election, the office shall be deemed vacant. If the incumbent receives the highest number of votes he shall continue in office.

That all portions of the said charter in conflict with the foregoing provisions be, and the same are hereby, repealed.

The following report of the Water Committee as to the condition of the Point Loma water pipe line is read and on motion adopted, viz:

San Diego, California, Nov, 21, 1904.

To the Common Council, City.

Gentlemen:-

The water Committee begs leave to report as follows, in the matter of the condition of the water mains on Point Loma;

We have made careful examination of said water mains, from a point near the pumping station, a short distance from the "Homestead", thence along said line to the City Reservoir, near the U. S. Reservation on pueblo lot No. 102; thence along the pipe line to the Fairbanks place, thence northerly along the NERESHEMER and Jennings places to a point in front of the Homestead, the whole distance of the wooden pipe line.

We found some five or six leaks, where considerable water runs to waste, but we also found that just prior to this visit by your Committee that at least a dozen leaks had been repaired quite recently, so that but very little water is now wasted.

We are further greatly pleased to see, that it is possible to repair this pipe for temporary use, without great expense.

We therefore suggest that the water department replace with new wooden pipe, the joints where the leaks yet appear.

We further recommend that the Board of Public Works carry out the provisions of ordinance No. 1548 providing for the relaying of the mains on Pueblo lot No. 102, by laying said pipe beginning at the end of the cast iron pipe line at the "Homestead Lands", and running towards the City reservoir as far as the same will reach, where the pipe line is in bad condition and can be repaired in that way.

Ordinance No. 1818

An ordinance amending section 13 of ordinance No. 1127 of the ordinances of the city of San Diego, California, approved on the 3rd day of June, 1902.

Be it ordained, by the common council of the city of San Diego, as follows:

Section 1. That section 13 of ordinance No. 1127 of the ordinances of the city of San Diego, California, approved on the 3rd day of June, 1902, entitled, "An ordinance prescribing regulations in making connections with the public sewers, and for plumbing in the city of San Diego, California," be and the same is hereby amended to read as follows:

Section 13. That every waste pipe shall be of cast-iron or lead. All lead pipe connections must be made with a wiped joint. No solder or bolt joint will be allowed. Safe wastes may be of wrought iron. All cast or wrought iron pipes and fittings for waste, vent or soil pipe must be coated both inside and outside with coal-tar pitch, applied hot, or some equivalent substance. All connections of lead with iron pipe must be made with a brass ferrule of the same size as the lead pipe and caulked into the iron pipe, and connected with the lead pipe by a wiped joint. Reduced ferrules are strictly prohibited. Every line of vent and soil pipe must extend full bore to an elevation equal to a point four inches below the highest point of the roof, as hereinafter provided, except in buildings having a flat roof and fire walls, in which case said vent and soil pipe shall extend two feet above the fire walls. In every building there must be at least one four-inch cast-iron pipe running from the sewer to an elevation equal to a point four inches below the highest point of the roof, where a water closet is located in said building (except buildings having a flat roof and fire walls), in which case the said four-inch cast-iron pipe shall run from the sewer to an elevation equal to a point two feet above the fire walls. In all new buildings (except buildings having flat roof and fire walls, and buildings built of one thickness of one-inch lumber) every line of vent and soil pipe must run to the roof and thence continue up under the roof, with the same degree of elevation as the roof, to a point twelve inches from the highest

point of the roof, and thence run through the roof perpendicularly, and terminate at an elevation equal to a point four inches below the highest point of the roof. If the roof is so flat that at least a sixth bend cannot be used, then the said vents are to run up under the roof as near the same degree of elevation as the roof as possible. In all buildings built of one thickness of one-inch lumber and in all old buildings (except buildings having a flat roof and fire walls), where new plumbing is put in, every vent and soil pipe must run perpendicularly from the sewer or fixture to an elevation equal to a point four inches below the highest point of the roof. Where there is only one water closet on a four-inch stack, the stack will vent said closet. If there is more than one closet on a stack, each and every closet shall be vented with a two-inch vent. In no case shall a fixture be located more than two feet from its vent. In case an adjoining building, within fifty feet of said pipe, extends one or more stories higher than the building in which the said soil or vent pipes are located than the said pipes must be carried three feet above all openings or gutters of the highest building and securely fastened so as to prevent them from falling, by proper guys and support. One inch and a half vent shall be galvanized iron. All other vents shall be of cast iron. The pipes must be enclosed within buildings. All connections with traps must be made to main soil, waste, and vent pipes by means of lead-caulked joints. Tap tees are prohibited. No other trap shall be used except the one called for in this ordinance. All soil, waste, vent, or drain pipes inside and outside of the building, from the property line, before being covered up, must have all openings stopped up and filled with water. This test must be made in the presence of the plumbing inspector. In all cases where the plumbing inspector is not satisfied with the water test, he may use the smoke or peppermint test. All house drains shall, after being laid, be allowed to remain uncovered until inspected by the plumbing inspector. Notice must be given the plumbing inspector when the work is sufficiently advanced for inspection, and every facility must be given the plumbing inspector to make a thorough inspection, that is, if any pipes are enclosed or covered up with flooring, siding, lath, or dirt, or other material, or in any way so covered up that it will tend to obstruct a thorough inspection of the plumbing, the said obstruction will have to be removed by the plumber doing the work before the plumbing inspector inspects the work. When pipes have been tested in sections, there shall be another test made when connections are ready to be made with the main sewer. Immediately upon the completion of the work, notice must be given the plumbing inspector for his final inspection. If the plumbing is in a new building the plumbing inspector must be notified by

ample time to make the inspection before the building is occupied. It shall be the duty of the plumbers to report to the plumbing inspector the replacing of old closets with new closets, or old bath-tubs with new bath tubs, or old sinks with new sinks, or any other old fixture with a new fixture, in order that the work of replacing the old material with the new material may be inspected by the plumbing inspector.

The following Report of the Water Committee is read and on motion, adopted viz:

San Diego, Cal. Dec 1st, 1904.

To the Common Council
City.

Gentlemen:

The Joint Water Committee to whom was referred a Joint Resolution directing the Board of Public Works to lay any surplus four inch water pipe remaining from the construction of the La Jolla pipe line in Connelley Street in La Jolla Park, herewith recommends that said surplus pipe be laid in Prospect Street.

The Committee also suggests that when the pipe line provided for in the Board issue be laid between Pacific Beach and La Jolla that said pipe line

from the intersection of Grand, Ravenna, and Warren Streets be laid up Warren Street to Exchange Place, or as far as the pipe will reach instead of on Grand Street to Prospect Street. This will leave but a short distance between the ends of the two pipe lines which can later be filled in, thus making a complete circulating 4 inch pipe line from which La Jolla can be well supplied with water.

The Committee also recommends that the Board of Public Works purchase from Christian Froelich, two sections of 4 inch water pipe.

The Committee presents herewith a Joint Resolution providing for laying the surplus pipe remaining from the construction of the La Jolla pipe line, in Prospect Street instead of in Connecticut Street and recommends that the same be adopted.

Respectfully,

Geo. H. Crippen,
J. J. Johnson,
W. H. Lewis,
