Said report as adopted is as follows, viz:

San Diego, Cal., Sept. 19th, 1903.

To the Board of Delegates,

City,

Gentlemen:--

The undersigned, a minority of the Water Committee, to which Committee was referred an ordinance providing for the purchase of cast iron water pipe for the purpose of constructing a water pipe line from Pacific Beach to La Jolla, herewith reports as follows:

Upon the investigation of this subject matter, I have weighed the statements as they were detailed to the Committee. The Superintendent of the Water Department asserts that a four inch pipe is now insufficient to supply water at La Jolla. The City Attorney holds that a six inch pipe is virtually a substitute for the pipe provided for in the bond issue, and that such substitution of a six inch pipe, before the sale of the bonds, will invalidate the same. I therefore dissent from the action of the majority of the Committee in this matter, and recommend that further action on the ordinance be postponed until we offer the bonds for sale, in order that we may avoid any legal entanglements.

Respectfully,

W. H. C. Ecker.

WHEREAS, The said Common Council is not desirous of taking any action which will interfere in any manner whatsoever with the issuance of said bonds, but is desirous of constructing a four-inch pipe line between the said Pacific Beach and the said La Jolla Park, which will be in addition to the said four-inch water pipe line provided for in the said proceedings for the issuance of bonds,

Said report as adopted is as follows, viz:

To the Common Council of the City of San Diego:

The undersigned, members of the Committee on Gas, Electric Light and Telephones, desire to submit a Minority report with reference to the application of Arthur Wright for a telephone franchise in the city, as follows:

At the meeting of said Committee, Mr. Wright, the said applicant, said that a much greater sum would be expended in the construction of the plant than that named in his said application, and in answer to a question by a member of said Committee, offered then and there to sign a new application specifying double the amounts to be expended, but as the Committee had no authority to change or modify the said application, the undersigned at said meeting moved to recommend the granting of the telephone franchise to the said applicant on condition that he give an adequate bond to spend at least double the amounts as specified in the application on file and with the further condition that the Council reserve the right to fix reasonable rates of charges which said applicant, his assigns or successors may make.

Said motion was voted down in said Committee, only the undersigned voting therefor. Since the meeting of said Committee the said applicant in accordance with his promises to said Committee has signed another application for a telephone franchise in which he offers to give a bond in the sum of \$25,000.00 to spend double the amounts named in the application now on file, to-wit, the total sum of \$120,000, exclusive of real estate and buildings, and the said Mr. Wright has attached to said new application a written request that the same be substituted for the application now on file and that the same be granted in lieu of the said first application.

The said new application was drawn by Mr. H. E. Doolittle, City Attorney of San Diego, at the request of the undersigned, and there is attached thereto the opinion of the said Attorney that the same is in legal form. All of which is made a part of this report.

It is therefore recommended by the undersigned that this said new application for a telephone franchise be substituted for the said application now on file, and that the new application be granted by this Council.

Respectfully submitted,

Dan F. Jones,

E. W. Peterson.

San Diego, California, November 9th, 1903.

Hon. E. W. Peterson,

Member of the Board of Delegates of the

Common Council of the City of San Diego, California,

Dear Sir:--

Pursuant to your request we have rewritten and added certain amendments to the conditions contained in the application of Arthur Wright for a telephone franchise. The application which we have prepared is practically the same as the one on file, except the sums to be expended have been increased from sixty thousand dollars to one hundred and twenty thousand dollars, one bond has been increased from one thousand dollars to two thousand dollars, one bond has been increased from ten thousand dollars to twenty-five thousand dollars, the number of telephones to be furnished to the city free of expense has been increased from twelve to twenty-five, and a clause inserted allowing the grantee to file affidavits showing that the sums of money have been expended within ten days after such sums have been expended, if the grantee desires to expend such sums within a less time than the period designated; and section nine has been added.

We believe that this application contains all the provisions which the law requires that such application shall contain.

All of which is respectfully submitted,

H. E. Doolittle, City Attorney.

San Diego, California, Nov. 9th, 1903.

To the Common Council,

City of San Diego,

Gentlemen:--

I herewith hand you a new application for a telephone franchise which I desire to substitute for the application heretofore filed by me with your body.

That the terms and conditions upon which the said franchise shall be offered for sale and granted are the following:

FIRST: That the grantee of said franchise, his or its successors or assigns, shall in good faith lay out and expend for material and labor used and performed in the construction of said system, the erection of said poles and in the construction and installation, in connection therewith of wires, switchboards, and telephonic apparatus and appliances, the following sums within the periods hereinafter mentioned, respectively:-

And any failure or omission to pay out and expend for said labor and material the full sum herein before required to be expended within either of the respective periods described, or any omission or refusal to file within the time herein prescribed, any of said verified statements, may work a forfeiture of the said franchise, and of all rights thereunder, to the City of San Diego.

FIFTH: That all telephone lines constructed or operated under said franchise shall have full metallic circuits.

That the rent or charge for unlimited independent metallic circuit telephone service in the system established or maintained under said franchise, so long as said system does not connect and exchange with more than two thousand (2,000) telephones, shall not exceed fifty-four dollars (\$54.00) per annum for a telephone installed in any business office or premises within a radius of one and one half miles from the intersection of Fifth and "D" streets, and additional charge of six dollars (\$6.00) per annum for each additional mile or fraction thereof; or twenty-seven dollars (\$27.00) per annum for a telephone installed in private residence for residence use, within a radius of one and one-half miles from the intersection of Fifth and "D" streets, and for each additional mile or fraction thereof, and additional charge of six dollars (\$6.00) per annum; and that when said system shall comprise more than two thousand (2,000) telephones the annual rent or charge for the aforesaid service shall not be increased by more than a sum equal to six dollars (\$6.00) per annum for each one thousand (1,000) telephones in said city connected with said system in excess of two thousand (2,000).

No percentage shall be paid for the first five years succeeding the date of the franchise, but thereafter such percentage shall be payable annually.

And it shall be the duty of the grantee of said franchise, his or its successors or assigns, to file with the City Clerk of the City of San Diego, at the expiration of six years from the date of granting of said franchise, and at the expiration of each and every year thereafter, a statement, verified by the oath of said grantee, his successors or assigns, or by the oath of the manager or presiding officer of said grantee, or by its successors or assigns, showing the total gross receipts and gross earnings collected or received in any manner gained or derived by the said grantee, his or its successors or assigns, during the preceding twelve months, from telephone, telegraph, district messenger and burglar alarm charges and rentals, and from the leasing or letting of lines or poles or conduits. And within ten days after the time for filing the aforesaid statement, it shall be the duty of said grantee, his or its successors or assigns, to pay to the City Treasurer of the City of San Diego the aggregate sum of the said percentage upon the amount of the gross annual receipts arising from the use, operation or possession of said franchise, determined and computed in the manner hereinbefore provided. And any neglect, omission or refusal by said grantee, or his or its successors or assigns, to file said verified statement, or to pay said percentage of the said gross annual receipts, at the time or in the manner hereinbefore provided, shall work a forfeiture of the franchise, herein proposed to be granted and of all rights thereunder, to the City of San Diego.

San Diego, California, November 9th, 1903.

To the Honorable Common Council of the

City of San Diego, Cal.,

Gentlemen:--

The undersigned applicant hereby applies for and files with the Common Council of the City of San Diego, California, an application for a franchise as follows, to-wit:

A franchise to erect, maintain, and operate for a term of thirty years, poles and wires with all necessary and auxiliary fixtures, upon, over, and along the streets, alleys, lanes, ~~and~~ highways, and public places of the said City of San Diego.

And to transmit sounds, signals, conversation and intelligence through and over said wires by means of electricity, together with the right to construct, operate, and maintain all necessary feeders, surface wires, house connections and such other apparatus and appliances in connection therewith as may be necessary for the purpose of safely and efficiently operating and maintaining said system of poles, wires and fixtures, and carrying on a general Telephone, Telegraph, District Messenger and Burglar Alarm business by means thereof.

PROVIDED, That the City of San Diego, Cal., reserves the right to purchase for municipal ownership, at a fair valuation, at any time after ten (10) years after granting this franchise, any telephone or telegraph system constructed under this said franchise.

That the terms and conditions upon which the said franchise shall be offered for sale and granted are the following:

FIRST: That the grantee of said franchise, his or its successors or assigns, shall in good faith lay out and expend for material and labor used and performed in the construction of said system, the erection of said poles and in the construction and installation, in connection therewith of wires, switchboards, and telephonic apparatus and appliances, the following sums within the periods hereinafter mentioned, respectively:

Thirty thousand dollars (\$30,000.00) within eight months after the grant of said franchise; a further and additional sum of thirty thousand dollars (\$30,000.00) within twelve months after said grant; a further and additional sum of thirty thousand dollars (\$30,000.00) within eighteen months after said grant; and a further and additional sum of thirty thousand dollars (\$30,000.00) within twenty-four months after said grant, making a total of one hundred and twenty thousand dollars (\$120,000.00) to be expended within twenty-four months after said grant, exclusive of the cost of any building or real estate.

And it shall be the duty of the grantee of said franchise, his or its successors or assigns, to file with the City Clerk of the City of San Diego, before or within ten days after the expiration of each of said periods of eight, twelve, eighteen, and twenty-four months after the grant of said franchise, a statement, verified by the oath of said grantee, his successors or assigns, or by the oath of the manager or presiding officer of said grantee, its successors or assigns, showing the sums expended for said material and labor by said grantee, his or its successors or assigns, during the preceding period of eight, twelve, eighteen, or twenty-four months, as the case may be; provided, that, if any or all of said sums are expended within a less time than the period above stated, that the filing of such affidavits shall not be delayed until the expiration of said respective periods, but said affidavits shall be filed within ten days after said respective sums have been so expended, provided, that at least said respective sums must be expended within the respective periods above named.

And any failure or omission to pay out and expend for said labor and material the full sum hereinbefore required to be expended within either of the respective periods described, or any omission or refusal to file within the time herein prescribed, any of said verified statements, may work a forfeiture of said franchise, and of all rights thereunder, to the City of San Diego.

SECOND: That the poles to be erected and maintained under said franchise shall, as to size and height, and as to erection and location, conform to the reasonable rules and regulations of the Street Superintendent of the City of San Diego, and to the ordinances of the said City of San Diego.

PROVIDED, That all poles shall be set in the alleys in blocks which have alleys in all residence parts of the city, and through the center of blocks without alleys in the residence parts of the city, where the consent of the property owners therefor can be obtained.

FOURTH: That in event the said Council of the City of San Diego, by general ordinance, applicable to all telephone, telegraph, district messenger, fire alarm, electric light and other companies of like nature, shall direct that over-head wires shall be placed in conduits, it shall be the duty of the grantee of this franchise, his or its successors or assigns, to conform with the regulations and provisions of said ordinance.

FIFTH: That all telephone lines constructed or operated under said franchise shall have full metallic circuits.

That the rent or charge for unlimited independent metallic telephone service in the system established or maintained under said franchise, so long as said system does not connect and exchange with more than two thousand (2,000) telephones, shall not exceed fifty-four dollars (\$54.00) per annum for a telephone installed in any business or premises within a radius of one and one half miles from the intersection of Fifth and "D" streets, and an additional charge of six dollars (\$6.00) per annum for each additional mile or fraction thereof; or twenty-seven dollars (\$27.00) per annum for a telephone installed in private residence for residence use, within a radius of one and one half miles from the intersection of Fifth and "D" streets, and for each additional mile or fraction thereof, an additional charge of six dollars (\$6.00) per annum; and that when said system shall comprise more than two thousand (2,000) telephones the annual rent or charge for the aforesaid service shall not be increased by more than a sum equal to six dollars (\$6.00) per annum for each one thousand (1,000) telephones in said city connected with said system in excess of two thousand (2,000).

SIXTH: That, except as hereinafter provided, said grantee, his or its successors or assigns, shall not, without the consent of the city, evidenced by ordinance, sell or transfer the conduits, poles, wires or appliances of any kind or description, or sell, lease, assign or transfer any of the rights or privileges herein authorized or granted to any person, com-

pany, trust or corporation, now or hereafter engaged in the telephone, telegraph, district messenger, burglar alarm or conduit business, and shall not at any time enter into any combination, directly or indirectly, with any person or persons, or any corporation, concerning the rate to be charged for telephone, telegraph, district messenger or burglar alarm services, nor with any officer or officers, employees or managers of any conduit, telephone, telegraph, district messenger and burglar alarm system, constructed or being operated in this city; provided, however, that said grantee, his or its successors or assigns, may assign this franchise to a corporation organized by him or them under the laws of the State of California, or some other state of the United States for the purpose of carrying on a general telephone, telegraph, district messenger and burglar alarm business, and of owning, constructing, maintaining and operating lines, conduits, cables, wires and other electrical conductors, together with all necessary feeders, service wires and house connections, to be used for the transmission of sounds, signals and intelligence by the means of electricity, in the city of San Diego; and provided further, that notice of said assignment shall be filed with the City Clerk of the City of San Diego within sixty days after the execution of said assignment.

SEVENTH: That the person, partnership or corporation to whom said franchise is granted or awarded, his or its successors or assigns, shall, during the life of said franchise, pay to the City of San Diego, in lawful money of the United States, two per cent. of the gross annual receipts of such grantee, and his or its successors or assigns, arising from the use, operation, or possession of said franchise. No percentage shall be paid for the first five years succeeding the date of the franchise, but thereafter such percentage shall be payable annually.

And it shall be the duty of the grantee of said franchise, his or its successors or assigns, to file with the City Clerk of the City of San Diego, at the expiration of six years from the date of granting of said franchise, and at the expiration of each and every year thereafter, a statement, verified by the oath of said grantee, his successors or assigns, or by the oath of the manager or presiding officer of said grantee, or by its successors or assigns, showing the total gross receipts and gross earnings collected or received or in any manner gained or derived by the said grantee, his or its successors or assigns, during the preceding twelve months, from telephone, telegraph, district messenger and burglar alarm charges and rentals, and from the leasing or letting of lines or poles or conduits. And within ten days after the time for filing the aforesaid statement, it shall be the duty of said grantee, his or its successors or assigns, to pay to the City Treasurer of the City of San Diego the aggregate sum of the said percentage upon the amount of the gross annual receipts arising from the use, operation or possession of said franchise, determined and computed in the manner hereinbefore provided. And any neglect, omission or refusal by said grantee, or his or its successors or assigns, to file said verified statement, or to pay said percentage of the said gross annual receipts, at the time or in the manner hereinbefore provided, shall work a forfeiture of the franchise, herein proposed to be granted and of all rights thereunder, to the City of San Diego.

EIGHTH: That the grantee of said franchise, shall, within five days after such franchise is awarded, file with the Common Council of said city a bond running to said city with at least two good and sufficient sureties, to be approved by said Common Council, in the penal

sum of twenty-five thousand dollars (\$25,000.00), conditioned that said grantee, his or its successors or assigns, shall expend the sum of money within the times respectively, and for the purposes as is in paragraph First of this franchise provided; and that in case of any breach of condition of such bond, the whole amount of the penal sum therein named shall be taken and deemed to be liquidated damages, and shall be recoverable from the principal and sureties upon said bond; and that the grantee of said franchise shall, within five days after such franchise is awarded, file with the Common Council of the City of San Diego a bond running to said city, with at least two good and sufficient sureties, to be approved by said Common Council, in the penal sum of two thousand dollars (\$2,000.00); conditioned that said grantee, his or its successors or assigns, shall well and truly observe, fulfill, and perform each and every term and condition of said franchise, and that in case of any breach of condition of such bond, the whole amount of the penal sum therein named shall be taken and deemed to be liquidated damages, and shall be recoverable from the principal and sureties upon said bond. In case said bonds shall not be so filed, the award of such franchise shall be set aside, and the same may be granted to the next highest bidder, or again offered for sale in the discretion of said Common Council.

NINTH: That the grant of said franchise, rights, and privileges shall be subject to the right of the said Common Council to fix a reasonable rate of compensation to be charged and collected by any person, company, or corporation for the use of a telephone or telephones under such franchise, and also subject to all the provisions of the law and charter of the said City of San Diego relative to the granting of such franchise, rights, and privileges; and that no bill for the grant of such franchise shall be finally passed within thirty days after its introduction.

-----

An Ordinance prescribing the mode for the sale of a telephone franchise in the City of San Diego, California.

Filed Nov. 9th, 1903. Geo. D. Goldman, City Clerk. Petition of Arthur Wright for a telephone franchise. Amended and granted by Council Nov. 9th, 1903."

AND WHEREAS, said application for said franchise petitioned the said governing and legislative body of said city to advertise said franchise for sale, and sell the same to the highest bidder for cash; and

WHEREAS, it is the desire of the said governing and legislative body of said city to grant said application and advertise said franchise for sale,

NOW, THEREFORE, BE IT ORDAINED, By the Common Council of the City of San Diego, as follows:

Section 1. That the said governing and legislative body of the said City of San Diego advertise the fact of said application, together with a statement that it is proposed to grant the same, in the city official newspaper of said city, to-wit, the San Diego Union and Daily Bee, a daily newspaper of said city and of general circulation within said city, wherein said franchise is to be exercised, once a day for ten (10) successive days; and that said advertisement shall state that bids will be received for said franchise, and that it will be awarded to the highest bidder.

Said publication must be completed not less than twenty nor more than thirty days before any further action will be taken upon said application. Said publication shall also state the character of the said franchise and privilege proposed to be granted, the term for which it is to be granted, that sealed bids therefor will be received up to a certain hour and day named therein, and that the successful bidder and his assigns must, during the life of said franchise, pay to the said City of San Diego two per cent of the gross annual receipts of the person, partnership, or corporation to whom the said franchise is awarded, arising from its use, operation or possession; provided, that no percentage shall be paid for the first five years succeeding the date of the said franchise, but thereafter such percentage shall be payable annually, and in the event said payment is not made, said franchise shall be forfeited.

Said advertisement shall also contain a statement that the said franchise will be struck off, sold, and awarded to the person, firm, or corporation who shall make the highest cash bid therefor; provided, that at the time of the opening of said bids any responsible person, firm, or corporation, present or represented, may bid for said franchise or privilege a sum not less than ten per cent above the highest sealed bid therefor, and said bid so made may be raised not less than ten percent by any other responsible bidder, and said bidding may so continue until finally said franchise shall be struck off, sold, and awarded by said governing body to the highest bidder therefor in gold coin of the United States. Each sealed bid shall be accompanied with cash or a certified check, payable to the treasurer of said municipality, for the full amount of said bid, and no sealed bid shall be considered unless said cash or check is enclosed therewith, and the successful bidder shall deposit at least ten per cent of the amount of his bid with the City Clerk of the said City of San Diego before the franchise shall be struck off to him; and if he shall fail to make such deposit immediately, then and in that case, his bid shall not be received, and shall be considered as void, and the said franchise shall then and there be again offered for sale to the bidder who shall make the highest cash bid therefor, subject to the same conditions as to deposit, as above mentioned.

Said successful bidder shall deposit with the said City Clerk of the said City of San Diego, within twenty-four hours after the acceptance of his bid, the remaining ninety per cent of the amount thereof, and in case he or it shall fail to so do, then the said deposit theretofore made shall be forfeited, and the said award of said franchise shall be void, and the said franchise shall then and there, by said governing body, be again offered for sale to the highest bidder therefor, in the same manner and under the same restriction as hereinbefore provided, and in case said bidder shall fail to deposit with the said City Clerk the remaining ninety per cent. of his bid, within twenty-four hours after its acceptance, the award to him of said franchise shall be set aside, and the deposit theretofore made by him shall be forfeited, and no further proceedings for a sale of said franchise shall be had unless the same shall be re-advertised and again offered for sale in the manner hereinbefore provided.

The successful bidder for any franchise struck off, sold, and awarded under this ordinance shall file a bond running to said City of San Diego with at least two good and sufficient sureties, to be approved by said Common Council, in the penal sum of two thousand dollars (\$2,000.00) (which shall be set forth in said advertisement for bids) conditioned that such

Said bond shall be filed with such governing body within days after such franchise is awarded, and that the successful bidder of said franchise shall, within five days after such franchise is awarded, file with the Common Council of said city a bond running to said city with at least two good and sufficient sureties, to be approved by the said Common Council, in the penal sum of twenty-five thousand dollars (\$25,000.00), conditioned that the said successful bidder, his or its successors or assigns, shall expend the sum of money within the time respectively, and for the purpose as in paragraph First of the said application for such franchise provided; that in case of any breach of such bond, the whole amount of the penal sum therein named shall be taken and deemed to be liquidated damages, and shall be recoverable from the principal and sureties upon said bond, and upon the filing and approval of such bonds the said franchise shall, by said governing and legislative body, be granted by ordinance to the person, firm or corporation to whom it has been struck off, sold, or awarded; and in case said bonds shall not be so filed, the award of such franchise shall be set aside, and any money paid therefor shall be forfeited, and said franchise shall, in the discretion of the said governing and legislative body, be readvertised and again offered for sale in the same manner and under the same restrictions as hereinbefore provided. The terms and conditions contained in said application shall be fully set forth in said advertisement. No bill for the grant of such franchise shall be finally passed within thirty days after its introduction. And the grant of said franchise, rights, and privileges shall be subject to the right of the said Common Council to fix a reasonable rate of compensation to be charged and collected by any person or corporation for the use of a telephone or telephones under such franchise. At the meeting of the Committee held this date Memo. Cherry and McCallan from the County Board

of Supervisors, and Mr. J. J. Johnson, through whose land the proposed roadway runs, appeared in said matter. They stated to the Committee that a majority of the Board of Supervisors and Mr. Johnson had agreed upon a road which would be satisfactory, <sup>asked</sup> that the right of way for the same be procured by the Council. The center line of said road so far as Mr. Johnson's land is concerned, is about as follows:

Commencing at the front entrance of the New County Hospital, thence running South to the north line of Mr. Johnson's land, thence running South on Mr. Johnson's land 100 feet, (this being on the line of the survey made by the City Engineer on the 7th day of February 1903) thence running Southeast in a curved line to State No 25 1/2 thence running South to the South line of Mr. Johnson's land.

We recommend that the City Engineer be instructed to survey this route a 60 foot right of way, and that the City Attorney be instructed to procure said right of way, provided the cost thereof does not exceed the sum of \$150.00.

The following Message from the Mayor returning without his approval an ordinance providing for lowering water pipe lines at La Jolla Park, is read and ordered filed, viz:

San Diego, California, December 29th, 1903.

To the Honorable Board of Delegates

of the City of San Diego, California,

Gentlemen:--

I return herewith an ordinance providing for lowering water pipe lines at La Jolla Park in the City of San Diego.

I veto this ordinance for the reason that the amount appropriated will cover only about one quarter of the expense, the pipe proposed to be lowered is all old pipe of all sizes and much of it would not stand to be moved. The city has now ordered four-inch pipe to replace some of this same pipe, and I believe that it would be economy to let the old pipe alone until we have the new pipe on hand, and then do the work of lowering all the pipe and replace with good pipe all pipe that has outlived its usefulness.

Respectfully submitted,

FRANK P. FRARY,

Mayor of the City of San Diego, California.

The following report of the Street Committee in the matter of the petition of property owners to change the grade at the southeast corner of the intersection of 2nd and "A" streets, being read is on motion of Alderman Jones adopted, viz:

The Street Committee recommends that the within petition to change the grade at the southeast corner of 2nd and "A" streets, be granted. We further recommend that any expense incurred in making said change be borne by the city; as it was evidently an error on the part of the city when the grade was established at the present elevation.

The report of the Street Committee presenting an ordinance providing for oiling certain streets, avenues and boulevards, is read and adopted, viz:

San Diego, Cal., Jan. 7th, 1904.

To the Common Council,

City,

Gentlemen:--

The Joint Street Committee presents herewith an ordinance in the matter of the offer of

the Chamber of Commerce to furnish crude oil for oiling certain streets, avenues, boulevards and driveways in the city, a portion of which are in the City Park, provided the city puts said streets, avenues, boulevards and driveways in condition to receive the oil, and also put the oil on; said work to be done prior to February 15th, 1904.

The Committee presents this ordinance as a substitute for the two ordinances now pending before the Council, having incorporated therein only that portion of both of said ordinances which has been adopted by both boards of the Common Council, and provides only for oiling the streets, avenues and boulevards outside of the Park.

The Committee believes that the city should take advantage of the offer of the Chamber of Commerce; and inasmuch as the two boards have been unable to agree as to that portion of the work to be done inside the Park, but have agreed as to that portion to be done outside of the Park, we recommend the adoption of this ordinance to carry into effect that portion of the ordinances now pending before the Council, which has already been agreed upon by both boards.

Majority and Minority reports of the Finance Committee in the matter of increasing the salaries of the Superintendent of the Water Department and the Superintendent of Streets are read and on motion of Delegate Williamson the minority report is adopted, viz:

San Diego, Cal., Jan. 25th, 1904.

To the Common Council of the

City of San Diego, Cal.,

Gentlemen:--

The undersigned begs leave to dissent from the majority report as to the raising of the salaries of the Superintendent of the Water Department and Superintendent of Streets, respectively.

While recognizing the superior ability of these two officials and taking into consideration their zealousness in the discharge of their duties, yet I cannot but dissent from the majority report for the following reasons:

First. This city is short of funds to carry on the city in these very departments in which the raise of salary is petitioned for.

Second. The salaries of these two officials is now as much as most business of the city are clearing above their expenses of running their business.

Third. If these salaries are raised it creates a precedent in these offices for others who may in the future be elected to fill these offices, which I do not think wise at this time for the city to do.

I therefore would recommend that the salaries be left as they are.

All of which is most respectfully submitted as your minority report.

Chas. L. Good.
