The following report of the Water Committee in the matter of the condition of the Point Loma water pipe line is read, and on motion of Delegate Ecker adopted, viz;

San Diego, California, Nov, 21, 1904.

To the Common Council, City.

Gentlemen;-

The Water Committee begs leave to report as follows, in the matter of the condition of the water mains on Point Loma;

We have made careful examination of said water mains, from a point near the pumping station, a short distance from the "Homestead", thence along said line to the City Reservoir near the U.S. Reservation, on Pueblo Lot No. 102; thence along the pipe line to the Fairbanks' Place, thence northerly along the Neresheimer and Jennings Places to a point in front of the Homestead, the whole distance of the wooden pipe line.

We found some five or six leaks, where considerable water runs to waste, but we also found that just prior to this visit by your Committee, that at least a dozen leaks had been repaired quite recently, so that but very little water is now wasted.

We are further greatly pleased, to see that it is possible to repair this pipe line for temporary use, without great expense. We therefor suggest that the Water Department replace with new wooden pipe, the joints where the leaks yet appear.

We further recommend, that the Board of Public Works carry out the provisions of ordinance No. 1548, providing for the relaying of the mains on Pueblo Lot No. 102, by Laying said pipe, beginning at the end of the cast iron pipe line at the "Homestead Lands", and running towards the City Reservoir as far as the same will reach, where the pipe line is in bad condition and can be repaired in that way.

Respectfully,

Geo. H. Crippen.

On the day and hour fixed for the sale, all the property delinquent, upon which the taxes of all kinds, penalties, and costs have not been paid, shall, by operation of law and the declaration of the Tax Collector, be sold to the City of San Diego, and said Tax Collector shall make an entry "sold to the City" on the delinquent assessment list opposite the tax (and a duplicate certificate of sale shall be delivered to the City Auditor and filed by him in his office, and a like certificate shall be filed in the office of the City Clerk), and said Tax Collector shall be credited with the amount thereof in his settlement with the Auditor; provided, that on the day of sale the owner or person in possession of any property offered for sale for taxes due thereon, may pay the taxes, penalties, and costs due.

The Tax Collector must make out in duplicate a certificate of delinquent tax sale for each piece or tract of land sold, dated on the day of sale, stating (when known) the name of the person assessed, a description of the land sold, that it was sold for delinquent taxes to the City, and giving the amount and year of the assessment, and specifying when the City will be entitled to a deed. A redemption of the property sold may be made by the owner or any person in interest within five years from the date of the sale to the City, or at any time prior to the entry or sale of said land by the City, in the manner provided by law for the redemption of property sold to the State for State and County Taxes, at the time such redemption is made; provided, that the estimate for such redemption must be made by the City Auditor instead of the County Auditor, and the receipt for money paid for such redemption must be given by the City Treasurer, instead of the County Treasurer, and upon the production of such receipt and estimate, the City Clerk shall write upon the proper certificate as filed in his office the word "Redeemed", giving the date, and by whom redeemed. The Auditor's fee for such estimate shall be two dollars paid in advance, but the City Clerk shall receive no fee for marking the certificate redeemed. The Auditor's fee, as herein provided, as well as the amount to redeem, shall be paid to the Treasurer by the person redeeming, and such fee shall be apportioned to the salary fund of the City. If the property is not redeemed within five years from the date of the sale thereof to the City, the Tax Collector of said City, or his successor in office, must make to the City a deed to the property, reciting in the deed substantially the matters contained in the certificate, and that no person has redeemed the property during the time allowed for its redemption.

That Sections 19, 20, 21, 22, 23, 24, 25, 26, and 27 of Chapter 1 of Article 6 of said Charter be and the same are hereby repealed.

This amendment herein proposed shall be, and shall be known and designated as Amendment Number 18 to the Charter of the said City of San Diego, California, and, if ratified by the electors voting at said election, shall be in force and take effect immediately after its approval by the Legislature of the State of California.

That Chapter 1 of Article VI of the Charter of the City of San Diego, California, be amended by adding thereto a new section to be numbered Section 32, which shall read as follows

SECTION 32. Whenever it shall be provided by an Act of the Legislature of the State of California, that any of the duties now performed, or hereafter to be performed by the Assessor of the City of San Diego, may be performed by the Assessor of the County of San Diego, and that the duties now performed, or hereafter to be performed, by the Tax Collector of said City, may be performed by the Tax Collector of said County, or the duties to be performed, or hereafter to be performed, by any other officer of said City, may be performed by any officer

of said County, the City of San Diego, through its Common Council, may avail itself of the provisions of said Act by the adoption of an ordinance, ratified by a vote of the qualified electors of said City, as hereinafter provided, and provide that the duties of such officer or officers of said City, or any of such duties as are permitted by such general Act of the Legislature to be performed by such County office or officers, may be performed by such County officer or officers of the said County of San Diego, at the times and in the manner and to the extent as provided in such general Act of the Legislature.

In case such ordinance shall provide that all the duties of the Assessor of said City shall be devolved upon the Assessor of the said County of San Diego, or in case such ordinance shall provide that only part of the duties of the said Assessor of said City, shall be devolved upon the Assessor of said County of San Diego, and the remaining duties of the said City Assessor shall be performed by such officer of said City as may be designated for that purpose by such ordinance, then upon the taking effect of such ordinance such officer of the Assessor of said City shall cease to exist, and is hereby declared to be abolished.

In case such ordinance shall provide that all the duties of the said Tax Collector of said City shall be devolved upon the Tax Collector of the said County of San Diego, or if by such ordinance only part of the duties of the said Tax Collector of said City shall be devolved upon the Tax Collector of said County of San Diego, and the remaining duties of the said Tax Collector of said City shall be performed by such office of said City as may be designated for that purpose by such ordinance, then upon the taking effect of such ordinance such office of Tax Collector of said City shall cease to exist, and is hereby declared to be abolished.

As to all duties so devolved upon any officer of said County, he shall be ex-officio an officer of the City of San Diego.

The Common Council shall have power to provide, by such ordinance, a system for the assessment, levy, and collection of all taxes of said City, not inconsistent with the provisions of this section, which system shall conform, as nearly as the circumstances of the case may permit, to the provisions of the said General Act of the Legislature and the laws of the State of California in reference to the assessment, levy, and collection of State and County taxes, to the end that the duties of the Assessor of said City may be performed by the Assessor of said County, and the duties of the Tax Collector of said City, as to the taxes thereafter to be collected, may be performed by the Tax Collector of said County. No such ordinance shall take effect until it shall have been submitted for ratification to the electors of said City at a general municipal election, and ratified by a majority of all votes cast on the question of such ratification.

In the event that said City shall so elect to avail itself of the provisions of such General Act of the Legislature, the Auditor of said City shall, on or before the first Monday in August in each year, prepare and transmit to the said Common Council, accompanied with the estimates and reports of each department, which he shall require to be delivered to him from the heads of each department on or before the 20th day of July in each year, an estimate of the probable necessities of the City for the current fiscal year, as provided in Section 1. Chapter 1, Article VI, of this Charter; and the Common Council shall, on or before the second Monday in September of each year, by ordinance, fix the rate of taxes to be levied and levy the taxes upon all taxable property, both real and personal, in the City necessary to raise

sufficient revenue to carry on the different departments of the municipal government for the current fiscal year; provided, that the rate of taxes so levied shall not exceed in any year one hundred and ten cents on each one hundred dollars upon the assessment roll, except for the payment of the principal and interest of the bonded debt of the City, and also excepting any special tax voted by the people, the tax for maintenance and improvement of Public Parks or for school purposes; and for taxation, assessment, and all other purposes the fiscal year of said City shall begin on the first day of July, and the property subject to taxation as aforesaid shall be assessed at its full cash value, which, in the judgment of the Assessor, it had at twelve o'clock noon on the first Monday of March, and the lien of the annual City tax levy shall attach at that hour.

In the event said Common Council shall so elect to avail itself of the provisions of said General Act of the Legislature, and said fiscal year shall be changed, the said Common Council shall have power to provide by taxation for sufficient revenue to carry on the different departments of the municipal government of said City for the period of time from the end of the fiscal year, as it stood before such change was made, to the beginning of the new fiscal year by including the same in the next annual tax levy.

This amendment herein proposed shall be, and shall be known and designated as Amendment Number 19 to the Charter of the said City of San Diego, California, and, if ratified by the electors voting at said election, shall be in force and take effect immediately after its approval by the Legislature of the State of California.

That Chapter 2 of Article VI of the Charter of the City of San Diego, California, be amended by adding thereto a new section to be known as Section 15, which shall read as follows;

SECTION 15. Whenever it shall be determined by the legislative body of said City that the public interest of said City demands the acquisition, construction, or completion of any municipal improvement, including bridges, water works, water rights, sewers, light or power works or plants, buildings for municipal use, fire apparatus, and street work, or other works, property, or structures necessary or convenient to carry out the purposes, objects, and powers of the City, the cost of which will be too great to be paid out of the revenues of the City, to be levied during the fiscal year or years during which said improvement is proposed to be made, a special tax no to exceed the sum of twenty cents on each one hundred dollars may be levied on the property assessed for the purpose of taxation within said City, which said rate of taxation may be in addition to the annual rate of taxation allowed by law to be levied thereon. Before said tax shall be levied by the said legislative body of said City, the question of the levy of such tax shall be submitted to the voters of said City at any general or special municipal election, or at a special election held for that purpose, and if two-thirds of the votes cast for the proposition of levying such tax shall be in favor of the levy thereof, then the levy shall be made, otherwise the taxes shall not be levied. Upon the ballots used at such election the proposition to be voted shall be stated in appropriate words, and the same arranged so that the voter may indicate his choice upon the proposition. If a special election is held, the same shall be held as are other elections within the City. At least two weeks before such election is held, the said legislative body of said City shall adopt an ordinance calling and providing for the same, wherein it shall be stated;

FIRST-- The nature of the proposed improvement for the cost of which the special tax

shall be levied.

SECOND -- The total amount of money to be raised for such improvement.

THIRD -- The rate of taxation to be levied.

At the time fixed by law for the levying of taxes within said City, the legislative body thereof shall include the special tax herein provided for, which shall be the rate specified in the ordinance calling said election. Nor shall it be levied for a longer period of years than shall be sufficient to raise the amount of money specified in said ordinance. The proceeds for such special tax shall be set apart in a special fund, and shall only be expended for the purpose of making the improvements stated in said ordinance; provided, any balance left, after such improvement shall have been fully completed and paid for, shall be transferred to the general fund of said City.

This amendment herein proposed shall be, and shall be known and designated as Amendment Number 20 to the Charter of the said City of San Diego, California, and, if ratified by the electors voting at said election, shall be in force and take effect immediately after its approval by the Legislature of the State of California.

That Section 2 of Chapter 2 of Article 6 of the Charter of the City of San Diego, California, be amended so as to read as follows;

SECTION 2. All demands, bills, and claims which may arise against the City, including the payroll of all employees of the City, whether under regular monthly salary or not, (except salaries of City officers fixed by this Charter), shall be duly verified as hereinafter provided, and be filed with the Secretary of the Auditing Committee, who shall file and number the same in the order of presentation, and refer the same to the Auditing Committee, for action, whose duty it shall be to allow or reject the same, in whole or in part, and if allowed, designate the particular fund from which they are to be paid, and endorse upon the back of each bill the date of its allowance or rejection, the amount allowed for, and also the section of the Charter, number of ordinance, number of contract, resolution, or order under which the said bill or demand was authorized or contracted for. These endorsements to be verified by the signature of the Chairman and Secretary of the Committee. No demand upon the Treasury shall be allowed by the Auditing Committee in favor of any officer or other person, or any of their assigns, who is in any manner indebted to the City, without first deducting therefrom the amount of such indebtedness, or in favor of any officer or other person, or his assigns, having the collection, care, custody, or control of public funds, unless the accounts of such officer or other person have been passed, approved, and allowed as is or may be required by law; nor in favor of any officer or other person, or his assigns, who has neglected to make any oath required by law, ordinance, or other regulation of the Common Council; nor in favor of any officer, or his assigns, who has failed, to the knowledge of the Auditing Committee, to do any duty imposed upon him by law, or ordinance, or other regulation of the Common Council.

This amendment herein proposed shall be, and shall be known and designated as Amendment Number 21 to the Charter of the said City of San Diego, California, and, if ratified by the electors voting at said election, shall be in force and take effect immediately after its approval by the Legislature of the State of California.

The Common Council of said City shall make an annual tax levy sufficient to raise at least Six Thousand Dollars for the purpose of supporting and maintaining said public library. In all other particulars said library and reading room shall be governed and controlled by the provisions of the Act of the Legislature of the State of California, entitled, "AN Act to establish free public libraries and reading rooms", approved April 28th, 1880; and the powers and duties of said Board of Trustees shall be as in said Act prescribed.

This amendment herein proposed shall be, and shall be known and designated as Amendment Number 23 to the Charter of the said City of San Diego, California, and, if ratified by the electors voting at said election, shall be in force and take effect immediately after its approval by the Legislature of the State of California.

This amendment herein propose shall be, and shall be known and designated as Amendment Number 25 to the Charter of the said City of San Diego, California, and, if ratified by the electors voting at said election, shall be in force and take effect immediately after its approval by the Legislature of the State of California.

That Article 1 of the Charter of the City of San Diego, California, be amended by adding thereto a new Chapter to be known as Chapter IV., which shall read as follows;

CHAPTER IV.

SECTION 1. The Common Council shall have power to submit to the electors of said City at any election any question required to be so submitted by the constitution, the law, this Charter, or by ordinance; provided, that in case such question is required by said constitution, law, Charter, or ordinance at a special or other particular kind of election, it shall be so submitted, and not otherwise.

SECTION 2. Any proposed ordinance may be submitted to the Common Council by a petition signed by registered electors of the City equal in number to the percentages herein-after required. The signatures to the petition need not all be appended to one paper, but each signer shall add to his signature his place of residence, giving his street and number. One of the signers of each such paper shall make oath before an office competent to administer oaths, that the statements therein made are true, and that each signature to the paper appended is the genuine signature of the person whose name purports to be thereunto subscribed. Within ten days from the date of filing such petition the City Clerk shall examine and from the great register ascertain whether or not said petition is signed by the requisite number of qualified electors, and if necessary the Common Council shall allow him extra help for that purpose, and he shall attach to said petition his certificate shewing the result of said examination. If, by the Clerk's certificate, the petition is shown to be insufficient, it may be amended within ten days from the date of said certificate. The Clerk shall, within ten days after such amendment, make like examination of the amended petition, and if his certificate shall show the same to be insufficient, it shall be returned to the person filing

the same without prejudice, however, to the filing of a new petition to the same effect.

If the petition shall be found to be sufficient, the Clerk shall submit the same to the Common Council without delay. If the petition accompanying the proposed ordinance be signed by electors equal in number to fifteen per cent. of the entire vote cast for all candidates for Mayor at the last preceding general election at which a Mayor was elected, and contains a request that said ordinance be submitted forthwith to a vote of the people at a special election, then the Common Council shall either;

(a) Pass said ordinance without alteration within twenty days after the attachment of the Clerk's certificate of sufficiency to the accompanying petition (subject to a referendary vote under the provisions of section 2 of this Chapter); and if the ordinance shall be passed by the Common Council, but shall be vetoed by the Mayor, and on reconsideration shall fail of passage by the Common Council, then, within five days after determination that said ordinance shall have so failed of final adoption, the Common Council shall proceed to call a special election at which said ordinance, without alteration, shall be submitted to a vote of the people; or,

(b) Forthwith after the Clerk shall attach to the petition accompanying such ordinance his certificate of sufficiency, the Common Council shall proceed to call a special election at which said ordinance, without alteration, shall be submitted to a vote of the people. If the petition be signed by electors equal in number to at least five per cent. but less than fifteen per cent. of the entire vote cast for all candidates for Mayor at the last preceding general election at which a Mayor was elected, then such ordinance, without alteration shall be submitted by the Common Council to a vote of the people at the next general municipal election that shall occur at any time after thirty days from the date of the Clerk's certificate of sufficiency attached to the petition accompanying such ordinance.

The ballots used when voting upon said proposed ordinance shall contain the words, "For the ordinance", (stating the nature of the proposed ordinance) and, "Against the ordinance ", (stating general nature of the proposed ordinance). If a majority of the qualified electors voting on said proposed ordinance shall vote in favor thereof, such ordinance shall thereupon become valid and binding ordinance of the City; and any ordinance proposed by petition, or which shall be adopted by a vote of the people can not be repealed or amended except by a vote of the people.

Any number of proposed ordinances may be voted upon at the same election , in accordance with the provisions of this section; provided, that there shall not be held under this section of the Charter, more than one special election in any period of six months.

The Common Council may submit a proposition for for the repeal of any such ordinance, or for amendments thereto, to be voted upon at any succeeding general city election; and should such proposition, so submitted, receive a majority of the votes cast thereon at such election, such ordinance shall be repealed or amended accordingly. Whenever any ordinance or proposition is required by this Charter to be submitted to the voters of the City at any election, the City Clerk shall cause the ordinance or proposition to be printed, and he shall enclose a printed copy thereof in an envelope with a sample ballot, and mail the same to each voter, at least ten days prior to the election, but the Common Council may order such ordinance or proposition to be printed in the official newspaper of the City and published in like

manner as ordinances adopted by the Common Council are required to be published, and may order that such publication shall take the place of the printing and mailing of the ordinance or proposition, and of the sample ballot as first above provided.

SECTION 3. No ordinance passed by the Common Council (except when otherwise required by the general laws of the State, or by the provisions of this Charter, respecting street improvements, and except an ordinance for the immediate preservation of the public peace, health, or safety, which contains a statement of its urgency, and is passed by a two-thirds vote of the Common Council, but no grant of any franchise, shall be construed to be an urgency measure, but all franchises shall be subject to the referendary vote herein provided), shall go into effect before thirty days from the time of its final passage and its approval by the Mayor; and if during said thirty days a petition signed by electors of the City equal in number to at least seven per cent. of the entire vote cast for all candidates for Mayor at the last preceding general election at which a Mayor was elected, protesting against the passage of such ordinance, be presented to the Common Council, the same shall thereupon be suspended from going into operation, and it shall be the duty of the Common Council to reconsider such ordinance, and if the same is not entirely repealed, the Common Council shall submit the ordinance as is provided in Section 2 of this Chapter, to the vote of the electors of the City, either at the next general election or at a special municipal election to be called for that purpose, and such ordinance shall not go into effect or become operative unless a majority of the qualified electors voting on the same shall vote in favor thereof.

Said petition shall be in all respects in accordance with the provisions of said Section 2 , except as to the percentage of signers, and be examined and certified by the Clerk in all respects as is therein provided.

SECTION 4. The holder of any elective office may be removed at any time by the electors qualified to vote for a successor of such incumbent. The procedure to effect the removal of an incumbent of an elective office shall be as follows; A petition signed by electors entitled to vote for a successor to the incumbent sought to be removed, equal in number to at least twenty-five percentum of the entire vote cast for all candidates for the office, the incumbent of which is sought to be removed, cast at the last preceding general municipal election, demanding an election of a successor of the person sought to be removed, shall be filed with the City Clerk; provided, that the petition sent to the Common Council shall contain a general statement of the grounds for which the removal is sought. The signatures to the petition need not all be appended to one paper, but each signer shall add to his signature his place of residence, giving the street and number. One of the signers of each such paper shall make oath before an officer competent to administer oaths, that the statements therein made are true, and that each signature to the paper appended is the genuine signature of the person whose name purports to be thereunto subscribed. Within ten days from the date of filing such petition the City Clerk shall examine and from the great register ascertain whether or not said petition is signed by the requisite number of qualified electors, and if necessary, the Common Council shall allow him extra help for that purpose, and he shall attach to said petition his certificate showing the result of said examination. If by the Clerk's certificate the petition is shown to be insufficient, it may be amended within ten days from the date of said certificate. The Clerk shall within ten days after such amendment, make like examination of the amended petition, and if his certificate shall show the

same to be insufficient, it shall be returned to the person filing the same without prejudice, however, to the filing of a new petition to the same effect. If the petition shall be found to be sufficient the Clerk shall submit the same to the Common Council without delay. If the petition shall be found to be sufficient, the Common Council shall order, and fix a date for holding the said election, not less than thirty days nor more than forty days from the date of the Clerk's certificate to the Common Council that a sufficient petition is filed.

The Common Council shall make or cause to be made publication of notice, and all arrangements for holding of such election, and the same shall be conducted, returned, and the result thereof declared in all respects as are other city elections. The successor of any officer so removed shall hold office during the unexpired term of his predecessor. Any person sought to be removed may be a candidate to succeed himself, and, unless he requests otherwise, in writing, the Clerk shall place his name on the official ballot without nomination. In any such removal election, the candidate receiving the highest number of votes shall be declared elected. At such election if some other person than the incumbent receives the highest number of votes, the incumbent shall thereupon be deemed removed from the office upon qualification of his successor. In case the party who receives the highest number of votes should fail to qualify within ten days after receiving notification of election, the office shall be deemed vacant. If the incumbent receives the highest number of votes he shall continue in office. That all portions of the said Charter in conflict with the foregoing provisions be, and the same are hereby repealed.

This amendment herein proposed shall be, and shall be known and designated as Amendment Number 26 to the Charter of the said City of San Diego, California, and, if ratified by the electors voting at said election, shall be in force and take effect immediately after its approval by the Legislature of the State of California.

That Section 1 of Chapter V of Article III of the Charter of the City of San Diego, California, be amended so as to read as follows;

Said Ordinance as adopted is as follows, viz;

O R D I N A N C E No. 1818.

An Ordinance amending Section 13 of Ordinance No. 1127 of the ordinances of the City of San Diego, California, approved on the 3rd day of June, 1902.

BE IT ORDAINED, By the Common Council of the City of San Diego as follows;

SECTION 1. That Section 13 of Ordinance No. 1127 of the ordinances of the City of San Diego, California, approved on the 3rd day of June, 1902, entitled, "AN Ordinance prescribing regulations in making connections with the public sewers, and for plumbing in the City of San Diego, California", be and the same is hereby amended to read as follows;

SECTION 13. That every waste pipe shall be of cast iron or lead. All lead pipe connections must be made with a wiped joint. No solder or bolt joint will be allowed. Safe wastes may be of wrought iron. All cast or wrought iron pipes and fittings for waste, vent, or soil pipe must be coated both inside and outside with coal-tar pitch, applied hot, or some equivalent substance. All connections of lead with iron pipe must be made with a brass ferule of the same size as the lead pipe and caulked into the iron pipe, and connected with the lead pipe by a wiped joint. Reduced ferules are strictly prohibited. Every line of vent and soil pipe must extend full bore to an elevation equal to a point four inches below the highest point of the roof; as hereinafter provided, except in buildings having a flat roof and fire walls, in which case said vent and soil pipe shall extend two feet above the fire walls. In every building there must be at least one four inch cast iron pipe running from the sewer to an elevation equal to a point four inches below the highest point of the roof, where a water closet is located in said building (except buildings having a flat roof and fire walls), in which case the said four inch cast iron pipe shall run from the sewer to an elevation equal to a point two feet above the fire walls. In all new buildings (except buildings having a flat roof and fire walls, and buildings built of one thickness of one inch lumber) every line of vent and soil pipe must run to the roof and thence continue up under the roof, with the same degree of elevation as the roof, to a point twelve inches from the highest point of the roof, and thence run through the roof perpendicularly, and terminate at an elevation equal to a point four inches below the highest point of the roof.

If the roof is so flat that at least a sixth bend cannot be used, then the said vents are to run up under the roof as near the same degree of elevation as the roof as possible. In all buildings built of one thickness of one inch lumber, and in all old buildings (except buildings having a flat roof and fire walls), where new plumbing is put in, every vent and soil pipe must run perpendicularly from the sewer or fixture to an elevation equal to a point four inches below the highest point of the roof.

Where there is only one water closet on a four inch stack, the stack will vent said closet. If there is more than one closet on a stack, each and every closet shall be vented with a two inch vent. In no case shall a fixture be located more than two feet from its vent. In case an adjoining building, within fifty feet of said pipe, extends one or more stories higher than the building in which said soil or vent pipes are located, then the said pipes must be carried three feet above all openings or gutters of the highest building and securely fastened, so as to prevent them from falling, by proper guys and support. One inch and a half vents shall be galvanized iron. All other vents shall be of cast iron. The pipes must be enclosed within buildings. All connections with traps must be made to main, waste, and vent pipes by means of lead caulked joints. Tap tees are prohibited. No other tap shall be used except the one called for in this ordinance. All soil, waste, vent, or drain pipes inside or out-side of the building, from the property line, before being covered up, must have all openings stopped up and filled with water.

This test must be made in the presence of the Plumbing Inspector. In all cases where the Plumbing Inspector is not satisfied with the water test, he may use the smoke or peppermint test. All house drains shall, after being laid, be allowed to remain uncovered until inspected by the Plumbing Inspector. Notice must be given the Plumbing Inspector when the work is sufficiently advanced for inspection, and every facility must be given the Plumbing Inspector to make a thorough inspection, that is, if any pipes are enclosed or covered up with flooring, siding, lath, or dirt, or other material, or in any way so covered up that it will tend to obstruct a thorough inspection of the plumbing, the said obstruction will have to be removed by the plumber doing the work before the Plumbing Inspector inspects the work.

When pipes have been tested in sections, there shall be another test made when connections are ready to be made with the main sewer. Immediately upon the completion of the work, notice must be given the Plumbing Inspector for his final inspection. The following report of the Water Committee in the matter of laying a four inch water pipe in La Jolla Park is read, and on motion adopted viz;

San Diego, Cal., Dec, 1st, 1904.

To the Common Council.

City,

Gentlemen:-

The Joint Water Committee to whom was referred a Joint Resolution directing the Board of Public Works to lay any surplus four inch water pipe remaining from the construction of the La Jolla pipe line in Connecticut street in La Jolla Park, herewith recommends that said surplus pipe be laid in Prospect Street.

The Committee also suggests that when the pipe line provided for in the Bond Issue, shall be laid between Pacific Beach and La Jolla, that said pipe line from the intersection of Grand, Ravena, and Warren streets be laid up Warren street to Exchange Place, or as far as the pipe will reach, instead of on Grand street to Prospect street.

This will leave but a short distance between the ends of the two pipe lines which can later be filled in, thus making a complete circulating four inch pipe line from which La Jolla can be well supplied with water.

The Committee also recommends that the Board of Public Works purchase from Christian Froelich, two sections of four inch water pipe.

The Committee presents herewith a Joint Resolution providing for laying the surplus pipe remaining from the construction of the La Jolla pipe line, in Prospect street instead of in Connecticut street, and recommends that the same be adopted.

San Diego, California, Dec, 8th-04.

To the Honorable

The City Council of the City of

San Diego, Calif..

Gentlemen:-

Your Special Water Committee, appointed to investigate the condition of what is known as the 500 foot well, to be put down on the Tract known as the Sefton Tract, after investigation, beg to report; that we were informed by Mr. Ryneerson, that the well was down to the depth of 31 feet; that water was found at the 19 foot level. No work has been done.

We were informed however, that as soon as the tank that is to hold the water used in the boiler has been put in shape, that work would be resumed.

We also investigated the condition of Pumping Plants No. 7-6-5-and 3, all of which are in good working order; we also found after careful measurements, that the water levels ranged from about 24 feet at No. 3, to about 30 feet at No. 7. We also found that each Plant was pumping all the water furnished by the sands about it. Your Special Water Committee would further recommend, that no time be lost, but that further water developments be made at the earliest possible moment.

Said Ordinance as adopted is as follows, viz;

O R D I N A N C E No. 1838 .-

An Ordinance prescribing regulations for the construction of sidewalks over excavations by private contract in the City of San Diego, California.

BE IT ORDAINED, By the Common Council of the City of San Diego, as follows;

SECTION 1. That it shall be and is hereby declared to be unlawful for any person to construct any sidewalk over an excavation, or to make an excavation in or under a sidewalk for a basement or cellar, by private contract, upon any street or highway in the City of San Diego, California, without first obtaining permission so to do from the Board of Public Works of said City. Any person desiring to construct a sidewalk over an excavation, or to make an excavation in or under a sidewalk for a basement or cellar, in said City, shall make application in writing to the said Board of Public Works for permission so to do; said application shall state the place where said sidewalk is to be constructed, or excavation made, and the number of lineal feet of sidewalk to be constructed, and the size of the excavation to be made. Said applicant shall deposit with the said Board of Public Works the sum of twenty dollars, for each twenty-five feet of the frontage, or fraction thereof, of the premises in front of which the excavation for a cellar or vault is to be made and the sidewalk constructed over said excavation, as a guaranty and security for the proper restoration of any portion of the roadway in front of such excavation which may be disturbed or injured by reason of the excavation for such cellar or vault, and the construction of the sidewalk over the same, and that said sidewalk shall be constructed to the official grade of the street and according to the specifications therefor prescribed by the ordinances of the said City of San Diego; and also for the removal, within fifteen days after such sidewalk or excavation shall have been so constructed, of all debris and surplus material from said street where such excavation has been made and said sidewalk constructed. Upon such application being made and said sum being so deposited with the said Board of Public Works, the said Board of Public Works, shall issue a permit to the applicant for the construction of the work described in the application, and shall immediately notify the City Engineer of said City of the issuance of such permit, and that thereafter the said City Engineer shall set the grade stakes for the construction of said work, which stakes shall be to the official grade of said street, and thereafter said work shall be constructed according to the said grade stakes and according to the official grade of said street and according to the regulations prescribed for doing said work by the ordinances of said City, in force at the time such work is done, and not otherwise.

In the event any person making such deposit and to whom such permission has been granted shall fail for a period of fifteen days after the completion of said work, to remove said debris and surplus material from said street or to properly restore or repair any portion of the roadway damaged or injured in doing said work, the said Board of Public Works shall cause said debris and surplus material to be removed from said street, or said roadway to be restored or repaired, as the case may be, and deduct the expense thereof from the said sum so deposited.

After said work shall have been so constructed, the said City Engineer shall survey the same for the purpose of ascertaining whether said work has been constructed to the official grade of said street, and according to the stakes set therefor. If the said City Engineer shall find that said work has been constructed according to the official grade of said street, he shall issue to the person for whom the work has been constructed a certificate in writing

certifying that fact, but he shall not issue any certificate if he finds that said work has not been constructed to the official grade of said street. When the said City Engineer issues said certificate, the said Board of Public Works shall thereafter return said deposit; provided, that said surplus materials and debris have been removed from said street and the roadway properly restored and repaired.

If the said City Engineer shall find that the said work has not been constructed to the official grade of said street, he shall immediately notify the said Board of Public Works of that fact, and said deposit shall not be returned until said work has been constructed to the official grade of said street; provided, however, that no permit shall be issued by said Board of Public Works for the construction of bituminous rock or asphalt or wooden sidewalks or wooden curbs; nor shall a permit be issued by said Board of Public Works for the construction of a concrete or other sidewalk or curb after a resolution of intention has been passed by the Common Council of said City to sidewalk and curb that portion of the street upon which the applicant desires to construct said sidewalk or curb, without special permission having been first had and obtained from the Common Council of said City.

The regular fees shall be charged for making such survey and setting such stakes, as prescribed by the ordinances of this City, except that no extra fee will be charged for checking up work after the completion thereof. This ordinance shall not apply to work done under a contract by the Superintendent of Streets, under the General Street Law of the State of California, where an assessment is to be levied therefor.

SECTION 2. That it shall be, and is hereby, declared to be unlawful for any person constructing any sidewalk or curb under any permit issued by the Board of Public Works of said City, as herein provided, to fail or refuse for a period of fifteen days after the completion of said work, to remove from said street upon which said work has been constructed, all debris and surplus material, or to lay or construct any sidewalk or curb other than to the official grade of the said street, or not according to the specifications therefor prescribed by the ordinances of the said City of San Diego. This ordinance shall not be construed as affecting the provisions of ordinance numbered fourteen hundred and fifty-six of the ordinances of the said City, approved on the 15th day of December, 1903, except as to the construction of sidewalks over excavations.

SECTION 3. That any person violating any of the provisions of Section 1 of this ordinance, shall be guilty of a misdemeanor, and, upon conviction thereof, shall be punished by a fine not exceeding the sum of two hundred dollars, or by imprisonment in the City Jail of said City, for a period not exceeding one hundred days, or by both such fine and imprisonment, and in the event that the fine so imposed is not paid, by imprisonment in the City Jail of said City, at the rate of one day for every two dollars of the fine so imposed.

SECTION 4. That this ordinance shall take effect and be in force from and after its passage and approval.

The following report of the Finance Committee in the matter of the pay roll of the Water Department, is presented and on motion of Delegate Williamson adopted, viz:

San Diego, Calif., Jan. 19th, 1905.

To the Common Council,

City.

Gentlemen:-

The Finance Committee to who was referred a communication from the Board of Public Works, transmitting pay roll of the employees of the Water Department at the auxiliary plants, for the month of December, 1904, for \$386.50, herewith recommends that said pay roll be allowed and ordered paid.

The reason why the pay roll for the Water Department is in excess of the amount appropriated for the month of December is that the lowering of the "B" street water main between 27th and 29th streets made it necessary to employ a large force of extra men. The application of the Board of Public Works for authority to employ these men was granted by the Council, December 5th, 1904, but an ordinance to carry this recommendation into effect was not presented at that time. The work of lowering the main on "B" street had to be done and is responsible for the excess over the appropriation for labor for the Water Department.

We recommend the adoption of the ordinance presented herewith.

Respectfully submitted,

M.J. Perrin,
George H. Crippen,
S.T. Johnson,
E.H. Wright,
C.L. Good,
