Special Session

Delegates of the City of San Diego,
California. June 6th. 1894.

In response to the following call of the
Mayor, to-wit:

Mayor's Office

San Diego, Cal. June 6th. 1894.

To the Honorable The Common Council of the
City of San Diego.

Gentlemen:-

You have been called to meet in Special Session at 8 O'clock tonight, to consider the report that is current that the Treasury Department contemplates the abolition of San Diego as a port of entry, and to take such actions as your honorable body may deem best to protect the commercial advantages possessed by this port.

This morning I sent the accompanying telegram to Hon. John G. Carlisle, Secretary of the Treasury, relative to the said matter, and I hope to receive an answer in time to lay it before your honorable body tonight.

Respectfully

Wm. H. Carlson

Mayor of the City of San Diego.

A Special Session of the Common Council was held this day at 8 O'clock P.M. President Nutt of the Board of Aldermen presiding.

Mayor's Office.

San Diego, Calif. June 6th. 1894.

Hon. John G. Carlisle.

Secretary of the Treasury.

Washington D. C.

The City of San Diego views with alarm the report that your Department contemplates the abolition of San Diego as a Port of Entry. As with our present commerce and prospective continued increase, any curtailment of the advantages of this Port, will work a great and irreparable injury to this City and section.

San Diego is the Pacific terminus of the Atchison, Topeka and Santa Fe Railroad and will soon be the terminus for two other overland lines—the San Diego, Guaymas & Eastern to Salt Lake City, and the San Diego & Phoenix Railroad which in connection with the Southern Pacific from Yuma, will give San Diego the shortest & most direct overland route from the Pacific to the Gulf at Galveston. This port also has immense wharves, the largest and most complete Coal Bunkers of any on the Pacific Coast, owned by the Speckels Commercial Co. who do a large and constantly increasing business in coal from Australia and British Columbia, which is distributed all over Southern California. From this Port, San Diego also enjoys the distinction of having more vessels on the way from foreign ports than any other port on the Pacific Coast, outside of San Francisco.

The City Council of San Diego will much thank to hear your answer and anxiously trust that you will reply that there is no danger of San Diego losing its rank as a Port of Entry. Kindly telegraph at once.

William H. Carlson
Mayor of the City of San Diego.

A message from the Mayor transmitting a telegram from C. S. Hamlin Esq. Secy of the Treasury Department in answer to the telegram of the Mayor of San Diego, relative to the abolition

of San Diego as a Port of Entry was read and filed. Said telegram is as follows:

Washington D. C.

June 6th. 1894.

William H. Carlsson.

"Mayor San Diego. Cal.

Replying to your telegram this date. This department not advised of proposition to abolish Port of San Diego."

C. S. Hardin

Asst. Sec'y.

A communication from the Chamber of Commerce stating that no answer had been received from Hon. W. W. Bowers in reply to message sent him relative to the abolition of San Diego as a Port of Entry was read and Mr. Motion of Delegate Barker received and ordered filed.

The following Resolution relative to the abolition of San Diego as a Port of Entry and protesting against the same was read and on motion of Alderman Levi adopted, and the City Clerk instructed to forward Congressman Bowers a copy of the same viz:

Resolution in

Whereas, there is now pending in the House of Representatives of the United States a bill providing for the consolidation of various ports of entry on both the Atlantic and Pacific Coasts, & Whereas, said bill provides for the consolidation of the Ports of San Diego and Los Angeles with the Port of San Francisco, and

Whereas, San Diego is the only important seaport on the Californian coast outside of San Francisco, and the second in importance on the entire Pacific coast in volume of foreign commerce, now therefore

Be it Resolved by the Common Council of the City of San Diego, California,

That it is the sense of this Council that our representative in Congress, the Hon. W. W. Bowers be, and he is hereby reg-

quested to use his best endeavors to defeat the passage of said bill or any other bill of a like nature.

Whereupon the Board adjourned.

The following resolution relative to the railroad strike now in effect, and, herebefore adopted by the Board of Aldermen was read and on motion of Delegate Dunkin adopted, viz:

Whereas the Country at large has been suffering for the past two weeks from the embargo placed upon industrial operations by the great strike on the railroads, And

Whereas the railroads of a country are a necessary public utility and as such should give the people constant and satisfactory service. And

Whereas in many cases, as in our own Pacific roads in the gift of franchises the public acquires a direct interest, rendering this service an obligation. And

Whereas the stoppage of transportation, at this time, in addition to the inconvenience to the general public, works a particular hardship to the fruit growers of this state, entailing a great financial loss. And

Whereas it would seem that had the managers of these roads the interests of the public at heart this great interruption might have been avoided by conceding a practically unimportant point to the employees. Therefore be it

Resolved That the diffinition of what constitute a mail train made by some of the officials of the general government is regretfully be it said, a manifest straining of effort in favor of the railway corporations and wholly unwarranted by the facts in the

case. And

Resolved That the obligations of the railroads to the public should be of first importance, and over-ride any contract with a private corporation, and therefore we demand that there be an immediate resumption of traffic operations, in the interest of the public welfare.

Resolution No. 489

Where as the public interest and necessities demand that the common Council, as early as practicable, provide the city and its inhabitants with water for city and domestic purposes; and

Whereas the City cannot even commence the construction of its own water works or water supply until after it has made plans and estimates, voted and sold its bonds to pay the cost of the same, and, Whereas, any bonds voted by the city for the purpose of acquiring its own water supply by condemnation proceedings or otherwise, are liable to be enjoined by some of the parties holding conflicting interests in the different water schemes offered the city; and,

Whereas, the commencement of an action to enjoin the issuance of any bonds voted by the city would result in preventing the sale of such bonds until the litigation was over, which would be at least two years, and thus absolutely prohibit the city from prosecuting the work during the period of at least two years, and

Whereas, if the city were to purchase one thousand inches of water in accordance with the plans outlined by Alderman Whitney in his minority report made to the Council August 13th 1894, the work of developing water and bringing it to the city, could and would be prosecuted during the years of litigation over the City's bonds; and

Whereas it makes no difference to the city or its inhabitants whether the water needed for their use is brought to the city in its conduits or the conduits owned by others, as it is the water that the city needs and not the conduits, now therefore,

Tecate Land & Water Co. or any other Company which may be organized representing the combined interests stated in the propositions of said Company made to the City August 1st 1894, and get the best proposition from said Company or any company based upon the plan embodied in the report made by Alderman Whitney, and to report said proposition to the next meeting of the Council For President L. Mt Peccarte Lands & Water Co.	456 inches
Pamo or Linda Vista	350 "
San Diego Alum Co.	200 "
Pine Valley Co.	200 "

That, if possible and advisable, first mortgages should be taken from the various companies,

to secure the delivery of the water, and in case this be not possible or advisable, then the City must insist on such arrangement of bonds and other indebtedness as will give it first lien on the property of the Contracting Companies; that in case any Company refuses to sell the amount of water apportioned to it then it may become the policy of the City to distribute the number of inches allotted to said Company among the other Companies to the mutual advantage of the City and said Companies; that it is also the policy of the City to proceed at the same time to procure a distributing system more than ample for present needs, and planned so far as built, with a view to future extensions which will supply the entire City with water: that the Joint Water Committee be, and it is hereby instructed to negotiate with the various water Companies along the lines of this resolution.

Said resolution as adapted is as follows:

Joint Resolution N^o

Whereas the inhabitants of the City of San Diego have suffered greatly on account of a shortage in the water supply during the summer season of 1894 which said shortage was produced partly by the absence of the ordinary rainfall during the preceding winter, but chiefly by inherent deficiencies in the water system of the corporation having a franchise for supplying said City with water; ^{and}

Whereas it is almost if not the unanimous conviction of the citizens and other inhabitants of said City together with this Council, that the only means of averting similar inconveniences and suffering in the future, is for the municipality to acquire ownership in its water distributing system and also to secure either absolute ownership in the water supply, or a perpetual water right; ^{and}

Whereas this Council being urged on both by its own desires and the wishes of said inhabitants is considering many propositions to accomplish that end; ^{and}

Whereas the present water system in said City is totally inadequate to the needs of its people and there are reasonable fears that unless said City takes hold of the matter and does something during the coming winter and spring to secure an adequate water system, the calamities of the past summer may be repeated in the future, and the community be made thereby to suffer irreparable damage; ^{and}

Whereas the case wherein the San Diego Water Co. is plaintiff and appellant and the City of San

San Diego is defendant and respondent, involving the validity of the issuance of \$665,000. of the bonds of said City for the purpose of acquiring a water distributing system, is now pending in the Supreme Court of the State of California, and will not be heard in the regular course of practice in said Court until the April term thereof, 1895. And

Whereas this City cannot consummate any plans for securing municipal ownership of a water system until said case shall have been determined and cannot beforehand determine what amount of bonds it may legally issue. Now, therefore be it

Resolved, that we request and petition said Court on behalf of the public of San Diego to set case for hearing at once and to determine the same at the earliest possible time. And be it further

Resolved, that the Clerk of this City certify a copy of this resolution and forward the same to the Clerk of said Court for the Chief Justice thereof. And be it further

Resolved, that the City Attorney is hereby instructed to move said Court to set said case for hearing and to use every legal and proper means to accomplish the desired end.

Mayor's Office.

San Diego, Cal. Nov. 8th 1894.

To the Honorable the Board of Delegates of the City
of San Diego.

Gentlemen:

I herewith respectfully return to your honorable body without my approval Ordinance N^o — entitled "An Ordinance amending Section 2, of Ordinance N^o 744, entitled "An Ordinance imposing a municipal license

upon auctioneers in the City of San Diego, and providing a penalty for the violation of the same; approved January 17, 1894."

My objection thereto is that it is unjust discriminating and unequal, in that were it to become a law a person could open a jewelry store here in competition with all established and permanent firms by paying a license of only \$50. for six months, and yet by the provisions of said proposed Ordinance if one of our old established jewelry firms would want to hold a Christmas auction sale then the party would have to pay into the City Treasury the sum of \$2730⁰⁰ before he could sell at auction a nickel watch, for the said proposed Ordinance distinctly requires that to sell jewelry, watches and plated ware at auction, a person must pay \$15. per day, payable semi-annually in advance, which means that \$2730. would have to be paid into the City Treasury before he could sell off at auction a single dollar worth of his said goods. I had intended signing said proposed Ordinance understanding that license payments could be paid monthly but to enact that they must be paid semi-annually in advance I consider unjust, discriminating and unequal, and respectfully recommend that your Honorable Body amend same to read "monthly" instead of "semi-annually" in advance.

Respectfully

Wm. H. Carlson
Mayor of the City of San Diego.

Said Report as adopted is as follows.
To the Honorable the
Common Council:

We, a majority of the Water Committee to whom was referred the Resolution containing the proposition to the M. Peck Co. for the purchase of city water distributing system and a city water supply by leave to report as follows:

The said Resolution was referred to this Committee on the 10th day of December, 1894 and we have been almost continuously engaged in getting at bottom facts and figures for water and a system to distribute it.

Time and again this Committee has waited upon Mr. Sifton, the resident representative of the Consolidated Glue and Water Co., but they positively refuse to sell the city distributing system without a sale of at least 500 inches of water which they claim to be able to furnish the city another year.

The Glue and Water Co. has also offered its whole system, including supply and distributing system, subject to the Water rights already sold and including the income from such sales for the sum of \$1,800,000.00 - a price that fully justifies the undersigned in their final conclusions herein presented to you.

At the last meeting of this Committee it was unanimously concluded from the results obtained up to date that no proposition that the city could make would be accepted by the Consolidated Glue & Water Co. but that a fair and equitable amount should be offered said company for its distributing plant before any steps should be taken towards putting in a new system of distribution.

Although no resolution looking towards the purchase of the Pine Valley Water System, either by condemnation or otherwise, was properly before this Committee, nevertheless, in order that before the end of 1894 we might have something definite to report to you, this Committee has carefully considered the Pine Valley Resolution. But after many months of deliberation we have finally decided to recommend to you the adoption of the Mt. Picante Resolution referred to us, and herewith present some of the reasons why we believe the Mt. Picante proposition to be the best that has thus far been offered the city and should therefore be accepted and the said Resolution adopted as amended by us.

The Mt. Picante Water Company have an ample supply of pure Mountain water and sufficient storage capacity for the same and in all other respects we believe can comply with the conditions set out in the preamble of the said Resolution.

That under the terms of this Resolution the city secures for the sum of \$1,400,000.00 a city distributing system, being either the one now in use including all wells, pump & water rights etc valued by this Committee in its offer to its present owners at \$600,000.00 or an entirely new system with a capacity fifty per cent. greater than the present system and reasonably worth \$600,000.00.

The city also secures the unincumbered title to the upper Otay Reservoir, dam, and distributing system from thence into the city which our City Engineer assures us cannot be delivered at a cash to the Mt. Picante Company of less than \$1,100,000.00; this makes property that is actually turned over to this city and owned and controlled by it to the value of \$1,700,000.00 at a cash to the city of \$1,400,000.00 in five per cent. bonds. Besides this the city gets the preferred and exclusive right and title to the first 1000 inches of water perpetual and continued flow to be developed by said Company and delivered into the upper Otay Reservoir. Again the city also secures not only one years supply of water stored in the upper Otay Reservoir, but such a supply as will furnish to the city at least 1000 inches of water continued and perpetual flow for the period of one year enough for several years supply at the citys present rate of consumption.

And finally the city also obtains all the rights at any

points along the system to the use of all the power generated by the fall of said 1000 inches of water.

This certainly gives to the City an amount of property with rights and privileges that for the money paid is far in excess of that as yet offered by any other company.

We also believe that the development of the McCarnte System will bring what are now thousands of acres of dry tillable lands under such a water system as will insure their early settlement and cultivation all of which will certainly become a most important factor in the City's future growth.

In view of the many legal objections that have been made to all the different water propositions thus far submitted we believe that all such objections should be carefully considered by the proper parties before any contract is entered into by this City and that the City's rights and privileges should be strongly protected. And in this line the question of the City's power to pay an annual maintenance fee should be especially considered and if it is not within the City's power, then we recommend that some other arrangement should be made as may hereafter seem best to this Council.

We have recommended several amendments to the original Resolution but call your attention especially to that amendment requiring the McCarnte Company before it enters into any contract with the City to first show its financial ability to execute the same according to its terms and provisions, but if it finally appears that the persons that are to finance this Company are the same as we are ^{now} informed will finance it, then we believe that we have sufficient evidence of their good faith in the existence of our present Electric Street Railway System, Coal Bunkers etc. that will help to satisfy the people of San Diego that what the McCarnte Company agrees to do that they will do.

In conclusion we have to say that the "Snail's proposition" coming without any definite plans, facts or figures before this Committee just at a time when a majority of its members have decided to recommend the McCarnte Resolution "Snails" somewhat of a move for delay only, however this Committee desires that every Water proposition may have its day in court, and therefore recommends that the

that the proposition of the Grants be referred to the Joint Water Committee with instructions to secure full data and information concerning the same and report at the earliest possible date to this Council and if their report shows that the "Grant proposition" is better than that of the Mt Pearte Company then although the Mt Pearte Resolution has been passed no contract having been entered into, we shall still be in a position to accept anything better. but we fully appreciate the present anxiety of the citizens of San Diego and believe that by following our recommendations, you will bring about an early and wise settlement of the water question.

Respectfully submitted.

T. Pearte Water Company the sum of \$1,400,000⁰⁰ in forty year bonds of the City, bearing interest at the rate of five per cent. per annum, interest payable semi-annually, provided, however, that if the present outstanding issue of \$665,000 of bonds bearing interest at the rate of four per cent. per annum shall be determined to be valid then said \$665,000⁰⁰ of four per cent. bonds shall be paid to said Water Company in lieu of the same amount of five per cent. bonds.

And there shall be paid annually by the City for the maintenance of the catchments, reservoirs and dams of said system necessary for the delivery of said water into the Upper Otay Reservoir, and for the proper care and protection thereof, an annual rental of \$25.00 per inch for the first three years; and \$30.00 per inch thereafter, for the water so delivered. And it is further provided that the City of San Diego shall have the option any time within twenty years from the date of the completion of the Mt. Provided that the Common Council reserves the right to recall this offer at any time.

Said Resolution as adopted is as follows.

Joint Resolution No. 1
Whereas Messrs W. S. Grant Jr. and Jesse R. Grant have
submitted a proposition to the City Council to develop
and deliver to the citizens of San Diego 1000 miner's
gallons of pure mountain water together with a distri-
buting system for the city for \$1,500,000 dollars of

the city. Five per cent, forty year bonds, and to complete the square in one year, and whereas, in the carrying out of their proposition the water would be conveyed to the city across the large amount of land owned by the city, which only requires water to make it valuable and a source of revenue large enough to defray a portion of the out lay the city must make to secure water at all, and which source of revenue it is positively criminal to totally ignore, and

Whereas, the proposition of the Grant Brothers does away with the very objectionable feature in all other propositions heretofore made to the city, namely they do not ask and they specifically state that they will not require any maintenance fee, or annual rental whatever and that they propose to give a perfect title to Storage Reservoir, Dam site, conduits and distributing system which shall meet all the requirements of sole ownership of its water system by the city from reservoir to kitchen faucet, now therefore Be it Resolved by the common council of the city of San Diego, California,

That the apparently very advantageous offer of the Grant Brothers be fully and thoroughly investigated, and that the joint water committee of the (Common) Council is hereby directed to take said proposition under advisement and give it a careful and full investigation as to its merits in detail, & report the result to the Council as early a day as possible.

Said Report as adopted and confirmed is as follows.
To the Common Council of the
City of San Diego.

We, the undersigned, Commissioners appointed by your Honorable Body, respectfully report that on the 9th and 17th days of April, 1894, a Resolution of Intention to widen University Avenue from Fifth to Sixth Streets, was passed by the Common Council of said City of San Diego, and to assess damages and benefits occasioned by such widening, on the property within the district described in said Resolution, reference to which Resolution on file, is here by made, that the passage of said Resolution was by the direction of the Common Council of said City, published in the San Diegoan Sun, for a period of ten days, from the 11th to the 21st days of June, 1894.

both days inclusive; that by the direction of the Common Council of said City, the Street Superintendent of said City, caused to be conspicuously posted, along the line of said Street, the notice of the passage of said Resolution in the manner and form required by law: That no objections to the proposed opening of said Street were made or filed with the City Clerk, within the time required by law, or at all.

Whereupon, on the 14th day of June, 1894, the Common Council aforesaid appointed L. B. Hakes, John F. Sinks, and Frank Robbins as a Board of Commissioners to assess damages and benefits, and to have the general supervision of all work pertaining to the widening of said Street, as described in said Resolution of Intention; that on the 26th day of November and on the 4th day of December, 1894, the Common Council aforesaid, appointed Charles M. Briggs and Jesse Gillmore, Commissioners vice John F. Sinks and Frank Robbins failing to qualify, to assess damages and benefits and to have the general supervision of all work pertaining to the widening of said Street, as described in said Resolution of Intention; that after receiving notice of said appointments, we the undersigned duly qualified and filed our bonds as such Commissioners, and now are, and ever since have acted as such.

We, thereupon, as such Commissioners, proceeded to view the land and examine the property affected by said widening, and having considered the testimony presented to us, we have determined the value of the property sought to be taken for public use by reason of said improvement, to be as follows:

Those pieces and parcels of land described by beginning at the South East corner of Block one, of North Side addition, and running North along the East line of said Block one, forty three and five tenths feet (43 ⁵/₁₀); thence west two hundred (200) feet thence running south along the West line of said Block one, forty three and five tenths (43.5) feet, thence running East along the South line of said Block one 200 feet to point of beginning, being a strip of land forty three and five tenths feet

wide, and 200 feet long off of the South end of said Block one of North side addition, which property is wholly unimproved and the title to which is in George H. Hill, and W. H. King, we value at the sum of Eight Hundred Dollars (\$800.)

The amount thus awarded to said King and Hill, is in full payment for all land taken. There being no damages to the residue.

The cost and expenses incident to said improvement, incurred by the Commission are as follows:

Printing and pasting notices	\$6.70
Maps, City Engineer	\$20.00
Stationary and typewriting	\$.75
San Diego Abstract Co.	\$15.70
L. B. Hakes, Commissioner	\$18.00
Jesse Gillmore, Commissioner	\$18.00
Charles M. Briggs, Commissioner	\$18.00
Total - - - - -	\$97.15

We therefore find that the compensation awarded to the owners for land taken, together with the costs and expenses incurred in the widening of said University Avenue is as follows:

Compensation awarded Hill and King:	\$800.00
Costs and expenses incurred.	\$97.15
Total - - - - -	\$897.15

and we hereby assess said sum of Eight Hundred ninety seven and fifteen one hundred dollars, in proportion to benefits upon and against the lands included within the district, the exterior boundaries of which were fixed in said Resolution of Intention and which, together with the several pieces and parcels of land assessed, the amount assessed upon each and the names of the owners of each, are accurately shown by the plat or maps hereto attached and made a part of this Report as follows:

Said resolution as read is as follows

Whereas, Joint Resolution No 558

The open air concerts by the City Guard Band, and other musical organizations are recognized as not only conducive to the happiness and instruction of the residents of our City, but are a great feature in advertising our City to residents of other states, visiting among us, as well as to those residing in other states, as seen from the newspaper articles published in Eastern papers, relative to the open air concerts given by the City Guard band during the month of February in which articles comparison was made of the climatic conditions that made possible the congregation of our people in the Plaza on a day in mid-winter to listen to the strains of good music all of which, gives wide spread celebrity to our

city as a place of culture and as affording amusement, for all of those classes of people which it is our wish should settle among us.

Whereas, the City Charter gives to the Council the right to raise from time to time as the necessity may require certain funds, and it appearing that the Council have the right to create a fund for the increasing and fostering of immigration, and the advertising of the city as a resort, and as one of the means of making the city attractive to visitors, and otherwise is to have weekly concerts on the Plaza by a well organized Band and,

Whereas, It appears that Open Air Concerts can be secured for the City, to occur weekly at a cost of $\$10$ of a cent on each $\$100^{\text{th}}$ valuation on a total valuation of 14,000,000, and

Whereas there has been received by the Council and referred to the Finance Committee numerous petitions signed by many of the heaviest Tax Payers of the City, requesting the City Council to appropriate a certain sum from the funds of the City to provide for such form of advertising, stating it to be their belief that the best interests of the City would be subserved thereby,

Therefore, Be it resolved, That it is the sense of the Common Council of the City of San Diego, that it is good business policy to provide for the coming year a series of free public Concerts on the Plaza.

Resolved That this Council direct the City Auditor and Assessor on or before the first Monday of April next, at the time he submits to the Council his estimate of the probable amount of money necessary to be raised for the use of the City for the current fiscal year, to include an amount sufficient to provide for the open air Concerts as afore said.

City Attorney's opinion referred to.

San Diego, Cal. February 13, 1895

To the Joint Street Committee and to
the Common Council of the City of San Diego:

The opinion of this Office has been requested as to the legality of the claim of J. R. Gillen for \$300.00 on account of injuries alleged to have been sustained by the negligence of the City by leaving the approach to a bridge at 14th and J. Streets paved at night without any warning light.

In a similar case the Supreme Court of this State used the following language:

"Without noticing any of the other points made by appellant, it is sufficient to say that it has long been the settled law of this State that a municipal corporation is not liable for personal injuries to individuals such as that claimed to have been sustained by plaintiff, where there is no statutory provision declaring such liability."

As we fail to find any statutory liability giving a right of action to Mr. Gillen for the alleged injuries, we are of the opinion that his claim is not valid and can not be allowed against the City.

Respectfully Submitted.

William H. Fuller, City Attorney.
Clarence L. Barber, Deputy.
