To the Honorable Common Council, San Diego California

Gentleman:-

In the various matters of street improvement now before the council, your Joint Street Committee would make the following recommendations:

That the Resolution Ordering the Work of sidewalking and curbing "H" street between Fourth and Atlantic street be advertized for the reason that ample time and opportunity have been given to those who so desired, to construct their own sidewalks and curbs;

That the Resolution ordering the Work of sidewalking and curbing the North side of Cedar street between fourth and eighth Street be referred to the City Engineer with instructions to investigate and report whether or not the grade of Cedar Street conforms to that of the cross street;

That the Resolution Ordering the Work of sidewalking and curbing Cedar Street between Second and Fourth streets be adopted;

That the Resolution Ordering the work of sidewalking and Curbing Eleventh street between "H" Street and the City Park be postponed to allow the property owners to do their own work, a large number of permits having been granted;

That the Resolution Ordering the work of grading Front street between Ivy and Laurel streets be adopted;

That the resolution Ordering the work of grading Thirteenth street between "K" street and the city Park be adopted;

That the resolution Ordering the Work of grading "B" Street between Fourth and Atlantic streets be adopted;

The report of the Joint Ways and Means Committee as amended by the Joint Committee of the Whole was now read and on motion of Delegate Acdon adopted and is as follows, to-wit:

To the Hon. Common Council of the City of San Diego, California.

Gentlemen:-

We, your Ways and Means committee, to whom was referred the Auditor's estimate of the probable necessities of the City for the fiscal year 1897, herewith report and recommend as follows:-

1. That upon the assessed valuation of real and personal property within the City of San Diego, California, the total amount of which is $12,859,600.00, a levy of 90 cents be made on each $100. of such valuation for all purposes of the City other than for payment of interest and redemption of bonds. That upon such valuation a levy of 30 cents be made for payment of interest and redemption of bonds. That such levy be apportioned as follows:

To the Fire Department fund, 13.0 cents.
To the Salary fund, 12.0 cents.
To the Strut fund, 14.4 cents.
To the Sewer and Drainage fund, 6 cents.
To the Strut Light fund, 14.6 cents.
To the Park Improvement fund, 0.5 cents.
To the Public Health fund, 3 cents.
To the Library fund, 5 cents.
To the Offict fund, 1.5 cents.
To the Genral fund, 8.6 cents.
To the Fire Hydrant fund, 12 cents.
To the Municipal Bond, Interest and Sinking funds, 5.7 cents.
To the Schools Bond, Interest and Sinking funds

5.1 Cents.

No the Sewer Bonds, Interest and Sinking funds 24.2 Cents.

That such levy will produce the following amounts for the following purposes, to-wit:-

Fire Department fund, 13¢ on $100. Valuation $16,691.44
Salary fund, 12¢ on $100. valuation, 15,407.52

This apportionment is made on the assumption that your Honorable Body will reduce the various salaries as recommended by the Special Retrenchment Committee.

Police Department fund.

We recommend that no levy be made for this fund. The estimate for this department calls for $1230.00. It is estimated that $770.00 will accrue to this fund from the Police and Justice Court, and the balance can be transferred from other funds as needed.

Strut fund, 14.4¢ on $100. Valuation 18,489.02
Sewer and Drainage fund, 6¢ on $100. Valuation 7,703.76
Strut Light fund, 14¢ on $100. valuation 17,975.44

This apportionment is to pay for strut lights as fixed by Contract.

Park Improvement fund, 5¢ on $100. Valuation 641.98

This amount is insufficient to carry on this this fund, but your Committee recommends that when additional amount is necessary the same be transferred from some other fund.

Public Health fund, 3¢ on $100. valuation, 3,851.88

This amount is insufficient to carry on this fund at present prices paid for disposing of garbage and caring for sewer, but your Committee believes that by contracting therefor the expense of this department can be materially reduced.

Library fund, 5¢ on $100. valuation. 6,419.80

This is the rate fixed for the Library fund for 1896. Although it will yield somewhat less revenue, the Trustees are satisfied they can continue the efficiency of the department with this amount.

Public Building fund.

We recommend that no levy be made for this fund. The apportionments from Licenses to this fund are sufficient to pay all rents and other demands made thereon.

Office funds, 1.5¢ on $100. Valuation, 1,925.94

This should be sufficient to cover the cost of all books, stationery, fuel etc., needed by the various offices.

General funds, 8.6¢ on $100. Valuation, 11,042.05

This apportionment will yield but $1578 to carry this fund through the balance of the fiscal year, as there are now outstanding $9,464. in unpaid warrants for general expenses since January 1st. 1897. Therefore utmost economy must be practiced in all general and contingent matters.

Fire Hydrant funds, 12¢ on $100. Valuation 15,407.52

The expense against this funds is fixed by ordinance providing for Fire Hydrant rentals.

Municipal Bonds, Interest and Sinking funds, 5.7¢ on $100, Valuation, 7,296.00

This apportionment pays interest and redeems five $1000. bonds.

School bonds, Interest and Sinking funds, 5.1¢ on $100. valuation, 6,548.19

This apportionment pays interest and redeems four $1000. bonds falling due the current year.

Sewer Bonds, Interest and Sinking funds 24.2¢ on $100. Valuation, 30,976.00

This apportionment will pay all interest becoming due and redeem twenty $1000. bonds.

The above amounts represent the gross amount of the tax levy. Under the provisions of the Charter a discount is made for prompt payment of taxes; this with delinquencies amounts to about 5%. Therefore we respectfully recommend to your Honorable Body that all departments of the City be notified to exercise the utmost economy in order that our levy may meet all requirements, and that there may be sufficient money in the treasury at all times to pay warrants drawn thereon, thus avoiding the necessity for discounting the same by the employes and creditors of the City.

The following report of the Public Buildings Committee, to whom was referred a Joint Resolution instructing the Board of Public Works to repair the barn in the "Howard Park" tract, was read and adopted, viz:

San Diego, California, May 24th, 1897.

To the Board of Delegates, San Diego, Calif.,

Gentlemen:—

Your Committee on Public Buildings, to whom was referred a Joint Resolution authorizing the Board of Public Works to repair and make habitable, for a dwelling, the barn located in the Howard Park, herewith

recommend that said Resolution be not passed, we deem it inadvisable to expend such an amount, or any other sum, for the purpose of furnishing a dwelling for one of the city's employes.

We would respectfully recommend that said barn be moved to the northwest corner of the City Park and there fitted for Fire Department purposes. This building, in our opinion, can be moved and fitted up at an expenditure of about $500.00 and will be ample accommodation for the new Chemical Engine to be located on Florence Heights, and as there was an appropriation made for this purpose of $1000.00, using said barn would leave $500.00 that could be used for Park improvements.

Respectfully,
J. H. Cassidy

The following report of the Special Committee, to whom was referred the proposition of E. E. Sharpe to furnish the city with an Electric Light plant, was read and adopted, viz:

To the Board of Delegates, San Diego, Calif'a,

Gentlemen:—

Your Special Committee, to whom was referred the proposition of E. E. Sharpe relative to furnishing this city with an Electric Light plant, herewith report as follows:

Your Committee deem it inadvisable for the city to enter into a 5 years contract for Electric Lighting until we know if we are to have the proposed water power or not, and that it is not a feasible plan for the city to go into an Electric Lighting proposition or acquire a plant until it is ascertained if we are to have the water power provided in the new water system.

Further, that when the city does go into a Municipal Lighting proposition the Council should first ascertain and determine just what the city wants: Number, Kind and location of lamps, manner of placing the same, &c, and then advertise for bids, allowing all who may desire to submit propositions to the city, and accept the one most advantageous to the city.

Respectfully,
W. H. Doddridge,

The Joint Street Committee, to whom was referred the bids for the proposed sidewalking and curbing of F street from 4th to Arctic streets, find on said street two full width sidewalks slightly off grade, and if a contract were let under the present proceedings both of said walks would have to be torn up by the contractor and relaid, which we think an unnecessary hardship on the property owners. We therefore recommend that said bids be rejected and all the proceedings had to date be abandoned and new proceedings instituted to sidewalk and curb said portion of said street specifically excepting the said sidewalks in front of the property on said street.

Mr. H. H. Palmer attorney for one of the property owners on said street, whose sidewalk is above grade, agreeing to pay into the City Treasury the sum of $5.00 to apply on the costs already incurred by the city thereon.

San Diego, Cal., Oct. 8, '97.

To the Hon. Common Council of the
City of San Diego,
Gentleman:—

We, the Special Committee appointed by the Chairman of the Joint Committee of the Whole for the purpose of ascertaining if any arrangements could be made between the City of San Diego and the Dixon Sanitary Crematory Company as to change of location, or annulling the contract between the City and the said Crematory Company, would respectfully report:

We find the Company's representative in this City is entirely powerless to remove the Crematory without authority from the Company, neither can he enter into negotiations with the City to suspend operation, or to annul the contract, without the same authority.

We further ascertain that it will take about $3000 to change the location, and it would take at least $6000 to annul the contract at the present time, if the Company would concede to such arrangement, and as there is no money in the City Treasury for the purpose of meeting either of these expenses, we are unable to make any recommendation in the premises.

Respectfully,
A. E. Dodson,

The Minority report was adopted and is as follows, viz:

San Diego, Dec. 20th, 1897.

To the Honorable Common Council,

City of San Diego,

Gentlemen:—

We, a minority of the Health and Morals Committee of the Common Council, to whom the different reports of City officials, upon the Dixon Sanitary Crematory, were submitted, hereby respectfully dissent from the majority report of said Committee, as follows:

We have listened carefully to the testimony presented to the Committee, and while we know that the preponderance of the same goes to show that the Dixon Sanitary Crematory is offensive, we do not feel that such testimony should be accepted without a careful analysis of the same.

In the first place, when the building site was first located, a strong organization was at once formed to defeat the erection of the plant, and when approached on the matter the organizers made the statement that whether the Crematory proved a nuisance or not they were bitterly opposed to the plant being located in their ward.

This goes to show that there was, even at that early date, a very strong prejudice existing against it. This unquestionably had its effect

upon many of the witnesses.

Again, there was a ~~conservative~~ class of witnesses who, we believe, were truthful and believed that there was a disagreeable stench arising from the Crematory, and for the feelings and opinions of this class we have the greatest respect; but when we take into consideration the course of the prevailing winds we believe that there is just as much reason that these odors emanated from the Bay at low tide, from the gas works, from the soap factory, or from all three combined, as from the Crematory.

Also there is testimony from many sources to show that some persons have been quite industriously building garbage fires, and have thus increased the imagination of those who were anxious to find grounds for complaint.

On the other hand, a few witnesses testified equally as positively that upon a careful investigation they were unable to discover any objectionable odors whatsoever. This testimony, coming from some of the largest property owners in the locality, should have great weight.

Again, a large number of Eighth ward citizens were approached upon the subject who assured us that, though they had never experienced an odor of any description, still, owing to the feeling existing among property owners near the Crematory site, they did not feel like incurring their enmity by testifying in its favor.

However, we are inclined to believe that if there have been any offensive odors they have been occasioned by an improper management of the Crematory. We believe that if the stench consumer is thoroughly heated before any garbage is placed in the furnaces, and if the same is kept at the proper degree of heat, continuously, until the garbage is consumed, it will be impossible for any odors to reach the top of the stack and remain offensive. It is barely possible that the managers, in endeavoring to have the required amount of garbage consumed at a minimum cost, have failed to use a sufficient quantity of fuel. For this reason we are not disposed to deny that the Crematory has been offensive, but believe that when properly managed such offensiveness is an utter impossibility

As to the City Health Officer's report we find it a strong document in favor of the acceptance of the Crematory from a sanitary standpoint.

We also find many of our leading physicians who insist that the Crematory is the only safe and correct principle for disposing of all classes of garbage.

The Sewer Inspector's report shows clearly that the operation of the plant does not exceed the cost estimated by the Company.

If the Council would take some action prohibiting the hauling

of ashes to the krematory a much less expense would be necessary in conducting the plant.

The City Engineer finds a few deviations from plans and specifications; but as the Company has seen fit to build the furnace larger and the stack higher than named, no objection can be made to the changes thus far. The oil tank must be repaired or replaced by another, also the oil heater could be attached without inconvenience. The Engineer says that the plant, as a whole, is apparently well constructed with good material, and that the cracks in the furnace are no more than are always found in the walls of furnaces subjected to a great heat. The foundation of the furnace, however, is not up to the specifications; it should have been laid in cement but has been placed upon the hard pan. The President of Dixon Company (Mr. Morrison) offers to furnish a good and sufficient bond as guarantee that the foundation will stand during the life of the krematory. On this point we make no especial recommendation, but we are of the opinion that we cannot afford to reject a much needed improvement which the City has contracted for and which has been pronounced by every other City communicated with to be the only perfect method for the disposal of garbage, without very mature deliberation as to consequences.

On the other hand we insist that the City must obtain substantially what it contracts for, or its legal equivalent.

In conclusion, while we are loath to recommend the acceptance of a plant which is so objectionable to a portion of our citizens yet we are met with this garbage question face to face. We cannot return again to the obnoxious scow, as the cost of constructing two scows would nearly equal the cost of the present krematory. And again, the citizens of the Fifth ward, who were unquestionably more to be pitied from the use of the former system than the Eighth ward is with the present plan, would never consent to this backward step.

It is also a settled fact that no wharfage privileges could be obtained without going eastward to the City limits; and we are very certain that the Eighth ward citizens would never consent to a garbage wharf in their vicinity.

We also think that the Council will agree with us in the impossibility of removing the present plant to a more satisfactory location, if such be found.

It should be remembered, also, that there are several business interests directly affected by the acceptance of the krematory, whose members are working tooth and nail to effect its rejection, on purely mercenary grounds.

Hence, with these conditions before us we believe that no alternative presents itself than to accept the krematory, provided, sufficient

guarantees are given the City by the Dixon Company, to thoroughly protect it from any defects arising from improper construction.

All of which is respectfully submitted,

A. E. Dodson,

H. W. Alden.

An Ordinance finding that the Crematory had been constructed in accordance with the terms of the agreement and accepting the lease of the same was presented and read.

Delegate Alden moves that said Ordinance be referred to a Special Committee of three to embody in the Ordinance such changes as were recommended by the Minority of the Health and Morals Committee; also a requirement that the Dixon Sanitary Crematory Company comply with the specifications, or thoroughly protect the City from any damage or expense arising from any non compliance with said specifications, and that the Board of Aldermen be requested to appoint a like Committee for the same purpose, which motion was adopted.

Thereupon President Morgan appoints as such Committee Delegates Alden, Barnes and Goddridge.

A communication from E. H. Rollins & Sons offering to purchase refunding bonds to the amount of $260,000 was presented and read and ordered filed.

The following recommendation of the Joint Finance Committee in the above mentioned matter was read and adopted, viz:

San Diego, California, Dec. 20th, 1897.

To the Common Council,

City of San Diego,

Gentlemen:—

Your Joint Finance Committee having had the proposition to fund the outstanding Sewer and Municipal bonds before it herewith report that it will undoubtedly result in a saving to the City of its annual interest charge, and it will also very materially reduce the annual payments for redemptions, thereby materially reduce our tax levy for bond, and interest payments, and the Committee therefore recommends said proposition for favorable consideration by the Council.

Respectfully,

Saml G. Engle, M. J. Perrin,

H. Sweeney, F. A. James.
