Gentlemen:

Your Special Committee, to whom was referred a Joint Resolution, instructing them to investigate all the facts to be obtained, relating to a lease of the San Diego Water distributing system, by the San Diego Water Company, to the City of San Diego; beg leave to make the following report:

After due and careful investigation and deliberation we are fully convinced that all parties concerned in the present lease between the San Diego Water Company and the City of San Diego, are dissatisfied with its present status, as neither the Water Company nor the City have complied with the terms of the lease, and all desire a change. We believe that any new agreement for the future, to be satisfactory and lasting should be based upon the undivided ownership and control of the water distributing system either by the Water Company, or the City. We are decidedly in favor of the City owning its water distributing system as soon as possible, and therefore recommend that a special election be called at once submitting to the voters of the City, the issue of Bonds in the sum of six hundred and sixty-five thousand dollars (\$665,000⁰⁰) for the purpose of constructing and acquiring a water distributing system for the City. The proposition to vote bonds, when submitted to the people, will give every voter an opportunity to express his opinion, instead of leaving so important a decision to the few members

of the Common Council.

We also herewith submit the report of the City Engineer and Board of Water Commissioners referred to us, containing plans, specifications and estimates for a water distributing system for the City.

And we further submit a proposition from the San Diego Water Company, containing terms and prices at which said Company will furnish the City with water for a term of years, which proposition was furnished your Committee at its own request. All of which is herewith made a part of our report, and respectfully submitted.

The character of pipe is entirely of cast iron, except the two inch wrought iron pipe, and is estimated to stand a pressure of 300 lbs per square inch.

The character of the pipe of the San Diego Water Company as now in use is of sheet iron, cast iron, galvanized and wrought iron pipe. An increase in the lengths of pipe is shown both in 6 and 8 inch pipes. All one inch, one and 1/4 inch, and one and one-half inch pipes are increased to two inch, and all two and one-half and three inch pipes are increased to four inch.

The reservoir as provided for in the estimate, should be at least of fifteen million gallons capacity, and located, within the limits of the City Park Reservation.

San Diego, Calif.

Gentlemen:-

Replying to your communication of August 20th we beg to answer your questions and make the following proposition:

First. We cannot agree to contract with the City for one year with an option to renew the contract from year to year under same conditions, but will contract for one year straight.

Second. We will agree to furnish the City with water for one, ten, or twenty years upon the following basis:

One million gallons daily average in each month at 5 cents per one thousand gallons:

All over one million gallons, up to two million gallons, 4 cents per one thousand gallons:

All over two million gallons 3 cents per one thousand gallons:

The minimum amount to be taken and paid for each month, to average for the month, one million gallons daily:

The quantity of water used to be determined on the first of each month, and payment made on the tenth of the month for the previous month.

On case the City desires to contract for three years, add one cent per thousand gallons to above prices. If for five years, add one half cent per thousand gallons to the above prices. The City to accept or reject the proposition within three months from this date, and if accepted, enter into a written contract. The water to be taken and paid for within six months from this date, but in case the City is unable to buy the plant of the San Diego Water Co. and have to put in a new plant, then and in that case the time in which the water is to be taken will be extended to nine months from this date.

Respectfully Submitted,
The San Diego Water Co.

 To the Honorable The Board of Delegates of the City of San Diego.

Gentlemen:

We, your Committee on Health and Morals beg leave to report, that in accordance with your instructions we have made as full an examination as we could of the sanitary condition of the City, and so far as possible of the work of the Health Inspector. We inspected several places which had attained notoriety as nuisances through the newspapers or by general report, and with one exception found them cleaned up or the work of cleaning being done. The Chairman of your Committee inspected the private premises of the City Health Officer and found them in a sanitary condition.

It is found to be true in any City that Health inspection is not carried on to the extent which would be most satisfactory. The last Council did away with the office of Health Inspector. By resolution of the Board of Health the Plumbing Inspector does the work of Health Inspection so far as it does not interfere with his other work. We have been unable to find evidence that he is not carrying out these joint duties with due diligence. We are informed that all nuisances reported have been inspected and abated, and we beg to call attention to the fact that perfect sanitation can only be secured when every citizen reports every nuisance coming under his notice.

The report of the Park Committee and Park Commissioners to whom was referred a petition for allotment of land in the City Park was read and on motion of Delegate Muthmann adopted and is as follows, to wit:-

San Diego Cal. Oct. 23^d, 1892.

To the Board of Delegates of the Common Council City of San Diego, Cal.

Gentlemen,

The question of leasing portions of the City Park grounds to certain individuals for private purposes having been submitted to us as Park Commissioners, we hereby make the following suggestions and recommendations. If these leases applied for, are granted, there will be no limit to them. We are reliably informed that there are several parties now awaiting the result of the application pending, in order to file their petitions for like grants.

The lease already granted is near the most conspicuous part of the Park grounds and the applications pending are for grounds still nearer the built up portion of the City. Should these leases be granted they will interfere with the proper improvement of the Park and will carry with them certain unwritten but understood rights which would be hard to ignore after the improvements have been extensively made. In such cases it would be almost impossible to remove the occupants within a reasonable time without annoying

street to the west line of Twelfth street.

And the said Common Council offers to grant the said franchise to the person, company or corporation who will pay the highest sum therefor and conform to the terms thereof.

Sealed bids are invited, and will be received for said franchise, at the City Clerk's Office in the City Hall, up to five o'clock P.M. on the 7th day of November, 1892.

All bids offered shall be accompanied by a check, certified by a responsible bank, payable to the order of the City Clerk, for an amount not less than ten per cent of the aggregate of the proposals.

The successful bidder shall pay all costs of advertising.

The Common Council has the right to reject any and all bids, and may refuse to grant a franchise for any part of said route.

Exhibit A.

To the Honorable the Common Council of the City of San Diego, California:

The San Diego Electric Railway Company petitions the Honorable the Common Council of the City of San Diego, for authority to construct, and maintain and operate for the period of twenty-five years, a double track street railway along and upon "D" Street, in the City of San Diego, California, from the west line of Twelfth street to the east line of Twenty-fifth street; also for authority to construct, and maintain and operate for the period of twenty-five years in junction with the track already constructed, an additional street railway track on said "D" Street, from the west line of California street to the west line of Twelfth street.

Upon the following conditions and limitations, viz:

I.

That the cars upon said railway shall be propelled by electricity. But if at any time the said railway cannot be operated by electricity, owing to accident to the machinery or appliances, or other causes, horses or mules may be used to propel cars thereon during the time the same cannot be operated by electricity.

II.

That the grantee or its assigns shall plank, gas or macadamize, as the Council may direct, the entire

length of that portion of said street used by said railway tracks, between the rails and for two feet on each side thereof, and between the tracks, and keep the same constantly in repair, flush with the street and with good crossings.

III.

That the track shall be four feet eight and one half inches within the rails; and shall have a space between them and between sidetracks, turnouts and switches, of not less than five feet three inches, being sufficient to allow the cars to pass each other freely.

IV.

That said railway shall be constructed and maintained in the manner provided by Ordinance No 1704 of said City, approved August 3rd 1892.

V.

That the right to grade, sewer, pave, macadamize, or otherwise improve or alter or repair the said street shall be reserved to the City of San Diego; such work to be done so as to obstruct the said railway as little as possible. The grantee or its assigns shall shift and re-shift its rails so as to avoid the obstruction created thereby.

VI.

That the laying of said tracks, and all side tracks, turn-outs switches or curves, shall conform in all cases with the grade of said street, where the same has been graded, and in all other cases, as near to the natural grade as practicable. And when at any time any part of said route shall be graded, or the grade thereof altered or changed by the said Common Council, the bed of the road and the tracks thereon shall be made to conform therewith by the grantee or its assigns. The tracks shall be so constructed and laid that each of them shall be of equal distance from the curb line of said street.

VII.

No switch shall be constructed or maintained within fifty feet of any cross street, and the location of such switches and all turn-outs shall be changed at the expense of the grantee or its assigns whenever so ordered by said Common Council.

VIII.

That the City Engineer shall, under the direction of the said Common Council, give the established grades

of the streets along the line of construction of said railway, and set stakes indicating the said grade; he shall see that the said railway is constructed and maintained in conformity to the terms and requirements of the franchise; and for his services as herein required, he shall receive such fees as are provided therefor, and the same shall be paid by the grantor or its assigns.

IX.

That the failure to comply with any of the conditions of the franchise shall work a forfeiture of the rights and privileges granted thereby.

X.

That the right to repeal, amend, or modify the ordinance granting the franchise shall be reserved to the Common Council.

San Diego Electric Railway Company.

Said resolution as adopted is as follows, to wit:

Joint Resolution N^o 21st.

Whereas at a public meeting of the Citizens of Los Angeles held on the 7th day of December, 1892, for the purpose of taking necessary action to induce Congress to appropriate money for the construction of a deep water harbor for Southern California, the following memorial was

adopted to wit:-

To the honorable the members of the Senate and House of Representatives of the United States in Congress assembled, GENTLEMEN: The citizens of Southern California, in a representative meeting assembled, would respectfully ask your attention to the following facts, in the matter of the deep water harbor for Southern California, as recommended in the recent report of the Board of Government Engineers:

First—That this is not a matter of mere local importance, but that owing to the contour of the continent, and the lines of easy grade and low mountain passes, the proposed deep water harbor at San Pedro, like that of Galveston, of which it is the natural and necessary complement, is of national importance.

Second—That the line between this harbor and the proposed deep water harbor at Galveston is the shortest and most available for transcontinental commerce of all the possible routes within American territory.

Third—That two transcontinental lines of railroad now reach the sea at this point, besides a number of local roads, and are forced for lack of a deep water harbor to handle their freight through unsuited roadsteads, exposed to all the dangers of the open sea.

Fourth—That with the completion of the Nicaragua Canal the traffic of these railroads, and the new roads centering at this point will be vastly increased, as this must then, by the law of shorter lines and lighter grades, become the supply port of the southwest interior, and of the great inland plateau embracing that vast territory which lies between the Rocky Mountains and the Sierra.

Fifth—That while the Atlantic seaboard of the United States is even lavishly supplied by nature with good harbors, the Pacific Coast is singularly destitute of them, and the people of this coast must appeal to the General Government to help them in securing outlet to the sea.

Sixth—That the mountain chains and the natural passes of the Pacific Coast have fixed three great transcontinental outlets to the sea westward. One at the mouth of the Columbia and Puget Sound; one at the bay of San Francisco; one through Southern California. At the first two named outlets nature has furnished good harbors; for Southern California only open roadsteads. It is to correct this defect that we ask the aid of the General Government.

Seventh—That the population now seeking the sea at this point is only a small fraction of the numbers which must, within a few years hence, seek commercial outlet. The territory immediately tributary to this point has a capacity of supporting and making wealthy a population numbering into the millions. This territory is rapidly filling with people, and already their sea traffic is checked and strangled for lack of adequate harbor facilities.

The facts with regard to the proposed deep water harbor are placed before you in the report of the board of Government engineers. We would only add that this is the fifth survey made officially by officers of the Government during a period of some twenty-five years, and that all have con-

curred in the same judgment as to the location and importance of the work.

The Government has already expended some \$800,000 upon the inner harbor, but even before its completion the needs of commerce have far outgrown its capacity.

In consideration of the foregoing facts we earnestly pray that you will order the appropriation of such sum of money as in the judgment of the department may be necessary to at once begin, and vigorously push, the work upon the outer, or deep-sea, harbor at San Pedro that we may, equally with our brethren upon the Atlantic Coast, have opportunity to share in the great possibilities of development of this, our common land.

Resolved, that the State Board of Trade be urgently requested to use their influence in Congress to assist the people of Southern California in securing an adequate appropriation for the commencement of a deep-sea harbor at San Pedro, in conformity with the report of the several boards of Government engineers upon that subject.

J. M. LE GRAFF,
J. P. WIDNEY,
A. W. FRANCISCO,
Committee.

And
Whereas the said memorial contains many statements which are unjust untrue and misleading, Now, Therefore:
Be it Resolved

That the Common Council of the City of San Diego hereby denounces said memorial as a fraudulent attempt on the part of the people of Los Angeles to induce Congress to improve the so-called harbor of San Pedro by assuming by assuming that the same is necessary on the ground that Southern California has no deep water harbor, and we call upon our Representative in Congress, Hon. N. W. Rowers, to take active steps to expose and defeat this flagrant attempt to ignore the fact that San Diego Harbor is not only a deep water harbor but is one of the very best harbors in the world, which can be entered by the largest class of vessels and where they can lie at anchor in safety during the worst storms ever experienced on this Coast. And

Be it further Resolved, that this Council representing the people of San Diego accept the issue tendered in the 6th clause of said memorial and declare in direct contradiction to the statements therein contained, that Southern California has a capacious deep water harbor, as the following table compiled from official sources will show:

The Harbor of San Diego.	
Length of San Diego Bay	13 miles.
Available anchorage	6 square miles
Average width of Channel	800 yards.
Total area of Bay	22 square miles.
Area at depth of 18 feet	3.75 square miles.
Area at depth of 24 feet	2.83 square miles.
Area at depth of 30 feet	1.97 square miles.
Area at depth of 36 feet	1.36 square miles.

Rise and fall of Tide 5 feet.

These figures apply to lowest low tide.

Depth of water at low bar 23 feet.

The following figures are quoted from a report by Professor George Davidson, Chief-in-Chief of the United States Coast Survey, made in 1871:

Depth of water at entrance of
Boston Harbor 18 feet.

Charleston, Mobile and New Orleans,

each less than 18 feet.

Philadelphia 18.5 feet.

New York 23.5 feet.

San Diego 23 feet.

San Diego has not only a fine harbor but the mountain passes to the east afford access to at least three lines of railroads superior in grades to any road now operated to the Pacific Coast and we therefore on this further ground contradict the assertions made in said memorial.

To the Common Council.

Gentlemen:

The City Attorney to whom your honorable body referred Joint Resolution No. relating to that tract of land known and called the Plaza, finds from the examination of the title to said property, that on the 21st day of June, 1871, Mr. A. E. Horton, the owner of the fee of said property, filed a map of Block 42 Horton's Addition to San Diego, with the County Recorder upon which map said tract of land is designated as the Plaza, it being 145 by 200 feet bounded on the north by D Street two hundred feet, on the east by Fourth Street one hundred and forty-five feet, on the south by a line drawn east and west from Fourth to Third Street parallel with the south line of D Street, and one hundred and forty-five feet south of said south line of D Street, and on the west by Third Street.

On the deed executed by Mr. Horton conveying the property adjacent to said plaza there is a reservation that the said plaza shall be forever kept open as a public highway, so as to secure unobstructed access to the property.

To the Common Council.

City of San Diego.

Gentlemen:

Your Finance Committee and City Attorney to whom was referred the question of employment of J. E. Deakin as Counsel in the case of San Diego Water Co. vs. the City of San Diego find there is no contract of employment existing between the City and

Mr. Deakin. That in the year 1891, the Common Council passed a Joint Resolution directing that an ordinance be passed employing Mr. Deakin to take sole charge of said cause; that in pursuance to said resolution an ordinance was passed employing Mr. Deakin fixing his compensation as follows: \$500. retainer; \$500. when completed in the Superior Court; and \$1000. if taken to the Supreme Court; which ordinance was vetoed by Douglas Gunn, Mayor of said City, and returned to the Board in which it originated; And That no action was afterwards taken upon said ordinance by the Council.

We find further that the Auditing Committee allowed and ordered paid to Mr. Deakin \$500. for services alleged to be rendered in said cause.

We recommend that the City Attorney take sole charge of said case; and we further recommend that Mr. Deakin be notified that his services are not required in said cause.

Said opinion of the City Attorney is as follows, to-wit:-

To the Joint Street Committee of the City of San Diego:
Gentlemen:

The City Attorney to whom was referred the accompanying petition of J. D. Harbison, asking your honorable body to legalize and give him credit for certain alleged street work, to wit: six hundred and thirteen and one tenth cubic yards of filling heretofore placed by him on Thirteenth St. between C and D streets, would say: That said Petitioner has not complied with the provisions of law requiring such class of work and therefore you have no power or authority to grant the prayer of said petitioner.

Chap. 10 of Section 6 of an Act to provide for work upon streets etc., approved March 18th, 1885, makes provision for such class of work as follows: "It shall be lawful for the owner of lots of land fronting upon any street the width and grade of which have been established by the City Council, to perform at his expense (after obtaining permission from the Council so to do but before such Council has passed its resolution of intention to order the grading, exclusive of this) any grading upon said street to its full width and to its grade as there established, and thereupon to procure at his own expense a certificate from the City Engineer setting forth the number of cubic yards of cutting and filling made by him in said grade and that the same is done to the established width and grade of said street or to the center line thereof, and thereafter to file said certificate with the Superintendent of Streets, which certificate the Superintendent shall record in a book kept for that purpose in his office, properly indexed."

The petition of Mr. Harbison discloses the facts to be that he never obtained permission from the Common Council to do said work. That the purported certificate of the City Engineer is defective in this, that it does not state that the filling was made to the established width and grade of the street or to the center line thereof, and that said certificate was not filed with the Superintendent of Streets all of which is required by law to make such work legal, and therefore for the reasons above stated, I would recommend that the petition be denied.

Respectfully Submitted,
William H. Fuller,
City Attorney.

San Diego Cal. January 23, 1893.

To the Common Council.

Guthman. - I have the honor to

return herewith without my approval. Ordinance No - fixing the speed of steam Rail Roads in certain limits of the city. Fifteen miles an hour for a steam Rail Road begin to travel in the territory described in the ordinance is in my judgment altogether too fast. Life has been lost and a number of accidents have taken place by steam Rail Roads in this city up to the present time, and as the city increases in population the danger will become greater.

Such an ordinance is in the interest of the Rail Road corporations, and against the protection of life and limb of the people.

Very Respectfully
J. M. Sherman Mayor.

seats in the Board.

The report of the Ways & Means Committee to whom
was referred the petition of R. Neiland in the matter of
the assessment of Lots A & B. Block 104 of Norton's addition
was read and an motion of Delegate Thorpe adopted
and is as follows, to wit:-

San Diego, Cal. January 17th 1893.

Respectfully returned with the following information.
The statement handed into the City Assessor for 1892 shows
that Louis Neiland, had the south 1/2 of Lots A & B. Block 104,
Norton's Addition and he paid the taxes on those two
half lots, but did not pay, or sum to claim ownership
of the two north halves of said lots which are now adjoined.
He now claims ownership of the whole of the above two
lots. This complaint is not verified as he has failed to

January 31st 1893.

Respectfully returned. Your Committee having
received the tax receipt finds that the Clerk in the City
Assessors office omitted to ditto the 1/2 opposite
to lots A & B. Block 104. The Assessors books show that
lot A. was assessed at 1750 dollars, and lot B. at 1250
dollars, and the tax receipt returned herewith plainly
shows that taxes were paid only on 875 dollars, and

625. dollars, respectively, being only one half of the valuation of said lots, and that unless Mr. Neiland can show a later receipt from the tax collector than the one he has sent in. He still owes the taxes on the North half of the lots in question. Your Committee recommends that this complaint be returned to Lewis Neiland, and that his attention be called to this report.

H. Sweeney, Chairman.

Geo. B. Watson.

George H. Crippen.

The report of the Ways & Means Committee to whom was referred the Communication of Works & Works in the Matter of the Claim of the San Diego Water Co. was read and an motion of Delegate Grant adopted and is as follows, to-wit:-

San Diego, Cal. February 6th 1893.

Respectfully returned: Your Committee find that this claim was duly audited and allowed on November 3^d 1891, and that a warrant dated November 15th 1891, was drawn on the City Treasurer for the amount.

The City Treasurer has failed to pay this warrant on the grounds that the City funds were in the California Savings Bank. The Bank, it turns, closed its doors on Nov. 11th 1891, the warrant is dated Nov. 12th 1891. This appears to be a legitimate debt due by the ^{City} to the Water Co. and should in all justice be paid, and your Committee recommends that if there is not sufficient funds in the Water funds to pay this claim that the amount required be transferred from the General funds to the Water funds for that purpose.

The Report of the Joint Finance Committee charged with the duty of investigating the expenditures of the City Government, was read and on motion of Delegate Sweeney adopted and is as follows:

To the Honorable, the Common Council, of the City of San Diego, Cal:

GENTLEMEN—Your joint finance committee by joint resolution No. 278 was charged with the duty of investigating the expenditures of the city government, and to consider in what manner, if necessary they may be reduced. The resolution also refers to our consideration the message of the mayor in which he recommended that the services of certain city officers and employees be dispensed with.

We have completed our labors and do report as follows:

All the departments were investigated and we made inquiry as to the number of officers and employees, their duties and requirements, in which we were assisted by the oral testimony of all the heads of departments.

WATER DEPARTMENT.

The officers of this department as at present authorized include three commissioners, of whom two receive \$100 per month each, and one of whom acts as superintendent, and the other being the city engineer, receives \$50 per month. The other employees are a secretary at \$40 per month, assistant secretary at \$75 per month, two collectors at \$55 per month each, and a meterman at \$50 per month. One collector has a monthly allowance of \$22.50 for horse hire, the other \$2 for car fare, and the meterman \$25 for horse hire.

Your committee believes that the cost of running this department is excessive, and we recommend the following changes to be made by an ordinance to be passed in the immediate future:

One commissioner, who shall be an engineer, at \$25 per month; one commissioner who shall act as superintendent and meter man and furnish his own horse, at \$100 per month; one secretary and bookkeeper at \$75 per month, and one collector, who shall furnish his own horse, at \$75 per month.

FIRE DEPARTMENT.

Your committee finds that the city now has a first-class fire department, well equipped, in charge of a thoroughly competent chief, and we think it unadvisable to make any change or in any way impair its efficiency. We especially think it unadvisable to adopt the recommendation of the mayor to appoint firemen who shall be paid for services in helping to extinguish actual fires. Such a policy we consider visionary and well calculated to impair if not to completely disorganize the department.

DEPARTMENT OF PUBLIC WORKS.

Your committee, after a thorough and searching investigation of this department, and the duties of its various officers and employees, find that the best interests of the city will be subserved by retaining it as at present constituted. In regard to the superintendent of sewers, the superintendent of streets and the superintendent of parks, we find these officers all busily engaged in keeping up their departments, which requires all of their time. The superintendent of sewers we find to be a practical man, thoroughly conversant with the entire sewer system (which cost the taxpayers of this city over \$400,000), and not only superintending the one laborer employed on the sewers, but actually and continually at work flushing sewers, removing obstructions, etc. We do not think it in the interest of economy to neglect so valuable and expensive a sewer system or to allow the care of the same to be entrusted to inexperienced persons. And more serious consequences may result, for, if the sewer system is not properly cared for the health of the city will undoubtedly be jeopardized. The superintendent of streets is an absolutely necessary officer, whose time is entirely occupied. The superintendent of parks is simply city gardener, and is continuously employed. In this department your committee recommend that the salary of the secretary of the board be increased from \$60 to \$75 per month on account of the large amount of work required of him. His entire time is taken up with varied duties, and we consider him a capable and competent officer, and should be paid the same salary as other members of the city's clerical force. With this exception your committee recommend that the officers and employees of this department remain as at present. Your committee has taken into consideration the matter of a possible consolidation of superintendent of sewers with plumbing inspector, also superintendent of streets with superintendent of parks, and some other changes, but find the same impracticable and not for the best interests of the city.

HEALTH DEPARTMENT.

Your committee have considered his honor's recommendation that the health inspector be discharged. We find that the inspector is not a salaried officer, but the inspecting is done by the plumbing inspector, whose services we find are necessary to the proper conduct of the health department, and we do not deem it for the best interests of the city to lessen the duties of this officer by dis-

charging him as health inspector and retaining him as plumbing inspector, for which he receives salary. Therefore your committee recommend that this department remain as at present constituted.

POLICE DEPARTMENT.

We recommend that the matter of keeping city prisoners in the county jail be referred to the board of police commissioners, with power to act as will be for the best interests of the city. Your committee is of the opinion that if satisfactory arrangements can be made with the board of supervisors for keeping city prisoners in the county jail, if the same can be legally made, it should be done, and in case such arrangements are made the services of one policeman should be dispensed with.

CITY CLERK'S OFFICE.

Your committee find that a typewriter was employed in this department temporarily under authority of the common council for the specific purpose of copying the ordinances of the city preparatory to publication, and we further find that when said copying was completed the services of said typewriter were duly dispensed with. The same is true of the deputies in the assessor's office. The term of service to the employees in these two offices would necessarily end when the work for which they were employed was completed.

PUBLIC LIBRARY.

Your committee find that the board of trustees of the public library have full authority in the premises to employ such assistants as may be necessary, and that said board is responsible to the people by whom they are elected for the economical management of the affairs of this department.

CITY ATTORNEY'S OFFICE.

Your committee recommend inasmuch as the city is getting satisfactory and valuable services from this department for as small a compensation as could be expected, that no change be made.

TREASURER AND TAX COLLECTOR.

We recommend that no change be made in this department, except that the ordinance now before the council providing for an additional deputy to collect delinquent taxes, should be finally adopted and such deputy allowed.

AUDITOR AND ASSESSOR.

Your committee recommend that ordinance No. 192, providing for a permanent deputy in this department, should not be repealed, and that said officer should be allowed to keep a permanent

deputy, as we think it in the interest of economy to allow a permanent deputy in this office in order that the assessor may have time to prepare new lot books, the abstract of the list of owners of property, and make the list of mortgages and otherwise prepare for the assessment of 1894, rather than wait until the 1st of January, when such work will be required to be completed within a short time, and would necessarily have to be done by men more or less inexperienced.

In making this investigation your committee have utterly failed to find any evidence of the charges that the city is being run in "an extravagant manner" or "that the treasury is raided from all directions under the cloud of silence," we cannot but conclude that the statements made and the comparisons drawn between the present time and the period of six years ago, when his honor was serving the city as trustee are far-fetched and imaginative.

From comparisons of the salary lists of other cities, the salaries paid by the city of San Diego are found to be less than those of any other city of equal size and population west of the Rocky mountains.

Your committee are as heartily in favor of "economy and reform" as his honor, or as any citizen can possibly be; but, after a thorough investigation, we find the charges of "extravagance, lavish expenditures, ruinous robbery," etc., wholly unfounded. And as to the statement that the taxpayers of this city were called upon in the year 1892 to pay a tax revenue of nearly \$500,000, we find the total amount of taxes levied was \$192,548.27, as shown from the assessment roll, of which \$187,758.44 was collected.

All of which is respectfully submitted.

The following Report of the Committee on City Lands was read and adopted.

To the Honorable Board of Delegates

City of San Diego, Calif.

As the Committee on City Lands, we respectfully report thereon to your honorable body as follows:

That the city owns about 7000 acres of Land lying north of the San Diego River, which land has been personally inspected by your committee, and estimated to be of approximately the following value, to wit:

Queblo Lots, East 1-2 of 1296, 1297, 1298, West 1/2 of 1299, 1353, and 1355 at \$7.00 per acre.

Queblo Lot 1319, and Fractional Lot 1185, at \$10.00 per acre. Queblo Lots 1325, 1317, 1318, 1306, 1305, 1304, 1272, 1273, 1274, 1275, 1240, 1241, 1781, 1203 at \$12.00 per acre.

Queblo Lots 1309, 1294, 1293, and 1278, at \$15.00 per acre.

Pueblo Lots 1310, 1315. East $\frac{1}{2}$ of 1300. East $\frac{1}{2}$ of 1295, 20 acres of East $\frac{1}{2}$ of 1785, at \$20.00 per acre. Pueblo Lots 1330, 1333, and 1232, at \$25.00 per acre. Pueblo Lots 1326. East $\frac{1}{2}$ of 1331, 212, 206. at \$30. per acre, Pueblo Lots 1324, 1314, 1311, 1321, 1322, 1323 and 40 acres in 1284, and 30 acres in 1287. at \$35.00 per acre. 40 acres of Pueblo Lot 1284, 70 acres of Lot 1287, 50 acres of the East $\frac{1}{2}$ of Lot 1785. West $\frac{1}{2}$ of Lot 1331, and Lots 1334, 1332, 1336, 1337, 1340, 1360, 1269, 1279, 1266, and 1253, at \$5.00 per acre.

It appearing to your Committee that the corners of a number of the Pueblo Lots have never been fixed or marked, and that it will be necessary to have these corners established, before the said Lots can be definitely located. Your Committee recommend that your Honorable body instruct the City Engineer to establish and fix the corners of all Pueblo Lots where the corners have not been fixed and established, and to mark such corners with large stakes with Pueblo Lot numbers on each side, and that a penalty be attached to the destruction of the same by Ordinance.

The cost of this work need not exceed One hundred and Fifty (\$150.00) Dollars.

Pueblo Lot 1360 is fenced, ploughed and sowed in grain, and parts of Lots 1266 and 1355 and the West $\frac{1}{2}$ of 1296 and 1299 have been cultivated and put in grain by some person without the knowledge or consent of the City Officials.

Gilbert and Selwyn, stockman, occupy and are using parts of 1279, E. $\frac{1}{2}$ 1295, 1304, 1300, 1278, 1293, 1294, the grain fields are fenced. They occupy in all about 500 acres of City Lands.

These Lands are from 10 to 14 miles from the City Hall. Your Committee therefore recommend that an ordinance be passed by your Honorable body, prohibiting the occupancy or use of City Lands, without authority in writing from the City, and that the City attorney be instructed to take such steps as are necessary to protect the City's rights to these Lands and to regain possession thereof.

About 2000 Acres of these Lands are included in the Lindal Vista Irrigation District and have been sold.

by said District for an assessment to pay for organizing the District, the Linda Vista District has also issued Bonds on these City Lands.

Your Committee recommend that the City Attorney furnish your honorable body with a written opinion upon the question, whether the Linda Vista Irrigation District have the legal right and Authority to assess & tax the City Lands and to sell the same, if such assessment ~~and~~ or tax has not been paid.

Your Committee recommend that some tracts, unfit for cultivation, be leased to prospectors, who wish to prospect for Oil, Coal, Gas, etc. but in no case to lease more than one Pueblo Lot to one company or person for such purpose, nor for a period longer than five years.

We also recommend that all of these Pueblo lots, after stakes are set and boundaries well defined, be leased at a price per acre, to be fixed by the Council, to persons desiring to lease the same.

We also believe the City Park could be laid out in small tracts and leased, making part of the consideration of such leases that trees should be planted. Water could be supplied from the City System at Irrigation rates to the Lessee. We believe the City, by proper management, could derive a revenue from these Lands.

We therefore, urge that your honorable Body will take immediate action the suggestions and recommendations of your Committee.

Respectfully Submitted.

Committee from the Board
of Delegates.

California. June 28th, 1893.

In response to the following call of the
Mayor, to-wit:

Mayor's Office.

San Diego, Cal. June 28th, 1893.

To the Honorable Common Council of the City of San Diego.
Gentlemen:

You are respectfully called in Special
Session to consider the following important and
urgent matters:

Numerous complaints have been made to
me of the inadequate water supply of the City,
causing serious inconvenience to the public as well as
endangering property from fire through lack of
water to extinguish same, and with the enormous
consumption of water during the middle of the day
in the City proper and for irrigation purposes
in the suburbs it seems that the delivery pipe of
the Alamo Co. is not large enough to supply the needs
of the City, unless a reservoir be erected in the City Park
so as to be close to the center of the City and thus the
City will be always with a sufficient water supply
on hand for domestic use as well as for extinguish-
ment of fires. And I respectfully recommend
that your Honorable Body take steps at once to
build said reservoir or otherwise arrange so that
the City will always have a sufficient water supply
on hand.

I also respectfully recommend immediate
action on my communication to the Common
Council relative to allowing the City Tax Collector
three additional deputies, as they are urgently needed
and the tax discount of 5 percent expires July 1st.

Respectfully
