Gentlemen:

The Joint Finance Committee recommend that the sum of $1298.93 be transferred from the Water Bond Interest and Sinking Fund and set apart for the specific purpose of paying for the publication of the Charter and Ordinances of the City of San Diego. and to that end we recommend that said

sum be transferred to the Delinquent Road Funds and that the Auditing Committee be authorized to allow the bill for said printing against said Funds.

The report of the Joint Finance Committee to whom was referred the message of the Mayor submitting a Joint Resolution allowing the Mayor $125.00 for incidental expenses was read and on motion of Delegate Pauly adopted and is as follows to-wit:-

The Committee recommend that the within resolution be not passed for the reason that there was no salary attached to the office of Mayor at the time of his election, and that the Charter prohibits the Council making the Mayor an allowance of any specified sum, direct or indirect, and further it appearing to the Committee that the Auditing Committee have heretofore allowed bills for necessary expenses where such expenses were incurred for the express benefit of the City, and as there is nothing before the Committee which tends to show that such bills will not in the future be allowed, we therefore see no reason for taking any further action in the matter.

The opinion of the City Attorney as to the right of the Linda Vista Irrigation District to tax the Citys lands in said District was read and on motion of Delegate Swaney adopted and the City Attorney instructed to test the question in the Courts.

Said opinion is as follows, to-wit:

San Diego, Calif. Aug 1st 1893.

To the Common Council of the
City of San Diego, California

Gentlemen:

In answer to your request for an opinion as to whether the Citys lands which are situated in the Linda Vista Irrigation district are liable to pay for the organization of the district and the interest upon the bonds voted by the district: I have to say that Section II of Article 13 of the Constitution of the State

of California, provides that." All property in this State, not exempt under the laws of the United States, shall be taxed in proportion to its value..... provided that growing crops, property used exclusively for public schools, and such as may belong to the United States, this State, or any County or Municipal Corporation within this State, shall be exempt from taxation". Thus it will be observed that the Constitution of this State exempts from taxation all property owned by Municipal Corporations: But it is contended by Counsel for the Linda Vista Irrigation district that the Act of the Legislature of March 7th. 1887, providing for the organization and government of irrigation districts, and to provide for the acquisition of water and other property, and the amendatory Acts thereof, provides that irrigation districts may levy an assessment upon any and all property situated in the district to pay for the organization of the district and the bonds voted for such district.

In other words that the assessment in one for local improvement, which benefits the land and therefore is not a tax within the meaning of Section II of Article 13 of the Constitution.

I think this question is untenable, the statute or the law commonly known as the Wright law, provides that all property which is situated in the district shall be assessed in proportion to its value, the revenue thus derived is designated an assessment: Yet in fact it is nothing more nor less than a tax levied upon and assessed against the land, and is a lien ~~against~~ upon the land for which the land may be sold by the district if the assessment is not paid under similar provision to those of the general revenue laws of the State. This assessment in my opinion is a tax upon the land which is prohibited by the Constitution of this State, but as the question here presented has never been passed upon by the Courts of this State and is an important one to the City, since its land has been sold,

I would recommend that the City institute action against the Linda Vista Irrigation district to set aside the sale made by the district of its lands.

William A. Fuller.
City Attorney.

Said report is as follows, to-wit:

To the Common Council of the City of San Diego.

We the undersigned Commissioners appointed by your Honorable Body respectfully report:

That on the 25th day of February and the 7th day of March 1892 a resolution of Intention to open Nineteenth Street from the south line of Sherman's addition to South 21st Street was passed by the Common Council of the City of San Diego, and to assess benefits and damages occasioned by such opening on the property within the district in said resolution described, to which resolution on file reference is hereby made.

That the notice of the passage of said resolution was, by the direction of the Common Council of said City, published in the San Diego Daily Sun for a period of ten days, to-wit: upon the 16th to the 25th days of April 1892 both days inclusive.

That by the direction of the City Council of said City the Street Superintendent of said City caused to be conspicuously published and posted along the line of said Street, notices of the passage of said resolution of intention in the manner and form required by law.

That no objections to the proposed opening of said Street were made or filed with the City Clerk within the time allowed by law or at all.

That on the 4th day of January 1893 the Common Council by joint resolution appointed the undersigned as a board of Commissioners to assess damages and benefits and to have general supervision of all work pertaining to opening and extending said Street as described in said resolution of intention.

That after receiving notice of their said appointment we the undersigned duly qualified and filed our bonds as such Commissioners

and now are and ever since have acted as such.

As such Commissioners we thereupon proceeded to view the lands and examine the property affected by said opening and extension and having considered the testimony presented we have determined the value of the property sought to be taken for public use by reason of said improvement to be as hereinafter set out in Exhibit No 1 and which Exhibit is made a part of this report.

That the costs and expenses of the Commission incident to said improvement are as set out in the itemized account hereto attached as Exhibit No 2 and made a part of this report.

That we have assessed the damages for the land sought to be taken and the costs and expenses of the Commission upon the lands within the boundaries of the district declared to be benefited by the proposed improvement (the exterior boundaries of which district were fixed by said resolution of intention) The several pieces and parcels of land together with the amount of assessment upon each are specifically set out in the list of assessment hereto attached as Exhibit No 3. and made a part of this report.

Exhibit #1.

A triangular piece of land described as follows, commencing at a point where the west line of Nineteenth Street intersects the south line of Sherman's addition to San Diego, thence easterly along the south line of Sherman's addition to a point where said south line of Sherman's addition intersects the northwesterly line of South 21st Street, thence southwesterly along the northwesterly line of South 21st Street to its intersection with the northwesterly line of Kearney Avenue, thence northwesterly along the northeasterly line of Kearny avenue to the intersection with the south line of Sherman's addition, thence easterly along the south line of Sherman's addition to the place of beginning.

Valued at $25.00

That the title to said land is vested in J. S. Manasse and M. Schiller and we do hereby award the said Manasse and Schiller the sum of $25.00 for said land the same to be in full for said land and damages.

Said Ordinance as adopted is as follows, to-wit:

Ordinance No

Ordinance No. 226.

An ordinance providing for work upon streets and sidewalks of the city of San Diego.

Be it ordained by the common council of the city of San Diego, as follows:

ARTICLE 1.

SECTION 1. All street work mentioned herein, in the city of San Diego, Cal., shall be done in accordance with the following specifications, viz:

1. GENERAL SPECIFICATIONS.

1. The street pavement, guttering, curbing, sidewalks, crosswalks and culverts herein provided for are to be constructed according to the plan and cross section approved by the mayor and common council of the city of San Diego, and on lines as they shall be located by the city engineer of said city; and all work shall, during its progress and on its completion, conform to the lines and levels which may from time to time be given by the city engineer and according to the official grades thereof.

2. The work shall be done as follows:
   a. To prepare the roadbed.
   b. To construct and lay thereon the pavement prescribed.
   c. To construct and lay along the exterior lines of said pavement the guttering and curbing prescribed.
   d. To furnish all materials necessary to perform said work and complete the same.

3. The work shall be prosecuted in sections of such respective lengths and widths as may be prescribed to the contractor in writing by the street superintendent, and as indicated to that official by the board of public works, the aim being to keep one side of the width of the street always open for travel.

4. The kind of curbing, gutters, sidewalks, crosswalks and culverts shall be indicated and called for in the resolution of intention.

PAVING—PREPARATION OF ROAD-BED.

5. The earth road-bed on which the pavement is to rest shall be graded to the required depth below the official grade of the street. The surface of such road-bed shall be parallel to and conform in every respect to the cross-section of the pavement when finished. The ground, after being perfectly dressed, shall be thoroughly and repeatedly rolled with a roller not less than two hundred and fifty (250) pounds weight per inch length of the roller; such portions as are inaccessible to a roller shall be made solid by ramming; all soft or spongy places not affording a firm foundation shall be dug out, all trench refillings shall be thoroughly drenched with water and tamped; all depressions which appear shall be refilled with the same material as the road-bed, or other good earth, and shall be well-rammed, and the entire road-bed shall be again rolled. In all places where any filling may be necessary to bring the road-bed to the required heighth it shall be done in layers not to exceed twelve (12) inches in depth and each layer shall be thoroughly tamped and flooded with water as may be required to insure a solid bed. The grading shall include the sidewalks, to the official width, heighth and line, and all necessary trimming and shaping, refilling and tamping, all necessary excavations, depressions and trenches, rolling the road-bed and maintaining the same in a proper condition until paved.

CURBING.

6. All natural stone curbs shall be of good quality, sound, hard, and of uniform color and texture, free from cracks, seams or sand pockets; cut not less than sixteen (16) inches in depth; six (6) inches in width on top, with a batter of one (1) inch to the foot toward the property, on the outer face, thereby making the bottom not less than seven (7) inches wide; not less than four (4) feet in length when dressed; the face of the curbstone shall be dressed smooth and even to a depth of eight (8) inches on paved streets, and twelve (12) inches on unpaved streets below the top on a bevel of one (1) inch toward the property, and dressed not less than one (1) inch down on the back; all curbstones shall be of a uniform thickness and depth throughout and free from seams; no wedge-shaped, warped, or otherwise defective stone will be allowed; the ends shall be dressed smooth, so as to make close joints through the full thickness of the stone, for a distance of not less than eight (8) inches on paved streets and twelve (12) inches on unpaved streets, down from the top, all joints shall be made close-fitting and in good, workmanlike manner, and joints shall be filled with cement grout. The top of the curb to be set true to line and grade; the curb shall rest on not less than four (4) inches of sand, backed up with not less than three (3) inches in width of sand, to within four (4) inches of the top of the curb, all back filling to be thoroughly tamped, so that there will be no displacement of the curb. The curbstones to be cut on a curve on the corner; the radii of the curves shall be ten feet.

7. Artificial stone or concrete curbs shall be eight (8) inches wide by sixteen (16) inches deep, and composed of one (1) part best Portland cement, two (2) parts of coarse, clean, sharp sand, and four (4) parts of broken stone that will go through a two-inch circular ring. The moulds shall be banked up with earth so as not to move with tamping. The concrete shall be filled in and thoroughly tamped to within three quarters (¾) of an inch of grade. The final layer of mortar shall be one to one of cement and clean, coarse sand, and filled in and smoothed with a trowel. After setting for twelve hours it shall then be covered with wet earth three (3) inches deep and kept so covered for ten days. The face of the curb shall be finished the same as the top.

8. Wooden curbs shall be of sound redwood planks three (3) by twelve (12) inches in size, free from sap, well and truly set to the official line of the gutter, and inclined one inch toward the property line at the top of the curb to the curb grade, securely spiked with sixty (60) penny spikes to four by four (4x4) redwood stakes not over eight (8) feet apart and at least three (3) feet long, securely planted, not driven, in hard ground. The radii of the curve shall be ten (10) feet, and the return or curve shall be of not less than three places of one by twelve (1x12) inches thoroughly spiked together, the face of which shall be one continuous piece, extending from property line to property line.

GUTTERS.

9. The gutters may be paved with porphyry or granite blocks, which shall be of a durable and uniform quality, not less than eight (8) inches nor more than twelve (12) inches in length, and not less than four (4) inches nor more than five (5) inches in width, and not less than six (6) inches nor more than eight (8) inches in depth; all blocks to be sufficiently dressed to present rectangular faces, with straight edges on top, bottom and sides, and all blocks whose faces vary more than half an inch from a rectangular shape will be rejected. The sides and ends of the blocks must be so dressed that they will make close fitting joints, the end joints not more than one-half (½) inch wide, and the side joints not more than seven-eighths (⅞) of an inch wide; the top and bottom faces parallel, and any block which has projections or knobs larger than half an inch shall be rejected; stone blocks must be hard, uniform in grain and texture, without free lamination or stratification; stone that will take smooth polish under traffic, that is soft or weather worn, will not be accepted.

The stone blocks shall be set on the bed prepared for them, the end joints not to exceed one-half (½) of an inch, the side joints not to be less than one fourth (¼) nor more than seven-eighths (⅞) of an inch wide. The blocks shall be laid in uniform courses, each course as far as practical to be of uniform depth and width, and shall be so laid that in alternate courses all longitudinal joints shall be broken by a lap of at least two (2) inches; the outer edge shall be laid to form a toothing of not less than four (4) inches; the blocks shall be laid by hand, firmly bedded in four (4) inches of clean sand, and afterwards rammed and the joints filled with refined melted asphaltum. The paving shall commence at the curb and shall conform with the cross-sections of the street three and one-half (3½) feet wide, or of such other width as shall be specified in the resolution of intention.

Or the gutters may be paved to the same width with sound granite or porphyry blocks of irregular sizes, but to the depth of at least eight (8) inches on business streets, and at least six (6) inches on residence streets, the surface of which shall be smooth and of an area of not more than four (4) blocks to the square foot. said blocks shall be firmly bedded together, close to each other, in a bed of sand or gravel at least three (3) inches in depth. The blocks shall be laid by hand and their interstices firmly chinked with spawls of rock and filled with sand or gravel; the blocks shall be rammed to grade.

CROSSWALKS.

10. Single crosswalks shall be constructed of granite slabs not less than two and one half (2½) feet in length and fifteen (15) inches in width, and from six (6) to eight (8) inches thick, having the top roughly pean hammered, their edges squarely pointed down to parallel lines, their ends jointed, They shall be laid in a bed of sand four (4) inches deep, with their top one fourth (¼) of an inch above the street surface.

Double crosswalks shall be constructed of the same kind of slabs and laid in the same manner, but the two lines shall be eighteen (18) inches apart.

CULVERTS.

11. First—All culverts to be constructed in the line of the gutters in the direction of the main flow of water, as directed by the city engineer. The diameter as called for in resolution of intention.

Second—If of vitrified iron stone the material to be not less than one-half fire clay, close grained, well glazed, steam pressed and thoroughly burned clear through so as to show an uniform color when broken. The insides of the collars and the outside of spigot ends to be wiped and both be thoroughly wet and well entered as laid.

Third—The trench for the pipe must be two feet wide, graded true, bottom uniformly solid and level.

Fourth—Joints to be thoroughly cemented with one to one cement, and cleaned on inside with swab or disk.

Fifth—Pipe to be laid upon the bottom of the trench, the trench to be filled with concrete well packed and tamped under the lower quarters of the pipe, and covered with six inches thickness of concrete on both sides and top, except at the crosswalks, where the top covering shall be at least three inches thick. After the concrete is finished and has set for twelve hours it must be covered with earth to a depth of at least six inches and remain so covered for three weeks.

Sixth—"Y" branches with conduit pipes to be laid and concreted in same manner as culverts.

Seventh—If the culverts be of iron, the material to be of best cast iron, coated inside and out with a double coat of parafine paint.

Form as per plan in city engineer's office.

To be constructed and bedded in mortar composed of one part of cement to six parts of gravel.

Eighth—The concrete for laying pipe culverts shall be as follows: One part cement, two parts clean sharp sand or fine gravel, four and one-half parts hard crushed rock. The cement and sand or gravel to be first thoroughly mixed dry in mortar boxes. To this is then added, so as to be thoroughly incorporated therewith, the broken rock, clean, well washed.

Ninth—The whole mass thus obtained to be first well mixed dry and then finally mixed by shoveling it over while being sprinkled with a rose sprinkler. The concrete must be mixed in batches or quantities each not exceeding what can be laid and rammed before the cement has set. There must be no loose water in the heap. The proportions for every batch of concrete to be determined by measures approved by the superintendent of streets.

Tenth—The concrete for bedding cast-iron culverts shall be composed as follows: One part Portland cement, six parts of clean, sharp gravel.

CONTRACTOR.

12. The contractor shall preserve all stakes set for lines, levels or measurements of the work in their proper place until authorized to remove them by the city engineer. And any expense in replacing said stakes, which the contractor or his subordinates may have failed to preserve, shall be borne by the contractor. The contractor shall, when required to do so by the superintendent of streets, remove from the work any overseer, superintendent, laborer or other person employed on the work who shall refuse or neglect to obey the said superintendent of streets in anything relating to the work, or who shall perform his work in a manner contrary to these specifications, or who shall be found to be incompetent or unfaithful; all loss or damage arising from the nature of the work to be done under these specifications, or from any unforeseen obstruction or difficulty which may be encountered in the lines of the work, or from any act or commission on the part of the contractor, or any person or agent employed by him not authorized by these specifications, shall be sustained by the contractor. No work will be considered as accepted which may be defective in its construction or deficient in any of the requirements of these specifications in consequence of the negligence of any officer of the city to point out said defects or deficiency during the construction, and the contractor shall be required to correct any imperfect work, whenever discovered, before the final acceptance of the work. The contractor shall give twelve (12) hours' notice in writing when he shall require the service of the city engineer for laying out any portion of the work. He shall dig all stake holes necessary to give lines and levels. The contractor shall not disturb any monuments or stakes found on the line of improvement until ordered by the city engineer. He shall reset any monuments or stakes when so directed by the city engineer. The contractor shall be required to remove, at his own expense, all ob-

structions, such as trees, stones, old blocks, debris, etc., that may be in the way of making the required improvements; he shall remove all obstructions in a careful manner, and replace the same when necessary that same should be replaced, in as good a condition as found and to the proper grade, and all projecting stone or other walks shall be neatly cut on the inside of the curb, and such cutting and resetting of curbing and replacing of paving shall be done as shall be necessary to make proper connection with the work already done on the cross streets. The contractor shall keep good and sufficient guards around said improvements by fence or otherwise to prevent accident, and shall hang thereon proper lights to burn from dusk until daylight, and the contractor shall hold the city harmless from any and all suits for damages arising from or out of the prosecution of said improvements or any part thereof. The right to lay sewer connections, to grant permission for house connections, for sewer, water and gas pipes at any time prior to the laying of said pavement is expressly reserved to the city, and the city, through its superintendent of streets, reserves the right of suspending the work on said pavement at any part thereof, and at any time during the construction of the same for the purpose above named, or on account of fail ure to comply with these specifications, without other compensation to the contractor for such suspension other than extending the time for completing the work as long a period as the same shall be delayed by such suspension. When any contractor, during the progress of his work, fails to comply with the provisions of these specifications either in respect to the materials employed or the manner of employing them, the superintendent of streets shall notify the common council at once of such failure, and until their decision is reached on the point at issue shall require a suspension of said work from the contractor.

No materials of any kind shall be used until they have been examined and approved by the superintendent of streets, who shall have full power to condemn any work or materials not in accordance with the specificationS, and to require the contractor to immediately remove any work or materials so condemned, and at his own expense to replace said work or materials to the satisfaction of the said superintendent of streets and the decision of the said superintendent of streets shall be final as to the quality of work or materials. In case the contractor shall neglect or refuse, after written notice, to remove or replace said rejected work or materials they shall be removed and replaced by the said street superintendent at the contractor's expense.

SPECIAL SPECIFICATION NO. 1.

For Porphyry Macadamizing.

1. BUSINESS STREETS.

SECTION 2. The macadamizing shall be with hard porphyry rock, and no other material soall be used but such as will serve to cement or pack the broken stone. For this purpose fine porphyry screenings may be used, but not any sand. There shall be three courses laid to the respective depths before rolling as follows: The first layer shall be composed of roughly broken rock and four (4) inches thick; the second layer shall be three (3) inches thick, and composed of broken rock not larger than will pass through a three (3) inch circular ring; and third layer, or street surface, shall be one inch thick, and composed of such broken rock and top dressing as will pass though an inch circular ring. The first and second layers shall be separately rolled and the surface of the roadway shall be well watered and rolled down with a roller of at least seven (7) tons weight and having at least two hundren and fifty (250) pounds weight to the lineal inch.

II. FOR RESIDENCE STREETS.

The macadamizing on residence streets shall be of the same material and with the same surface watering and rolling and weight of roller as already specified for business streets, but the material shall be laid in one course and to such depths as will be eight (8) inches at the crown of the street and six (6) inches at the gutters before rolling, and decreasing uniformly from the crown to the gutters. The lower half of the layer may be of roughly broken rock, and the upper half shall be of such sizes as will pass through a three (3) inch circular ring, including the surface of top dressing one inch thick.

III. FOR SUBURBAN STREETS.

The macadamizing of suburban streets shall be of the same material and of the same surface watering and rolling and weight of roller as already specified for business and residence streets, but the material shall be laid in one course to the uniform depth of six (6) inches before rolling, of which the lower five (5) inches may be of roughly broken rock, and of such smaller sizes as will pass through a two and one-half (2½) inch circular ring, but the surface shall be of screenings and top dressing and at least one inch thick. Where the roadway exceeds twenty (20) feet in width the macadamizing shall extend over at least twenty (20) feet of said width.

At the completion of the macadamizing on business, residence and suburban streets the contractor shall remove all surplus material at his own expense.

Whenever the city engineer certifies to the effect that the steep grade of a hilly street will not permit the use of a roller of seven (7) tons weight the street superintendent may, if the board of public works so indicate, permit the use thereon of a roller of not less than three (3) tons weight.

SPECIAL SPECIFICATION NO. 2.

I. For Eight Inch Broken Stone Base and Bituminous Rock Surface.

SECTION 3. A bed of hard rock, roughly broken and presenting no rounded or water-worn surface, eight (8) inches thick, after being laid and rolled as hereinafter provided, shall be placed on the sub-grade in three (3) layers as follows:

The first layer shall be four (4) inches thick and composed of rock of all sizes that will go through a four (4) inch ring.

The second layer shall be three (3) inches thick and composed of rock of all sizes that will go through a three (3) inch ring.

The third layer shall be one inch thick and composed of rock of all sizes that will go through a one (1) inch circular ring.

Each layer shall be thoroughly and separately rolled with a roller weighing not less than two and one-half (2½) tons per lineal foot, and have the thickness required after being thus rolled.

Upon this substratum of broken rock there shall be spread and constructed a layer or wearing surface composed of pulverized carbonate of lime and natural bituminous rock, containing asphaltic material and sand in the following proportions, to-wit:

Pulverized carbonate of lime.....	9 to 13 parts
Bituminous rock-sand.....	79 to 74 parts
Asphaltic material.....	12 to 13 parts
	100 100

and which shall be prepared and laid in the following manner:

The bituminous rock shall be heated to a temperature of not less than three hundred (300) nor more than three hundred and fifty (350) degrees Fahrenheit, thoroughly disintegrated and brought to a required standard: the pulverized carbonate of lime, while cold, will be mixed with the hot bituminous rock at the required temperature and in the proper proportions and in a suitable apparatus to effeat a perfect mixture.

The pavement mixture prepared in the manner thus indicated shall be uniformly spread by means of hot iron rakes over the foundation and rolled whilst hot with rollers weighing not less than two hundred and fifty (250) pounds to the lineal foot, and about two and one-half (2½) feet in length, until the layer thus superimposed presents a uniform surface and has a thickness of two (2) inches after being compressed at least two-fifths (2-5), said surface conforming at all points to the finished surface of the street as shown on the plan and cross-section in the office of the city engineer and street superintendent, after which a small amount of hydraulic cement must be swept over it and then rolled with a steam roller, the rolling being continued with a steam roller weighing not less than two hundred and fifty (250) pounds to the inch, run for not less than five (5) hours for every one thousand (1,000) yards of surface.

II. For Six Inch Broken Stone Base and Bituminous Rock Surface.

A bed of hard rock, roughly broken and presenting no rounded or water-worn surface, six (6) inches thick, after being laid and rolled as hereinafter provided, shall be placed on the sub-grade in two layers as follows:

The first layer shall be three (3) inches thick, and composed of rock of all sizes that will go through a three (3) inch ring.

The second layer shall be three (3) inches thick, and composed of rock of all sizes that will go through a two (2) inch circular ring.

Each layer shall be thoroughly and separately rolled with a roller weighing not less than two and one-half (2½) tons per lineal foot, and have the thickness required after being thus rolled.

Upon this substratum of rock there shall be spread and constructed a layer or wearing surface composed of pulverized carconate of lime and natural bituminous rock, containing asphaltic material and sand in the following proportions, to-wit:

Pulverized carbonate of lime.....	9 to 13 parts
Bituminous rock, asphaltic material.....	12 to 13 parts
Sand.....	79 to 74 parts
	100 100

and which shall be prepared and laid in the following manner:

The bituminous rock shall be heated to a temperature of not less than three hundred (300) nor more than three hundred and fifty (350) degrees Fahrenheit, thoroughly disintegrated and brought to the required standard; the pulverized carbonate of lime, while cold, will be mixed with the hot bituminous rock at the required temperature and in the proper proportions and in a suitable apparatus to effect a perfect mixture.

The pavement mixture prepared in the manner thus indicated shall be uniformly spread by means of hot iron rakes over the foundation and rolled whilst hot with rollers weighing not less than two hundred and fifty (250) pounds to the lineal foot, and about two and one-half (2½) feet in length, until the layer thus superimposed presents a uniform surface and has a thickness of two (2) inches after being compressed at least two-fifths (2-5), said surface conforming at all points to the finished surface of the street as shown on the plan and cross-section in the office of the city engineer and street superintendent, after which a small amount of hydraulic cement must be swept over it and then rolled with a steam roller weighing not less than two hundred and fifty (250) pounds to the inch, run for not less than five (5) hours for every one thousand (1,000) yards of surface.

III. For Four Inch Hydraulic Concrete Base and Bituminous Rock Surface.

Upon the sub-grade or roadbed, constructed in accordance with the general specifications hereinbefore set forth for the "Preparation of Roadbed," there shall be laid a bed of hydraulic cement concrete four inches in thickness, to be made as follows: One measure of cement, equal to the best quality of Portland cement, and two measures of clean, sharp, washed sand, free from clay, will be thoroughly mixed dry and then made into mortar with the least possible amount of water; roughly broken stone of acceptable dimensions and character, thoroughly cleaned from dust and dirt, drenched with water, but containing no loose water in the heap, will be incorporated immediately with the mortar in such quantities as will give a surplus of mortar when rammed. This proportion, when ascertained, will be regulated by measure. Each batch of concrete will be thoroughly mixed, the mixing being continued ou the board until each piece of stone is completely coated with mortar. It will then be spread and at once thoroughly compacted by ramming until free mortar appears upon the surface. The whole operation of mixing and laying each batch will be performed as expeditiously as possible, with the use of a sufficient number of skilled men.

No gravel will be used in the concrete, but only angular fragments of stone having rough faces obtained by fracture and measuring not more than two and one-fourth (2¼) inches in their largest dimensions nor less than one-quarter (¼) of an inch in their smallest dimensions. The upper surface of the base will be made exactly parallel with the surface of the pavement to be laid, and will be suitably protected from the action of the wind and sun until set.

Upon this substratum of concrete there shall be spread and constructed a layer or wearing surface two inches in thickness, composed of natural bituminous rock, containing no less than fifteen (15) per cent. of hard, firm and elastic asphaltic material and eighty-five (85) per cent. of sand, to be prepared and supplaid in the following manner, to-wit: The bituminous rock shall be heated to a temperature of not less than three hundred (300) nor more than three hundred and fifty (350) degrees Fahrenheit, and thoroughly disintegrated, and shall be uniformly spread by means of hot iron rakes, over the foundation of broken rock, and rolled whilst hot with rollers weighing not less than two hundred and fifty (250) pounds to the lineal foot, and about two and one half (2½) feet in length, until the layer thus superimposed presents a uniform surface and has a thickness of two (2) inches, after being compressed at least two-fifths (2-5), said surface conforming at all points to the finished surface of the street as shown on plan and cross-section in the office of the city engineer and superintendent of streets, after which a small amount of hydraulic cement must be swept over it and then rolled with a steam roller, the rolling being continued with a steam roller weing not less than two hundred and fifty (250) pounds to the inch, run for not less than five hours for every one thousand (1,000) yards of surface. Under this specification the paving may be made from curb to curb.

SPECIAL SPECIFICATION NO. 3.

Granite Paving.

SECTION 4. Granite blocks shall be of a durable and uniform quality, selected for this purpose, not less than eight (8) inches nor more than twelve (12) inches in length, and not less than four (4) inchhs nor more than five (5) inches in width, and not less than six (6) inches nor more than eight (8) inches in depth; all blocks to be sufficiently dressed to present rectangular faces, with straight edges on top, bottom and sides; and all blocks whose faces vary more than half an inch from a rectangular shape will be rejected. The sides and ends of the blocks must be so dressed that they will make close-fitting joints, the end joints not more than one-half (½) inch wide and the side joints not more than seven-eighths (⅞) of an inch wide, the top and bottom faces parallel, and any block which has projections or knobs larger than half an inch will be rejected. Granite blocks must be hard, uniform in grain and texture, without free lamination or stratification; granite that will take smooth polish under traffic, that is soft or weather worn, will not be accepted. It is expressly understood that granite wearing roughly, and therefore affording better foothold for horses, will be considered preferable to the hardest; soft or weather worn stones obtained from the surface of the quarry will not be accepted. There will be laid a bed of fine sharp sand, washed and dried, four (4) inches in thickness, to serve as a bed for the blocks, which will be laid directly upon and imbedded in it, with close joints. The granite blocks are to be laid at right angles with the line of the street, each course to be of blocks of a uniform width and depth, and so laid that all longitudinal joints shall be broken by a lap of at least two (2) inches. When thus laid the blocks will be immediately covered with clean, fine, hot gravel in proper quantities, raked until all the joints become filled therewith, and the blocks will then be carefully rammed to a firm, unyielding bed, with uniform surface and with proper grade. There will then be poured into the joints, at a temperature of three hundred (300) degrees Fahrenheit the best refined asphaltum. It will be poured into the joints of the pavement until the sand beneath and the gravel between the blocks will absorb no more, and the joints are filled flush with the upper surface of the pavement. Dry, hot gravel, not larger than three-fourths (¾) of an inch in any dimension will be poured along the joints, and will then be consolidated by tapping with a light hammer. Not less than three (3) gallons of refined asphalt to each square yard of pavement will be required.

The blocks will be carefully inspected upon delivery by the superintendent of streets, and all blocks which do not conform to the foregoing specifications in size or quality, or samples, must be removed at once from the work by the contractor at his own expense. The contractor must furnish at his own expense such laborers as may be deemed necessary to assist in inspecting and culling the blocks. The contractor will be required to use throughout the work material as good in every respect as the samples accompanying the proposals.

SPECIAL SPECIFICATION NO. 4.

For Broken Stone Base, and Asphaltum Surface.

SECTION 5. A bed of hard broken stone eight (8) inches thick, after being laid and rolled as hereinafter provided, shall be placed on the sub-grade in three layers, as follows:

The first layer to be four (4) inches thick and composed of broken stone of all sizes that will pass through a four (4) inch ring.

The second layer to be three (3) inches thick and composed of broken stone of all sizes that will pass through a three (3) inch ring.

The third layer to be one (1) inch thick and composed of broken stone of all sizes that will pass through a one (1) inch ring.

Each layer to be thoroughly rolled separately with a roller weighing not less than two and a half (2½) tons per lineal foot; the bed of stone to have a thickness of eight (8) inches after being thus rolled. Upon this substratum of broken rock there shall be spread and constructed a layer of asphaltum prepared as follows: One (1) ton of the purest and heaviest asphaltum equal to the best and highest grade of Moore's asphaltum, one-third (⅓) of a ton of heavy black oil, three (3) tons of dry river sand, and one-third (⅓) of a ton of ground limestone or shell, all of which to be mixed and heated until it melts and becomes thoroughly disintegrated, but not enough to burn, and shall then be uniformly spread by means of hot iron rakes over the foundation of broken rock and rolled whilst warm with rollers weighing not less than two hundred and fifty (250) pounds to the lineal foot, and about two and a half (2½) feet in length, until the layer thus superimposed presents a uniform surface and has a thickness of two (2) inches after being compressed at least two-fifths (2-5), said surface conforming at all points to the finished surface of the street as shown on plan and cross-section in the office of the city engineer and superintendent of streets, after which a small amount of hydraulic cement must be swept over the surface and then rolled with a steam roller weighing not less than two hundred and fifty (250) pounds to the inch run, the rolling being continued for not less than five (5) hours for every one thousand (1,000) yards of surface.

SPECIAL SPECIFICATION NO. 5.

For Bituminous Rock Pavement on Natural Earth Foundation.

PREPARATION OF ROAD-BED.

SECTION 6. The earth road-bed on which the pavement is to rest shall be graded to the required depth below the official grade of the street. The surface of such road-bed shall be parallel to and conform in every respect to the cross-section of the pavement when finished. The ground, after being perfectly dressed, shall be thoroughly and repeatedly rolled with a roller of not less than two hundred and fifty (250) pounds weight per inch length of the roller; such portions as are inaccessible to a roller shall be made solid by ramming; all soft or spongy places not affording a firm foundation shall be dug out, all trench refillings shall be thoroughly drenched with water and tamped; all depressions which appear shall be refilled with the same material as the road-bed, or other good earth, and shall be well rammed, and the entire road-bed shall be again rolled. In all places where any filling may be necessary to bring the road-bed to the required height it shall be done in layers not to exceed twelve (12) inches in depth, and each layer shall be thoroughly tamped and flooded with water as may be required to insure a solid bed. The grading shall include the sidewalks to the official width height and line, and all necessary trimming and shaping, refilling and tamping, all necessary excavations, depressions and trenches, rolling the road-bed and maintaining the same in a proper condition until paved.

No bituminous rock pavement laid on natural earth foundation shall be laid on fills over two feet and under four feet in depth, unless the same has been graded for a period of not less than six months; over four feet and under eight feet one year, over eight feet and under fifteen feet two years, over fifteen feet three years. All places where a solid foundation cannot be had (as in the case of sand or other yielding earth) the surface to be paved shall be excavated to a depth of not less than ten inches below the official grade, except in case a satisfactory foundation should be obtained at a less depth, and a coating of earth of a compact character of not less than eight inches in depth shall be deposited equally over the surface to be coated and the same to be thoroughly rolled and tamped in the same manner as in case one.

Upon this substratum of natural earth there shall be spread and constructed a layer or wearing surface composed of pulverized carbonate of lime and natural bituminous rock, containing asphaltic material and sand in the following proportions, to wit:

Pulverized carbonate of lime	9 to 13 parts
Bituminous rock—sand.....	79 to 74 parts
Asphaltic material.....	12 to 13 parts
	100 100

and which shall be prepared and laid in the following manner:

The bituminous rock shall be heated to a temperature of not less than three hundred, (300) nor more than three hundred and fifty, (350) degrees Fahrenheit, thoroughly disintegrated and brought to a required standard; the pulverized carbonate of lime, while cold, will be mixed with the hot bituminous rock at the required temperature and in the proper proportions and is a suitable apparatus to effect a perfect mixture.

The pavement mixture prepared in the manner thus indicated shall be uniformly spread by means of hot iron rakes over the foundation and rolled whilst hot with rollers weighing not less than two hundred and fifty, (250) pounds to the lineal foot, and about two and one-half (2½) feet in length, until the layer thus superimposed presents a uniform surface and has a thickness of two, (2) inches after being compressed at least two-fifths (2-5), said surface conforming at all points to the finished surface of the street as shown on the plan and cross section in the office of the city engineer and street superintendent, after which a small amount of hydraulic cement must be swept over it and then rolled with a steam roller. the rolling being continued with a steam roller weighing not less than two hundred and fifty (250) pounds to the inch, run for not less than five (5) hours for every one thousand (1 000) yards of surface.

At all places where the bituminous pavement ends and the natural surface or other pavement begins, a trench shall be dug and the bituminous rock turned over the end and continued in a vertical direction for the depth of one foot and the trench to be refilled and thoroughly tamped. All bituminous rock pavements to be laid on natural earth foundation shall be laid between the 1st day of June and the 1st of November of each year.

ARTICLE 2.

CONCRETE SIDEWALKS.

SECTION 1. That all sidewalks hereafter constructed within that portion of the city of San Diego which is bounded on the north by the north line of "A" street, on the west by the west line of Fourth street, on the east by the east line of Sixth street, and on the south by the north line of "L" street, shall extend from the curb line to the property line, and be constructed of artificial stone or cement with a base of concrete not less than three inches in thickness, and a wearing surface not less than three-fourths of an inch in thickness; provided that driveways no more than eight feet wide and where necessary, across sidewalks may be constructed with a base as above specified and a wearing surface of natural bituminous rock not less than one and one-half inches in thickness.

FOR LESS THAN FULL WIDTH.

SECTION 2. The pavement shall be five (5) feet, four (4) inches wide, and located in the center of the sidewalk.

PREPARATION OF BED.

SECTION 3. The earth bed on which the pavement is to rest shall be graded to the required depth below the official grade of the street; the surface of such bed shall be parallel to and conform in every respect to the cross-section of the pavement when finished; the ground after being perfectly dressed, shall be made solid by ramming or rolling. All soft or spongy places not affording a firm foundation shall be dug out; all trench refilling shall be thoroughly drenched with water and tamped; all depressions which appear shall be refilled with the same material as the bed or other good earth; and shall be well rammed. In all places where any filling may be necessary to bring the bed to the required height it shall be done in layers not to exceed twelve (12) inches in thickness, and each layer shall be thoroughly drenched and tamped to insure a solid bed.

SECTION 4. The base or foundation shall be three inches in thickness composed of one part best Portland cement, two (2) parts of coarse, clean, sharp sand, and four (4) parts of broken stone or clean, well-washed gravel that will go through a two-inch circular ring. The concrete shall be filled in and thoroughly tamped in within three quarters (¾) of an inch of grade. The final layer of mortar to be laid before the base becomes set or dry and shall be one to one of best Portland cement and clean, coarse sand, colored to a dark slate color, and smoothed with a trowel. After setting for twelve hours it shall then be covered with wet earth three (3) inches deep and kept so covered for ten days.

ARTICLE 3.

BITUMINOUS ROCK SIDEWALK.

SECTION 1. Preparation of earth bed to be the same as is provided for artificial stone or concrete sidewalks, upon which shall be placed a wearing surface of bituminous rock of new material one inch in thickness, laid under the same requirements as as is provided for the paving of streets of the same material.

ARTICLE 4.

SECTION 1. The width of all sidewalks in the city of San Diego shall be and they are hereby established as follows:

SECTION 2. On all streets less than seventy-five (75) feet in width, ten (10) feet; on streets seventy five (75) feet in width, twelve (12) feet; on streets eighty (80) feet in width, fourteen (14) feet; on streets over eighty (80) feet and not exceeding one hundred (100) feet in width, sixteen (16) feet; on streets exceeding one hundred (100) feet in width, twenty (20) feet.

SECTION 3. All ordinances or parts of ordinances in conflict herewith are hereby repealed.

SECTION 4. This ordinance shall take effect and be in force from and after its passage and approval and three publications in the SAN DIEGO UNION AND DAILY BEE.

The Report of the City Auditor showing the condition of the various Funds of the City Sept. 7th 1893. was read and ordered filed.

The following supplimentary report of the City Auditor recommending the transfer of different Funds. was read and upon Motion of Delegate Brown adopted. Said Report is as follows to wit:

To the Honorable Common Council
of the City of San Diego, California.

Gentlemen:

I herewith present a statement showing the conditions of the various Funds of the City of San Diego, ah this date.

You will find therefrom that the Sheet Fund has to its credit $2460.47. As the treasurer is holding $2500.00 in this Fund for the "Old Town Road", the Fund is in fact overdrawn $39.53. I therefore recommend the transfer of $694.10 from the Water Bond Sinking & Interest Fund to the Sheet Fund, which amount will carry the Sheet Department through this Month.

The Sheet Sprinkling Fund, you will note, is overdrawn $215.85 I recommend the transfers to this Fund of $1000.00 from the Water Bond Interest and Sinking Fund. The expense of this department for the Month of August was $1123.20. If you make thy transfer recomended the amounts transferred together with the amounts received on account of License, will carry the Sheet Sprinkling Department through this Month.

The Salary Fund has to its credit $1326.11. the Monthly Pay Roll averedges $3000.00. I recommend the transfer from the Bank Dividend Fund to this Fund the Sum of $910.00; this, Amounts, with amounts on hand and amounts received from license, etc. should carry the Salary Fund through this & next Month.

Very Respectfully Submitted

Said communication is as follows;

To the Common Council
City of San Diego.

Gentlemen;

The accompanying Communication from the City Engineer is respectfully referred to your Honorable body for consideration.

The Board of Public Works recommend that the survey of City Lands be held in Obeyance for the present, owing to the State of the finances of the City.

Respectfully Submitted.

By order of the Board of Public Works.

S. W. Belding, Secretary.

Also.

To the Honorable Board Public Works.

Gentlemen;

In view of the proposed survey of the City Lands, I wish to respectfully state that it will be impossible to attend to the survey personally, & to the other duties of my Office also.

I therefore pray You for authority to employ an assistant Engineer and three helpers to do this work. It will be economy to establish a camp in the field as the distance from the City is so great that it will consume the greater path of each day in going and coming.

The expense to the City will be about as follows:

Assistant Engineer per month		$100.00
2 Chainmen @ $50.00	" "	100.00
Team hire	" "	20.00
Incidentals (note Books, stakes etc)	"	20.00
Cook	"	40.00
		$280.00

A camping outfit will be required, which can be rented undoubtedly for a nominal sum.

Yours Respectfully
Edwin M. Capps City Engineer.

A Communication from the City Auditor Explanatory of the recommendations of the Finance Committee of this Board in the matter of the Survey of the City's Lands, was read and is as follows, to wit:

San Diego, California, Oct. 16th, 1893.

To the Honorable Board of Delegates of the City of San Diego, California:

Gentlemen:-

In Yesterday's issue of the San Diego Union appeared an article, headed "Trickery Exposed", which reflects on your honorable Finance Committee in their recommendations of September 29th that the survey of the Citys Lands Be Deferred until after the First of January 1894.

In connection with this report, and in justice to the said Committee, I desire to make the following statements to your honorable Body, viz:

At a meeting of the Joint Ways & Means Committee, in August, to consider the financial condition and outlook of the City, it was the understanding that all matters coming before the Council, requiring an expenditure of money, should, if possible, be deferred until after the close of the present fiscal year: Sometime after this meeting of the Joint Ways and Means Committee, Delegate Canby, of the Finance Committee, called on me and desired to know if there was sufficient money available to pay for surveying the Public Lands.

I informed him that the City would not raise sufficient money to carry it through the present year, unless all matters possible, requiring and outlay of money, be delayed until after January 1st, and at the same time informed him of the sense of the Joint Ways and Means Committee in this connection.

I am of the opinion that the information thus given Delegate Canby influenced your Finance Committee in its said recommendation of Sept. 29th and that

it was unfair in said newspaper article to accuse the Committee of concocting the report from base motives.

When before said meeting of the Joint Ways and means Committee, I recommended that the survey of the Public Lands be delayed until after the present fiscal year for the following reasons, viz:

1st. That all the revenue of the city for the present year was needed for other purposes.

2nd. That in my opinion the Statues of Limitation would not run against the city in favor of adverse claimants.

3rd. That there was no complete list in existance of the City's Lands, and it would require three or four months work on the City's abstract to prepare such a list, that would enable the City Engineer to make a survey of <u>all</u> the land owned by the city: and if the city intended to make a survey of its lands for matter of record, certainly all its lands should be included in such survey.

Afterwards, when the qustion of surveying the lands came before the Council in a prominent manner, I was informed by certain of the members that it was of great importance that the survey be started at once; and that the money used for such purpose would be better employed than used in any other manner.

Thereupon advised delegate Barrows, Chairman of the Public Lands Committee, to make use of the Delinquent Tax Money, which was subsequently done.

Very Respectfully
Nath R Titus
Auditor.

San Diego, October 27th, 1893.

To the Common Council of the
City of San Diego.

Gentlemen:-

Your Joint Finance Committee to whom was referred the Message of the Mayor, of date October 16th, 1893, requesting the Council to direct City Treasurer Sowell, to keep the City's Funds in the City Treasury, find after a careful investigation that the Funds of the City have not been at any time outside of the Treasurer's possession, and that owing to the fact that the vault in the present City Hall not being supplied with a time lock, we consider it not a safe place for the City's Funds at the present time, and that a safe deposit vault in one of the City's Banks is the safest place to keep said Funds, and that upon advice of the City Attorney, find that the City Treasurer has the authority to keep said Funds in such a safe deposit vault.

And we respectfully ask your Honorable body for further time in which to report in the matter of Treasurer Sowell's Bondsmen as requested in said message of the Mayor.

We also recommend that the Board of Public Works be instructed to investigate and correspond with some Lock Company with a view of having the present vault used by the City made secure by the addition of a time Lock.

Respectfully Submitted.

The Report of The Joint Committee on Public

Lighting to whom was referred the matter of the City's acquiring ownership of a Public Lighting System, and transmitting an estimate from the General Electric Company of the cost of installing and maintainance of a Municipal Lighting Plant, in said City of San Diego, was read and adopted and is as follows:

To the Common Council of the
City of San Diego, Calif.

Gentlemen:-

Your Committee on Public Lighting of the Board of Aldermen, and your Committee on Gas and Electric Lights of the Board of Delegates, charged by Joint Resolution No. 329, with investigating as to the advisability of the City voting Bonds for the construction of an Electric Light Plant, Respectfully report:

That your Committees after several meetings, and thorough Examination into the matter, are convinced that it is for the best interest of the City to own its Electric Light System.

We find the City is now paying about $20000.00 per year for Electric Lights, and that to have erected the additional Masts now under consideration (and we can not deny the right of the people to them) will increase this amount nearly $5000.00 per year.

We find as is shown from the estimate of the Agent of the General Electric Company, which is herewith submitted as a part of this report, that an Electric Light Plant, sufficient to furnish 150 2000 Candle Power Arc Lights can be put in for $75000.00.

150 Arc Lights will supply the City with all the lights now furnished and provide the four new Masts wanted, and leave 30 lights additional that may be sold to private consumers, or caused for additional Street Lighting as the City may desire.

The estimate of the General Electric Company which is hereto attached also covers the cost of operating and maintaing an Electric Light Plant, and we think clearly shows it will be for the best interest of the City to own its Electric Light System.

And we therefore recommend that the Council pass

the necessary Ordinance or Ordinances to at once submit this proposition to the qualified Electors of this City; Also that the City Attorney be instructed to prepare and present such Ordinances as soon as possible.

All of which is Respectfully submitted.

Estimate of Plant.

To George D. Goldman
City Clerk of San Diego.

From the General Electric Co. R. B. Elder. Agent. Pacific Dist. 15 First Street. San Francisco. Cal.

Estimate of cost of installation and maintenance of a Municipal Lighting Plant at San Diego.

The estimate is based on installing a 150-2000 candle power Arc Plant.

Electric Plant

3 - 50 Light 2000 candle power arc dynamos.
150 double carbon arc lamps, globes and hoods.
Switch board and stastion instruments set up in San Diego. ($18,000.00) ---------- $18,000.00

Pole Line

16 Masts.
24 Wash Irons.
22 Miles pole line including poles material and Labor $26,000.00

Steam Plant

1 - 200 horse power Corliss Engine.
3 - 80 horse power boilers.
Air compressor and condensor,
Feed pumps, Hot well, piping foundation,
counter shafting and belting, erection. $21,000.00
Real Estate and building

Total. $75000.00

We were informed that you required sixteen masts; these are therefore included in the estimate. Unless you have particular reasons for their use it is now the usual policy to hang the lights lower and scatter them, placing them at Street intersection.

This latter construction will be much cheaper.

In relation to the Steam plant we assume that you will locate near the water, and can therefore operate a condensing engine, which though higher in first cost than a non-condensing is much more economical in the matter of fuel. We have estimated on a condensing plant therefore.

To operate 150 arc Lamps including all losses in lines and friction will require 150 horse power: as we have included a 200 horse power plant you will have a surplus of 50 horse power to be used for running a 500 light incandescent electric lighting plant to illuminate the interior of your various buildings.

This 500 light plant completely installed will not cost over $5000.00.

Our estimate on land and building may be at fault and be altered to suit your views. This estimate is based on using the best material, workmanship, and the highest type of modern machinery.

Cost of Running.---- Yearly basis.

Expenses variable with the time of burning and based on ten hours per night for 365 nights.

The largest engine Builders will guarantee to operate a plant on a consumption of 2½ lbs. of good coal per horse power per hour, and on one of our electric roads the guarantee was 1 ⅝ lbs.

We will estimate on the 2 ½ lb. basis, at $8 per ton good hard coal can be landed in San Diego. so if we put the price at $9. we are absolutely safe.

We will guarantee to burn 150 lights by the application of 120 horse power, so if we allow 30 horse power for losses in friction, belt slippage and lines, a total of 150 horse power will be more than safe.

150 horse power for 365 days 10 hrs per day
2 ½ lbs per H. P. hour. 1 363.750 lbs = 610.2 tons

add 10 per cent. and say 675 tons at $9.		$6,075.00
Carbons. 150 lamps for 365 days, 10 hours per day at 1½ M. at $15.		1.350.00
Oil and waste	$300	
Water	$400	700.00
		$8.125.00

This is for 150 lamps burning 365 for 10 hours per

day or 547,500 lamp hours, making the cost per lamp hour a little less than 1½ cents.
This section of your operating expenses varies with the time of burning and if you run on a moonlight schedule will be greatly reduced from $8125.00

Fixed Expenses

One Superintendent	$1500.	
One Engineer	$1080.	
One Fireman	$900.	
One Lineman	$900.	
One Trimer	$780	$5160.00
Interest on 75000. at 6 per cent		4500.00
Redemption in 40 years		1875.00
Renewal Globes		102.00
Insurance on $40.000 at 2½ per cent		1000.00
Horse and Telephone		300.00
Repairs		1800.00
Total fixed expenses		$14737.00
Total variable expenses		8125.00
		$22862.00

Cost per lamp per year (365 days) at 10 hrs per day. per lamp $53.08 per year.

Moonlight Basis.

According to the report of the weather bureau there are taking the full nights and parts of nights. 96 nights in the year which the plant would have to run, therefore there would be 269 nights of 10 hours each during which the plant would run. making 403.500 lamp hours.

403500 L.H. at 1½ ¢	$6052.50
Fixed Expense,	14737.00
Total	$20789.50

This is an average of $138.60 per lamp per year.
To sum up; for $75000. you can completely install a 150 light arc plant: you can operate your lamps at the rate of $138.60 per year which includes a redemption fund of one-fortieth the cost of the entire plant including real estate, in forty years the plant will be paid for.

The following Reports of the City Engineer and
Joint Street Committee in the matter of Constr-
ucting a Levee to turn the channel of the
San Diego River above the bridge at Old Town were read
and adopted.

Nov. 29th 1893.

To the Common Council.

Gentlemen:-

In response to Joint Resolution No
341 to investigate and report measures to confine the
San Diego River to its present channel above the Bridge
at Old Town. I would report that after a thorough
investigation and a preliminary survey, I think the
construction of a Levee, beginning at the North end
of the Iron Bridge thence running diagonally across
Block 384 of Old Town to the intersection of Pine &
Street, thence on Pine Street to Highland at or
near J. P. Jones residence will be effectual.
Length of Levee 1550 ft. width on top 18 feet, num-
ber cubic yds of Earth 6180. All of this earth will

have to be hauled from old fork hill, at South end of Bridge an average haul of about 1000 feet. therefore the total cost will be about as follows:

6100 Cubic yards @ 40¢ $2440.00
Culvert with Gate 100.00
Incidentals (Stone for Rip Rap) 200.00
$2740.00

Yours Respectfully
Edwin M. Capps.
City Engineer

San Diego Cal. Nov 28th 1893

To the Common Council
City of San Diego.

Gentlemen:-

The within report of the City Engineer in the matter of confining the San Diego River to its present channel about the bridge at Old Town, having been presented for our consideration,

We would recommend that said work be done in accordance with the City Engineers report: providing that the two Rail Roads, the Cal. Southern, and the Pacific Beach will pay one third each of the expense.

San Diego Cal. 3rd 2nd 1893

To the Common Council of the City of San Diego, California.

Gentlemen:

In the matter of the petition of Timothy Ryan referred to me and herewith transmitted to your honorable body for a lease of certain lands in the City Park for an experimental garden or nursery I beg to advise you that I am of the opinion that the City cannot make a lease for any portion of the Park which would be valid or protect Mr Ryan without an act of the Legislature authorizing cities to make such leases.

But the City can if it desires under proper terms and restrictions by ordinance grant to Mr Ryan permission to use and occupy certain lands of the Park

for the purposes mentioned in his petition.

Respectfully submitted
William F. Fuller.

City Clerk

The Report of the Commissioners heretofore appointed to extend 28th Street in the City of San Diego, across the Rightaway of the Southern California Railway Company, was read and on motion adopted and confirmed by the following vote, to wit:

Ayes Delegates Pauly: Sweeney: Bradley: Hakes: Olmstead: Baker: Robinson: Krook: Jones: Barrows: Dunkin: Rohrer and Barker.

Noes none
Absent Delegates Havice: Brown and Davis.

Said Report as adopted is as follows:

To the Common Council of the
City of San Diego.

We the undersigned Commissioners appointed by your Honorable body respectfully report.

That on the 4th and 7th day days of April 1892 a resolution of intention to extend Twenty Eighth Street in the City of San Diego, across the Right of way of the Southern California Railway Company was passed by the Common Council of the City of San Diego, and to assess benefits and damages occasioned by such opening on the property within the district in said resolution described. Reference to which resolution on file is hereby made.

That the notice of the passage of said resolution was by the direction of the Common Council of said City published in the San Diego Daily Sun for a period of ten days to wit. on 22nd day of April to the 1st day of May 1892. both days inclusive.

That by the direction of the City Council of said City the Street superintendent of said City caused to be conspicuously posted and published along the line of said Street notice of the passage of said resolution of intention in the manner and form required by law.

That objections to said proposed opening and extending of said Street were made and filed by the time allowed by law.

That upon the hearing of said objections the City Council overruled said objections and ordered the work to be done.

That on the 25th day of April 1893 the Common Council by joint resolution appointed the undersigned as a Board of Commissioners to assess damages and benefits and to have general supervision of all work pertaining to opening and extending of said Street as described in said resolution of intention.

That after receiving notice of said appointment we the undersigned duly qualified and filed our bonds as such Commissioners and ever since and now are acting as such

We thereupon proceeded to view the lands and examined the property affected by said opening and extension and having considered the testimony presented we have determined the value of the property sought to be taken for public use by reason of said improvement to be as hereinafter set out in Exhibit I. and which is made a part of this report.

That the costs and expenses of the Commission incident to said improvement are set out in the itemized account hereto attached as Exhibit II. and which is made a part of this report.

That we have assessed the damages for the land sought to be taken and costs and expenses of the Commission upon the lands within the boundaries of the district declared to be benefitted by the proposed improvement. The exterior boundaries of which district were fixed by said resolution.

The several pieces and parcels of land together with the amount of assessment upon each are specifically set out in the list of assessment thereto attached as Exhibit III. and made a part of this report.

Exhibit I.

Beginning at a point on the West line of 28th. Street at its intersection with the Northerly line of Right of Way of the Southern California Railway Company; thence Easterly along said Northerly line to its intersection with the East line of 28th Street to its intersection with the Southerly line of Right of Way. Thence Westerly along said Southerly line of Right of Way to a point where a Southerly projection of the West line of Right of Way, thence Northerly along said projected line to the point of beginning.

Valued at Ten dollars.

That the title to the fee of said land is vested in D. C. Reed and O. S. Hubbell in Common subject to the Right of Way of the Southern, and we do hereby award to said Reed and O. S. Hubbell the sum of ten dollars for said land, subject to said Right of Way.

Said sum to be in full for said land and all damages.

That the Southern California Railway Company

has a vested right of way in said land, valued at Thirty dollars, and we hereby award to said Railway Company the sum of Thirty dollars, said sum to be in full for all damages.

Absent Delegates Havice: Brown and Rotnor.

Said Report as adopted & Confirmed is as follows:

To the Common Council of the
City of San Diego.

We the undersigned Commissioners appointed by your Honorable body respectfully report.

That on the 4th and 7th days of April 1892 a resolution of intention to extend twenty ninth in the city of San Diego. across the Right of Way of the Southern California Railway Company. was passed by the Common Council of the city of San Diego. and to assess benefits and damages occasioned by such opening. on the property within the district in said Resolution described. reference to which resolution on file is hereby made.

That the notice of the passage of said resolution was by the direction of the Common Council of said city published in the San Diego Daily Sun for a period of ten days towit on the 22nd day of april to the 1st day of May both days inclusive.

That by the direction of the city Council of said city the Street Superintendent of said city caused to be conspicuously published and posted along the line of said Street Notice of the passage of said Resolution of intention in the manner and form required by law.

That objections to said proposed opening and extending of said Street were filed by the Southern California Railway Company with the clerk within the time allowed by law.

That upon the hearing of said objections the city Council overruled said objections and ordered the work to be done.

That on the 25th day of april 1893 the Common Council by Joint Resolution appointed the undersigned as a Board of Commissioners to assess damages and benefits &

to have the general supervision of all work pertaining to opening and extending said Street as described in said resolution of intention.

That after receiving notice of said appointment we the undersigned duly qualified and filed our bonds as such Commissioners and ever since and now are acting as such.

We thereupon proceeded to view the lands as such Commissioners and examined the property affected by said opening and Extension and having considered the testimony presented we have determined the value of the property sought to be taken for public use by reason of said improvements to be as herein after set out in Exhibit I. and which Exhibit is made a part of this Report.

That the costs and expenses of the Commission incident to said improvement are set out in the itemized account hereto attached as Exhibit II. and which is made a part of this report.

That we have assessed the damages for the land sought to be taken and costs and expenses of the Commission upon the lands within the boundaries of the district declared to be benefitted by the proposed improvement. The exterior boundaries of which district were fixed by said resolution.

The several pieces and parcels of land together with the Amount of the assessment upon each are specifically set out in the list of assessment hereto attached as Exhibit III. and made a part of this report.

Exhibit I.

Beginning at a point on the West line of 29th Street where the Northerly line of the Right of Way of the Southern California Railway Company intersects said West line of 29th Street. thence South Easterly along said Northerly line to its intersection with the East line of 29th Street. thence Southerly projecting said East line of 29th Street to its intersection with the Southerly line of said Right of Way. thence North Westerly along said Southerly line of Right of Way to a point where a Southerly projection of the West line of 29th Street would intersect said Southerly line of Right of Way thence Northerly along said projected line to the point of beginning.

Valued at ten dollars.
That the title to the fee of said land is vested in H. P. Whitney, subject to the right of Way of the Southern California Railway Company, and we do hereby award to said H. P. Whitney the sum of Ten dollars for said land, subject to said Right of Way, said sum to be in full for said land and all damages.
That the Southern California Railway Company has a vested Right of Way in said Land.
Valued at twenty dollars, and we do hereby award to said Railway Company the sum of Twenty dollars, said sum to be in full for all damages.

The Report of the Joint Finance Committee to whom was referred the communication

from the San Diego Water Company requesting the Council to make some provisions for the payment of warrants held by them against the City, was read and adopted and is as follows:

San Diego, Calif. Jan. 5th 1894.

To the Common Council of the
City of San Diego.

Gentlemen:

We your Joint Finance Committee to whom was referred the Communication from the San Diego Water Company in the matter of providing measures whereby the warrants held by them against the City may be paid, or provisions be made for their payment within a reasonable length of time report as follows:

We find the tax levy made by the City to provide for the payment of claims for water furnished for Flushing Sewers, Sprinkling Streets and for Fire-Hydrants Rentals was insufficient, and therefore there is no money in the fund to meet the warrants drawn in payment for such claims, and we further find that on an estimate by the Auditor there should be sufficient money received during the present month from 1893 Delinquent Tax, to pay all 1893 claims and that the Ordinance heretofore passed transferring 3600.00 dollars to the Sewer and Drainage Fund will with the amount now in said Fund pay nearly half the claims against said Fund.

We therefore recommend that when the Tax Collector turns over to the Treasurer the money received for 1893 Delinquent Taxes that an Ordinance be passed transferring from any available Funds sufficient moneys to pay all Claims of 1893.

Respectfully Submitted

"Exhibit A."

To the Common Council of the
City of San Diego, State of California.

Herbert Dabney hereby respectfully petitions the Honorable the Common Council of the City of San Diego, in the State of California, to amend and change the description of the right of way of and in the franchise heretofore, to-wit: on the 11th day of December, 1893, granted to him, giving him authority to construct, maintain and operate for the period of twenty-five years, a railway of Standard Guage along, over and upon those certain streets and Avenues, and also over and upon those certain Pueblo Lots of the said City of San Diego, described in said franchise.

And that he, the said Herbert Dabney, be granted authority to construct, maintain and operate for the period of twenty-five years from said 19th day of February 1894, a Railway of Standard Guage along, over and upon the following streets and avenues, and also over and upon the following described Pueblo Lots of the said City of San Diego, State of California, to-wit:

Beginning on the present constructed line of the San Diego, Old Town & Pacific Beach Railroad,

on Grand Avenue, Pacific Beach, at a point at or near Second Street; thence curving across Block 228, to a point on the center line of First Street between California and College Streets; thence Northerly, along the center line of First Street, to a point near Georgia Street; thence curving across or near the north Easterly corner of Block 12, Pacific Beach, to a point in Pueblo Lot 178 B; thence in a North-Westerly direction, with proper curvature, across Pueblo Lots 1783, 1782, 1773, 1258, 1259, and 1261 to the South line of La Jolla Park, at Palm Avenue; thence following the center line of Palm Avenue, to a point at or near center Street; thence curving to the right, over and across Block 33, Prospect Street, Orange Ave., and Block 32 to center line of Connecticut Street; thence following the center line of Connecticut Street, to a point at or near Lincoln Ave. Thence curving to the left, across Block 40 and Garfield Ave. to Irving Place; thence following said Irving Place and across Blocks 49, 48, 46 and 68 and intervening streets, to the West side of Pueblo Lot 1285; thence in a North easterly direction to the East line of the Pueblo of San Diego; said foregoing description being according to the official maps on file in the County Recorder's office of said San Diego County and which said description is a change from and amendatory of the description in said franchise heretofore granted, as aforesaid, together with such side tracks and switches on said Avenues, Streets and Pueblo Lots as may be necessary for the transaction of business upon said railway.

Upon the following conditions and limitations, viz:

I

That the cars upon said Railway shall be propelled by steam, electricity or other motive power.

II

That the Grantee or his assigns shall pave, as the said Council may direct, the entire length of that portion of said Streets used by said railway track, between the rails and for two feet on each side thereof; including switches, turnouts and

and side tracks and keep the same constantly in repair flush with the streets and with good crossings. Such paving to be done whenever the said City shall pave or cause to be paved the streets over which the franchise sought may be granted.

III

That the track shall be of standard guage, to wit: Four feet eight and one half inches within the rails: and shall have a space between side tracks, turn outs and switches, of not exceeding six feet four inches, being sufficient to allow cars to pass each other freely.

IV

That work on the construction of said railway shall commence within six months after the granting of the Franchise therefor, and an expenditure of at least Ten Thousand Dollars be made in purchasing equipments and in construction within thirty days thereafter, and be prosecuted continuously and shall be wholly completed and operated as far as Connecticut Street in La Jolla Park within twelve months thereafter.

V

That the City of San Diego shall reserve the right to grade, sewer, pave, macadamize or otherwise improve, alter or repair said streets: such work to be done so as to obstruct the said Railway as little as possible: the grantee or his assigns shall shift and reshift said rails so as to avoid the obstruction thereby created.

VI

That the laying of said tracks and all side-tracks, turnouts, switches or curves, shall conform in all cases with the grade of said streets, which have been graded, and in all other cases as near to the natural grade of such streets and Pueblo Lots as practicable. And when at any time, any part of said route shall be graded or the grade thereof altered or changed by said Common Council, the bed of the road and the tracks thereon shall be made to conform therewith by the grantee or his

assigns. The tracks laid over and upon said streets shall be as nearly as practicable of equal distance from the curb line of said streets.

-VII-

No switch shall be constructed or maintained within fifty feet of any cross-street; and the location of such switches or turn-outs shall be changed at the expense of the grantee or his assigns whenever so ordered by the common council.

-VIII-

That the City Engineer shall, under the direction of the common council, give the established grade of the streets which have been graded along the line of construction of said railway, and set stakes indicating the said grade: he shall see that the said railway is constructed and maintained in conformity to the terms and requirements of the Franchise; and for his services as herein required he shall receive such fees as are provided therefor, and the same shall be paid by the grantee.

-IX-

That the willful failure to comply with any of the conditions of the franchise shall work a forfeiture of the rights and privileges granted thereby.

-X-

That the said common council shall reserve the right to repeal, amend or modify the ordinance granting the Franchise.

In the matter of the investigation by the Joint Water Committee for the purpose of fixing Water Rates. the following report by said Committee was read and filed to wit:

To the Common Council of the City of San Diego:

We your Joint Water Committee respectfully submit the following report of our proceedings in the matter of fixing Water Rates for the year beginning July 1st. 1894.

The San Diego Water Company is the only person, company or corporation furnishing water to the City of San Diego, or its inhabitants.

Said Company was notified of all the hearings held by us and was present by its representatives at each thereof.

We commenced our investigation on the first day of February 1894. and adjourned from time to time to suit the convenience of the City and the Water Company. Evidence was heard and argument had on the evidence by the attorney for the City and for the Water Company all of which was discussed and considered by the Committee.

Among other things we have especially considered the cost and the value of the water plant. the amount of money borrowed by the Company on its bonds and used in the construction of the works. the annual deterioration

of the pipes and machinery, the necessary expenses of the Company and the rates necessary to produce a just and reasonable net income on the Company's investment.

And now after ten days occupied in the hearing of evidence, argument of Counsel and committee conference we recommend the adaption of the rates contained in the attached draft of an Ordinance for the year beginning July 1, 1894 and ending June 30, 1895, and further that said Ordinance be adapted fixing the rates to be paid for the use of water during that year by the City of San Diego and its inhabitants.

The evidence heretofore taken in the action of the San Diego Water Company against the City of San Diego and others and in the action of M. J. Higgins and another against the City of San Diego and others was read before us by stipulation of the Attorneys for the Water Company and the City, and the other evidence heard was taken in short hand and written out, except that of Mr. Bull which appears in long hand. All of said evidence together with the documents read before the Committee is herewith submitted as a part of this report.

Respectfully Submitted

Meter rates are due and payable monthly on presentation of bill, and if not so paid shall be subject to an addition of 5 per cent.

Section 4. Nothing herein contained shall be construed as requiring or permitting the person, company or corporation to charge or collect meter rates in any case where he or it shall, at his or its own cost, apply, either before or after the passage of this ordinance, a waste detector, except as hereinafter provided. Within the meaning of this ordinance a waste detector is a meter applied for the purpose of detecting waste.

Wherever any waste detector shows that any consumer, during any month, is using a quantity of water, which at meter rates exceeds his house and irrigation rate, said person, company or corporation may collect for such excess at meter rates, but shall not impose meter rates, with this exception, unless in cases permitted by this ordinance.

Section 5. The person, company or corporation engaged in the business of supplying or furnishing water, by his or its authorized agents, shall be allowed free access to make personal examination of the premises of any applicant for or consumer of water for the purpose of designating the rates, herein established, and for inspection of water pipes and apparatus.

Section 6. This ordinance shall take effect and be in force from and after its passage and one publication in the San Diegan-Sun, the official newspaper of said city.

The Joint Water Committee, having presented, and recommended the adoption of an Ordinance fixing water rates from March 1st 1894 to June 30th, 1894, and being the same rates as contained in Ordinance No 248, said ordinance was on motion of Delegate Jones adopted by the following vote:
Ayes Delegates Hamick: Pauly: Bradt: Baker: Abbott: Robinson: Hrodh: Brunn: Jones: Barrows: Dunkin: Davis & Barker.

Noes: None.
Absent Delegates Sweeney: Hakes & Patton.

Said report is as follows, to-wit:

To the Common Council of the City of San Diego.

We, the undersigned Commissioners

appointed by your Honorable Body, respectfully report, that on the 28th and 29th days of August. 1893. a resolution of intention to open Main Street, through Pueblo Lot No 1167, was passed by the Common Council of said City of San Diego and to assess damages and benefits occasioned by such opening on the property within the district in said resolution described, reference to which resolution on file is hereby made.

That the notice of the passage of said resolution was, by the direction of the Common Council of said City published in the San Diego Daily Union and Bee for a period of ten days from the 9th to the 18th day of September. 1893. both days inclusive; that by the direction of the Common Council of said City, the Street Superintendent of said City caused to be conspicuously published and posted along the line of said Street, the notice of the passage of said resolution of intention in the manner and form required by law; that no objections to the proposed opening of said Street were made or filed with the City Clerk within the time allowed by law or at all.

Whereupon on the 13th and 21st days of November 1893. a resolution ordering the opening of said Main Street through said Pueblo Lot 1167 in accordance with the said resolution of intention was adopted by the said Common Council. that on the 5th day of December. 1893 the Common Council aforesaid by joint resolution appointed the undersigned as a Board of Commissioners to assess damages and benefits and to have the general supervision of all work pertaining to the opening and extending of said Street as described in said resolution of intention. that after receiving notice of said appointment we the undersigned duly qualified and filed our bonds as such Commissioners, and now are and ever since have acted as such.

We thereupon proceeded as such Commissioners to view the lands and examine the property affected by said opening and extension

and having considered the testimony presented to us. we have determined the value of the property sought to be taken for public use by reason of said improvement to be as follows:
1st. The tract or parcel of land described by beginning at the N.E. Corner of the S.E. 1/4 of Pueblo Lot 1167, and thence running along the North line of the S.E 1/4 of Pueblo Lot 1167 122 feet; thence S. 65° 10' E 161.7 feet to a point on the E. line of said Pueblo Lot 1167; thence N. along the E. line of said Pueblo Lot 1167 for a distance of 106.2 feet to the place of beginning. which property is wholly unimproved and the title to which is in James McCoy. we value at the sum of Ninetin & 50/100 dollars $19.50
2d. The tract or parcel of land described by beginning at the South east corner of the northeast quarter of Pueblo Lot 1167 and thence running N. 65° 10' W. 1051.1 feet to a point on the north line of the S.W. 1/4 of the N.E 1/4 of Pueblo Lot 1167; thence W. along said line 122 feet; thence S. 65° 10' E. 1051.1 feet to a point on the N. line of the S.E. 1/4 of Pueblo Lot 1167; thence E. along said line 122 feet to the place of beginning, which property is wholly unimproved and the title to which is in Mrs. B.L. Hallenbeck. we value at the sum of two hundred ninety two & 50/100 dollars $292.50
3d. The tract or parcel of land described by beginning at a point where the N. line of said Main Street intersects the E. line of the N.W. 1/4 of Pueblo Lot 1167. and thence running N. 65° 10' W. 388.2 feet to a point on the N. line of Pueblo Lot 1167; thence N. along the N. line of Pueblo Lot 1167, 125.8 feet; thence S. 65° 10' E. 550.1 feet to a point on the E. line of the N.W. 1/4 of Pueblo Lot 1167; thence N. along the E. line of the N.W. 1/4 of Pueblo Lot 1167 a distance of 102.9 feet to the place of beginning, which property is wholly unimproved and the title to which is in Mrs. M.D. Avaline, we value at the sum of eighty six Dollars $86.00
The amounts thus awarded to said James McCoy, Mrs. B.L. Hallenbeck and Mrs. M.D. Avaline are in full payment for all the land taken, there being no damage to the residue.
The cost and expenses incident to said

improvement incurred by the Commissioners, and as follows:

"Whereas, William A. Fuller, the City Attorney caused the transcript on appeal in the action of the San Diego Water Company vs. The City of San Diego, to be printed on the appeal ordered by the Common Council, and to be paid for at a price to be fixed by the Auditing Committee, without having the printing done by written contract under the direction of the Board of Public Works, after advertising for bids, and under certain "plans and specifications" as required by the Charter where Contracts are made "for materials and supplies in an amount exceeding three hundred dollars; and

Whereas, the Honorable, the Mayor of the City

before this Board on the 19th day of July, 1894, publicly charged said City Attorney with exceeding his authority in having said transcript printed, and

Whereas, it is the desire of this Board that no injustice shall be done any of the officers of the City, and that no informal charges made against an officer during the deliberations of this Board shall pass without correction.

Now, therefore,

Be it Resolved by the Board of Delegates of the City of San Diego, as follows:

That said City Attorney not only did not violate the provision of the Charter in causing said transcript to be printed, but that he followed the usual, proper and necessary practice; and further that this Board concurs in the conclusion of the Hon. E. N. Britt, as expressed in the following letter, to-wit:

"San Diego, Cal. July 28th, 1894.

"Wm. H. Fuller Esq.
City Attorney.

"Dear Sir:-

"In my opinion the provision of the Charter of the City of San Diego, related to "contracts for materials and supplies in an amount exceeding $300.00, required by the Common Council; or any of the departments of the City," have no application to a case in which the City Attorney, being instructed by the Common Council to appeal from an adverse judgement in a suit pending in the Superior Court, takes the necessary steps to obtain the printing of the usual transcript upon such appeal.

"In my judgment the City Attorney has in that instance the right to order the printing of the transcript. Such a transcript is neither "materials nor supplies" within the meaning of Section 1st of Chapter 1, Article 5, of the City Charter. The printer would necessarily have to present his claim against the City to the Auditing Committee, and may receive for his work only so much as it is reasonably worth.

Yours very truly,
E. N. Britt."

The following report of the Joint Finance Committee in the matter of funding outstanding City Bonds was read, and accepted, viz:

San Diego, California March 9th 1894

To the Common Council of the
City of San Diego,

Gentlemen:

At the meeting of this Committee, a Mr. Holmes of Minnesota, appeared and proposed that the City Call a special election

to fund $280.000. 5% Sewer and $55,000. Municipal 7% Bonds into a new 5% Bonds and agree to put up $1000. as a forfeit to protect the City for election expenses in case no bids were received for the purchase of the new Bonds. Submitted Without recommendation.

This Committee also desires to call the attention of the Council to the existance of $380,000. of 4½% Bonds, now in the hands of the City Treasurer, that the City has been unable to sell, on account of their illegality, as we understand it; and we recommend that the City Attorney be instructed to advise this Council as to the legality of said Bonds, and if, in his opinion, said Bonds are illegal, that they be destroyed by burning.

Respectfully,

Said resolution, as adopted is as follows.

Joint Resolution No

Whereas, San Diego is a recognized health and pleasure resort, and

Whereas, our citizens derive no little revenue from tourists and pleasure seekers, and

Whereas, public parks, well graded streets, avenues and boulevards, beautified and ornamented by the planting of shade trees and ornamental plants and shrubbery are

attractions of real merit, and a source of much pleasure and comfort, not only to tourists but to permanent residents as well. And

Whereas, such public improvements would give our City a more inviting and attractive appearance and would tend to attract wealthy people who are seeking a pleasant summer or winter home or a permanent home where they can spend the declining years of life in ease and comfort.

Therefore,

Be it Resolved, That in the opinion of the Common Council of the City of San Diego, some public improvement of that nature should be inaugurated and carried to completion at an early date, or as soon as the ways and means can be provided therefor; and

Be it further Resolved, That the Joint Street Committee and the City Engineer be and they are hereby instructed to estimate and report to this Council, at an early date, the probable cost of grading, sprinkling, beautifying and maintaining,

1st. That part of the Park Boulevard commencing at the end of Twelfth street and running in a northerly direction through the Park and the Howard tract to University avenue, where it connects with broad and well grade avenues in University Heights, and with the recently graded avenue leading to La Mesa and El Cajon.

2d. That portion of the Park Boulevard commencing at the intersection of Eighth or Ninth street with the City Park and running in a northerly direction through the Park to the Northwest corner thereof, where it connects with upper Sixth Street,

Also, the cost of bridging, and grading Sixth Street from the Park to where it intersects University Avenue.

Also, the cost of covering the Plaza with Bitumin.

On motion of Delegate Davis, Delegate Haskell's leave of absence was extended 30 days.

The petition of A. Williamson to grade that portion of "E" and 13th Struts, in front of his property was read and granted, thereupon the following resolution granting such permission was read and adopted by the following vote, to wit:

San Diego. March 16th 1894

To the Common Council.

Gentlemen:-

In compliance with the orders of Your Honorable body, to estimate the cost of repairing the Foot Bridge across the canon at Dog street, I would say the old bridge is in such a condition that it is not worth repairing.

As Mrs Kellogg the owner agrees to donate to the City, the material of which it is constructed, I would recommend that a new bridge be constructed on Dog street a short distance below the present one, a very substantial Foot bridge 6 feet wide can be built for about $165.00 as follows.

4367,00 feet lumber @ $18.00 M	$ 78.60
Digging Trestle Pits	" 10.00
Nails	5.00

Said Ordinance as adopted is as follows:

Ordinance No 252.

An ordinance providing specifications for the construction of bituminous rock crosswalks on natural earth foundation.

Be it ordained by the Common Council of the City of San Diego, as follows:

Section 1. Preparation of roadbed. The earth foundation on which the crosswalk is to rest shall be graded to the required depth below the official grade of the street. The surface of such foundation shall be parallel to and conform in every respect to the cross section of the pavement when finished. The ground, after being perfectly dressed, shall be thoroughly and repeatedly rammed with a ram of not less than 20 lbs weight; all soft or spongy places not affording a firm foundation shall be dug out; all trench refillings shall be thoroughly drenched with water and tamped; all depressions which appear shall be refilled with the same material as the foundation, or other good earth, and shall be well rammed. In all places where any filling may be necessary to bring the foundation to the required height it shall be done in layers not to exceed six (6) inches in depth, and each layer shall be thoroughly tamped and flooded with water as may be required to insure a solid bed.

No bituminous rock crosswalk laid on natural earth foundation shall be laid on fills over two feet and under four feet in depth, unless the same has been graded for a period of not less than six months, over four feet and under eight feet one year, over eight feet and under fifteen feet two years, over fifteen feet three years. All places where a solid foundation cannot be had (as in the case of sand or other yielding earth) the surface to be paved shall be excavated to a depth of not less than ten inches below the official grade, except in case a satisfactory foundation should be obtained at a less depth, and a coating of earth of a compact character of not less than eight inches in depth shall be deposited equally over the surface to be coated, and the same to be thoroughly tamped in the same manner as in case one.

Upon this substratum of natural earth there shall be spread and constructed a layer or wearing surface composed of pulverized carbonate of lime and natural bituminous rock, containing asphaltic material and sand in the following proportions, to-wit:

Pulverized carbonate of lime	9 to 13 parts
Bituminous rock—sand	79 to 74 parts
Asphaltic material	12 to 13 parts
	100 100

and which shall be prepared and laid in the following manner.

The bituminous rock shall be heated to a temperature of not less than three hundred (300) nor more than three hundred and fifty (350) degrees Fahrenheit, thoroughly disintegrated, and brought to a required standard; the pulverized carbonate of lime, while cold, will be mixed with the hot bituminous rock at the required temperature and in the proper proportions and in a suitable apparatus to effect a perfect mixture.

The pavement mixture prepared in the manner thus indicated shall be uniformly spread by means of hot iron rakes over the foundation and rolled whilst hot with rollers weighing not less than two hundred and fifty (250) pounds to the lineal foot, and about two and one-half (2½) feet in length, until the layer thus superimposed presents a uniform surface and has a thickness of one and one-half inches after being compressed at least two-fifths (2-5), said surface conforming at all points to the finished surface of the street as shown on the plan and cross-section in the office of the City Engineer and Street Superintendent, after which a small amount of hydraulic cement must be swept over.

At all places where the bituminous crosswalk ends and the natural surface or other pavement begins a trench shall be dug and the bituminous rock turned over the end and continued in a vertical direction for the depth of 8 inches and the trench to be refilled and thoroughly tamped.

Section 2. That this ordinance shall take effect and be in force from and after its passage and approval and one publication in the San Diegan-Sun.

On motion of Delegate Davis the Fourth Street Committee was instructed to make an investigation and ascertain whether or not "D" Street between 16th and 18th Streets had been graded to its established Town Grade.

To the Common Council of the City of San Diego, State of California.

The Security Company, a corporation existing under and by virtue of the laws of the State of California, and having its principal place of business in the City of San Diego, in said State, petitions the Honorable Council of the City of San Diego, for a franchise to construct, maintain and operate for a period of twenty-five (25) years a railroad of standard guage along and upon the following streets of the City of San Diego, California, to-wit:

Commencing at the intersection of Eighteenth and "C" Streets connecting with a railway known as the Park Belt Motor Line; thence South along Eighteenth St.

to the south line of "E" St. thence South westerly, through private property to Sixteenth and "D" Sts crossing Seventeenth St.: thence South along Sixteenth to "E" St.: thence West along "E" St. to Fifteenth St. thence South along Fifteenth St. to the end of said St.: Also commencing at the intersection of Fifteenth and "L" St. thence running along "L" Street to Eighth Street and thence South along Eighth Street to the Bay of San Diego, in said City of San Diego, California. Together with such side tracks and switches on said streets as may be necessary for the transaction of business upon said railway, upon the following conditions and limitations, viz:

II

That the cars upon said railway shall be propelled by steam, electricity or other motive power.

III

That the Grantee or its assigns shall pave as the said Council may direct, the entire length of that portion of said Streets used by said railway track, between the rails and for two feet on each side thereof, including switches, turnouts and side tracks, and keep the same constantly in repair flush with the Streets and with good crossings, such paving to be done whenever the said City shall pave or cause to be paved the Streets over which the franchise sought may be granted.

IV

That the track shall be a standard guage, to wit: 4 feet 8½ inches within the rails, and shall have a space between side tracks, turnouts and switches of not exceeding 6 feet four inches, being sufficient to allow the cars to pass each other freely.

V

That work on the construction of said railway shall commence within three months after the granting of the Franchise, and the whole of said railway shall be complete within twelve months after the granting of said Franchise.

VI

That the City of San Diego shall reserve the right to grade, sewer, pave, macadamize or otherwise

improve, alter or repair said streets: such work to be done so as to obstruct the said railway as little as possible: the Grantee or its assigns shall shift and re-shift said rails so as to avoid the obstructions thereby created.

VII

That the laying of said tracks and all side tracks, turnouts, switches or curves, shall conform in all cases with the grade of said streets which have been graded, and in all other cases as near to the natural grade of such streets as practicable, and when at any time any part of said route shall be graded, or the Grade thereof altered or changed by said common council, the bed of the road and the tracks thereon shall be made to conform therewith by the Grantee or its assigns, the tracks laid over and upon said streets shall be as nearly as practicable, of equal distance from the curb line of said streets.

VIII

No switch shall be constructed or maintained within fifty feet of any cross street, and the location of such switches or turnouts shall be changed at the expense of the Grantee, or its assigns, whenever so ordered by the common council.

VIIII

That the City Engineer shall, under the direction of the common Council, give the established Grade of the streets which have been graded along the line of construction of said railway and set stakes indicating the said grade. He shall see that the said railway is constructed and maintained in conformity to the terms and requirements of the franchise; and for his services as herein required, he shall receive such fees as are provided therefor, and the same shall be paid by the Grantee.

IX

That the failure to comply with any of the conditions of the franchise, shall work a forfeiture of the rights and privileges granted thereby.

Said Ordinance as adopted is as follows. to wit:

Ordinance No. 1

An Ordinance providing for the selection by the Common Council of three citizens to investigate and report to the Common Council the most available water supply and water works for the City, the best means of acquiring and distributing water to the City and its inhabitants, and fixing their compensation.

Whereas, for five years or more the question of the City's owning its own water supply and water works has been before the Common Council in various ways, And,

Whereas, many different water committees of the Common Council, have spent much time and considerable money in endeavoring to devise the best way in which to acquire such water supply and water works for the City and its inhabitants, And,

Whereas, it is to the best interest of the City and its inhabitants, for the City to own its own water works and water supply, And,

Whereas, it is unquestionably the duty of the Common Council to devise some means by which the City may acquire as soon as practicable its water supply and water works,

Now, Therefore,

Be it ordained by the Common Council of the City of San Diego, as follows:

Section 1. That for the purpose of investigating and reporting to the Common Council the most available water supply for the City, and the best means of acquiring water and water works for the City and its inhabitants for domestic purposes and irrigation along its line or system of water works, the cost of obtaining the necessary water, and water works, for distribution of water to the City and its inhabitants, and the way and means by which water may be obtained and distributed to the City and its inhabitants through its own water works, for domestic

purposes and irrigation, along its line of water works; there shall be selected by the Common Council, within ten days after the passage and approval of this Ordinance, a Commission consisting of three citizens of the City of San Diego. The Commission shall be selected by the Common Council in Joint Session, by a majority vote of all the members of the Common Council, and shall hold office for the term of four months from and after their election and qualification. Any vacancies in the Commission shall be filled by election in Joint Session of the Common Council.

Provided that nothing contained in this Ordinance shall be held to prevent the Common Council from modifying or repealing this Ordinance at any time, or from removing any one or all of said Commissioners at its pleasure.

Section 2. The Compensation of each Commissioner shall be $4.00 per day while in the City and $5.00 per day while out of the City, for each day actually engaged in the performance of his duty, and said Commission shall pay its own expenses.

Section 3. It shall be the duty of the Commissioners to investigate and examine into the sources and ownership of water supply available for the use of the City; make plans, specifications and estimates of cost of water systems that may be available; quantity and quality of water that can be obtained, of dams, reservoirs, flumes, and pipe lines, ditches, distributing pipes with necessary appliances, and other kinds of water works and means necessary to carry out the purposes of obtaining and distributing water for the use of the City and its inhabitants, and for irrigating purposes along the line of water works or system.

Section 4. The Commissioners, during their services as such, shall not hold any Federal, State, County, or other Municipal office, except

a Notary Public, or be connected with or interested in any manner, directly or indirectly, in any Company, Corporation, Irrigating District, or persons owning water systems, water rights, or stock lands, or lands, in the same, but shall be impartial and look to and work for the best interests of the City only.

Section 5. The Commission~~s~~ created by the provisions of this Ordinance, shall report progress to the Common Council at least once each month.

Section 6. That Joint Resolution No. 296 Constituting the Joint Water Committee of the Council, a Water Commission, is hereby repealed.

Section 7. This Ordinance shall take effect and be in force from and after its passage and one publication in the San Diegan. Such.

Endorsed:

I hereby certify that the indebtedness created by the passage of this ordinance will not violate any of the provisions of the Charter.

The report of the Ways and Means Committee in the matter of the Tax levy for the fiscal year 1894, was read and Delegate Barrows moves to adopt.

Whereupon Delegate Sweeney moves to amend to fix the tax rate at $1.05 instead of $1.00 upon a roll call being taken said amendment was lost by the following vote, to-wit:

Noes. Delegates Havicn: Bradt: Hake: Olmsted: Bruner: Jones: Barrows: Davis & Baker.

Ayes. Delegates Barker: Pauly: Sweeney & Robinson.

Absent. Delegates Kroah: Dunkin & Bolton.

Whereupon the original motion to adopt the report was put and carried.

Said report is as follows, to-wit:

To the Hon. The Common Council
of the City of San Diego, Cal.:

Gentlemen:

The Ways and Means Committee to whom was referred the several estimates for various improvements to be provided for in the tax levy for the fiscal year 1894, together with the estimate of the amount of funds necessary to meet the demands of the City for said fiscal year, herewith presents its report and recommendations as follows:

1st. Finding the urgent necessity for the strictest economy in all department of the City government, by reason of the exceeding hard times, we submit that the tax levy for the present year should not exceed $1.00 on each $100.00 of the assessed valuation of property.

2d. To the end that said tax levy be kept within the limit of $1.00 we recommend that the proposed levy of $2500. for Bridges on "B" Street, the $350. for Bridges on Fourth Street, the $2917.10 for paving the Plaza, the $821. for putting in a Concrete culvert at the intersection of "B" and Fifth Streets, and the $722. for Bridges on National Avenue be excluded from the levy. Also, that the proposed levy of $3500. for the completion of the Old Town road be reduced to $1500., for the reason that a considerable amount of work has been done on said road since the passage of the resolution to include said amount of $3500. and we think $1500. will now be sufficient to complete said road.

3d. We submit that we have included said amount of $1500. for said Old Town road, $93.53 for the purpose of reimbursing the Chairman of the Advisory Committee on Street Tree Planting, $160. for the erection of the proposed foot bridge across the Canon in Date Street, and $3300. for the extension of the Fifth Street Sewer to University Avenue, and $2500. for proposed new Electric Lights.

4th. We submit that we have included the amount of money necessary for general Street purposes and for Street Sprinkling in the Street Funds.

5th. That $4000. of the amount of money necessary to carry the Sewer and Drainage Funds and the Street Light Funds ($2000. from each Fund) has been apportioned into the General Funds to take up the outstanding warrants against said General Funds.

6th. We submit that the estimated amount of money to be received from fines and forfeitures will be sufficient to meet the demands against the Police Department Funds, hence no levy is necessary therefor.

7th. We submit herewith and recommend the adoption of an Ordinance apportioning the revenue to be derived from licenses to the Salary Funds and Public Building Fund, and all Delinquent Taxes to the General Funds. The fact that the Fire Alarm System has been paid for; and that the Street Sprinkling and water therefor is to be paid for from the Street Funds the necessity no longer exists for apportioning any of said Licence money into said Fire Alarm and Street Sprinkling Funds. As to the delinquent taxes the amount estimated to be received being $6000. we think this amount sufficient to carry said General Funds, and we recommend that as soon as sufficient funds can be accumulated therein that the $4000. belonging to the Sewer and Drainage and Street Light Funds be returned to said Funds.

8th. We submit that the rate of $1.00 on each $100.00 valuation of property will raise the sum of $143,737.50, of which the following amounts are necessary to meet the demands against the various funds, to wit:

1. Fire Department Funds	14,373.75
2. Salary Fund	12,073.95
3. Street Fund	20,123.25
4. Sewer and Drainage Funds	21,991.84
5. Street Light Funds	17,967.19
6. Park Improvement Funds	1,437.37
7. Public Health Funds	3,449.70
8. Library Funds	5,462.03
9. Office Funds	1,437.37
10. General Funds	4,455.86

11. Municipal Bond, Interest and Sinking Funds $74.95
12. School " " " " " 6,755.67
13. Sewer " " " " " 33,634.57

Total for all funds $143,737.50

9th. We submit that to raise said respective sums for each of the various funds, the following rates are necessary to be levied upon all property in said City, to wit:

1. For Fire Department Funds a rate of .10 on each $100. valuation.
2. " Salary Funds a rate of .084 on each $100. valuation.
3. " Street Funds a rate of .14 on each $100. valuation.
4. " Sewer and Drainage Funds, a rate of .153 on each $100. valuation.
5. " Street Light Funds, a rate of .125 on each $100. valuation.
6. " Park Improvement Funds a rate of .01 on each $100. valuation.
7. " Public Health Funds, a rate of .024 on each $100. valuation.
8. " Library Funds a rate of .038 on each $100. valuation.
9. " Office Funds, a rate of .01 on each $100. valuation.
10. " General Funds a rate of .031 on each $100. valuation.
11. " Municipal Bond, Interest and Sinking Funds a rate of .004 on each $100. valuation.
12. " School Bond, Interest and Sinking Funds, a rate of .047 on each $100. valuation.
13. " Sewer Bond, Interest and Sinking Funds, a rate of .234 on each $100. valuation.

Total rate for all funds, $1.00 on each $100. valuation.

10th. We submit, that in addition to said above levy, a levy be made upon all the property within that portion of Coronado Beach, excluded from the City of San Diego for the payment of the Bonded indebtedness of said City of San Diego and interest thereon, for said fiscal year, as follows, to-wit:

1. For Municipal Bond, Interest and Sinking Funds, a rate of .004 on each $100. valuation.
2. " School Bond, Interest and Sinking Funds a rate of .047 on each $100. valuation.

3. For Sewer Bond, Interest and Sinking Fund, a rate of .23+ on each $100. valuation.

And your Committee submit herewith an Ordinance levying taxes for the said fiscal year 1894. in accordance with this report and recommend its adoption.

All of which is respectfully submitted.

The following report of the Joint Water Committee in the matter of furnishing Water to be used on the Howard Park Tract, was read and adopted, to-wit:

San Diego, California, April 24th, 1894.

To the Common Council of the
City of San Diego.

Gentlemen:

Re. the Water Committee to whom was referred the matter of providing water to be used on the Howard Park Tract temporarily, find that we can purchase water from the San Diego Water Co. at 6 cts per thousand gallons, and use the pipes already laid down in the tract, providing the delinquent bill of $27.40 is paid.

Therefore we recommend that said delinquent bill be paid, and that the City pay for the water used for further beautifying and improving said Howard Park Tract, pending the action of the Court relative to paying for water previously used on said Park.

GEO. D. GOLDMAN,
[Seal.] City Clerk.
Dated May 8th, 1894.

"EXHIBIT A."

To the Common Council of the City of San Diego, State of California:

Herbert Dabney hereby respectfully petitions the Honorable the Common Council of the City of San Diego, in the State of California, that he, the said Herbert Dabney, be granted authority to construct, maintain and operate for a period of twenty-five years, from the 2nd day of April, 1894, a railway of standard guage along, over and upon the following streets and avenues in La Jolla Park in the city of San Diego, to-wit: Prospect Street, from its intersection with Connecticut street to its intersection with Franklin Place, said street being delineated upon a map of said La Jolla Park made by M. G. Wheeler, and of record in the offiee of the County Recorder of the said County of San Diego, State of California, together with such sidetracks and switches on said avenues and streets as may be necessary for the transaction of business upon said railway, upon the following conditions and limitations, viz:

I.

That the cars upon said railway shall be propelled by steam, electricity, or other motive power.

II.

That the grantee or his assigns shall pave as the said Council may direct, the entire length of that portion of said streets used by said railway track, between the rails and for two feet on each side thereof, including switches, turnouts and sidetracks, and keep the same constantly in repair, flush with the street and with good crossings, such paving to be done whenever the said city shall pave or cause to be paved the streets over which the franchise sought may be granted.

III.

That the track shall be of standard guage, to-wit: 4 feet 8½ inches within the rails and shall have a space between sidetracks, turnouts and switches of not exceeding 6 feet 4 inches, being sufficient to allow the cars to pass each other freely.

IV.

That work on the construction of said railway shall commence within six months after the granting of the franchise therefor, and an expenditure of at least ten thousand dollars be made in purchasing equipments and in construction within thirty days thereafter, and be prosecuted continuously, and shall be wholly completed and operated as far as Connecticut street in La Jolla Park within twelve months thereafter.

V.

That the city of San Diego shall reserve the right to grade, sewer, pave, macadamize or otherwise improve, alter or repair said streets; such work to be done so as to obstruct the said railway as little as possible; the grantee or his assigns shall shift and re-shift said rails so as to avoid the obstruction thereby created.

VI.

That the laying of said tracks and all sidetracks, turnouts, switches or curves shall conform in all cases with the grade of said streets which have been graded, and in all other cases as near to the natural grade of such streets and avenues as practicable, and when at any time any part of said route shall be graded, or the grade thereof altered or changed by said Common Council, the bed of the road and the tracks thereon shall be made to conform therewith by the grantee or his assigns. The tracks laid over and upon said streets shall be nearly as practicable, of equal distance from the curb line of said streets.

VII.

No switch shall be constructed or maintained within fifty feet of any cross street, and the location of such switches or turnouts shall be changed at the expense of the grantee, or his assigns whenever so ordered by the Common Council.

VIII.

That the City Engineer shall, under the direction of the Common Council, give the established grade of the streets which have been graded along the line of construction of said railway and set stakes indicating the said grade. He shall see that the said railway is constructed and maintained in conformity to the terms and requirements of the franchise; and for his services as herein required he shall receive such fees as are provided therefor, and the same shall be paid by the grantee.

IX.

That the failure to comply with any of the conditions of the franchise shall work a forfeiture of the rights and privileges granted thereby.

X.

That the said Common Council shall reserve the right to repeal, amend or modify the ordinance granting the franchise.

Joint Resolution No. 447.

Whereas, the inhabitants of the City of San Diego are depending on the action of the Common Council to provide the City with a sufficient supply of good and pure water at the lowest possible price for which it can be obtained, and

Whereas, the question of the City owning its Water supply and distributing system has been before the Council in various ways for a number of years past without having resulted in any particular success, all its efforts having met with some unavoidable, and many unnecessary hindrances and obstructions, and

Whereas, it is the opinion and desire of a large majority of the people of this City, that the Council should as soon as possible take decisive steps toward securing the ownership of an ample Water supply and provide for its dis-

tribution for domestic use and irrigating purposes. X
Whereas, most of the members of the Council having their own business to attend to, and not being paid for their services rendered the city, cannot devote sufficient time to fully investigate the different sources of water supply and prepare and submit plans and specifications for water works, it appears necessary to place the whole matter in the hands of a few impartial, trusty and competent persons who shall make it a business and devote all the time necessary for such investigation and work to be done, and report upon the same to the Council, now therefore

Be it Resolved by the Common Council of the City of San Diego as follows:

Section 1. That C. C. Brandt and Geo. W. Havice be, and are hereby appointed a Special Committee, together with the City Engineer, or an Assistant Engineer of his Department, shall investigate and examine into the source and ownership of Water supply available for the use of the City; Examine into the propositions for furnishing a water supply ~~available for the use~~ and water rights that have been submitted by its owners to the Council, and others that may hereafter be submitted, make estimates of cost of water systems that may be available and make plans and specifications for such as they may deem advisable to recommend to the Council as suitable for the City; Examine into the quantity and quality of water that can be obtained, of dam sites, dams, reservoirs, flumes and pipe lines, ditches, distributing pipes with necessary appliances, and other kinds of water works and means necessary to carry out the purpose of obtaining and distributing Water for the use of the City and its inhabitants and irrigating purposes along the line of water works or systems.

Section 2. The Committee shall receive no salary for services rendered, but shall be allowed for expenses $3.00 per day while in the City and $5.00 per

day while out of the city. for each day actually engaged in the performance of the duty assigned.

The Engineer shall be allowed actual expenses for transportation in addition to his salary.

Section 3 The city Engineer is hereby authorized and empowered to continue as Assistant Engineer. the services of F. W. Shaw, who has nearly finished the survey of city lands. if he finds that he can not alone attend to the duties required of him under this Resolution in addition to the other regular duties of his office. and also make use of two chainmen now employed in his department. When actual survey that to be made: provided. however that when work by any assistant or help is done. which is not continuous for a full month. twenty six days of actual service or work. shall be deemed a month. pay for any part of it shall be pro rata. no pay and addition to the salary now allowed an Assistant and chainman shall be allowed except as otherwise especially provided for in this Resolution. and their services. and the services of this committee may be dispensed with at the pleasure of the council

Section 4. The committee and the Engineer shall report progress to the council at least once a month

Section 5. That Joint Resolution No. 296. constituting the Joint Water committee of the council. a Water Commission. is hereby repealed.

Endorsed

I hereby certify that the passage of the above resolution will not violate any of the provisions of the charter.

Ordinance No. 261.

~~Ordinance No. 261.~~

An ordinance granting a franchise to Herbert Dabney of San Diego, authorizing him to construct, maintain and operate, for the period of twenty-five years, a railway of standard guage, to be operated by steam, electricity, or other motive power, along and upon the route hereinafter described, in the City of San Diego, California.

Be it ordained by the Common Council of the City of San Diego, as follows:

Section 1. That Herbert Dabney have and hereby is granted authority to construct, maintain and operate, for the period of twenty-five years, a railway of standard guage, to be operated by steam, electricity, or other motive power, along and upon the following described route, in the city of San Diego, county of San Diego and state of California, viz:

Beginning on the present constructed line of the San Diego, Old Town & Pacific Beach Railroad on Grand avenue, Pacific Beach, at a point at or near Second street; thence curving across block 228 to a point on the center line of First street between California and College streets; thence northerly along the center line of First street to a point near Georgia street; thence curving across or near the northeasterly corner of block 12, Pacific Beach, to a point in Pueblo lot 1793; thence in a northwesterly direction, with proper curvature, across Pueblo lots 1783, 1782, 1773, 1258, 1259 and 1261 to the south line of La Jolla Park, at Palm avenue; thence following the center line of Palm avenue to a point at or near Center street; thence curving to the right, over and across block 38, Prospect street, Orange avenue, and block 32 to center line of Connecticut street; thence following the center line of Connecticut street to a point at or near Lincoln avenue; thence curving to the left, across block 49 and Garfield avenue to Irving place; thence following said Irving place and across blocks 49, 48, 46 and 68 and intervening streets, to the west side of Pueblo lot 1285; thence in a northeasterly direction to the east line of the Pueblo of San Diego; said foregoing description being according to the official maps on file in the County Recorder's office of said San Diego county, and which said description is a change from and amendatory of the description in said franchise heretofore granted, as aforesaid.

Together with such side tracks and switches on said avenues, streets and pueblo lots as may be necessary for the transaction of business upon said railway.

Upon the following conditions and limitations, viz:

I.

That the cars upon said railway shall be propelled by steam, electricity, or other motive power.

II.

That the grantee or his assigns shall pave as the said Council may direct, the entire length of that portion of said streets used by said railway track, between the rails and for two feet on each side thereof, including switches, turnouts and sidetracks, and keep the same constantly in repair, flush with the street and with good crossings, such paving to be done whenever the said city shall pave or cause to be paved the streets over which the franchise sought may be granted.

III.

That the track shall be of standard guage, to wit: 4 feet 8½ inches within the rails and shall have a space between sidetracks, turnouts and switches of not exceeding 6 feet 4 inches, being sufficient to allow the cars to pass each other freely.

IV.

That work on the construction of said railway shall commence within six months after the granting of the franchise therefor, and an expenditure of at least ten thousand dollars be made in purchasing equipments and in construction within thirty days thereafter, and be prosecuted continuously, and shall be wholly completed and operated as far as Connecticut street in La Jolla Park within twelve months thereafter.

V.

That the city of San Diego shall reserve the right to grade, sewer, pave, macadamize or otherwise improve, alter or repair said streets; such work to be done so as to obstruct the said railway as little as possible; the grantee or his assigns shall shift and re-shift said rails so as to avoid the obstruction thereby created.

VI.

That the laying of said tracks and all sidetracks, turnouts, switches or curves shall conform in all cases with the grade of said streets which have been graded, and in all other cases as near to the natural grade of such streets and pueblo lots as practicable, and when at any time any part of said route shall be graded, or the grade thereof altered or changed by said Common Council, the bed of the road and the tracks thereon shall be made to conform therewith by the grantee or his assigns.
