ORDINANCE NO. 6719.

AN ORDINANCE AUTHORIZING A MAJORITY OF THE MEMBERS OF THE COMMON COUNCIL TO ENTER INTO A CONTRACT WITH FRANK W. HIGGINS FOR THE LEASING OF CERTAIN REAL PROPERTY FOR A TERM OF TWO YEARS, AND APPROPRIATING THE SUM OF \$42.00 IN PAYMENT OF THE RENTAL THEREOF FOR ONE YEAR.

BE IT ORDAINED By the Common Council of the City of San Diego, as follows:

Section 1. That a majority of the members of the Common Council of the City of San Diego be, and they are hereby authorized and directed to enter into a contract with Frank W. Higgins for the leasing by said City of the following described real property located in said City of San Diego, belonging to Frank W. Higgins, and more particularly described as follows:

Lots Thirteen (13) and Fourteen (14), in block One Hundred Sixty-eight (168), of University Heights, in the City of San Diego, County of San Diego, State of California, according to the Amended Map thereof made by G. A. d'Hemecourt, and recorded in Book 8, Page 36, et seq., of Lis Pendens, in the office of the Recorder of San Diego County.

For the term of two (2) years from and after the date of the execution of said lease, at a yearly rental of Forty-two dollars (\$42.00), payable as follows:

The sum of Forty-two dollars (\$42.00) on the first day of said term and the further

sum of Forty-two dollars (\$42.00) one year from and after the first day of said term.

Section 2. The above agreement shall contain a clause providing that at the end of the term therein specified, said City shall have the right to purchase said property at and for the sum of Six Hundred dollars (\$600.00).

Section 3. That there is hereby appropriated out of the Playgrounds Fund of the City of San Diego, the sum of forty-two dollars (\$42.00), to be deducted from and chargeable against that certain item in the amount of \$350.00 set aside for Lease of Land, University Heights, pursuant to the provisions of section 17, of Ordinance No. 6600 of the ordinances of the City of San Diego, entitled, "An Ordinance fixing and declaring the budget allowances of the City of San Diego and the various departments thereof for the fiscal year beginning January 1st, 1916," for the use and purpose, and for the use and purpose exclusively of paying said rent to Frank W. Higgins.

Section 4. That Ordinance No. 6662 of the ordinances of the City of San Diego, entitled "An Ordinance authorizing a majority of the members of the Common Council to enter into a contract with Frank W. Higgins for the leasing of certain real property, for a term of two years, and appropriating the sum of \$49.00 in payment of the rental thereof for one year," adopted by the Common Council on the 19th day of June, 1916, and approved by the Mayor of said City on the 20th day of June, 1916, be, and the same is hereby expressly repealed.

Section 5. That this is an ordinance for the immediate preservation of the public peace, health and safety, and one of urgency, and shall take effect and be in force from and after its passage and approval.

The facts constituting the emergency in this case are that on June 19th, 1916, the Common Council passed and adopted Ordinance numbered 6662, authorizing and directing a majority of the members of the Common Council to enter into a contract with Frank W. Higgins for the leasing of lots 13 and 14, in block 168, of University Heights, at a yearly rental of \$49.00, and containing a clause providing that at the end of the term specified in said agreement the City should have the right to purchase said real property at and for the sum of \$700.00; that upon said 19th day of June, 1916, said Common Council also passed and adopted Ordinances numbered 6657, 6658, 6659, 6660 and 6661, authorizing and directing a majority of the members of the Common Council to enter into certain contracts with certain other property owners for the leasing of certain real property in the City of San Diego; that since said 19th day of June, 1916, three of the said property owners have signed agreements providing for the leasing of the real property owned by them, at the terms and upon the conditions provided in the said ordinances authorizing the execution of said lease agreements. That since said 19th day of June, 1916, it has become evident that certain property owners demand larger rentals for their property than was at first provided, and that said Frank W. Higgins is willing to accept a less rental than was originally provided, and that it is for the best interest of the City of San Diego that the property of said Frank W. Higgins be secured at as low a rental as possible; that the said real property owned by said Frank W. Higgins, described as lots 13 and 14, in block 168, of University Heights, is part of a considerable tract of land proposed to be leased and used as a playground by the City of San Diego, and that it is desirable that all of the lease agreements be signed and executed at the same time.

AUDITOR'S CERTIFICATE. I HEREBY CERTIFY that the appropriation made, or indebtedness incurred, by reason of the provisions of the annexed ordinance, can be made or incurred without the violation of any of the provisions of the Charter of the City of San Diego, California.

BE IT ORDAINED By the Common Council of the City of San Diego, as follows:

Section 1. That a majority of the members of the Common Council of the City of San Diego be, and they are hereby authorized and directed to enter into a contract with W. J. Calloway for the leasing by said City of the following described real property located in said City of San Diego, belonging to W. J. Calloway, and more particularly described as follows:

Lots Nine (9) and Ten (10) in Block One hundred Sixty-eight (168), of University Heights, in the City of San Diego, County of San Diego, State of California, according to the Amended Map thereof made by G. A. d'Hemecourt, and recorded in Book 8, Page 36, et seq.

of Lis Pendens, in the office of the Recorder of said San Diego County.

For the term of two (2) years from and after the date of the execution of said lease, at a yearly rental of Fifty-four and 60/100 dollars (\$54.60), payable as follows:

The sum of Fifty-four and 60/100 dollars (\$54.60) on the first day of said term and the further sum of Fifty-four and 60/100 dollars (\$54.60) one year from and after the first day of said term.

Section 2. The above agreement shall contain a clause providing that at the end of the term therein specified, said City shall have the right to purchase said property at and for the sum of Eight hundred twenty dollars (\$820.00).

Section 3. That there is hereby appropriated out of the Playgrounds Fund of the City of San Diego, the sum of Fifty-four and 60/100 dollars (\$54.60), to be deducted from and chargeable against that certain item in the amount of \$350.00 set aside for Lease of Land, University Heights, pursuant to the provisions of section 17, of Ordinance No. 6600 of the ordinances of the City of San Diego, entitled, "An Ordinance fixing and declaring the budget allowances of the City of San Diego and the various departments thereof for the fiscal year beginning January 1st, 1916," for the use and purpose, and for the use and purpose exclusively of paying said rent to W. Section 4. That Ordinance No. 6658 of the ordinances of the City of San Diego, entitled, "An Ordinance authorizing a majority of the members of the Common Council to enter into a contract with H. E. Section 5. That this is an ordinance for the immediate preservation of the public peace, health and safety, and one of urgency, and shall take effect and be in force from and after its passage and approval.

The facts constituting the emergency in this case are that on June 19th, 1916, the Common Council passed and adopted Ordinance numbered 6658, authorizing and directing a majority of the members of the Common Council to enter into a contract with H. E. Calloway for the leasing of lots 9 and 10 in block 168, of University Heights, at a yearly rental of \$52.50, and containing a clause providing that at the end of the term specified in said agreement the City should have the right to purchase said real property at and for the sum of \$750.00; that upon said 19th day of June, 1916, the said Common Council also passed and adopted Ordinances numbered 6657, 6659, 6660, 6661 and 6662, authorizing and directing a majority of the members of the Common Council to enter into certain contracts with certain other property owners for the leasing of certain real property in the City of San Diego; that since said 19th day of June, 1916, three of the said property owners have signed agreements providing for the leasing of the said real property owned by them, at the terms and upon the conditions provided in the said ordinances authorizing the execution of said lease agreements, but it now appears that W. J. Calloway is the owner of the real property hereinabove described, and the said W. J. Calloway refuses to enter into an agreement for the leasing of the real property owned by him at the terms and upon the conditions provided in said Ordinance numbered 6658; that the said real property owned by said W. J. Calloway, described as lots 9 and 10, in block 168, of University Heights, is part of a considerable tract of land proposed to be leased and used as a playground by the City of San Diego, and that it is desirable that all of the lease agreements be signed and executed at the same time.

ORDINANCE NO. 6739.

An Ordinance Amending Ordinance No. 6248 of the Ordinances of the City of San Diego, California, entitled: "An Ordinance Regulating the Use of the Streets of the City of San Diego, California, by Self-propelled Motor Vehicles Carrying Passengers for Hire, and Providing for the Licensing of such Vehicles and for a Penalty for the Violation of this Ordinance," as amended by Ordinance No. 6301, Ordinance No. 6302, Ordinance No. 6303, Ordinance No. 6307, and Ordinance No. 6380 of the Ordinances of the City of San Diego.

BE IT ORDAINED BY THE COMMON COUNCIL OF THE CITY OF SAN DIEGO AS FOLLOWS:

Section 1. That Section 1 of Ordinance No. 6248 of the Ordinances of the City of

San Diego entitled: "An Ordinance Regulating the use of the Streets of the City of San Diego, California, by self-propelled Motor Vehicles, carrying Passengers for Hire, and Providing for the Licensing of such Vehicles, and for a Penalty for the Violation of this Ordinance," approved on the 10th day of July, 1915, as amended by Ordinance No. 6301, approved August 25th, 1915, Ordinance No. 6302 approved August 16th, 1915, Ordinance No. 6303 approved August 25th, 1915, Ordinance No. 6307, approved August 28th, 1915, and Ordinance No. 6380, approved November 10th, 1915, be and the same is hereby amended to read as follows:

Section 1. An auto bus is hereby defined to be a self-propelled motor vehicle traversing the public streets upon a route wholly within the limits of the City of San Diego between certain definite points or termini within said City, and not operated upon tracks or rails and conveying passengers for hire between such termini or intermediate points for fixed charges or fares, and so held out, advertised or announced. An auto bus is hereby declared to be a common carrier and is subject to the regulations herein prescribed.

Section 2. That Section 3a of said Ordinance No. 6248 of the Ordinances of the City of San Diego as amended as hereinbefore set out, be and the same is hereby amended to read as follows:

Section 3a. In order that adequate transportation facilities may be furnished to the public, each and every auto bus for the operation of which a permit is issued under the provisions of this ordinance, to operate upon a route less than twelve miles in length, from terminus to terminus, shall be so run and operated as to maintain a regular schedule from six a. m. to twelve midnight daily, for at least six days each week, and such schedule shall be so arranged as to provide that such auto bus shall leave from each terminus of its route at stated intervals during the whole of said period, from six a. m. to twelve midnight of each day, for at least six days in each week. That the intervals of departure from each such terminus shall be so fixed by such schedule as to allow such auto bus sufficient time to safely traverse the distance between such termini, and to remain at each terminus for the purpose of receiving and discharging passengers not longer than thirty minutes between each trip. In all cases where such permit is issued under the provisions of this ordinance to operate upon a route twelve miles or over in length from terminus to terminus, or to any intermediate station, said auto bus shall be run and operated each day for at least six days in each week upon such schedule as to the Council may seem reasonable and proper, and specified in the permit. But nothing herein contained shall be construed to prohibit the operation of additional trips of such auto bus over such route.

Section 3. That said Ordinance No. 6248 of the Ordinances of the City of San Diego, as amended as hereinbefore set out, be and the same is hereby amended by adding thereto a new section to be numbered 6a, and to read as follows:

Section 6 a. In case any auto bus shall become unfit for operation, or in need of repair, the holder of a permit may substitute for it another motor vehicle until repaired or rendered fit for service, but such substitution shall not continue for more than seven days, except by permission of the City Council; and provided that prior to such substitution a binder shall be on file with the City Clerk, bearing the approval of the City Attorney, which binder shall extend to the substituted auto bus the insurance and indemnity covering the operation of the original auto bus, so that the operation of said substituted auto bus shall be in compliance with the requirements of Section Four of Ordinance No. 6248 of the ordinances of the City of San Diego.

Section 4. This is an ordinance for the immediate preservation of the public peace, health and safety, and one of urgency, and shall take effect and be in force from and after its passage and approval.

The facts constituting the urgency in this case are that since the passage of said Ordinance No. 6248 of the ordinances of the City of San Diego a number of auto buses have been operated and are now being operated upon the public streets of the City of San Diego as to the operation of which the provisions of said ordinance have proven inadequate to protect the public safety and promote public convenience. That by reason of the inadequacy of the regulations provided by the said Ordinance No. 6248 public safety is being endangered and public convenience lessened, and this Common Council finds from an investigation and observation of the operation of the auto bus upon the streets of the City of San Diego, and hereby declares that the operation of the auto bus upon the streets of the City of San Diego as the auto bus is now being operated without adequate regulations seriously endangers the life, limb, and property of the inhabitants of said City and does not afford proper and adequate facilities to the traveling public. In order to afford immediate protection to public safety and adequate and proper facilities to the traveling public by providing adequate regulations of such auto buses this measure is declared to be one of urgency. Other facts constituting the urgency in this case are the immediate and proper protection of the life and limb of the persons traveling upon the public thoroughfares along and upon which auto buses are now being operated; the immediate and proper protection of the life and limb of persons riding in such auto buses and the guarantee of adequate and proper facilities for the accommodation of the traveling public upon the streets of the City of San Diego.

O R D I N A N C E N O . 6 7 4 7 .

AN ORDINANCE PRESCRIBING THE MANNER OF PAVING STREETS WITH ASPHALT
MACADAM PAVEMENT LAID UPON A CONCRETE BASE, IN THE CITY OF SAN DIEGO,
CALIFORNIA.

BE IT ORDAINED by the Common Council of the City of San Diego, as follows:

Section 1. That the work of paving streets in the City of San Diego, California, with asphalt macadam pavement laid upon a concrete base, shall be as follows:

1. PLANS ETC. The work herein provided for is to be done in accordance with the plans, and cross-sections on file in the Office of the City Clerk of the City of San Diego, and all work shall, during its progress and on its completion, conform to the lines and levels which may, from time to time be given by the City Engineer.

2. WORK: The pavement is to consist of a Portland cement concrete base and an asphalt macadam wearing surface, the thickness of each of which shall be as shown upon the cross-section adopted for the work.

3. SUB-GRADE: The sub-grade for that portion of the roadway which is to be paved, shall be such distance below and parallel to the finished surface thereof as is shown upon said adopted cross-section.

4. GRADING: Grading shall include all filling, the removal of all earth, stone or other material of whatever nature it may be that may be encountered in preparing the street, and shall also include all trimming and shaping required to bring the surface of the street to grade and crosssection. When mud or other soft material is encountered, it shall be taken out and the space filled with good earth or gravel, which shall be rolled until the surface of the foundation ceases to sink or creep in front of the roller. The contractor, however, will not be required in such cases to excavate the mud or other soft material to a greater depth than two feet below grade. All filling shall be done with good, sound earth. The embankments shall be carried up of full width, in horizontal layers not to exceed one foot each in thickness, and the teams shall be made to travel as evenly as possible over the whole surface of each layer both in coming and going. The formation of well defined ruts is especially prohibited. No material of a spongy nature shall be used for filling. The space over which fills are to be made shall first be cleared of all brush and timber and all other perishable material. After a block or section has been graded as above specified, the surface shall be rolled with a steam roller weighing not less than 400 pounds to the inch width of tire until the surface is unyielding. Whenever practicable, the street shall be cross rolled as well as rolled longitudinally. Depressions made by rolling shall be leveled up with good earth and again rolled. Such portions of the street as cannot be reached by the roller and all places excavated below sub-grade and refilled and all pipe trenches and other places that can not be properly compacted by the roller, shall be tamped solid and in cases of wet weather or soft or muddy ground, making the use of the roller unsafe or impracticable, the rolling shall not be undertaken until the ground has become sufficiently dry.

5. CONCRETE BASE: Upon the sub-grade prepared as above described and thoroughly dampened, there shall be laid a Portland cement concrete base of the thickness shown on the typical cross-section, composed of the following materials and proportions, to-wit:

- (1). One original commercial sack of Portland cement weighing not less than ninety-four (94) pounds.
- (2).. Three (3) cubic feet of sand by volume.
- (3). Six (6) cubic feet of broken stone or gravel by volume.

6. CONCRETE MATERIALS: All cement used shall be Portland cement and must conform to the following requirements and be subject to the following tests which will be open to the

contractors. Samples for tests may be taken from every package delivered or proposed to be used upon the work; and unless they meet the requirements herein specified, such package or packages of cement will be rejected. No cement will be accepted, tested or permitted to be used unless delivered in the original, unopened packages with the manufacture's name and the brand of cement thereon. All samples of Portland cement required by the City Engineer or his authorized agent, shall be given him free of charge and he shall have authority at any time to take such samples as he or his agent may desire. All tests made will be made in the cement testing room provided by the City of San Diego for that purpose. A period of at least twelve (12) days shall be allowed for inspection and the necessary tests. Cement failing to meet the seven-day requirements may be held awaiting the twenty-eight (28) day test before rejection. Briquettes for testing tensile strength of cement will be made both of neat cement and of cement and sand in the proportions hereinafter specified.

SPECIFIC GRAVITY: The specific gravity of cement shall not be less than 3.10. Should the test of cement as received fall below this requirement a second test may be made upon a sample ignited at a low red heat. The loss in weight of the ignited cement shall not exceed four (4) per cent.

FINENESS: The cement must be evenly ground and when tested with the following standard sieves, must pass at least the following percentages by weight.

No. 100 sieve having 100 meshes per lineal inch, 92%.

No. 200 " " 200 " " " " , 75%.

TENSILE STRENGTH: Neat briquettes one inch square in section, shall attain a minimum tensile strength as follows:

At 24 hours in moist air, 175 pounds.

At 7 days (1 day in moist air, 6 days in water), 500 pounds.

At 28 days (1 day in moist air, 27 days in water), 600 pounds.

Briquettes one inch square in section, made of one part Portland cement to three parts of standard testing sand, shall attain a minimum tensile strength as follows:

At 7 days (1 day in moist air, 6 days in water), 175 pounds.

At 28 days (1 day in moist air and 27 days in water), 250 pounds.

Cement testing neat below 700 pounds at 28 days and showing a retrogression below the seven day tests, will be rejected. The sand test must in all cases show an increase in strength at 28 days over the seven-day tests.

SOUNDNESS: Pats of neat cement about three inches in diameter, one-half (1/2) inch in thickness at the center and tapering to a thin edge, shall be kept in moist air for a period of twenty-four (24) hours. A pat will then be kept in air of normal temperature and examined at intervals for at least twenty-eight (28) days.

Another pat will be exposed in an atmosphere of steam above boiling water in a loosely closed vessel for five (5) hours. These pats to satisfactorily pass the requirements must remain firm and hard and show no signs of distortion, checking, cracking, blotching or disintegration. Neat briquettes shall develop initial set in not less than thirty minutes but must not develop hard set in less than one (1) hour nor more than ten (10) hours.

No cement will be permitted to be used in the work until after the seventh day test as above prescribed.

SAND: All sand must be fresh water sand, clean, hard and sharp and contain not more than two (2) per cent., of foreign matter of any kind. The sand shall pass a screen having four (4) meshes to the lineal inch. Not more than twenty-five (25) per cent., shall pass a screen having fifty (50) meshes per lineal inch and not more than five (5) per cent., shall pass a screen having 100 meshes per lineal inch.

The sand shall be of such quality that mortar composed of one part Portland cement and three parts sand, by weight, when made in briquettes, shall show a tensile strength (at 7 and 28 days), at least 70% of the strength of the briquettes composed of one part of the same cement and three parts Standard Testing sand by weight. The percentage of water used in making the briquettes of cement and sand shall be such as to produce a mortar of the same consistency as that of the Standard Testing sand briquettes of Standard consistency.

BROKEN STONE OR GRAVEL: Broken stone or gravel shall be of clean, hard, durable rock, free from all deleterious matter. It shall be of such size that it will pass a one and one-half (1 1/2) inch round opening and be retained on a screen having 1/4 inch openings and not less than thirty (30) per cent., of its volume shall be material which will pass a 3/4 inch mesh screen and shall range in size from the minimum noted above to one and one-half (1 1/2) inches in greatest dimension maximum, it being understood that the Superintendent of Streets has the right to reject any and all material which does not comply with these specifications.

7. MIXING AND PLACING CONCRETE: All proportions shall be obtained by actual measurement in boxes and no material shall be used that has not been thus measured. All mixing shall be done in batch mixers of an approved type and mixing shall continue after all materials are in the drum for at least one minute at a minimum speed of twelve (12) revolutions per minute. The drum shall be completely emptied before receiving materials for successive batches.

RETEMPERING: Retempering of mortar or concrete which has partially hardened, that is, remixing with or without additional materials or water, shall not be permitted.

CONSISTENCY: The materials shall be mixed with sufficient water to produce a concrete which will hold its shape when struck off with a template. The consistency shall not be such as to cause a separation of the mortar from the coarse aggregate in handling.

PLACING CONCRETE: Immediately prior to placing the concrete, the sub-grade shall be brought to an even crowned surface. The surface of the sub-grade shall be thoroughly wet, but shall show no pools of water when the concrete is placed. After mixing, the concrete shall be deposited rapidly upon the sub-grade to the required depth and for the entire width of the pavement in successive batches and in continuous operation and tamped until it is thoroughly compacted.

The surface of the concrete shall be thoroughly watered for at least five (5) days after which sufficient time shall be allowed for the surface to become thoroughly dry before receiving the asphaltic layer. Under no circumstances shall any concrete be put upon the work after the initial set has taken place. At no time shall any asphalt be laid where the surface upon which it is proposed to be deposited is wet or damp.

8. ASPHALT MACADAM WEARING SURFACE: Upon the concrete base prepared and laid as above described and thoroughly cleaned free from all dirt and foreign matter, shall be laid an asphalt macadam wearing surface. The asphalt macadam mixture shall be composed of broken stone or screened gravel, sand, stone dust and asphaltic cement in sufficient quantities to make the mineral aggregate conform to the following proportions by weight:

Broken stone or screened gravel passing one (1) inch screen and retained on a one-half (1/2) inch screen, 40% to 60%.

Broken stone or screened gravel passing one-half (1/2) inch screen and retained on a one-quarter (1/4) inch screen, 6% to 20%.

Broken stone or screened gravel or sand passing one-fourth (1/4) inch screen and retained on ten (10) mesh screen, 5% to 10%.

Broken stone or screened gravel or sand passing ten (10) mesh screen, 25% to 32%.

Of the material passing ten mesh screen the following percentages shall pass two hundred mesh screen, 10% to 15%.

To the above mineral aggregate there shall be added sufficient bitumen to coat all the particles and fill all remaining voids, the percentage by weight to be five per cent., to nine per cent.

9. PAVEMENT MATERIALS: The asphaltic cement must be a mixture of refined liquid asphalt with refined solid asphalt and must be free from admixture with any residue obtained by the artificial distillation of coal, coal tar or paraffine oil.

The asphaltic cement must be homogeneous and its consistency at the time of its mixture with the stone, sand, etc., must fall within the limits of fifty (50) degrees to sixty-five (65) degrees penetration when tested at a temperature of seventy-seven (77) degrees Fahrenheit with the Dow Penetration machine. It must be adhesive and ductile and also slightly elastic at a temperature of thirty-two (32) degrees Fahrenheit. When twenty (20) grammes are heated to a temperature of three hundred (300) degrees Fahrenheit for five (5) consecutive hours in an uncovered cylindrical dish three and one-half (3 1/2) centimeters high by five (5) centimeters in diameter, it must not lose more than one (1) per cent in weight and its penetration must not be reduced as a result of such heating more than fifty (50) per cent. It must, when ready for use, contain at least ninety-nine (99) per cent., of bitumen soluble in carbon bisulphide. It must be soluble in carbon tetrachloride to the extent of at least ninety-seven (97) per cent. Not less than seventy (70) per cent., shall be soluble in eighty-six (86) degrees naptha. It shall contain not more than fifteen (15) per cent., of fixed carbon on ignition.

When the asphaltic cement is prepared by mixing a solid oil asphalt with liquid asphalt, the solid asphalt shall be prepared by distilling the crude oil until the asphaltic residuum has a penetration of not less than fifty (50) degrees when tested at a temperature of seventy-seven (77) degrees Fahrenheit with the Dow penetration machine, and shall not be prepared by mixing or fluxing a more solid asphalt with a liquid or softer asphalt.

The refined liquid asphalt used in softening a solid asphalt must be a stiff residuum of petroleum with an asphalt base. It must be free from water and from light oils volatile at less than two hundred and fifty degrees Fahrenheit. When twenty (20) grammes are heated to a temperature of three hundred (300) degrees Fahrenheit for five (5) consecutive hours, in an uncovered cylindrical dish three and one-half (3 1/2) centimeters high by five and one-half (5 1/2) centimeters in diameter, it must not lose more than five (5) per cent. in weight. It must contain not less than ninety-nine (99) per cent. of bitumen soluble in carbon bisulphide.

SCREENED GRAVEL OR BROKEN ROCK: The screened gravel or broken rock shall be hard, durable material and shall be a graded aggregate having sizes ranging from one-quarter (1/4) inch minimum to that which will pass through a one (1) inch ring maximum.

SAND: The sand shall be clean, hard grained and sharp and shall contain not more than three (3) per cent. of loam, clay or other impurities.

STONE DUST: The stone dust must be a finely powdered limestone, granite, trap rock or quartz as the contractor elects and shall be of such fineness that all of it will pass a fifty (50) mesh to the inch screen and at least sixty-six (66) per cent. shall pass a two hundred (200) mesh to the inch screen.

SAMPLES: The contractor shall furnish to the City Engineer, for the test whenever called for and free of charge, samples of all materials entering into the composition of the pavement, the asphalt and asphaltic cement to be furnished in boxes and said City Engineer

shall have access at all times to all branches of the work. All tests shall be open to the contractor.

10. MIXING AND LAYING ASPHALT MACADAM SURFACE: The broken stone and screened gravel and sand in the proportion heretofore given shall be heated in such driers as will permit it to be uniformly heated, and shall be brought to a uniform temperature of not less than two hundred and eighty (280) degrees Fahrenheit. They shall then be conveyed to a rotary mixer and mixed with the stone dust. The required amount of asphaltic cement previously heated to a temperature of between two hundred and fifty (250) and three hundred (300) degrees Fahrenheit, shall then be added and the whole mass shall be mixed until every particle of stone, sand and dust is thoroughly coated with asphaltic cement.

In no case shall the asphaltic cement be heated above three hundred and twenty-five (325) degrees Fahrenheit. The mixture shall be delivered on the street at a temperature of from two hundred and fifty (250) to three hundred degrees Fahrenheit, where it shall be laid to such depth that after receiving final compression, it shall have the thickness called for by the cross-section adopted for the work. Within thirty (30) minutes after laying it shall be rolled with a roller having a weight of not less than two hundred and forty (240) pounds per lineal inch width of tire. Rolling must continue until the pavement fails to mark by the roller. All places that are inaccessible to the roller must be tamped with hot iron tampers. The resulting pavement must be thoroughly compacted and must show an even surface, true to grade and cross-section and free from all hollows and irregularities. No traffic shall be allowed on the pavement until it is thoroughly cooled and set. No pavement shall be laid in rainy weather or when the sub-grade is wet.

11. WEARING SURFACE: Upon the wearing surface shall be spread a thin uniform coating of asphaltic cement by means of a spreading machine so designed as to spread quickly and evenly the desired amount. Asphaltic cement shall be applied at the rate of one-eighth ($1/8$) gallon per square yard of paving surface at a temperature sufficient to cause it to flow freely but not exceeding two hundred and fifty (250) degrees Fahrenheit.

While the asphaltic cement is still warm, at least two coats of stone screenings not greater than one-fourth ($1/4$) inch in their largest dimension, of the same character as the wearing surface rock shall be spread over the surface of the pavement, at a temperature of from two hundred (200) degrees Fahrenheit to two hundred and fifty (250) degrees Fahrenheit, in such a manner as to rapidly and uniformly cover the surface of the pavement, using not less than one (1) cubic yard of screenings to one hundred (100) square yards of wearing surface. The surface shall then be rolled with a roller as hereinbefore specified, until the pavement becomes cool.

12. CULVERTS: Culverts shall be placed wherever designated in the Resolution of Intention or on the plans of the street on file in the Office of the City Clerk. They shall be of the character and dimensions shown on the plan and described in the specifications named in the ordinance or resolution of intention. Cement concrete shall be of the same quality as above specified for concrete base. Steel shall be first quality and free from cracks and flaws. Workmanship shall be first class in every respect. The contractor shall notify the City Engineer when a block or section has been brought to sub-grade, when the latter will check the elevations of the same and if the work is found to be in accordance with the specifications and grades given, the contractor shall proceed as hereinafter mentioned.

13. GENERAL REQUIREMENTS:

ORDINANCE NO. 6782.

AN ORDINANCE AMENDING ORDINANCE NO. 3959 OF THE ORDINANCES OF THE CITY OF SAN DIEGO, CALIFORNIA, ENTITLED: "AN ORDINANCE PROVIDING FOR LICENSING AND REGULATING THE CARRYING ON OF CERTAIN PROFESSIONS, TRADES, CALLINGS AND OCCUPATIONS, AND THE MAINTAINING AND CONDUCTING OF CERTAIN BUSINESSES OF SAN DIEGO," APPROVED ON THE 25th DAY OF JANUARY, 1910.

(AS AMENDED BY ORDINANCE NO. 4625.)

BE IT ORDAINED By the Common Council of The City of San Diego, as follows:

Section 1. That Ordinance No. 3959 of the ordinances of The City of San Diego, entitled, "An Ordinance providing for licensing and regulating the carrying on of certain professions, trades, callings and occupations, and the maintaining and conducting of certain businesses of San Diego," approved on the 25th day of January, 1910, (as amended by Ordinance No. 4625), be and the same is hereby amended as follows:

Section 2. That Section 34 of said Ordinance be, and the same is hereby amended to read as follows:

"Section 34. For every person, firm or corporation engaged in the business of running or operating any automobile used in carrying passengers for hire, or of letting the use of

any automobile and furnishing a driver for the same for hire, if such automobile is permitted to stand in or upon any public street, alley or other public place while awaiting employment, the sum of fifty dollars (\$50.00) per year, payable in advance, for each such automobile carrying not more than five (5) passengers in addition to the driver; the sum of seventy-five dollars (\$75.00) per year, payable in advance, for each such automobile carrying not more than seven (7) passengers in addition to the driver; the sum of one hundred dollars (\$100.00) per year, payable in advance, for each such automobile carrying more than seven (7) passengers in addition to the driver."

Section 3. That a new section to be numbered 34-1/2 be, and the same is hereby added to said Ordinance, which said section shall read as follows:

"Section 34-1/2. For every firm, person or corporation engaged in the business of running or operating any automobile as a stage carrying passengers for hire and operating on a fixed schedule of trips between designated termini, one of which termini is without the boundaries of the city of San Diego, the sum of twenty-five dollars (\$25.00) per year, payable in advance for each such stage carrying not more than five (5) passengers in addition to the driver; the sum of thirty-five dollars (\$35.00) per year payable in advance for each such stage carrying not more than seven (7) passengers in addition to the driver; the sum of fifty dollars (\$50.00) per year payable in advance for each such stage carrying more than seven (7) passengers in addition to the driver.

Provided that at the time of making application for a license under this section a schedule shall be furnished which shall show the termini between which such stage is to be operated and the time of arrival at and departure from such termini and the office in the City of San Diego at which such stage is scheduled to arrive and from which to depart. And provided further that no such stage shall be permitted to stand upon a public street, alley or other public place while awaiting passengers for a period longer than sixty (60) minutes prior to the time of the scheduled departure of such stage and then only in front of the office from which such stage is scheduled to depart.

Section 4. This is an ordinance for the immediate preservation of the public peace, health and safety, and one of urgency, and shall take effect and be in force from and after its passage and approval.

The facts constituting the urgency in this case are that the license fee payable under Ordinance No. 3959 is wholly inadequate; that by reason of the inadequacy of the license fee as provided by the said Ordinance No. 3959 public safety is being endangered in that it permits persons to legally operate such motor vehicles who are otherwise unqualified by reason of inexperience in the handling of self-propelled motor vehicles to operate such vehicles. The public safety is further endangered by reason of this inadequate license fee in that irresponsible persons are thus permitted to operate motor vehicles for carrying passengers for hire, by reason of which irresponsibility these persons operate their cars regardless of the safety of the persons who are then passengers, and of the rights of the public while crossing the public streets of The City of San Diego. The provision of such ordinance further permits the occupancy of the public streets by a large number of motor vehicles impeding the transit of pedestrians and seriously endangers the life, limb and property of the inhabitants of the said City in that the public while crossing the streets find it difficult, if not impossible, to reach a place of safety upon the sidewalk if they are put in peril while crossing such street. In order to afford immediate protection to public safety and adequate and proper facilities to the public by providing an adequate license fee covering motor vehicles this measure is declared to be one of urgency. Other facts constituting the urgency in this case are the immediate and proper protection of the life and limb of the persons traveling upon the public thoroughfares along and upon which

motor vehicles are now being operated; the immediate and proper protection of the life and limb of persons riding in such motor vehicles and the guarantee of adequate and proper facilities for the accommodation of the traveling public upon the streets of The City of San Diego.

Section 5. The City Clerk of The City of San Diego is hereby directed to publish this ordinance, upon the passage and approval thereof, once in the official newspaper of The City of San Diego, to-wit: The Evening Tribune.

In case the grantee of the franchise or successors or assigns, shall cease to operate said railway for a period of ninety days consecutively after said railway shall have been fully constructed and completed, except in cases of unavoidable accident, or other matters not within the control of the grantee, or its successors or assigns, the franchise shall be and is hereby declared to be forfeited and the said grantee, successors or assigns, shall thereafter remove the tracks of said railway and put the streets in good condition.
