SECTION NO. 4

(a) No installation, alteration or addition shall be made to electrical conductors, dynamos, motors or other electrical apparatus or material, operating at a potential of 10 volts or more, (telephone installations, distribution systems, and apparatus of public service corporations excepted), without first securing a permit therefor.

No certificate shall be issued unless said installation conforms strictly with the rules and regulations herein prescribed, nor shall any such installation be connected to any source of electrical energy until such certificate is issued. If any additions are made to said installation, which would require an additional inspection, the person, firm or corporation to whom the permit is issued shall pay the City Electrician the additional fee therefor within ten days after demand thereof by said City Electrician, and if said person, firm or corporation shall fail or refuse to pay said additional fee within said period of ten days, said City Electrician shall not issue to said person, firm or corporation any permits for the installation of any electrical work until said fees are paid.

This temporary permit shall expire within thirty (30) days. An applicant for any franchise or privilege above mentioned shall file an application therefor with said Common Council, and thereupon said Common Council shall in its discretion advertise the fact of said application, together with a statement that it is proposed to grant the same as applied for, or as changed by said Common Council, in the official newspaper of said City. Said advertisement must state that bids will be received for such franchise, and that it will be awarded to the highest bidder. The same must be published in such newspaper once a day for ten (10) successive days. The full publication must be completed not less than twenty (20) days, nor more than thirty (30) days before any further action can be taken thereon.

Section 3. The publication must state the character of the franchise or privilege proposed to be granted, the term for which it is granted, and the route to be traversed; that sealed bids therefor will be received up to a certain hour and day named therein, and that the successful bidder and his assigns must, during the life of said franchise, pay as a rental for that portion or those portions of the streets, highways or roads exclusively occupied by the grantee of such franchise granted under the terms and provisions of this ordinance to The City of San Diego, two percent. (2%) of the gross annual receipts of the person, partnership or corporation to whom the franchise is awarded arising from its use, operation or possession. Section 5. Said advertisement shall also contain a statement that the said franchise will be granted to the person, firm or corporation who shall make the highest cash bid therefor; provided, only, that at the time of the opening of said bids any responsible firm or corporation present or represented may bid for said franchise or privilege a sum not less than ten percent. And if he shall fail to make such deposit immediately, then and in that case his bid shall not be received, but shall be considered as void, and the franchise shall then and there be again offered for sale to the bidder who shall make the highest cash bid therefor, subject to the same conditions as to deposit as above mentioned. Said procedure shall be had until said franchise is struck off, sold and awarded to a bidder who shall make the necessary deposit of at least ten per cent. (10%) of the amount of his bid therefor, as herein provided. Said successful bidder shall deposit with the Clerk of said City, within twenty-four (24) hours after the acceptance of his bid, the remaining ninety per cent. (90%) of the amount thereof, and in case he or it shall fail to do so, then the said deposit theretofore made shall be forfeited, and the said award of said franchise shall be void, and the said franchise shall then and there by said Common Council be again offered for sale to the highest bidder therefor, in the same manner and under the same restrictions as hereinbefore provided; and in case said bidder shall fail to deposit with the Clerk of said City the remaining ninety per cent. The grantee of every franchise or privilege granted under this ordinance shall file a bond running to said City with at least two good and sufficient sureties to be approved by said Common Council in a penal sum by it to be prescribed and set forth in the advertisement for bids, conditioned that such bidder shall well and truly observe, fulfill and perform each and every term and condition of such franchise, and that in case of any breach of condition of such bond the whole amount of the penal sum therein named shall be taken and deemed to be liquidated damages, and shall be recoverable from the principal and sureties upon said bond. Said bond shall be filed with the Common Council within five (5) days after such franchise is awarded, and upon the filing and approval of such bond said franchise shall by said Common Council be granted by ordinance to the person, firm or corporation to whom it has been struck off, sold or awarded; and in case said bond shall not be so filed the award of such franchise shall be set aside, and the same may be granted to the next lowest bidder, or again offered for sale, in the discretion of said Common Council, in the same manner and under the same restrictions as hereinbefore provided.

BE IT ORDAINED By the Common Council of The City of San Diego, as follows:

Section 1. Permission is hereby granted to Citrus Soap Company, a corporation, to lay down, construct, operate and maintain a spur track along Union Street, in said City, between Market Street and the San Diego & Arizona Railway Company's tracks, at the location more particularly described as follows:

Commencing at a point on the west line of block 13, New San Diego, distant 24.34 feet south from the south line of I Street; thence northwesterly on a curve to the right with a radius of 286.84 feet, a distance of 199.05 feet, to a point distant 8.5 feet east from the west line of Union Street, being the east line of block 24, New San Diego; thence north on a line parallel to and distant 8.5 feet east from the west line of Union Street, a distance of 109.97 feet to the south line of Market Street, being the northerly end of said industrial spur.

The tangent of the curve at the point of commencement on the said west line of block 13, New San Diego, makes an angle of 39° 48' 45" to the left from the east line of Union Street.

This permission is granted and accepted upon the following express conditions:

First, - That said spur track shall be kept and maintained at the official grade of such street over which the same shall pass, as such official grade is now or may hereafter be established or changed, and the City hereby reserves the right to grade, curb, sewer, macadamize, pave, gutter, culvert, or otherwise improve or repair or reimprove any part of said street over which said spur may be laid, and to lay down or relay pipes for water, gas, electrical conduits, sewers, or other purposes.

Second, - That said Company shall pave or repave, and keep in repair said street, between the rails of each track, and also between the tracks, and for at least two feet on each side thereof, and that said company shall allow any other person doing business along the line of said spur to use the same upon such compensation as the Council shall determine to be reasonable for such privilege, and further that cars shall not be permitted to stand on the tracks in the intersections of said Union Street with other streets in said City.

Third, - That all cars shall be operated upon such spur track in such manner as to cause the least possible obstruction to ordinary public travel along or across the same, and no cars shall be allowed to remain on said spur track for a longer period of time than is necessary to expeditiously load or unload the same.

Fourth, - The rights and privileges granted by this ordinance are made upon the further condition that said spur shall be at all times subject to regulation of the Common Council, and the City may at all times insist and have the right, at the election of said Common Council, to take over the said spur from the said company, its successors and assigns, on the payment of the appraised value thereof, one of the appraisers to be named by the said Common Council, one by the said company, and in case they agree, those two to name a third; provided, that nothing herein contained shall be so construed as to prevent the Common Council from altering, amending or repealing this grant, or amending or repealing this ordinance in any and all respects.

Fifth, - That said The City of San Diego shall have the right to use said spur track at any time, without cost to said The City of San Diego.

Sixth, - That the permission granted by this ordinance shall be revocable at the will of the Common Council of The City of San Diego.

Section 2. It is expressly provided that nothing herein contained shall be construed to extend the permit or time of any franchise heretofore granted either to petitioner, or to any other steam railway company.

Section 3. The above permission is granted upon the further express condition that said Citrus Soap Company shall pay to The City of San Diego the sum of twenty-five dollars (\$25.00) per year, payable in advance, as rental for each year that said spur track is in place. This rental shall be subject to change at the pleasure of the said Common Council.

Section 1. That it shall be and is unlawful for any person to drive or propel or cause to be driven or propelled, any motor vehicle over Tide Street, in The City of San Diego, between Lytton Street and Kurtz Street, in said City, at a rate of speed greater than ten (10) miles per hour.

Section 2. That any person violating the terms of this ordinance shall be fined not exceeding one hundred dollars (\$100.00), or imprisoned in the City Jail for a term not exceeding thirty (30) days, or by both such fine and imprisonment.

I HEREBY CERTIFY that the above and foregoing is a full, true and correct copy of Ordinance No. 8131 of the ordinances of the City of San Diego, California, as adopted by the Common Council of said City on the 27th day of September 1920, and as approved by the Mayor of said City on the 28th day of September 1920.

ORDINANCE NO. 8132.

AN ORDINANCE PRESCRIBING THE MANNER OF MAKING CONNECTIONS TO PUBLIC SEWERS IN THE CITY OF SAN DIEGO, CALIFORNIA, AND REPEALING ORDINANCE NO. 5163, APPROVED JULY 2, 1913, AND ORDINANCE NO. 5802, APPROVED SEPTEMBER 15, 1914.

BE IT ORDAINED By the Common Council of The City of San Diego, as follows:

Section 1. That hereafter it shall be unlawful for any person, other than The City of San Diego, its agents and employees, to connect any pipe, drain or sewer with, or to open or penetrate any public sewer in The City of San Diego, California, or to injure, break, remove or open any portion of any manhole, flushtank, inspection pipe, or any other part of, or appurtenance to, any public sewer. But all laterals from all sewer mains shall be laid by the Operating Department to the property line of any such person as may lawfully require a connection with any public sewer.

In addition to a permit fee of \$2.50, which the City makes for connecting with the public sewer, the owner or person making application for such connection shall pay to the City for the construction and laying of laterals, the following charges:

| | | | |
|---------------------|----------|-------------------|---------|
| In unpaved streets, | \$27.50; | In paved streets, | \$47.50 |
| In unpaved alleys, | \$12.50; | In paved alleys, | 22.50 |

Where six-inch pipe is used, an additional charge of \$5.00 shall be made. For deep sewer laterals, constructed with six-inch pipe; In unpaved streets, \$80.00; In paved streets, \$100.00.

In case a connection is made to a sewer where it crosses private property, the plumber shall install the pipe to the main sewer, and shall uncover the main sewer so that a connection can be properly made, and the Operating Department will make such connection. A charge of \$2.50 in addition to the permit fee will be made for such connection.

When it is necessary to make a run of more than forty-five (45) feet on a street lateral, or of more than fifteen (15) feet on an alley lateral, an estimate of cost for any work in excess of the above-named distances will be furnished by the General Sewer Foreman in the Operating Department, and an amount covering such estimate must be deposited with the Clerk of the said Department when the permit is taken out.

Section 2. That it shall be, and it is hereby declared to be, unlawful for any person to connect any pipe on private property with any pipe in the street that is connected with the public sewer of said City, or to construct any sewer in said City, without first obtaining a permit to do so from the Operating Department of The City of San Diego, as hereinafter provided.

The application for such permit must first be filed with the said Operating Department, in writing, by the owner of the property to be sewered, or his agent, before opening any street or alley, giving the correct number of the lot and block, and the place where it is desired to connect with the sewer, and shall give the name of the owner of the property. The Manager of Operation shall designate the location of the nearest "Y", and the connection shall be made with such sewer at the "Y" so pointed out by said Manager of Operation.

Where the laterals have been installed to the curb line, the plumber must bring the soil pipe to the property line at a point opposite to, or not more than five (5) feet above where such lateral is installed, and in no case must pipe be brought to the property line below where such lateral is installed.

Where property owners excavate outside of property lines into the street for basement purposes, and wish to connect with sewer across such excavation, they shall install soil pipe to the outside line of such excavation at their own expense, the City making the installation from that point to the main in the street.

It will be necessary to take out sewer permit prior to the installation of any plumbing fixtures.

Every house and building must be separately and independently connected with the City sewer, except in cases where there may be a house in the rear of the lot. In this case it may be connected with the sewer of the house in front, provided the old sewer will satisfactorily stand the test, and the property is owned by the same parties.

When property which faces on one street and has a sewer main, either in the street or alley, to serve such property as originally subdivided, is re-subdivided, thus facing a cross street, the sewer necessary to serve such lots as are not adjacent to the sewer already installed, may be installed on the lot line at the rear of said property, or in the street. Said sewer shall be installed by the City, and the cost of such installation shall be paid by the property owner, the City reserving the right to make extensions or connections to said sewer at any time.

Where a sewer line is installed at the cost of property owners, on or over any street, alley, or any ground dedicated to the City for street purposes, or across private property, and where said sewer is connected to any City main, or is run to any outfall or septic tank which may be on City property, or which will ever be connected with the City sewers, or may become a part of the City sewer system, the same shall be installed under City supervision, and the City shall have the right to make extensions and connections to said sewer at any and all times. Before any lateral connection is made to any such sewer installed by property owners, a permit for such connection must be taken out, and the regular permit fee paid.

Section 3. All fees and other moneys collected by the Operating Department ~~shall be paid into the Operating Department~~ shall be paid into the Operating Department Fund of The City of San Diego.

Section 4. Every soil pipe and private drain connected with any sewer running from the property line to the sewer, shall be at least four inches in diameter, inside measurement, and, whether of cast iron or vitrified stone, must be sound and impervious in all parts, and joined in the best manner. All runs of soil or vitrified sewer pipe shall be not less than one-fourth inch fall to the foot. Where the grade of the main sewer permits all sewer pipes must be laid at a depth of not less than twenty-four inches below established

grade at the property line, and thirty inches at the curb line, measured from the bottom of the ditch.

Every soil pipe and private drain inside the property line, connected with the public sewer in said City, or connected with any pipe or private sewer that is connected with said public sewer, shall be of cast iron, and must be sound and impervious in all its parts and jointed in the best manner. For cast iron pipe, the gaskets must be of clean, tarred oakum, twisted and rammed into place. The lead used in making the joint must be of the best quality, pure and soft, and must be caulked securely and properly into place. Before making the joint, the bell and spigot must be wiped clean and dry, and the joints must be run in at one pouring of the molten lead. The caulking must be faithfully executed, and the lead driven flush with the face of the work. All vitrified stone pipe shall be of the best quality of salt glazed, vitrified pipe, perfectly true to pattern, and sound. All joints shall be completely filled with cement mortar, wiped off on the outside to a neat bevel, after each joint of pipe has been laid and cemented; and each joint of pipe must be swabbed out with a scraper as it is laid. No fresh laid pipes or sewers shall be used, and no water shall be permitted within said pipes until the cement has had at least six hours in which to set. All cement mortar used in connecting said pipes shall be of one part Portland cement and one part sand.

Section 5. That any licensed plumber engaged in any work provided for in this ordinance shall be held responsible for any injury to any sewer, or to any public street, or to any public or private property, and for all other damages.

Each master plumber and his bondsmen shall be liable in damages to the City, or to any party injured, to the extent of such injury, on such bond, for any violation of any provisions of this ordinance, and such liability shall extend to any act of any agent, servant or employee of such licensed plumber while acting as such agent, servant or employee in the line of his employment.

Section 6. Any person who shall do or cause to be done, any work provided for in this ordinance, shall be liable personally, and upon his bond, if he shall have given one, for any injury to any sewer, or to any public street, or to any other public property; which damage may be recovered in a civil action, brought in the name of The City of San Diego.

Section 7. That every pipe which is not connected with the public sewer, or with any sewer connected with the public sewer, and which pipe is provided for conducting the sewerage from any building, or for conducting the discharge of a water closet, shall be not less than four inches in diameter, inside measurement, and inside the property line and to a point two feet outside the curb line shall be of cast iron. Where the house sewer connects with the alley sewer, the cast iron pipe shall extend fully five feet outside the property line. From this point the lateral may be constructed either of cast iron or vitrified stone; and no other material than vitrified stone or cast iron pipe shall be permitted in the construction of such sewer outside the property line; nor shall any pipe be connected by any person with any pipe not constructed, or that is connected with any pipe not constructed, of the material required by the provisions of this ordinance.

The words "outside the property line" shall be construed to mean the line separating private property from a public street, avenue, lane, alley, road or highway. No person shall connect with any public sewer or any private sewer or drain laid for surface, roof or yard drainage, nor shall exhaust from steam engine, blow-off from steam boiler, or water above 140 degrees fahrenheit in temperature, be discharged in any public sewer, or private sewer, or drain connected with the same, in said City.

When it is necessary for the Operating Department to relieve stop-ups in laterals, and the obstruction is found to be on the property, or the obstruction, if in the street between the main and property, is due to waste matter which should not have been placed in the sewer, the owner of said property shall pay to the Operating Department the cost of the removal of such obstruction.

Section 8. Any person who shall wilfully violate any of the provisions of this ordinance shall be deemed guilty of a misdemeanor, and upon conviction shall be fined in any sum not exceeding two hundred dollars (\$200.00), or imprisoned in the City Jail not exceeding one hundred (100) days, or he may be both fined and imprisoned; and in addition, any plumber who shall violate any of the provisions of this ordinance shall, on a hearing before the Common Council, forfeit any license that may have been granted him, and he shall not receive another license as a plumber except upon the vote of such Common Council granting the same to him.

Section 9. That Ordinance No. 5163 of the ordinances of said City, entitled, "An Ordinance prescribing the manner of making connections to public sewers in The City of San Diego, California," approved July 2nd, 1913, and Ordinance No. 5802 of the ordinances of said City, entitled, "An ordinance amending section one of Ordinance No. 5163, entitled 'Prescribing the manner of making connections to the public sewers in The City of San Diego,' approved July 2, 1913," approved September 15, 1914, be, and the same are hereby repealed.

Section 10. This ordinance shall take effect and be in force on the thirty-first day from and after its passage and approval.

AUDITOR'S CERTIFICATE. I HEREBY CERTIFY that the appropriation made, or indebtedness incurred, by reason of the provisions of the annexed ordinance, can be made or incurred without the violation of any of the provisions of the Charter of the City of San Diego, California.

BE IT ORDAINED By the Common Council of The City of San Diego as follows:

Section 1. That The City of San Diego hereby grants to the San Diego Consolidated Gas and Electric Company, a corporation, and its successors and assigns, the franchise and authority to erect, lay, operate and maintain gas pipes and conduits on all of the public streets, alleys, highways and public places of The City of San Diego for the purpose of carrying gas for heat and power, and to erect and maintain poles, wires, conduits and pipes for wires for transmitting electricity for heat and power purposes along and upon all the public streets, alleys, highways and public places of The City of San Diego, and to exercise the privilege of furnishing gas for heat and power and transmitting electricity for heat and power along, under and upon any and all of the public streets, alleys, highways and public places within the corporate limits of said The City of San Diego, for a period of time ending on the 27th day of September, 1970.

Section 2. Work to erect or lay gas pipes for the purpose of carrying gas for heat and power or to erect poles, wires, conduits and pipes for wires for transmitting electricity for heat or power along or upon any public street, alley, highway or public place, or to exercise any other privilege whatever under the terms of this franchise, shall be commenced in good faith within not more than four months from the granting of this franchise, and if not so commenced within said time said franchise so granted shall be declared forfeited (and said work shall be prosecuted diligently and in good faith so as to meet and fill the reasonable needs of the inhabitants of said The City of San Diego).

Section 3. The franchise granted by the terms and provisions of this ordinance is upon the following conditions and limitations:

(1) The grantee of said franchise, its successors and assigns, shall file with the Clerk of The City of San Diego during the first fifteen days of February of each year after the taking effect of the ordinance granting the said franchise, and during the same period of each successive year thereafter until the 27th day of September, 1970, a statement, verified by the oath of said grantee, its successors or assigns, showing the total gross receipts arising from the use, operation or possession of said franchise for the preceding calendar year (or fraction thereof, for the first and last years, as the case may be), save and except, however, the gross annual receipts received by said grantee, or its successors, from the sale of electricity for power purposes to the San Diego Electric Railway Company and used by said railway company for railway purposes; the term "railway purposes" to be understood to cover power used and to be used by the street railway company in operating all lines of street railway now or at any time hereafter owned by it, as well as all other electric lines which are now or may be at any time during the life of this franchise operated by said railway company, whether so operated under lease, operating agreement or any other kind of an arrangement whatsoever; and said grantee, or its successors or assigns, shall thereupon pay, as a rental for that portion or those portions of the streets, highways, roads, or alleys exclusively occupied by the grantee of this franchise, to said City Clerk for said The City of San Diego, the aggregate sum of two per cent. (2%) of the gross annual receipts, as shown by said statement, save and except that portion of the gross annual receipts received by said grantee, or its successors or assigns, from the sale of electricity for power purposes to the San Diego Electric Railway Company, and used by said railway company for railway purposes; the term "railway purposes" being understood to cover the power used and to be used by said street railway company in operating all lines of street railway now or at any time hereafter owned by it, as well as all other electric lines which are now or may be at any time during the life of this franchise, operated by said railway company, whether so operated under lease, operating agreement, or any other kind of an arrangement whatsoever. The payment of said percentage of gross receipts by said grantee, or its successors or assigns, to The City of San Diego shall begin upon the taking effect of the ordinance granting this franchise.

Any refusal by said grantee, its successors or assigns, to file said verified statement, or to pay said percentage of said gross annual receipts, as hereinabove provided, within the time above provided, shall constitute ground for forfeiture of said franchise, and all rights granted thereby.

The Mayor and Common Council of The City of San Diego may, after said statement is made, inspect and examine the books of the grantee of this franchise, or its successors or assigns, at its place of business, and may cause the same to be examined by an expert accountant, and may examine, under oath, any and all of its officers and agents, for the purpose of ascertaining the gross annual receipts under this franchise.

(2) The grantee of this franchise, and its successors and assigns, shall have the right to construct, maintain, operate, renew, repair and remove such traps, manholes, appliances and attachments as may be necessary to properly maintain gas pipes and service connections, together with conduits for transmitting electricity for heat and power, constructed under this franchise, and said traps, manholes, appliances and attachments shall at all times be kept flush with the surface of the street, and so located as to conform to any order of the Common Council in regard thereto, and not to interfere with the use of the streets for highway purposes. Said grantee, and its successors and assigns shall also have the right, subject to such regulations as are now or may hereafter be in force, to make all necessary excavations in said streets for the construction and repair of said gas pipe lines, conduits and service connections and traps, manholes, appliances and attachments. All pipes, conduits, poles, service connections, traps, manholes, attachments and appliances constructed or maintained under the provisions of this franchise shall be constructed and maintained in accordance and in conformity with all of the laws of the State of California and such ordinances, rules and regulations now in force or hereafter adopted or prescribed by the Common Council of The City of San Diego.

The work of erecting, constructing, laying, repairing and removing all poles, pipes, conduits, service connections, traps, manholes, attachments and appliances shall be conducted with the least possible hindrance to the use of the streets and highways, and as soon as the erecting, constructing, laying, repairing and removing of said poles, pipes, conduits, service connections, traps, manholes, attachments and appliances is completed, all portions of the streets or highways which have been excavated or otherwise injured shall be placed in as good condition as the same were in before the erecting, constructing, laying, repairing or removing of any pole, pipe, conduit, service connection, trap, manhole, attachment or appliance, to the satisfaction of the Common Council of The City of San Diego.

(3) The right to grade, sewer, pave, macadamize, or otherwise improve or alter or repair the streets, highways and alleys in The City of San Diego, or to change the grade thereof, shall be reserved to The City of San Diego; such work to be done so as to interfere as little as possible with the rights and privileges enjoyed by the grantee of this franchise, under the terms and provisions thereof.

The grantee, or its successors or assigns, shall change the location of the pipes and conduits, or other appliances, placed in the city streets so as to comply with any change of grade of said streets or highways ordered by the Common Council of said City, and shall maintain and operate said pipes and conduits at all times in accordance with the ordinances and laws of The City of San Diego relating to the government and control of the use of streets; and the grantee, its successors and assigns, shall place all poles and appliances for the support of said poles for carrying electric wires for transmitting electricity for heat and power on the streets, highways, alleys and public places in said City so as to interfere as little as possible with the ordinary traffic on said streets, highways and alleys, and shall move and relocate said poles and appliances so as to avoid any interference with traffic. The right to place and replace poles and appliances for the purpose of supporting and carrying wires and conduits on the streets, alleys, highways and public places of The City of San Diego shall be subject at all times to the right of the City, in the exercise of its police power, to require the wires and conduits used for the purpose of conveying electrical energy to be placed in conduits under the surface of the ground. All changes in the location of pipes, conduits or poles which may be required under the terms and provisions of this paragraph shall be made at the expense of the grantee, or its successors or assigns.

The grantee, and its successors and assigns, shall waive any and all claims for damages against said City caused by reason of any grading, sewerage, paving, macadamizing, or otherwise improving, altering or repairing any of said streets, highways or alleys.

The grantee of this franchise, and its successors and assigns, shall have the right, during the period for which this franchise is granted, to use said streets, alleys, highways and public places, as hereinabove stated, for the purpose of operating and maintaining gas pipes and conduits for carrying gas for heat and power, and poles, wires, conduits and pipes for wires for transmitting electricity for heat and power purposes.

The said grantee shall not sell, transfer nor assign this franchise, or the rights and privileges granted thereby, without the consent of the Common Council.

Any refusal or failure by said grantee, or its successors or assigns, to comply with any of the terms and conditions of this franchise shall constitute ground for forfeiture of said franchise, and all the rights granted hereunder.

Should it ever be finally adjudicated by the Supreme Court of the State of California, or the Supreme Court of the United States of America, that The City of San Diego, or the legislative body thereof, has no power or authority to require the grantee of this franchise, or any other person, firm or corporation operating pursuant to the terms and provisions of Section 19 of Article XI of the Constitution of the State of California as it stood prior to the amendment approved October 10, 1911, to apply for or take out a franchise for maintaining gas pipes and conduits for carrying gas for heat and power, or poles, wires, conduits and pipes for wires for transmitting electricity for heat or power purposes, that then and in that event this franchise shall become null and void, and be of no further effect from the date of the rendering of said decree of said Supreme Court; and the grantee hereunder, then and in that event, shall be thereafter relieved of all obligations imposed by the terms and conditions of this franchise, and particularly of the obligation to pay to said City two per cent. (2%) of the gross receipts arising from the use, operation and possession of this franchise; provided, however, that in the event said City is held to be without power or authority to require the taking out of this franchise, said City shall be under no obligation to return any of the moneys paid by the grantee of this franchise, or its successors or assigns, to the City as a rental for that portion of the streets and highways exclusively occupied by said grantee.

This grant of franchise and authority shall be and is subject to the right of a majority of the electors of The City of San Diego voting at any election at any time thereafter to repeal, change or modify the said grant, and such right is hereby expressly reserved to said electors; provided, however, that should the Charter of The City of San Diego at any time be so modified or amended to the extent that the foregoing reservation is not required by said Charter to be contained in every grant of a franchise, then and in that event, from and after the taking effect of such modification or amendment of said Charter, the said foregoing reservation in this paragraph contained shall no longer be of any force or effect.

In the event that this franchise is forfeited for any reason, the grantee, or its successors or assigns, shall thereafter remove all poles, pipes, conduits, appliances and

equipment of every kind and character belonging to said grantee, from the streets, highways and alleys of The City of San Diego, and put the streets, highways and alleys in as good condition as they were prior to such removal.

Section 4. This ordinance shall take effect and be in force on the thirty-first day from and after its passage and approval.
