Section 26. Each department of The City of San Diego shall limit its expenditures to the amounts and for the purposes herein set forth under the respective departmental titles and designated by aerial numbers.

Section 27. No transfer from one fund to another shall be made unless by special direction of the Common Council manifested by ordinance. Every requisition issued in conformity with Ordinance No. 3061, in addition to the maximum amount of the charge to be made against the item drawn upon, and no expenditure shall be made which exceeds the maximum figure contained in the requisition therefor, and any claim based upon an amount exceeding the maximum amount contained in said requisition shall be invalidated as against the City of San Diego. Every requisition shall be presented to the City Auditor for his approval as to sums before any indebtedness thereon shall be incurred and before any claim based upon said requisition shall become a legal charge against any item contained in this ordinance. It shall be unlawful for any department, from the first day of the ensuing fiscal year, except as may be by ordinance of the Common Council otherwise provided.

Section 28. There is hereby appropriated out of the Fund of The City of San Diego to the departments named in the foregoing sections of this ordinance the various sums of money specified therein, for the purpose of conducting the business of said departments of the city government during the fiscal year beginning January 1st, 1922.

Section 29. This is an ordinance for the immediate preservation of the public peace, health, and safety, and one of urgency, and shall take effect and be in force from and after its passage and approval.

The facts constituting the urgency in this case are that by reason of the provisions of the charter requiring the Common Council and Auditor to estimate the probable expenditures of the various departments of the City for the ensuing fiscal year, and the additional fact that the tax rate for said fiscal year shall be based upon said estimated expenditures, it is necessary that an ordinance limiting the amounts to be expended by the various departments should be in effect as of January 1st, 1922.

Note: Each department of the City of San Diego shall limit its expenditures to the amounts hereinafter set forth under the respective departmental titles and designated by serial number.

It shall be unlawful for any department to expend during any one month of the ensuing fiscal year more than one-twelfth of the amount allotted to said department for said fiscal year, except as may be by Ordinance of the Common Council otherwise provided, and except that all items contained in this ordinance prefixed by a star (*) shall be exempt from said one-twelfth allotment.

SECTION 28. This is an ordinance for the immediate preservation of the public peace, health and safety, and one of urgency, and shall take effect and be in force from and after its passage and approval.

The facts constituting the urgency in this case are that by reason of the provisions of the charter requiring the Common Council to estimate the probable expenditures of the various departments of the City for the ensuing fiscal year, and the additional fact that the tax rate for said fiscal year shall be based upon said estimated expenditures, it is necessary that an ordinance limiting the amounts to be expended by the various departments should be in effect as of January 1st, 1923.
