6. RAIL SPECIFICATIONS. That good substantial steel rails shall be used in the construction of said track.

7. CITY'S RIGHT TO ACCESS TO STREETS. That the right to grade, sewer, pave, macadamize, or otherwise improve or alter or repair the said streets, or change the grade thereof, shall be reserved to the said City, such work to be done so as to obstruct the said railway as little as possible; the grantee or its assigns shall shift and re-shift the rails so as to avoid the obstruction created thereby; the grantee and its assigns shall waive any and all claims for damages against said City caused by reason of such grading, paving or macadamizing, or otherwise improving, altering or repairing said streets.

That the laying of said track and all side tracks, cross-overs, spur-tracks, turnouts, switches or curves shall conform in all cases with the grade of said streets, where the same have been graded, and in all other cases to be as near to the natural grade as practicable, and when at any time any part of this route shall be graded, or the grade thereof altered or changed by said Common Council the bed of the road and the tracks thereon shall be made to conform therewith by said grantee or its assigns. That the overhead system may be of single or double pole construction. 12. CITY ENGINEER'S SERVICES. That the City Engineer shall, under the direction of the said Common Council give the established grade of the streets along the line of construction of said street railway and set stakes indicating the said grades. He shall see the said railway is constructed in conformity to the terms and requirement of the franchise, and for his services as herein required, he shall receive such fees as are provided therefor, and the same shall be paid by the grantee or its assigns.

13. TIME LIMIT FOR CONSTRUCTION. Work of construction shall commence within four months after the taking effect of the ordinance granting this franchise, and the construction shall be completed within six months after the taking effect of the ordinance granting this franchise.

14. CESSATION OF OPERATION. In case the grantee of the franchise or its successors or assigns shall cease to operate said railway for a period of ninety days consecutively after said railway shall have been fully constructed and completed, except in cases of unavoidable accident, or other matters not within the control of the grantee, or its successors or assigns, the franchise shall be and is hereby declared to be forfeited and the said grantee, its successors, or assigns, shall thereafter remove the tracks of said railway and put the streets in good condition.

15. RIGHT TO REPEAL. The grant of the said franchise shall be subject to the right of the majority of the electors of said City, voting at any election at any time thereafter to repeal, change or modify the said grant, and the ordinance making such grant shall con-

tain a reservation of such right to repeal, amend or modify said ordinance."

2. MOTIVE POWER. That the cars upon said railway shall be propelled by electricity used through the overhead system, or, in case of accident or unavoidable delay in procuring equipment, by mule or horse power.

3. CONDITION OF STREETS. The owner of the franchise or privilege shall at all times keep that portion of the street occupied by his or its tracks in good condition, constantly in repair, flush with the street, and with good crossings, and in the event that the street on which said franchise or privilege is granted shall be paved either by the City or under proceedings authorized by the General Laws of the State, the said owner of said franchise or privilege shall be required to pay for only that portion of any construction in excess of that covered by the specifications for the improvement of the rest of the street and which shall be necessary to provide a safe and suitable foundation for the operation of car lines over a paved street. It is the intent and purpose of this section to relieve the owner of a franchise or privilege to operate street cars on the streets of The City of San Diego of the cost of new surface pavement between the tracks of said owner and for two feet on either side thereof on streets to be hereafter paved, and to require the owner of said franchise or privilege to lay a suitable foundation for the operation of car lines over a paved street.

Nothing herein contained, however, shall relieve the said owner of said franchise or privilege of his or its obligation to keep those portions of the streets occupied by the said owner constantly in repair flush with the street and with good crossings, and to keep that portion of the pavement now existing or which may hereafter be placed between the rails, and for two feet on each side thereof, and between the tracks if there be more than one, in good condition.

4. TRACK SPECIFICATIONS. That the track shall be constructed at the standard gauge of four feet eight and one-half inches within the rails, and shall have a space between it and side-tracks, turnouts and switches of not less than five feet three inches.

5. SINGLE OR DOUBLE TRACK. That the grantee or its assigns shall have the right to lay and maintain either single or double tracks as the condition of business may warrant, but the laying of a single track shall be deemed a compliance with the conditions of this franchise, and shall in no wise impair the right of said grantee or its assigns to subsequently lay a second track paralleling the first track.

6. RAIL SPECIFICATIONS. That good substantial steel rail shall be used in the construction of said track.

7. CITY'S RIGHT OF ACCESS TO STREETS. That the right to grade, sewer, pave, macadamize, or otherwise improve or alter or repair the said streets, or change the grade thereof, shall be reserved to the said City, such work to be done so as to obstruct the said railway as little as possible; the grantee or its assigns shall shift and reshift the rails so as to avoid the obstruction created thereby; the grantee and its assigns shall waive any and all claims for damages against said City caused by reason of such grading, paving or macadamizing, or otherwise improving, altering or repairing said streets.

8. TRANSFERS. That the successful bidder for said franchise shall issue passenger transfers for passage in one continuous direction to all other lines of street railway owned or operated by said successful bidder in the said city, and shall also issue similar transfers from such lines owned or operated as aforesaid, to the lines covered by this franchise.

9. TRACKS ON GRADED STREETS. That the laying of said track and all side-tracks, cross-overs, spur-tracks, turnouts, switches or curves shall conform in all cases with the grade of said streets where the same have been graded, and in all other cases to be as near to the natural grade as practicable, and when at any time any part of this route shall be graded, or the grade thereof altered or changed by said Common Council the bed of the road and the tracks thereon shall be made to conform therewith by said grantee or its assigns. That the overhead system may be of single or double pole construction. That all spur-tracks or other turnout tracks may be so constructed, and maintained as to curve off the main track and across the curbs and sidewalks and lead into car barns, repair shops, machine shops, depots and other buildings, but a substantial gutter shall be maintained under such tracks to provide the necessary drainage thereof.

10. LOCATION OF TRACKS ON STREETS. That the tracks shall be so constructed and laid, that each of them shall be, when practicable, of equal distance from curb line of said streets or as nearly so as the condition or width of the streets will permit.

11. LOCATION OF SWITCHES. That no switch shall be constructed or maintained within fifty feet of any cross street and the location of such switches and all turnouts shall be changed at the expense of the grantee or its assigns whenever so ordered by said Common Council.

12. CITY ENGINEER'S SERVICES. That the City Engineer shall, under the direction of the said Common Council give the established grade of the streets along the line of construction of said street railway and set stakes indicating the said grades. He shall see the said railway is constructed in conformity to the terms and requirements of the franchise, and for his services as herein required, he shall receive such fees as are provided therefor, and the same shall be paid by the grantee or its assigns.

13. TIME LIMIT FOR CONSTRUCTION AND COMPLETION. Work to construct the portion of the railway not already constructed shall be commenced in good faith within not more than four months from the granting of the franchise, and if not so commenced said franchise shall be declared forfeited; and the said railway shall be completed within not more than three years after the said work shall have been commenced, and if not so completed said franchise so granted shall be forfeited; provided, that for good cause shown the Common Council may by resolution extend the time for completion thereof not exceeding three months.

14. CESSATION OF OPERATION. In case the grantee of the franchise or its successors or assigns, shall cease to operate said railway for a period of ninety days consecutively after said railway shall have been fully constructed and completed, except in cases of unavoidable accident, or other matters not within the control of the grantee, or its successors, or assigns, the franchise shall be and is hereby declared to be forfeited and the said grantee, its successors, or assigns, shall thereafter remove the tracks of said railway and put the streets in good condition.

15. RIGHT TO REPEAL. The grant of the said franchise shall be subject to the right of the majority of the electors of said City, voting at any election at any time thereafter to repeal, change or modify the said grant, and the ordinance making such grant shall contain a reservation of such right to repeal, amend or modify said ordinance."

Section 2. That this ordinance shall take effect and be in force from and after thirty days after its passage and approval.

Section 2. The said San Diego Electric Railway Company and its successors, shall have the right to construct a double-track, standard gauge, road, and also switches, sidetracks, turnouts, cross-overs, crossings, spurs and depots, and such other appurtenances and adjuncts as may be necessary for the convenient use of the same on, over and along said route, and to operate the same with electricity, or in case of emergency such other lawful motive power as may be authorized by the Common Council of said City.

Section 3. This grant is made upon the condition that the said grantee, or its successors, shall at all times keep that portion of the streets occupied by its tracks in good condition, constantly in repair, flush with the street, and with good crossings, and in the event that the streets on which such franchise is granted shall be paved either by the city or under proceedings authorized by the General Laws of the State, said grantee shall be required to pay for only that portion of any construction in excess of that covered by the specifications for the improvement of the rest of the street, and which shall be necessary to provide a safe and suitable foundation for the operation of said railroad over a paved street. Section 11. Within ten days after the acceptance of this franchise, the grantee thereof shall file with the Common Council a bond running to said City, with at least two good and sufficient sureties, to be approved by said Common Council in the penal sum of ten thousand dollars (\$10,000.00), conditioned that the grantee of this franchise shall well and truly observe, fulfill and perform each and every term and condition of this franchise, and that in case of any breach of condition of such bond, the whole amount of the penal sum therein shall be taken and deemed liquidated damages, and shall be recoverable from the principal and sureties on said bond.

BE IT ORDAINED By the Common Council of The City of San Diego, as follows:

Section 1. That The City of San Diego hereby grants to the San Diego Electric Railway Company, a corporation, and to its successors and assigns, the franchise and authority to construct, maintain and operate for a period ending on the first day of September, 1952, an electric railway, including sidetracks, cross-overs, spur tracks, turnouts, switches and curves, and to maintain either a single or double pole line for the support of overhead trolley support arms or span wires, and to suspend electric wires therefrom to be used in the operation of said railway upon and along the following named streets in The City of San Diego, California, to-wit:

Commencing at the center of the intersection of Woolman Avenue with Thirtieth Street; thence easterly along said Woolman Avenue to the center of the intersection of said Woolman Avenue with Thirty-ninth Street; thence northerly along said Thirty-ninth Street to the center of the intersection of said Thirty-ninth Street with Imperial Avenue;

upon the following conditions and limitations:

(1) The grantee of said franchise, its successors and assigns, shall file with the City Clerk of The City of San Diego during the first fifteen days of February of each year after the taking effect of the ordinance granting said franchise and during the same period of each successive year thereafter until the first day of September, 1952, a statement verified by the oath of the grantee, its successors or assigns, showing the total gross receipts arising from the use, operation or possession of said franchise for the preceding calendar year, (or fraction thereof for the first and last years, as the case may be), and shall thereupon pay to the said City Clerk for the said City of San Diego the aggregate sum of two per centum (2%) of the said gross annual receipts as shown by said statement. The said percentage of gross receipts shall begin upon the taking effect of the ordinance granting this franchise. Any refusal of said grantee, its successors or assigns, to file said verified statement, and to pay said percentage of said gross annual receipts within the time above provided shall constitute ground for forfeiture of said franchise and all rights granted thereby. It is the intent and purpose of this section to relieve the owner of a franchise or privilege to operate street cars on the streets of The City of San Diego of the cost of new surface pavement between the tracks of said owner and for two feet on either side thereof on streets to be hereafter paved, and to require the owner of said franchise or privilege to lay a suitable foundation for the operation of car lines over a paved street.

Nothing herein contained, however, shall relieve the said owner of said franchise or privilege of his or its obligation to keep those portions of the streets occupied by the said owner constantly in repair, flush with the street, and with good crossings, and to keep that portion of the pavement now existing or which may hereafter be placed between the rails, and for two feet on each side thereof, and between the tracks, if there be more than one, in good condition.

That the grantee of this franchise, its successors or assigns, shall have the right to lay and maintain either single or double tracks as the condition of business may warrant but the laying of a single track shall be deemed a compliance with the conditions of this franchise, and shall in no wise impair the right of the grantee, its successors or assigns, to subsequently lay a second track paralleling the first track.

(7) CITY'S RIGHT TO ACCESS TO STREETS. That the right to grade, sewer, pave, or otherwise improve or alter or repair the streets, or change the grade thereof, shall be reserved to the said City, such work to be done so as to obstruct the said railway as little as possible; the grantee, its successors or assigns, shall shift and reshift the rails so as to avoid the obstruction created thereby, and shall waive any and all claims for damage against said City caused by reason of such grading, paving or improving, or altering or repairing said streets.

(8) TRACKS ON GRADED STREETS. That the laying of said tracks and all sidetracks, cross overs, spur tracks, turnouts, switches and curves shall conform in all cases with the grade of said streets where the same have been graded, and in all other cases to be as near to the natural grade as practicable, and when at any time part of this route shall be graded or the grade thereof altered or changed by said Common Council, the bed of the road and the tracks thereon shall be made to conform therewith by said grantee, its successors or assigns. That the overhead system may be single or double construction. That all spur tracks or other turnout tracks may be so constructed and maintained as to curve off the main track and across the curbs and sidewalks and lead into carbarns, repair shops, machine shops, depots or other buildings, but a substantial gutter shall be maintained under such tracks to provide the necessary drainage thereof.

(9) LOCATION OF TRACKS ON STREETS. That the tracks shall be constructed and laid that each of them shall be when practicable of equal distance from curb line to said streets, or as nearly so as the condition or width of the street will permit.

(12) TIME LIMIT FOR CONSTRUCTION. Work to construct the said railway shall be commenced in good faith within not more than four months from the granting of the franchise, and if not so commenced within said time said franchise shall be declared forfeited, and the said railway shall be completed within not more than three years thereafter, and if not so completed within said time, said franchise so granted shall be forfeited; provided, that for good cause shown the Common Council may by resolution extend the time for completion thereof not exceeding three months.

(13) CESSATION OF OPERATION. In case the grantee of the franchise, its successors or assigns, shall cease to operate said railway for a period of ninety (90) days consecutively after said railway shall have been fully completed and constructed, except in cases of unavoidable accident or other matters not within the control of the grantee, its successors or assigns, the said franchise shall be and is hereby declared to be forfeited, and the grantee, its successors or assigns, shall remove the tracks of said railway and put the streets in good condition.

(14) RIGHT TO REPEAL. The said percentage of gross receipts shall begin upon the taking effect of the ordinance granting this franchise. (6) RAIL SPECIFICATIONS. That good substantial steel rails shall be used in the construction of said track.

(7) CITY'S RIGHT TO ACCESS TO STREETS. That the right to grade, sewer, pave, macadamize, or otherwise improve or alter or repair the streets, or change the grade thereof, shall be reserved to the said City, such work to be done so as to obstruct the said railway as little as possible; the grantee, its successors or assigns, shall shift and reshift the rails so as to avoid the obstruction created thereby, and shall waive any and all claims for damage against said City caused by reason of such grading, paving or macadamizing, or otherwise improving, altering or repairing said streets.

That the laying of said track and all sidetracks, cross-overs, spur-tracks, turnouts, switches, or curves shall conform in all cases with the grade of said streets, where the same have been graded, and in all other cases to be as near to the natural grade as practicable, and when at any time any part of this route shall be graded, or the grade thereof altered or changed by said Common Council, the bed of the road and the tracks thereon shall be made to conform therewith by said grantee, or its successors or assigns. That the overhead system may be single or double pole construction. That all spur tracks or other turnout tracks may be so constructed and maintained as to curve off the main tracks and across the curbs and sidewalks and lead into car barns, repair shops, machine shops, depots and other buildings, but a substantial gutter shall be maintained under such tracks to provide the necessary drainage thereof.

upon the conditions and limitations set forth in said application and in accordance with the recommendations of the Transportation Committee of The City of San Diego adopted by said Common Council on the 27th day of June, 1923, and which said recommendations are contained in Document No. 152150, on file in the office of said City Clerk, to wit:

1. PERCENTAGE PAYABLE TO THE CITY. The grantee of said franchise, successors or assigns, shall file with the City Clerk of The City of San Diego during the first fifteen days of February of each year after the taking effect of the ordinance granting the said franchise and during the same period of each successive year thereafter during the existence of the franchise, a statement verified by the oath of the grantee, successors or assigns, showing the total gross receipts arising from the use, operation and possession of said franchise for the preceeding calendar year (or fraction thereof for the first and last years as the case may be), and shall thereupon pay to the said City Clerk for the City of San Diego the aggregate sum of two per centum of said gross annual receipts as shown by said statement, and this franchise being a renewal of a right already in existence the payment of said percentage of gross receipts shall begin upon the taking effect of the ordinance granting this franchise. Any refusal of said grantee, successors or assigns, to file said verified statement and pay said percentage of said gross annual receipts within the time above provided shall constitute ground for forfeiture of said franchise and all rights granted thereby. The Mayor and the Common Council may after said statement is made inspect and examine the books of the grantee of this franchise and may cause the same to be examined by an expert accountant and may examine under oath any and all of the officers or agents of the railway company for the purpose of ascertaining the gross annual receipts under this franchise.

2. MOTIVE POWER. The railroads shall be operated by means of electricity used through the overhead trolley system or by such means as may hereafter be approved by the Common Council of said City.

3. CONDITION OF STREETS. The owner of the franchise or privilege shall at all times keep that portion of the street occupied by his or its tracks in good condition, constantly in repair, flush with the street and with good crossings, and in the event that the street on which said franchise or privilege is granted shall be paved either by the city or under proceedings authorized by the General Laws of the State, the said owner of said franchise or privilege shall be required to pay for only that portion of any construction in excess of that covered by the specifications for the improvement of the rest of the street and which shall be necessary to provide a safe and suitable foundation for the operation of car lines over a paved street. It is the intent and purpose of this section to relieve the owner of a franchise or privilege to operate street cars on the streets of The City of San Diego of the cost of new surface pavement between the tracks of said owner and for two feet on each side thereof on the streets to be hereafter paved, and to require the owner of said franchise or privilege to lay a suitable foundation for the operation of car lines over a paved street.

Nothing herein contained however shall relieve the said owner of said franchise or privilege of his or its obligation to keep those portions of the streets occupied by the said owner constantly in repair flush with the streets and with good crossings, and to keep that portion of the pavement now existing or which may hereafter be placed between the rails, and for two feet on each side thereof, and between the tracks if there be more than one, in good condition.

4. SINGLE OR DOUBLE TRACKS. That the grantee of this franchise or privilege, successors or assigns, shall have the right to lay and maintain either single or double tracks as the condition of business may warrant, but the laying of a single track shall be deemed a compliance with the conditions of this franchise and shall in no wise impair the right of the grantee, successors or assigns, to subsequently construct and operate a second track under this franchise.

5. CITY'S RIGHT TO ACCESS TO STREETS. That the right to grade, sewer, pave, or otherwise improve or alter or repair the streets, or change the grade thereof, shall be reserved to the said city, such work to be done so as to obstruct the railroads as little as possible; the grantee, successors or assigns, shall shift and re-shift the rails so as to avoid the obstruction created thereby, and shall waive any and all claims for damage against said city caused by reason of such grading, paving or improving, or altering or repairing said streets.

6. ROADBED LOCATION. That the location of any tracks shall conform in all cases with the official grade of the streets where the same have been graded, and in other cases to be laid as near to the natural grade as practicable, and when at any time any part of routes shall be graded or the grade thereof altered or changed by said Common Council, the said railroads shall be made to conform therewith by said grantee, successors or assigns. That turn-out tracks may be so constructed and maintained as to curve off the main track and across the curbs and sidewalks and lead into car-barns, repair-shops, machine-shops, depots and other buildings, but a substantial gutter shall be maintained under such tracks.

7. LOCATION OF TRACKS. That the tracks shall be constructed and laid so that each of them shall be when practicable of equal distance from curb lines or as nearly so as the condition or width of the street will permit.

8. ENGINEER. That the City Engineer shall give the established grade of the streets along the line of construction and set stakes indicating the grade; he shall see that the tracks are constructed in conformity with the terms and requirements of the franchise, and for such services he shall receive such fees as are provided therefor and the same shall be paid by the grantee, successors or assigns.

9. TIME LIMIT FOR CONSTRUCTION. Work to construct the railroads not already constructed shall be commenced in good faith within not more than four months from the granting of the franchise, and if not so commenced within said time, said franchise shall be declared forfeited, and the railroads shall be completed within not more than three years from the granting of the franchise, and if not so completed within said time said franchise or privilege so granted shall be forfeited; provided, that for good cause shown the Common Council may by resolution extend the time for completion of construction not exceeding three months.

10. TRANSPORTATION OF FREIGHT. Transportation of freight may be carried on over streets between the hours of 11. P. M., and 6 A. M. only or at other times which the Common Council may approve.

11. CESSATION OF OPERATION. In case the grantee of the franchise or privilege, successors or assigns, shall cease to operate said railroads for a period of ninety days consecutively after the same shall have been fully constructed and completed, except in case of unavoidable accident or other matters not within the control of the grantee, successors or assigns, the said franchise or privilege shall be and is hereby declared to be forfeited, and the grantee, successor or assigns, shall remove the tracks and put the streets in good condition.

12. RIGHT TO REPEAL. The grant of the franchise or privilege shall be subject to the right of the majority of the electors of the City of San Diego, voting at any election at any time thereafter to repeal, change or modify the said grant, and the ordinance granting such franchise or privilege shall contain a reservation of such right to repeal, amend or modify said ordinance.

Section 2. SECTION 26. Each department of the City of San Diego shall limit its expenditures to the amount and for the purposes herein set forth under the respective departmental titles and designated by serial number.

SECTION 27. No transfer from one fund to another shall be made unless by special direction of the Common Council manifested by Ordinance. Every requisition issued in conformity with Ordinance No. 5051, in addition to all other matters, shall contain the maximum amount of the charge to be made against the item drawn upon, and no expenditure shall be made which exceeds the maximum figure contained in the requisition therefor, and any claim based upon an amount exceeding the maximum amount contained in said requisition shall be invalid as against the City of San Diego. Each requisition shall be presented to the City Auditor for his approval as to funds before any indebtedness thereon shall be incurred and before any claim based upon said requisition shall become a legal charge against any item contained in this ordinance. It shall be unlawful for any department to expend during any one month of the ensuing fiscal year more than one-twelfth of the amount allotted to said department for said fiscal year, except as may be by Ordinance of the Common Council otherwise provided, and except that all items contained in this Ordinance prefixed by a star (*) shall be exempt from said one-twelfth allotment.

SECTION 30. This is an ordinance for the immediate preservation of the public peace, health and safety, and one of urgency, and shall take effect and be in force from and after its passage and approval. The facts constituting the urgency in this case are that by reason of the provisions of the charter requiring the Common Council and Auditor to estimate the probable expenditures of the various departments of the City for the ensuing fiscal year, and the additional fact that the tax rate for said fiscal year shall be based upon said estimated expenditures, it is necessary that an ordinance limiting the amounts to be expended by the various departments should be in effect as of January 1st, 1924.

Boggelen, Superior Court Case No. 19409, the line between said Pueblo Lot 1111 and Pueblo Lot 1112 of the City Lands was legally established in such position that it determined that said lot 1 of said Partition Map contains approximately 34/100 of an acre only, instead of 3.62 acres, and that 3.28 acres thereof was and is in fact a part of Pueblo Lot 1112; and

WHEREAS, it appears that by reason of an error of the City of San Diego made in assessing said Lot 1, according to said Partition Map, the same has been assessed as containing 3.62 acres instead of 34/100 of an acre for the years 1914, 1915, 1916, 1917, 1918, 1919 and 1920, and that said 3.28 acres has also been assessed for said years as a part of Pueblo Lot 1112, and the assessment to the extent above indicated is a double assessment, and therefore unlawful; and

WHEREAS, in order to redeem said lot 1 from said tax sale and to clear said lot 1 of tax liens, sales, interest, costs and delinquencies on account of said assessment, Sylvester Kipp, the owner thereof, was compelled to pay The City of San Diego the whole tax, penalties, interest, costs and delinquencies so assessed and levied against said portion of said 3.62 acres for the said years 1914, 1915, 1916, 1917, 1918, and 1919, in the sum of One hundred nineteen and 16/100 dollars (\$119.16), and paid said tax thereon for the year 1920 in the amount of sixteen and 20/100 dollars (\$16.20), making a total of one hundred thirty-five and 36/100 dollars (\$135.36); and

WHEREAS, it appears that said lot 1 should bear approximately one-tenth of said assessment, interest, penalties and costs, to-wit; the sum of thirteen and 53/100 dollars (\$13.53), and that the sum, to-wit, of One hundred twenty-one and 83/100 dollars (\$121.83) so paid should be refunded to the said Sylvester Kipp, NOW, THEREFORE,

BE IT ORDAINED By the Common Council of The City of San Diego, as follows:

Section 1. There is hereby appropriated out of the General Fund of The City of San Diego, the sum of One hundred twenty-one and 83/100 dollars (\$121.83), for the relief and benefit of said Sylvester Kipp.

Section 2. That Ordinance No. 9306 of the ordinances of The City of San Diego, entitled, "An Ordinance for the relief of Sylvester Kipp," approved December 26, 1923, be, and the same is hereby repealed.

Section 13. Each department of The City of San Diego shall limit its expenditures in so far as the same relate to that certain additional territory consolidated with said The City of San Diego, to the amounts and for the purposes herein set forth under the respective departmental titles designated by serial number.

Section 14. No transfer from one fund to another shall be made unless by special direction of the Common Council manifested by Ordinance. Every requisition issued in conformity with Ordinance No. 5051, in addition to all other matters, shall contain the maximum amount of the charge to be made against the item drawn upon, and no expenditure shall be made which exceeds the maximum figure contained in the requisition therefor, and any claim based upon an amount exceeding the maximum amount contained in said requisition shall be invalid as against The City of San Diego. Each requisition shall be presented to the City Auditor for his approval as to funds before any indebtedness thereon shall be incurred and before any claim based upon said requisition shall become a legal charge against any item contained in this ordinance. It shall be unlawful for any department to expend in the government of said additional territory so consolidated with The City of San Diego during any one month of the ensuing fiscal year more than one-twelfth of the amount allotted to said department for said fiscal year, except as may be by ordinance of the Common Council otherwise provided, and except that all items contained in this ordinance prefixed by a star (*) shall be exempt from said one-twelfth allotment.

Section 15. There is hereby appropriated out of the General Fund of The City of San Diego to the departments named in the foregoing sections of this ordinance the various sums of money specified therein, for the purpose of conducting the business of said departments in relation to the government of said additional territory so consolidated with said City of San Diego during the fiscal year beginning January 1st, 1924.

Section 16. This is an ordinance for the immediate preservation of the public peace, health and safety, and one of urgency, and shall take effect and be in force from and after its passage and approval.

The facts constituting the urgency in this case are that by reason of the provisions of the charter requiring the Common Council and Auditor to estimate the probable expenditures of the various departments of the City for the ensuing fiscal year and the additional fact that the tax rate for said fiscal year shall be based upon said estimated expenditures, and since the regular Budget ordinance for The City of San Diego has been adopted prior to the first day of January, 1924, and since said time the additional territory formerly known as the City of East San Diego has been consolidated with this city, and it therefore becomes necessary to appropriate and set aside moneys for the government thereof, and that such appropriation is immediately necessary in order to properly carry on such government and to furnish adequate police and government protection for said territory, it is necessary that the ordinance limiting the amounts to be expended by said various departments should be in effect as of the present date.

AUDITOR'S CERTIFICATE. I Hereby Certify that the appropriation made, or indebtedness incurred, by reason of the provisions of the annexed ordinance, can be made or incurred without the violation of any of the provisions of the Charter of the City of San Diego, California.

FOR THAT WHEREAS, there is now pending in the Superior Court of the State of California, in and for the County of San Diego, an action against The City of San Diego, wherein G. F. WHEREAS, the Common Council of The City of San Diego is of the opinion that the best interests of the City will be subserved by having the City reconstruct the road leading to said Korte ranch, which at the present time is submerged by waters of the Barrett Reservoir, and that it will be of considerable benefit to the City in the maintenance of said dam and reservoir; and

WHEREAS, said Common Council is of the further opinion that G. F. Korte and Helena Korte have been damaged by the destruction of said road in the amount of one thousand dollars (\$1000.00) per year for such time as they have been deprived of the use of said road, and that to that extent they should be compensated by The City of San Diego; NOW, THEREFORE,

F. Korte and Helena Korte execute, deliver to and file with the City Clerk of said City a full release and satisfaction of all claims for damages caused by the flooding of said road, and will dismiss any litigation against said City which may be pending, over the flooding of said road.

Section 2. There is hereby appropriated out of the Reserve Fund of The City of San Diego the sum of two thousand dollars (\$2000.00) for the relief and benefit of G. F. Korte and Helena Korte, said money to be payable upon the execution of the agreement mentioned in Section One of this ordinance.

Section 10. The failure on the part of the grantee of this franchise to operate auto bus or stage service in accordance with the terms and conditions of this ordinance for a period of thirty (30) days shall cause a forfeiture of this franchise, and the said Common Council is hereby empowered to declare such forfeiture upon receipt of satisfactory evidence that said grantee has failed to operate under the terms of said franchise for said period of time.

Section 11. The franchise herein granted shall be subject at all times to the

right of a majority of the electors of said The City of San Diego, voting at any election at any time hereafter, to repeal, change or modify the said grant.
