That Ordinance No. 13322 or the ordinances of the City of San Diego, entitled "A Regulation Governing the Operation Or Taxicabs, Sightseeing Cars and other Motor Vehicles," and repealing after the expiration time entitled, "Sightseeing Cars Engaged in the Business of Transporting Passengers for Hire upon the Public Streets of the City of San Diego," requiring permits therefor, authorizing the Traffic Commission of the City of San Diego to grant or deny applications for permits to operate taxicabs or for hire, or to change the terms or conditions of the permits thereto, and all ordinances or parts of ordinances in conflict herewith, as approved September 30, 1921, and the same is hereby amended by adding thereto a new section to be known as Section 2-1/2, which new section shall read as follows:

"Section 2-1/2. The number of taxicabs authorized to operate in the City of San Diego and for which permits may be issued shall be based upon the population of the City of San Diego, the ratio of one to every two thousand (2,000) inhabitants reported in the preceding United States government census; that the number of "automobile-for-hire" cars authorized to be so licensed and operated shall be one to every ten thousand (10,000) inhabitants as determined in this ordinance; provided, however, that the Chief of Police may, upon special occasions, issue permits for a limited period of time for "automobile-for-hire" cars in excess of the number herein prescribed;

"Provided, further, that this provision shall not affect the number of taxicabs, "for hire" cars and sight-seeing cars operating with valid licenses on the effective date of this ordinance, except as such vehicles are abandoned or the right to operate such vehicles has been lost through the inability of operators to meet requirements of the ordinances of the City of San Diego; or in the event licenses are not renewed within fifteen (15) days after the expiration thereof, or through revocation or issuance of licenses for cause, by the City Council or the Traffic Commission of the City of San Diego."

Section 2. That Section 5 of Ordinance No. 13322 of the ordinances of the City of San Diego, above entitled, be, and the same is hereby amended to read as follows:

"(a) Taxicabs. It shall be unlawful for any owner or driver to operate any taxicab in the City of San Diego unless such vehicle is equipped with a taximeter or device for determining charges which may be approved by the Traffic Commission of the City, and it shall be the duty of every owner operating a taxicab to keep such taximeter in perfect condition so that said taximeter will, at all times, correctly indicate the correct charge for the distance traveled and for the time that said taximeter shall be at all times subject to inspection by any inspector of the Traffic Commission or any peace officer, or any peace officer, as is authorized to make such inspection, or on his instance or upon complaint of any person to investigate or to cause to be investigated such taximeter, and upon the discovery of any inaccuracy in said meter to remove or cause to be removed such vehicle equipped with such taximeter from the streets of the City of San Diego until such time as said taximeter shall have been correctly adjusted.

"(1) Every such taximeter shall be equipped with a flag or other mechanical device printed or stamped thereon and said flag shall be so attached and connected to the mechanism of said taximeter as to cause said mechanism to cease operation when said flag is in an upright position and indicating that the taxicab is for hire and which said flag shall, when moved forward or downward, start the operation of said taximeter so that the same will operate in the manner provided in this ordinance. Such flag shall be unlawful for any driver or taxicab while carrying passengers to display the flag or device attached to such taximeter in such a position as to denote that such vehicle is for hire, or is not employed or to have such flag or other attached device in such a position as to prevent said taximeter from operating and it shall be unlawful for any driver or taxicab to attach any other device or a taximeter into a position which causes said taximeter to record when such vehicle is not actually employed or to raise the flag or other device on such taximeter into a non-recording position at the termination of each and every service.

"(2) All charges for transportation or passengers in taxicabs operated in the City shall be based on the charges indicated on taxicabs and it shall be unlawful for any owner, driver or operator of any taxicab to charge any passenger or passengers any sum in excess of or lower than the sum indicated on said taximeter.

"(4) The taximeter shall be so placed in said taxicab that the reading dial of the taximeter showing the amount to be charged shall be well lighted and readily discernible by the passenger riding in such taxicab, unless or except such taximeter is equipped and operated with a receipt or a taximeter printing device.

"(5) Said taximeter shall be correctly and accurately adjusted to correctly indicate the charge per mile or fraction thereof, which charge shall be in accordance with the rates filed with the Commission, and if such taximeter be in error, it shall be unlawful for any taxicab owner to so adjust said taximeter that the same will indicate either a greater or a lesser charge than the charge so filed and posted.

"(b) Automobile-for-Hire. The charge to be made by drivers of automobiles-for-hire as defined in this ordinance, shall be in accordance with the rates filed with the Commission or of said automobile-for-hire and in accordance with the rates posted in said automobile-for-hire as herein provided, and it shall be unlawful for any driver of said vehicle to charge either a greater or a lesser amount than the charge so filed and posted.

"(d) Posting of Fare Schedules. Within ten days after this ordinance becomes effective, every owner of any taxicab or automobile-for-hire operating in the City of San Diego or any portion thereof shall post in a public place where the public has access a true and correct statement of the rates to be charged for the transportation of passengers in and all taxicabs and in automobiles-for-hire operated by said owner, and such owner shall not change or modify said rates in any manner without the written consent of said Commission and without filing said modified or changed rates with said Commission. There shall be displayed in the passenger compartment of each taxicab and/or automobile-for-hire in full view of the passenger a card
not less than two inches by four inches in size, which shall have plainly printed thereon the name of the owner, or the fictitious name and owner operates, the business address and telephone number of said owner, and a correct schedule of the rates to be charged for conveyance in said vehicle.

(4) Rates. It shall be unlawful for the owner or driver of any taxicab, as defined in section 1 of this ordinance, to fix a rate in excess of twenty-five cents ($0.25) for the first quarter (1/4) mile and ten cents ($0.10) for each additional half mile or fraction thereafter. It shall be unlawful for the owner or driver of any taxicab, as defined by section 1 of this ordinance, to charge less than a minimum fare of one dollar ($1.00) per trip. The traffic commission of the City of San Diego is hereby authorized and empowered to revoke the license of any owner and/or vehicle violating any of the provisions of this section.

In making application for a permit, sufficient drawings and spectators shall be submitted to the Building Inspector for checking and approval. All electric signs, as defined in this Code, require two permits, one to be issued by the Electrical Inspector and one to be issued by the Building Inspector. Both permits shall be obtained before sign is erected.

The following types shall be deemed the only types of signs and billboards which may be erected without obtaining a permit:

(a) Isolated signs and billboards supported from the ground on private property, provided that such signs and billboards do not exceed a total of 50 square feet in area.

(b) Signs and billboards, other than roof, penthouse and electric, when placed flat against the main walls of a building, provided that no part of said signs and billboards projects more than 6 inches over public property and provided further that such signs and billboards do not exceed a total of 50 square feet in area.

(d) All other signs, (other than electric signs) which do not exceed 20 square feet in total area.

Section 6. That Section 5007 of said Ordinance No. 13375, be, and the same is hereby amended to read as follows:

"Section 5007. SPECIAL REQUIREMENTS FOR SIGNS:

(a) No sign or banner shall be fastened to, or supported on or from any standpipe, down spout, conduit, balcony or fire escape, and no sign or banner of any kind shall be placed across or directly in front of any necessary or required window.

(b) All signs, banners and temporary signs which require a permit for erection must have the maker's name or recognized trade mark permanently attached or painted on the exterior, and so to be legible to the naked eye at least 20 feet away from the sign.

(c) Wooden plugs, wedges and similar wooden fastenings are prohibited as permanent fastenings. All of said metal and other similar fastenings when not galvanized shall be figured with a safety factor of ten. One-half inch diameter shall be the minimum allowable for bolts, screws and similar fastenings, in the walls. Long bolts, stone or masonry around fastenings must be permanently cemented back in place.

(d) When signs project from or are supported by the face or walls of a building, the minimum diameter of any supporting wires, guy wires, or cables shall be not less than three-sixteenths of an inch. All wires, even advertising signs, clevises, sleeve nuts shall be galvanized. Painting in lieu of galvanizing will not be approved for such members. All supporting cables, and guy wires shall be provided with approved galvanized turnbuckles.
(e) SIGNS AT RIGHT ANGLES TO BUILDINGS: Except as otherwise noted in this paragraph, all signs other than electric signs which project more than six inches over public property, and all electric signs which project more than 12 inches over public property must be hung at right angles to the face of the building or property line, excepting that at the corners of intersecting streets the sign shall be hung so as to make the same angle with both streets. \[100\] shaped signs project not more than 30 inches over public property. Signs may be placed flat against parapet walls, provided such sign does not project above top of parapet.

(g) COMBUSTIBLE SIGNS: All roof signs and all signs which project more than 6 inches over public property shall be constructed from non-combustible material. When a sign exceeds the normal width of the sidewalk, when placed flat against a wall of a building located inside of Fire Zones No. 1 shall be constructed from non-combustible materials. Non-combustible signs other than electric signs may have small wooden mold or small frame around the outer-edges.

8. SIGNS not exceeding 54 inches in total height shall not extend over public property a greater distance than one foot less than the normal width of the sidewalk. When said horizontal signs are placed diagonally at the corner of two intersecting streets, they shall be placed so as to make the same angle with both streets, and shall not project over public property a greater distance than the normal width of the narrower sidewalk, measuring at right angles to the face of the building.

Signs which do not project more than four feet over public property need not be hinged and may extend vertically up to full nine inches and higher under favorable approved conditions. When this vertical type of sign is placed diagonally at the corner of two intersecting streets, same shall make the same angle with both streets, and this corner vertical type may extend not to exceed 5 feet over public property, and need not be hinged.

(h) ELECTRIC SIGNS: All signs which project more than 30 inches beyond the property line (over public property) shall be illuminated approved electric signs. Both sides or faces of such signs shall be illuminated. The exterior illumination shall be arranged to form an integral part of the characters, symbols and/or decorative elements of the sign. The illumination shall be not less than the equivalent of 10 Watts per square foot of exposed surface on each side when using incandescent lamps. When fluorescent lamps are used, not less than 30 linear inches or 10 linear feet of fluorescent tubing for each side of the sign shall be illuminated. Hollow signs shall not exceed 12 inches in thickness. Signs which exceeded approved illumination standards and uniformly distributed illumination shall be accepted as electric signs, provided that the total required illumination mentioned in the preceding paragraph is also provided for this type of sign, and said required illumination shall be properly placed and distributed as approved.

Illuminating any sign by reflected light will not qualify such sign as an electric sign, nor shall any lights, lamps, reflectors, etc. be held away from the sign with arms, brackets, conduits, rods or otherwise. All hollow signs shall have drainage holes in bottom. The electric sign requirements and stipulations in this Code shall be deemed to supplement (not mitigate) the specifications and stipulations for non-electric signs as specified in the State of California Electrical Safety Orders and the National Electrical Code adopted by the National Board of Fire Underwriters, and other authorities. The electrical code and National Electrical Code for electric signs shall be deemed a part of this Code, and the stipulations therein shall be enforced by the City Electrical Department.

(p) HINGED SIGNS: All signs shall be constructed of materials not non-combustible materials. Said signs shall be reinforced with rigid angle iron or equivalent structural frame and bracing. Plain or plate glass panels or characters exceeding 250 square inches in area are prohibited unless covered over with a screened frame and supported wire glass may be used.

All electric signs which project more than 30 inches beyond the property line must be burned at full capacity at least two hours each and more than 3 feet over public property shall be located 11 or more feet in the clear above the walk. No sign shall exceed 18 inches in total thickness.
"For the purpose of this ordinance all electric signs shall be constructed of non-combustible material and must bear the approval of the Underwriters Laboratory or other similar institution of recognized standing. All electric signs shall be erected and connected under the jurisdiction of a licensed electrical contractor and all permits for such signs shall be issued to licensed electrical contractors only. (See Sec. 5006).

((i) CLOCKS: Clocks of approved design will be permitted next to curb at outside of walk, provided each clock is approved and the clock faces are not less than two feet in any outside dimension. That part of the clock carrying the dials shall be at least 6 feet in height above the walk. All supports, pedestal, etc., shall be of rigid, substantial, non-combustible material, securely anchored in place. The entire 'upper part' containing the dial shall not exceed 12 inches in thickness, and such part shall not exceed 20 square feet in area; except where provision is made for 4 dial faces, the area of each face shall not exceed 30 square feet in area. The space occupied by the net area of the clock dials shall form at least one-half of such 'upper part' of each face on every clock erected."

((j) BANNERS AND CLOTH SIGNS: Canvas and similar banners stretched across streets and other public property are prohibited, unless recommended by the City Manager, after which the written approval of the Council must be obtained. After said written approval has been granted, same shall be presented to the Building Inspector and the latter will then issue an erection permit, for which a fee of one dollar shall be collected. Said banner shall not be allowed to remain over public property for a longer period than 30 days. A substantial rope at least one-inch thick shall be used as the main support for such banner, and two one-half inch full strength ropes shall be used for securing each lower corner. Provide sufficient wind holes whenever necessary. Wire cables and other flexible metallic rope and wire cables and wires are prohibited.

"Temporary cloth signs tightly stretched on a wood frame may, when kept in good repair, be placed flat against the face of buildings, for a limited time of not only, and no such cloth sign is approved, round 400 square feet in area. No cloth or other sign shall be placed over or across any necessary or required window, nor shall such signs or advertising signs be placed on, over or suspended from any electric sign. Cloth or combustible sign, banner, or similar display, shall be placed upon, against, or suspended from any balcony, marquee, or other structure which projects over the public walk unless approved by the City Manager, and written approval of the Council has been obtained.

((k) Auction banners (advertising flags) and similar temporary cloth signs, when in good repair and when not exceeding a total of 20 square feet in area, may, be placed temporarily over the public walk, provided that said banners are safely suspended from temporary portable poles extending from the building. The entire banner, including the pole, shall be at least 7 feet in the clear above the walk, and no part of such banner shall extend or be located more than 8 feet from the building. For the purpose of this paragraph, the term 'temporary' shall be deemed to mean 'not to exceed 72 hours in any one week'.

((l) No sign or billboard of any kind shall be supported on or placed on any public street, walk, parking or other public property, and it shall be the duty of the Police Department to order and compel such signs to be entirely removed from public property."

ORDINANCE NO. 241 NEW SERIES

AN ORDINANCE ESTABLISHING A SCHEDULE OF COMPENSATION FOR OFFICERS AND EMPLOYEES IN THE CLASSIFIED SERVICE OF THE CITY OF SAN DIEGO, PROVIDING UNIFORM COMPENSATION FORM FOR THE CLASSIFIED SERVICE, AND REPEALING ORDINANCE NO. 1559, PASSED AND ADOPTED AUGUST 22, 1902.

WHEREAS, by Section 120 of the Charter of the City of San Diego it is made mandatory upon the Council or the City at the beginning of each fiscal year by ordinance to establish a schedule of compensation for officers and employees in the classified service which shall provide uniform compensation for like service; and

WHEREAS, pursuant to the provisions of said section the Civil Service Commission has prepared and furnished to the Council such a schedule of compensation; NOW, THEREFORE, BE IT ORDAINED by the Council or the City of San Diego, as follows:

Section 1. DEFINITIONS.

(1) That the term "POSITION" means a specific civilian office or employment, whether occupied or vacant, calling for the performance of certain duties and the carrying of certain responsibilities by one individual, either on a full-time or a part-time basis.

(2) The term "CLASS" means a group or positions under this act sufficiently similar in respect to their duties and responsibilities that the same requirements as to education, experience, knowledge, and ability should be demanded or incumbents, that the same scale of fitness may be used to choose qualified appointees, and that the same schedule of compensation is made to apply with equity under the same or substantially the same employment conditions.

(3) The term "GRADE" means a subdivision of a service, including one or more classes or positions for which comparable basic qualifications and compensation are prescribed, the difference between grades being based upon differences in the importance, difficulty, responsibility, and value of the work.

(4) The term "CONTINUOUS SERVICE" means the interval in which the employee is actually engaged in the performance of the duties of his position or is on leave with pay.

(5) The term "SERVICE" means the broadest division of related classes or positions.

Section 2. THAT A "PAY SCALE" for each position, class and grade in the classified service, hereinafter prescribed, shall be necessary related in terms of a "STANDARD RATE NUMBER". That for each position, class and grade in the Classified Service there is hereby adopted the Standard Rate Numbers, together with a minimum and maximum scale of compensation for like service, hereinafter set forth in Section 7. That the standard rate numbers and minimum and maximum scale of compensation for like service applicable to each position, class and grade of service in the Classified Service of The City of San Diego shall be as hereinafter set forth in sections 6 and 7.

Section 3. ADVANCEMENT IN SALARY. Except as otherwise provided in the Charter of the City of San Diego, increase in salary, if sufficient funds are available may be made in all positions included within any of the "Standard Rates" number one to inclusive, as follows: for each year or continuous service in a position, the increase in salary for such position may, unless otherwise provided (See Standard Rates one to inclusive), be five per cent (5%) of the basic entrance salary rate per month prescribed for the position, class or grade in which such employee is classified; provided, however, that not more than five (5) such seniority increases may be allowed in the same position; provided, however, that increases in compensation within the limits furnished for by any grade may be granted as any time by the City Manager or other appointing authority upon the basis of efficiency and seniority record after having received the approval of the Civil Service Commission therefor.

Section 4. That prior to the beginning of each fiscal year the Civil Service Commission shall present to the Council for approval and adoption statistics showing the estimated "cost-of-living-basis" for the ensuing fiscal year. The basic entrance rate of salary per month, as hereinafter designated in Section 6 shall be revised and adjusted prior to the beginning of each fiscal year, by the Civil Service Commission, and presented to the Council for approval in accordance with any change in the Cost-of-living index as shown by the report of the Civil Service Commission. The federal bureau survey for the month of June of each year as published by the bureau of labor statistics shall be used to ascertain the adjustment percentage of the basic entrance salary rate on a cost-of-living basis. If the bureau statistics are not available for the City of San Diego for the period mentioned, then the bureau statistics as given for any city in the state of California or the classification nearest to the City of San Diego shall be used to determine the aforesaid adjusting percentages.

Section 5. That, except where otherwise provided by charter or ordinance of the City of San Diego, the rate for any position, class or grade may be on a monthly, daily or hourly basis, but the method of payment shall be appropriate under the conditions of employment and shall be subject to all the provisions now or hereafter enacted by the Council by ordinance, pursuant to the authority theretofore contained in the Charter of the City of San Diego. That in those positions where compensation is made on a daily or hourly basis, the basic entrance rate of salary per day and per hour shall be as hereinafter set forth in Section 6, and the basic entrance rate of salary per day and per hour shall be subject to all the terms and conditions of Section 4.

Section 6. That the following table marked "A", "B", "C", and "D", showing respectively summary of all rates based upon given length of service at the next lower rate, daily scale based upon given length of service at the next lower rate, and hourly scale based upon given length of service at the next lower rate, and, therefore adopted as representing the basic entrance rate per month, per day and per hour for each position, class and grade in the Classified Service of the City.
The rates in columns 4 and 5 are the equivalent rates as compared with the respective monthly rates specified in column 2. The daily rate in column 4 is determined by dividing the corresponding rate in column 2 by 24, plus 10%. The hourly rate in column 5 is determined by dividing the corresponding rate in column 2 by 192, plus 10%. Employees paid by the day or hour are not entitled to any vacation or sick leave with pay, as is the case with the monthly employee, and the 10% is therefore added to offset those additional benefits received by the employee who is paid on a monthly basis.

In the event of any such drilling by said City of a well to oil bearing sands at a lower depth than the then existing, producing wells of the Lessee; and provided, further, that the City when going through the oil sand at the depth of the Lessee’s producing wells shall properly secure the Lessee property, by proven methods of shutting out water and all other dangers usual to such drilling.

(3) In the event of the cancellation of this lease, either in whole or in part, or the termination, either by performance or otherwise, hereinabove described or otherwise, the Lessee will, truly and peaceably surrender up the possession of all of those portions of said leased premises as to which said lease may be cancelled, surrendered or terminate. In the event of its failure to deliver to the City a good and sufficient quitclaim deed, acknowledging and evidencing such termination and cancellation according to the fact. Should it become necessary to institute a suit to quiet title and clear the record title of said lands now, or that may hereafter be leased. Lessee shall pay as royalty one-eighth (1/8) of the net proceeds derived from the sale of all oil and gas removed from said lands unless there shall be a surplus above full requirements and a

The drilling and other operations shall be suspended on said property only in the event that they are prevented by the elements, accidents, strikes, lookouts, riots, delays in transportation, interference of State or Federal action, or other causes beyond the reasonable control of the Lessee, or as long as oil of the quality produced on said property is worth more than the oil specified in paragraph seven (7) hereof, or as long as the Lessee may be required in the operation of the property.

The Lessee shall pay as royalty one-eighth (1/8) of all oil, gas, asphaltum, mineral, or other hydrocarbon substance produced and saved therefrom from each well, said payment to be made in money; and the Lessee shall pay to the City the sixteenth (1/16) part of all gas, oil or other products hereafter produced at the market price at the well the day the oil is run into pipe line or storage tanks.

Lessee shall keep a log of each well drilled and permit the City to make copies thereof. Lessee shall maintain accurate records of all oil, gas and other produced and sold, or other consumption by the Lessee, and shall have the right at all reasonable times, but only in the presence of a representative of the Lessee, to test the correctness of such gauges and devices and may examine such accounts during business hours. The Lessee shall furthermore furnish to the City written monthly statements of the production sold from said premises for the preceding calendar month prior to the 10th day of each calendar month.

Lessee shall pay as royalty one-eighth (1/8) of the net proceeds derived from the sale of gas from each well, while same is being sold or used on the premises, and in the event settlement shall be made on the twentieth day of each month for gas sold during the preceding month; but nothing in this lease contained shall require Lessee to save or market gas produced from the said premises unless there shall be a surplus above full requirements and a market at the well for same.

If casing-head gasoline is manufactured on the premises, or elsewhere, by the Lessee, or produced as a by-product, then the Lessee shall pay to the City one-eighth (1/8) of the proceeds of the sale of said gasoline, less the cost of producing and selling same.

The Lessee shall agree in the event it becomes necessary to treat any of the oil produced on said premises to make it marketable, and in the event the Lessee erects a plant for that purpose, upon request, to treat the royalty oil of the City together with his own, charging therefore only the net cost of such treatment.

The Lessee shall pay all taxes on its improvements and seven-eights (7/8) of the increase of the taxes resulting from the discovery of oil or gas on the said property and of all oil stored on said land on the first Monday in March.

The City will be made by the Lessee the same to the City Treasurer, at his office in the City of San Diego, or at any change of address of which Lessee has notice in writing from the City.

A well in paying quantities is hereby defined as a well producing forty (40) barrels of oil per day for the period (20) consecutive days. This definition shall not apply to wells to be operated on the expiration of the fifteen (15) year period, or on the abandonment of a portion of the premises, and in such cases the Lessee may operate such wells as Lessee in his discretion shall deem sufficiently productive to operate.
Lessee shall carry on all operations in a careful workmanlike manner, and in accordance with the laws of the State of California. The Lessee shall keep full record of the operations and production and sales of products from said property, and such records and other matters relative to the property shall be at all reasonable times open to the City. Whenever requested by the City, the Lessee shall furnish to the City a copy of the log of all wells drilled on said property.

The City shall have the right to the use of the surface of said land for agricultural and grazing purposes to such an extent as will not interfere with the proper operation of the Lessee for oil. The Lessee agrees to conduct its operations so as to interfere as little as is consistent with the economic operations of oil wells within or adjacent to the City. In case of an abandonment of any well, if the City shall desire to retain the same as a water well, it may notify the Lessee to that effect, and thereafter the Lessee shall leave such casing in the well as the City shall require, and the City shall pay to the Lessee fifty percent (50%) of the full cost of such casing.

No well shall be drilled within two hundred (200) feet of any building on said property at the date of this lease, without written consent of the City.

The City may have the use of any water developed on said property so long as the water is not required in the transaction of the Lessee's business. The City may desire to retain the same as a water well.

Lessee shall fence all sump-holes and other openings to safeguard cattle which may be grazing on said land.

The interest of the Lessee under this lease shall be subject to forfeiture only upon the condition, and in the manner following:

In case the Lessee shall be in default in the performance of any covenants or agreements by him to be done or performed hereunder, and such default shall be of a kind durable with reasonable diligence within thirty (30) days, and shall continue uncured for a period of exceeding thirty (30) days after he has had written notice of said default and the character thereof, or if the Lessee shall not have begun in good faith to remedy any such default, within said period of thirty (30) days after such notice, then and in such case the City may at any time, after notice to the Lessee, become absolute owner of the property affected by said default, and at the option of the City may purchase the same at a public sale to be held at a point to be indicated by the Lessee, and carried to the point of use at the cost and at the sole risk of the City.

Lessee shall bury all pipe lines constructed or maintained by him at least twelve (12) inches below the surface of the ground when so requested by the City in writing at the time of laying said pipe, and small restore said ground to its original condition, or as near as possible.

Lessee shall have, at any time, the right to remove any houses, tanks, pipe lines, structures, casing or other equipment, appurtenances or appliances of any kind brought by him upon said land, whether affixed to the soil or not; provided, that in the event of the City so desiring, the Lessee shall furnish to the City a quitclaim deed to the property on or before the sixty-eighth (68th) day after the expiration of this lease, or the sooner termination thereof, with all the appurtenances, improvements and buildings thereon, including all rights and easements appurtenant thereto, and shall have the right to the possession of said land for so long as the same is used by him as a water well.

Any notice from the City to the Lessee may be given by sending the same by registered mail addressed to the successors and assigns of the Lessee, or to the Lessee, or his agent, and may at any time by a written notice to the City change the place of giving Notice, and after such written notice to the City by registered mail, the City shall send all notices intended for the Lessee, or his successors or assigns, to the address which may be so indicated. An answer to the City's notice may be given by sending the answer by registered mail addressed to The City of San Diego, at the City Hall, San Diego, California.

All work done on the land by the Lessee shall be at the Lessee's sole cost and expense, and the Lessee agrees to protect the land, buildings, materials, and equipment, to thereafter prosecute with diligence the erection of any well, or to move a complete drilling rig on the property and thereafter prosecute the drilling of a well, with diligence, until completed under the terms of this lease.

The definition of the phrases "commence the drilling of a well," or "commence the drilling of a well," as used in this lease, shall be understood and agreed to as follows: To purchase materials and equipment, to begin the erection of a derrick, to order materials; to begin work on casing or any other operations preliminary to the commencement of any drilling operation, to move a complete drilling rig to completion, or to move a complete drilling rig on the property and thereafter prosecute the drilling of a well, with diligence, until completed under the terms of this lease.

This lease shall run to and be binding: upon the successors and assigns of the parties hereto, and in the event of an assignment thereof by the Lessee, all obligations on his part shall pass and determine, and be assumed by his assigns or assignees; provided, however, that this lease shall not be assigned without the consent in writing of the Council of the City of San Diego.

It is mutually agreed between the parties hereto that the Lessee will, prior to the delivery of the lease to the said Lessee, execute and place in escrow with the Director of the Department of Public Works of The City of San Diego a quitclaim deed to the lands herein described, and containing a release and surrender of all its rights under this lease or the delivery of this lease to the City; and the Lessee shall, to commence drilling operations upon the lands herein described within twelve (12) months after the execution of this lease, as provided in the fourth paragraph of this lease, or within such time as the Lessee may have the use of any water developed on said land, shall commence the drilling of a well of such size, to reach hydrocarbon substances as provided for herein, or in the event of a breach or failure on Lessee's part to perform any of the terms or conditions herein contained.

LEASE

This agreement, made and entered into this ___ day of ___, 193__, by and between THE CITY OF SAN DIEGO, a municipal corporation of the County of San Diego, State of California, hereby authorized as to the City Manager of said City under and by virtue of the authority conferred by Ordinance No. 360 (New Series) of the ordinances of said City, authorizing the execution of this lease, and EVERTS DRILLING COMPANY, a corporation, hereinafter designated as the "Lessee", WITNESSETH:

That for and in consideration of the covenants and agreements hereinafter contained, and the sums of money hereinafter designated to be paid to said City by said Lessee, in manner and form as hereinafter provided, the City hereby lets and leases unto the said Lessee, those portions of the City's Pueblo lands lying north of the San Diego River, particularly described as follows, to-wit:

Pueblo Lots 1304, 1305, 1306, 1318 and 1319; subject to all existing leases upon said lands, or any portion thereof.

Said property is hereby leased to the Lessee for the purpose of drilling for, producing, extracting and taking oil, gas, asphaltum, mineral and other hydrocarbon substances from, and storing upon said land during the term of this lease, hereinafter specified, with the right to enter upon said land for such purposes, and from time to time to construct, use, maintain, erect, repair, replace and remove thereon and therefrom all buildings, tanks, machinery, telephone and telegraph wires and other structures, including all pipe lines which the Lessee may desire in carrying on its business and mining operations on said premises, with the rights of way for passage over, upon and across, and ingress and egress to and from said premises.

The term of this lease shall be for fifteen (15) years from the date hereof, unless otherwise surrendered or forfeited by the Lessee; provided, however, that at the expiration of said term if any well or wells on said property are still producing in paying quantities, said lessor shall have the right at its option to continue in possession of such producing wells only; together with such land surrounding and adjacent to the same as shall be necessary to operate thereon, not to exceed five (5) acres for each well.

Lessee hereby covenants and agrees that it will within ninety (90) days from the granting to it of said lease permit to drill for oil, said permit to be applied for within thirty (30) days after signing the Lease, begin drilling operations upon lands adjoining the lands hereby leased, and that if it should bring in a well producing oil in commercial quantities upon said adjoining lands, it will within ninety (90) days from the date of bringing in such well begin drilling upon the lands hereby leased; provided, that in any event the Lessee covenants and agrees that it will within one year from the date hereof commence the drilling of a well upon said leased premises with a complete rotary or standard rig and thereafter prosecute the drilling thereon with reasonable diligence and in good faith until
in paying quantities by the Lessee, or until said well has been drilled to a depth of four thousand five hundred (4,500) feet, unless formation is encountered at a lesser depth that would indicate to the geologist of the Lessee's successor or assigns that further drilling would be unprofitable.

In addition to the foregoing provisions, it is hereby agreed by the parties to this lease that the same is granted and accepted upon the further terms and conditions hereinafter provided, to wit:

(1) Lessee may at any time after the commencement of drilling, and before the discovery of oil on the demised premises, quitclaim the said property to the City, its successors and assigns, and thereupon all rights and obligations of the parties hereto, one to the other, shall cease and determine.

(2) After the discovery of oil, the Lessee may at any time quitclaim any part of said land to the City, its successors and assigns. On the expiration of the fifteen (15) years hereinbefore, Lessee shall have the right to operate, deepen, redrill and properly maintain all producing wells upon said property at that time, and to use so much of the surface of the land as may be necessary or convenient for such operations, not to exceed five (5) acres for each well. Except as herein provided, full right to said land shall revert to the City free and clear of all claims of the Lessee, except that the City, its successors or assigns, shall not drill any wells upon said land within three hundred (300) feet of any producing well; provided, however, that the last limitation on the right of the City to drill shall not apply to the drilling by said City of a well to oil bearing sands at a lower depth than the then existing, producing wells of the Lessee; and provided, further, that when going through the oil sand at the depth of the Lessee's producing wells shall properly safeguard the Lessee's rights by proven methods of shutting out water and all other dangers usual to such drilling.

(3) In the event of the cancellation of this lease, either in whole or in part, or the termination hereunder by the terms hereof, either by expiration, surrender or forfeiture, the Lessee will well, truly and peaceably surrender up the possession of all of those portions of said leased premises as to which said lease may be cancelled, surrendered or terminated, and execute and deliver to the City a good and sufficient quitclaim deed conveying and assigning all title to the City in and to the said premises as hereinabove described One hundred Fifty Dollars ($150.00) shall be considered costs of suit in the event that they are prevented by the elements, accidents, strikes, lockouts, riots, or other causes beyond the reasonable control of the Lessee, or as long as oil of the quality produced on said premises is sold at the usual market prices in the City of Los Angeles, California, the production of oil, water or gas shall not be computed against the Lessee.

(7) The Lessee shall have the free use of so much of the oil, water or gas produced upon said property as may be required in the operation of the property.

(8) Other than the oil specified in paragraph seven (7) hereof, the Lessee shall pay as a rental or royalty for the use of said land, one-eighth (1/8) of all oil, gas, asphaltum, mineral, or other hydrocarbon substance produced and saved therefrom from each well, said payment to be made in money; and the Lessee shall pay to the City on the 15th day of each and every month the one-eighth (1/8) part in value of all gas, oil or other products herein mentioned at the market price at the well the day the oil is run into pipe line or storage tanks.

(9) Lessee shall keep a log of each well drilled and permit the City to make copies thereof at its own expense. The Lessee shall maintain on the demised land such gauges and devices as may be necessary for measuring all oil produced and all gas saved, and shall forthwith make and keep a record of the measurement of oil secured in tanks and all oil and gas removed from the property and sold or otherwise disposed of. The City shall have the right to make these inspections at any time, but only in the presence of a representative of the Lessee, to test the correctness of such gauges and devices and may examine such accounts during business hours. The Lessee shall furthermore furnish to the City written monthly statements of the production sold from said premises for the preceding calendar month prior to the 10th day of each calendar month.

(10) Lessee shall pay as royalty one-eighth (1/8) of the net proceeds derived from the sale of all gas produced from said land hereunder by the Lessee to the City on the 15th day of each and every month from said land, unless there shall be a surplus above full requirements and a market at the well for same.

(11) If casing-head gasoline is manufactured on the premises, or elsewhere, by the Lessee from the gas produced from said wells, then the Lessee shall pay to the City one-eighth (1/8) of the proceeds or the sale or said gasoline, less the cost of producing and selling same.
Lessee in writing from the City of San Diego, or at any change of address of which Lessee may have notice in writing from the City of San Diego.

(19) The Lessee shall furnish to the City a copy of the log of every well drilled or operated by the Lessee.

(20) In no case shall the Lessee operate any well on the said premises to make it marketable, and in the event the Lessee erects a substantial gate at such points. Whenever requested by the City in writing, the Lessee shall remove all sump-holes and other openings to safeguard cattle which may be grazing on said land.

(21) No well shall be drilled within two hundred (200) feet of any building on said premises.

(22) In the event of any dispute as to any of the terms of this lease, the City shall carry on all operations in a careful workmanlike manner, and to order other materials and equipment, to thereafter prosecute with diligence the erection of a drilling rig to completion, or to move a complete drilling rig on the property and thereafter prosecute the drilling of a well, with diligence, until completed under the terms of this lease.
(29) This lease shall run to and be binding upon the successors and assigns of the parties hereto, and in the event of an assignment thereof by the Lessee, all obligations on its part shall cease and determine, and be assumed by its assignees or assignees; provided, however, that this lease shall not be assigned without the consent in writing of the Council of The City of San Diego.

(30) It is mutually agreed between the parties hereto that the Lessee will, prior to the delivery of this lease to the said Lessee, execute and deliver to the Director of the Department of Public Works of The City of San Diego a quitclaim deed to the lands herein described, and on a release and surrender of all its rights under this lease, said quitclaim deed to be delivered to the City for recordation, if the Lessee fails to commence drilling operations upon the lands herein described within twelve (12) months after the execution of this lease, as provided in the fourth paragraph of this lease, or whenever it is determined that said Lessee has failed to discover gas, oil, or other hydrocarbon substances as provided for herein, or in the event of a breach or failure on Lessee's part to perform any of the terms or conditions herein contained.

The said Lessee will, on the execution of this lease, deposit with The City of San Diego a surety bond in the sum of One Thousand Dollars ($1,000.00) to be approved by the City Attorney and the Council of the City of San Diego, as a guarantee for the payment of rental for the first twelve (12) months of this lease, which rental is hereby fixed at One Thousand Dollars ($1,000.00); provided, however, that on the performance of the conditions, stipulations and terms of this lease, or on the discovery of oil, gas, petroleum, or other hydrocarbon substances or mineral in payment quantities, no rental shall be charged, and said surety bond shall be forthwith terminated; provided, however, that should Lessee default in any of the terms of this lease, the City shall retain said amount due as rental as above provided.

IN WITNESS WHEREOF, the City Manager of The City of San Diego has hereunto subscribed his name, as and for the City of San Diego, and the said Lessee has caused this instrument to be executed, and its corporate name and seal to be hereunto affixed, by its proper officers, thereunto duly authorized, this day of , 1933.

LEASE

THIS AGREEMENT, made and entered into this day of , 1933, by and between THE CITY OF SAN DIEGO, a municipal corporation of the County of San Diego, State of California, hereinafter designated as the "City," acting by and through the City Manager of said City under and by virtue of the authority conferred by Ordinance No. 360, amended and supplemented by this ordinance, the parties of the first part, and EVERTS DRILLING COMPANY, a corporation, hereinafter designated as the "Lessee," WITNESSETH:

That for and in consideration of the covenants and agreements hereinafter contained, and the sums of money hereinafter designated to be paid to said City by said Lessee, in manner and form as hereinafter provided, the City hereby lets and leases unto the said Lessee, those portions of the City's Pueblo lands lying north of the San Diego River, particularly described as follows:

Pueblo Lots 1222, 1224, 1235, 1305, 1306, 1318 and 1319;

subject to all existing leases upon said lands, or any portion thereof.

The said property is hereby leased to the Lessee for the purpose of drilling for, producing, extracting and taking oil, gas, asphaltum, mineral and other hydrocarbon substances from, and storing the same upon said land during the term of this lease, hereinafter specified, with the right to enter upon said land at all times for said purposes, and from time to time to construct, use, maintain, erect, repair, replace and remove thereon and therefrom all buildings, tanks, machinery, telephone and telegraph wires and other structures, including all pipe lines which the Lessee may desire in carrying on its business and mining operations on said premises, with the rights of way for passage over, upon and across, and ingress and egress to and from said premises.

The term of this lease shall be for a fifteen (15) years from the date hereof, unless otherwise surrendered or forfeited by the Lessee; provided, however, that at the expiration of said term if any well or wells on said property are still producing in paying quantities, said Lessee shall have the right at its option to continue in possession of such producing wells only, together with so much land surrounding and adjacent to the same as shall be necessary to operate thereon, not to exceed five (5) acres for each well.

Lessee hereby covenants and agrees that it will within ninety (90) days from the granting to it of said permit to drill for oil, said permit to be applied for within 30 days after signing the lease, begin drilling operations upon lands adjoining the lands hereby leased, and that if it should bring in a well producing oil in commercial quantities upon said adjoining lands, within ninety (90) days after such well begins drilling upon the lands hereby leased; provided, that in any event the Lessee covenants and agrees that it will within one year from the date hereof commence the drilling of such wells or other operations with a complete rotary or standard rig and thereafter prosecute the drilling thereof or other operations, as the case may be, until such well, or other hydrocarbon substances are found in paying quantities by the Lessee, or until said well has been drilled to a depth of four thousand five hundred (4,500) feet, unless formation is exposed at a less depth that would indicate to the geologist of the Lessee that further drilling would be unsuccessful.

In addition to the foregoing provisions, it is hereby agreed by the parties to this lease that the same is granted and accepted upon the further terms and conditions hereinafter provided, to wit:

1. Lessee may at any time after the commencement of drilling, and before the discovery of oil on the demised premises, quitclaim the said property to the City, its successors and assigns, and thereupon all rights and obligations of the parties hereto, one to the other, shall cease and determine.

2. After the discovery of oil, the Lessee may at any time quitclaim any part of said land to the City, its successors and assigns. On the expiration of the fifteen (15) year period, Lessee shall have the right to operate, deepen, redrill and properly maintain all producing wells upon said property at that time, and to use so much of the surface of the land as may be necessary or convenient for such operations, not to exceed five (5) acres for each well. Except as hereinafter provided, full right to said land shall revert to the City free and clear of all claims of the Lessee, except that the City, its successors or assigns, shall not drill any wells upon said land within three hundred (300) feet of any producing well; provided, however, that the last limitation on the right of the City to drill shall not apply to the drilling by said City of a well to oil bearing sands at a lower depth than the producing wells of the Lessee; and provided, further, that the City when going through the oil sand at the depth of the Lessee's producing well shall properly safeguard the Lessee's rights by proven methods of shutting out water and all other dangers usual to such drilling.

...
(3) In the event of the cancellation of this lease, either in whole or in part, or the termination of the terms hereof, either for cause or otherwise, the Lessee will, truly and peaceably surrender and deliver to the City all buildings, tools, and equipment on the premises, as well as all oil wells to every ten (10) acres, according to the record title of said land, which is consistent with the economic operations of oil with the use of the land for agricultural and grazing purposes, and agrees to pay for such damage as may be

(4) The lessee shall have the free use of so much of the oil, water, and gas produced on said premises, as he may have installed or placed thereon, and shall comply with all State requirements relative to the one-eighth (1/8) part of all oil produced from said wells, then the Lessee shall pay the City the market price at the well for all gas sold, or used or paid as royalty for the use of said land, one-eighth (1/8) of all gas produced from said wells; and if not so removed within the said time, such property becomes the property of the City.

(5) In the event of the discovery of oil in any well on adjacent property, within two hundred (200) feet of the boundary line of denied premises, and the production of oil therefrom, in paying quantities for a period of thirty (30) consecutive days, then within ninety (90) days thereafter a well shall be commenced by the Lessee on the denied property to offset said producing well, at any point within two hundred (200) feet from a line running at right angles to boundary line through said well; said well not to be drilled, however, more than two hundred (200) feet from the boundary line of the denied property; provided, however, that nothing in this paragraph contained shall be construed as obligating the Lessee to drill upon the premises herein authorized to be leased more than an average of one well to every ten (10) acres.

(6) Drilling and pumping operations shall be suspended on said property only in the event that they are prevented by the elements, accidents, strikes, lookouts, delays in transportation, interference of State or Federal action, or other causes beyond the reasonable control of the Lessee, or as long as oil of the quality produced on said property is worth not less than $1.00 per barrel in the City.

(7) The Lessee shall have the free use of so much of the oil, water, and gas produced on said premises, as the City may require in the operation of the property.

(8) Other than the oil specified in paragraph seven (7) hereof, the Lessee shall pay as a rental or royalty for the use of said land, one-eighth (1/8) of all oil, gas, asphaltium,, mineral or other hydrocarbon substance produced and saved therefrom on each well, said payment to be made in money; and the Lessee shall pay to the City on the 15th day of each and every month the one-eighth (1/8) part in value of all gas, oil or other products previously mentioned at the market price at the well the day the oil is run into pipe line or storage tanks.

(9) Lessee shall keep a log of each well drilled and permit the City to make copies thereof at its own expense. The Lessee shall maintain on the denied land such gauges and devices as may be necessary for measuring all oil produced and all gas saved, and shall forthwith make and keep a record of the measurement of oil secured in tanks and in all oil and gas removed from the property and sold or otherwise disposed of. The City shall have the right at all reasonable times, but only in the presence of a representative of the Lessee, to test the correctness of such gauges and devices and may examine such accounts during business hours. The Lessee shall furthermore furnish to the City written monthly statements of the production sold from said premises for the preceding calendar month prior to the 10th day of each calendar month.

(10) Lessee shall pay as royalty one-eighth (1/8) of the net proceeds derived from the sale of gas from each well while same is being produced, and in the event settlement is not made on the twentieth day of each month, nor within six (6) months from the date of sale; but nothing in this lease contained shall require Lessee to save or market gas from said lands unless there shall be a surplus above full requirements and a market at the well for the said gas.

(11) If casing-head gasoline is manufactured on the premises, or elsewhere, by the Lessee from the gas produced from said wells, then the Lessee shall pay to the City one-eighth (1/8) of the proceeds of the sale of said gasoline, less the cost of producing and selling same.

(12) The Lessee shall agree in the event it becomes necessary to treat any of the oil produced on said premises, to make it marketable, and in the event the Lessee has a plant for that purpose, upon request, to treat the royalty oil of the City together with his own, charging therefore the one-eighth (1/8) part of the cost of such treatment.

(13) The Lessee shall pay all taxes on its improvements and seven-eighths (7/8) of the increase in the value of the taxes resulting from the discovery of oil or gas on the said property and of all oil stored on said land on the first Monday in March.

(14) All payments to the City shall be made by paying the same to the City Treasurer, at his office in the City, Diego, or at any change of address or unless the City has notice in writing from the City.

(15) A well in paying quantities is hereby defined as a well producing forty (40) barrels of oil per day for thirty (30) consecutive days. This definition shall not apply to wells to be operated on the expiration of the fifteen (15) year period or on the abandonment of a portion of the premises, and in such cases the Lessee may operate such wells as Lessee shall determine sufficiently producing to meet necessary needs.

(16) Lessee shall carry on all operations in a careful workmanlike manner, and in accordance with the laws of the State of California. The Lessee shall keep full record of the operations and production and sales of products from said property, and such records and reports shall be kept at all reasonable times, and all reasons shall be at the request of the City. Whenever requested by the City, the Lessee shall furnish to the City a copy of the log of all wells drilled on said property.

(17) The Lessee shall have the right to the use of the surface of said land for agricultural and grazing purposes to such an extent as will not interfere with the proper operation of the Lessee for oil. The Lessee agrees to conduct its operations so as to interfere as little as consistent with the economic conditions of oil with the use of the land for agricultural and grazing purposes, and agrees to pay for such damage as may be
done to trees or growing crops, being governed by the value thereof. If any of the fences existing on said land are out by the Lessee for its purpose, the Lessee shall establish a good and substantial gate at such points. Whenever requested by the City in writing, the Lessee shall fence all sump-holes and other openings to safeguard cattle which may be grazing on said land.

(18) No well shall be drilled within two hundred (200) feet of any building on said property at the date of this lease, without written consent of the City. (19) Any water developed by the Lessee shall be used for the benefit of the public so long as the same is not required by the Lessee. The transportation of such water shall be taken at a point to be indicated by the Lessee, and carried to the point of use at the cost and at the sole risk of the City.

(20) Lessee shall bury all pipe lines constructed or maintained by it at least twelve (12) inches below the surface of the ground when so requested by the City in writing at the time of laying said pipe, and shall restore said ground to its original condition, or as near as possible.

(21) The Lessee shall have, at any time, the right to remove any houses, tanks, pipe lines, structures, casing or other equipment, appurtenances or appliances of any kind brought by it upon said land, whether affixed to the soil or not; provided, that in the case of an abandonment of any well, if the City shall desire to retain the same as a water well, it may notify the Lessee to that effect, and thereupon the Lessee shall leave such casing in the well as the City shall require, and the City shall pay to the Lessee fifty per cent (50%) of the first cost of such casing.

(22) In the event of any dispute as to any of the terms of this lease, or the performance or any of the conditions herein by the Lessee, the same shall be submitted to arbitration. One arbitrator shall be appointed by each of the parties to said lease, and a third arbitrator by the two so appointed. Any decision by a majority of such arbitrators shall be binding upon both parties.

(23) The interest of the Lessee under this lease shall be subject to forfeiture only upon the conditions and in the manner following, to wit:

In case the Lessee shall be in default in the performance of any covenants or agreement hereinafter done or hereinbefore done, or the default shall be of a kind curable with reasonable diligence within thirty (30) days, and shall continue uncurable for a period of exceeding thirty (30) days after it has had written notice of said default and the manner in which it shall be remedied, such default, within said period of thirty (30) days after such notice, then and in such case, this lease shall become void at the option of the City, and the Lessee shall thereupon vacate the same to the City, and shall execute and deliver to the City a proper quitclaim deed releasing all its rights, title and interest in said leased land, saving only the right to remove its property therefrom as hereinabove provided.

(24) Any notice from the City to the Lessee may be given by sending the same by registered mail addressed to the Lessee, or its successors or assigns, at___.

(25) Any notice from the Lessee to the City may be given by sending the same by registered mail addressed to The City of San Diego, at the City Hall, San Diego, California.

(26) All work done on the land by the Lessee shall be at the Lessee's sole cost and expense, and the Lessee agrees to protect the land from all claims of contractors or materialmen. The City may post any notices as it may desire in order to protect said land from liens.

(27) On the expiration of this lease, or the sooner termination thereof, Lessee shall quiet title to all property of its possession, and, and as soon as possible cover all sump-holes and excavations made by it and restore the land as nearly as practicable to the condition in which it was received.

(28) The definition of the phrases "commence the drilling of a test well," or "commence the drilling of a well," as used in this lease, shall be understood and agreed to be as follows: To purchase materials and equipment, to begin the erection of a derrick, to rig a complete drilling rig and the equipment, to thereafter prosecute with diligence, the erection of a drilling rig to completion, or to move a complete drilling rig on the property and therefrom prosecute the drilling of a well, with diligence, until completed under the terms of this lease.

(29) This lease shall run to and be binding upon the successors and assigns of the parties hereto, and in the event of an assignment thereof by the Lessee, all obligations on its part shall cease and determine, and be assumed by its assignee or assignees; provided, however, that this lease shall not be assigned without the consent in writing of the City of The City of San Diego.

(30) It is mutually agreed between the parties hereto that the Lessee will, prior to the execution of this lease, surrender to the City, the Director of Public Works of The City of San Diego a quitclaim deed to the lands herein described, and containing a release and surrender of all its rights under this lease, said quitclaim deed to be delivered to the City for recordation if the Lessee fails to commence drilling operations upon the lands herein described within twelve (12) months after the execution of this lease, as provided in the fourth paragraph of this lease, or whenever it is determined that said Lessee has failed to discover gas, oil, or other substantial quantity of oil or gas for herein, or in the event of a breach or failure on Lessee's part to perform any of the terms or conditions herein contained.

The said Lessee will, on the execution of this lease, deposit with The City of San Diego the sum of One Thousand Dollars ($1000.00); provided, however, that on the performance of the conditions...

The thickness of five shingles measured at the butts when dry shall be at least 2 inches; 6 to 8 shingles are prohibited for roofing purposes.

All nails shall be set not less than 3/4" inch, measured from the head of the nail to the surface of the shingle. All shingles are to be dampened immediately before being applied. This need not apply to shingles which are fully dipped in oil or dip-stained for a distance of at least 1/2 of their length. Lag and apply with a side lap of not less than 1-1/2 inches, and with no breaks directly over each other on any three consecutive courses. Space the shingles 1/8 of an inch apart and keep all nails covered at least 2 inches from the edge of the shingle. Each shingle must be nailed with at least 2 nails driven substantially on the double first course at the eaves. Allow not less than 1/2 of an inch or more than 1-1/2 inches overhang at the eaves and corners. Each shingle shall be less than 16 inches in length. Shingles exceeding 10 inches in width are to be split. Carefully build in all necessary flashing pieces as the work progresses.

All ridges and hips shall be protected against leaks with carefully fitted saddle boards, sheet metal saddles, ridge roll or the "Huston Style" of laying up the ridge, and hips may be used when properly applied. A continuous V strip of prepared roofing at least 7-1/2 inches wide shall be placed beneath all shingles and/or saddle boarded hips and ridges. When laying shingles, the maximum allowable exposure to the weather shall be as per the following schedule:

<table>
<thead>

<td>18&quot; long</td>
<td>6&quot; exposure</td>
</tr>
<tr>
<td>24&quot; long</td>
<td>7-1/2&quot; exposure</td>
</tr>
</tbody>
</table>

Shingles may be laid with random exposure, provided that the 'average' exposure does not exceed the exposures relative to length of shingles as listed in the above schedule. That is an exposure or partial exposure no greater than 5 inches. When laying shingles with random exposure no exposure exceeding the above-mentioned 'average' shall be located within 6 inches (measuring in any direction) of any other exposure said to be 'average' exposure.

"Section 4908b. DEMOLISHING OLD BUILDINGS. Any building, structure or shelter temporary or permanent, which is used or occupied by humans, fowl or animals, shall be maintained, safe, sanitary, in good repair and in a tenable condition; otherwise shall be condemned. Any unoccupied building structure, or shelter which constitutes a fire hazard, or which may be detrimental to the health and safety of the community, shall be demolished forthwith unless the owner thereof shall remedy the same upon notice and as directed by the Building Inspector.

Before any building or part thereof can be wrecked or demolished a permit shall be obtained. The person or persons doing the wrecking shall do so in a safe manner. The same regulations shall apply to the use of streets and public property as required in the case of new buildings. The covered walkway shall be constructed as provided in Section 4401, paragraph (b). Dry or dusty materials shall be wet down to lay the dust. The fee for any wrecking or demolishing shall correspond to the fees charged for new buildings, the value to be appraised value of the buildings. Valuations of $25.00 and under as appraised by the Building Inspector, will not require a permit.

Any person wrecking or demolishing shall make good all damages or injuries caused by the wrecking of any such building or structure. When a permit is issued the accompanying 'permit card' must be posted in a conspicuous place on the premises, otherwise the Building Inspector may stop the work.

Section 2. The term "person" wherever used in this ordinance shall mean any person, firm, or corporation, or any partner, officer, agent or employee thereof.

Section 3. It shall be unlawful for any person to sell at retail or make any retail sale, as defined in this ordinance, of any electrical appliance, apparatus, equipment, device or material of a kind or character specified in Section 4 of this ordinance, unless such appliance, apparatus, equipment, device or material shall have first been approved by the City Electrician of the City of San Diego, and to revoke its approval of any appliance, apparatus, equipment, device or material therefore approved by it.

Section 4. The provisions of this ordinance shall apply to any and all electrical appliances, apparatus, equipment, devices or materials of the kind and character that falls within any of the following classifications, to-wit:
