O R D I N A N C E NO. 1035 NEW SERIES

AN ORDINANCE GOVERNING THE INSTALLATION AND OPERATION OF STOVE OR RANGE OIL BURNING EQUIPMENTS AND THE STORAGE AND HANDLING OF OIL FUELS IN CONNECTION THEREWITH, AND PROVIDING A PENALTY FOR THE VIOLATION HEREOF.

BE IT ORDAINED by the Council of the City of San Diego, as follows:

Section 1. This ordinance is for controlling the installation and operation of stove or range oil burning equipments and the storage and handling of oil fuels in connection therewith for domestic purposes only, and is in no way to conflict with the provisions of Ordinance No. 11741.

Section 2. The Fire Marshal of the City of San Diego shall be the official charged with the enforcement of this ordinance.

Section 3. Application and Scope.

(a) These regulations apply to stove or range oil burners and oil burning equipment, defined as follows:

For the purpose of this ordinance Stove or Range oil burners shall mean oil burners designed to burn kerosene, range oil or similar distillate fuel having a flash point of 100 degrees Fahrenheit or higher, as determined by the Tag Closed Tester in accordance with the method of test adopted by the American Society for Testing Materials (A.S.T.M. Designation D56-21), and intended for installation in stoves, ranges or similar devices. Stove or range oil burning equipment shall include the burners and all tanks, piping, control, devices, and accessories connected to the burners.

This ordinance does not apply to portable burners nor requiring connection to a flue, such as oil stoves, oil heaters and oil lamps equipped with a wick or a mechanical device, the movement of which is essential to flame adjustment, or to such portable apparatus as blow torches, soldering pots, etc.

These regulations are intended to prescribe reasonable provisions for the installation of oil burning equipments, based on minimum requirements for safety to life and property from fire. Careful attention to the maintenance and proper operation of the equipment is necessary for the continued safety of oil burning equipments.

(b) Where the circumstances or conditions of any particular installation are unusual and such as to render the strict application of these regulations impracticable, the Fire Marshal may permit such modifications as will provide a substantially equivalent degree of safety.

Section 4. It shall be unlawful for any person, firm or corporation to install any stove or range oil burning equipment unless they shall have been issued a permit by the Fire Marshal. Permits may be revoked by the Fire Marshal for willful violation of the provisions of this ordinance over which the permit holder has direct control.

It shall be unlawful for any person, firm or corporation to operate or maintain, or to cause to be operated or maintained, any stove or range oil burner or equipment, which shall have been installed in violation of this ordinance or any portion thereof.

Section 5. Every person, firm or corporation selling or installing any stove or range oil burning equipment shall report in writing to the Fire Marshal not later than the tenth day of each month, the location of each sale or installation made in the previous month, the name and address of person making purchase, together with the name of the burner and the number and size of storage or supply tanks.

Section 6. All burners and stoves shall be of an approved type and must have been tested and approved by the Fire Marshal or other competent authority (Underwriters' Laboratories, Inc., or other recognized laboratory) and must be installed in compliance with these regulations and the instructions of the manufacturers. Stoves and burners bearing the approval of the National Board of Fire Underwriters' Laboratories shall be considered to have fulfilled the requirements of this ordinance.

Section 7. Fuel oil. The grade of fuel oil used with any stove or range burner shall be one which tests and experience have shown to be suitable for use with that burner. The oil shall have a flash point of not less than 100 degrees Fahrenheit, determined as specified in Section 3, and shall be free from acid, grit, and fibrous or other foreign matter likely to clog or injure the burners or valves.

No dealer may deliver any grade of oil other than that which is intended for use in the burner according to tests and specifications of the manufacturer, and it shall be a violation of this ordinance for any person, firm or corporation so to do.

Section 8. Installation of Stove Or Range Oil Burners.

(a) Stove and range oil burners, including their supply tanks and connecting piping, shall be securely installed in a workmanlike manner, by qualified mechanics experienced in making such installations and shall be installed in accordance with the instructions of the manufacturer and the provisions of this ordinance.

(b) Suitable means for preventing dangerous accumulations of oil vapors in the bottom of the combustion or ash chambers of stoves and ranges shall be provided.

(c) Cracks and crevices between the combustion chamber and the oven or other parts of the stove or range shall be carefully sealed with fire clay.

(d) Burners shall be rigidly secured in place. Dampers which may be operated so as to entirely close the chimney uptake are prohibited.

(e) A card giving complete instructions in regard to the care and operation of the burner shall be posted near the burner.

(f) Stoves or ranges in which oil burners are installed shall be connected to flues having sufficient draft at all times to assure safe operation of the burner, said vents to be installed in compliance with the provisions of Chapter 37, Ordinance No. 13375 (Building Code), of the ordinances of The City of San Diego, approved December 7, 1931, and amendments thereto or ordinances substituted therefor.

(g) Rooms in which oil burners are located shall be provided with adequate ventilation to assure continuous complete combustion of the oil.

(h) Before installations are made it is especially important to make certain that the range or stove is so elevated above the floor, or insulated by means of a suitable hearth as to preclude dangerous temperatures coming into contact with woodwork or other combustible material. For the same reason proper clearance between smoke pipes and combustible materials should be secured.

(i) When placing burner in operation only the lighting device supplied or recommended by the manufacturer shall be used.

(j) The use of gasoline for priming is a dangerous practice and is prohibited.

Section 9. Stove or Range Oil Burner Supply and Storage Tanks and Connections.

(a) Tanks supplying stove or range oil burners shall not exceed a capacity of 275 gallons except that where tanks are an integral part of a complete assembly of stove and burner they shall not have a capacity in excess of 10 gallons. If oil drums are used they shall not exceed a capacity of 55 gallons and not more than two such drums shall be used, and said drums must be connected with a three-way valve in such a way that no more than one tank can discharge its contents at one time.

(b) Piping between burners, supply tanks and storage tanks shall be standard steel, wrought iron or brass pipe not smaller than 1/4-inch in size, or brass or copper tubing not less than 5/16-inch outside diameter and not less than 0.049-inch wall thickness. Joints and connections shall be tightly made with substantial fittings. Piping shall be protected against mechanical injury and shall be installed with proper allowance for expansion, contraction and vibration.

(c) Oil burning equipments shall be provided with a shut-off valve for manually stopping the flow of oil to the burner, said valve to be located at the tank.

(d) Gravity feed shall be used only with burners arranged to prevent abnormal discharge of oil at the burner by automatic means specifically approved for the burner with which it is used.

NOTE: A trip bucket or other automatic anti-flooding device or the proper arrangement of the burner equipment to maintain a constant or fixed level of oil to prevent abnormal discharge of oil shall be considered as meeting this requirement.

(e) All tanks shall be located outside, except tanks which are an integral part of the stove and burner and which conform to the provisions of paragraph "a" of this section.

(f) Thickness of tanks permitted under this section shall be a minimum of 16-gauge, and all tanks shall be vented in an approved manner.

(g) Outside above-ground tanks shall be set on a firm foundation and shall be not less than 12 inches from any dwelling or other building or any property line. Tank shall be so located that no part of it is more than ten feet above the burning point of the oil.

No combustible material shall be stored under or within 10 feet of such tanks.

Section 10. City Not Liable. No part of this ordinance shall be construed to imply that The City of San Diego, California, or any officer, agent, inspector, or employee thereof be held as assuming any liability by reason or in consequence of any license, permit, permission, certificate of inspection, inspection or approval authorized herein, or by any ordinance of the City of San Diego, or by reason or in consequence of any things done or act performed pursuant to any of the provisions of this ordinance, or any of the ordinances, rules and regulations of the City of San Diego, pertaining to the work covered and described by this ordinance.

Section 11. Validity. If any section, sub-section, sentence, clause or phrase of this ordinance is, for any reason, held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this ordinance. The Council of the City of San Diego, California, hereby declares that it would have passed this ordinance, and each section, subsection, sentence, clause or phrase thereof, irrespective of the fact that any one or more sections, sub-sections, sentences, clauses and phrases be declared unconstitutional.

Section 12. Any person, firm or corporation who shall violate any of the provisions of this ordinance shall be deemed guilty of a misdemeanor; and each person, firm or corporation shall be deemed guilty of a separate offense for each and every day or portion thereof during which any violation of any of the provisions of this ordinance is committed, continued or permitted, and upon conviction thereof shall be punishable by a fine of not more than five hundred dollars (\$500.00), or by imprisonment in the City Jail, or in the County Jail, for not to exceed six (6) months, or by both such fine and imprisonment.

Section 13. All ordinances or parts of ordinances in conflict with the purpose for which this ordinance is intended are hereby repealed, except as otherwise specified in Section 1 above.

A Resolution proposing amendments to Sections 103, 104 and 105, Article VII; Section 54, Article V; and Section 96, Article VII, of the Charter of the City of San Diego;" NOW, THEREFORE,

BE IT ORDAINED by the Council of the City of San Diego, as follows:

Section 1. There is hereby ordered, called and proclaimed a Special Election of the qualified voters of said The City of San Diego, to be held in said City on the 23rd day of March, 1937, at which special election there shall be and are hereby submitted to said voters the following propositions to amend the Charter of said City, namely:

PROPOSITION I.

Amend Section 23, Article III, of the Charter of the City of San Diego, so as to read as follows:

"Section 23. THE INITIATIVE, REFERENDUM AND RECALL.

(a) THE INITIATIVE. Any proposed ordinance, legislative, administrative or executive, which the Council itself might adopt, may be submitted to the Council by a petition filed with the City Clerk, as provided in paragraph (b) hereof, praying for the adoption of such ordinance, or, if the same be not adopted, that such ordinance be submitted to a vote of the electors of the city. Any such petition shall be known as an initiative petition. Any proposed ordinance amending or repealing an ordinance theretofore proposed by petition and adopted by a vote of the electors may be submitted to the Council by a petition filed with the City Clerk, as provided in paragraph (b) hereof, praying that such ordinance be submitted to a vote of the electors of the city. Any such petition shall be known as an initiative petition. Any initiative petition shall set forth the proposed ordinance in full, and shall be signed by qualified electors of the city equal in number to the percentages hereinafter prescribed. The basis on which such percentages of qualified electors of the city shall be estimated shall be the total number of votes cast for all candidates for the office of Mayor at the last general municipal election, or primary nominating election, at which a Mayor was elected prior to the filing of such petition.

(b) Any petition submitting a proposed ordinance, legislative, administrative or executive, to the Council, as provided in this Article, shall be in the form, and shall be signed, filed and certified as follows:

In making such petition, sheets of white paper of a uniform size shall be used. Such petition shall consist of separate papers, as follows: Each paper shall consist of a sheet or sheets, containing the proposed ordinance, with additional sheet or sheets for the signatures thereto; provided, however, that if any paper consists of more than one sheet it shall be and remain securely fastened together at the top. The proposed ordinance, as set forth in any paper, shall be followed by the signatures, which need not all be appended to one sheet or paper. Such petition shall be signed by qualified electors of the city in their own proper persons only, and opposite the signature written by each signer his residence shall be written by him, giving the street and number, when such designation by street and number can be given, or if the signer be unable to write, then such signature and residence shall be written by some person at his request, and the same identified on the margin by the signature of the person making the affidavit hereinafter provided. The number of the election precinct of each signer shall also appear on the paper after his or her name. Each such paper shall have attached thereto at the bottom of the last sheet thereof the affidavit of a qualified elector of the city stating that all of the signatures on each sheet thereof were made in his presence, and that all of the sheets constituting such paper were fastened together at the time such signatures were appended thereto; and that to the best of his knowledge and belief such signature is the genuine signature of the person whose name purports to be thereunto subscribed. Each of the other sheets of such paper, containing signatures, shall be identified by the signature of the person making such affidavit.

Within twenty days from the date of the filing of such petition, the City Clerk shall examine the same and ascertain whether or not said petition is signed by the requisite number of qualified electors of the City; and if requested by the City Clerk, the Council shall authorize him to employ persons specially for that purpose, in addition to the persons regularly employed in his office, and the provisions of the charter respecting the Classified Civil Service of the city shall not apply to the persons so specially employed. When the City Clerk has completed his examination of the petition, he shall attach to the same his certificate, properly dated, showing the result of such examination, and if from such examination he shall find that said petition is signed by the requisite number of electors of the city or is not so signed, he shall certify that the same is sufficient or insufficient, as the case may be. If by the certificate of the City Clerk the petition is found to be insufficient, it may be amended by filing a supplemental petition or petitions within ten days from the date of such certificate. The City Clerk shall, within ten days after the filing of such supplemental petition or petitions, make like examination of the same and certify to the result of such examination as hereinbefore provided. If his certificate shall show any such petition, or any such petition as amended, to be insufficient, it shall be retained by him and kept as a public record, without prejudice, however, to the filing of a new petition to the same effect. But if, by the certificate of the City Clerk, such petition, or such petition as amended, is shown to be sufficient, the City Clerk shall present the same to the Council without delay. The sufficiency or insufficiency of such petition shall not be subject to review by the Council.

If any supplemental petition be filed, all the signatures appended to the petition and to the supplemental petition or petitions shall be considered in determining the number of qualified electors signing the initiative petition.

Any signer to a petition or supplemental petition may withdraw his name by filing with the City Clerk a verified revocation of his signature before the filing of the petition or supplemental petition containing his signature, with said City Clerk. No signature can be revoked after the petition, or supplemental petition to which it is attached, has been filed. The City Clerk shall endorse on said petition and on any supplemental petition the name of the person or persons who filed the same, respectively. If any signature to such petition or supplemental petition be questioned and in the judgment of the City Clerk should be investigated, the City Clerk shall forthwith mail notice to such purported signer,

stating that his name is attached to such petition or supplemental petition, and cite him to appear before him forthwith to answer whether such signature is genuine. If the City Clerk finds that any signature is not genuine, he shall strike the name from such petitions. After an election based on any initiative petition, the sufficiency of such petition in any respect shall not be subject to judicial review or be otherwise questioned.

(c) (1) If the petition praying for the adoption by the Council of any proposed ordinance, or if the same be not adopted, for the submission of such ordinance to a vote of the electors of the City, be signed by fifteen per cent of the qualified electors of said City estimated upon the basis aforesaid, and asks for the calling of a special election, then the Council shall either:

(2) Pass said ordinance, without alteration, within twenty days after the presentation of such petition to the Council by the City Clerk, and if the Council shall fail to pass said ordinance within said time, the Council shall thereupon, within ten days after it shall have so failed of passage, call a special election, at which said proposed ordinance, without alteration, shall be submitted to a vote of the qualified electors of said city; such election shall be held not less than thirty days from the date of the presentation of such petition to the Council nor more than ninety days from said date; provided, however, that if any other election for any purpose at which all the qualified voters of the city are entitled to vote shall be called and held in said city within said ninety days, then such ordinance shall be submitted either at such last named other election or at the special election above provided for, as the Council shall determine.

(3) Forthwith after the presentation of such petition to the Council, it shall call a special election for the purpose of submitting said ordinance to a vote of the electors of the city, and such election shall be held not less than thirty days from the date of the presentation of such petition to the Council nor more than ninety days from said date; provided, however, that if any other election for any purpose at which all the qualified voters of the city are entitled to vote shall be called and held in said city within said ninety days, then such ordinance shall be submitted either at such last named other election or at the special election above provided for, as the Council shall determine.

Any ordinance proposed by initiative petition and passed by the Council shall be subject to the referendum by petition as herein provided in the case of other ordinances.

(4) If the said petition be signed by at least five per cent of the qualified electors of said City, estimated upon the basis aforesaid but does not conform to both the requirements of subdivision (1), paragraph (c) hereof, even though it may ask for the calling of a special election, then such ordinance, unless enacted by the Council without alteration, shall be submitted without alteration by the Council to a vote of the electors of the City at the next election for any purposes at which all the qualified voters of the city are entitled to vote, that shall be held at any time after thirty days from the date of the presentation of said petition to the Council.

(5) In the event that said petition prays for the submission of a proposed ordinance amending or repealing an ordinance theretofore proposed by petition and adopted by a vote of the electors, and is signed by qualified electors of the City equal in number to fifteen per cent of the qualified voters of the city estimated on the basis aforesaid, then but not otherwise, the Council must submit such proposed ordinance to a vote of the electors of the city at the next election for any purpose at which all the qualified voters of the city are entitled to vote, that shall be held at any time after thirty days from the date of the presentation of such petition to the Council.

(d) Any person or persons filing an initiative petition, or the person or organization on whose behalf such petition is filed, shall have the right to file with the City Clerk, at least twenty days prior to the election at which the ordinance proposed by such petition is to be submitted to a vote of the electors of the city, printed copies of an argument favoring said proposed ordinance, and the Council shall have the right to present, or permit to be presented and filed with the City Clerk within the same limit of time, printed copies of an argument opposing said ordinance. No such argument shall exceed two thousand words in length, and such argument shall be printed in such form and upon such character of paper, suitable for mailing, as the City Clerk shall prescribe. The City Clerk shall enclose one copy of each such argument with the sample ballot and a copy of the proposed ordinance mailed to each voter, provided he has been furnished with printed copies of such argument equal in number to five per cent in excess of the total number of qualified electors of the City. Nothing in this section contained shall authorize the Council to expend money of the city for the formulating or printing of any such argument.

(e) If a majority of the qualified electors voting on any ordinance proposed by petition shall vote in favor thereof, such ordinance shall become an ordinance of the city upon the declaration by the Council of the result of the election at which such proposed ordinance was submitted; and any such ordinance adopted by a vote of the qualified electors of the city voting thereon cannot be amended or repealed except by an ordinance proposed by petition and adopted by vote of the electors, as hereinbefore provided, or by an ordinance submitted by the Council to a vote of the electors of the city and so adopted as hereinbefore provided, or by an amendment of this charter amending or repealing the same.

(f) THE REFERENDUM.

The Council shall have power and is hereby authorized to submit to a vote of the qualified electors of the city, at any election for any purpose at which all the qualified voters of the city are entitled to vote, any proposed ordinance, order or resolution, legislative, administrative or executive, that the Council itself might adopt. If a majority of the qualified electors voting on such proposed ordinance, order or resolution, vote in favor of the same, it shall be deemed to be adopted and shall take effect upon the declaration of the result of such election by the Council, and it shall have the same force and effect as an ordinance adopted under the provisions of this article relating to the referendum.

(g) At any time within the thirty days mentioned in Section 17 of this charter, a petition addressed to the Council, and signed by qualified electors of said City equal in number to at least seven per cent of such qualified electors, computed upon the basis for estimating percentages specified in paragraph (a) hereof, may be filed with the City Clerk, demanding the submission of any ordinance, order or resolution passed by the Council, to a vote of the qualified electors of said city, except any ordinance, order or resolution which shall take effect upon its publication or passage as provided in Section 17 of this Charter. Any such petition shall be known as a referendary petition and shall contain the ordinance, order or resolution in full, the submission of which to a vote is thereby demanded. Such vote shall be known as a referendary vote.

The provisions of this charter relating to the form and to the mode of signing initiative petitions, and to the filing, examination, certification and amendment of the same, and to the presentation thereof to the Council by the City Clerk, shall apply to referendary petitions filed under the charter.

If any referendary petition or petitions be filed, as hereinbefore provided, and the City Clerk shall be unable to make his certificate to the sufficiency or insufficiency thereof within thirty days after the publication of the ordinance, or the adoption of the order or resolution, the submission of which to a referendary vote is thereby demanded, such ordinance, order or resolution shall be suspended from taking effect after the expiration of said thirty days and until the date of the certificate of the City Clerk to the sufficiency or insufficiency of such petition or petitions. If by the certificate of the City Clerk such petition or petitions are certified to be sufficient, such ordinance, order or resolution shall not go into effect until it shall be adopted by vote of the electors of the city, as hereinafter provided; but if by such certificate such petition or petitions are certified to be insufficient, such ordinance, order or resolution shall go into effect upon the date of such certificate; provided, however, that no such ordinance, order or resolution shall take effect until the expiration of said thirty days. No referendary petition shall be amended by a supplemental petition filed after the expiration of said thirty days. In case more than one referendary petition be filed in relation to any certain ordinance, order or resolution, all such petitions shall be considered in determining the number of qualified electors, and with the same force and effect as though all the names had been appended to the one petition.

(h) Upon presentation to the Council by the City Clerk of a referendary petition or petitions, the ordinance, order or resolution, the submission of which to a referendary vote is thereby demanded, must be either repealed by the Council without delay, or submitted to a vote of the qualified electors of the city for approval or rejection at the next general municipal election occurring subsequent to thirty days from the date of the presentation of such referendary petition to the Council by the City Clerk; provided, that if before such general municipal election any other election for any purpose at which all the qualified voters of the city are entitled to vote shall be held in said city, then such ordinance, order or resolution shall be so submitted at such last named other election, if the Council shall so determine; provided, however, that if any referendary petition or petitions shall be signed by fifteen per cent of the qualified electors of said city computed upon the basis for estimating the percentage of such electors set forth in paragraph (a) hereof, and asks for the calling of a special election, the Council must, upon the presentation thereof to it, immediately call a special election at which the ordinance, order or resolution contained in such petition shall be submitted to a referendary vote; such election shall be held not less than thirty days from the date of the presentation of such petition to the Council nor more than ninety days from said date; provided, however, that if any other election for any purpose at which all the qualified voters of the city are entitled to vote shall be called and held in said city within said ninety days, then such ordinance shall be submitted either at such last named other election or at the special election above provided for, as the Council shall determine.

If any referendary petition or petitions presented to the Council as aforesaid be certified by the City Clerk to be signed by at least seven per cent but less than fifteen per cent of the qualified electors of the said city, computed upon the basis aforesaid, then and in that event additional referendary petitions for the submission of such ordinance, order or resolution to a referendary vote may be filed; all such additional referendary petitions shall be in the same form, and be signed, examined, amended, and certified and presented to the Council in like manner as provided in paragraph (b) hereof; and if it shall appear from the certificate of the City Clerk thereto that such additional referendary petition or petitions are signed by such number of qualified electors of the city, as, when added to the number of qualified electors whose signatures are appended to such referendary petition or petitions examined and certified by the City Clerk, shall equal fifteen per cent of the qualified electors of said city, computed upon the basis aforesaid, and if such additional referendary petition or petitions ask for the calling of a special election, the Council must upon the presentation of such additional referendary petition or petitions to it by the City Clerk immediately call a special election at which such ordinance, order or resolution shall be submitted to a referendary vote; such election shall be held not less than thirty days from the date of the presentation of such additional referendary petition to the Council nor more than ninety days from said date; provided, however, that if any other election for any purpose at which all the qualified voters of the city are entitled to vote shall be called and held in said city within said ninety days, then such ordinance shall be submitted either at such last named other election or at the special election above provided for, as the Council shall determine.

If, upon the presentation by the City Clerk to the Council of a referendary petition signed by at least seven per cent, but less than fifteen per cent, of the qualified electors of the city, computed as aforesaid, the Council shall have ordered the ordinance set forth in such petition submitted to a vote of the electors of the city at the next general municipal election and said general municipal election will occur more than ninety days from the date of the presentation to the Council of said additional referendary petition or petitions, such action shall be annulled by the presentation to it of additional petitions, which request the calling of a special election, and which, together with such referendary petition, shall be signed by at least fifteen per cent of the qualified electors of the city, and in such event the Council shall submit such ordinance to such vote at an election to be held within ninety days of said date of presentation as hereinbefore provided.

(i) No ordinance, order or resolution that has been submitted to a referendary vote shall go into effect unless a majority of the qualified electors voting thereon shall vote in favor thereof; and if such ordinance, order or resolution so submitted shall receive the votes of a majority of such qualified electors voting thereon, it shall be deemed to be adopted, and shall take effect upon the declaration by the Council of the result of the election at which it shall have been so submitted; provided, however, that any ordinance, order or resolution so adopted shall be subject to amendment or repeal by the Council at any time, but such amendment or repeal shall not be made within six months after such adoption, except by unanimous vote of the Council, and such amendment or repeal shall be subject to a referendary vote as provided in this article.

(j) Whenever any ordinance proposed by initiative petition, or any ordinance, order or resolution for the submission of which to a referendary vote a petition or petitions shall have been filed, is submitted at any election, there shall be printed on the ballots to be used at such election the words, "Shall the ordinance (or order, or resolution, or proposed ordinance, as the case may be, stating the nature of the ordinance, order or resolution, or of the proposed ordinance) be adopted?" And opposite such proposition to be voted on, and to the right thereof, the words "Yes" and "No" shall be printed on separate lines with voting squares. If an elector shall stamp a cross (X) in the voting square after the printed word "Yes," his vote shall be counted in favor of the adoption of the ordinance, order or resolution, or the proposed ordinance; and if he shall stamp a cross (X) in the voting square after the printed word "No," his vote shall be counted against the adoption of the same.

(k) Any number of ordinances, proposed by initiative petitions, or ordinances, orders or resolutions submitted by the Council to a referendary vote, or so submitted in pursuance of referendary petitions, may be voted upon at the same election, either general or special; provided, that there shall not be held in any period of six months more than one election called for the purpose of submitting an ordinance or ordinances proposed by initiative petitions, but if any election be called for any other purpose within such period, such ordinance or ordinances may also be submitted thereat. If the provisions of two or more ordinances, orders or resolutions adopted at the same election by vote of the qualified electors of said city, under the provisions of this article, conflict, then the ordinance, order or resolution receiving the highest affirmative vote shall prevail.

(l) The Council, at its own instance, or upon the presentation to it of an initiative petition, may submit any proposed ordinance, order or resolution for the repeal of any ordinance, order or resolution, adopted or approved by vote of the qualified electors of the city, in pursuance of an initiative or referendary petition, as in this article provided, or for the amendment of such ordinance, order or resolution, to be voted upon at any succeeding election held in said city, for any purpose at which all the qualified voters of the city are entitled to vote, and in the event that such proposed ordinance, order or resolution so submitted by the Council receive a majority of the votes cast thereon at such election, the ordinance, order or resolution to which such ordinance, order or resolution so adopted is amendatory, or that is to be repealed thereby, shall be amended or repealed accordingly.

(m) Whenever any ordinance, order, resolution or proposition is required by this article to be submitted to the electors of the city at any election, the City Clerk shall cause the same to be printed, and he shall enclose a printed copy thereof in an envelope with a sample ballot, and mail the same to each voter.

(n) The provisions and requirements of paragraph (d) hereof relative to the preparation, printing and distribution of arguments for or against any ordinance proposed by initiative petition shall apply, and be effective, in the case of the submission to vote of the electors in pursuance of a referendary petition of any ordinance, order or resolution.

(o) THE RECALL.

(1) For the recall of any elected official sought to be removed, a petition signed by qualified electors equal in number to at least twenty-five per cent of the entire vote cast for Mayor at the last preceding general municipal election, demanding the submission to the electors of the city of the question whether the incumbent of such office shall be removed by vote of such electors, and if so removed, the election of a successor of such incumbent, shall be addressed to the Council and filed with the City Clerk. Such petition shall contain a general statement of the grounds for which such removal is sought, of not more than three hundred words in length, and the sufficiency of such statement shall not be subject to review; provided, however, that no petition for the removal of any elective officer shall be so filed until he has actually held his office for six months.

(2) The provisions of this article relating to the form and to the mode of signing initiative petitions, and to the filing, examination, certification and amendment thereof, and to the presentation of the same to the Council, shall apply to any petition filed with the City Clerk under this paragraph relating to the recall, which petition shall be designated as a recall petition. The sufficiency or insufficiency of any recall petition shall not be subject to review by the Council.

(3) Upon the presentation of such recall petition to the Council, by the City Clerk, the Council shall thereupon, by ordinance, order the holding of a special election for the purpose of submitting to the electors of the city at large or in the San Diego School District as the case may be, the question whether such officer shall be recalled, and if recalled, for the election of his successor. Such special election shall be held not less than fifty nor more than sixty days after the date of the certificate of the City Clerk to the sufficiency of such recall petition; provided, however, that if any other election for any purpose at which all the qualified voters of the city are entitled to vote, is to occur within sixty days after the date of such certificate, the Council may, in its discretion, order the holding of such recall election, and the consolidation thereof with such other election, occurring not more than sixty days after the date of said certificate of the City Clerk.

(p) The ballots used at every recall election shall have printed thereon, as to every officer whose recall is to be voted on thereat, the following question:

"Shall (inserting the name of the officer sought to be removed) be removed from the office of (inserting the name of his office) by the recall?"

And opposite such question to be voted on, and to the right thereof, the words "Yes" and "No" shall be printed on separate lines, with voting squares. If an elector shall stamp a cross (X) in the voting square after the printed word "Yes," his vote shall be counted in favor of the recall of such officer, and if he shall stamp a cross (X) in the voting square after the word "No," his vote shall be counted against such recall.

On such ballots, under each question, there shall also be printed the names of all persons who have been nominated as candidates to succeed the person whose removal is sought, in case he shall be removed from office by vote of the electors. The nomination of such candidates shall be made as hereinafter provided, except that the person whose removal is sought shall be deemed a candidate, and unless, within five days after the date of the City Clerk's certificate to the petition, he resigns his office, or declines, in writing duly signed and verified by him, and filed with the City Clerk, to be a candidate, his name shall be printed on the ballot the same as if he had been regularly nominated in accordance with the provisions of this article.

(q) Any incumbent of an office whose removal is sought under the provisions of this article, may file with the City Clerk, at least twenty days prior to such recall election, printed copies of a statement of not more than two thousand words in length, justifying his course in office; and the person filing such recall petition, or the person or organization on whose behalf a recall petition was filed, shall have the right to present to the City Clerk, within the same limit of time, printed copies of a statement in support of such recall of not exceeding two thousand words in length. Any statement filed under this section shall be printed in such form and upon such character of paper suitable for mailing as the City Clerk shall prescribe.

The City Clerk shall enclose one copy of any such statement so filed with him with the sample ballot mailed to each voter, provided he has been furnished with printed copies of such statement equal to five per cent in excess of the total number of qualified electors of the city, or of the San Diego School District in case the election is in said district.

(r) Any elective officer for whose recall and removal from office an election is held, shall continue to perform the duties of his office until such time as the Council having canvassed the vote at such recall election, shall declare that a majority of the electors voting on the question as to whether such person shall be recalled and removed from office, have voted in favor of his recall and removal from office. But if such person

shall resign at any time after the date of the certificate of the City Clerk certifying that the petition for his recall is sufficient and prior to the declaration of the result of such election, thereby creating a vacancy in such office, or a vacancy occurs therein during such time from any cause, such vacancy may be filled in the same manner as other vacancies occurring in such office, but in that event the person appointed to fill such vacancy shall hold his office only until the person declared by the Council to have been elected at the recall election shall qualify. Proceedings for the recall of any elective officers shall be deemed to be pending from the date of the certificate of the City Clerk certifying that the recall petition is sufficient, and if he shall resign at any time subsequent thereto the recall election shall be held notwithstanding such resignation.

In the event that a majority of the electors voting on the question as to whether the person shall be recalled and removed from office shall vote in favor of the removal of such person from office by the recall, the person for whose removal from office such majority has voted shall be deemed to be and shall be recalled and removed from office upon the declaration of the result of such election by the Council, except as hereinafter next provided, and the candidate receiving at said election the highest number of votes for that office shall be thereby elected. If the incumbent receive the highest number of votes, he shall continue in office, but if some person other than the incumbent receive the highest number of votes at such election, he shall become the successor of the incumbent so removed and shall hold office only during the unexpired term of such officer.

(s) No person who has been removed from an elective office by the recall, or who has resigned from such office while recall proceedings for his removal were pending against him, shall be appointed to any office under this charter within two years after such removal or resignation.

(t) Any candidate to be voted for at a recall election, other than the incumbent sought to be removed, may be nominated by petition, which petition shall conform to the provisions of this charter so far as applicable relating to nominating petitions at primary nominating elections for the respective elective offices. Each petition must be presented to the City Clerk not less than twenty-five days before such recall election. Immediately upon the presentation of any such petition the City Clerk shall ascertain and determine, in the manner hereinbefore provided as to initiative petitions, whether or not such petition is signed by the requisite number of qualified electors of the City. If requested by the City Clerk, the Council shall allow him additional assistants for that purpose, as in other cases, and he shall, within five days after the presentation thereof attach his certificate to such petitions, showing the result of his examination. If it shall appear therefrom that any such petition is not signed by the requisite number of qualified electors, the same may be amended within three days from the date of such certificate, by presenting a supplemental petition. The Clerk shall, within five days after such supplemental petition is filed, make like examination thereof and shall certify the result of his examination thereof; but no further supplemental petition shall be allowed. If any such petition, as amended by a supplemental petition, be signed by the requisite number of qualified electors, both the petition and supplemental petition being considered together for that purpose, the person therein named shall be deemed to be nominated as a candidate to be voted for at such recall election."

This proposition is designated on the ballot hereinafter described as:

"PROPOSITION I. Amend Section 23 of Article III of the City Charter.

This amendment provides a complete procedure for the exercise of the initiative, referendum and recall; it provides that 5% of the qualified electors of The City of San Diego may initiate any ordinance or legislative, administrative or executive action which the Council itself might adopt; that when such a petition is signed by 15% of the qualified electors of the City, then the Council must call a special election for the submission thereof to the people, but that if such initiative petition contains the names of at least 5% and less than 15%, the Council shall submit the same at the next general municipal election or at the next election at which all of the qualified electors of the City are entitled to vote; that for the referendum a petition presented within 30 days after the adoption by the Council of any ordinance, order or resolution as limited and referred to in said amendment, signed by at least 7% of the qualified electors of the City, shall temporarily suspend the taking effect thereof; that when such a referendary petition is signed by 15% of the qualified electors of the City, then the Council must call a special election for the submission thereof, but that if such petition contains the names of at least 7% and less than 15% of the qualified electors, the Council shall submit the same at the next general municipal election or at the next election at which all the qualified voters of the City are entitled to vote; that for the recall of any elective official of The City of San Diego it requires a petition signed by at least 25% of the qualified electors of said City, and that thereupon the Council shall, by ordinance, order the holding of a special election for the purpose of submitting the question of such recall and the election of a successor. All of the percentages for the filing of the petitions specified in this amendment are based upon the total number of votes cast for all candidates for the office of Mayor at the last general municipal election or primary election at which a Mayor was elected, prior to the filing of said petition. Further detailed particulars are contained in Resolution No. 65400, filed in the office of the City Clerk as Document No. 301055."

PROPOSITION II.

Amend Sections 103, 104 and 105, Article VII, of the Charter of the City of San Diego, so as to read as follows:

"Section 103. PUBLIC UTILITIES - MUNICIPAL ACQUISITION AND OPERATION OF FRANCHISES.

(1) The City of San Diego shall have power to establish, acquire and operate public works and/or public utilities for supplying light, water, power, heat, transportation, telephone service or other means of communication. Such works and/or utilities may be acquired by original construction or by the purchase or condemnation of existing works and/or utilities, including their franchises, or both.

(2) Every franchise, right or privilege to erect or lay telegraph or telephone wires, to construct or operate street or interurban railways, bus lines, or other transportation lines upon any public street, highway or other property, to lay gas pipes for the purpose of carrying gas for light, heat or power, to erect or lay poles, wires or conduits for transmitting electric light, heat or power along, under or upon any public street, highway or other public property, or to exercise any other franchise, right or privilege for the use of public property, hereafter proposed to be granted by The City of San Diego, shall be granted upon the conditions in this section provided, and not otherwise; provided, however, that nothing herein contained shall be deemed to prevent the requirement by the Council of such other and additional terms and conditions not in conflict herewith as in the judgment of the Council are to the public interest.

(a) No franchise shall be granted for a period longer than fifty (50) years.

(b) Every grant of a franchise, right or privilege shall reserve to the City the right to purchase, take over or condemn for public operation, at any time, the works, plant and property of a franchise grantee, his or its successors or assigns, used and useful in the public service, or in the discretion of the City prospectively useful in the public service, and their physical valuation, but without compensation for franchise value, good will, going concern value, earning power, increased cost of reproduction, severance damage, or increased value of property, or of rights of way occasioned by or attributable to use or occupancy of the same by plant or equipment.

(c) Every grant of a franchise, right or privilege shall reserve to the City the right, at any time, upon reasonable notice, to change the grade, location, alignment or use of any street or place in, or over which such franchise or permit is exercised or operated without a liability or obligation on the part of said City in any wise occasioned by any change of the pipes, poles, lines, or other equipment of the franchise grantee, his or its successors or assigns, required by such change of grade, location, alignment, or use.

(d) Every grant of a franchise, right or privilege shall contain the following provisions:

'That whenever, upon any investigation of a public utility, made upon complaint filed by the City of San Diego, the Railroad Commission of the State of California shall find that any rate, toll, charge or schedule or joint rate is unjust, unreasonable, excessive, or in excess of rates of return permitted by law, or unjustly discriminatory, or preferential, or otherwise in violation of law; or that any measurement, regulation, practice, act or service is unjust, unreasonable, unsafe, insufficient, preferential or discriminatory, or otherwise in violation of law, or it shall find that any service is inadequate, or that any service that can reasonably be demanded is not being furnished; or when an investigation is necessary because of an application by a public utility and such application is not justified, the Railroad Commission of the State of California shall fix, determine and declare the just and proper amounts to be charged against such public utility on account of the expenses incurred by the City upon such investigation, including attorney's fees, court or commission charges, together with such expenses and compensation of the officers, agents and employees, both regular and temporary, of the City, as the said Commission may deem just and proper as reasonably attributable to such investigation, valuation or revaluation; and the public utility affected shall pay to the City the amount or amounts so fixed and determined by said Commission, and the decision of said Commission shall be final; provided, however, that the total amount which may be required to be paid to the City by the public utility in any calendar year shall not exceed one-half of one per centum (1/2%) of such public utility's gross operating revenues derived from its operation in the last preceding calendar year. Such sums required to be paid, not paid within thirty (30) days after the determination thereof by said Commission, shall draw interest at the rate of six per centum (6%) per annum.'

(e) Every grant of a franchise, right or privilege shall be subject to the right of a majority of the electors of the City, voting at any election, at any time thereafter, to repeal, change or modify the grant, and every ordinance making such grant shall contain a reservation of such right to repeal, change or modify said ordinance. The Council, by a majority vote, may, by resolution, order submitted to the electors at any general municipal election, or at any special election called by the Council for that purpose, the proposition of the repealing, changing or modifying the terms and provisions of any ordinance granting a franchise, right or privilege under the provisions of this Charter; provided, however, any election at which any such proposition is submitted shall be held not less than forty (40) days and not more than sixty (60) days after the adoption of a resolution ordering the submission of such proposition.

(f) No franchise, right or privilege shall be transferable, except with the approval of the Council expressed by ordinance.

(g) No exclusive franchise, right or privilege shall ever be granted."

"Section 104. FRANCHISES - PROCEDURE FOR GRANTING.

An applicant for any franchise, right or privilege shall file with the Council an application. Every such application shall be accompanied by a cash deposit of one hundred dollars (\$100.00), or a certified check for said amount, payable to the City Clerk, certified to by some responsible bank, as a guarantee of good faith of the applicant, and as a fund out of which to pay all expenses connected with such application. Upon receipt of such an application and deposit, the City Council shall refer the same to the City Manager for his recommendations. After considering the recommendation of the City Manager, the Council shall, in its discretion, advertise the fact of said application, together with the statement that it is proposed to grant the same, in one or more daily newspapers, published in the City. Said advertisement must be published in such newspaper once a day for ten (10) successive days, or as often during said period as said newspaper is published; and the full publication must be completed not less than twenty (20), nor more than forty (40) days before any further action can be taken thereon.

The publication must state the character of the franchise or privilege proposed to be granted, the term for which it is proposed to be granted, and, if it be a street railroad, bus line, or other transportation line, the route to be traversed; that sealed bids therefor will be received up to a certain hour and day named therein, and that the successful bidder, and his or its successors or assigns, must during the life of said franchise, pay to the City as a rental for that portion of the public property occupied by the grantee of the franchise, a percentage of the gross annual receipts of the grantee of the franchise, arising from its use, operation or possession. Such percentage shall be fixed by the Council by resolution prior to such publication, and shall in no event be less than two per cent (2%) of such gross annual receipts. Such publication shall further state that in the event said payment be not made said franchise shall be forfeited.

Said advertisement shall also contain a statement that said franchise will be struck off, sold and awarded to the person, firm or corporation who shall make the highest cash bid therefor; provided, however, that at the time of the opening of said bids any responsible person, firm or corporation, present or represented, may bid for such franchise, right or privilege a sum not less than ten per cent (10%) above the highest sealed bid therefor, and said bid so made may be raised not less than ten per cent (10%) by any other responsible bidder, and said bidding may so continue until finally said franchise shall be struck off, sold and awarded by said Council to the highest bidder therefor in lawful money of the United States; provided, however, that if, in the judgment of the Council, no adequate bid has been made, the Council may withdraw such franchise from sale, or advertise for new bids. Each sealed bid shall be accompanied with cash or a certified check payable to the Treasurer of the City for the full amount of said bid, and no sealed bids shall be considered unless said cash or check is inclosed therewith, and the successful bidder shall deposit at least ten per cent (10%) of the amount of his bid with the City Clerk before the franchise shall be struck off to him, and if he shall fail to make said deposit immediately,

then and in that case his bid shall not be received and shall be considered as void, and the said franchise shall then and there be again offered for sale to the bidder who shall make the highest cash bid therefor, subject to the same conditions as to deposit as above mentioned. Said procedure shall be had until said franchise is struck off, sold and awarded to a bidder who shall make the necessary deposit of at least ten per cent (10%) of the amount of his bid, as herein provided. Said successful bidder shall deposit with the City Clerk, within twenty-four (24) hours of the acceptance of his bid, the remaining ninety per cent (90%) of the amount thereof, and in case he or it shall fail so to do, then the said deposit theretofore made shall be forfeited, and the said award of said franchise shall be void, and the said franchise shall then and there by said governing body be again offered for sale to the highest bidder therefor, in the same manner and under the same restrictions as hereinbefore provided; and in case said bidder shall fail to deposit with the said City Clerk the remaining ninety per cent (90%) of his bid within twenty-four (24) hours after its acceptance, the award to him of said franchise shall be set aside, and the deposit theretofore made by him shall be forfeited, and no further proceeding for a sale of such franchise shall be had unless the same shall be readvertised and again offered for sale in the manner in this section above set forth.

Work to erect or lay telegraph or telephone wires, to construct street or interurban railways, to lay gas pipes for the purpose of carrying gas for light, heat or power, to erect poles or wires for transmitting electricity for light, heat or power along or upon any public street, highway or other public property, or to exercise any other right or privilege whatever, a franchise for which shall have been granted in accordance with the terms of this section, shall be commenced in good faith within not more than four (4) months from the granting of any such franchise, and if not commenced within said time, said franchise so granted shall be declared forfeited, and work to construct street or interurban railways under any such franchise shall be completed within not more than three (3) years from the granting of such franchise, and, if not so completed within said time, such franchise so granted shall be forfeited; provided, that for good cause shown the Council may by resolution extend the time for completion thereof, not exceeding three (3) months. Work under any franchise other than for a street or interurban railway shall be prosecuted diligently and in good faith so as to meet and fill the reasonable needs of the inhabitants of the City.

The successful bidder for any franchise, right or privilege struck off, sold and awarded under this section, shall file a bond running to the City of San Diego, with at least two good and sufficient sureties, to be approved by the Council, in a penal sum by the Council to be prescribed and set forth in the advertisement for bids, conditioned that such bidder shall well and truly observe, fulfill and perform each and every term and condition of such franchise, and that in case of any breach of a condition of such bond the whole amount of the penal sum therein named shall be taken and deemed to be liquidated damages and shall be recoverable from the principal and sureties upon said bond. Said bond shall be filed with the City Clerk within five (5) days after such franchise is awarded, and upon the filing and approval of such bond the said franchise shall, by said Council, be granted by ordinance to the person, firm or corporation to whom it has been struck off, sold or awarded, and in case that said bond shall not be so filed the award of said franchise shall be set aside, and any money paid therefor shall be forfeited, and said franchise shall, in the discretion of said governing or legislative body, be readvertised and again offered for sale in the same manner and under the same restrictions as above in this section provided.

No grant of any franchise, right or privilege, and no renewal, extension or amendment of an existing franchise, shall be made except by ordinance adopted by a vote of at least five (5) of the members of the Council. No ordinance granting a franchise, or a renewal, extension or amendment of an existing franchise shall be effective until thirty (30) days after its passage, during which time it shall be subject to the referendum provisions of this Charter.

No clause or condition of any kind shall be inserted in any franchise or grant offered or sold under the terms of this section which shall directly or indirectly restrict free and open competition in bidding therefor, and no clause or provision shall be inserted in any franchise offered for sale which shall in any wise favor one person, firm or corporation as against another, in bidding for the purchase thereof.

Within six (6) months after this Charter takes effect, copies of all franchises existing at the time shall be deposited with the Manager, and the Council shall certify to the existence of such franchises. The Manager shall keep a public record of all franchises, leases or permits granted for the use of the public property of the City."

"Section 105. RIGHT OF REGULATION.

All grants, renewals, extensions or amendments of franchise, whether it be so provided in the ordinance or not, shall be subject to the right of the City to repeal the same by ordinance at any time for misuse or non-use, or for failure to begin construction within the time prescribed, or otherwise to comply with the terms prescribed; and also at any time to examine and audit the accounts and other records of any franchise holder, and to require annual and other reports from each franchise holder; provided, that the Council may prescribe more detailed forms for the franchise holders within its jurisdiction, in addition to the forms and reports required by the General Laws of the State of California and the regulations of the State Railroad Commission; and to impose such other regulations as may be necessary for the health, safety and welfare of the public.

The owner of a street or interurban railway franchise or privilege shall at all times keep that portion of the street occupied by his or its tracks in good condition, constantly in repair, flush with the street and with good crossings, and in the event that the street on which said franchise or privilege is granted shall be paved either by the City, or under proceedings authorized by the General Laws of the State, the said owner of said franchise or privilege shall be required to pay for only that portion of any construction in excess of that covered by the specifications for the improvement of the rest of the street and which shall be necessary to provide a safe and suitable foundation for the operation of car lines over a paved street. It is the intent and purpose of this section to relieve the owner of a franchise or privilege to operate street cars on the streets of the City of San Diego of the cost of new surface pavement between the tracks of said owner and for two feet on either side thereof on streets to be hereafter paved, and to require the owner of said franchise or privilege to lay a suitable foundation for the operation of car lines over a paved street.

Nothing herein contained, however, shall relieve the said owner of said franchise or privilege of his or its obligation to keep those portions of the streets occupied by the said owner constantly in repair, flush with the street, and with good crossings, and to keep that portion of the pavement now existing or which may hereafter be placed between the rails, and for two feet on each side thereof, and between the tracks if there be more than one, in good condition.

In the event that a street on which a franchise under this Section shall have been granted shall be paved or improved under any of the General Laws in force at the time said improvement is started, the property owners shall be required to bear the entire cost of the improvements of the street, including the cost of improving that portion of the street occupied by the owner of said franchise, save and except that portion required to be borne by the owner of the franchise, as hereinbefore provided."

This proposition is designated on the ballot hereinafter described as:

"PROPOSITION II. Amend Sections 103, 104 and 105 of Article VII of the Charter of the City of San Diego.

(a) Section 103. This amendment empowers the City to acquire, own and operate public utilities; to grant franchises for the use of public property of the City only on condition that each grant contain reservations permitting electors to amend, modify or repeal; permitting condemnation by City of property of franchise grantee used and useful in the public service without payment for good will, going concern value, earning power, increased cost of reproduction, severance damage, or increased value of property occupied by plant; permitting change of grade or alignment of streets by City without liability; limiting terms to not more than 50 years, and prohibiting exclusive grants; requiring public utilities to pay the City for costs of all investigations initiated by complaint of the City whenever upon such investigations being made by the Railroad Commission the rates charged and practices performed are unreasonable, unjust, excessive or discriminatory.

(b) Section 104. This amendment prescribes the procedure for granting franchises for the use of public property after application, payment by applicant of costs of proceedings, recommendation of City Manager, publication of notice of intention to grant, requiring payment to City of not less than 2% of annual gross receipts arising from use, operation and possession of franchise, requiring bond for faithful performance, providing for forfeiture for failure to perform, requiring a two-thirds vote on ordinance making grant, subjecting ordinance granting franchise to right of referendum, requiring Manager to keep public record of all grants.

(c) Section 105. This amendment subjects all franchises to right of City to repeal same at any time for misuse, nonuse, failure to begin construction within time prescribed, or otherwise comply with terms; reserves right to examine accounts and records of any franchise holder, require reports and impose regulations for health, safety and welfare of public; requires owner of street or interurban franchise to maintain portions of streets occupied by its tracks in good repair, flush with street and with good crossings; and to lay suitable foundations for tracks when new paving is put down by the City."

PROPOSITION III.

Amend Section 54, of Article V, of the Charter of The City of San Diego, so as to read as follows:

"Section 54. HARBOR DEPARTMENT.

(a) The Mayor, with the approval of the Council, shall appoint three electors of the City as members of the Harbor Commission, one to serve for two years, one for three years, and one for four years. Thereafter, members of the Harbor Commission shall be appointed to serve for four years and until their successors have been appointed and qualified. The members of the Harbor Commission in office at the time this Charter becomes effective shall remain in office until their successors are appointed and qualified. The Council may at any time by a vote of at least five (5) of their members remove from office any or all of said Harbor Commissioners. The members of the Harbor Commission shall serve without pay.

(b) The Harbor Commission is vested with jurisdiction and authority to exercise in the name of the City of San Diego such powers as are prescribed by general laws now in force and hereafter enacted, together with such additional powers and duties as may be prescribed by ordinance, this Charter, or the laws of the United States. The Commission shall have jurisdiction, supervision, management and control of the Bay of San Diego fronting upon The City of San Diego and within the jurisdiction of said City, including all tide and submerged lands, whether filled or unfilled, situated below the line of mean high tide within the limits of said City, except, however, such tide and submerged lands which have heretofore or which hereafter may be transferred to the exclusive control of the United States and excepting further such other land as may by vote of the people or act of the State Legislature be transferred to a purpose and use inconsistent with commerce, navigation and fisheries.

(c) The Harbor Commission shall have power to adopt, with the approval of the Council by ordinance, such rules and regulations as may be necessary to exercise and carry out the powers and duties prescribed by this Charter for said Harbor Commission.

(d) The Harbor Commission, subject to the Civil Service provisions of this Charter, shall appoint a Port Director, together with such other officers, employees and subordinates as may be necessary in the judgment of said Harbor Commission to carry out the duties prescribed by this Charter for said Harbor Commission and for the promotion of commerce, navigation and fisheries. All such offices and employments shall be created by ordinance upon the direct recommendation of the Harbor Commission. The Harbor Commission shall also have authority and power to employ legal counsel whenever in the judgment of said Commission such employment is necessary.

(e) The Port Director shall be the chief administrative officer of the Harbor Commission, and he shall exercise such powers and perform such duties as may be prescribed by the Harbor Commission. In addition to any duties imposed by the Harbor Commission and this Charter the Port Director shall also perform such duties as may be imposed upon harbor masters, port directors and administrative heads of harbors and ports by State or Federal law.

(f) The Council shall appropriate each fiscal year until the fiscal year 1943-1944 the sum of \$150,000.00 in the annual appropriation ordinance for the use of the Harbor Commission on harbor improvements. This sum so appropriated annually, together with such portions of the revenue and receipts of the Department as may not be needed for operating expenses, shall be placed in a trust fund in the City Treasury and expended by the Harbor Commission for capital purposes only in the development of the harbor of San Diego and of tide lands heretofore or hereafter granted to the City of San Diego by the State of California. When the harbor has been fully developed all such funds which are not necessary for the maintenance and operation of said Department shall be placed in the general fund of the City and thereafter used for any lawful purpose.

(g) The Harbor Commission shall have authority to lease tide lands for such terms and upon such conditions as may be authorized by law; provided, however, that no lease of any tide lands within the jurisdiction of the City for a term longer than one year shall be valid unless said lease shall have been confirmed by the Council.

(h) Any municipal air ports now established or which may hereafter be established on the tide lands shall be under the control and supervision of the Harbor Commission until such time as the Council by Ordinance shall create a Department of Aviation under the Manager, at which time the Council may provide in such ordinance for the control, regulation and supervision of municipal air ports by the Department of Aviation.

(i) And all matters concerning the development of the harbor of San Diego in which the Planning Commission of the City of San Diego shall have an interest, and which relate to the planning and zoning of the City of San Diego shall be referred by the Harbor Commission to the Planning Commission for recommendation before final action is taken thereon. In the event of a disagreement between the Harbor Commission and the Planning Commission concerning such proposed development, the matter shall be referred to the Council, whose decision on such development shall be final."

This proposition is designated on the ballot hereinafter described as:

"PROPOSITION III. Amend Section 54 of Article V of the Charter of the City of San Diego. This amendment extends the annual appropriation of \$150,000 for the development of the harbor and tidelands of the City of San Diego until the fiscal year 1943-44."

PROPOSITION IV.

Amend Section 96 of Article VII of the City Charter, so as to read as follows:

"Section 96. PROGRESSIVE PAYMENTS. Any contract may provide for progressive payments if the ordinance or resolution authorizing the work so prescribes, but no progressive payment can be provided for or made at any time which, with prior payments, shall exceed in amount at that time ninety per cent of the value of the work done and materials used and no contract shall authorize or permit the payment of more than ninety per cent of the contract price before five days after the expiration period of filing liens, and the acceptance thereof by the Head of the Department concerned, and the Manager."

This proposition is designated on the ballot hereinafter described as:

"PROPOSITION IV. Amend Section 96 of Article VII of the Charter of the City of San Diego. This amendment permits progressive payments on city contracts up to 90% of the contract price, and provides that the balance shall not be payable until 5 days after expiration of period for filing liens and acceptance of the work."

Section 2. Said Special Election shall be held in The City of San Diego on Tuesday, the 23rd day of March, 1937, between the hours of six o'clock A.M. and seven o'clock P.M., during which period and between which hours the polls will remain open.

In addition to the directions which the General Laws of the State require to be printed on the ballot, it shall contain the following directions to the voters:

"To vote on any question or proposition, stamp a cross (X) in the voting square after the word 'Yes,' or after the word 'No.'"

Electors voting at said election shall indicate their choice on the proposition of incurring said bonded indebtedness by stamping a cross (X) in the voting square at the right of the word "Yes," or in the voting square at the right of the word "No." If an elector shall stamp a cross (X) in the voting square after the printed word "Yes," his vote shall be counted in favor of the adoption of the proposition; if he shall stamp a cross (X) after the printed word "No," his vote shall be counted against the adoption of the same.

In all particulars not recited in this ordinance, the ballot to be used at said election, as to its form, shall conform to the provisions of the General Laws of the State touching municipal elections in such municipalities as is The City of San Diego.

Section 5. For the purpose of said Special Election the election precincts of said City are hereby designated and determined to be those established by the Board of Supervisors of the County of San Diego for general state and county elections.

WHEREAS, by Section 130 of the Charter of the City of San Diego it is made mandatory upon the Council of the City at the beginning of each fiscal year by ordinance to establish a schedule of compensation for officers and employees in the Classified Service which shall provide uniform compensation for like service; NOW, THEREFORE,

- (2) The term "CLASS" means a group of positions established under this act sufficiently similar in respect to their duties and responsibilities that the same requirements as to education, experience, knowledge and ability should be demanded of incumbents, that the same tests of fitness may be used to choose qualified appointees, and that the same schedule of compensation is made to apply with equity under the same or substantially the same employment conditions.
- (3) The term "GRADE" means a subdivision of a service, including one or more classes of positions for which comparable basic qualifications and compensation are prescribed, the difference between grades being based upon differences in the importance, difficulty, responsibility and value of the work.

Seventh. All buildings erected by Lessees on said demised premises shall conform to all requirements of the Building Ordinance of the City of San Diego.

Eighth. Said Lessees agree that on the last day of said term, or other sooner termination of this lease, the said Lessees shall and will peaceably and quietly leave, surrender and yield up unto said City the said premises, in as good state and condition as the same are now in or may be put into, reasonable use and wear thereof and damage by the elements excepted.

Ninth. It is further agreed by and between the parties hereto that in case of the violation by the Lessees of any of the terms and conditions of this lease, the City may either terminate this lease upon notice and take possession of the premises, or may enter and possess the same as the agent of the Lessees and for its account.

It is understood and agreed by and between the parties hereto that this Lease shall not be assigned or transferred, nor shall the said Lessees have the right to sublet the leased premises, or any part thereof, without permission of the City Manager of the City of San Diego.

It is understood and agreed that a waiver by the Lessor of any default hereunder shall not be considered, nor held to be, a waiver of any subsequent or other default, and also that consent to the subletting of said premises or any part thereof, or to the assignment of this lease, shall not be construed or considered as a consent to any other or subsequent subletting or assignment.

IT IS HEREBY EXPRESSLY UNDERSTOOD AND AGREED that, anything herein to the contrary notwithstanding, the City shall have, and said City hereby reserves, the right to terminate this lease at any time and take possession of the said demised premises, and every part thereof; provided, however, that the City shall, as a condition to the exercise of said right of termination, give to the Lessees at least thirty days' notice of its intention so to do. Such notice may be served upon some person in charge of said demised premises, or may be posted on said demised premises; and said City shall pay to the Lessees a sum which shall be sufficient to compensate the Lessees for the damage which the Lessees may suffer by reason of the termination of said lease by the City, as above provided, prior to the expiration of the term as herein fixed. If the City and the Lessees cannot agree upon the amount of such compensation, then it shall be determined by a board of arbitrators to consist of three members, one of whom shall be chosen by the City and one by the Lessees, and the two so chosen shall select a third. A decision of the majority shall be binding upon the parties hereto.

And it is further agreed that in the event this lease is cancelled, as herein provided, or upon the termination of the terms of the lease, as herein provided, that the Lessees hereby agree to furnish the City with a good and sufficient quitclaim deed to all premises described herein.

IN WITNESS WHEREOF, this lease is executed by the City of San Diego, acting by and through the City Manager of said City, and said Lessees have hereunto subscribed their names, the day and year first hereinabove written.

O R D I N A N C E NO. 1235 NEW SERIES
AN ORDINANCE PRESCRIBING A FORM FOR PETITIONS REQUESTING THE
LEGISLATIVE BODY OF THE CITY OF SAN DIEGO TO CALL AN ELECTION
TO VOTE UPON THE QUESTION OF CHOOSING FREEHOLDERS TO FRAME A
CHARTER PROVIDING FOR THE FORMATION OF A CONSOLIDATED CITY AND
COUNTY TO BE GOVERNED BY SUCH CHARTER.

WHEREAS, Section 8 of Article XI of the Constitution of the State of California provides in part as follows:

"Any city or city and county containing a population of more than three thousand five hundred inhabitants, as ascertained by the last preceding census taken under the authority of the congress of the United States or of the Legislature of California, may frame a charter for its own government, consistent with and subject to this constitution; and any city, or city and county having adopted a charter may adopt a new one. Any such charter shall be framed by a board of fifteen freeholders chosen by the election of such city at any general or special election, but no person shall be eligible as a candidate for such board unless he shall have been, for the five years next preceding, an elector of said city or city and county. An election for choosing freeholders may be called by a two-thirds vote of the legislative body of such city, or city and county, and on presentation of a petition signed by not less than fifteen per cent of the registered electors of such city, or city and county, the legislative body shall call such election at any time not less than thirty nor more than sixty days from the date of the filing of the petition. At such election the electors shall vote first on the question: 'Shall a board of freeholders be elected to frame a proposed new charter?' and, secondly, for the candidates of the office of freeholder. If the first question receives a majority of votes of the qualified voters voting thereon at such election, the fifteen candidates for the office of freeholder receiving the highest number of votes shall forthwith organize as a board of freeholders, but if the first question receives less than a majority of the votes of the qualified voters voting thereon at such election no board of freeholders shall be deemed to have been elected."

and,
WHEREAS, Section 8-1/2 of Article XI of the Constitution of the State of California provides in part as follows:

"5. It shall be competent in any charter or amendment thereof, which shall hereafter be framed under the authority given by section eight of this article, by any city having a population in excess of fifty thousand ascertained as prescribed by said section eight, to provide for the separation of said city from the county of which it has theretofore been a part and the formation of said city into a consolidated city and county to be governed by such charter, and to have combined powers of a city and county, as provided in this Constitution for consolidated city and county government, and further to prescribe in said charter the date for the beginning of the official existence of said consolidated city and county.

It shall also be competent for any such city, not having already consolidated as a city and county to hereafter frame, in the manner prescribed in section eight of this article, a charter providing for a city and county government, in which charter there shall be prescribed territorial boundaries which may include contiguous territory not included in such city, which territory, however, must be included in the county within which such city is located."

and,
WHEREAS, said constitution does not provide the form of the aforesaid petition; and the present charter of the City of San Diego is likewise silent in said respect; and

WHEREAS, pursuant to said constitution and the charter of the City of San Diego, the legislative body of such city has authority to provide means for carrying into effect the powers granted to the city under the constitution and laws of the State; and in order to make effective the powers granted by the above quoted portions of Article XI of the Constitution, it is deemed necessary that this Council prescribe a form of petition to be used in the event any such petition is presented to the registered electors of this City, as in said article provided; NOW, THEREFORE,

BE IT ORDAINED by the Council of the City of San Diego, as follows:

AN ORDINANCE OF THE CITY OF SAN DIEGO, TO PROVIDE FOR THE MAINTENANCE OF LIGHTING SYSTEMS ALONG PUBLIC STREETS, ALLEYS AND OTHER PUBLIC PLACES; AND FOR THE LIGHTING THEREOF BY ELECTRIC CURRENT; AND FOR THE ASSESSMENT OF THE COSTS AND EXPENSES THEREOF UPON THE PROPERTY BENEFITED AND THE MANNER OF COLLECTING SUCH ASSESSMENT.

BE IT ORDAINED by the Council of the City of San Diego, as follows:

Section 1. Whenever the public interest or convenience may require, the Council of the City of San Diego, acting under the authority conferred upon it by the City Charter, shall have full power and authority to order any street lighting system, systems and/or appliances, including poles, posts, electroliers, transformers, lighting units, lamps, cables, wires, pipes, conduits and/or other suitable or necessary works or appliances for street lighting purposes, or any part thereof, to be maintained in or along the public streets, alleys or other public places in said City, and/or to order electric current to be furnished thereto; and to determine and declare the district to be benefited by such improvement, and to assess, either partly or wholly, the costs and expenses (including all incidental expenses) of such improvement, or any one or more of the items thereof, upon the lands in said district, all in the manner and under the proceedings hereinafter provided.

The provisions of this ordinance shall not be limited to the maintenance of street lighting systems or appliances owned only by the City, and/or to furnishing electric current for lighting systems so owned, but such improvement may be made with and by means of such systems or appliances provided and installed by, and remaining the property of the public utility, public corporation, or other party with whom any contract now or hereafter may be entered into for such maintenance and such furnishing of electric current.

Section 2. Before ordering any improvement to be made which is authorized by Section One of this Ordinance, the City Council shall adopt a resolution declaring its intention so to do, briefly describing the proposed improvements and designating said district by describing the exterior boundaries thereof to be benefited by said improvements and to be assessed to pay the costs and expenses thereof, and to be known as the assessment district; provided, however, no resolution of intention shall be passed under the provisions of this ordinance if there are outstanding delinquent street lighting liens in an amount in excess of ten percent of the full amount assessed against the district for the previous assessment proceeding. The City Council may, in its discretion, order in said resolution of intention that a certain portion or percentage of the costs and expenses of said improvement, the amount of which portion or percentage shall be specified in said resolution, shall be paid out of the treasury of such municipality from such fund as the City Council may designate. The City Council shall, in said resolution of intention, provide that the maintenance of said appliances and the furnishing of said electric current shall be for a period stated in said resolution of intention, but not exceeding two years. The City Council shall also in the same resolution refer to the proposed improvement to the board, commission or officer of the City having charge and control of the construction of public improvements of the kind described in such resolution, or to the City Engineer, or to such other board or officer of the City, or competent person employed by the City for such purpose, as the Council may name in said resolution; and direct such board, commission, officer or person to make and file with the City Clerk a report in writing, presenting the following:

(a) Plans and specifications of the proposed improvement.

(b) An estimate of the cost of said improvement, for the period of time specified in the resolution of intention.

(c) A diagram showing the assessment district above referred to and also the boundaries and dimensions of the respective subdivisions of land within said district as the same existed at the time of the passage of the resolution of intention, each of which subdivisions shall be given a separate number in red ink upon said diagram. The said diagram shall govern for all details as to the extent of said assessment district.

(d) A proposed assessment of the total amount of the costs and expenses of the proposed improvement upon the several subdivisions of land in said district in proportion to the estimated benefits to be received by such subdivisions, respectively, from said improvements; provided, that whenever any portion or percentage of the costs and expenses of such improvement is ordered to be paid out of the treasury of the municipality, as hereinbefore provided, the amount of such proportion or percentage shall first be deducted from the total estimated cost and expense of such improvement, and the assessment upon property, proposed in said report, shall include only the remainder of said estimated costs and expenses. Said assessment shall refer to such subdivisions upon said diagram by the respective red ink numbers thereon and it shall show the names of the owners, if known, otherwise designating them as unknown. No mistakes in the name of the owner of any parcel of land shall affect the validity of the assessment thereon.

Section 3. Upon the filing of the report as provided in Section 2 of this ordinance, the City Clerk shall present the same to the City Council for consideration, and said Council may modify the same in any respect and in case of any such modification the report, as modified, shall stand as the report for the purpose of subsequent proceedings. Thereafter, the City Council, by resolution, shall appoint a time and place for hearing protests in relation to the proposed improvement, which time shall be not less than twenty days from the date of the passage of said resolution, and shall direct the City Clerk to give notice of said hearing in the manner hereinafter provided.

Section 4. After the passage of the resolution of intention the City Clerk shall cause to be conspicuously posted along all streets and parts of streets or other public places where said improvement is proposed to be made, at not more than three hundred feet apart, but not less than three in all, notices of the passage of said resolution. Said notice shall be headed: "Notice of Local Improvement", in letters of not less than one inch in length; and shall, in legible characters state the fact and date of the passage of the resolution of intention, and of the filing of said report, and the date fixed for the hearing of protests and briefly describe the improvement proposed to be made, and refer to said resolution and report for further particulars. He shall also cause a notice similar in substance to be published by two successive insertions in a daily or weekly newspaper published and circulated in said municipality and designated by said Council for that purpose. Said notices must be posted and published as above provided, at least ten days before the date set for the hearing of said protests.

Section 5. Any person interested, objecting to the proposed improvement or to the assessment therefor, may file a written protest stating his objections thereto, with the City Clerk at or before the time set for the hearing provided in Section 3 hereof. The City Clerk shall endorse on every such protest the date of its reception by him, and at the time appointed for the hearing as above provided, shall present to said City Council all protests so filed. The City Council shall hear and consider said protests, at the time appointed therefor, as above provided, or at any time to which the hearings thereof may be adjourned, and pass upon the same, and may confirm, modify or correct said proposed assessment, and its decision shall be final and conclusive, and if such protests are sustained the proceedings shall be abandoned, but may be renewed at any time; and if such protests are denied the proposed assessment shall be confirmed, and the City Council shall be deemed to have acquired jurisdiction to further proceed in accordance with the provisions of this ordinance. When, upon the hearing, said proposed assessment is confirmed, modified or corrected, or in case no protests are filed, the report provided for in Section 2 hereof shall be adopted as a whole, with any modifications or corrections that have been made therein, and the City Council shall, by resolution declare its action upon said report and assessment, and order said proposed improvement to be made.

Section 6. The validity of an assessment levied under this ordinance shall not be contested in any action or proceeding unless the same is commenced within thirty days after the time said assessment is levied.

Section 7. Upon the passage of the resolution provided for in Section 5 hereof, the City Clerk shall transmit to the City Treasurer the diagram and assessment provided for in Section 2 hereof and any modifications or corrections thereof made by said City Council.

Section 8. Upon receipt of the diagram and assessment referred to in the last preceding section, the City Treasurer shall record the same in a substantial book, to be kept for that purpose, in his office, and shall thereupon fix a day not less than thirty, nor more than forty, days from the date of the receipt by him of said diagram and assessment after which all assessments unpaid shall become delinquent, and five percent shall be added to the amount thereof, and shall also fix a day for the sale of the various parcels of land upon which the assessments are unpaid, which said date shall be not less than sixty days, nor more than seventy, from the date of the receipt by him of said diagram and assessment.

Section 9. The City Treasurer shall within fifteen days after the date of such delinquency begin the publication of a notice of sale of the property upon which the assessments have not been paid, which publication must be made by two insertions in a daily newspaper published and circulated in the City of San Diego. The description of the various parcels of land need not be set out at length, but may be designated in such notice by the respective numbers of same as they appear upon the assessment and diagram, which shall be properly referred to therein. Opposite the description or designation of each parcel of land shall be set out in such notice the name of the owner as stated in the assessment, the amount assessed against the same, the penalty for delinquency, and its portion of the costs of the sale. At any time after such delinquency, and prior to the sale of any parcels of land assessed and delinquent, any person may pay the assessment thereof, together with the penalties and costs due thereon, including the cost of advertising, if such payment is made after the first publication of the notice of sale. At the time and place fixed therefor, the City Treasurer shall proceed with such sale, commencing at the head of the list of lands contained in such notice, and continuing in the numerical order thereof until all the property is sold; provided, that he may postpone or continue the sale from day to day until the sale is completed. The City Treasurer shall sell separately each parcel of land in such notice, or so much thereof as shall be necessary to realize the amount assessed against the same, together with the penalties and costs as aforesaid, and fifty cents (\$0.50) for a certificate of sale. In case there is no other purchaser, the same shall be struck off to the City as purchaser, or the City may bid thereon in the interests of the property owners, to the exclusion of all other bidders.

Section 10. The City Treasurer shall issue for each parcel an original and duplicate certificate of sale, referring to the proceedings, describing the parcel sold, and giving the name of the purchaser and the amount for which said parcel was sold. The original certificate shall be delivered to the purchaser and the duplicate shall be kept on file in his office, in the form of a stub in the certificate book. When the City is the purchaser

er, said certificate shall be filed with the City Auditor and Comptroller.

Section 11. At any time after the date of sale and prior to the issuance and delivery of a deed to said property, as provided for in Section 12 of this ordinance, any property sold under the provisions of this ordinance may be redeemed by the payment to the City Treasurer of the amount for which the property was sold, with an additional penalty of one-half of one percent per month, until paid, of said amount of sale, together with such other penalties as may be payable, as provided for in Section 12 of this ordinance. Said one-half of one per cent penalties shall be added on the first day of each month following the date of sale of said property. Money paid in on such redemptions shall be paid by the City Treasurer to the person holding the original certificate of sale, upon his surrendering the same and upon giving a receipt for the amount received from the City Treasurer therefor. Upon redemption of any parcel of land the City Treasurer shall enter the fact and date of redemption upon the original and upon the duplicate certificate of sale therefor.

Section 12. At any time after the expiration of eighteen months from the date of sale, the City Treasurer must execute to the purchaser, or his assignee, on his application if such purchaser has complied with the provisions of this section, a deed of the property sold, in which shall be recited substantially the matters contained in the certificate, also any assignment thereof, and the fact that no person has redeemed the property. The City Treasurer shall receive from the applicant one dollar (\$1.00) for making such deed, unless the City is the purchaser, in which case no charge shall be made therefor. The purchaser or his assignee must, at least thirty days before he applies for a deed, serve upon the owner of the property and upon the occupant of such property, if the same is occupied, a written notice setting forth a description of the property, stating that said property has been sold for a delinquent assessment; specifying the improvement for which the same was made, the amount for which the delinquent property was sold, the amount necessary to redeem at the time of giving notice, and the time when such purchaser or his assignee will apply to the City Treasurer for a deed. If said owner cannot be found, after due diligence, said notice must be posted in a conspicuous place upon said property at least thirty days before the time stated therein at which the application for a deed will be made. The person applying for a deed must file with the City Treasurer an affidavit or affidavits showing that notice of such application has been given or posted as herein required, and if the notice was not personally served on the owner of the property, that due diligence was used to find said owner before such posting; and such affidavit or affidavits must be filed in the office of the City Treasurer. If redemption of the property is made after affidavits are filed, the person making such redemption must pay, in addition to the other amounts required, two dollars (\$2.00) for the service of notice and the making of such affidavits, which amount shall be paid over to the purchaser or his assignee in the same manner as other sums paid for redemption. No deed for any property sold for delinquent assessment shall be made until the purchaser or his assignee has complied with all the provisions of this section and filed the proper affidavits with the City Treasurer.

Section 13. The deed of the City Treasurer shall be prima facie evidence of the truth of all matters recited therein, and of the regularity of all proceedings prior to the execution thereof, and of the title in the grantee.

Section 14. The funds collected by the City Treasurer under the proceedings herein provided for, either upon voluntary payment or as the result of sales, shall be placed by the City Treasurer in a special fund designated by the name of the improvement proceeding, and payment shall be made out of said special fund only for the purposes provided for in this ordinance. To expedite the making of any such improvement, the City Council may at any time transfer into said special fund, out of any money in the General Fund, such sums as it may deem necessary, and the sums so transferred shall be deemed a loan to such special fund and shall be repaid out of the proceeds of the assessments provided for in this ordinance.

Section 15. At any time after the confirmation of the assessment the City Council may let the contract or contracts for such improvement. Every such contract shall be let to the lowest responsible bidder after notice published by two insertions in a daily newspaper published and circulated in the City of San Diego. Every bid shall be accompanied by a certified check amounting to ten percent of the bid, payable to the order of the City Clerk, and the same shall be forfeited to the City in case the bidder depositing the same does not, within fifteen days after the notice that the contract has been awarded to him, enter into a contract with the City for the work, the faithful performance of which shall be secured by an undertaking in such sums as the City Council shall require, with sureties satisfactory to said City Council. The contract must provide that the improvement shall comply, and the improvement must comply strictly, with the plans and specifications contained in the report provided for in this ordinance.

Performance of any contract hereunder shall be under the supervision of the City Engineer and no work, material or supplies shall be paid for until it has been accepted by said City Engineer.

If the contractor abandons the improvement or fails to proceed with the same as rapidly or in the manner as required by his contract, the City Council may relet the work in the same manner as in the case of the first letting thereof, and retain the amount of the cost of the same and of any expense incidental to the reletting out of any funds due or to become due to the original contractor, and also hold him and his sureties responsible for such cost and expense, and for any damages resulting from such abandonment or failure upon his bond; provided, however, that the City Council in its discretion, at any time within ten days after the award of any contract as above provided, or at any time within ten days after the time fixed for the opening of the bids, if no bids have been received, order by resolution adopted by a majority vote of all its members, that the said proposed contract be not made, and the municipality itself execute the work embraced therein, in accordance with the plans and specifications adopted for such work, and employ the labor and provide the material, appliances, supplies and/or electric current necessary therefor; and the cost and expenses of such work shall be paid out of the aforesaid funds; and provided further, that the amount appropriated and used from said funds for said purpose shall not exceed the amount of the bid upon which the award of contract aforesaid was made, or if no bids have been received and the work is to be executed by the City itself, as herein provided, such cost and expense shall not exceed the amount of the estimate thereof provided for in Section 2 of this ordinance, and if such cost and expense shall exceed the amount of said bid, or of said estimate in case no bids are received, then such excess shall be met out of any moneys in the general fund in the City Treasury.

Section 16. If at any time an assessment for any such improvement shall realize a larger sum than is necessary therefor, the excess shall be refunded pro rata to the parties by whom it was paid.

Section 17. Every special assessment levied under this ordinance shall, from the date of the levy thereof, be a lien upon the land upon which it is levied paramount to all other liens, except prior assessments and taxation, and such lien shall continue until such special assessment is paid, or until the property is sold and a deed is made therefor to the purchaser, as hereinbefore provided, and all parties shall have constructive notice of such lien from the date of the passage of the resolution referred to in Section 5 hereof.

Section 18, The City Council hereby declares that it is its intention in adopting this procedural ordinance to exercise and make use of the power and authority granted and conferred upon it by the City Charter, and declares that this procedure shall be additional or alternative to any procedure established by state law. The election of the City Council to proceed under the provisions of this ordinance shall be expressed in the resolution of intention of the improvement to be made.

Section 19. The City Council may, at any time prior to the awarding of the contract for the improvement herein provided, by resolution abandon such proceedings and upon such abandonment all money collected for such improvement shall be repaid to the several parties paying the same.

Section 20. The provisions of this ordinance shall be liberally construed to promote the objects thereof. If any sections, sentence, clause or phrase of this ordinance is for any reason held to be unconstitutional, void or invalid, the validity of the remaining portions of this ordinance shall not be affected thereby, it being the intent of the City Council of the City of San Diego, in adopting and approving this ordinance, that no portion thereof nor provisions contained therein shall become inoperative or fail by reason of any unconstitutionality or invalidity of any other portion or provisions.

Section 21. The words "work" or "improvement" as used herein shall include any work, services, supplies, material, fixtures, apparatus, works or improvement authorized to be done, placed, serviced, repaired, maintained, altered, supplied or purchased under the provisions of Section One hereof.

The word "occupant" as used herein shall include any and all persons holding any estate or interest in real property less than the fee thereof and in physical occupation of any lot, piece or parcel of land.

Section 22. This procedural ordinance may be designated and indicated for all purposes by the title of "Lighting District Ordinance of 1938,"

Section 23. This ordinance shall take effect and be in force on the thirty-first day from and after its passage.
