ORDINANCE NO. 2786 (New Series)  
AN ORDINANCE PROVIDING FOR THE EXTENSION OF WATER MAINS AT THE EXPENSE OF APPLICANTS THEREFOR, AND PROVIDING FOR THE REFUND TO SUCH APPLICANTS OF A PROPORTIONATE SHARE OF THE COST TO BE PAID BY SUBSEQUENT APPLICANTS FOR SERVICE CONNECTIONS TO SUCH MAINS.

BE IT ORDAINED, By the Council of The City of San Diego, as follows:

Section 1. DEFINITIONS. The meaning of various terms as used in this ordinance shall be as follows:

"CITY" shall mean: The City of San Diego;

"MANAGER" shall mean: The City Manager of The City of San Diego or his duly authorized representatives;

"DEPARTMENT" shall mean: The Water Department, Division of Distribution of The City of San Diego;

"APPLICANT" shall mean: A person, firm or corporation who applies for water service;

"EXTENSION" shall mean: A water main extension; and

"MAIN" shall mean: An existing water main in the water distribution system of The City of San Diego.

Section 2. When an application is made for water service in which it is necessary to make a water main extension to provide such water service, the extension shall be made at the expense of the applicant as hereinafter provided.

The required extension shall originate at the nearest adequate existing water main, consistent with distribution system efficiency and operation, as determined by the Manager, and shall extend to and full length along the property to be provided with water service.

Section 3. The design, location, materials and standards of construction of any and all extensions shall be approved by the Manager.

(a) The design of an extension shall be based upon considerations of adequate capacity to meet the present and future requirements of the area to be benefitted, of distribution system operation and efficiency, of maintenance requirements, and of anticipated life of such extension.

(b) Extensions shall be located on the south and east sides of dedicated City streets or on rights-of-way granted to The City of San Diego for water main location, except that if such locations are unavailable or if in the interests of operation, efficiency, or maintenance of the distribution system, the Manager may designate some other location. Under no circumstances shall any structure be placed over or around any water main or extension, unless provision is made for ready and easy access to any and all parts or points of such main or extension.

(c) Materials and standards of construction shall be those which have been adopted and are used by the Department for the area and class of service to be provided.

Section 4. As provided in Section 1, the cost of an extension shall be borne by the applicant requiring such extension, in conformity with the following provisions:

(a) Upon receipt of an application for water service which requires an extension, when such application is properly filled out and provides an accurate description of the property to be served, the Manager shall cause the Department to prepare a map showing the area to be benefitted by such extension and to make an estimate of cost of installation of the proposed extension. The applicant shall then deposit a sum of money equal to this estimated cost, with the City. Following receipt of such deposit, the Manager shall cause the proposed extension to be constructed. Or, upon approval of the Manager and subject to specifications of and inspection by the Department, the proposed extension may be installed by private contract at the applicant's sole expense with no refund provisions applicable thereto. Upon completion of an extension which has been provided for by a deposit with the City, the actual cost of making such extension shall be determined. This actual cost shall be divided by the number of square feet in the area benefitted by such extension, as determined by the Manager, and the resulting unit cost per square foot thus determined shall be the basis for making refunds to the applicant who made the deposit, and for determining the water main construction charges to be made for future service connections to the extension. In event the applicant's deposit for estimated costs of installation of an extension exceeds the actual cost of such installation, the excess shall be refunded to the applicant, and in the event the deposit is less than the actual cost of installation, the applicant shall be liable to the City for such deficiency.

(b) Where extensions are hereafter installed at no expense to the City, either from its General Fund, Water Department funds or bond funds, the water main construction charges received by the City for subsequent service connections to the extension, for a period of ten (10) years following the date of completion of the extension, shall be refunded to the person who paid for such extension or to his successors or assigns as hereinafter provided. After the expiration of the ten-year period, any amount left from the original deposit or any water main construction charges subsequently received, becomes the sole property of the City.

A water main construction charge for each and every service connection to an extension installed under the provisions of this ordinance shall be paid before such service connection is made. The water main construction charge is separate from and is in addition to the service connection charge required by any other ordinance of the City. The service connection charges as defined above are not refundable. Water construction charges shall be determined by multiplying the number of square feet of ground area to be benefitted by such service connection by the unit cost per square foot as defined above. Any property lying within the area to be benefitted by the extension, as determined in part (a) of this section, shall pay a water main construction charge as determined above before water service will be supplied such property. Water service shall be discontinued immediately when found to be supplied to any property within or without the area benefitted if the water main construction charge for service to that property has not been paid.

(c) The cost of installing a water main extension less than six inches in diameter shall be borne entirely by the applicant and there shall be no refund provisions for future service connections to such an extension.

(d) The cost of making an extension larger than six inches in diameter, when such larger diameter extension is recommended by the Manager, shall be provided for as follows: The estimated cost of a six-inch water main shall be provided for by a deposit made by the applicant and the difference in cost between a six-inch water main and the larger diameter actually installed shall be borne by the City, except as provided in Section 5. Subsequent water main construction costs shall be based on the estimated cost for a six-inch main, and the refunds to the applicant who made the deposits as hereinbefore provided shall be upon such basis.

Section 5. All subdivisions shall have a complete water distribution system installed before such subdivisions are accepted by the City. The design and construction of such a water distribution system shall be approved by the Manager before such system is installed. The subdivider shall install the water distribution system at his own expense for all water mains which are eight inches in diameter or less. In case a larger diameter than eight inches is recommended by the Manager, the City will pay the difference in cost between an eight-inch diameter main and the larger diameter main actually installed.

Section 6. Before any city street is paved with a permanent type of pavement, a six-inch water main shall be installed in that street. The cost of installation of such a water main shall be borne by the property to be benefitted by the water main.

Section 7. This ordinance shall take effect and be in force on the thirty-first day from and after its passage.

ORDINANCE NO. 2830 (New Series)

AN ORDINANCE REGULATING THE MAKING OF EXCAVATIONS OTHER THAN IN PUBLIC STREETS, PROVIDING FOR THE ISSUANCE OF PERMITS TO EXCAVATE, FOR INVESTIGATION OF PROPOSED EXCAVATIONS, AND FOR PRESCRIBING THE CONDITIONS UNDER WHICH EXCAVATIONS MAY BE MADE, AND PROVIDING PENALTIES FOR THE VIOLATIONS HEREOF.

BE IT ORDAINED By the Council of The City of San Diego, as follows:

Section 1. EXCAVATIONS FOR WHICH A PERMIT IS REQUIRED. It shall be unlawful for any person to make, or cause or permit to be made, any excavation in or under the surface of any land, public or private, in The City of San Diego, without first obtaining a permit so to do, in the manner hereinafter provided, or in violation of any of the terms or conditions of such permit; provided, however, that no permit shall be required for excavations for the foundation or basement of any building for which a building permit has been issued, or for grading in subdivisions according to plans which have been approved by the City Council, or for excavations by any public utility for the installation, operation, inspection, repair or replacement of any of its facilities, or for the grading of any parcel of land where no cut bank is left standing more than four (4) feet in height and the excavated material is not removed from the land from which it is excavated.

Section 2. PROCEDURE ON APPLICATION FOR PERMIT. The application for the permit referred to in Section 1 hereof shall be filed with the City Clerk in quadruplicate, the

original being verified. The application shall set forth the following information:

(a) A full identification, and the residence and business address of the applicant and the owner or owners of the land on which the excavation is proposed to be made, including all members of any firm or partnership and all officers and directors of any corporation applying; if the applicant is the agent or employee of any person for whose benefit the permit is asked, this fact, with a full identification of such person and his business and residence address, shall be stated in the application.

(b) A complete description and location of the property on which the excavation is to be made.

(c) The exact nature of the proposed excavation and material to be removed, and an estimate of the approximate number of cubic yards to be removed.

(d) A statement of the manner in which it is proposed to excavate and remove the excavated materials, including the slope of the sides and the level of the floor, the kind of equipment proposed to be used in making such excavation and removing such materials, and whether the material is to be removed for sale or for delivery at some other place in fulfillment of an agreement to provide filling material at such other place.

(e) The time within which such excavation is to be commenced after the granting of such permit, and the time when it is expected to be completed.

Section 3. PAYMENT OF FEES. At the time of filing the application the applicant shall pay a filing fee of Twenty-five Dollars (\$25.00) to cover the cost of the City's investigation of said application. At the time said application is granted, the applicant shall pay an additional fee to cover the expense of inspection and examination of the progress of the excavation at the rate of One Dollar (\$1.00) for each 1,000 cubic yards, or fraction thereof, of material which the permit authorizes the applicant to remove from the proposed excavation. All fees shall be paid to the City Treasurer. When the excavation is to be made by the United States, the State of California, the County of San Diego, or any agency of either, no fees of any kind shall be required.

Section 4. INVESTIGATION AND RECOMMENDATION. Immediately upon the filing of an application for a permit to excavate, one copy of such application shall be delivered to the City Manager, one copy to the Superintendent of Streets, and one copy to the Planning Engineer. The Superintendent of Streets and the Planning Engineer shall each make an investigation of the facts alleged in the application, and shall each make a written report of their investigations, together with their recommendations, to the City Manager. Such reports shall be made within ten (10) days from the date of filing of such application.

Section 5. CONSIDERATION BY THE CITY MANAGER. The City Manager, in granting in whole or in part, or in granting on conditions expressed in the permit, or in denying any application for a permit to excavate, shall take into consideration the character of the applicant as respects honesty and integrity, his experience in the matters to which the permit appertains, his financial responsibility, and all pertinent matters concerning the proposed excavation which may affect the public health, safety and general welfare in the district in which the excavation is proposed to be made, and shall exercise a reasonable and sound discretion in the premises. The application shall be denied if it shall appear to the City Manager from the investigation that such excavation would remove the lateral and subjacent support of the adjacent land, and would result in a dangerous topographic condition, or result in seepage or slides, or would create or increase an attractive nuisance dangerous to public safety, or would otherwise in any manner endanger the public health or safety or be detrimental to the public welfare, despite all precautions which the applicant is willing, ready and able to take.

Section 6. BOND AND CERTIFICATE OF INSURANCE. The City Manager shall require, as a condition to the granting of any permit hereunder, that the applicant deposit with the City Clerk a surety bond, in an amount to be fixed by the City Manager not exceeding the sum of fifty thousand and no/100 Dollars (\$50,000.00), insuring to the benefit of The City of San Diego and of the general public, guaranteeing that the applicant will faithfully perform all of the conditions and requirements specified in the permit. Such surety bond shall be executed by sureties approved by the City Manager as being sufficient in number and in financial responsibility. The City Manager shall also require, as a condition to the granting of any such permit, that the applicant deposit with the City Clerk a certificate of a responsible insurance company, showing that the applicant is insured in an amount not less than a sum certain, to be fixed by the City Manager, not to exceed one hundred thousand and no/100 Dollars (\$100,000.00), against any loss or damage to persons or property arising directly or indirectly from the operations of the applicant or any person acting in his behalf in carrying on any operation connected directly or indirectly with the making of the excavation and/or the removal of the excavated materials for which such permit is issued. With the approval of the City Manager, the applicant may deposit such surety bond and/or certificate of insurance on an annual or continuing basis, to cover one or more permits for excavations in the same or different locations. When the excavation is to be made by the United States, the State of California, the County of San Diego, or any agency of either, no surety bond or certificate of insurance shall be required.

Section 7. PREVENTING COLLAPSE OF SIDES OF EXCAVATIONS. In order to minimize the danger of collapse of adjacent lands into the excavation, the City Manager shall specify in the permit the permissible angle of slope of the sides of the excavation. No side of such excavation may be made steeper at any point than the angle so specified in the permit, unless supported by a substantial, permanent retaining wall of sufficient strength to permanently support such side or sides of the excavation, and constructed in accordance with a permit so to do, as provided herein. Such retaining wall shall be of concrete, brick, stone, or other material not subject to deterioration, and shall extend the full height and length of each side of such excavation which is at any point made steeper in slope than the angle specified in the permit to excavate. If the applicant desires to cut any side of the excavation steeper than the angle specified in the permit to excavate, he shall so state in his original application or in a supplemental application, and shall file therewith, in quadruplicate, detailed plans and specifications for said retaining wall. One copy of said plans and specifications shall be forthwith delivered to the Building Inspector, who shall examine the same and shall promptly report to the City Manager whether the retaining wall, if built according to said plans and specifications, will satisfy the requirements of the Building Code ordinance of The City of San Diego and the requirements of this section. Upon the approval of such plans and specifications by the Building Inspector, and the issuance of a building permit therefor, the City Manager shall include in the permit to excavate, or in a supplemental permit to excavate, a provision allowing the sides of such excavation to be made steeper than the angle of slope specified therein, if supported by a retaining wall constructed according to said plans and specifications.

Section 8. OTHER CONDITIONS REQUIRED OF APPLICANT. Any person to whom a permit to excavate is issued shall also comply with the following requirements:

(a) The bottom of such excavation shall not be made lower than the level specified in such permit to excavate or in a supplemental permit to excavate.

(b) If, in the opinion of the City Manager, any such excavation will create or aggravate a dangerous condition if left open, such excavation shall be enclosed by a fence sufficiently high, tight and strong to eliminate such dangerous condition.

(c) Any rock, earth, or other material which may be dropped or deposited on any public street or place from any vehicle transporting such materials from any such excavation shall be immediately removed in a manner and to an extent satisfactory to the Superin-

tendent of Streets, at the expense of the person to whom the permit to excavate was issued.

Section 9. REVOCATION OR SUSPENSION OF PERMIT. Any permit granted hereunder may be revoked or suspended by the City Manager, as in his discretion may seem reasonable and just, for any reason for which the issuance of such permit might lawfully be denied, or for any failure to comply with any of the terms of this ordinance or of such permit. Revocation of such permit shall be made only upon a hearing granted to the person to whom such permit was issued, held before the City Manager, after five (5) days' notice to the person to whom the permit was issued. Written notice, deposited in the United States mail, addressed to such person at his business or residence address as stated in his application for such permit, shall be sufficient notice. If, in the opinion of the City Manager, public health, safety or welfare requires it, the City Manager may suspend any permit granted hereunder, pending the hearing for the revocation or such permit. Such revocation or suspension shall be in addition to any other penalties provided in this ordinance.

Section 10. EXPIRATION OF PERMITS; ISSUANCE OF SUPPLEMENTAL PERMITS. In the event that any excavation for which a permit has been granted hereunder is not commenced within six (6) months from the date of issuance of said permit, or in the event that work on said excavation is at any time abandoned for a period of six (6) consecutive months, said permit shall automatically expire, without notice, and no further excavation shall be made; however, the conditions expressed in said permit shall remain binding upon the person to whom such permit was issued, and all legal and equitable remedies shall be available against him for any breach thereof. When the amount of material excavated equals the number of cubic yards which said permit authorizes to be excavated, no further excavation may be made until a new or a supplemental permit to excavate has been issued. In either event, an application for a supplemental permit to continue or enlarge the excavation may be filed, setting forth all the information required in the original application; no further filing fee shall be required, but if such supplemental permit is issued, the applicant shall pay an additional inspection fee of One Dollar (\$1.00) per thousand cubic yards of material which such supplemental permit may authorize him to excavate. The City Manager may dispense with any further investigation or hearing, if, in his opinion, the information furnished him by the original investigation (and hearing, if any) is sufficient to enable him to determine whether the supplemental permit should be issued, and upon what conditions, if any.

Section 11. PERMIT DOES NOT EXCUSE COMPLIANCE WITH OTHER ORDINANCES. Nothing in this ordinance, or in any permit granted hereunder, shall be deemed to authorize the doing or the omission of any act contrary to any term or provision of any other ordinance of this City, or without any license or permit required by any other ordinance of this City.

Section 12. DEFINITIONS. The term "person," as used in this ordinance, shall include natural persons, corporations, partnerships, and all associations of persons of every kind. The singular includes the plural and the plural the singular.

Section 13. PENALTIES. Any person who shall violate any term or provision of this ordinance shall be guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine not to exceed Five Hundred Dollars (\$500.00), or by imprisonment not more than six (6) months, or by both such fine and imprisonment. Nothing herein contained shall be construed to limit the power of The City of San Diego to use all other legal or equitable remedies against any person who shall violate any term or provision of this ordinance.

Section 14. SEVERABILITY. If any section, subsection, sentence, clause or phrase of this ordinance is for any reason held to be invalid as to any person or under any circumstances, by the decision of any court of competent jurisdiction, such decision shall not affect the validity of any of the remaining portions of this ordinance. The Council of The City of San Diego hereby declares that it would have adopted this ordinance, and each section, subsection, sentence, clause and phrase thereof, irrespective of the fact that any one or more of the sections, subsections, sentences, clauses or phrases thereof may be adjudged to be invalid or unconstitutional.

Section 15. EFFECTIVE DATE. This ordinance shall take effect and be in force on the thirty-first day from and after its passage.

Section 3. Except as otherwise provided in the Charter of The City of San Diego, and upon the recommendation of the head of the department, or appointing authority, and the approval of the Civil Service Commission, increase in salary, if sufficient funds are available, may be made in all positions included within any of the "Standard Rates" numbered 1 to 30, inclusive, as follows: For each six months of continuous service in a position, the increase in salary for such position, unless otherwise provided, may be approximately five per cent (5%) of the basic entrance salary rate per month prescribed for the position, class or grade in which such employee is classified; provided, however, that not more than five (5) such seniority increases may be allowed in the same position, except where more than five (5) such seniority increases are required to reach the maximum compensation established for such position; provided, further, that increases in compensation within the limits provided for by any grade may be granted at any time by the City Manager, or other appointing authority, upon the basis of efficiency and seniority record after having first received the approval of the Civil Service Commission therefor.

Section 4. By reason of the fact that certain positions connected with the municipal service require special technical or part-time service, or can be filled efficiently only by certain persons who may also be employed partially outside the city service, and for which it is therefore impossible or impracticable to establish in advance a definite rate of compensation, the following positions are hereby declared to be of a contractual character, and compensation for the performance of the duties thereof shall from time to time be fixed by contract between the City and the person or persons performing the service:

Archaeologist Docent  
Bacteriologist  
Chief Curator  
Curator (San Diego Museum, Serra Museum, or  
Natural History Museum)  
Director, San Diego Museum  
District Water Bills Collector  
Organ Tuner  
Organist, Balboa Park.

Section 5. Whenever the duties of a position are of such a character as to require the employee holding the same to work regularly a number of hours per week in excess of the hours customarily worked by other city employees, upon the recommendation of the department head, or appointing authority, such employee may be paid at the next Standard Rate above the rate for the class in which such position is found, as herein provided.

Section 6. That Ordinance No. 2674 (New Series) of the ordinances of The City of San Diego, adopted on the 1st day of June, 1943, be, and the same is hereby repealed.

The Zoning Committee shall be composed of three members and an alternate, who shall act in place and stead of an absent member. The members and alternate shall be appointed

by the Chairman of the Planning Commission from the membership of such Commission. The members and alternate of the Zoning Committee shall serve for one year or until their successors are appointed.

The Zoning Committee shall meet regularly at least once a month and oftener if necessary for the transaction of business. It shall elect its own officers, establish its own rules, and keep a record of its actions and render an annual report to the City Council and the City Planning Commission.

The zoning committee is authorized to grant variances and adjustments to regulations only to overcome practical difficulties and prevent unnecessary hardships in the application of the regulations. It shall have the power to do the following:

- (1) To reduce the amount of front yard required by setback ordinances;
- (2) To reduce the amount of setback required for future street widening where the property owner applying for the reduction signs an agreement with the City to remove any proposed building at his own expense when so requested by the City for Street widening;

- (4) To increase the maximum percentage of lot coverage permitted by ordinance;

- (9) To grant conditional variances for the excavation for sand, gravel or soil in undeveloped areas or where such excavation is part of an approved construction project, and to permit the filling of low lands and canyons with approved filling materials;
- (10) To permit boarding and lodging houses under conditional and revocable variances in residence (R) zones;
- (11) To permit more than one house on large lots in restricted zones where the lot area devoted to each proposed dwelling will meet the City's minimum requirements and comply with the standards already established in the area; and to permit residences to be constructed on lots or parcels of land fronting on an adequate easement that will provide ample ingress and egress to a dedicated street and/or to permit the construction of residences on lots or parcels of land with frontages that do not comply with the minimum standards of this ordinance;
- (12) To permit in connection with an authorized use in "R" residential or "C" commercial zone districts, such commercial and manufacturing uses respectively as are purely accessory and incidental to such authorized use.
- (13) To permit on a lot immediately adjoining or across an alley from property in a less restrictive zone district, a building or use upon such conditions and safeguards as will tend to cause an effective transition from the less restrictive to the more restrictive zone district.
- (14) To permit the extension of an existing or proposed building or use which is in the proper zone district into a more restricted zone district immediately adjacent thereto, under such conditions as will protect and safeguard the more restricted zone district;
- (15) To permit in any "C" commercial or "M" manufacturing zone districts any use permitted in the next less restrictive zone provided such use, due to the limited nature of its operations or by adhering to proper requirements as to scale and methods of operation, installation of modern nuisance eliminating devices and equipment, design of building and other safeguards, which will be so conducted as to be no more objectionable than uses permitted in the zone in which the property involved is located;
- (16) To permit the installation of off street automobile parking lots or storage garages in "R" residential zones on property adjoining existing or proposed multiple dwelling or commercial development, under such conditions as will prevent injury to adjoining residential property.
- (17) To permit construction of buildings or the use of property where there are adjacent thereto, or in the immediate vicinity, buildings or uses which do not conform to the zone ordinance and which interfere with the proper development of the property in question;
- (18) To permit the extension of a non-conforming use or building, the re-establishment of a non-conforming use which has been abandoned, or the reconstruction of a non-conforming building which has been partially or totally destroyed by fire or other calamity, within one year;
- (19) To grant conditional variances or Resolutions of Property Use for auto courts or trailer camps;
- (20) To grant an extension of time to any conditional variance previously granted by the City Planning Commission and the City Council prior to the effective date of this ordinance, provided the variance is similar to a variance permitted to be granted by the zoning committee under authority of this ordinance;
- (21) To permit the construction of residences and/or accessory buildings on lots or parcels of land fronting on an adequate easement, where in the opinion of the Zoning Committee an adequate easement for permanent access has been provided for ample ingress and egress to a dedicated street and/or to permit the construction of residences on lots or parcels of land with frontages that do not comply with the minimum standards;
- (22) To grant authority to the Building Inspector to issue permits for the construction of fences to a greater height or of other classifications than is permitted under city ordinances."

Section 14. That Section 15 of said Ordinance No. 8924, as amended by Ordinance No. 2409, New Series, adopted April 7, 1942, be, and the same is, hereby amended to read as follows:

"Section 15. Application for any permissible variance of regulation or for any special permit as provided herein shall be made to the zoning committee in the form of a written application for a permit. Said application shall be filed with the City Planning Department and shall be made upon forms provided by said Department, and shall be accompanied by complete plans and descriptions of the property involved, and the proposed use, together with plans and elevations of all proposed buildings.

Any variance, suspension or special permit granted by the Zoning Committee or the City Council as herein provided for, shall be conditional upon the privileges granted being utilized within six months after the effective date of the variance. In the event some construction work is involved, it must actually commence within the stated period and must be diligently prosecuted to completion; otherwise the variance is automatically voided. A lapse of work for a period of three months will be sufficient to cause the invalidity of the zone variance.

The Zoning Committee may determine by rules and regulations the method of notification of the public hearing, if any to be held on the application. From the time of filing said application until the time of such hearing, the application, together with plans and other data submitted, shall be available for public inspection in the office of the City Planning Department.

The act of a majority of the Planning Commission or of the Zoning Committee when in session as a Planning Commission or as a Zoning Committee, except as otherwise provided in this ordinance, shall be deemed the act of the Planning Commission or the Zoning Committee; but any investigation, inquiry, hearing or decision which said Commission or said Committee has power to undertake or to hold or to make, may be undertaken, or held or made by or before any Commissioner or Committee member, or City Planning Director or Assistant City Planning Director designated for the purpose by the Commission or Committee respectively, and every order or decision made by a Commissioner or Committee member or such planning officer so designated, pursuant to such inquiry, investigation, hearing or decision, when approved or confirmed by the Commission or Zoning Committee, ordered filed in the office of the Planning Commission, shall be deemed to be the order or decision of the Commission or Zoning Committee.

At the public hearing or meeting set to consider the application for variance the applicant shall present a statement and adequate evidence for the purpose of showing:

(1) That there are special circumstances or conditions applicable to the property involved, or to the intended use of the property, which do not apply generally to other property in that district;

(2) That the strict application of the regulations would work unnecessary hardship and that the granting of the application is necessary for the preservation and enjoyment of substantial property rights of the petitioner, possessed by other property owners in the same zone and vicinity;

(3) That the granting of such application will not materially affect the health or safety of persons residing or working in the neighborhood and will not be materially detrimental to the public welfare or injurious to the property or improvements in the neighborhood;

(4) That the granting of the variance will not adversely affect the Master Plan of the City;

If the facts presented at the public hearing or by an investigation show that the requested variance comes within the purview of the Zoning Committee, it may grant the request in whole or in part upon such conditions and safeguards as it deems necessary.

A copy of the resolution granting or denying the application shall be mailed to the applicant, a copy sent to the City Clerk, a copy to the Building Inspector and a copy filed in the office of the City Planning Department.

The resolution of approval or disapproval of the Zoning Committee shall become final on the sixth day following its filing in the office of the City Clerk, unless during the previous five (5) days a written appeal from the decision is filed with the City Clerk asking the City Council to hold a public hearing on the matter and reverse the decision of the Zoning Committee.

If an appeal is filed within the time specified, it automatically stays proceedings in the matter until a determination is made by the Council.

Notice that an appeal has been filed shall be sent by the City Clerk to the Building Inspector and the Zoning Committee of the City Planning Commission.

After an appeal is filed the City Clerk shall place the matter on the docket of the City Council. Notice of the Council hearing shall be given to affected property owners by the City Planning Department. Sufficient time shall elapse between the filing of the appeal and the City Council hearing to permit such notices to be mailed to property owners.

After conducting the public hearing and reviewing the report of the Zoning Committee, the City Council may grant or deny the appeal, upon such terms and conditions as the City Council deems appropriate.

In the event the appeal is filed protesting a zone variance granted by the Zoning Committee, or if the appeal is caused by the denial of a variance application, it shall require five (5) votes of the City Council to override the Zoning Committee.

The decision of the City Council shall be final and conclusive in such appeal."

Section 15. That Ordinance No. 12609, approved November 20, 1929, Ordinance No. 13492, approved March 21, 1932, Ordinance No. 635 (New Series), adopted April 16, 1935, Ordinance No. 733, (New Series); adopted August 27, 1935, Ordinance No. 1856 (New Series), adopted May 28, 1940, Ordinance No. 2392 (New Series), adopted March 3, 1942, and Sections 2, 4, 5, 6, 8, 10 and 11 of Ordinance No. 2409 (New Series), adopted April 7, 1942, be, and the same are hereby repealed.

In case of a great public calamity, such as extraordinary fire, flood, storm, epidemic or other disaster the Council may, by resolution passed by a vote of five of its members, determine and declare that the public interest or necessity demands the immediate expenditure of public money to safeguard life, health or property, and thereupon they may proceed, without advertising for bids or receiving the same, to expend, or enter into a contract involving the expenditure of any sum required in such emergency, on hand in the City treasury and available for such purpose. All contracts before execution shall be approved as to form and legality by the City Attorney.

Each bidder shall furnish with his bid such security or deposit insuring the execution of the contract by him as shall be specified by the Council or as provided by general law.

The Council shall require each contractor under this Section to insure the faithful performance of his contract by delivering to the City a surety bond in an amount specified by the Council, executed by a surety company authorized to do business in the State of California, and in addition thereto, the retention of sufficient payments under the contract to insure the protection of the City against labor or material liens.

The Council, on the recommendation of the Manager, or the Head of the Department not under the jurisdiction of the Manager, may reject any and all bids and re-advertise for bids. The Council may provide that no contract shall be awarded to any person, firm or corporation, if prison or alien labor is to be employed in performing such contract, or if the wage schedule for employees engaged in performing such contract are based on more than eight hours of labor per day. It shall be competent in awarding any contract to compare bids on the basis of time completion, provided, that when any award has been made in consideration, in whole or in part, of the relative time estimates of bidders for the completion of the work, the performance in accordance with such time limits shall be secured by a surety bond as hereinabove provided with adequate sureties and penalties, and provided further, that for any contract awarded solely or partially on a specified time for completion the Council shall not extend such time limits unless such extension be recommended by the Manager and the Head of the Department concerned.

No officer, whether elected or appointed, of The City of San Diego shall be or become directly or indirectly interested in, or in the performance of, any contract with or for The City of San Diego, or in the purchase of lease of any property, real or personal, belonging to or taken by said City or which shall be sold for taxes or assessments or by virtue of legal process or suit of said City. Any person wilfully violating this section of the Charter shall be guilty of a misdemeanor and shall immediately forfeit his office and be thereafter forever barred and disqualified from holding any elective or appointive office in the service of the City.

All contracts entered into in violation of this Section shall be void and shall not be enforceable against said City; provided, however, that officers of a municipality may own stock in public utility service corporations and the City permitted to contract for public utility service when the rates for such service are fixed by law or by virtue of the Railroad Commission of the State of California, and in such cases such contracts shall be valid and enforceable obligations against the municipality, and the officer interested as a stockholder in such public utility corporation shall not be deemed to have an interest in such City contract within the meaning of this section of the Charter."

Section 3. Except as otherwise provided in the Charter of The City of San Diego, and upon the recommendation of the head of the department, or appointing authority, and the approval of the Civil Service Commission, increase in salary, if sufficient funds are available, may be made in all positions included within any of the "Standard Rates" numbered 1 to 30, inclusive, as follows: For each six months of continuous service in a position, the increase in salary for such position, unless otherwise provided, may be approximately five per cent (5%) of the basic entrance salary rate per month prescribed for the position, class or grade in which such employee is classified; provided, however, that not more than five (5) such seniority increases may be allowed in the same position except where more than five (5) such seniority increases are required to reach the maximum compensation established for such position; provided, further, that increases in compensation within the limits provided for by any grade may be granted at any time by the City Manager, or other appointing authority, upon the basis of efficiency and seniority record after having first received the approval of the Civil Service Commission therefor.

Section 4. By reason of the fact that certain positions connected with the municipal service require special technical or part-time service, or can be filled efficiently only by certain persons who may also be employed partially outside the city service, and for which it is therefore impossible or impracticable to establish in advance a definite rate of compensation, the following positions are hereby declared to be of a contractual character, and compensation for the performance of the duties thereof shall from time to time be fixed by contract between the City and the person or persons performing service:

Archaeologist Docent  
Bacteriologist  
Chief Curator  
Curator (San Diego Museum, Serra Museum, or Natural History Museum)  
Director, San Diego Museum  
District Water Bills Collector

Section 5. Whenever the duties of a position are of such a character as to require the employee holding the same to work regularly a number of hours per week in excess of the hours customarily worked by other city employees, upon the recommendation of the Department head, or appointing authority, such employee may be paid at the next Standard Rate above the rate for the class in which such position is found, as herein provided.

Section 6. That Ordinance No. 2838 (New Series) of the ordinances of The City of San Diego, adopted on the 31st day of May, 1945, be, and the same is hereby repealed.

#### ORDINANCE NO. 3063 (New Series)

AN ORDINANCE CREATING A SPECIAL FUND IN THE OFFICE OF THE CITY AUDITOR AND CONTROLLER OF THE CITY OF SAN DIEGO, TO BE KNOWN AS THE "WATER MAIN EXTENSION AND CONNECTION FUND"; AND PROVIDING FOR THE COLLECTION AND EXPENDITURE OF MONEYS THROUGH SAID FUND.

BE IT ORDAINED, by the Council of the City of San Diego, as follows:

Section 1. That there be, and there is hereby created in the office of the City Auditor and Controller of the City of San Diego a special fund to be known as the "Water Main Extension and Connection Fund".

Section 2. The moneys collected for and deposited to said fund as hereinafter provided to be used only and exclusively toward the construction of water main extensions.

Section 3. DEFINITIONS. The meaning of various terms as used in this ordinance shall be as follows:

"DEPARTMENT" shall mean: The Water Department, of the City of San Diego.

"APPLICANT" shall mean: A person, firm or corporation who applies for water service.

"MAIN" shall mean: An existing water main in the water distribution system of the City of San Diego.

"EXTENSION" shall mean: An extension of an existing water main.

#### Section 4. WATER MAIN CONNECTION CHARGES.

Every applicant for water service from mains installed prior to the date of application, who had not theretofore, either in person or through his predecessor in interest, paid his proportionate share of the cost of water main, with respect to the property to be served, shall, before such application will be acted upon or water furnished pursuant thereto, pay to the Department a water main connection charge of \$1.00 per foot of frontage of the property to be served, in addition to all other usual and regular charges of the said Department, including charges for service connection and meter installation.

#### Section 5. WATER MAIN EXTENSIONS NOT TO EXCEED 100 FEET.

A water main extension not to exceed 100 feet from the existing main (intersections not included) to reach property requiring a water supply may be made upon the payment by the applicant of \$1.00 per foot of frontage of the property to be served, in addition to all other usual and regular charges of the said Department, including charges for service connection and meter installation.

#### Section 6. WATER MAIN EXTENSIONS IN EXCESS OF 100 FEET.

(a) Where water main extensions are required in excess of 100 feet, from the existing main (intersections not included) to reach property requiring a water supply, they will be made upon the deposit by the applicant of \$2.00 per lineal foot of extension required in excess of the above mentioned 100 feet, provided that the minimum deposit shall be based on the number of lineal feet of frontage in the property to be served. This deposit minus \$1.00 per front foot of property frontage requiring service will be refunded to the payor or his assigns only if, as and when during the ten years following installation, water main connection charges are collected from other consumers requiring service from this extension, and not otherwise. Sale of the property hereinabove referred to and the conveyance of the title thereof shall constitute an assignment of all rights of the original payor to the purchaser of said property. All extensions thus provided shall be and remain the property of the Department and any balance of said deposit remaining at the end of the above-mentioned ten year period, shall become the property of the Department.

(b) The Department may make water main extensions in excess of 100 feet without such deposit, into areas now being served through temporary water service connections from water mains which are not adjacent to the property, provided that funds are available and that a water main connection charge be collected from each applicant to be served from said extension, in accordance with Section 4 of this ordinance.

#### Section 7. TEMPORARY WATER MAIN CONNECTIONS.

When water service is required by an owner of real property on which there now exists or is planned for immediate construction a dwelling, other structure or improvement requiring domestic water service and there is no water main adjacent to said property the department may grant permission to said applicant to have a service connection and meter set at the nearest existing water main. The applicant must agree in writing to the following condition, to pay all costs of installation and maintenance of a pipeline from the service connection and meter to his property and assume all responsibility, liability for, and the payment of all costs and damages growing out of the installation, operation or failure of said pipeline. Said connection and pipeline shall be installed and used as a temporary arrangement only; that no water shall be conveyed there through for the use of any residence or property other than the property for which it was originally intended; and that at such time as a regular permanent water main may be installed to serve the property under this agreement, and on written demand of the Department the applicant must bear his proportionate share of the costs of such main extension and at his expense shall install a regular domestic water service, and shall discontinue the use of said temporary service connection and pipeline.

Section 8. This ordinance shall take effect and be in force on the thirty-first day from and after its passage.

(2) The Board of Administration shall fix and determine by appropriate rules and regulations how much service in a year is equivalent to a year of service, but in no case shall more than one (1) year be creditable for all service in one calendar year, nor shall the Board of Administration allow credit for service for a period of more than one month's duration during which the employee was absent without pay.

(3) Subject to the above restrictions and to such other rules and regulations as the Board of Administration may adopt, the Board of Administration shall verify, as soon as practicable, after the filing of such statement of service, the service therein claimed.

(4) Upon verification of the statements of service the Board of Administration shall issue to each member a prior service certificate certifying the aggregate length of service rendered prior to the first day of January, 1927, with which he is credited on the basis of his statement of service. So long as membership continues a prior service certificate shall be final and conclusive for retirement purposes as to such service, provided, however, that any member may, within one year from the date of issuance or modification of such certificate, request the Board of Administration to modify or correct his prior service certificate. When membership ceases such prior service certificate shall become void. Should the employee again become a member, such employee shall enter the system as an employee not entitled to prior service credit, except as provided in Section 5, Subsection 5, paragraph (b) of this ordinance.

Such sum may be paid in full or in installments over a period of time to be fixed by the Board of Administration. If he has already returned to city service, he must comply with the provisions of this paragraph not later than sixty (60) days after the effective date of this amendment.

(d) Nothing in this paragraph shall be construed to entitle a member to the payment of pension or any benefits other than the return of accumulated contributions during the period of Military service or during the period between his Military service and his return to city service."

(e) If he has a prior service certificate in full force and effect and has attained age sixty-two (62) years, and shall have completed not less than ten (10) years of creditable service as an employee, such further pension as may be required to bring his total retirement allowance up to a minimum of four hundred eighty dollars (\$480.00) per annum.

(f) If he has a prior service certificate in full force and effect and has attained age sixty-four (64) years, and shall have completed not less than ten (10) years of creditable service as an employee, such further pension as may be required to bring his total retirement allowance up to a minimum of five hundred four dollars (\$504.00) per annum.

(g) If he has a prior service certificate in full force and effect and has attained age sixty-six (66) years, and shall have completed not less than ten (10) years of creditable service as an employee, such further pension as may be required to bring his total retirement allowance up to a minimum of five hundred twenty-eight dollars (\$528.00) per annum.

(h) If he has a prior service certificate in full force and effect and has attained age sixty-eight (68) years, and shall have completed not less than ten (10) years of creditable service as an employee, such further pension as may be required to bring his total retirement allowance up to a minimum of five hundred fifty-two dollars (\$552.00) per annum.

(i) If he has a prior service certificate in full force and effect and has attained age seventy (70) years, and shall have completed not less than ten (10) years of creditable service as an employee, such further pension as may be required to bring his total retirement allowance up to a minimum of five hundred seventy-six dollars (\$576.00) per annum.

(3) Early Service Retirement Benefit.

Should a member who has attained the age of fifty-five (55) years and has a minimum of twenty (20) years of service, be removed from a regular permanent position of the city without fault or delinquency on his part, before he has attained the age of sixty-two (62) he may, in lieu of the provisions of paragraph (b) of this subsection receive a special retirement allowance consisting of an annuity which is the actuarial equivalent of the member's accumulated contributions at the time of retirement, plus a pension which is the

actuarial equivalent of the annuity that would be payable at age sixty-two (62) from the member's contributions at withdrawal if accumulated to age sixty-two (62), and if the member has prior service certificate in full force and effect, and additional pension which is the actuarial equivalent of a pension payable at age sixty-two (62), equal to one-seventieth (1/70) of the member's average final compensation multiplied by the number of his years of prior service. The total retirement allowance for members with prior service shall not be less than the actuarial equivalent at the time of retirement of an allowance of four hundred eighty dollars (\$480.00) per annum payable at age sixty-two (62).

(4) Disability Retirement Benefit.

Upon the application of a member in service, or of his supervisory official, any member who has had ten (10) or more years of creditable service may be retired by the Board of Administration, not less than thirty (30) and not more than ninety (90) days following the date of filing of his application, upon a disability retirement allowance, provided that the Medical Board, after a medical examination of such member, shall certify that the member is mentally or physically incapacitated for the further performance of duty, and that such incapacity is likely to be permanent and that such member should be retired; provided, however, that no disability benefit shall be granted to any member when it is established to the satisfaction of the Board of Administration that such disability resulted from venereal disease, vicious or licentious habits, or violation of law.

(5) Allowance on Disability Retirement.

Upon retirement for disability a member shall receive a service retirement allowance if he has attained age sixty-two (62) years; otherwise he shall receive a disability retirement allowance which shall consist of:

(a) An annuity which shall be the actuarial equivalent of his accumulated contributions at the time of retirement, and

(b) A pension which, together with his annuity, shall provide a total retirement allowance equal to ninety per centum (90%) of one-seventieth (1/70) of his average final compensation, multiplied by the number of years of his creditable service, if such retirement allowance exceeds twenty per centum (20%) of his average final compensation; otherwise a pension which, together with his annuity, shall provide a total retirement allowance equal to twenty per centum (20%) of his average final compensation, provided, however, that no such allowance shall exceed ninety per centum (90%) of one-seventieth (1/70) of his average final compensation, multiplied by the number of years which would be creditable to him were his service to continue until the attainment of age sixty-two (62) years.

(6) Re-examination of Beneficiaries Retired on Account Disability.

At least once each year during the first five years following retirement of a member on a disability retirement allowance, and once in every three-year period thereafter, the Board of Administration may, and upon his application shall, require any disability beneficiary who has not yet attained age sixty-two (62) to undergo a medical examination, such examination to be made at the place of residence of said beneficiary or other place mutually agreed upon, by a physician or physicians designated by the Board of Administration. Should any disability beneficiary who has not yet attained the age of sixty-two (62) refuse to submit to such medical examination by a physician or physicians designated by the Board of Administration as the Board may require, his allowance may be discontinued until his withdrawal of such refusal, and should his refusal continue for one year, all his rights in and to his pension may be revoked by the Board of Administration.

(a) Should the Medical Board report and certify to the Board of Administration that such disability beneficiary is engaged in or is able to engage in a gainful occupation paying more than the difference between his retirement allowance and his average final compensation, and should the Board of Administration concur in such report, then the amount of his pension shall be reduced to an amount, which, together with his annuity and the amount earnable by him, shall equal the amount of his average final compensation. Should his earning capacity be later changed, the amount of his pension may be further modified; provided that the new pension shall not exceed the amount of the pension originally granted nor an amount which, when added to the amount earnable by the beneficiary together with his annuity, equals the amount of his average final compensation. A beneficiary restored to active service at a salary less than the average final compensation upon the basis of which he was retired shall not become a member of the retirement system.

(b) Should a disability beneficiary under age sixty-two (62) years be restored to active service at a compensation not less than his average final compensation, his retirement allowance shall cease, and he shall again become a member of the retirement system and shall contribute thereafter at the same rate he paid prior to disability. Any prior service certificate on the basis of which his service was computed at the time of his retirement shall be restored to full force and effect, and in addition upon his subsequent retirement he shall be credited with all his service as a member, except that upon subsequent retirement within five (5) years from the date of restoration his creditable service rendered prior to his previous retirement shall be reduced by one-tenth (1/10) the amount thereof.

(7) Death Benefit.

Upon the receipt of proper proofs of the death of a member in service there shall be paid to such person having an insurable interest in the life of the deceased, as he shall have nominated by written designation duly executed and filed with the Board of Administration, otherwise to his estate:

(a) His accumulated contributions; and

(b) If the member has five or more years of membership service, an amount equal to his last month's salary.

(8) Return of Accumulated Contributions.

(a) The Board of Administration annually, beginning with the fiscal year 1944-1945 may ascertain and determine the approximate average interest return on the assets of the system during the preceding fiscal year, which hereinafter, in this section, shall be referred to as 'average interest rate'.

If the investigation shows that the said average interest rate is less than the regular established interest rate, then and in that event the Board of Administration may, in its discretion, by resolution entered in the minutes of said Board, establish said average interest rate. In the event the Board of Administration determines it will not be necessary to establish such an amount for any given year, it shall cause to be entered upon the minutes a finding to that effect.

(b) Every member who becomes separated from the service of the City except by death or retirement under the provisions of this ordinance shall, upon written demand made to the Board of Administration, receive and be paid the amount of his accumulated contributions, less a deduction of an amount approximately equal to the difference between the regular interest rate and the average interest rate which has been determined, each year respectively, by the Board of Administration.

(c) The Board of Administration may, in its discretion, before ordering a warrant for the payment of contributions demanded by a member upon separation from the City service, require a written notice to be served on said Board at least sixty (60) days prior to said payment.

(9) Optional Allowances.

Until the first payment on account of his retirement allowance becomes normally due, any member may elect to convert the retirement allowance otherwise payable to him

into a modified retirement allowance of equivalent actuarial value, in accordance with one of the optional forms named below; provided, however, that should he die prior to the expiration of thirty (30) days after the date of filing such election, or prior to thirty (30) days after retirement, his optional election shall not be effective, and he shall be considered to be a member in service at the time of his death. A member who has elected an optional benefit may change such election by due notice to the Board of Administration, but no change may be made after the first payment of his allowance becomes normally due.

Option 1.

If he dies before he has received in payments the present value of his retirement allowance as it was at the time of his retirement, the balance shall be paid to his legal representative, or to such person as he shall nominate by written designation duly acknowledged and filed with the Board of Administration.

Option 2.

Such other form of benefit as shall be certified by the actuary to be of equivalent actuarial value to his retirement allowance, provided that the Board of Administration shall determine that the granting of such optional allowance is consistent with the purpose of the retirement system and shall be necessary or desirable from the point of view of the member.

(10) Pension Offset by Compensation Benefits.

Any amounts which may be paid or payable by The City of San Diego under the provisions of any Workmen's Compensation or similar law to a member, or to the dependents of a member, on account of any disability giving rise to a disability benefit payable hereunder shall be offset against and payable in lieu of any such benefit payable out of funds provided by The City of San Diego under the provisions of this ordinance.

(11) Nothing herein shall be construed to be retroactive."

Section 3. That section 8 of said Ordinance No. 10792 be, and the same is hereby amended to read as follows:

"Section 8. Method of Financing.

(1) All of the assets of the retirement system shall be credited in accordance with the purpose for which they are held to one of two funds, namely, the City Employees' Retirement Fund, as created by section 145 of Article IX of the City Charter, and the Retirement System Expense Fund.

(2) City Employees' Retirement Fund. The City Employees' Retirement Fund shall be subdivided into four accounts as follows: The Annuity Savings Account, The Annuity Reserve Account, the Pension Accumulation Account and the Pension Reserve Account.

(3) Annuity Savings Account.

(a) The Annuity Savings Account shall be the account in which shall be accumulated contributions from the compensation of members to provide for their annuities. Upon the basis of such tables as the Board of Administration shall adopt and the regular interest, the actuary of the retirement system shall calculate for each age of entrance into membership the constant proportion of compensation which, when deducted from each payment of the prospective earnable compensation of a member entering at any such age prior to his attainment of age sixty-two (62), and accumulated at regular interest until his attainment of age sixty-two (62), shall provide at that time an annuity approximately equal in amount to one-one hundred fortieth (1/140) of his average final compensation, multiplied by the number of his years of service as a member. Such proportion of compensation shall be known as the normal rate of member's contribution. The proportion so computed for a member age sixty-one (61) shall be applied to a member who attains a greater age before he becomes a member of the retirement system.

(b) Beginning with the effective date of the amendment to this section, all new members will contribute upon the basis of tables for men and for women as the Board of Administration shall adopt. The Actuary of the retirement system shall calculate for each age of entrance into membership the constant proportion of compensation which, when deducted from each payment of the prospective earnable compensation of a member entering at any such age prior to his attainment of age sixty-two (62), and accumulated at regular interest until his attainment of age sixty-two (62), shall provide at that time an annuity approximately equal in amount to one-one hundred twentieth (1/120) of his average final compensation multiplied by the number of his years of service as a member.

Present members, both men and women, shall have the option of making future contributions upon the basis of the new tables to provide at age sixty-two (62) on account of future membership service annuities approximately equal in amount to one-one hundred twentieth (1/120) of average final compensation for each year of future membership service. The Board of Administration shall fix the time limit within which members may choose to exercise their options. Such option once exercised is irrevocable.

(c) The Board of Administration shall furnish the City Auditor with the amount of contribution for each member, and the City Auditor shall cause to be deducted from the compensation of each and every member on the second half month's payroll the amounts so certified for each member, provided, however, that compensation at a rate in excess of Three Thousand Six Hundred Dollars (\$3600.00) per annum shall be considered as Three Thousand Six Hundred Dollars (\$3600.00) for the purpose of computing the amounts to be deducted.

In determining the amount earnable by a member in a payroll period, the Board of Administration may consider the rate of annual compensation payable to such member on the first day of the payroll period as continuing through such payroll period, and it may omit deductions from compensation for any period less than a full payroll period if any employee was not a member on the first day of the payroll period; and to facilitate the making of deductions it may modify the deduction required of any member by such an amount as shall not exceed one-tenth (1/10) of one per centum of the annual compensation upon the basis of which said deduction is to be made. Compensation payable for overtime work or compensation in lieu of vacation shall not be considered in determining the amount earnable by a member in a payroll period.

(d) The deductions provided for herein shall be made notwithstanding that the minimum compensation provided for by law for any member shall be reduced thereby. Every member shall be deemed to consent and agree to the deductions made and provided for herein and shall receipt for his full salary or compensation; and payment of salary or compensation less said deductions shall be a full and complete discharge and acquittance of all claims and demands whatsoever for the services rendered by such person during the period covered by such payment except as to the benefits provided under this ordinance. The City Auditor shall furnish to the Board of Administration a copy of each and every payroll on which there appears a deduction for the City Employees' Retirement System; and each of said amounts shall be deducted and when deducted shall be paid into said Annuity Savings Account and shall be credited, together with regular interest, to an individual account of the member from whose compensation said deduction was made.

(e) In addition to the normal deductions from compensation as hereinbefore provided, subject to the approval of the Board of Administration, any member may deposit in the annuity savings account by an increased rate of contribution not exceeding in any event a total contribution equal to ten per cent (10%) of salary, limited as in this section provided, an amount for the purchase of an additional annuity, which, together with his prospective retirement allowance, will provide for him a total retirement allowance not exceeding one-half of his prospective average final compensation at a chosen age between

the voluntary and compulsory retirement age limits. Such additional amount so contributed shall not be considered in computing the pension to be provided from the contributions of the city, but shall accrue interest at a rate to be established by the Board of Administration, which rate shall not exceed three per cent (3%).

(f) The accumulated contributions of a member withdrawn by him, or paid to his estate or to his designated beneficiary in the event of his death as provided in this ordinance, shall be paid from the Annuity Savings Account. Upon the retirement of a member his accumulated contributions shall be transferred from the Annuity Savings Account to the Annuity Reserve Account.

(4) Annuity Reserve Account.

The Annuity Reserve Account shall be the account from which shall be paid all annuities and all benefits in lieu of annuities payable as provided in this ordinance.

(5) Pension Accumulation Account.

(a) The Pension Accumulation Account shall be the account in which shall be accumulated all reserves for the payment of all pensions and other benefits payable from contributions made by The City of San Diego and from which shall be paid all pensions and other benefits on account of members with prior service credit.

(b) On account of each member who is an employee of The City of San Diego the said City shall pay annually into the Pension Accumulation Account for the preceding fiscal year an amount equal to a certain percentage of the earnable compensation of each member, to be known as the 'normal contribution', and an additional percentage of his earnable compensation to be known as the 'accrued liability contribution'. The rates per centum of such contributions shall be fixed on the basis of the liabilities of the retirement system as shown by actuarial valuation. Until the first valuation the normal contribution shall be one and sixteen hundredths per centum, and the accrued liability contribution shall be one and seventy-three hundredths per centum of the earnable annual compensation of all employees.

(c) On the basis of regular interest and of such mortality and other tables as shall be adopted by the Board of Administration, the actuary engaged by the Board to make each valuation required by this ordinance during the period over which the deficiency contribution is payable, immediately after making such valuation, shall determine the uniform and constant percentage of the earnable compensation of the average new entrant, which, if contributed on the basis of the earnable compensation of such new entrant throughout his entire period of active service would be sufficient to provide for the payment of any pension or other benefit provided by the City that may be payable on his account. The rate per centum so determined shall be known as the 'normal contribution' rate. After the accrued liability contribution has ceased to be payable, the normal contribution rate shall be the rate per centum of the earnable compensation of all members obtained by deducting from the total liabilities of the Pension Accumulation Fund the amount of the funds in hand to the credit of that fund and dividing the remainder by one per centum of the present value of the prospective future salaries of all members as computed on the basis of the mortality and service tables adopted by the Board of Administration and regular interest. The normal rate of contribution shall be determined by the actuary after each valuation.

(d) Immediately succeeding the first valuation, the actuary engaged by the Board of Administration shall compute the rate per centum of the total annual compensation of all members which is equivalent to the sinking fund payment that would liquidate at regular interest within a period of thirty (30) years the liability on account of all members and beneficiaries which is not dischargeable by the aforesaid normal contribution made on account of such members during the remainder of their active service. The rate per centum originally so determined shall be known as the 'accrued liability contribution' rate.

(e) The total amount payable in each year to the Pension Accumulation Fund shall not be less than the sum of the rates per centum known as the normal contribution rate and the accrued liability contribution rate of the total compensation earnable by all members during the preceding year; provided, however, that the aggregate payment by The City of San Diego shall be sufficient, when combined with the amount in the fund to provide the pensions and any other benefits payable out of the fund during the year then current.

(f) The accrued liability contribution shall be discontinued as soon as the accumulated reserve in the Pension Accumulation Fund shall equal the present value, as actuarially computed and approved by the Board of Administration of the total liability of such fund less the present value, computed on the basis of the normal contribution rate then in force, of the prospective normal contributions to be received on account of persons who are at that time members.

(g) All pensions and benefits in lieu thereof, with the exception of those payable on account of members who receive no prior service allowance, shall be paid from the Pension Accumulation Account.

(h) Upon the retirement of a member not entitled to credit for prior service, an amount equal to his pension reserve shall be transferred from the Pension Accumulation Account to the Pension Reserve Account.

(6) The Pension Reserve Account.

The Pension Reserve Account shall be the account from which shall be paid the pensions to members not entitled to credit for prior service and benefits in lieu thereof. Should such a beneficiary retired on account of disability be restored to active service with compensation not less than his average final compensation at the time of his last retirement, the pension reserve thereon shall be transferred from the Pension Reserve Account to the Pension Accumulation Account. Should the pension of such a beneficiary be reduced as a result of an increase in his earning capacity, the amount of the annual reduction in his pension shall be paid annually into the Pension Accumulation Account during the period of such reduction.

(7) Expense Fund.

The Expense Fund shall be the fund to which shall be credited all money provided by The City of San Diego to pay the administration expenses of the retirement system, and from which shall be paid the expenses necessary in connection with the administration and operation of the system. Annually the Board of Administration shall estimate the amount of money necessary to be paid into the Expense Fund for the ensuing year to provide for the expense of operation of the retirement system, and such estimate shall be submitted to the City Manager in accordance with Section 69 of Article VII of the City Charter.

(8) Estimate of Appropriations Required.

(a) On or before the 15th day of April of each year the Board of Administration shall certify to the City Manager the amount of the appropriation necessary to pay to the various funds and accounts of the retirement system, the amounts payable by The City of San Diego as enumerated in this ordinance for the year beginning on the succeeding first day of July, and items of appropriation providing the amounts shall be included in the Annual Appropriation Ordinance. The amount so appropriated shall be credited to the various funds and accounts of the retirement system.

(b) To cover the requirements of the system for the period prior to the first day of January, 1928, the amount of \$11,000.00 shall be paid into the Pension Accumulation Account of the City Employees' Retirement Fund and the amount of \$4,500.00 shall be paid

into the Expense Fund.

(9) Unclaimed Benefits.

All unclaimed amounts payable under the provisions of the retirement system sections shall remain part of the funds of the retirement system, and shall be credited to the Pension Accumulation Account.

(10) Nothing herein shall be construed to be retroactive."

Section 4. That said Ordinance No. 10792 be, and the same is hereby amended by adding thereto a new section to be known as and numbered 9-1/2, which said section shall read as follows:

"Section 9-1/2. Assignments Prohibited.

The right of a person to a pension, an annuity or a retirement allowance, to the return of contributions, the pension, annuity or retirement allowance itself, any optional benefit, any other right accrued or accruing to any person under the provisions of this ordinance and the moneys in the fund created under this ordinance shall not be subject to execution, garnishment, attachment, or any other process whatsoever, and shall be unassignable except as in this ordinance specifically provided."

Section 5. That sections 3, 4 and 6 of Ordinance No. 2721, New Series, of the Ordinances of the City of San Diego, entitled, "An Ordinance amending sections 1, 3, 4, 5, 6, 8 and 9 of Ordinance No. 10792 of the Ordinances of The City of San Diego, entitled, 'An Ordinance establishing a city employees' retirement system for the employees of The City of San Diego,' approved December 1st, 1926, and repealing Ordinance No. 11344, approved October 17, 1927." adopted September 28, 1943, be and the same is hereby repealed.

## O R D I N A N C E NO. 3069 (New Series)

AN EMERGENCY ORDINANCE TO BE KNOWN AS THE "RAT CONTROL ORDINANCE", RELATING TO THE PROTECTION OF THE PUBLIC HEALTH, TO PREVENT THE SPREAD OF RAT-BORNE DISEASES, AND TO IMPROVE THE SANITARY CONDITIONS OF THE CITY OF SAN DIEGO, BY THE PROVIDING FOR RAT-PROOFING OF ALL BUSINESS BUILDINGS AND PREMISES, AND OF OTHER BUILDINGS AND PREMISES WHEN ORDERED BY THE HEALTH OFFICER, AND REQUIRING THAT ALL BUILDINGS AND PREMISES SHALL BE MAINTAINED IN A RAT-FREE CONDITION; PROVIDING FOR THE PROPER STORAGE OF FOOD, FEED, GARBAGE AND DEBRIS; PROVIDING FOR PENALTIES FOR THE VIOLATION THEREOF.

WHEREAS, it has been found that certain districts in the City of San Diego are seriously infested with rats, and that rodents in certain areas adjacent to the City of San Diego are infected with certain highly communicable and very dangerous diseases which are communicated, among other means, by the bite of fleas which have previously bitten a person or animal infected with such diseases; and there now exists a serious danger that such diseases will be transmitted from said rodents to rats which live within the City of San Diego, and from such rats to members of the human population of the City of San Diego; and if such transmission of such diseases occurs, there is grave danger that a serious epidemic of such dangerous diseases will occur within the City of San Diego; and the only effective way to prevent the eventual outbreak of such diseases within the City of San Diego is by the immediate adoption of measures to eliminate rat infestation within the City of San Diego, especially by requiring that buildings which are now in such condition as to harbor rats and furnish favorable conditions for the support and breeding of rats shall be so repaired and reconstructed as to prevent further harborage of rats therein; and it is necessary for the immediate preservation of the public health and safety that such measures to eliminate rat infestation be required by law, without delay; NOW, THEREFORE,

BE IT ORDAINED, By the Council of The City of San Diego, as follows:

Section 1. DEFINITIONS: The following definitions shall apply for the purposes of this ordinance:

(A) The term "Building" shall mean any structure built for the support, shelter, or enclosure of persons, animals or chattels; and when separated by division walls without openings, each portion so separated shall be deemed a separate building.

(B) The term "Business Building" shall mean any structure, whether public or private, regardless of the type of material used in its construction, located within the corporate limits of the City of San Diego, whether vacant or occupied, which is adapted to occupancy for transaction of business, for the rendering of professional services, for the display, sale, distribution, storage, or serving of food, foodstuffs, goods, wares or merchandise, or for the performance of work or labor, including (but not limited to) hotels, rooming houses, apartment houses, office buildings, public buildings, theatres, stores, markets, restaurants, taverns, beer parlors, warehouses, grain elevators, abattoirs, work shops, factories, and all public or private structures where domestic or other animals are kept.

(D) The term "opening" shall mean and refer to any opening or break in the foundation, sides or walls, ground or first floors, basements and roofs, including chimney, eaves, grills, windows, ventilators, sidewalk grates, and elevators, and around any pipe, wire or other installation connecting with a building or premises through which a rat might enter.

(E) The term "rat-stoppage" or "rat-proofing" as used herein shall apply to a form of rat-proofing to prevent the entrance or ingress of rats and other rodents into buildings or premises from the exterior or from one building or establishment to another. It consists essentially of the closing or protection of all openings in the exterior walls, ground or first floors, basements, roofs, and foundations, with material impervious to rat gnawing, in such a manner as to prevent rats from gaining entrance.

(F) The term "rat-harborage" shall mean any condition which provides shelter or protection for rats or other rodents, thus favoring their multiplication and continued existence in, under, on top of, or outside of any structure of any kind, or in, under, or on top of the land itself.

Section 2. ALL BUILDINGS AND PREMISES SHALL BE RAT-PROOF AND FREE OF RATS: It shall be unlawful for any person within the corporate limits of The City of San Diego to construct, maintain, operate, or permit to exist any building or other structure or premises wholly or partly in his possession or under his control, which is not rat-proof and free of rats in accordance with the provisions of this ordinance.

Section 3. AUTHORIZATIONS GIVEN THE HEALTH OFFICER, AND BEING AN OFFENSE NOT TO COMPLY WITH HEALTH OFFICER'S ORDER: The Health Officer is authorized as follows:

(A) The Health Officer is authorized to make frequent and unannounced inspections of all buildings, structures, and premises within the corporate limits of the City of San Diego for the purpose of determining signs or existence of rat infestation and compliance with this ordinance. The Health Officer is directed to make periodic inspections of all business buildings in the city as frequently as the number of personnel permit. No person shall interfere with or refuse to permit such inspection.

(B) The Health Officer is authorized to order by written notice the owner, occupant, agent, or any other person in charge, management, or custody of a building, structure, or premises showing any evidence that rats are or have been present, to have said building, structure, or premises rat-proofed at once as herein provided. He may in addition order such other rat control measures as he may deem necessary to eliminate all rats, other rodents, and rat-haborages present. The written order or notice shall specify the time, in no event less than fifteen (15) days, for completion of the rat-proofing or rat-stoppage work.

(C) The Health Officer is authorized to make inspections during the course of and upon completion of any construction, repair, remodeling, or installation of any building, structure, or premises to insure compliance with the provisions of this ordinance, and no person shall interfere with or refuse to permit such inspection. Furthermore, should the construction, repair, remodeling or installation fail to comply with the standards or provisions of this ordinance, such work shall be altered according to the directions of the Health Officer.

(D) The Health Officer is authorized to notify the owner, occupant, agent, or any other person in charge, management, or custody of a building, structure, or premises that there is evidence of rat or other rodent infestation and to order in writing such person or persons to institute immediately appropriate measures for freeing the premises each occupies or controls of all rats, other rodents and rat-haborages. The written order or

notice shall specify the time, in no event less than five (5) days, for institution of the rat eradication work.

(E) Whenever the Health Officer finds that satisfactory rat-proofing of any rat-infested building or premises is impossible or impracticable, or whenever the owner or occupant of such premises or building shall fail to commence such rat-proofing as the Health Officer may order in writing, within the time specified in such order, or whenever the owner or occupant of such premises or building shall fail to carry to completion all such rat-proofing with reasonable diligence, the Health Officer is authorized and directed to prosecute any or all legal or equitable actions for the abatement of the nuisance created by such rat-infestation and/or the condition of such building or premises. The existence of a condition of rat-infestation in or on any building or premises, and the existence of any building or premises in such a condition as to provide shelter, protection, or food for rats, are each declared hereby to be and constitute a public nuisance.

(F) Any person who fails to comply with the order of the Health Officer within the time specified therein, or within the time to which a written extension may have been granted by the Health Officer, shall be deemed guilty of a misdemeanor.

Section 4. DETAILS OF RAT-PROOFING: All business buildings and premises shall comply with all of the following rat-proofing requirements, and all other buildings and premises shall comply with such requirements as the Health Officer may order when rat-infestation is found.

(A) APPROVED MATERIALS AND METHODS. Only such ratproof materials and methods as have been approved by the Health Officer shall be used.

(B) RUST-RESISTING MATERIALS. Solid sheet metal, expanded metal and wire cloth specified herein shall have a rust-resisting covering, preferably galvanized.

(C) BASEMENT OR CELLARS.

(1) The exterior walls of basements or cellars shall be constructed of cement or masonry impervious to rats at their junction with the ceiling or floor above, and all actual or potential openings in such walls through which rats may gain entrance from the exterior or pass from one building to another, as those caused by defects in the wall construction, those around drains, pipes, wires, or other installations, and those of any other nature not used for passage, light, or ventilation, shall be closed with cement mortar, masonry, 26 gauge or heavier metal, or other suitable material approved or directed by the Health Officer.

(2) All open pipes or drains in basements or cellars through which rats may pass shall be capped with a perforated metal cover securely fastened in place, preferably with a hinge, the perforations not being greater than one-half (1/2) inch in diameter.

(3) All breaks, cracks, or other openings in concrete floors or walls of basements through which rats may pass shall be closed with cement mortar.

(4) Basements and cellars shall be kept free of all rubbish and debris at all times, and all merchandise or other materials stored therein shall be so kept or piled that they will not provide a place of harbor for rats.

(5) When floors in existing basements and cellars are constructed partly or entirely of wood, and such wooden floor causes or contributes to a condition of rat-harborage or rat-infestation, the Health Officer may require that such wood floors shall be completely removed and that they shall be replaced with a concrete floor three (3) inches or more in thickness, or if there is no basement floor the Health Officer may require that a suitable concrete floor shall be installed.

(D) FIRST OR GROUND FLOORS. (1) If the first or ground floors are constructed of concrete, tile, or other material impervious to rat gnawing and do not have basements or cellars under the entire floor area which can be satisfactorily rat-proofed, all actual or potential openings through which rats may gain entrance, such as those around pipes, wires, or other installations, those caused by defects of any kind, and those where the floor and sidewalls join, shall be properly sealed with cement mortar, masonry, metal collars, metal flashing of 26 gauge or heavier, or any other suitable material approved by the Health Officer as being rat-proof, and all open drains or pipes through which rats may pass shall be securely capped with perforated metal having openings not greater than one-half (1/2) inch in any diameter.

(2) If the first or ground floors are constructed of wood and do not have basements or cellars extending under their entire area which can be satisfactorily rat-proofed, all actual or potential openings through which rats may gain entrance shall be sealed with 24 gauge or heavier sheet metal, the junction of the floors with the sidewalls shall be flashed with 24 gauge or heavier sheet metal which shall extend six (6) inches or more to the floor and four (4) or more inches upon the sidewalls, and all drains or open pipes through which rats may pass shall be capped with perforated metal having openings not greater than one-half (1/2) inch in any diameter.

(a) If such buildings with wood first or ground floors are built on piers so that the distance between the ground and the lower surface of the joists is less than eighteen (18) inches above the ground surface, or if the foundation of the building is not impervious to rat gnawing, or if there is a foundation but it does not extend twenty-four (24) inches straight down below the surface of the ground, a concrete curtain wall shall be installed around the entire periphery of the building, which curtain wall shall be at least four (4) inches thick and shall extend twenty-four (24) inches below the surface of the ground, or in lieu thereof the curtain wall shall be constructed in the form of an "L" with the vertical portion eighteen (18) inches or more below the ground surface and the lower reinforced horizontal arm extending outwards eight (8) inches from the vertical section.

(b) When the first, or ground, floor is constructed of wood or partly of wood and partly of concrete or other rat-proof material, and the Health Officer shall find that such wooden portion of such floor is not rat-proof, the Health Officer may require such wooden portion of such floor to be replaced with concrete or other material approved by the Health Officer as being rat-proof.

(3) Whenever rats are found to be harboring under wooden platforms or secondary wooden floors built over either concrete, wood, or other flooring, the Health Officer may require the rat-proofing or the complete removal of such wooden platforms or floors, or that they be lowered to a distance not exceeding one-half (1/2) inch above the floor.

(E) DOORS. All doors and door jambs or frames serving as front, side or rear entrances to basements, cellars, ground or first floors, and those on upper floors having exterior stairways, as well as any other doors which may be accessible to rats outside of buildings or between buildings and different business establishments shall comply with the following:

(1) Solid, strong doors constructed of metal, hardwood, or other material approved by the Health Officer as being resistant to rat gnawing, which fit snugly in their frames and on their thresholds or sills so that rats cannot gain entrance through them and which do not present irregular surfaces or cracks for rats to gnaw through, may be passed by the Health Officer without further treatment, but doors which are in such disrepair or in such poor condition that they cannot be satisfactorily rat-proofed shall be replaced by new ones or shall be repaired so as to be satisfactorily rat-stopped, and they shall swing smoothly and easily on their hinges.

(2) Doors constructed of soft wood or other material not resistant to rat gnawing, doors which show evidence of rat gnawing or have any irregularities, cracks, or small

openings along their lower margin or sides and therefore offer potential sites for rats to gnaw, and doors which have any openings over three-eighths ( $3/8$ ) inch wide anywhere or between the door and door sill or threshold shall be fortified and rat-proofed by using either metal channels of 24 gauge or heavier metal or metal flashing of 26 gauge or heavier metal. After application of either metal channel or flashing the door shall swing or move smoothly without any binding.

(3) Wooden door frames shall be flashed with 26 gauge or heavier metal to the same height as the door flashing whenever there is a crack or other defect between them and their doors which may be utilized by rats for gnawing through the frame.

(4) Irregularities or defects in wooden door sills shall be corrected by flashing the sills with 24 gauge or heavier metal.

(5) Irregularities or defects in door thresholds constructed of concrete or masonry which produce openings under doors three-eighths ( $3/8$ ) inch or greater shall be corrected by pointing up with cement mortar or other suitable rat-proof material approved by the Health Officer or by constructing a new threshold of similar material.

(6) Sliding wooden or metal doors and swinging metal doors that have a space greater than three-eighths ( $3/8$ ) inch wide between them and their sills or thresholds shall have either rigid or movable sliding strips of 20 gauge metal or equivalent material fastened to their lower margins so that spaces under such doors when closed will not exceed three-eighths ( $3/8$ ) inch in width.

(7) Mail slits in the lower part of doors which are accessible to rats shall be fitted with covers which cannot be raised by rats from the outside.

(8) Other openings in exterior doors used as vents or for other purposes shall be fitted with iron grill work having no openings larger than one-half ( $1/2$ ) inch in any diameter or with wire cloth of the same mesh 19 gauge or heavier.

(F) WINDOWS. All windows of business buildings through which rats may gain entrance, including all windows having sills less than thirty (30) inches from the ground, or those which may be accessible to rats from the roof of the same building or adjacent structures, and those which rats may gain entrance to by climbing the walls of the building or by means of vines, trees, wires, pipes, or any other installation, shall be rat-proofed if the windows are open or capable of being opened.

(1) Windows shall be rat-proofed by covering their entire surface with nineteen (19) gauge or heavier wire cloth having a mesh not greater than one-half ( $1/2$ ) inch. The wire cloth shall be securely fastened to frames that are to be installed so that they may be readily removed to clean the windows or for other purposes. The edges of the wire cloth along the entire outer margin of wood frames shall be covered with metal strips approximately one (1) inch wide.

(G) VENTS. All vents or openings for light or ventilation in the foundation, walls, or roofs of buildings which may be accessible to rats from the ground or other surface or by climbing shall be rat-proofed by the installation of iron grills or 16 gauge or heavier wire cloth or expanded metal of 18 or heavier gauge, all having openings no greater than one-half ( $1/2$ ) inch in any diameter. The metal may be sealed in place with cement mortar or it may be installed on a tightly fitting wooden or metal frame. If a wood frame is used the edges of the wire cloth or expanded metal shall be covered by strips of metal approximately one (1) inch wide.

(H) SIDEWALK VENTS AND LIGHT OR WINDOW WELLS. Unless closed by a metal grill having no openings greater than one-half ( $1/2$ ) inch in any diameter, all sidewalk vents and light wells of business buildings shall be rat-proofed by one or more of the following methods:

(1) By covering the opening in the side wall or foundation of the building with 19 gauge or heavier wire cloth having a mesh not greater than one-half ( $1/2$ ) inch in any diameter, which shall be securely fastened in place with cement mortar or a tight fitting frame. If it is deemed necessary to gain entrance to the well for any purpose, the frame shall be installed so that it can be easily removed or swung open on hinges.

(2) By partially closing the opening in the foundation or wall with masonry or similar material and treating the remaining opening as in (1) above.

(3) In lieu of the above described procedures for the rat-stoppage of light wells and sidewalk vents, a rat-proof wire basket may be installed upon written approval of the Director of Public Health.

(4) If he shall deem it necessary, the Health Officer may require that the bottom and sides of light wells shall be rat-proofed with concrete or masonry, making at least one hole per square foot in the bottom for drainage, not greater than one-half ( $1/2$ ) inch in diameter. If deemed necessary, the openings of sidewalk vents or light wells may be entirely closed with cement mortar or other material impervious to rats.

(I) BUILT-IN REFRIGERATORS OR ICE-BOXES. When there is evidence of rats harboring in or entering built-in refrigerators or ice-boxes, all openings used by rats shall be sealed with 26 or heavier gauge metal, and if deemed necessary by the Health Officer the junction of the ice-boxes with the floor and walls shall be flashed with 24 or heavier gauge metal. If the built-in refrigerators or ice-boxes rest on the surface of the ground the Health Officer may require that curtain walls shall be installed around the periphery in the same manner as those used for imperfect foundations of buildings. (See Sec. 4D2a hereof.)

(J) METER BOXES, ETC. Meter boxes and other installations sunk into sidewalks or in the ground near buildings from which conduits or pipes pass to buildings shall have their sides and bottom surfaces sealed with cement mortar or other rat-proof material. Drainage shall be provided when necessary by holes not greater than one-half ( $1/2$ ) inch in any diameter.

(K) MISCELLANEOUS OPENINGS. Openings of any type in foundations, walls, and roofs of buildings, such as those caused by defects in construction, those resulting from disrepair or deterioration of the building, those around wires, pipes, conduits and any other installation, through which rats may enter a building or gain access to the space between double walls from the exterior, and which are not used for light or ventilation, shall be sealed with 26 or heavier gauge metal used as collars or flashing or with cement mortar, masonry, or any other suitable material approved by the Health Officer as being impervious to rat gnawing.

(L) DIVIDING WALLS. Openings of any kind in party walls between business buildings shall be rat-stopped in the same manner as those in walls having a free exterior surface, and when feasible, the walls dividing an establishment in which food is handled, stored, sold, or served from other establishments in the same building shall be rat-stopped in the same manner as exterior walls.

(M) ELEVATOR AND DUMB-WAITER SHAFTS. The walls, bottom, and top of elevator and dumb-waiter shafts shall be constructed and repaired so as to make them rat-proof in the same manner as prescribed for basement walls and exterior walls of buildings.

(N) LOADING PLATFORMS. Loading platforms shall be constructed of concrete or other rat-proof material placed on a clean solidly packed fill enclosed by a concrete or other rat-resistant curtain wall as prescribed for imperfect foundations of buildings (See Sec. 4D2a hereof); provided that open wood or other construction may be used where a clearance of eighteen (18) inches or more exists between the floor joists of the platform and the finished ground level, and the intervening space is kept open on at least three sides and is kept clear of all storage and debris.

(O) SIDEWALKS AND GROUND COVERINGS. Sidewalks and ground coverings shall be constructed of concrete, solid masonry, or other rat-proof material laid directly upon the ground or other clean solidly-packed fill; provided that open construction may be used where a clearance of eighteen (18) inches or more exists between the floor joists of the elevated sidewalk or ground covering and the finished ground level, and the intervening space is kept open on at least three sides and is kept clear of all storage and debris. When rats burrow under sidewalks or ground coverings, a rat-resistant curtain wall shall be installed as prescribed for imperfect foundations of buildings. (See Sec 4-D2a hereof.)

(P) OUTHOUSES, STORAGE BOXES, ETC. All outhouses, sheds, barns, garages, and other structures shall be rat-proofed and kept free of rats in the same manner as other buildings, or in lieu thereof they shall be torn down. Chicken houses, rabbit houses or hutches, and the like, shall be separated from other structures by at least six (6) feet, and shall be especially well rat-proofed, and shall have a rat-resistant curtain wall as prescribed for imperfect foundations of buildings (See Sec 4-D2a hereof), provided that open construction may be used where a clearance of eighteen (18) inches or more exists between the floor joists and the finished ground level, and the intervening space is kept open on at least three sides and is kept clear of all storage, debris, and material which would afford food for rats. Outside storage boxes and lockers shall likewise be elevated at least eighteen (18) inches from the ground. Feed pens, mangers, water troughs, shelving, and so forth, shall be of open construction.

(Q) RAT BURROWS. All rat burrows found in the ground or elsewhere shall be effectively treated, destroyed, and rat-proofed as the Health Officer may direct.

Section 5. ADJACENT POLES, VINES, ETC: In order to protect business buildings from climbing or roof rats, it shall be unlawful to permit poles, ladders, or any other object not in actual use to lean against the sides of buildings, and it shall be unlawful to permit vines to grow up the sides of business buildings. All trees near business buildings shall be kept trimmed and cut so that no part of any branch or any part of said tree shall be closer than four (4) feet from the sides of any business building and shall under no circumstances overhang the roof of the building.

Section 6. SPECIAL PRECAUTIONS FOR DOCKS AND WHARVES: Alldocks and wharves in the City of San Diego shall be specially protected by wire or metal screens, netting, guards, or other materials and procedures designated or approved by the Health Officer so installed as to prevent rats from gaining entrance to such docks or wharves at either high or low tide from vessels anchored or moored alongside or from other sources. All food products and other goods, wares, and merchandise stored in or on docks or wharves shall be so kept, stored, and specially protected as to prevent rats from gaining access thereto or coming in contact therewith.

Section 7. PUBLIC MARKETS AND STANDS: Public, curb, or farmers' markets and other markets in which fruits, vegetables, meats, or any other food products are exposed or offered for sale on racks, stands, platforms, or in vehicles alongside, shall have floors paved with concrete, asphalt, or other material impervious to rats for the entire surface area of the market. Display racks, stands, or platforms on which foods are displayed or offered for sale shall be at a distance of not less than eighteen (18) inches from the floor and shall be so constructed that rats cannot hide or harbor therein or thereunder.

Section 8. REMOVING AND RESTORING RAT-PROOFING: Any contractor, public utility, person or individual who makes any alterations or repairs on a building or who installs any wires, conduits, or pipes, or who makes any other installation, or who for any other reason removes existing rat proofing, and does not restore the rat-proofing in a proper condition as soon as is practicable, or who makes new openings by which rats may enter buildings from the ground, or by climbing or burrowing, shall be deemed guilty of a misdemeanor.

Section 9. STORING FOOD AND FEED: All food or feed kept within the corporate limits of the City of San Diego for feeding humans, horses, cows, pigs, chickens and other animals and fowl shall be kept in rat-free and rat-proofed containers, compartments, or rooms, unless the entire building is rat-proofed. Sacks of grain, flour, feed, and other material upon which rats might feed shall be piled in small separate piles away from walls and from other piles; and preferably not resting directly upon the floor, in such a way as to prevent the formation of rat-harborage, even in rat-proof buildings.

#### Section 10. GARBAGE, SCRAPS OF FOOD, ETC:

(A) The occupants of all buildings, including both business buildings and private residences, shall provide an adequate number of covered metal containers approved by the Health Officer in which all garbage or refuse, consisting of waste vegetable, fish, or animal matter of any kind, including all small dead animals which may serve as rat food, shall be placed and stored so that such items may not be accessible to rats until removed from the premises by the garbage collectors. Partly or completely filled garbage containers shall be tightly covered at all times.

(B) It shall be unlawful for any person to dump or place on any land or waterway within the City of San Diego any dead animals, butchers' or fishermen's offal, or any waste vegetable, fish, or animal matter, or any other matter whatsoever suitable as a food for rats, except upon proper garbage fills designated and approved by the Health Officer or City Manager.

(C) No garbage, rubbish, trash, or manure shall be placed, left, dumped, or permitted to accumulate or remain in any building or premises in the City of San Diego so that same shall or may afford food, harborage, shelter, or breeding place for rats.

(D) All establishments where employees eat lunches on the premises shall provide a sufficient number of suitable metal containers with tight fitting covers in which the employers shall cause to be placed all remnants of such lunches so that they will not be accessible to rats at any time.

(E) Whenever there is evidence of rat infestation of any theatre or other place of amusement wherein the audience eats peanuts, popcorn, or other foods, the Health Officer may require that all particles or remnants of all such foods shall be removed from the floors of the place of amusement immediately after the last performance each evening.

Section 11. RAT HARBORAGES DUE TO DISORDERLY ACCUMULATIONS, DEBRIS, ETC.: It shall be unlawful for any person to permit any premises, whether improved or unimproved, or any open lot or alley, to accumulate lumber, boxes, barrels, bricks, stones, junk, debris, or similar materials unless same is piled in an even and orderly manner upon open racks elevated not less than eighteen (18) inches above the ground and away from walls of buildings or other structures, so that those materials will not afford a shelter or harborage for rats.

Section 12. NOTICES: All notices and orders required by this ordinance to be given by the Health Officer to any person shall be given substantially in the following manner: The notice or order shall be in writing, and shall state in general terms what is required of the person or persons to whom it is directed; one copy of such notice or order shall be posted in a conspicuous place upon the building or premises to which such notice or order refers, or in lieu of such posting, one copy of such notice or order may be delivered to any person in possession or control of such building or premises, or his agent; one copy of such notice or order shall be delivered personally to, or sent by registered mail addressed to, any person who owns or is in possession or control of such building or premises, or his agent, if the name and address of such person is known to the Health

Section 15. SAVINGS CLAUSE: If any section, subsection, sentence, clause, phrase, or word of this ordinance is for any reason held to be unconstitutional, void, or invalid, the validity of the remaining portions of this ordinance shall not be affected thereby.

Section 16. DATE EFFECTIVE: This is an ordinance for the immediate preservation of the public health and safety, for the reasons hereinabove set forth in the preamble, and shall take effect and be in force from and after its passage.

ORDINANCE NO. 3088 (New Series)  
 AN ORDINANCE AMENDING SECTION 2 AND SECTION 4 OF ORDINANCE NO. 2786, NEW SERIES, ADOPTED MARCH 7, 1944.

BE IT ORDAINED, By the Council of The City of San Diego, as follows:

Section 1. That Section 2 of Ordinance No. 2786, New Series, of the Ordinances of The City of San Diego, entitled, "An Ordinance providing for the extension of water mains at the expense of applicants therefor, and providing for the refund to such applicants of a proportionate share of the cost to be paid by subsequent applicants for service connections to such mains.", adopted March 7, 1944, be, and the same is hereby amended to read as follows:

"Section 2. When an application is made for water service which requires a water main extension to serve property not conventionally subdivided into city lots, the area shall be considered acreage, and the extension shall be made at the expense of the applicant as hereinafter provided.

"The required extension shall originate at the nearest adequate existing water main, consistent with distribution system efficiency and operation, as determined by the Manager, and shall extend to and full length along the property to be provided with water service."

Section 2. That section 4 of said Ordinance No. 2786, New Series, be, and the same is hereby amended to read as follows:

"Section 4. As provided in Section 1, the cost of an extension shall be borne by the applicant requiring such extension, in conformity with the following provisions:

"(a) Upon receipt of an application for water service which requires an extension, when such application is properly filled out and provides an accurate description of the property to be served, the Manager shall cause the Department to prepare a map showing the area to be benefited by such extension and to make an estimate of cost of installation of the proposed extension. The applicant shall then deposit a sum of money equal to this estimated cost, with the City. Following receipt of such deposit, the Manager shall cause the proposed extension to be constructed. Or, upon approval of the Manager and subject to specifications of and inspection by the Department, the proposed extension may be installed by private contract at the applicant's sole expense with no refund provisions applicable thereto. Upon completion of an extension, which has been provided for by a deposit with the City, the actual cost of making such extension shall be determined. This actual cost shall be divided by the number of square feet in the area benefited by such extension, as determined by the Manager, and the resulting unit cost per square foot thus determined shall be the basis for making refunds to the applicant who made the deposit, and for determining the water main construction charges to be made for future service connections to the extension. In event the applicant's deposit for estimated costs of installation of an extension exceeds the actual cost of such installation, the excess shall be refunded to the applicant, and in the event the deposit is less than the actual cost of installation the applicant shall be liable to the City for such deficiency.

"(b) Where extensions are hereafter installed at no expense to the City, either from its General Fund, Water Department Funds or bond funds, the water main construction charges received by the City for subsequent service connections to the extension, for a period of ten (10) years following the date of completion of the extension, shall be refunded to the person who paid for such extension or to his successors or assigns as hereinafter provided.

"Sale of the property herein referred to and conveyance of the title thereof shall constitute an assignment to the purchaser of said property, and payments of such amounts as become due to the maker thereof or the purchaser of said property shall constitute a discharge of the obligation to the City of the amount so paid.

"After the expiration of the ten-year period, any amount left from the original deposit or any water main construction charges subsequently received, becomes the sole property of the City.

"A water main construction charge for each and every service connection to an extension installed under the provisions of this ordinance shall be paid before such service connection is made. The water main construction charge is separate from and is in addition to the service connection charge required by any other ordinance of the City. The service connection charges as defined above are not refundable. Water construction charges shall be determined by multiplying the number of square feet of ground area to be benefited by such service connection by the unit cost per square foot as defined above. Any property lying within the area to be benefited by the extension, as determined in part (a) of this section, shall pay a water main construction charge as determined above before water service will be supplied such property. Water service shall be discontinued immediately when found to be supplied to any property within or without the area benefited if the water main construction charge for service to that property has not been paid.

"(c) The cost of installing a water main extension less than six inches in diameter shall be borne entirely by the applicant and there shall be no refund provisions for future service connections to such an extension.

"(d) The cost of making an extension larger than six inches in diameter, when such larger diameter extension is recommended by the Manager, shall be provided for as follows: The estimated cost of a six-inch water main shall be provided for by a deposit made by the applicant and the difference in cost between a six-inch water main and the larger diameter actually installed shall be borne by the City except as provided in section 5. Subsequent water main construction costs shall be based on the estimated cost for a six-inch main, and the refunds to the applicant who made the deposits as hereinbefore provided shall be upon such basis."

Section 3. This ordinance shall take effect and be in force on the thirty-first day from and after its passage.

(SUBDIVISION ORDINANCE), ADOPTED NOVEMBER 24, 1936.

WHEREAS, with the successful termination of hostilities in which the United States has been lately engaged with certain powers, there now exists a shortage of housing facilities for the civilian population of The City of San Diego; and

WHEREAS, certain requirements of the present subdivision ordinance are such as to delay the building of said facilities for said civilian population because of shortages of materials and the lack of labor to comply with the regulations in said ordinance; and

WHEREAS, it is the opinion of this Council that the public health and safety would be preserved by the immediate amendment of said ordinance for the purpose of saving time, and sooner providing for said housing facilities; and

WHEREAS, this ordinance is one for the immediate preservation of the health and safety of the citizens of San Diego and for that reason is declared to be an emergency measure; NOW, THEREFORE,

BE IT ORDAINED, By the Council of The City of San Diego, as follows:

Section 1. That section 7 of Ordinance No. 1025, New Series, of the Ordinances of The City of San Diego, entitled, "An Ordinance establishing regulations for the subdivision of land, and for the dedication and acceptance of land for public use, and the preparation of plats, and the procedure for the approval thereof; and repealing all ordinances and parts of ordinances in conflict herewith.", adopted November 24, 1936, be, and the same is hereby amended to read as follows:

"Section 7. IMPROVEMENTS.

"(A) The subdivider shall improve all land dedicated for streets, highways or other public ways in the manner and to the extent as set forth and required in the resolution of the City Council provided for under the provisions of Section 4 of this Ordinance. In addition to such other improvements as the Council may determine and declare in such resolution, the subdivider shall in every instance be required to grade the streets to provide convenient access to each of the lots of said subdivision, and to install water and sewer mains or sanitary system. The size and location of such water and sewer mains or sanitary system must receive the approval of the City Council.

"(B) In event improvements of all lands dedicated for streets, highways or other public ways required by the resolution referred to in Subdivision (A) of this section have not been made, installed and completed at the time the final map is presented to the City Council for acceptance, no such map shall be accepted by the City Council unless the subdivider, prior to or simultaneously with the presentation thereof to the City Council, shall have complied with and performed the following requirements, to-wit:

"(1) The subdivider shall file with the City Clerk detailed plans and specifications, bearing the approval of the City Engineer, for all of the improvements not already completed and installed required to be made or installed by the resolution of the Council referred to in Subdivision (A) of this section; together with a detailed estimate made or approved by the City Engineer of the cost of such improvements, and an estimate of the time reasonably necessary to complete the same.

"(2) The subdivider shall enter into a contract with The City of San Diego, approved as to form and legality by the City Attorney, to make, install and complete all the improvements not already installed and completed required by the resolution of the City Council referred to in Subdivision (A) of this ordinance; and shall accompany the same by a faithful performance bond, issued by a surety company, acceptable to the City in favor of The City of San Diego, in a penal sum equal to the City Engineer's estimated cost of the improvements, which said bond shall have been approved as to its form and legality by the City Attorney, and approved by the City Manager. Such contract shall also be accompanied by a good and sufficient bond, the form and legality of which shall be approved by the City Attorney, issued by a surety company acceptable to The City of San Diego, in such amount as may be required by law on such bonds on other public contracts, and by its terms made to inure to the benefit of laborers and materialmen upon such work and improvements, conditioned upon the payment of such laborers and materialmen for labor or material performed or rendered under the terms of said contract.

"Surety companies to be acceptable to the City shall be on the accredited list of the United States Treasury Department, and holding a certificate under the Acts of Congress of August 13, 1894, and March 23, 1910.

"Provided however, that in the event that the subdivider desires to submit cash in lieu of the faithful performance bond and the labor and material bond hereinbefore referred to, he may do so by depositing with the City Treasurer a sum of money equal to the total of the face value of the two bonds hereinbefore required; and

"Provided further, that if the streets have not been graded or the water mains installed, then said subdivider shall be required to deposit cash only, and in an amount not less than one and one-half times the estimated cost, or such sum as may be recommended by the City Manager, whichever is greater, and in that event, the subdivider shall agree in the contract with the City hereinbefore provided for, that if the said work is not performed within the estimated time said sum so deposited with the City Treasurer shall be in full payment by said subdivider to the City for the grading of said streets and/or the installation of said water mains.

"The time of performance of said contract shall be the period estimated by the City Engineer to be reasonably necessary to complete the improvements, subject to the right of the Council to lessen or extend the same."

D. In determining whether the public convenience and necessity require the operation of an automobile or automobiles for hire, for which application is made, the Council or the City Manager, if directed by the Council, shall hold such public hearings as may be necessary to determine that fact. In the event such hearings are conducted by the City Manager he shall report his findings in writing to the Council and recommend the granting or denial of such application or applications.

ORDINANCE NO. 3154 (New Series)

AN ORDINANCE AMENDING ORDINANCE NO. 258 (NEW SERIES) (ADMINISTRATIVE CODE) OF THE ORDINANCES OF THE CITY OF SAN DIEGO, ADOPTED JUNE 28, 1933, BY ADDING FIVE NEW SECTIONS THERETO, TO BE NUMBERED SECTION 13.05, SECTION 13.06, SECTION 13.07, SECTION 13.08 AND SECTION 13.09.

WHEREAS, shortages of material and labor, and laws and regulations of the Government of the United States and its various agencies, made and enforced to secure the most effective use of the resources of the nation in prosecution of the war against Germany, Italy and Japan, have made it impossible at any time since the year 1941 to construct as many additional dwelling-houses in and near The City of San Diego as are necessary to furnish adequate shelter for the present population of The City of San Diego and its immediate vicinity; and

WHEREAS, during said period of time, large numbers of people have moved into The City of San Diego and into the immediate vicinity thereof, and still reside there; and the number of people now residing within and in the immediate vicinity of The City of San Diego greatly exceed the capacity of all existing dwelling-houses therein which are suitable for human occupancy, whereby large numbers of persons are unavoidably compelled to live in buildings which are unsanitary and otherwise unfit for human occupancy, and other large numbers are compelled to share their housing accommodations with greater numbers of people than such buildings can accommodate with reasonable comfort and safety to the occupants thereof; and the presence of this great addition to the population of The City of San Diego and the immediate vicinity thereof appears to be permanent; and

WHEREAS, by reason of the said crowding of large numbers of persons into buildings which are unsanitary and otherwise unfit for human occupancy, there has been created a condition highly favorable to the outbreak and spread of many dangerous epidemic diseases, and the public health and safety of The City of San Diego and the immediate vicinity thereof are greatly endangered thereby; and

WHEREAS, the only possible way in which the aforesaid danger to the public health and safety can be remedied is by the construction, within The City of San Diego and the County of San Diego of many thousands of additional buildings suitable for human occupancy, and it is necessary that the construction of said additional buildings be accomplished with the utmost dispatch, if possible, before the actual outbreak of epidemics of dangerous diseases; and

WHEREAS, the largest and best source of the necessary building materials now available consists of the buildings and component parts and materials and equipment thereof now situated in Camp Callan and other camps and facilities erected by the United States Government and its various agencies in and near The City of San Diego, some of which have been or will be acquired by The City of San Diego; and the immediate preservation of the public health and safety within The City of San Diego makes it imperatively necessary that such buildings and building materials be made available for use within The City of San Diego and in the vicinity thereof, without any avoidable delay; and this ordinance is hereby declared to be an emergency measure; NOW, THEREFORE,

BE IT ORDAINED By the Council of The City of San Diego, as follows:

Section 1. That Ordinance No. 258 (New Series) of the ordinances of The City of San Diego, entitled, "An Ordinance enacting an Administrative Code for The City of San Diego, in accordance with the provisions of Section 26 of the Charter of The City of San Diego, creating and establishing certain offices, departments and boards; creating and establishing certain positions in the service of said City and establishing titles therefor; defining the general powers of the administrative officers, departments and boards; regulating the conditions of employment of employees and officers of said City; and establishing general administrative procedures for the conduct of the affairs of said City," adopted June 28, 1933, be, and the same is hereby amended by adding five new sections thereto, to be numbered Section 13.05, Section 13.06, Section 13.07, Section 13.08 and Section 13.09, which said sections shall read as follows:

"Section 13.05. Of the buildings, structures, building materials, machinery, supplies and equipment of Camp Callan, and such other camps, housing facilities, buildings, building materials, machinery, supplies and equipment as The City of San Diego may acquire for the purpose of making available buildings and building materials to alleviate the shortage of housing accommodations and facilities suitable for human occupancy within and near The City of San Diego, the City Manager is hereby empowered to determine:

(a) Which of said buildings, structures, building materials, machinery, supplies and equipment are suitable for use in the construction, reconstruction, alteration or repair of dwelling houses suitable for human occupancy; and

(b) Which are not suitable for such use."

"Section 13.06. Such buildings, structures, building materials, machinery, supplies and equipment which are suitable for use in the construction, reconstruction, alteration or repair of dwelling houses suitable for human occupancy shall be sold by the Purchasing Agent of The City of San Diego at fair and reasonable prices to be fixed by the City Manager within any lawful limitations upon the prices at which such articles may be sold, and they shall be so sold only for the purpose of providing additional dwelling houses suitable for human occupancy within the County of San Diego, State of California, and not elsewhere.

The City Manager shall prescribe such rules and regulations as he shall deem necessary or convenient in order to restrict the sale and use of any of such buildings, structures, building materials, machinery, supplies and equipment exclusively for the construction, reconstruction, alteration or repair of dwelling houses suitable for human occupancy within said County of San Diego, and not elsewhere."

"Section 13.07. Such of said buildings, structures, building materials, machinery, supplies and equipment as are not found to be suitable for use in the construction, reconstruction, alteration or repair of dwelling houses may be sold by the Purchasing Agent of The City of San Diego to the highest, responsible bidder therefor, after publication of notice to bidders for not less than three (3) successive days, which notice shall specify the last day on which bids will be received, which shall be not less than two (2) days after the last day on which said notice shall be published.

Notwithstanding anything contained in this section, the City Manager, by and with the approval of the City Council, may sell such buildings, structures, building materials, machinery, supplies and equipment as are not suitable for use in the construction, reconstruction, alteration or repair of dwelling houses to any church, religious or charitable organization, political subdivision, public agency, or public utility without advertising for bids, or by restricting the bidders in a particular case to any one or several of the categories enumerated herein; provided, however, that no such sale shall be made to any church, religious or charitable organization, political subdivision, public agency or public utility other than those situated or doing business within the County of San Diego; provided, further, that such of said building materials, machinery, supplies and equipment as are found not to be suitable for use in the construction, reconstruction, alteration or repair of dwelling houses, and upon which lawful limitations have been placed on the selling prices of them, or any of them, may be sold by the Purchasing Agent at fair and reasonable prices within such lawful limitations, but without the necessity of advertising for bids and without the necessity of selling such building materials, machinery, supplies and equipment to the highest responsible bidder. The City Manager may prescribe such rules and regulations as he shall deem necessary and convenient to carry out this provision, and may afford an opportunity for competition."

"Section 13.08. The City Manager may use appropriate city forces, materials and equipment, or may contract with any person, firm or corporation to furnish any or all necessary labor, materials and equipment, or both, as the City Manager may determine to be most efficient, expeditious and economical for the purpose of moving, altering, constructing, reconstructing or demolishing in whole or in part any building or structure, or for the purpose of performing any process or operation upon any building materials or equipment, for the purpose of making the same or any part thereof available for the

alleviation of the shortage of dwelling houses suitable for human occupancy within and near The City of San Diego.

Whenever the City Manager shall determine that the time required to advertise for bids and let a contract thereon for any of the aforesaid purposes will materially delay the process of making any such building, structure, building materials, machinery, supplies and equipment available for the purpose of alleviating said shortage of dwelling houses, the City Manager may, without advertising for bids, but after affording an opportunity for competition, contract with any person, firm or corporation to furnish any or all necessary labor, materials and equipment needed for any of the aforesaid purposes at fair and reasonable prices or rates to be specified in said contract."

"Section 13.09. The provisions of Sections 13.05, 13.06, 13.07 and 13.08 shall apply only to such buildings, structures, building materials, machinery, supplies and equipment as may constitute any portion of Camp Callan, or such other camps, housing facilities, buildings, building materials, machinery, supplies and equipment as The City of San Diego has or may hereafter acquire for the purpose of making available buildings and building materials to alleviate the shortage of housing accommodations and facilities suitable for human occupancy within or near The City of San Diego."

Section 2. This is an ordinance for the immediate preservation of the public health and safety of The City of San Diego and its inhabitants, for the reasons set forth in the preamble hereof, and shall take effect and be in force from and after its passage.

Section 3. All classifications and rates designated in this ordinance by the number "(1)" carry a standard work week of forty-eight (48) hours; those carrying the number "(2)" carry a standard work week of seventy-two (72) hours; and all others carry a standard work week of forty (40) hours.

Section 4. (a) When a foreman is regularly in charge of the work of employees, some of whom are being paid at a salary which is only one rate lower than that of their foreman, the salary of such foreman may be increased to the next standard rate above that determined for his classification.

(b) A foreman classification in which the work is performed daily, and generally in which his duties must be performed under substantially less supervision and requiring performance of work at the journeyman level, such foreman may have his classification reviewed by the Civil Service Commission and the rate established on the basis of supervision of such journeyman.

Section 5. Notwithstanding the fact that the schedule of compensation for a given classification may carry a lower rate of pay than that which any employee is now receiving, no incumbent's salary shall be reduced, and said employee or employees shall continue to receive the present salary in the new classification, which rate of compensation shall be designated "Y" rate.

Section 6. Rates established under the provisions of this ordinance may be reviewed no earlier than thirty (30) days nor longer than six (6) months from and after the certification of such employee, or from the effective date of this ordinance, whichever is later; provided, however, that all reviews shall be made periodically on the first day of each month.

Section 7. Except as otherwise provided in the Charter of The City of San Diego, and upon the recommendation of the head of the department, or appointing authority, and the approval of the Civil Service Commission, increase in salary, if sufficient funds are available, may be made in all positions included within any of the "Standard Rates" numbered 1 to 38 inclusive, as follows: For each six months of continuous service in a position, the increase in salary for such position, unless otherwise provided, may be approximately five per cent (5%) of the basic entrance salary rate per month prescribed for the position, class or grade in which such employee is classified; provided, however, that not more than five (5) such seniority increases may be allowed in the same position, except where more than five (5) such seniority increases are required to reach the maximum compensation established for such position; provided, further, that increases in compensation within the limits provided for by any grade may be granted at any time by the City Manager,

or other appointing authority, upon the basis of efficiency and seniority record after having first received the approval of the Civil Service Commission therefor.

Section 8. By reason of the fact that certain positions connected with the municipal service require special technical or part-time service, or can be filled efficiently only by certain persons who may also be employed partially outside the city service, and for which it is therefore impossible or impracticable to establish in advance a definite rate of compensation, the following positions are hereby declared to be of a contractual character, and compensation for the performance of the duties thereof shall from time to time be fixed by contract between the City and the person or persons performing service:

- Archaeologist Docent
- Bacteriologist
- Chief Curator
- Curator (San Diego Museum, Serra Museum, or Natural History Museum)
- Director, San Diego Museum
- District Water Bills Collector
- Organ Tuner

Section 9. Whenever the duties of a position are of such a character as to require the employee holding the same to work regularly a number of hours per week in excess of the hours customarily worked by other city employees, upon the recommendation of the department head, or appointing authority, such employee may be paid at the next Standard Rate above the rate for the class in which such position is found, as herein provided.

Section 10. That Ordinance No. 3011 (New Series), adopted May 31, 1945, Ordinance No. 3060 (New Series), adopted September 4, 1945, Ordinance No. 3078 (New Series), adopted October 2, 1945, and Ordinance No. 3126 (New Series), adopted January 22, 1946, be, and the same are hereby repealed.

Section 11. This ordinance shall take effect and be in force on the thirty-first day from and after its passage.

#### ORDINANCE NO. 3201 (New Series)

#### AN ORDINANCE ESTABLISHING AND LEVYING A SALES TAX ON RETAIL SALES WITHIN THE CITY OF SAN DIEGO, STATE OF CALIFORNIA

BE IT ORDAINED By the Council of The City of San Diego, as follows:

Section 1. For the privilege of selling tangible personal property at retail a tax is hereby imposed upon all retailers at the rate of one-half of one per cent of the gross receipts of any retailer from the sale of all tangible personal property sold at retail in The City of San Diego on or after July 1, 1946. The tax imposed by this section is in addition to any and all other taxes imposed by The City of San Diego. Said taxes shall be collectible monthly or quarterly as the rules and regulations hereinafter referred to shall provide.

Section 2. The tax hereby imposed shall be collected by the retailer from the consumer in so far as it can be done.

Section 3. It is unlawful for any retailer to advertise or hold out or state to the public or to any customer, directly or indirectly, that the tax or any part thereof will be assumed or absorbed by the retailer or that it will not be added to the selling price of the property sold or that if added it or any part thereof will be refunded.

Section 4. The Treasurer of The City of San Diego for good cause may extend for not more than thirty (30) days the time for making any return or paying any sum required to be paid hereunder. The extension may be granted at any time provided a written request therefor is filed with the Treasurer of The City of San Diego prior to the delinquent date.

All taxes payable hereunder shall be deemed delinquent if not paid within the time required. Whenever any tax required to be paid by this section is not paid on or before the date on which it becomes delinquent, a penalty of 10% of the amount due shall be imposed and an additional penalty of 5% of the original tax shall be added at the close of business on the last day of each calendar month thereafter. Every penalty shall become a part of the tax imposed by this section. In no case, however, shall the total penalty exceed 50% of the original tax.

Section 5. Every person desiring to engage in or conduct business as a seller within The City of San Diego shall secure from the City Treasurer of said City a permit for each place of business. Such permits shall be issued by the City Treasurer upon receipt of a written application therefor setting forth the name under which the applicant transacts or intends to transact business, the location of his place or places of business and such other information as the City Treasurer may require. A permit is not assignable and is valid only for the person in whose name it is issued and for the transaction of business at the place designated therein. A change of location may be endorsed upon the permit by the City Treasurer upon the payment of a fee of \$1.00. The permit shall at all times be conspicuously displayed at the place for which issued.

Section 6. Whenever any person fails to comply with any provisions of this ordinance, or of any rule or regulation adopted pursuant thereto, the City Treasurer upon hearing, after giving such person ten (10) days' notice in writing specifying the time and place of hearing, and requiring him to show cause why his permit or permits should not be revoked, may revoke or suspend any one or more of the permits held by such person. The notice may be served personally or by registered mail. The City Treasurer shall not issue a new permit after the revocation of a permit unless he is satisfied that the former holder thereof will thereafter comply with the provisions of this ordinance and the rules and regulations adopted pursuant hereto, and until a fee of \$1.00 is collected therefor; provided, however, that before any such sales tax permit shall be revoked after determination by the City Treasurer that good cause has been shown that such permit should be revoked, said permittee may within five (5) days appeal to the City Council of The City of San Diego from said determination, and the ruling of said City Council thereon shall be final.

Section 7. Any person who engages in the business as a seller in this City without a permit or permits or after a permit has been suspended or revoked, and each officer or any corporation who so engages in business, is guilty of a misdemeanor.

Section 8. For the purpose of the proper administration of this ordinance, and to prevent evasion of the sales tax, it shall be presumed that all gross receipts are subject to the tax until the contrary is established by the permittee.

Section 9. The City Treasurer may, and he is hereby authorized at his option, to accept a State of California Resale Certificate as evidence that any sale is not a sale at retail, or he may in his discretion require an affidavit from the seller setting forth such information respecting such sale as he deems necessary to determine the nature of such sale.

Section 10. All of the provisions of the State Sales and Use Tax Law, Part I, Division 2, of the Revenue and Taxation Code of the State of California, as amended and in force and effect on January 1, 1946, except the provisions pertaining solely to the use tax, and Sections 6051, 6052, 6053, 6069, 6070, 6071, 6459, 6481 to 6591, inclusive, 6901 to 6937, inclusive, 6981 and 7101 to 7153, inclusive, applicable to sales of property at retail, are hereby adopted and made a part of this ordinance as though fully set forth herein, and all provisions of any ordinance of The City of San Diego in conflict therewith are inapplicable to this ordinance and the tax hereby imposed.

All of the provisions of the California Sales and Use Tax Law hereby adopted providing for the performance of official action on the part of the State Board of Equalization shall be performed by the City Treasurer of The City of San Diego. The City of San Diego shall be deemed substituted for the State of California whenever the State is referred to in said provisions, unless another meaning is clearly evidenced. All taxes hereby levied shall be payable to the City Treasurer of The City of San Diego, and any civil suit for the collection thereof may be filed in any court of competent jurisdiction in the State of California, and the City Attorney of said City shall prosecute the action.

Section 11. The term "gross receipts," as used herein, does not include (1) the amount of any federal tax imposed upon or with respect to retail sales, whether imposed upon the retailer or upon the consumer, and regardless of whether or not the amount of federal

tax is stated to customers as a separate charge; and (2) the amount of any California State Sales or Use Tax.

The term "gross receipts" includes the amount of any manufacturers' or importers' excise tax included in the price of the property sold, even though the manufacturer or importer is also the retailer thereof and whether or not the amount of such tax is stated as a separate charge.

Section 12. The City Treasurer shall administer and enforce the provisions of this ordinance, and shall prescribe, adopt and enforce reasonable rules and regulations for the purpose of administering and enforcing this ordinance. Each of said rules and regulations which relate to the time, form and manner of making returns in payment of the taxes imposed hereby shall govern notwithstanding any other provision of this ordinance to the contrary. Such rules and regulations may, among other things, require each retailer to keep such records, receipts, invoices and other pertinent papers in the manner set forth therein; provided, however, that before any rules or regulations of said City Treasurer shall be of any force and effect, they shall first be approved and adopted by resolution of the City Council of The City of San Diego; and provided, further, that in so far as applicable the rules and regulations of the State Board of Equalization pertaining to the interpretation, administration and enforcement of the provisions of the Revenue and Taxation Code of the State of California shall apply in the interpretation of this ordinance until specifically abandoned by rules or regulations adopted by the City Treasurer pursuant to the authority granted under this section.

Section 13. The tax hereby levied, except as otherwise herein provided, is levied in the same manner and to the same extent and under the same conditions as sales taxes are levied pursuant to Part I, of Division 2 of the California Revenue and Taxation Code, known as the Sales and Use Tax Law, as amended and in force and effect on January 1, 1946.

Section 14. The inclusion of any clause, portion or part of the State Sales and Use Tax Law, Part I, Division 2 of the Revenue and Taxation Code of the State of California, verbatim in this ordinance shall not in or of itself be deemed to exclude any of the remaining provisions of said Sales and Use Tax Law that are made a part hereof by reference only.

Section 15. If any section, subsection, sentence, clause, phrase, or portion of this ordinance, including but not limited to any exemption, is, for any reason, held to be invalid or unconstitutional by the decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portions of this ordinance. The Council of this City hereby declares that it would have adopted this ordinance, and each section, subsection, sentence, clause, phrase or portion thereof, irrespective of the fact that any one or more sections, subsections, clauses, phrases or portions be declared invalid or unconstitutional.

Section 16. This ordinance shall take effect and be in force on the thirty-first day from and after its passage.

#### ORDINANCE NO. 3233 (New Series)

AN ORDINANCE OF THE CITY OF SAN DIEGO TO PROVIDE A METHOD OF INSTALLING SEWER MAIN EXTENSIONS BY THE CITY OF SAN DIEGO OTHER THAN BY PUBLIC IMPROVEMENT PROCEEDINGS; PROVIDING A METHOD OF CONTRIBUTION BY PROPERTY OWNERS DESIRING TO CONNECT THERETO; AND PROVIDING A METHOD OF ESTABLISHING THE RATE TO BE CHARGED FOR SUCH CONNECTION.

BE IT ORDAINED By the Council of The City of San Diego, as follows:

Section 1. Whenever any person applies for a connection to a sewer main which shall have been installed in any manner other than by public improvement proceedings for which assessments are levied, and neither said person nor his predecessor in interest has paid the proportionate share of the cost of said sewer main with respect to the property to be served, no such application shall be acted upon or approved unless and until said person shall have paid to The City of San Diego his proportionate share of the cost of said sewer main.

Section 2. From and after the effective date of this ordinance, when a sewer main has been installed in any manner other than by a public improvement proceeding for which assessments are levied, and the cost thereof shall have been paid by certain property owners and/or The City of San Diego, it shall be the duty of the City Engineer, before accepting the work, to determine the cost of such improvement and the boundaries of the area of all property that will be benefited by said sewer main.

Section 3. The City Engineer shall prepare a plat and indicate the boundaries of the area that will be benefited by the sewer main extension, and shall determine a rate per square foot to be charged to the area benefited by said sewer main extension.

The plat of the area benefited by said sewer main extension, together with the rate per square foot to be charged for connecting to said sewer main extension shall be filed in the office of the City Clerk, and shall be approved by resolution of the Council of The City of San Diego.

Section 4. From and after the effective date of this ordinance when a sewer main extension has been installed and the district to be benefited, together with the rate to be charged for such connection has been approved by the Council of The City of San Diego, any property owner who has not either himself or through his predecessor in interest contributed toward the cost of such installation, shall pay to The City of San Diego, in addition to any sewer main connection charges required by any ordinance of The City of San Diego, the proper charge for said sewer main extension, at the rate per square foot provided for by resolution of the Council of The City of San Diego.

Section 5. All moneys collected under the provisions of this ordinance shall be deposited by the Treasurer of The City of San Diego into the Sewer Main Extension and Connection Trust Fund created by Ordinance No. 3235 (New Series). The City Treasurer shall refund to the person or persons who paid for such extension, or to his successor in interest, all moneys so collected; provided, however, that such refund shall not include the fees chargeable against the property of the person or persons who caused said extension to be installed, or who had contributed to its original cost, nor to his or their successors in interest. The fees chargeable to said property shall be proportionate on the basis of the benefits accruing to said property at the rate per square foot determined in the manner provided in this ordinance.

Section 6. Whenever a petition is filed with the City Council requesting the installation of a sewer main extension, and the signers thereof agree to contribute all or a part of the cost thereof, the City Council may by resolution authorize the City Manager to prepare plans and specifications, advertise for bids, and enter into a contract to do the work. All incidental expenses and the cost of the work shall be paid out of the "Sewer Main Extension Revolving Fund," created by Ordinance No. 3234 (New Series). It is hereby declared to be the express policy of The City of San Diego that no contributions

by The City of San Diego will be made nor refunds to property owners be given where any sewer main extension is installed by private contract after the effective date of this ordinance.

Section 7. Upon completion of any sewer main extension, and its acceptance by the City Engineer, said City Engineer shall file with the City Clerk a statement in writing setting forth the total cost of such extension, the parties contributing thereto, including the City's contribution, if any, and any other pertinent information concerning said installation.

Section 8. The sale of any property referred to herein or affected hereby, and the transfer of title thereto, shall constitute an assignment of the rights and benefits accruing to any contributing property owner, and payments of any sums which may become due to the original payer or in the case of a sale of said property to the transferee thereof, shall constitute a discharge of the obligation of the City of the amount so paid. The burden of proof is on the person claiming a refund that he is entitled thereto, and shall present satisfactory proof of his title to the real property involved.

Section 9. The fees established by this ordinance are in addition to those permit fees required by other ordinances of The City of San Diego not inconsistent herewith; provided, however, that no fee required by this ordinance to be paid shall be collected for additional connections where the fee for the original connection shall have been paid.

Section 10. In connecting private property to a public sewer main, the fees described herein shall be paid on all of the contiguous property under the same ownership or control, which is being put to a joint use thereof or clearly intended to be used jointly, or, in any way connected with the property desired to be connected, regardless of lot lines or property division lines.

Section 11. The sewer main extensions referred to in this ordinance do not include, nor does this ordinance affect, any sewer main extensions installed by any agency of the Federal Government, or those installed with funds raised by the issuance of general obligation bonds of said City.

Section 12. DEFINITIONS:

The meaning of the various terms, as used in this ordinance, shall be as follows:

"Applicant" shall mean a person, firm or corporation who applies for connections to the sewer system;

#### ORDINANCE NO. 3239 (New Series)

AN ORDINANCE OF THE CITY OF SAN DIEGO ACCEPTING THE PROPOSAL OF THE SAN DIEGO ELECTRIC RAILWAY COMPANY FOR THE RESTORATION OF CERTAIN STREETS AND THE REMOVAL OF CERTAIN TRACK AND OVERHEAD STRUCTURES IN CONNECTION WITH THE SUBSTITUTION OF BUS SERVICE FOR RAILWAY SERVICE ON CERTAIN STREET RAILWAY LINES WITHIN SAID CITY, AND RELIEVING THE SAID SAN DIEGO ELECTRIC RAILWAY COMPANY FROM ALL OBLIGATION UNDER THE PROVISIONS OF ITS SEVERAL

FRANCHISES WITH RESPECT TO TRACK REMOVAL AND STREET RESTORATION ON SAID LINES WHERE BUS SERVICE IS SUBSTITUTED FOR STREET RAILWAY SERVICE AND ON CERTAIN OTHER STREETS REFERRED TO IN SAID PROPOSAL, EXCEPT AS SET FORTH IN SAID PROPOSAL.

WHEREAS, San Diego Electric Railway Company has filed with and presented to the Council of The City of San Diego its written Application and Offer dated July 26 (Document No. 363995), as amended by its written Amendment to Application and Offer dated August 12, 1946 (Document No. 364442); and

WHEREAS, the City Council hereby expressly finds and determines that the proposed substitution of service by modern motor bus in place of street railway service is greatly to be desired and is in the public interest, and that such service betterment cannot be had unless the City of San Diego will co-operate in the manner proposed by San Diego Electric Railway Company in its said written Application and Offer dated July 26, 1946, as amended by its said written Amendment to Application and Offer dated August 12, 1946; and that it would be a useless and unnecessary waste of money to require said San Diego Electric Railway Company to remove track structure and do street work in excess of the amount of such work offered to be done by said San Diego Electric Railway Company in its said written Application and Offer, as amended; and the public would derive no benefit therefrom; and that all the facts stated and represented in said written Application and Offer, as amended, are true, and the said offer is fair and reasonable, and it is in the interest of The City of San Diego that said offer be accepted; and

WHEREAS, all the terms and provisions of said offer have been checked in detail by the City Engineer, and the City Engineer and the City Manager have both advised the City Council that said offer is fair and reasonable and they have recommended to the City Council that said offer be unconditionally accepted by the City; NOW, THEREFORE,

BE IT ORDAINED By the Council of The City of San Diego, as follows:

Section 1. The City of San Diego does hereby accept the said written offer of San Diego Electric Railway Company contained in said written Application and Offer dated July 26, 1946 (Document No. 363995), as amended by its written Amendment to Application and Offer, dated August 12, 1946 (Document No. 364442).

Section 2. Performance by San Diego Electric Railway Company of all work in said written Application and Offer dated July 26, 1946, as amended by said written Amendment to Application and Offer dated August 12, 1946, offered to be done by San Diego Electric Railway Company, shall constitute full performance by San Diego Electric Railway Company of all of its obligations to The City of San Diego under the provisions of all its street railway franchises, or otherwise, to remove any of the track structure hereinbefore referred to and to do street work in the streets occupied thereby.

Section 3. Upon completion of the motor bus substitution program referred to herein, The City of San Diego will accept from San Diego Electric Railway Company a bill of sale transferring to the City legal title to and ownership of all track structure which is to be left in place in the streets.

Section 4. Upon completion of the work designated in the proposal of said San Diego Electric Railway Company referred to herein, and upon authorization given by the Railroad Commission of the State of California to substitute motor bus service for street railway service on those lines referred to in Document No. 363995, on file in the office of the City Clerk, the franchises of the said San Diego Electric Railway Company shall be amended to provide for such substituted service and to declare full performance by the San Diego Electric Railway Company of its track removal and street work obligations under said proposal.

Section 5. This ordinance shall take effect and be in force on the thirty-first day from and after its passage, and shall be authenticated by the signatures of the Mayor and the City Clerk, and shall be recorded in the Ordinance Book of said City of San Diego, and the City Clerk, within ten (10) days after final passage hereof, shall publish said ordinance once in The San Diego Union, a daily newspaper of general circulation printed and published in said City of San Diego.

"Every such application shall show the use or occupancy of all parts of the building and such other reasonable information as may be required by the Building Inspector.

"Copies of plans and specifications and a lot plan showing the location of the proposed building and of every existing building thereon, shall accompany every application for a permit and shall be filed in duplicate with the Building Inspector; provided, however, that the Building Inspector may authorize the issuance of a permit without plans or specifications for small or unimportant work.

Computations, strain sheets, stress diagrams, and other data necessary to show the correctness of the plans, shall accompany the plans and specifications.

"Any specifications in which general expressions are used to the effect that 'work shall be done in accordance with the Building Code' or 'to the satisfaction of the Building Inspector' shall be deemed imperfect and incomplete and every reference to this Code shall be to the section or sub-section applicable to the material to be used or to the method of construction proposed."
