ORDINANCE NO. 2786 (New Series)
AN ORDINANCE PROVIDING FOR THE EXTENSION OF WATER MAINS AT THE EXPENSE OF APPLICANTS THEREFOR, AND PROVIDING FOR THE REFUND TO SUCH APPLICANTS OF A PROPORTIONATE SHARE OF THE COST OF SUCH EXTENSIONS TO SUBSEQUENT APPLICANTS FOR SERVICE CONSTRUCTIONS TO SUCH MAINS.

BE IT ORDAINED, By the Council of The City of San Diego, as follows:

Section 1. DEFINITIONS. The meaning of various terms as used in this ordinance shall be as follows:
"CITY" shall mean: The City of San Diego;
"MANAGER" shall mean: The City Manager of The City of San Diego or his duly authorized representatives;
"DEPARTMENT" shall mean: The Water Department, Division of Distribution of The City of San Diego;
"APPLICANT" shall mean: any person, firm, or corporation who applies for water service;
"EXTENSION" shall mean: A water main extension; and
"MAIN" shall mean: An existing water main in the water distribution system of The City of San Diego.

Section 2. When an application is made for water service in which it is necessary to make a water main extension to provide such water service, the extension shall be made at the expense of the applicant as hereinafter provided.

(a) The design of an extension shall be based upon considerations of adequate capacity to meet the present and future requirements of the area to be benefitted, of distribution system operation and efficiency, of maintenance requirements, and of anticipated life of such extension.

(b) Extensions shall be located on the south and east sides of dedicated City streets or on rights-of-way granted to The City of San Diego for water main location, except that if such locations are unavailable or if in the interests of operation, efficiency, or maintenance of the distribution system, the Manager may designate some other location. Under no circumstances shall the structure be located or anchored within any water main or extension, unless provision is made for ready and easy access to any and all parts or points of such main or extension.

(c) Materials and standards of construction shall be those which have been adopted and are used by the Department for the area and class of service to be provided.

Section 4. As provided in Section 1, the cost of an extension shall be borne by the applicant requiring such extension, in conformity with the following provisions:

(a) Upon receipt of an application for water service which requires an extension, when such application is properly filled out and provides an accurate description of the property to which service shall be extended, the Manager shall cause the Department to prepare a map showing the area to be benefited by such extension and to make an estimate of cost of installation of the proposed extension. The applicant shall then deposit a sum of money equal to this estimated cost per a receipt of such sum. Following Manager shall cause the proposed extension to be constructed. Or, upon approval of the Manager and subject to specifications of and inspection by the Department, the proposed extension may be installed at the applicant's sole expense with no refund provisions applicable thereto. Upon completion of an extension which has been provided for by a deposit with the city, the actual cost of making such extension shall be determined. This actual cost shall be divided by the number of square feet in the area benefitted by such extension, as determined by the Manager, and the result shall be subtracted from the said deposit, and in the event the deposit is less than the actual cost of installation, the applicant shall be liable to the City for such deficiency.
(b) where extensions are hereafter installed at no expense to the City, either from its General Fund, Water Department funds or bond funds, the water main construction charges received by the City for subsequent service connections to the extension, for a period of ten (10) years following the date of completion of the extension, shall be refunded to the person or persons making the extensions or to his successors or assigns as hereinafter provided. After the expiration of the ten-year period, any amount left from the original deposit or any water main construction charges subsequently received, becomes the sole property of the City.

A water main construction charge for each and every service connection to an extension installed under the provisions of this ordinance shall be paid before such service connection is made. The water main construction charge is separate from and is in addition to the service connection charge required by any other ordinance of this City. The service connection charges as defined above are not refundable. Water construction charges shall be determined by multiplying the number of square feet of ground area to be benefitted by the water main or urban construction by the unit cost per square foot as determined by the Manager. All property lying within the area to be benefitted by the extension, as determined in part (a) of this section, shall pay a water main construction charge as determined above before water service connection. Water service connection shall be installed immediately when found to be supplied to any property within or without the area benefitted if the water main construction service for that property has not been paid.

(c) The cost of installing a water main extension less than six inches in diameter shall be borne entirely by the applicant and there shall be no refund provisions for future service connections to such an extension.

(d) The cost of making an extension larger than six inches in diameter, when such larger extension is recommended by the Manager, shall be provided for as follows: The estimated cost of a six-inch water main shall be provided for by a deposit made by the applicant and the difference in cost between a six-inch water main and the larger diameter actually installed shall be borne by the City, except as provided in Section 5. Subsequent water main construction costs shall be based on the estimated cost for a six-inch main, and the refunds to the applicant who made the deposits as hereinbefore provided shall be upon such basis.

Section 5. All subdivisions shall have a complete water distribution system installed before such subdivisions are accepted by the City. The design and construction of such a water distribution system shall be approved by the Manager before such system is installed. The subdividers shall install the water distribution system at their own expense for all water mains which are eight inches in diameter or less. In case a larger diameter than eight inches is recommended by the Manager, the City will pay the difference in cost between an eight-inch diameter main and the larger diameter main actually installed.

Section 6. Before any city street is paved with a permanent type of pavement, a six-inch water main shall be installed in that street. The cost of installation of such a water main shall be borne by the property to be benefited by the water main.

Section 7. This ordinance shall take effect and be in force on the thirty-first day from and after its passage.

Section 14. That Section 15 of said Ordinance No. 8924, as amended by Ordinance No. 2093, New Series, adopted April 7, 1942, be, and the same is, hereby amended to read as follows:

"Section 15. Application for any permissible variance of regulation or for any special permit as provided herein shall be made to the zoning committee in the form of a written application for a permit. Said application shall be filed with the City Planning Commission, and shall set forth in full the facts upon which the application is made; shall be accompanied by complete plans and descriptions of the property involved, and the proposed use, together with plans and elevations of all proposed buildings.

The Zoning Committee may grant a special permit if the written application for the special permit is filed with the Zoning Committee as herein provided for, shall be conditional upon the privileges granted being utilized within sixty months after the effective date of the variance. In the event some or all of said variance is not utilized within the stated period and must be diligently prosecuted to completion; otherwise the variance is automatically voided. A lapse of work for a period of three months will be sufficient to cause the invalidity of the zone variance."

The Zoning Committee may determine by rules and regulations the method of notification of the public hearing, if any to be held on the application. From the time of filing said application until the time of such hearing, the application, together with plans and other data submitted, shall be available for public inspection in the office of the City Planning Department.
The act of a majority of the Planning Commission or of the Zoning Committee when in session as a Planning Commission or as a Zoning Committee, except as otherwise provided in this ordinance, shall be deemed the act of the Planning Commission or the Zoning Committee; but any investigation, inquiry, hearing or decision which said Commission or said Committee has undertaken or to make, shall be undertaken or held or made by or before any Commissioner or Committee member, or City Planning Director or Assistant City Planning Director designated for the purpose by the Commission or Committee respective, and every order or decision made by a Commissioner or Committee member or such planning officer so designated, pursuant to such inquiry, investigation, hearing or decision, when approved or confirmed by the Commission or Zoning Committee, ordered filed in the office of the Planning Commission, shall be deemed to be the order or decision of the Commission or Zoning Committee.

At the public hearing or meeting set to consider the application for variance the applicant shall present a statement and adequate evidence for the purpose of showing:

1. That there are special circumstances or conditions applicable to the property involved, or to the intended use of the property, which do not apply generally to other property in that district;

2. That the strict application of the regulations would work unnecessary hardship and that the granting of the application is necessary for the preservation and enjoyment of substantial property rights of the petitioner, possessed by other property owners in the same zone and vicinity;

3. That the granting of such application will not materially affect the health or safety of persons residing or working in the neighborhood and will not be materially detrimental to the public welfare or injurious to the property or improvements in the neighborhood;

4. That the granting of the variance will not adversely affect the Master Plan of the City.

If the facts presented at the public hearing or by an investigation show that the requested variance comes within the purview of the Zoning Committee, it may grant the request in whole or in part upon such conditions and safeguards as it deems necessary.

The position of the applicant may be explained by an attorney for the applicant, a copy sent to the City Clerk, a copy to the Building Inspector and a copy filed in the office of the City Planning Department.

The approval of the Zoning Committee shall become final on the sixth day following its filing in the office of the City Clerk, unless during the previous five (5) days a written appeal from the decision is filed with the City Clerk asking the City Council to hold a public hearing on the matter and reverse the decision of the Zoning Committee.

If an appeal is filed within the time specified, it automatically stays proceedings in the matter until a determination is made by the Council.

Notice that an appeal has been filed shall be sent by the City Clerk to the Building Inspector and the Zoning Committee of the City Planning Commission. After an appeal is filed the City Clerk shall place the matter on the docket of the City Council. Notice of the hearing shall be given to all property owners by the City Planning Department. Sufficient time shall elapse between the filing of the appeal and the City Council hearing to permit such notices to be mailed to property owners.

The City Council, after hearing and reviewing the report of the Zoning Committee, the City Council may grant or deny the appeal, upon such terms and conditions as the City Council deems appropriate.

If the event the appeal is filed protesting a zone variance granted by the Zoning Committee or, if the appeal is caused by the denial of a variance application, it shall require five (5) votes of the City Council to override the Zoning Committee.

"The matter shall then come before the City Council shall be final and conclusive in such appeal."

That there be, and there is hereby created a special fund of the City of San Diego, California, to be known as "Rights of Way Trust and Revolving Fund," said fund to be used only for the purpose of acquiring rights of way necessary for projects having the approval of the California State Highway Commission, the costs of which are to be paid for out of the City of San Diego's share of the Quarter-cent Gas Tax Funds.

Section 2. That the sum of thirty thousand dollars ($30,000.00) be, and the same is hereby set aside and appropriated out of the Unappropriated Balance Fund of the City of San Diego, and the same is hereby transferred to the "Rights of Way Trust and Revolving Fund."

Section 2. That section 4 of said Ordinance No. 2736, New Series, be, and the same is hereby amended to read as follows:

"Section 4. As provided in Section 1, the cost of an extension shall be borne by the applicant in the following provisions:

(a) Upon receipt of a deposit in the form of a bond for water service which requires an extension, when such application is properly filled out and provides an accurate description of the property to be served, the Manager shall cause the Department to prepare a map showing the area to be benefited by such extension and to make an estimate of the cost of installation of the proposed extension. The applicant shall then deposit a sum of money equal to tis estimated cost, with the City. Following receipt of such deposit, the Manager shall cause the proposed extension to be constructed. Or, upon approval of the Manager and subject to specifications of and inspection by the Department, the proposed extension may be installed by private contract at the applicant's sole expense with no refund provisions applicable thereto. Upon completion of such extension, which may be by a deposit with the City, the actual cost of making such extension shall be determined. This actual cost shall be divided by the number of square feet in the area benefited by such extension, as determined by the Manager, and the resulting unit cost per square foot thus determined shall be the basis for making refunds to the applicant who made the deposit, and for determining the water main construction charges to be made for future service connections to the extension. In event the applicant's deposit for estimated costs of installation of an extension exceeds the actual cost of such installation, the excess shall be refunded to the applicant, and in the event the deposit is less than the actual cost of installation the applicant shall be liable to the City for such deficiency.

(b) Where extensions are hereafter installed at no expense to the City, either from its General Fund, water Department Funds or bond funds, the water main construction charges received by the City for subsequent service connections to the extension, for a period of ten (10) years following the date of completion of the extension, shall be refunded to the person who paid for such extension or to his successors or assigns as hereinafter provided.

3. Sale of the property herein referred to and conveyance of the title thereof shall constitute an assignment to the purchaser of said property, and payments of such amounts as become due due to the maker thereof or the purchaser of said property shall constitute a discharge of the obligation to the City of the amount so paid.

4. At the expiration of the ten-year period, any amount left from the original deposit or any water main construction charges subsequently received, becomes the sole property of the City.

A water main construction charge for each and every service connection to an extension installed under the provisions of this ordinance shall be paid before such service connection is made. The water main construction charge is separate from and in addition to the service connection charge required by any other ordinance of the City. The service connection charges as defined above are not refundable. Water construction charges shall be determined by multiplying the number of square feet of ground area to be benefited by the service connection by the unit cost per square foot as defined above. Any property lying within the area to be benefited by the extension, as determined in part (a) of this section, shall pay a water main construction charge as determined above before water service will be supplied and such water service shall be discontinued immediately when found to be supplied to any property within or without the area benefited if the water main construction charge for service to that property has not been paid.

5. (c) The cost of installing a water main extension less than six inches in diameter shall be borne entirely by the applicant and there shall be no refund provisions for future service connections to such an extension.

6. (d) The cost of making an extension larger than six inches in diameter, when such larger diameter extension is recommended by the Manager, shall be provided for as follows: The estimated cost of a six-inch water main shall be provided for by a deposit made by the applicant; and the larger diameter extension if added by the applicant shall be borne by the City except as provided in section 5. Subsequent water main construction charges shall be based on the estimated cost for a six-inch main and the refunds to the applicant who made the deposits as hereinbefore provided shall be upon such basis.

"(1)" carry a standard work week of forty-eight (48) hours; those carrying the number "(2)"
carry a standard work week of seventy-two (72) hours; and all others carry a standard
work week of forty (40) hours.

Section 4. (a) When a foreman is regularly in charge of the work of employees, some
of whom are being paid at a salary which is only one rate lower than that of their fore­
man, the salary of such foreman may be increased to the next standard rate above that
determined for his classification.

(b) A foreman classification in which the work is performed daily, and generally in
such seniority position, except

Section 5. Notwithstanding the fact that the schedule of compensation for a given
classification may carry a lower rate of pay than that which any employee is now receiving,
and said employee or employees shall continue to receive the present salary in the new classification,
which rate of compensation shall be designated "Y." rate.

Section 6. Rates established under the provisions of this ordinance may be reviewed
no earlier than thirty (30) days nor longer than six (6) months from and after the certifi­
cation of such employee, or from the effective date of this ordinance, whichever is
later; provided, however, that all reviews shall be made periodically on the first day of
each month.

Section 7. Except as otherwise provided in the Charter of The City of San Diego, and
upon the recommendation of the head of the department, or appointing authority, and the
approval of the Civil Service Commission, increase in salary, if sufficient funds are available,
may be made in all positions included within any of the "Standard Rates" num­
bered 1 to 38 inclusive, as follows: For each six months of continuous service in a posi­
tion, the increase in salary for such position, unless otherwise provided, may be approxi­
mately five per cent (5%) of the basic entrance salary rate per month prescribed for
the position, class or grade in which such employee is classified; provided, however, that
not more than five (5) such seniority increases may be allowed in the same position, except
where more than five (5) such seniority increases are required to reach the maximum com­
pensation established for such position; provided, further, that increases in compensation
within the limits provided for by any grade may be granted at any time by the City Manager,
Section 8. By reason of the fact that certain positions connected with the municipal service require special technical or part-time service, or can be filled efficiently only by certain persons who may also be employed partially during the other service, and for which it is therefore impossible or impracticable to establish in advance a definite rate of compensation, the following positions are hereby declared to be of a contractual character, and compensation for the performance of the duties of each shall from time to time be fixed by contract between the City and the:

Archaeologist Docent
Biologist Docent
Chief Curator
Curator (San Diego Museum, Serra Museum, or Natural History Museum)
Director, San Diego Museum
District Water Bills Collector
Organ Tuner

Section 9. Whenever the duties of a position are of such a character as to require the employee holding the same to work regularly a number of hours per week in excess of the hours customarily worked by other city employees, upon the recommendation of the department head, or appointing authority, such employee may be paid at the next standard rate above the rate for the class in which such position is found, as herein provided.

Section 4. The permit issued by the City Treasurer for the sale of any article of personal property sold at retail or for the transaction of business, is non-transferable and cannot be extended for not more than thirty (30) days the time for making any return or paying any sum required to be paid hereunder. The extension may be granted at any time provided a written request therefor is filed with the Treasurer of The City of San Diego prior to the delinquent date.

All taxes payable hereunder shall be deemed delinquent if not paid within the time required. Whenever any tax required to be paid by this section is not paid on or before the date on which it becomes delinquent, a penalty of 1/6 of 1% of the amount due shall be imposed and an additional penalty of 5% of the original tax shall be added at the close of business on the last day of each calendar month thereafter. A change of location may be endorsed upon the permit by the City Treasurer upon payment of a fee of $1.00. The permit shall at all times be conspicuously displayed at the place for which issued.

The City Treasurer shall not issue a new permit after the revocation of a permit unless he is satisfied that the former holder thereof has complied with all provisions of this ordinance and the provisions adopted pursuant hereto, and until a fee of $1.00 is collected therefor; provided, however, that before any such sales tax permit shall be revoked after determination by the City Treasurer that such permit or permits should be revoked, the City Treasurer may within five (5) days appeal to the City Council of The City of San Diego from said determination, and the ruling of said City Council thereon shall be final.

Section 10. All of the provisions of the State Sales and Use Tax Law, Part I, Division 2, of the Revenue and Taxation Code of the State of California, as amended and in force and effect, together with the provisions pertaining thereto in Sections 6501, 6502, 6503, 6504, 6505, 6506, 6507, 6508, 6509, 6510, 6511 to 6512, inclusive, 6513 to 6514, inclusive, 6515 to 6516, inclusive, 6517 to 6518, inclusive, 6519 to 7010, inclusive, 7011 to 7012, inclusive, applicable to sales of property at retail, are hereby adopted and made a part of this ordinance as though fully set forth herein, and all provisions of any ordinance of The City of San Diego in conflict therewith are inapplicable to this ordinance and the tax hereby imposed.

Section 11. The term "gross receipts," as used herein, does not include (1) the amount of any Federal tax imposed upon or with respect to retail sales, whether imposed upon the retailer or upon the consumer, and regardless of whether or not the amount of federal
tax is stated to customers as a separate charge; and (2) the amount of any California State Sales or Use Tax.

Section 12. The City Treasurer shall administer and enforce the provisions of this ordinance, and shall prescribe, adopt and enforce reasonable rules and regulations for the purpose of administering and enforcing this ordinance. Each of said rules and regulations which are not expressly declared or made by the manner in which the taxes imposed hereby shall govern notwithstanding any other provision of this ordinance to the contrary. Such rules and regulations may, among other things, require each retailer to keep stock, sales, and returns, invoices and other pertinent records in the manner set forth therein; provided, however, that before any rules or regulations of said City Treasurer shall be of any force and effect, they shall first be approved and adopted by resolution of the City Council of The City of San Diego; and provided further that in so far as applicable the rules and regulations of the State Board of Equalization pertaining to the interpretation, administration and enforcement of the provisions of the Revenue and Taxation Code of the State of California shall be held to apply in the manner set forth herein until specifically abandoned by rules or regulations adopted by the City Treasurer pursuant to the authority granted under this section.

Section 13. The tax hereby levied, except as otherwise herein provided, is levied in the manner and under the same conditions as the taxes are levied pursuant to Part I, of Division 2 of the California Revenue and Taxation Code, known as the Sales and Use Tax Law, as amended and in force and effect on January 1, 1946.

Section 14. That any or all of the State Sales and Use Tax Law, Part I, Division 2 of the Revenue and Taxation Code of the State of California, verbatim in this ordinance shall not in or of itself be deemed to exclude any of the remaining provisions of said Sales and Use Tax Law that are made a part hereof by reference only.

Section 15. If any section, subsection, sentence, clause, phrase, or portion of this ordinance, including but not limited to any exception, is held to be invalid or unconstitutional by the decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portions of this ordinance. The Council of this City hereby declares that it would have adopted this ordinance, and each section, subsection, sentence, clause, phrase or portion thereof, irrespective of the fact that any one or more sections, subsections, clauses, phrases or portions be declared invalid or unconstitutional.
