CHARTER ORDINANCE NO. 130.

An Ordinance granting a franchise for the construction and operation of a Street Railroad in the City of San Diego.

[Approved March 17th, 1886.]

The City of San Diego, by and through its Board of Trustees, does ordain as follows:

Section 1. That the right of way be, and the same is hereby, granted to Milton Santee, Thomas J. Evans, Z. D. Mathuss, E. S. Babcock, Jr., Jacob Gruendike, H. L. Story, and their assigns, over and along the public streets of said city named in this ordinance, for the period of thirty years from and after the approval hereof by said Trustees, for the purpose of constructing, laying down, maintaining and operating a line of street railroad track, with iron or steel rails, with its necessary turnouts and switches, and running cars thereon, to be drawn by horses, cable wire, electricity, or other improved systems that may be authorized by law. That is to say: Along Atlantic street from Commercial to Spring avenue; along First street from H to Upas street; along Fifth street from water front to Upas street; along Sixth street from L to City Park; along Twelfth street from K to City Park; along Sixteenth street from Twentieth to H street; along Eighteenth street from N street to H street; along Twentieth street from Sixteenth street to M street; along Twenty-second street from depot to City Park; along Spring avenue and D street from Atlantic street to Twelfth street; along Fifth and F streets from Atlantic street to Twenty-second street; along Commercial and H streets from Atlantic street to Twenty-second street; along I street from Twelfth street to Sixteenth street; along M street from Twentieth street to Twenty-second street. It being understood and agreed that throughout the entire description the center of each street, or a line as near thereto as practicable, is intended.

Provided, and upon condition that the said grantees, or their assigns, shall plank, pave or macadamize the entire length of said route along which said road may be constructed between the rails and for two feet on each side thereof, to correspond with said streets when the same shall be paved or macadamized, and shall keep the same constantly in good repair, flush with the grades of the streets, and provided with good crossings for all kinds of vehicles, and with all necessary and proper flumes and culverts for the free and uninterrupted passage of water under said track from lands higher than said track or road-bed, and that the track be not more than five feet wide within the rails, and there be a space between the main tracks and side-tracks or turnouts, if any side-track there be, sufficient to allow cars to pass each other freely and without danger.

Provided, further, that the laying of said track, except as hereinafter stated, shall conform in all cases, where the grade of any of said streets has been established, through which said track may run, to such established grade, and in all other cases to the natural grade of said streets, and when at any time any part of the route shall be graded, or the grade thereof changed or altered

by said Trustees, the bed of the road and the tracks thereof shall be made to conform therewith; provided, however, no switch shall be constructed or maintained within fifty feet of any cross-street, and the location of such switches or turn-outs shall be changed at the cost of the holders of this franchise whenever so ordered by the Trustees of the City of San Diego.

Sec. 2. The City engineer, under instruction of the Board of Trustees, shall designate the rate of curves to be used in swinging the lines of this road, from one street to another, where it is necessary to change the direction, and of sidings and switches, and shall give the established grade, when called upon so to do, of the streets along the line of said proposed track, and on the construction of said road shall set grade stakes along said line, indicating the grade of said streets, so that the track may be placed in accordance therewith. Said surveys to be without cost to the city.

Sec. 3. It is understood that the city, in making the grant of this franchise, expressly reserves the right to grade, renew, repair, sewer, pave, macadamize, improve, alter or repair, all or either of said streets, or any part thereof, and to lay down pipes for water, gas and other purposes, such work to be done by the city, so as to obstruct or injure said road as little as possible; the owners of said road shall shift and reshift their road bed and rails, so as to avoid obstructions made thereby.

Sec. 4. It is understood that the grant of this franchise gives the grantees, or their successors, the right, whenever they may deem it necessary or expedient, to lay down and maintain a double track upon any or all portions of the route hereinbefore described, where said streets are over eighty feet in width; provided the same be propelled by cable or electricity.

Sec. 5. Provided, that the rate of fare, for any distance along said road, shall at no time exceed five cents for one passenger, and transfers shall be given without extra charge for one single ride over all the routes of this franchise, and also give and accept transfers between the routes of this franchise and those of any other street railroad for one single ride, not exceeding three miles. The owners of said road shall pay to the City of San Diego such license for each car as may be required by the ordinance of said city.

Sec. 6. The above rights and privileges are granted upon the express condition that said road shall be commenced within thirty days after the passage of this ordinance.

That three miles of said road shall be fully completed, equipped, stocked and in running order within six months from the passage of this ordinance, and an additional one and a half miles shall be fully completed, equipped, stocked and in running order each succeeding six months thereafter, and the entire road to be completed, equipped, stocked and in running order within three years after the passage of this ordinance. Any failure to complete said road within the time designated, shall operate as a forfeiture of the right of way on such portion of the line as may remain incomplete at such date.

Sec. 7. It is expressly understood that this franchise is granted as a substitute for the franchise heretofore granted to John McCoy by Ordinance No. 111, the said McCoy having assigned all his rights and privileges, specified in said Ordinance No. 111, unto the persons named in this ordinance.
