Joint Resolutions No 489.

Whereas, the public interest and necessities demand that the Common Council, as early as practicable, provide the city and its inhabitants with water for city and domestic purposes;

Whereas, the only way by which the city can secure sufficient water for the city and its inhabitants is by voting and selling its bonds to purchase water, or construct its own water works; and

Whereas, the city cannot even commence the construction of its own water works or water supply until after it has made plans and estimates voted and sold its bonds to pay the cost of the same; and

Whereas, any bonds voted by the city for the purpose of acquiring its own water supply by condemnation proceedings or otherwise, are liable to be enjoined by some of the parties holding conflicting interests in the different water schemes offered the city; and

Whereas, the commencement of an action to enjoin the issuance of any bonds voted by the city would result in preventing the sale of such bonds until the litigation was over, which would be at least two years, and thus absolutely prohibit the city from prosecuting the work during the period of at least two years; and

Whereas, if the city were to purchase one thousand inches of water, in accordance with the plans outlined by Alderman Whitney in his minority report made to the Council August 13th 1894, the work of developing water and bringing it to the city, could and would be prosecuted during the years of litigation over the city's bonds; and

Whereas, it makes no difference to the city or its inhabitants whether the water needed for their use is brought to the city in its conduits or the conduits owned by others as it is the water that the city needs and not the conduits. Now therefore

Be it Resolved, by the Common Council

of the City of San Diego as follows:
 That the Joint Water Committee be instructed to enter into negotiations with the Mt Teate Land and Water Co. or any company which may be organized representing the combined interests stated in the proposition of said company made to the City August 18th 1894. Joint Resolution No. 501

Joint Resolution of the Common Council of the City of San Diego, State of California.

Whereas the inhabitants of the City of San Diego have suffered greatly on account of a shortage in the water supply during the summer season of 1894, which said shortage was produced partly by the absence of the rain fall during the preceding winter, but chiefly by inherent deficiencies in the Water system of the corporation having a franchise for supplying said city with water, and

Whereas it is almost if not the unanimous conviction of the citizens and other inhabitants of said city together with this Council that the only means of averting similar inconveniences and suffering in the future, is for the municipality to acquire ownership in its water distributing system and also to secure either absolute ownership in the water supply or a perpetual water right; and

Whereas this Council being urged on both by its own desires and the wishes of said inhabitants is considering many propositions to accomplish that end, and

Whereas the present Water system in said City is totally inadequate to the needs of its people

and there are reasonable fears that unless said city takes hold of the matter and does something during the coming winter and spring to secure an adequate water system, the calamities of the past summer may be repeated in the future, and the community be made thereby to suffer irreparable damage, and whereas the case wherein the San Diego Water Co. is plaintiff and appellant and the city of San Diego is defendant and respondent involving the validity of the issuance of \$665,000. of the bonds of said city for the purpose of purchasing or acquiring a water distributing system, is now pending in the Supreme Court of the State of California and will not be heard in the regular course of practice in said court until the April term thereof, 1895; and whereas this city cannot consummate any plans for securing municipal ownership of a water system until said case shall have been determined and cannot beforehand determine what amount of bonds it may legally issue; now therefore

Be it Resolved, that we request and petition said court on behalf of the public of San Diego to set said case for hearing at once and to determine the same at the earliest possible time; and

Be it further resolved that the clerk of this city certify a copy of this Resolution and forward the same to the Clerk of said court for the chief justice thereof.

Whereas the Joint Water Committee after several months of patient & diligent labor are unable to recommend any particular proposition made to the City for supplying water to its inhabitants and realizing that the interests of our Citizens & property owners are best subserved by Municipal Ownership of the present time of a complete distributing system of water, therefore

Further Resolved that the City Engineer be instructed to prepare and submit to the Council as soon as possible an estimate of cost and set of plans of a complete water distributing system, including reservoirs, taps and all appurtenances appertaining thereto, capable of delivering not less than 500 miners inches of water.

Joint Resolution No. 525.

whereas various and different water propositions, some embracing the city's supply of water and others having in view only the city's distributing system, have been carefully considered by this Common Council and by the Citizens of San Diego, and

whereas no definite proposition has heretofore been presented that meets with the approval of this Council or of the citizens of San Diego, now therefore

Be it Resolved by the Common Council of the City of San Diego,

That it is for the best interest of the city that it shall own its own water supply, or have such an ownership in a water supply as will insure to the city a perpetual and continued supply of pure mountain water, sufficient not only for its present but for its probable future needs.

That the city shall own a city distributing system with capacity sufficient for the supply of water required, and Be it further resolved that we make to the Mt. Peacock Water Company the offer hereinafter set forth, providing always that said Mt. Peacock Water Company shall show to the satisfaction of this Council.

First.

That the Mt. Peacock Water Company has a water shed or catchment adequate for the impounding and delivery to the city of at least 1000 miners inches of pure water, continuous and perpetual flow.

Second.

That it has ample and practicable reservoir sites for the impounding from such catchment, and for delivery to the city of such supply of water, and in such continuous & perpetual flow of 1000 miners inches, at an elevation at the city of at least 475 feet.

Third.

That it has acquired exclusive and perpetual right to the flowage and use of such water, together with an unincumbered fee simple title to all the lands necessary for the construction and maintenance of such reservoirs, the erection of necessary canals, aqueducts, flumes, pipes and other conduits and for the proper care and protection of the same, and of the water to be contained and to flow therein.

And the Mt Peate Water Company shall first submit plans and specifications of the system proposed showing all proposed structures, devices and works to be made, used and employed for the impounding and delivery of such water to the city the same to be included in and become part of any contract hereafter made, and to be approved by the Common Council: and Company shall enter into an obligation, with proper security, the amount thereof to be hereafter fixed, to acquire within a reasonable time thereafter, such time to be definitely fixed by said contract, all such rights of flowage and use of water, to erect, construct and complete such structures, devices and works with the best possible material and workmanship, and to acquire the title and ownership of all necessary lands and rights of way.

Fourth.

That the said Mt Peate Company has the financial ability to carry out any contract in any way entered into with the city for the purpose of furnishing water and a distributing system, and

It is further Resolved that upon the completion of said contract to the satisfaction of the City Council and the transfer and delivery to the city of the property and rights hereinafter described, the city will pay to said Mt Peate Water Company the sum of \$1,400,000.00 in forty year bonds of the city, bearing interest at the rate of five percent, per annum, interest payable semi-annually, provided, however that if the present outstanding issue of \$665,000 of bonds bearing interest at the rate of four per cent, per annum shall be determined to be valid that said \$665,000 of four per cent, bonds shall be paid to said Water Company in lieu of the same amount of five per cent, bonds.

And there shall be paid annually by the city for the maintenance of the catchment, reservoirs and dams of said system necessary for the delivery of said water into the Upper Otay Reservoir, and for the proper care and protection thereof, an annual rental of \$25.00 per inch for the first three years, and \$30.00 per inch thereafter for the water so delivered.

And in consideration of said \$1,400,000.00 the said

Water Company shall transfer, convey and deliver to the City the unincumbered title in fee simple to what is known as the Upper Otay Reservoir and Dam.

And before such conveyance is made there shall be already stored in said upper Otay Reservoir and be turned over to the City such a quantity of pure water as will furnish to the City through its proposed system of distribution such a supply as will amount to at least 1000 miners inches of water for a period of one year, continuous and perpetual flow, exclusive of any additions thereto from other sources.

And said Company shall also convey and deliver to the City the unincumbered title to a distributing system from said upper Otay Reservoir into the reservoirs of the proposed City distributing system, sufficient to carry at least 1000 miners inches of water, perpetual and continued flow; and also a City distributing system according to the plans and specifications now on file in the City Engineer's Office including reservoirs etc. and the said Mt. Peacote Water Company for the above consideration, shall also grant and convey to the City of San Diego a preferred and exclusive right and title to the first 1000 inches of water, perpetual and continued flow, to be developed, held or impounded by it anywhere outside of the system and works so to be transferred and conveyed to the City and deliver the same daily to the City into the upper Otay Reservoir and shall convey to the City by deed or otherwise the right to the power generated by the fall of said one thousand inches of water at any point along the line of said Company's water ways lying between what is known as the Barnett Reservoir site and the upper Otay Reservoir site, together with the privilege to the City of erecting such buildings and machinery at any such points as will enable it to use said power. and

It is further provided that the City of San Diego shall have the option any time within twenty years from the date of the completion of the Mt. Peacote Water System to purchase the Water System, including water rights, conduits, pipes etc. belonging to said Company for the sum of money so invested by said Company, with interest thereon at the rate of five per cent. per annum from the date of the completion of said system to the date of the purchase together with

any additional sums of money that may be expended by said Company from time to time on said system after the completion of the same, together with five per cent. per annum interest thereon deducting the total amount of money already paid by said city to said Company, exclusive of the money paid for said distributing system with five per cent. interest thereon per annum from the date of payment to said Company, provided that the Common Council reserves the right to recall this offer at any time.

Whereas,

The Open Air Concerts by the City Guard Band and other musical organizations are recognized as not only conducive to the happiness and instruction of the residents of our City, but are a great feature in advertising our City to residents of other States, visiting among us, as well as to those residing in other States, as seen from the newspaper articles published in Eastern papers relative to the open air concerts given by the City Guard Band during the month of February in which articles comparison was made of the climatic conditions that made possible the congregation of our people on the Plaza on a day in mid-winter to listen to the strains of good music all of which gives wide spread celebrity to our City as a place of culture and as affording amusement for all of those classes of people which it is our wish should settle among us, and

Whereas, the City Charter gives to the Council the right to create from time to time as the necessities may require certain funds, and it appearing that the Council have the right to create a fund for the increasing and fostering of immigration, and the advertising of the City as a resort and as one of the means of making the City attractive to visitors and others is to have weekly concerts on the Plaza by a well organized Band, and

Whereas, it appears that Open Air Concerts can be secured for the City to occur weekly at a cost of 8/10 of a cent on each \$100. valuation on a total valuation of \$140,000, and whereas there has been received by the Council and referred to the Finance Committee numerous petitions signed by many of the heaviest Tax-Payers of the City, requesting the City Council to appropriate a certain sum from the funds of the City to provide for such form of advertising, stating it to be their belief that the best interests of the City would be subserved thereby.

Therefore, be it Resolved, that it is the sense of the Common Council of the City of San Diego, that it is good business policy to provide for the coming year a series of free public concerts on the Plaza.

Joint Resolution No. 847,

In the matter of the proceedings to open a Street from Old Town to Roseville, in the City of San Diego, California,

Be it Resolved, By the Common Council of the City of San Diego as follows:

Whereas, Said Common Council, on the 8<sup>th</sup> day of November, 1894, passed a Resolution of Intention numbered 83, to open a street to Roseville in said City, through Pueblo Lots 326, 327, 321, 235, 226, 227 and 225, eighty (80) feet wide, from the northeasterly line of Pueblo Lots 326 and 327 to the intersection of Tide street in Manasse & Schiller's addition to Roseville with the easterly line of Pueblo Lot numbered 209, and thereafter, on the 18<sup>th</sup> day of December, 1894, passed Resolution numbered 87, ordering the opening of said street to Roseville, eight (80) feet wide, through said Pueblo Lots; and afterwards, on the 2<sup>d</sup> day of January, 1895, the said Common Council duly appointed G. B. Hakes, Jesse Gillmore and Chas. M. Briggs Commissioners to assess the benefits and damages and to have general supervision of the opening of said street; and,

Whereas, It appears from the report made by said commissioners to this Common Council, bearing date May 14, 1897, and filed with the City Clerk of said City on the 17 day of May, 1897, and the report of the City Engineer of said City, accompanying the said report of said commissioners, that it is impracticable and impossible to open said street under the proceedings and in the manner and along the route contemplated by said above named Resolutions, through said Pueblo Lots; and,

Whereas, It appears from said report of said Engineer, accompanying the report of said commissioners, that in pursuance of instructions from this Common Council, he has surveyed a street from Old Town to Roseville, eighty (80) feet in width, over a different route from that contemplated in the proceedings taken under said Resolution numbered 87 (the plat of which said last named survey and report of the engineer accompanying the same were filed in the office of the City Clerk on the 9<sup>th</sup> day of January, 1897), and that rights-of-way have been secured along said route last surveyed by said engineer, without any cost or expense to said City, except the expense of acknowledging deeds to the same, and that such deeds were given in consideration of the release and relinquishment by said City, of any all right, title, and interest which the said City may have acquired in and to any lands of the several parties executing such deeds, under the proceedings taken and had by this Common Council, under said Resolution numbered 87 and Resolution numbered 769, adopted by this Common Council on the 16<sup>th</sup>

day of June, 1876; and also the refunding to the parties entitled thereto of any and all moneys paid by them as assessments upon the property through which said street passed, under the proceedings mentioned in said above named Resolutions; and,

Whereas, It further appears by the said report of said Commissioners that there has been paid, by various parties, the sum of \$136.60, upon the assessments made by said Commissioners in pursuance of and in accordance with the provisions and directions contained in said three several resolutions, above mentioned, and that all of the property assessed for the expense of opening said street and upon which the assessments were not paid were sold and struck off to the City of San Diego as the purchaser, for such delinquent assessments and that none of said lots were sold to any private purchaser; and,

Whereas, It further appears by said report of said Commissioners that the cost and expenses incurred by the said Commissioners in said proceedings, including their fees, amount to \$219.60, no part of which has been paid.

Therefore Be it Resolved, That all the proceedings taken and had under said three several Resolutions above mentioned, looking to the opening of a street from Old Town to Roseville, through said Pueblo Lots, be abandoned, and that no further proceedings be taken to that end, that any and all right, title or interest, which the said City may have acquired in and to any of the lands assessed by said Commissioners under the proceedings taken and had in pursuance of said Resolution numbered 87 and said Resolution numbered 769 for the opening of a street to Roseville, be and the same is hereby relinquished and released.

That the Superintendent of Streets of said City be and he is hereby authorized and directed to cancel all certificates of sale executed to said City, as well as all sales made to said City for any of the lands sold for delinquent assessments made by said Commissioners, under the proceedings taken and had by said three several Resolutions above mentioned, and that the City Treasurer of said City be and he is hereby authorized, empowered and directed to refund to the parties entitled thereto the moneys paid to him, as assessments upon the lands along the line of said street, as proposed by said Resolutions, provided, that the parties who are entitled to such moneys execute and deliver to the City deeds for a public street through any lands owned by them, or any of them, along the route shown by said last mentioned survey and plat of the City Engineer, filed with the City Clerk on the 9<sup>th</sup> day of January, 1877.

That the claim of the said Commissioners for expenses incurred, including their fees, as set forth in their report last filed, be referred to the Joint Finance Committee, for investigation and if found to be correct and a valid claim against the city that the same be paid out of the General fund in the treasury of said city.

I hereby certify, that the above and foregoing is a full, true and correct copy of Joint Resolution No. 847, of the city of San Diego, California, as adopted by the Board of Delegates on the 24<sup>th</sup> day of May, 1897, and by the Board of Aldermen on the 24<sup>th</sup> day of May, 1897; and approved by the Mayor of said city on the 25<sup>th</sup> day of May, 1897.
