RESOLUTION NO. 5412.

RESOLUTION OF DETERMINATION TO GRANT STREET RAILWAY FRANCHISE TO HIGHEST BIDDER.

Whereas, an application has been made to the Common Council of the City of San Diego, a municipal corporation in the County of San Diego and State of California, by the San Diego Electric Railway Company, a street railway corporation having its principal place of business in said City, for a franchise and authority to construct, maintain and operate for the period of twenty-five years a street railway in said City, upon, over and along the route and streets hereinafter described, which said application is now on file in the office of the Clerk of said Common Council and has been numbered by said Clerk Document No. 30060.

Now, therefore, be it resolved by said Common Council, as follows:

That it is the determination of said Common Council and said Common Council hereby declares its determination, to grant to the person, company or corporation who will pay the highest sum therefor a franchise and authority to construct, maintain and operate for the period of twenty-five years a street railway in said City upon, over and along the following described route and streets, namely:

Commencing at a point in the center of 30th street, distant 50 feet south from the south line of the intersection of said 30th street with Ivy street, thence curving northeasterly along said 30th street and across said Ivy street, and across the south portion of block 62 of Seaman and Choate's Addition, according to the map of said addition filed in the office of the County Recorder of the County of San Diego, State of California, on the 14th day of May, 1890, and numbered by said County Recorder map number 631, and on to and north along Fern street to its intersection with said 30th street, also known at this point as Juniper street, and thence north across said 30th or Juniper street, to what would be its north boundary line if the latter were produced east to the southwest corner of block 8 in Watkins and Biddle's Addition in said City.

Said franchise and authority to construct, maintain and operate said street railway to be granted however on the following conditions and limitations, to-wit:

1. MOTIVE POWER. That the cars upon said railway shall be propelled by electricity used through the overhead system, or, in case of accident or unavoidable delay in procuring equipment, by horse or mule power.

2. CONDITION OF STREETS. That after the laying of the track, the grantee, or its successors or assigns, shall plank, pave or macadamize, grade or re-grade, as the said Common Council may direct, the entire length of that portion of said streets used by said

railway tracks, between the rails and for two feet on each side thereof, and between the tracks and keep the same constantly in repair, flush with the streets, and with culverts for the free and uninterrupted passage of water under said tracks.

3. TRACK SPECIFICATIONS. That the track shall be four feet eight and one-half inches within the rails and shall have a space between it and sidetracks, turnouts and switches of not less than five feet three inches, being sufficiently distant to allow the cars to pass each other freely.

4. SINGLE OR DOUBLE TRACKS. That the grantee, its successors and assigns, have the right to lay either single or double tracks as the conditions of business may warrant, but the laying of a single track shall be deemed a compliance with the conditions of this franchise, and shall in no wise impair the right of said grantee, its successors and assigns, to subsequently lay a second track paralleling the first track.

5. RAIL SPECIFICATIONS. That good substantial steel rails to weigh not less than sixty pounds to the yard shall be used in the construction of said track.

6. CITY'S RIGHT TO ACCESS TO STREETS. That the right to grade, sewer, pave, macadamize, or otherwise improve or alter or repair the said streets, or change the grade thereof, shall be reserved to the said City, such work to be done so as to obstruct the said railway as little as possible; the grantee or its assigns shall shift and re-shift the rails so as to avoid the obstruction created thereby; the grantee or its assigns shall waive any and all claims for damages against said City caused by reason of such grading, sewerage, paving or macadamizing, or otherwise improving, altering or repairing said streets.

7. TRANSFERS. That the successful bidder for said franchise shall in operating said proposed street railway, issue passenger transfers for continuous passage to all other lines of street railway owned or operated by said successful bidder in the said City, and shall also issue similar transfers from such lines owned or operated as aforesaid to the line to be constructed under this franchise.

8. TRACKS ON GRADED STREETS. That the laying of said track and all sidetracks, turnouts, switches or curves shall conform in all cases with the grade of said streets where the same have been graded, and in all other cases to be as near to the natural grade as practicable, and when at any time any part of this route shall be graded, or the grade thereof altered or changed by said Common Council the bed of the road and the tracks thereon shall be made to conform therewith by said grantee or its assigns.

9. LOCATION OF TRACKS ON STREETS. That the track shall be so constructed and laid that each of them shall be, when practicable, of equal distance from curb line of said street, or as nearly so as the condition or width of the streets will permit.

10. LOCATION OF SWITCHES. That no switch shall be constructed or maintained within fifty feet of any cross street and the location of such switches and all turnouts shall be changed at the expense of the grantee or its assigns whenever so ordered by said Common Council.

11. CITY ENGINEER'S SERVICES. That the City Engineer shall, under the direction of said Common Council, give the established grade of the streets along the line of construction of said street railway, and set stakes indicating the said grade, and he shall see that said railway is constructed in conformity to the terms and requirements of the franchise, and for his services as herein required he shall receive such fees as are provided therefor, and the same shall be paid by the grantee, its successors or assigns.

12. TIME LIMIT FOR CONSTRUCTION AND COMPLETION. That the construction of at

least one track over the route and streets herein described shall be completed by December 31, 1909.

13. CESSATION OF OPERATION. That the grantee of this franchise, its successors or assigns, shall commence to operate cars upon said track immediately after the completion thereof, and in case said grantee, its successors or assigns, shall fail to commence to operate cars upon said track immediately after the completion thereof, or having commenced to operate cars, shall thereafter for the period of thirty consecutive days cease to operate the same, except in case of unavoidable accident or other matters not within the control of said grantee, its successors or assigns, the franchise shall be and is hereby declared to be, forfeited, and said grantee, its successors or assigns, shall thereupon remove the tracks of said railway, and put the streets in good condition.

14. FORFEITURE. That the failure to comply with any of the requirements and conditions of the franchise shall work a forfeiture of the rights and privileges granted thereunder.

15. RIGHT TO REPEAL. That the right to repeal, amend or modify the ordinance granting the franchise shall be reserved to the City of San Diego.

16. BOND. That no bid shall be accepted for the franchise unless it is sufficient in amount to cover the expenses of advertising and incidental expenses.

17. BIDS. That all bids shall be accompanied by a check certified by a responsible bank payable to the order of the City Clerk of the City of San Diego, for the full amount of the bid, and no bid shall be considered unless accompanied by such check; that upon the awarding of the franchise to the successful bidder, all such checks, except that of the successful bidder, shall be returned to the proper parties. That the check of the successful bidder shall be retained by the said clerk and by him placed to the credit of said City, and in the event that an ordinance granting such franchise to the successful bidder be not passed and approved within ninety days after the award of said franchise the amount of such check of the successful bidder shall upon demand be returned to said successful bidder.

RESOLUTION OF DETERMINATION OF COMMON COUNCIL TO GRANT STREET RAILWAY FRANCHISE ON A PORTION OF 13th STREET TO THE HIGHEST BIDDER.

WHEREAS, an application has been made to the Common Council of the City of San Diego, a municipal corporation in the County of San Diego and State of California, by the San Diego Electric Railway Company, a street railway corporation having its principal place of business in said City, for a franchise and authority to construct, maintain and operate for a period of twenty-five years a street railway in said city upon, over and along the route hereinafter described, which said application is now on file in the office of the clerk of said Common Council, and has been numbered by said clerk, document number 30948.

Now, therefore, be it resolved by said Common Council as follows: That it is the determination of said Common Council, and said Common Council hereby declares its determination, to grant to the person, company or corporation who will pay the highest sum therefor a franchise and authority to construct, maintain and operate for a period of twenty-five years a street railway in said city upon, over and along the following described route, namely:

Commencing at the center of the intersection of 13th street with K street, thence southerly along said 13th street to the center of the intersection of said 13th street with L street.

The said franchise and authority shall be granted on the following terms, conditions and limitations, namely:

1. SINGLE OR DOUBLE TRACKS. The grantee of said franchise and authority shall have the right to lay either a single or double track, and such sidetracks, turnouts, switches and curves, as the conditions of business may warrant, but the laying of a single track shall be deemed a compliance with said franchise and authority, and shall in no wise impair the right of said grantee to subsequently lay a second track paralleling the first track.

2. MOTIVE POWER. said grantee may operate cars upon said railway by electricity

used through the overhead system, or by electric storage batteries, ^{or} in case of accident, or unavoidable delay in procuring equipment, by horse or mule power; and in the use of electricity by the overhead system said grantee may erect and maintain poles on each side of said route for the suspension of electric wires, and may suspend electric wires therefrom, whereby to convey the electric current.

3. TRACK SPECIFICATIONS. The tracks, side-tracks, turnouts, switches and curves shall be four feet eight and one-half inches within the rails, and there shall be a space between the tracks, and between said tracks and all side-tracks, turnouts, switches and curves, of not less than five feet three inches, being sufficiently distant to allow the cars to pass each other freely.

4. RAIL SPECIFICATIONS. Good substantial steel rails, to weigh not less than sixty pounds to the yard, shall be used in the construction of said tracks, side-tracks, turnouts, switches and curves.

5. LOCATION OF TRACKS. Said railway shall be so constructed and laid that the tracks thereof, when practicable, shall be of equal distance from the curb line of said street, or as nearly so as the conditions or width of said street will permit.

6. LOCATION OF SWITCHES. No side-track, turnout, or switch shall be constructed or maintained within fifty feet of any cross street, and the location of all side-tracks, turnouts and switches shall be changed at the expense of said grantee whenever ordered changed by said Common Council.

7. TRACKS AS TO GRADE. The laying of the tracks, and all side-tracks, turnouts, switches and curves upon, over and along said street shall conform to the grade thereof; and when at any time hereafter the grade thereof shall be altered or changed by said Common Council, the bed of the road and the tracks, side-tracks, turnouts, switches and curves thereon shall be made to conform therewith by said grantee.

8. CONDITION OF STREET. After laying said tracks, said grantee shall plank, pave or macadamize, grade or re-grade, as said Common Council shall direct, the entire length of that portion of said street used by said tracks, between the rails and for two feet on each side thereof, and between said tracks, and keep the same constantly in repair flush with said street and with culverts for the free and uninterrupted passage of water under said tracks.

9. TIME LIMIT FOR CONSTRUCTION AND COMPLETION. Said grantee shall be allowed three months after an ordinance granting said franchise and authority goes into effect within which to commence the construction of said railway, and six months after the construction thereof has been commenced within which to complete the same.

10. CITY ENGINEER'S SERVICES. The City Engineer of said City shall, under the direction of said Common Council, give the established grade of said street along said route, and set stakes indicating said grade; and he shall see that said railway is constructed in conformity to the terms and requirements of said franchise and authority; and for his services as herein required he shall receive such fees as are provided therefor, and the same shall be paid by said grantee.

11. FAILURE TO COMMENCE OR TO CEASE TO OPERATE. If said grantee shall fail to commence to operate said railway for a period of thirty days after the construction thereof has been completed, or having commenced to operate said railway, shall thereafter cease to operate the same for a period of thirty consecutive days, except in case of, unavoidable accident or other matters not within the control of said grantee, said franchise and authority shall be forfeited, and said grantee shall thereafter, at its own expense, remove the tracks of said railway, and put the streets in good condition.

12. CITY'S RIGHT TO IMPROVE STREETS. Said city reserves the right to grade, sewer, pave, macadamize, or otherwise improve, alter or repair said street, or to change the grade thereof, such work to be done so as to obstruct said railway as little as possible; and in the event of the doing of any such work, said grantee shall shift and reshift the rails of its tracks so as to avoid the obstruction created thereby, and shall waive any and all claims for damages against said city caused by reason of such grading, sewerage, paving, macadamizing, or otherwise improving, altering, repairing or changing the grade of said street.

13. FORFEITURE. The failure to comply with any of the foregoing conditions and limitations shall work a forfeiture of the rights and privileges granted by said franchise and authority.

14. RIGHT TO REPEAL. That the right at any time thereafter, to repeal, amend or modify the ordinance granting said franchise and authority shall be reserved to the Common Council of said city.

15. HEIRS, SUCCESSORS AND ASSIGNS. Said franchise and authority shall inure to the benefit of the heirs, successors and assigns of said grantee, and the conditions and limitations herein specified shall be binding upon such heirs, successors and assigns.

16. SECURITY. That the successful bidder for said franchise and authority shall deposit with the city clerk of said city a check in the sum of one hundred dollars, made payable to the order of said city clerk, and duly certified by a responsible bank, as security and a guaranty that it will commence the construction of said railway and thereafter complete the same within the time limit therefor as aforesaid.

17. BIDS. No bid will be received in a sum less than one hundred dollars and costs of advertising, and all bids shall be accompanied by a check for the full amount thereof made payable to the order of said city clerk and certified by a responsible bank and no bid shall be considered unless accompanied by such check. Upon the awarding of said franchise and authority to the successful bidder, all such checks, except that of the successful bidder, shall be returned to the proper parties. The check of the successful bidder shall be retained by said clerk and by him placed to the credit of said city. In the event, however, that an ordinance granting said franchise and authority to the successful bidder be not passed and approved within ninety days after the awarding thereof, the amount of the check of such successful bidder shall upon demand be returned to him.
