RESOLUTION NO. 7225.

BE IT RESOLVED By the Common Council of the City of San Diego, as follows:

That in the matter of the charges against Police Officer Northern, we find:

1st. That the charge of sleeping while on duty, and permitting a bar-tender to visit the police station socially on various occasions between 12:30 and 2:00 A.M. has been sustained.

2nd. That said Officer Northern did have intoxicating liquors at his desk, and that he did ask junior officers to drink such intoxicating liquors with him while he and they were on duty.

3rd. As to the charge of leaving his place of duty at five o'clock in the morning and visiting certain saloons, we find that charge sustained, but we also find that Officer Northern when on duty on the third relief, had been in the practice of having another officer relieve him, and going out from the station for a short stroll. That while this was not authorized by orders of the Police Department, the practice had not been prohibited, and that Officer Northern was following his old custom.

We further find that Officer Northern is sixty-seven years of age, and has been upon the force for about twenty-two years, and after twenty years' service he is eligible for retirement.

Therefore, Be It Resolved, that Police Officer Northern is guilty of misconduct in office in the respects aforesaid, and that as punishment therefor he be, and he is hereby, ~~suspended from~~ the Police Force of the City of San Diego without pay for the period of four months from the date of the adoption of this resolution; and that at the end of said four months he be retired from said service on half pay, under the provisions of the Act of the Legislature of the State of California, of March 4th, 1889, entitled, "An Act to create a Police Relief, Health and Life Insurance and Pension Fund in the Several Counties, Cities and Counties, Cities and Towns of the State;" and the Common Council is thus lenient on account of Officer Northern's age and long service in the Police Department.

RESOLUTION OF DETERMINATION OF COMMON COUNCIL TO GRANT STREET RAILWAY FRANCHISE ON A PORTION OF 15th STREET TO THE HIGHEST BIDDER.

WHEREAS, an application has been made to the Common Council of the City of San Diego, a municipal corporation in the County of San Diego and State of California, by the San Diego Electric Railway Company, a street railway corporation having its principal place of business in said city, for a franchise and authority to construct, maintain and operate for a period of twenty-five years a street railway in said city upon, over and along the route hereinafter described, which said application is now on file in the office of the clerk of said Common Council, and has been numbered by said clerk document number 35932.

Now, therefore, be it resolved by said Common Council as follows:

That it is the determination of said Common Council, and said Common Council hereby declares its determination, to grant to the person, company or corporation who will pay the highest sum therefor a franchise and authority to construct, maintain and operate for a period of twenty-five years a street railway in said city upon, over and along the following described route, namely:

Upon 15th street from the center line of "K" street thereon to the center line of "M" street thereon.

That said franchise and authority shall be granted on the following terms, conditions and limitations, namely:

1. MOTIVE POWER. The cars upon said railway shall be propelled by electricity used through the overhead system, or by electric storage batteries, or in case of accident or unavoidable delay in procuring equipment, by horse or mule power; and in the use of electricity by the overhead system the grantee may erect and maintain poles on each side of said route for the suspension of electric wires, and may suspend electric wires therefrom, whereby to convey the electric current.

2. CONDITIONS OF STREET. After laying the tracks the grantee shall pave, macadamize, grade or re-grade, as said Common Council shall direct, the entire length of that portion of the street used by such tracks, between the rails and for two feet on each side thereof, and between such tracks, and keep the same constantly in repair, flush with the street, and with culverts for the free and uninterrupted passage of water under such tracks.

3. TRACK SPECIFICATIONS. The tracks shall be four feet eight and one-half inches within the rails, and shall have a space between the tracks and the side-tracks, turnouts and switches of not less than five feet three inches, and the rails shall be of steel, and shall weigh not less than sixty pounds to the yard.

4. SINGLE OR DOUBLE TRACKS. The grantee shall have the right to lay either a single or double track, and such curves, switches and spur-tracks as the conditions of business may warrant, but the laying of a single track shall be deemed a compliance with the conditions of said franchise and authority, and shall in no wise impair the right of the grantee to subsequently lay a second track paralleling the first track, or to lay necessary spur-tracks, curves and switches; provided, that the first track shall be constructed on the east side of said 15th street, and may be located not nearer than ten feet seven and three-fourths inches from the curb line thereof.

5. CITY'S RIGHT OF ACCESS TO STREETS. The right to grade, sewer, pave, macadamize or otherwise improve or alter or repair said streets, or change the grade thereof, shall be reserved to said city, such work to be done so as to obstruct said railway as little as possible; and the grantee shall shift and reshift the rails so as to avoid the obstruction created thereby; and the grantee shall waive any and all claims for damages against said city caused by reason of such grading, sewerage, paving or macadamizing, or otherwise improving, altering or repairing said streets.

6. TRACKS ON GRADED STREETS. The laying of the tracks, and all side-tracks, turnouts, switches and curves, shall conform in all cases with the grade of said streets where the same have been graded, and in all other cases to be as near to the natural grade as practicable; and when at any time hereafter any part of said route shall be graded, or the grade thereof altered or changed by said Common Council, the bed of the road, and the tracks thereon, shall be made to conform therewith by the grantee.

7. LOCATION OF SPUR TRACKS. All spur-tracks may be so constructed and maintained as to curve off the main track and cross the curbs and sidewalks on the west side of said 15th street and run into car barns, repair shops, machine shops, and such other buildings as may be there located, but a substantial gutter shall be maintained on said west side to provide the necessary drainage thereof.

8. CITY ENGINEER'S SERVICES. The City Engineer shall give the established grades of the streets along said route, and set stakes indicating the same; and he shall see that said railway is constructed in conformity to the terms and requirements of said franchise and authority; and for his services as herein required he shall receive such fees as are provided therefor, and the same shall be paid by the grantee.

9. TIME LIMIT FOR CONSTRUCTION. The grantee shall be allowed six months after an ordinance granting said franchise and authority goes into effect within which to commence the construction of said railway, and the main track of said railway shall be completed within one year after the construction thereof has been commenced; provided such necessary spur-tracks and switches as business demands may be at any time thereafter constructed.

10. FORFEITURE. The failure to comply with any of the foregoing conditions and limitations shall work a forfeiture of the rights and privileges granted by said franchise and authority.

11. RIGHT OF REPEAL. The right to repeal, amend or modify the ordinance granting said franchise and authority shall be reserved to the Common Council of said City.

12. HEIRS, SUCCESSORS AND ASSIGNS. The franchise and authority so granted shall inure to the benefit of the heirs, successors and assigns of the grantee, and the conditions and limitations herein specified shall be binding upon such heirs, successors and assigns.

13. BIDS. No bid shall be accepted for said franchise and authority unless it is sufficient in amount to cover the expense of advertising and incidental expenses. All bids shall be accompanied by a check for the full amount of the bid, certified by a re-

sponsible bank, and made payable to the order of the City Clerk of said City, and no bid shall be considered unless accompanied by such check; and upon awarding said franchise and authority to the successful bidder, all such checks, except that of the successful bidder shall be returned to the proper parties; and that the check of the successful bidder shall be retained by said clerk, and by him placed to the credit of said city, and in the event that an ordinance granting said franchise and authority to the successful bidder be not passed and approved within ninety days after the awarding of said franchise and authority, then the amount of such check of the successful bidder shall upon demand be returned to such successful bidder.

WHEREAS, The Barber Asphalt Paving Company, a corporation, did, on the 17th day of October, 1910, file with the Common Council of the City of San Diego, California, its written appeal to said Common Council in and by which the said The Barber Asphalt Paving Company appealed from the Assessment Roll and Warrant issued and dated on the first day of October, 1910, by Frank A. Salmons, Street Superintendent of the City of San Diego, and countersigned by Grant Conard, Mayor of the said City of San Diego, and recorded on the first day of October, 1910, by Frank A. Salmons, Street Superintendent of the City of San Diego, California, in the office of the Street Superintendent of the said City of San Diego, and which said appeal contained and set forth certain objections to the correctness of the said Assessment Roll and Warrant for the paving of First street, in said City of San Diego, from the north line of "H" street to the south line of Laurel street; and,

WHEREAS, the said Common Council did, on the said 17th day of October, 1910, duly

adopt Resolution No.7438, in and by which said Resolution the said Common Council did set the said appeal of said The Barber Asphalt Paving Company from said Assessment Roll and Warrant, for hearing before and by the said Common Council, on the 24th day of October, 1910, at the hour of eleven o'clock A.M., and did in and by said Resolution No.7438, authorize and direct the City Clerk of said City of San Diego, to sign, give and publish notice of the time and place of such hearing in the manner and for the time prescribed by law; and,

WHEREAS, the said City Clerk, pursuant to said Resolution No.7438, did cause to be published in the San Diego Union and Daily Bee, a newspaper of general circulation, printed and published in said City of San Diego, notice of the hearing of said appeal before said Common Council on the said 24th day of October, 1910, at the hour of eleven o'clock A.M.; the said notice having been published in said San Diego Union and Daily Bee, the city official newspaper of said City of San Diego, for five days, before said 24th day of October 1910, to-wit, on the 19th, 20th, 21st, 22nd, 23rd and 24th days of October, 1910; and,

WHEREAS, the hearing of said appeal coming on regularly to be heard before and by said Common Council, on the 24th day of October, 1910, at the hour of eleven o'clock A.M. the said Common Council finds, decides, and determines, upon the evidence introduced, as follows:

That notice of the time and place of the hearing of this appeal, briefly referring to the work contracted to be done, and to the subject of said appeal, and to the acts, determinations, and proceedings objected to and complained of, has been published and given in the manner and for the time prescribed by said Resolution No.7438, and as prescribed by law;

SPECIFICATION 1.

That on the 14th day of April, 1910, under proceedings had and taken by this Common Council, and the officials of the said City of San Diego, a contract was entered into between Frank A. Salmons, as Street Superintendent of the City of San Diego, and The Barber Asphalt Paving Company, for the work of paving and curbing First street, in the City of San Diego, California, from the north line of "H" street to the south line of Laurel street, as more particularly set forth in said contract on file in the office of the said Street Superintendent of said City of San Diego, to which reference is hereby made for further particulars:

That said work was completed and accepted by the said Frank A. Salmons, as Street Superintendent of the said City of San Diego, before the first day of October, 1910.

That thereafter the said Frank A. Salmons, as Street Superintendent of the said City of San Diego, executed, issued and delivered to The Barber Asphalt Paving Company, an Assessment Roll and Warrant for said work.

That said work was done under an Act of the Legislature of the State of California, entitled, "An Act to provide a system of street improvement bonds to represent certain assessments for the cost of street work and improvement within municipalities, and also for the payment of such bonds," approved February 27th, 1893.

That the law requires that:

"A notice that a bond will issue to represent each assessment of twenty-five dollars or more remaining unpaid for thirty days after the date of the warrant, or five days after the decision of said Council upon an appeal, and describing the bonds, shall be included in the warrant.

That the Resolution of Intention and the Resolution Ordering Work, and the Resolution of Award, describe said bonds and procedure as follows:

"That the City Engineer of said City having estimated the total cost of said work or improvement will be greater than fifty cents per front foot along each side of said streets so proposed to be improved as hereinbefore set forth, including the cost of intersection work assessable upon said frontage, it is hereby determined and declared that serial bonds shall be issued to represent the cost of said work or improvement. Said serial bonds shall extend over a period ending nine years from and after the second day of January next succeeding the date of said bonds, and an even annual proportion of the principal sum thereof shall be payable by coupon on the second day of January of every year after their date until the whole is paid; and the interest shall be payable semi-annually by coupon on the second days of January and July, respectively, of each year, at the rate of seven per cent. per annum on all sums unpaid until the whole of said principal and interest are paid. Said bonds shall be issued in accordance with the provisions of an Act of the Legislature of the State of California, entitled, "An Act to provide a system of street improvement bonds to represent certain assessments for the cost of street work and improvement within municipalities, and also for the payment of such bonds," approved February 27th, 1893, and of all acts supplementary thereto or amendatory thereof."

That said warrant provides as follows:

"By virtue hereof, I, Frank A. Salmons, Street Superintendent of the City of San Diego, County of San Diego, and State of California, by virtue of the authority vested in me as said Street Superintendent, do authorize and empower The Barber Asphalt Paving Company, its agents or assigns, to demand and receive the several assessments upon the assessment and diagram hereto attached, and this shall be its warrant for the same. Serial bonds bearing interest at the rate of 7 per cent. per annum and extending over a period of ten years from their date, are to be issued to represent the cost and expenses of the work described in the assessment, and in the manner and form prescribed by law; and an even annual proportion of the principal sum thereof shall be payable, by coupon, on the second day of January every year after their date, until the whole is paid, and the interest shall be payable semi-annually, by coupon, on the second days of January and July respectively, of each year, on all sums unpaid, until the whole of said principal and interest are paid; and notice is hereby given that a bond in such series will issue to represent each assessment of twenty-five dollars or more remaining unpaid for thirty days after the date of this warrant, or five days after the decision of the Common Council of this City, upon an appeal.

Street Superintendent of the City of San Diego.

Recorded Oct 1st A.D.1910

Frank A. Salmons,

Countersigned by Grant Conard,

That it appears from said warrant that:

"Serial bonds, bearing interest at the rate of seven per cent per annum and extending over a period of ten years from their date, are to be issued to represent the cost and expenses of the work described in the assessment;" while the Resolution of Intention, the Resolution Ordering Work, and the Resolution of Award, provide that:

"Said serial bonds shall extend over a period ending nine years from and after the second day of January next succeeding the date of said bonds."

That in the proceedings heretofore taken before this Common Council it was provided that:

"Said serial bonds shall extend over a period ending nine years from and after the second day of January next succeeding the date of said bonds;" while in said warrant issued by the Superintendent of Streets it is provided that "said bonds shall extend over a period of ten years from their date;"

IT IS THEREFORE ORDERED, DECIDED, AND DETERMINED, by the Common Council of said City of San Diego, that said appeal, by reason of the matters and things set forth and contained in Specification one thereof, be and the same is hereby granted; and

IT IS FURTHER ORDERED, DECIDED AND DETERMINED, by this Common Council, that the said Frank A. Salmons, as Street Superintendent of the said City of San Diego be and he is hereby instructed and directed to correct the said warrant and the recorded copy thereof so that the said warrant, and the said recorded copy thereof shall read as follows:

"By virtue hereof, I, Frank A. Salmons, Street Superintendent of the City of San Diego, County of San Diego, and State of California, by virtue of the authority vested in me as said Street Superintendent, do authorize and empower The Barber Asphalt Paving Company, its agents or assigns, to demand and receive the several assessments upon the assessment and diagram hereto attached, and this shall be its warrant for the same. Serial bonds bearing interest at the rate of seven per cent per annum and extending over a period ending nine years from and after the second day of January next succeeding the date of said bonds, are to be issued to represent the cost and expenses of the work described in the assessment, and in the manner and form prescribed by law; and an even annual proportion of the principal sum thereof shall be payable, by coupon, on the second day of January every year after their date, until the whole is paid, and the interest shall be payable semi-annually, by coupon, on the second days of January and July, respectively, of each year, on all sums unpaid, until the whole of said principal and interest are paid; and notice is hereby given that a bond in such series will issue to represent each assessment of twenty-five dollars or more remaining unpaid for thirty days after the date of this warrant, or five days after the decision of the Common Council of this City upon an appeal.

RESOLUTION NO. 7478.

OF INTENTION TO PAVE E STREET, IN THE CITY OF SAN DIEGO, CALIFORNIA, FROM THE EAST LINE OF SEVENTH STREET TO THE WEST LINE OF EIGHTH STREET, AND TO CONSTRUCT GRANITE BLOCK GUTTERS THEREON.

RESOLVED That it is the intention of the Common Council of the City of San Diego, a municipal corporation in the County of San Diego, State of California, to order the following street work to be done in said City, to-wit:

That the roadway of E street, in said city, from curb line to curb line, from the east line of Seventh street to the west line of Eighth street, in said City, (excepting such portions of the said E street, between said points, required by law to be kept in order or repair by any person or company having railroad tracks thereon, and also excepting such portions of the said E street, between said points, to be occupied by granite block gutters, as shown on the plans and drawings hereinafter referred to, being contained in Document No. 36673), be paved with asphalt pavement, laid upon a concrete base, according to the specifications contained in Ordinance No. 4111 of the ordinances of said city entitled, "An Ordinance Prescribing the Manner of Paving Streets with Asphalt Pavement Laid Upon a Concrete Base, in the City of San Diego, Cal.," approved on the 19th day of May, 1910; and according to the plans, drawings and typical cross-sections contained in that certain document on file in the office of the City Clerk of said city, endorsed as follows, to-wit: "Document No. 36673. Said work shall include grading and preparing the roadbed,

and all other things required by said Ordinance No.4111, and shown by the contents of said Document No.36673 to be necessary for the laying of said pavement in accordance therewith.

And as a part of said work, that there be constructed upon said E street, on both sides thereof, from the east line of Seventh street to the west line of Eighth street, granite block gutters, as shown upon, and according to the plans, drawings and typical cross-sections therefor, contained in said Document No.36673, and according to the specifications contained in Ordinance No.4108 of the ordinances of said city, entitled, "An Ordinance Prescribing the Manner of Constructing Granite Block Gutters in the City of San Diego, California," approved on the 13th day of May, 1910.

The City Engineer having, at the direction of the Common Council, made an estimate of the total cost of said work or improvement, and it appearing from said estimate that the total cost of said work or improvement will be as hereinafter found, this Common Council hereby finds that said estimate is correct, and that the cost of said proposed work and improvement will be greater than fifty cents per front foot along each line of the said E street so proposed to be improved, including the cost of intersection work assessable upon said frontage, it is therefore determined that serial bonds shall be issued to represent the cost of said work or improvement. Said serial bonds shall extend over a period ending ten years from their date, and said bonds shall bear interest at the rate of seven per cent. per annum, on all sums unpaid, until the whole of said principal and interest are paid; and an even annual proportion of the principal sum thereof shall be payable by coupon on the second day of January, every year after their date, until the whole is paid, and the interest shall be payable semi-annually, by coupon, on the second days of January and July, respectively, of each year. street to the east line of Seventh street; thence north along the east line of Seventh street to the point or place of beginning, excepting therefrom all public streets, roads, avenues and highways.

That the San Diego Union and Daily Bee, a daily newspaper published and circulated and of general circulation in the said City of San Diego, be and it is hereby designated as the newspaper in which this Resolution of Intention shall be published for two days, and the notice of the passage thereof shall be published for six days in the manner and by the persons required by law.

That the Clerk of the said City of San Diego be and he is hereby directed to post this Resolution of Intention conspicuously for two days on or near the chamber door of the said Common Council, and to cause the same to be published by two insertions in said daily newspaper in the manner required by law.

Said work shall include grading and preparing the roadbed, and all other things required by said Ordinance No.4111, and shown by the contents of said Document No.36675 to be necessary for the laying of said pavement in accordance therewith.
