RESOLUTION NO. 11977.

WHEREAS, an opinion has been rendered by the Railroad Commission of the State of California, in the matter of the application of the Southern California Mountain Water Company to sell and lease, and the City of San Diego to purchase and lease property of the Southern California Mountain Water Company, being Application No. 169, in which opinion it is stated that " a stipulation shall be filed in this case by resolution of the Common Council of the City approved by the Mayor and City Attorney, counsel herein, to the effect that the City takes the property of the Company understanding that any legal claim for water which may be enforced against the Company may likewise be enforced against the City. The intent of this condition is that the City shall not raise in any proceeding the point that the mere fact of this transfer has served to change the legal status of the property with reference to its public duties and charges. This stipulation not in any wise, morally or legally, to bind the City against contesting any claim against the system except the one ground stated, namely, that the fact of the transfer affects the status of the property to such a degree that valid claims against the system in the hands of the Company become invalid by reason of the transfer to the City."

NOW THEREFORE, BE IT RESOLVED BY THE COMMON COUNCIL OF THE CITY OF SAN DIEGO, AS FOLLOWS:

That the City of San Diego prepare, execute and file the stipulation provided for in said opinion, and for that purpose and to that end the City Attorney of the City of San Diego be and he is for and on behalf, in the name and as the act and deed of the said City of San Diego, authorized to execute, deliver and file a stipulation in accordance with the said opinion, to the effect that the said City of San Diego takes the property of the Southern California Mountain Water Company, with the understanding that any legal claim for water which may be enforced against the said Company may likewise be enforced against the said City, The intent of this condition is that the City shall not raise in any proceeding the point that the mere fact of this transfer has changed the legal status of the property with reference to its public duties and charges. This stipulation not in any wise, morally or legally, to bind the City against contesting any claim against the system, except on the grounds stated, namely, that the fact of the transfer affects the status of

the property to such a degree that valid claims against the system in the hands of the Southern California Mountain Water Company become invalid by reason of the transfer to the said City of San Diego.
