THAT THE PUBLIC INTEREST OF THE CITY OF SAN DIEGO DEMANDS THE
ACQUISITION, CONSTRUCTION AND COMPLETION OF CERTAIN MUNICIPAL
IMPROVEMENTS.

IT IS HEREBY RESOLVED AND DETERMINED By the Common Council of the City of San Diego, that the public interest and necessity of the said City and of the inhabitants thereof, demand the acquisition, construction and completion by said City of the following improvements of the present water system of the City of San Diego, and the acquisition of a further and additional water supply, namely:

I.

(a) The acquisition, construction and completion of reinforced concrete conduit between Morena Reservoir and the Barrett Damsite, and a diverting dam near the said Morena Reservoir. The cost of said conduit and diverting dam is estimated at \$185,000.00.

(b) The construction of improvements and extensions to the tunnels which are a part of the Dulzura conduit, and the completion of the said tunnels; the cost of said construction, completions, improvements and extensions is estimated at \$30,000.00.

(c) The acquisition, construction and completion of an additional pipe line from the present main pipe line which leads from the Otay Reservoir to the City of San Diego, said additional pipe line to intersect the said original main at a point near Bonita, and to extend to a point near the City limits of said City; the cost of which said additional pipe line is estimated at \$220,000.00.

(d) The acquisition, construction and completion of a reservoir at the West end of the last above proposed pipe line of a storage capacity of about 15,000,000 gallons; the cost of which is estimated at \$75,000.00.

(e) The acquisition, construction and completion of a pipe line leading from the said proposed 15,000,000 gallon reservoir to the City's distributing system; the cost of which is estimated at \$55,000.00.

(g) The acquisition, construction and completion of a pumping plat to pump the seepage from the Lower Otay Dam back into the Lower Otay Reservoir; the cost of which is estimated at \$5,000.00.

(h) The acquisition and construction of a system for the impounding of the waters of the San Diego River and from other sources, for the use of the inhabitants of the City of San Diego; the expenses for engineering, surveys, investigations and explorations for the above object and purpose, and all being necessary to be incurred to carry out said object and purpose, are estimated at \$50,000.00.

II.

(a) The acquisition, construction and completion of a filtration plant for the filtering of the water to be brought through the said proposed pipe line from near Bonita to the said reservoir, of about 15,000,000 gallons capacity; the cost of which filtration plant is estimated at \$60,000.00.

The whole cost of which acquisition, construction and completion of all of said improvements is estimated at seven hundred five thousand dollars (\$705,000.00).

IT IS FURTHER RESOLVED AND DETERMINED that the above described municipal improvements, and improvements and additions to the City's water system, are, and each of them is, conven-

ient and necessary to carry out the objects, purposes and powers of said municipality; and that the cost of said improvements, and of each thereof, will be too great to be paid out of the ordinary annual income and revenue of the municipality.
