RESOLUTION NO. 24102.

BE IT RESOLVED, By the Common Council of the City of San Diego, as follows:

That the City Attorney be and he is hereby requested to attend upon the Council Meeting at afternoon session this date to advise the members of the Common Council in their canvass of the returns of the Special Primary Election held on Tuesday, Nov. 19th, especially upon the following points;

1. How shall the Council note the votes cast for individuals in cases where the election returns do not show such individuals' names to have been written in on the

ballots as candidates against any one of the specific persons whose recall is sought?

2. The returns give names varying in form but apparently meant for the same individuals, such as MARY LANCASTER, MARY W. LANCASTER, and MARY WALKER LANCASTER, or as H. J. BALDWIN, MR. BALDWIN and BALDWIN. Is the Council to report these in the resolution declaring the result of the election in exactly the same form as appears in the returns?

3. Under the head of TOTAL VOTES CAST, in the resolution, are the members of the Council to include the actual number of ballots which went into the cans, as shown by the number of persons whose names appear in the Roster and the Poll List? In other words, is a vote actually CAST when it has been put in the ballot can?

I HEREBY CERTIFY, that the above and foregoing copy has been by me compared with the originalsthereof, to-wit: Resolutions Nos. 24098, 24099, 24100, 24101 and 24102 of the Resolutions of The City of San Diego, California, adopted by the Common Council of said City on the 21st day of November, A. A RESOLUTION SUGGESTING AND APPROVING AN AMENDMENT TO SECTION 34 OF
THE VEHICLE ACT OF THE STATE OF CALIFORNIA, APPROVED MAY 10th, 1915.

BE IT RESOLVED, By the Common Council of the City of San Diego, as follows:

Section 1. That this Common Council hereby suggests and approves the following amendment to Section 34 of the Vehicle Act approved May 10th, 1915, viz:

An Act to amend the vehicle act, approved May 10, 1915, by amending section Thirty-four thereof, said amendment to provide for the disposition of registration and license fees, fines and forfeitures collected under the provisions of said act.

The people of the State of California do enact as follows:

Section 1. Section thirty-four of the vehicle act, approved May 10, 1915, is hereby amended to read as follows:

Sec. 34. There is hereby created in the state treasury a fund which shall be known as the "motor vehicle fund." All moneys received by the department under any of the provisions of this act must be paid into the state treasury within twenty-four hours after the receipt thereof and shall be deposited to the credit of the motor vehicle fund, but if at any time such payment can not be made because of the intervention of a Sunday or a holiday, then such money shall be paid into the state treasury before twelve o'clock noon

of the first business day following such Sunday or holiday; provided, however, that there is also hereby created in the state treasury a fund which shall be known as the "operators' license fund" and the moneys received by the department for operators' or chauffeurs' license shall not be credited to the motor vehicle fund but to the credit of said operators' license fund. One-half of the net receipts under this act, except those credited to the operators' license fund, shall be paid from the motor vehicle fund to the counties or the incorporated cities and towns from which the moneys were received, as determined by the places of residence of the persons to whom the registration certificates are issued. All such amounts so returned to counties shall be paid into the road funds of the several counties receiving the same, and shall be expended by such counties exclusively in the construction and maintenance of roads, bridges and culverts in said counties respectively. All such amounts so returned to incorporated cities or towns shall be expended by such cities and towns exclusively in the construction and maintenance of streets, roads, bridges, and culverts in said incorporated cities and towns. In the event that any county has not established a road fund, its proportion of said net receipts shall be retained by the state until provision for such road fund has been made, and it shall then be paid over. In the months of January and July of each year, the department shall make to the controller a report setting forth the gross and net receipts for the preceding six months, and thereafter the controller shall draw his warrants upon the motor vehicle fund in favor of the treasurer of each county and city or town for the amount to which such county, city or town is entitled; provided, nevertheless, that the controller shall not draw such warrant in favor of any county which theretofore shall not have established a road fund or in favor of any county, city or town which shall be delinquent in its annual report to the state department of engineering as hereinafter required. Of the moneys in said motor vehicle fund, when such action has been authorized by the Board of Control, the department may draw, without at the time furnishing vouchers and itemized statements, sums not to exceed in the aggregate ten thousand dollars, said sums so drawn to be used as a revolving fund where cash advances are necessary. At the close of each fiscal year, or at any other time upon demand of the board of control, the moneys so drawn must be accounted for and substantiated by vouchers and itemized statements submitted to and audited by the Board of Control and by the controller. All moneys remaining in the motor vehicle fund after the expenditures herein authorized, in addition to all sums that have been heretofore or that may be appropriated hereafter by the legislature for the same purpose, shall be expended under the direction of the state department of engineering for the maintenance and improvement of the state roads and highways under the jurisdiction of said department of engineering and for the maintenance and improvement of roads and highways in state parks subject to the approval of the official or officials charged by law with the management and control of such parks, such moneys to be so drawn from said motor vehicle fund for the purpose of such maintenance and improvement upon warrants executed by the state controller upon demand made by the state department of engineering and allowed and audited by the board of control. So much of the motor vehicle fund as may be necessary is hereby appropriated to be expended by the department in carrying out the provisions of this act; provided, however, that there shall not be so expended out of the motor vehicle fund in any one year more than ten per cent of said fund; and provided, further, that the board of supervisors of each county and the legislative body of each incorporated city or town in the state shall make an annual report to the state department of engineering not later than the first day of March in each year, upon forms to be provided by the state department of engineering, showing the amount of moneys received out of the motor vehicle fund during the preceding calendar year and

the disposition of said moneys, specifying in such detail as may be required by said department of engineering the streets, roads, bridges and culverts constructed or maintained out of said moneys and the sums applied to the several items of such construction or maintenance; and provided, further, that whenever said report shall not have been duly filed in the manner and form hereby provided at or before the time hereinbefore specified, no further warrants shall be drawn upon the motor vehicle fund in favor of the treasurer of such delinquent county, city or town until said report has been furnished.

Section 2. That the City Clerk be and he is hereby directed to furnish certified copies of this Resolution to the Honorable Ed P. Sample, Senator, and Honorable Fred E. Lindley, Assemblyman.
