RESOLUTION NO. 33321 A RESOLUTION PROPOSING CERTAIN AMENDMENTS TO THE CHARTER OF THE CITY OF SAN DIEGO.

BE IT RESOLVED By the Common Council of The City of San Diego, as follows:
Pursuant to the provisions of Section Eight of Article Eleven of the Constitution of the State of California, the Common Council of The City of San Diego, being the legislative body of said City, hereby proposes to the qualified electors thereof the following amendments to the present Charter of said City;

PROPOSITION

Amend Chapter I, of Article II of the City Charter, by adding a new section thereto to be known and numbered as Section 28, which said Section 28 shall read as follows:
"1. The Common Council of the City of San Diego, State of California, is hereby authorized and empowered by ordinance to establish a retirement system and to provide for death benefits for public employees other than policemen and firemen (who are now members of a pension system) and elective officers and officers appointed by the mayor who serve without pay. Provided, however, that in no retirement system so established shall an employee be retired - except in case of disability, incapacitating the employee for the performance of his duties - before he reaches the age of sixty-two and before ten years of continuous service; except that the Board of Administration hereinafter created may, by rule, provide for retirement of employees after thirty years of continuous service, who elect within one year after their entrance into a retirement system, to receive a retirement allowance payable after thirty years of continuous service at rates of contribution established by the Board of Administration. Retirement shall be compulsory at the age of seventy-two."

2. The Board of Administration hereinafter provided, shall secure from a competent actuary a report of the cost of establishing a general retirement system for all employees of the City of San Diego. Said actuary shall be one who has had actual experience in the establishing of retirement systems for public employees, and his position shall be considered one requiring expert or technical training within the meaning of Section 9-D, Article XI of the City Charter.

3. The retirement system herein provided for shall be conducted on the contributory plan - the city contributing jointly with the employees affected thereunder. Employees shall contribute an amount not to exceed 5% of their salary or wage, except that in the discretion of the Board of Administration employees of the age of fifty or over, at the time a retirement system becomes effective, may be required to contribute not to exceed 10% of their salary or wage; and employees of forty years of age or over at the time a retirement system becomes effective may, at their option, within one year after their entrance into such a system and with the approval of the Board of Administration elect to receive allowances in excess of those normally established, at rates of contribution to be determined by the Board. The city shall contribute an equal amount, except where employees elect to receive a retirement allowance at a rate in excess of that normally established; in which case the city shall contribute only the amount provided in the actuarial tables adopted by the said board for normal retirement allowances. The mortality, service, experience or other table calculated by the actuary and the valuation determined by him, and approved by the board, shall be conclusive and final, and any retirement system established under this article shall be based thereon; provided that initial liabilities accruing under a retirement plan because of past service of employees in active service at the time this amendment is adopted, may be covered by annual appropriations by the Common Council.

The system shall be managed by a Board of Administration as established in Section 4 hereof.

4. A Board of Administration of said retirement system is hereby created, consisting of the City Auditor, the City Treasurer, three members of the retirement system, to be elected from the active membership, a resident official of a life insurance company, an officer of a local bank, both to be appointed by the mayor within sixty days of the taking effect of this amendment. Such appointees shall serve without compensation. Provided, however, that pending establishment of a retirement system, the mayor shall appoint three members to represent the active members of the retirement system from a list of nominees presented by the employees who would be affected by such a system. Members, other than ex-officio members shall so classify themselves by lot that one term shall expire each year.

5. The Board of Administration may establish such rules and regulations as it may deem proper; shall elect one of its members president and appoint a secretary and may appoint such other employees as may be necessary. Such appointments, except the actuary shall be made under the provisions of Article XI of this Charter.

6. The Board of Administration shall be the sole authority and judge under such general ordinances as may be adopted by the City Council as to the conditions under which persons may be admitted to benefits of any sort under the retirement system, and shall have exclusive control of the administration and investment of such fund or funds as may be established. Provided, however, that the Auditor shall refuse to allow any warrant drawn for payment of a retirement allowance if, in the opinion of the Auditor, such retirement allowance has been granted in contravention of this article or any ordinance passed under the authority granted herein.

7. All moneys contributed by employees of the City or appropriated by the Council or received from any other source under the terms of this article, shall be placed in a fund in the City Treasury to be known as the City Employees Retirement Fund, which fund is hereby created. Such fund shall be a trust fund to be held and used only for the purpose of carrying out the provisions of this section. No payments shall be made therefrom except upon the order of the Board of Administration.

8. The City Council is hereby fully empowered by a majority vote of the members to enact any and all ordinances necessary, in addition to the ordinance authorized in section 1 of this article, to carry into effect the provisions of this article, and any and all ordinances so enacted shall have equal force and effect with this article and shall be construed to be a part hereof as fully as if drawn herein.

PROPOSITION

Amend Chapter II of Article II of the City Charter by adding a new section thereto, to be known and numbered as Section 1-1/2.

"Section 1-1/2.

"CHAPTER II.

The mode and manner for the improvement of streets, lanes, alleys, places or courts in this city, where an assessment is levied for the payment of any part or portion of the expenses thereof, shall be as prescribed by the general law of the State of California, relative to the improvement of streets, lanes, alleys, places or courts in municipalities, in force at the time proceedings were taken for the improvement of the same, except in the following particulars:

When no proposals or bids for doing the work prescribed by the resolution of intention are delivered to the Clerk, as invited by the notice inviting the same, as provided for in the general law under which the city is proceeding, or when the proposals or bids for doing the work, in the discretion of the Common Council, are too high, the Common Council may, in its discretion, by a vote of three-fourths of its members in the affirmative, direct that a proposal or bid in the name and on the part of the City be filed, whereupon the contract for doing the work shall be awarded to the City, and the City shall thus be and become the contractor, within the meaning of the general law under which the City is proceeding, and when the time has expired within which, as provided in said general law, the owners may elect to take the contract, shall have expired, and such owners have not so elected, the city shall be deemed to have undertaken to do and complete the work, at the price named in such bid or proposal, within such time as may be provided by the Common Council; and the Common Council shall have power to extend such time as it shall see fit after the time when as aforesaid it is deemed to have undertaken the same. The City need not enter into a contract with the Superintendent of Streets as provided in the general

law under which the City is proceeding, nor give any check or bond, either upon bidding or to secure the performance of the work or payment for labor or materials. The warrant provided for in the general law under which the city is proceeding shall be delivered to the Clerk of the Common Council, and such clerk is hereby authorized to make on the part of the City the demand provided for in the general law under which the City is proceeding. Except as in this Charter expressly provided otherwise, all and singular the provisions of the general law under which the City is proceeding shall apply in the case where the City, under the provisions of this Charter becomes the contractor, that is to say, undertakes to do the work. And all the rights, dues and remedies of the contractor, under the provisions of the general law under which the city is proceeding, shall accrue to the city in its character of one undertaking to do the work, as provided in this Charter."

PROPOSITION

Amend Article V of the City Charter, by adding thereto a new Chapter, to be known and numbered as Chapter III, which said Chapter shall read as follows:

"CHAPTER III.

No property shall be sold for unpaid assessments for public improvements in The City of San Diego under the provisions of this Charter, or the general laws of the State unless and until a statement that there is due and unpaid as assessment against said property shall have been made on the tax statement rendered by the City Tax Collector for the payment of the regular city taxes, and until such time as the regular city taxes for the fiscal year in which said assessment has become due shall have become delinquent and subject to be sold for the regular city taxes for said fiscal year."

PROPOSITION

That Subdivision 40 of Section 1 of Chapter II of Article II is hereby repealed."

This proposition is designated on the ballot hereinafter described as "PROPOSITION II. Amend Chapter II of Article II of the City Charter by adding a new Section thereto, to be known and numbered as Section 1-1/2. This amendment authorizes the Common Council to employ additional attorneys to aid the City Attorney in handling litigation for the city without limit as to the amount to be paid such additional attorneys, and repeals Subdivision 40 of Section 1 of Chapter II of Article II of the City Charter."

PROPOSITION THREE.

"Repeal Section 12 of Chapter I of Article II of the City Charter.

Repeal Section 2 (d), of Chapter I Of Article VI of the City Charter."

This proposition is designated on the ballot hereinafter described as "PROPOSITION III. Repeal Section 12 of Chapter 1 of Article II of the City Charter. Repeal Section 2 (d), of Chapter I of Article VI of the City Charter. These sections of the Charter are obsolete and should be repealed."

PROPOSITION FOUR.

Amend Chapter I, of Article II of the City Charter, by adding a new section thereto, to be known and numbered as Section 28, which said Section 28 shall read as follows:

"Section 28. (1) The Common Council of The City of San Diego, State of California, is hereby authorized and empowered by ordinance to establish a retirement system and to provide for death benefits for public employees other than policemen and firemen (who are now members of a pension system) and elective officers and officers appointed by the mayor who serve without pay. Provided, however, that in no retirement system so established shall an employee be retired, except in case of disability, incapacitating the employee for the performance of his duties, - before he reaches the age of sixty-two and before ten years of continuous service; except that the Board of Administration hereinafter created may, by rule, provide for retirement of employees after thirty years of continuous service, who elect within one year after their entrance into a retirement system, to receive a retirement allowance payable after thirty years of continuous service at rates of contribution established by the Board of Administration. Retirement shall be compulsory at the age of seventy-two.

(2) The Board of Administration hereinafter provided shall secure from a competent actuary a report of the cost of establishing a general retirement system for all employees of The City of San Diego. Said actuary shall be one who has had actual experience in the establishing of retirement systems for public employees, and his position shall be considered one requiring expert or technical training within the meaning of Section 9-D, Article XI of the City Charter.

(3) The retirement system herein provided for shall be conducted on the contributory plan - the city contributing jointly with the employees affected thereunder. Employees shall contribute an amount not to exceed 5% of their salary or wage, except that in the discretion of the Board of Administration employees of the age of fifty or over, at the time a retirement system becomes effective, may be required to contribute not to exceed 10%

of their salary or wage; and employees of forty years of age or over at the time a retirement system becomes effective may, at their option, within one year after their entrance into such a system and with the approval of the Board of Administration, elect to receive allowances in excess of those normally established, at rates of contribution to be determined by the Board. The City shall contribute an equal amount, except where employees elect to receive a retirement allowance at a rate in excess of that normally established; in which case the city shall contribute only the amount provided in the actuarial tables adopted by the said board for normal retirement allowances. The mortality, service, experience or other table calculated by the actuary and the valuation determined by him, and approved by the board, shall be conclusive and final, and any retirement system established under this article shall be based thereon; provided that initial liabilities accruing under a retirement plan because of past service of employees in active service at the time this amendment is adopted, may be covered by annual appropriations by the Common Council.

The system shall be managed by a Board of Administration as established in Section 4 hereof.

(4) A Board of Administration of said retirement system is hereby created, consisting of the City Auditor, the City Treasurer, three members of the retirement system, to be elected from the active membership, a resident official of a life insurance company, an officer of a local bank, both to be appointed by the Mayor within sixty days of the taking effect of this amendment. Such appointees shall serve without compensation. Provided, however, that pending establishment of a retirement system, the Mayor shall appoint three members to represent the active members of the retirement system from a list of nominees presented by the employees who would be affected by such a system. Members, other than ex-officio members shall so classify themselves by lot that one term shall expire each year.

(5) The Board of Administration may establish such rules and regulations as it may deem proper; shall elect one of its members president and appoint a secretary and may appoint such other employees as may be necessary. Such appointments, except the actuary, shall be made under the provisions of Article XI of this Charter.

(6) The Board of Administration shall be the sole authority and judge under such general ordinances as may be adopted by the City Council as to the conditions under which persons may be admitted to benefits of any sort under the retirement system, and shall have exclusive control of the administration and investment of such fund or funds as may be established. Provided, however, that the Auditor shall refuse to allow any warrant drawn for payment of a retirement allowance if, in the opinion of the Auditor, such retirement allowance has been granted in contravention of this article or any ordinance passed under the authority granted herein.

(7) All moneys contributed by employees of the City or appropriated by the Council or received from any other source under the terms of this article, shall be placed in a fund in the City Treasury to be known as the City Employees Retirement Fund, which fund is hereby created. Such fund shall be a trust fund to be held and used only for the purpose of carrying out the provisions of this section. No payments shall be made therefrom except upon the order of the Board of Administration.

(8) The City Council is hereby fully empowered by a majority vote of the members to enact any and all ordinances necessary, in addition to the ordinances authorized in Section 1 of this article, to carry into effect the provisions of this article, and any and all ordinances so enacted shall have equal force and effect with this article and shall be construed to be a part hereof as fully as if drawn herein."

This proposition is designated on the ballot hereinafter described as "PROPOSITION IV. Amend Chapter I, of Article II of the City Charter, by adding a new section thereto to be known and numbered as Section 28. This amendment authorizes the Common Council by ordinance to establish a retirement system and to provide for death benefits for employees of the City other than firemen and policemen, and other than elective officials and officers appointed by the Mayor who serve without pay, and provides that The City of San Diego shall pay each year a sum equal to moneys contributed by the city employees for the purpose of creating funds from which to meet claims arising under such retirement system."

PROPOSITION FIVE.

Amend Chapter II of Article V of the City Charter, so as to read as follows:

CHAPTER II.

The mode and manner for the improvement of streets, lanes, alleys, places or courts in this city, where an assessment is levied for the payment of any part or portion of the expenses thereof, shall be as prescribed by the general law of the State of California, relative to the improvement of streets, lanes, alleys, places or courts in municipalities, in force at the time proceedings were taken for the improvement of the same, except in the following particulars:

When no proposals or bids for doing the work prescribed by the resolution of intention are delivered to the Clerk, as invited by the notice inviting the same, as provided for in the general law under which the city is proceeding, or when the proposals or bids for doing the work, in the discretion of the Common Council, are too high, the Common Council may in its discretion, by a vote of three-fourths of its members in the affirmative, direct that a proposal or bid in the name and on the part of the City be filed, whereupon the contract for doing the work shall be awarded to the City, and the City shall thus be and become the contractor, within the meaning of the general law under which the City is proceeding, and when the time has expired within which, as provided in said general law, the owners may elect to take the contract, shall have expired, and such owners have not so elected, the city shall be deemed to have undertaken to do and complete the work, at the price named in such bid or proposal, within such time as may be provided by the Common Council; and the Common Council shall have power to extend such time as it shall see fit after the time when as aforesaid it is deemed to have undertaken the same. The City need not enter into a contract with the Superintendent of Streets as provided in the general law under which the City is proceeding, nor give any check or bond, either upon bidding or to secure the performance of the work or payment for labor or materials. The warrant provided for in the general law under which the city is proceeding shall be delivered to the Clerk of the Common Council, and such clerk is hereby authorized to make on the part of the City the demand provided for in the general law under which the City is proceeding. Except as in this Charter expressly provided otherwise, all and singular the provisions of the general law under which the City is proceeding shall apply in the case where the City, under the provisions of this Charter becomes the contractor, that is to say, undertakes to do the work. And all the rights, dues and remedies of the contractor, under the provisions of the general law under which the city is proceeding, shall accrue to the city in its character of one undertaking to do the work, as provided in this Charter."

This proposition is designated on the ballot hereinafter described as "PROPOSITION V. Amend Chapter II of Article V of the City Charter. This amendment changes the provision of the Charter authorizing the City to do its own street work by eliminating a time limit of ninety days, and enables the City to take such time as may be authorized by the Common Council to complete the work and improvement."

PROPOSITION SIX.

Amend Sections 3 and 5, Chapter VII, Article V of the City Charter, so as to read as follows:

"Section 3. All parks, plazas and squares now open and dedicated to the public use, or which may hereafter be opened or dedicated to the public use, shall be under the exclusive control and management of said Board of Park Commissioners, with power to lay out, regulate and improve the same; provided, however, that that portion of Balboa Park now occupied by or set aside for the use of the Zoological Exhibit shall be under the direction and control of a Board of Zoological Commissioners. Said Board shall consist of nine members, and the membership of said Board shall be composed of those members of the Zoological Society of The City of San Diego who have been chosen by said Society to serve as Directors, and the term of office of said Zoological Commissioners shall be co-existent; provided, however, that for cause the Mayor of The City of San Diego shall have power to remove any or all members of said Board, and shall have power to fill such vacancies by appointment, in the manner provided by the Charter for the appointment of other appointees of the Mayor. In such event such Commissioners so appointed shall hold office until new directors shall have been chosen by regular election of the said Zoological Society; provided, however, that no person shall be eligible to hold office as a member of the Board of Zoological Commissioners unless he shall have been at the time of his election as a member of the Board of Directors of the Zoological Society of The City of San Diego a citizen and elector of The City of San Diego. Said Board of Zoological Commissioners is authorized to appoint a superintendent of the Zoological Exhibit, and such other employees as may be necessary to maintain said exhibit. The number of employees and compensation of the same shall be fixed by ordinance of the Common Council. All expenditures of city moneys for the maintenance of said exhibit shall be in accordance with the terms and provisions of this Charter and the ordinances of The City of San Diego."

"Section 5. That the said Common Council shall levy annually in addition to all other taxes provided for in this Charter not less than ten (10) cents, nor more than sixteen (16) cents on each one hundred dollars valuation of property, for the purpose of maintaining and improving said parks, plazas and squares. At least two (2) cents on each one hundred dollars valuation of property of this special tax shall be used by the Board of Zoological Commissioners exclusively for the maintenance in Balboa Park of a Zoological Exhibit."

This proposition is designated on the ballot hereinafter described as "PROPOSITION VI. Amend Sections 3 and 5 of Chapter VII, of Article V of the City Charter. This amendment creates a Board of Zoological Commissioners, consisting of nine members, which members shall be those chosen by the San Diego Zoological Society as its Directors, and places the Zoological Exhibit in Balboa Park under the control and management of said Board of Zoological Commissioners. This amendment further provides that the Common Council shall levy annually not less than ten cents nor more than sixteen cents on each one hundred dollars valuation of property for the purpose of maintaining the parks, plazas and squares, and that at least two cents of this tax shall be used by the Board of Zoological Commissioners exclusively for the maintenance of said Zoological Exhibit."

PROPOSITION SEVEN.

Amend Section 1 of Chapter I of Article VI of the City Charter, so as to read as follows:

"Section 1. On or before the 15th day of October of each year the head of each department of the city government shall prepare and transmit to the Auditor of said City an estimate of the probable necessities of said department for the ensuing fiscal year, giving the amount needed for salaries and probable wants of said department in detail, and showing the necessities of said department to be provided for in the Treasury. On or before the last Monday in October of each year the Auditor of the City of San Diego shall prepare and transmit to the Common Council, accompanied with the estimates and reports of each department which he shall require to be delivered to him from the heads of each department on or before the 15th day of October of each year, an estimate of the probable necessities of the city for the ensuing fiscal year, giving the amount required to meet the interest and sinking fund for any and all outstanding bonded indebtedness, together with the amount needed for salaries and probable wants of all departments of the municipal government in detail, and showing the necessities of each of the several funds to be provided for in the Treasury. PROPOSITION THREE.

"Repeal Section 12 of Chapter I of Article II of the City Charter.

Repeal Section 2 (d) of Chapter I, of Article VI of the City Charter."

PROPOSITION FOUR.

Amend Chapter I, of Article II of the City Charter, by adding a new section thereto, to be known and numbered as Section 28, which said Section 28 shall read as follows:

"Section 28. (1) The Common Council of The City of San Diego, State of California, is hereby authorized and empowered by ordinance to establish a retirement system and to provide for death benefits for public employees other than policemen and firemen (who are now members of a pension system) and elective officers and officers appointed by the mayor who serve without pay. Provided, however, that in no retirement system so established shall an employee be retired, - except in case of disability, incapacitating the employee for the performance of his duties, - before he reaches the age of sixty-two and before ten years of continuous service; except that the Board of Administration hereinafter created may, by rule, provide for retirement of employees after thirty years of continuous service, who elect within one year after their entrance into a retirement system, to receive a retirement allowance payable after thirty years of continuous service at rates of contribution established by the Board of Administration. Retirement shall be compulsory at the age of seventy-two.

(2) The Board of Administration hereinafter provided shall secure from a competent actuary a report of the cost of establishing a general retirement system for all employees of The City of San Diego. Said actuary shall be one who has had actual experience in the establishing of retirement systems for public employees, and his position shall be considered one requiring expert or technical training within the meaning of Section 9-D, Article XI of the City Charter.

(3) The retirement system herein provided for shall be conducted on the contributory plan - the city contributing jointly with the employees affected thereunder. Employees shall contribute an amount not to exceed 5% of their salary or wage, except that in the discretion of the Board of Administration employees of the age of fifty or over, at the time a retirement system becomes effective, may be required to contribute not to exceed 10% of their salary or wage; and employees of forty years of age or over at the time a retirement system becomes effective may, at their option, within one year after their entrance into such a system and with the approval of the Board of Administration, elect to receive allowances in excess of those normally established, at rates of contribution to be determined by the Board. The City shall contribute an equal amount, except where employees elect to receive a retirement allowance at a rate in excess of that normally established; in which case the city shall contribute only the amount provided in the actuarial tables adopted by the said board for normal retirement allowances. The mortality, service, experience or other table calculated by the actuary and the valuation determined by him, and approved by the board, shall be conclusive and final, and any retirement system established under this article shall be based thereon; provided that initial liabilities accruing under a retirement plan because of past service of employees in active service at the time this amendment is adopted; may be covered by annual appropriations by the Common Council.

The system shall be managed by a Board of Administration as established in Section 4 hereof.

(4) A Board of Administration of said retirement system is hereby created, consisting of the City Auditor, the City Treasurer, three members of the retirement system, to be elected from the active membership, a resident official of a life insurance company, an officer of a local bank, both to be appointed by the Mayor within sixty days of the taking

effect of this amendment. Such appointees shall serve without compensation. Provided, however, that pending establishment of a retirement system, the Mayor shall appoint three members to represent the active members of the retirement system from a list of nominees presented by the employees who would be affected by such a system. Members, other than ex-officio members shall so classify themselves by lot that one term shall expire each year.

(5) The Board of Administration may establish such rules and regulations as it may deem proper; shall elect one of its members president and appoint a secretary and may appoint such other employees as may be necessary. Such appointments, except the actuary, shall be made under the provisions of Article XI of this Charter.

(6) The Board of Administration shall be the sole authority and judge under such general ordinances as may be adopted by the City Council as to the conditions under which persons may be admitted to benefits of any sort under the retirement system, and shall have exclusive control of the administration and investment of such fund or funds as may be established. Provided, however, that the Auditor shall refuse to allow any warrant drawn for payment of a retirement allowance, if, in the opinion of the Auditor, such retirement allowance has been granted in contravention of this article or any ordinance passed under the authority granted herein.

(7) All moneys contributed by employees of the City or appropriated by the Council or received from any other source under the terms of this article, shall be placed in a fund in the City Treasury to be known as the City Employees Retirement Fund, which fund is hereby created. Such fund shall be a trust fund to be held and used only for the purpose of carrying out the provisions of this section. No payments shall be made therefrom except upon the order of the Board of Administration.

(8) The City Council is hereby fully empowered by a majority vote of the members to enact any and all ordinances necessary, in addition to the ordinances authorized in Section 1 of this article, to carry into effect the provisions of this article, and any and all ordinances so enacted shall have equal force and effect with this article and shall be construed to be a part hereof as fully as if drawn herein."

PROPOSITION FIVE.

Amend Chapter II of Article V of the City Charter, so as to read as follows:

"CHAPTER II.

The mode and manner for the improvement of streets, lanes, alleys, places or courts in this city, where an assessment is levied for the payment of any part or portion of the expenses thereof, shall be as prescribed by the general law of the State of California, relative to the improvement of streets, lanes, alleys, places or courts in municipalities, in force at the time proceedings were taken for the improvement of the same, except in the following particulars:

When no proposals or bids for doing the work prescribed by the resolution of intention are delivered to the Clerk, as invited by the notice inviting the same, as provided for in the general law under which the city is proceeding, or when the proposals or bids for doing the work, in the discretion of the Common Council, are too high, the Common Council, may, in its discretion, by a vote of three-fourths of its members in the affirmative, direct that a proposal or bid in the name and on the part of the City be filed, whereupon the contract for doing the work shall be awarded to the City, and the City shall thus be and become the contractor, within the meaning of the general law under which the City is proceeding, and when the time has expired within which, as provided in said general law, the owners may elect to take the contract, shall have expired, and such owners have not so elected, the city shall be deemed to have undertaken to do and complete the work, at the price named in such bid or proposal, within such time as may be provided by the Common Council; and the Common Council shall have power to extend such time as it shall see fit after the time when as aforesaid it is deemed to have undertaken the same. The City need not enter into a contract with the Superintendent of Streets as provided in the general law under which the City is proceeding, nor give any check or bond, either upon bidding or to secure the performance of the work or payment for labor or materials. The warrant provided for in the general law under which the city is proceeding shall be delivered to the Clerk of the Common Council, and such Clerk is hereby authorized to make on the part of the City the demand provided for in the general law under which the City is proceeding. Except as in this Charter expressly provided otherwise, all and singular the provisions of the general law under which the City is proceeding shall apply in the case where the City, under the provisions of this Charter becomes the contractor, that is to say, undertakes to do the work. And all the rights, dues and remedies of the contractor, under the provisions of the general law under which the city is proceeding, shall accrue to the city in its character of one undertaking to do the work, as provided in this Charter."

PROPOSITION SIX.

Amend Sections 3 and 5, Chapter VII, Article V of the City Charter, so as to read as follows:

All parks, plazas and squares now open and dedicated to the public use, or which may hereafter be opened or dedicated to the public use, shall be under the exclusive control and management of said Board of Park Commissioners, with power to lay out, regulate and improve the same; provided, however, that that portion of Balboa Park now occupied by or set aside for the use of the Zoological Exhibit shall be under the direction and control of a Board of Zoological Commissioners. Said Board shall consist of nine members, and the membership of said Board shall be composed of those members of the Zoological Society of The City of San Diego who have been chosen by said Society to serve as Directors, and the term of office of said Zoological Commissioners shall be co-existent; provided, however, that for cause the Mayor of The City of San Diego shall have power to remove any or all members of said Board, and shall have power to fill such vacancies by appointment, in the manner provided by the Charter for the appointment of other appointees of the Mayor. In such event such Commissioners so appointed shall hold office until new directors shall have been chosen by regular election of the said Zoological Society; provided, however, that no person shall be eligible to hold office as a member of the Board of Zoological Commissioners unless he shall have been at the time of his election as a member of the Board of Directors of the Zoological Society of The City of San Diego a citizen and elector of The City of San Diego. Said Board of Zoological Commissioners is authorized to appoint a Superintendent of the Zoological Exhibit, and such other employees as may be necessary to maintain said exhibit. The number of employees and compensation of the same shall be fixed by ordinance of the Common Council. All expenditures of city moneys for the maintenance of said exhibit shall be in accordance with the terms and provisions of this Charter and the ordinances of The City of San Diego."

"Section 5. That the said Common Council shall levy annually in addition to all other taxes provided for in this Charter not less than ten (10) cents, nor more than sixteen (16) cents on each one hundred dollars valuation of property, for the purpose of maintaining and improving said parks, plazas and squares. On or before the first day of December of each year the Common Council shall adopt a budget ordinance which shall fix and determine the amount of money to be expended by each department during the ensuing fiscal year, and it shall appropriate out of the General Fund such sums of money as may be necessary to carry on the various departments of the city government during the ensuing fiscal year.
