RESOLUTION NO. 37450  
REQUESTING THE COUNTY OF SAN DIEGO TO CONVEY TO THE CITY  
OF SAN DIEGO AN EASEMENT FOR WATER PIPE LINE IN AND ALONG  
COUNTY ROADS.

WHEREAS, it is the intention of the Common Council of The City of San Diego, California, to construct a water pipe line in the County of San Diego, State of California, a portion of which pipe line will necessarily be constructed in and along certain County Roads in the County of San Diego, State of California, now owned and possessed by the County of San Diego, State of California, NOW, THEREFORE,

BE IT RESOLVED By the Common Council of The City of San Diego, as follows:

That the Common Council of The City of San Diego be, and it is hereby authorized to petition the Board of Supervisors of the County of San Diego, State of California, for an easement and right of way for the construction of said water pipe line in, over and along certain County Roads in the County of San Diego, which said petition shall read as follows:  
To the Honorable, The Board of Supervisors  
of the County of San Diego, State of California.

Gentlemen:

The Common Council of The City of San Diego hereby petitions the Board of Supervisors of San Diego County, as follows:

That an easement be granted to The City of San Diego to lay, operate and maintain a water pipe line in and along certain County highways and across certain County property, described as follows:

Beginning at a point on the east line of Rancho El Cajon, from whence Corner No. 1 of said Rancho bears north 11° 57' west 1016.0 feet, said point being the center line of County Road known as Survey No. 303; thence in a westerly direction through El Monte Oak Park to the westerly boundary thereof where said pipe line crosses the County Road and passes through privately owned property, to a point 3235.5 feet southwesterly from said Park boundary, to an intersection with the northerly side of County Road known as Survey No. 303; thence in and along said County Road to an intersection with the paved highway at Lakeside, and crossing the same and continuing in a westerly direction on the northerly side thereof to the Town of Santee; thence leaving the paved highway and continuing along the northerly side of Mission Road through Mission Gorge to County Road known as Old Survey No. 71; thence along said road to an intersection with Fairmont Avenue Extension; thence in a southwesterly direction along the easterly edge thereof to the city limits of The City of San Diego.

Supplementary to the above description, we wish to give you the following information:

On the section of the pipe line from El Monte Oak Park to the entrance of Mission Gorge, where the right of way of the highway is both wide and comparatively level, we wish to place the line well in the clear of the traveled section, and we believe that this work can be carried on without interruption of traffic of any kind.

On the section through Mission Gorge we will greatly appreciate it if The City of San Diego is granted permission to close this section of the highway during construction. We understand that there are absolutely no persons living along the highway through this part, and that there is little or no travel generally carried on. If permission is granted to close this section of the road, the greatest possible speed will be made and the highway reopened at the earliest possible opportunity.

The same request applies to the section of pipe up the Fairmont Avenue Extension. It is the belief of our Engineers that the Fairmont Extension will not have to be closed for a period of time longer than thirty days, and that the Mission Gorge Section will not have to be closed for a longer period than sixty days. In all cases wherever the pipe line interferes with the travel surface of the road, great care will be taken to see that the back fill is made in accordance with the highest standard of engineering practice, and the surface of the road left in the same condition as it was, as nearly as possible.

The pipe line proposed will be made of thirty-six inch Lock Bar Steel Pipe, which is to be thoroughly dipped in a high grade protective coating and then wrapped in another high grade protective coating; specifications of the method of protection being attached hereto. It is our belief that this protection will obviate for practically the life of the pipe the necessity of carrying on maintenance work.

It is our intention to provide protection against damage from any possible leakage in the County right-of-way by installing sub-surface gravel grains across the highway at low points in the pipe line. The greatest possible care will be maintained at all times to avoid interference with travel, or injury of any kind to the road.

The City, through the contractor and his sureties, will assume responsibility for any accidents or damage that might occur during the progress of this work.

We are now ready to let the contract for this work and will greatly appreciate it if your Honorable Body will see fit to pass on this request at the earliest possible moment.

Accompanying this petition is a copy of the specifications for the proposed pipe line, and a set of the original plans showing the location, profile, and grade lines, and supplementary Sheet No. G-1, showing the secondary location adopted in place of the line shown on the regular plans, from Station 903 to Station 997 plus 71.

Respectfully submitted,

## R E S O L U T I O N N O. 3 7 6 9 2

BE IT RESOLVED, by the Common Council of the City of San Diego, as follows:

WHEREAS, the people of the State of California, at the general election of 1919, did approve a measure outlining a system of state highways to be completed in this State, and did vote a bond issue in the sum of forty million dollars for the same, and

WHEREAS, of the system of roads planned under the said bond issue, there still remains to be completed several important links in what is generally known as the Pacific Shore line route. This highway runs from San Juan Capistrano through Santa Monica, Ventura, Oxnard, Santa Barbara, San Luis Obispo, San Simeon, Carmel, Monterey, Watsonville and Santa Cruz, and thence by the Sky Line Boulevard to San Francisco. This route, when completed, will be the most spectacular, awe-inspiring, scenic highway in all California, if not in the entire world, open three hundred sixty-five days in the year, developing large areas of agricultural, grazing, timber and mineral lands, and giving access to the famous Monterey-Santa Barbara National Forest, one of this states largest and finest section of public park lands, where free fishing, hunting and camping grounds for thousands abound, an attraction to the tourist, and connecting Los Angeles with San Francisco over a route of unparalleled fertility, beauty, history and romance, besides being of great strategic and military importance, and

WHEREAS, it is deemed highly important from a point of public safety that this road be completed to relieve the present and ever increasing congestion on the two great interior valley trunk lines, and especially over the Cuesta grade, and

WHEREAS, under the provisions of an act of the State Legislature, an advisory committee has been named to assist in seeking out the solution of financing the state highway system and further extensions thereof, in keeping with the wish of the voters of the State of California, and

WHEREAS, finances are practically assured for future new construction as well as renewal and maintenance, it is deemed but fair and just that the nine central coast counties should have allocated to this great project a fair and just portion of the funds to keep up continuous construction and thus open up to the public at the earliest possible date this all important section of the state system of highways.

NOW THEREFORE, BE IT RESOLVED, that the Common Council of the City of San Diego, California, do hereby petition his Excellency, Friend W. Richardson, Governor of the State of California, Honorable Harvey M. Toy, Chairman, and Messrs. Everding and Edwards of the State Highway Commission, to consider the necessity of making surveys, in the immediate future, of the aforesaid route, and that due and special consideration be given to the early completion of the thirty-eight mile gap (as shown in red on the accompanying map,) lying in the center of the Carmel-San Simeon Section, and

BE IT FURTHER RESOLVED that a copy of this resolution be spread upon the minutes of this body, and that the secretary or clerk be instructed to forward copies to the Honorable Friend W. Richardson, Harvey M. Toy, President State Highway Commission, Robert M. Morton, State Engineering Department, as being the sense of this meeting and declaring the completion of the said route and especially the closing of the thirty-eight mile gap highly desirable at the earliest possible date.

I HEREBY CERTIFY that the above and foregoing is a full, true and correct copy of Resolutions Nos. 37625, 37626, 37627, 37628, 37629, 37630, 37631, 37632, 37633, 37634, 37635, 37636, 37637, 37638, 37639, 37640, 37641, 37642, 37643, 37644, 37645, 37646, 37647, 37648, 37649, 37650, 37651, 37651, 37652, 37653, 37654, 37655, 37656, 37657, 37658, 37659, 37660, 37661, 37662, 37663, 37664, 37665, 37666, 37667, 37668, 37669, 37670, 37671, 37672, 37673, 37674, 37675, 37676, 37677, 37678, 37679, 37680, 37681, 37682, 37683, 37684, 37685, 37686, 37687, 37688, 37689, 37690, 37691, 37692, of the Resolutions of the City of San Diego, California.
