Whereas the San Diego Electric Railway Company has submitted for our consideration their application to the Railroad Commission of the State of California for certificate of public convenience and necessity, containing certain proposed changes in fare schedules on the San Diego-El Cajon Stage Line, serving La Mesa and other intermediate points, providing for the consolidation of this line with the existing electric railway system, and subject to the general regulation and fare system in effect on the San Diego Electric Railway Company's system, including provision for universal transfer to other rail and bus lines; and

Whereas, we note that there are two instances of increases in local fares between La Mesa and El Cajon, we consider that these are offset by numerous reductions in fares and the universal transfer privilege; and

Whereas we understand that some time may be saved if the matter may be considered by the Railroad Commission of the State of California, without public hearing, therefore,

REQUESTING THE COUNTY OF SAN DIEGO TO CONVEY TO THE
CITY OF SAN DIEGO AN EASEMENT FOR WATER PIPE LINE IN
AND ALONG COUNTY ROADS.

WHEREAS, it is the intention of the Common Council of the City of San Diego, California, to construct a water pipe line in the County of San Diego, State of California, a portion of which pipe line will necessarily be constructed in and along certain County Roads in the County of San Diego, State of California, now owned and possessed by the County of San Diego, State of California, NOW, THEREFORE,

BE IT RESOLVED by the Common Council of the City of San Diego, as follows:

That the Common Council of the City of San Diego be, and it is hereby authorized to petition the Board of Supervisors of the County of San Diego, State of California, for an easement and right of way for the construction of said water pipe line in, over and along certain County Roads in the County of San Diego, which said petition shall read as follows:

"To the Honorable, the Board of Supervisors
of the County of San Diego, State of California.

Gentlemen:

The Common Council of the City of San Diego hereby petition the Board of Supervisors of San Diego County, as follows:

That an easement be granted to the City of San Diego to lay, operate and maintain a water pipe line in and along certain County Highways and across certain County property described as follows:

Beginning at a point on the southerly side of the pavement on Woodside Avenue, in Lakeside, said point being on the line of the El Capitan Pipe Line as now constructed, and also said point being 10 feet easterly from the prolongation southerly of the westerly line of Benedict Avenue in the said town of Lakeside, thence northerly, parallel to and distant 10 feet easterly from the said westerly line of Benedict Avenue, 3000 feet more or less to a connection with present paved highway from Lakeside to Foster.

The pipe line proposed will be made of thirty-six inch Lock Bar Steel Pipe or equal, which is to be thoroughly dipped in a highgrade protective coating and then wrapped in another high grade protective coating; specifications of the method of protection having been heretofore furnished your Honorable Body. It is our belief that this protection will obviate for practically the life of the pipe the necessity of carrying on maintenance work.

It is our intention to provide protection against damage from any possible leakage in the County right-of-way by installing sub-surface gravel drains across the highway at low points in the pipe line. The greatest possible care will be maintained at all times to avoid interference with travel, or injury of any kind to the road.

The City, through the contractor and his sureties, will assume responsibility for any accidents or damage that might occur during the progress of this work.

A set of plans showing the location, profile and grade lines, will be filed with your Honorable Body in the immediate future.

Respectfully submitted,

S. P. McMULLEN, THE CITY OF SAN DIEGO

L. C. MAIRE

E. H. DOWELL

FRANK W. SEIFERT
