THIS INDENTURE OF LEASE, made and entered into this--day of January, 1942, by and between THE CITY OF SAN DIEGO, a municipal corporation in the County of San Diego, State of California, acting by and through the Harbor Commission of said City, and J. B. DUNBAR, R. D. SPICER and ARTHUR C. HARRIS, hereinafter designated as the Lessees, WITNESSETH:

That the City, lessor as aforesaid, does by these presents demise and let unto the lessees, upon the terms and conditions, and for the purposes and uses hereinafter recited, and the lessees hereby hire and accept from the City, upon the terms and conditions and for the uses and purposes hereinafter recited, all those lands bordering and extending into the Bay of San Diego, and being a portion of those lands conveyed to The City of San Diego by the State of California under the provisions of that certain Act of the Legislature, entitled, "An Act conveying certain tidelands and lands lying under inland navigable waters situated in the Bay of San Diego to the City of San Diego, in furtherance of navigation and commerce and the fisheries, and providing for the government, management and control thereof," approved on the first day of May, 1911, and as subsequently amended, more particularly described as follows, to-wit:

Beginning at a point on the U. S. Bulkhead Line, as said Bulkhead Line is now established for the Bay of San Diego, distant 1115.73 feet northwesterly from U. S. Bulkhead Station #183; thence at right angles north 39° 10' east a distance of 125 feet to a point; thence north 70° 50' east a distance of 464.48 feet to the true point or place of beginning; thence continuing north 70° 50' east a distance of 392.32 feet to the beginning of a 30-foot radius tangent curve concave to the south; thence easterly along the arc of said curve an arc distance of 29.84 feet to a point of compound curve having a radius of 2654.93 feet, the center of which bears south 37° 50' west; thence southeasterly along the arc of said compound curve an arc distance of 121.62 feet; thence leaving said compound curve south 40° 36' 43" west a distance of 164.48 feet to a point; thence south 70° 50' east a distance of 327.93 feet; more or less, to a point, said point being on the northeasterly boundary line of that tideland area now under lease to the Campbell Machine Company; thence north 50° 50' west along the said northeasterly boundary line a distance of 21.65 feet to a point; thence north 19° 10' west a distance of 181.58 feet to the true point or place of beginning; containing an area of 866,059 square feet.

The lands hereinabove described being shown on the map or plat attached hereto, marked "Exhibit A," and made a part of this lease.

TO HAVE AND TO HOLD the said premises and each and every part thereof unto the said lessees for the period of thirteen (13) years beginning on the 1st day of February, 1942, and ending on the 31st day of January, 1955, unless sooner terminated as herein provided, at the following rentals:

The sum of three thousand one hundred sixty-three and 13/100 dollars (\$3,163.13), payable upon the execution of this lease. In addition thereto a sum of money equal to three per cent (3%) of the total gross receipts resulting from the use of said premises by the said lessees, by their sublessees and concessionaires, payable monthly, and computed upon the preceding month's total gross receipts; provided, nevertheless, that the lessees shall be obligated to pay to the City for each and every year of said term and any extension thereof, as a minimum rental, not less than eight hundred dollars (\$800.00).

It is understood and agreed that the term "gross receipts," as used herein, upon which the lessees are to pay three per cent (3%) shall be the gross receipts actually received by and belonging to the lessees, and shall exclude any percentage of the total box office receipts which by contract are payable by the lessees to a show or attraction engaged by the lessees to play or exhibit upon the leased premises. Federal admission taxes collected by the lessees shall not be considered as gross receipts upon which said three per cent (3%) is computed.

In this connection the lessees hereby covenant and agree that they will at all times during the life of this lease keep true, accurate and complete records of their gross receipts derived by them from the use and occupancy of the leased premises; and will also require all of their subtenants or concessionaires likewise to keep true, accurate and complete records of all of their gross receipts; and that the lessees will each month during the term of this lease carefully check and audit such records, and will, not later than the tenth of each month during the life of this lease, render a statement to the lessor in such form and detail as may be required by the Harbor Department, or by the Auditor and Comptroller of said City, showing the total gross receipts of the lessees, together with the

total gross receipts of each and every subtenant, sublessee or concessionaire, resulting from the use and occupancy of the leased premises, or any portion thereof, during the preceding month, and will accompany the same with a remittance of an amount equal to three per cent (3%) of all said total gross receipts; provided, however, that the lessor shall, through its duly authorized agents and representatives, have the right at all reasonable times to examine and audit said records for the purpose of determining the accuracy thereof and of the monthly statements hereinabove required to be made.

It is agreed and understood that portions of the leased premises may be used by subtenants, and that concessions may be granted by the lessees without further consent of the lessor; but it is further understood and agreed that neither the whole nor any part of this lease shall be assigned so as to relieve the lessees herein mentioned without the consent of the Harbor Commission evidenced by resolution duly adopted; and provided, further, that said lessees shall remain as fully obligated to the lessor as if this consent to sublease or to grant concessions did not exist.

If at any time during the term of this lease the tenancy hereunder shall interfere with the use of any of the tidelands of San Diego Bay lying bayward of the bulkhead line as now established for navigation, commerce and fisheries, or in any manner become inconsistent with the trust under which the said tidelands are held from the State of California, the City shall have the right to terminate this lease upon one year's notice and the payment to the lessees of reasonable compensation, which shall be based upon and limited to compensation for the actual value at the time of the termination of this lease of such buildings, structures and physical improvements placed upon the demised premises by the lessees as are authorized or permitted under the terms of this lease, but shall not be held to include or require compensation to be paid in any amount to the lessees for any damage to or interference with the loss of business or franchise occasioned by any such termination.

In addition to the foregoing provisions, it is hereby agreed by the parties to this lease that the same is granted and accepted upon the further terms and conditions hereinafter provided, to-wit:

(1) That the demised premises shall be used primarily for the purpose of erecting, constructing, conducting and maintaining thereon an ice and roller skating rink, and such other incidental and subsidiary purposes and businesses, including the granting of concessions, ordinarily operated or carried on in connection with the maintenance and operation of ice and roller skating rinks. The lessees are also authorized to permit, if they shall so desire, the occasional use of said premises for exhibitions, games, dances, entertainments, conventions and public gatherings, but shall not permit any boxing or wrestling matches or exhibitions thereon, without first having secured the written consent of the Harbor Commission so to do.

In this connection lessees hereby covenant and agree that they will at no time during the life of this lease permit any wine, beer or intoxicating beverages of any character whatever to be sold, served or given away upon any part of said leased premises without first having secured the written consent of the Harbor Commission of The City of San Diego so to do; and also such permit or license as may be required by law.

(2) That all plans for buildings, structures and improvements to be erected or placed upon said leased premises shall comply with all the ordinances and regulations of The City of San Diego, and shall be subject to the approval of the Harbor Commission and the Planning Commission of said City.

(3) Prior to the expiration of the term of this lease the lessees may remove, and within thirty (30) days from the termination or cancellation of this lease shall remove, any and all structures and equipment, whether affixed to the soil or not, erected or placed by the lessees upon said premises, at their own cost and expense, but if the same are not so removed they shall become the property of the lessor without cost.

(4) At no time during the life of this lease shall The City of San Diego be required to make any improvement on or for the benefit of the said leased lands hereinabove described.

(5) In the event the lessees shall fail to fulfill in any manner the uses and purposes for which the said premises are leased, as above stated, or shall fail or refuse to perform the obligations by them under this lease undertaken, and shall persist in any such failure or refusal for a period of thirty (30) days after receiving notice from the lessor requiring them to comply with the provisions of this lease in any and all respects wherein the lessees may be in default, then and in that event this lease shall terminate, and said lessees shall have no further rights hereunder, and the said lessees shall thereupon forthwith remove from said premises, and shall have no further right or claim thereto, and that the said City shall immediately thereupon, without recourse to the courts, have the right to take possession of said premises, and said lessees shall forfeit all rights and claims thereto and thereunder; and said lessees in accepting this lease, hereby acknowledge the right of said City to take possession of said premises immediately upon the neglect or refusal of said lessees to comply with the terms and conditions hereinbefore mentioned.

(6) That the lessees, upon the payment of the first installment of rent, as herein provided, and the execution of this lease, shall be placed in possession, and upon the faithful and timely performing and observing of all the covenants and conditions herein contained the lessees may peaceably hold and enjoy the said premises during the said term without any interruption by the lessor, subject to the terms of this lease.

(7) Reference is hereby made to all laws as now existing, and as hereafter amended or enacted, applicable to the leasing of tidelands by The City of San Diego, and by such reference all restrictions or conditions imposed or reservations made thereby are made a part of this lease with like effect as though the same were expressly set forth herein.

It is further understood and agreed that at the expiration of the term of this lease, if the lessees shall have faithfully performed all the terms, conditions and obligations of this lease, they shall be entitled to an extension of said term for an additional period of ten (10) years, upon the same terms and conditions as are herein contained. If the lessees shall desire and intend to avail themselves of the right herein reserved to such extended term, they shall notify the City in writing thereof at least ninety (90) days prior to the expiration of the term of this lease. The failure of the lessees so to do shall relieve the City from any obligation to make such extension.

IN WITNESS WHEREOF, a majority of the members of the Harbor Commission of The City of San Diego have hereunto subscribed their names as and for the act of said City, and the said lessees have hereunto subscribed their names, the day and year first hereinabove written.

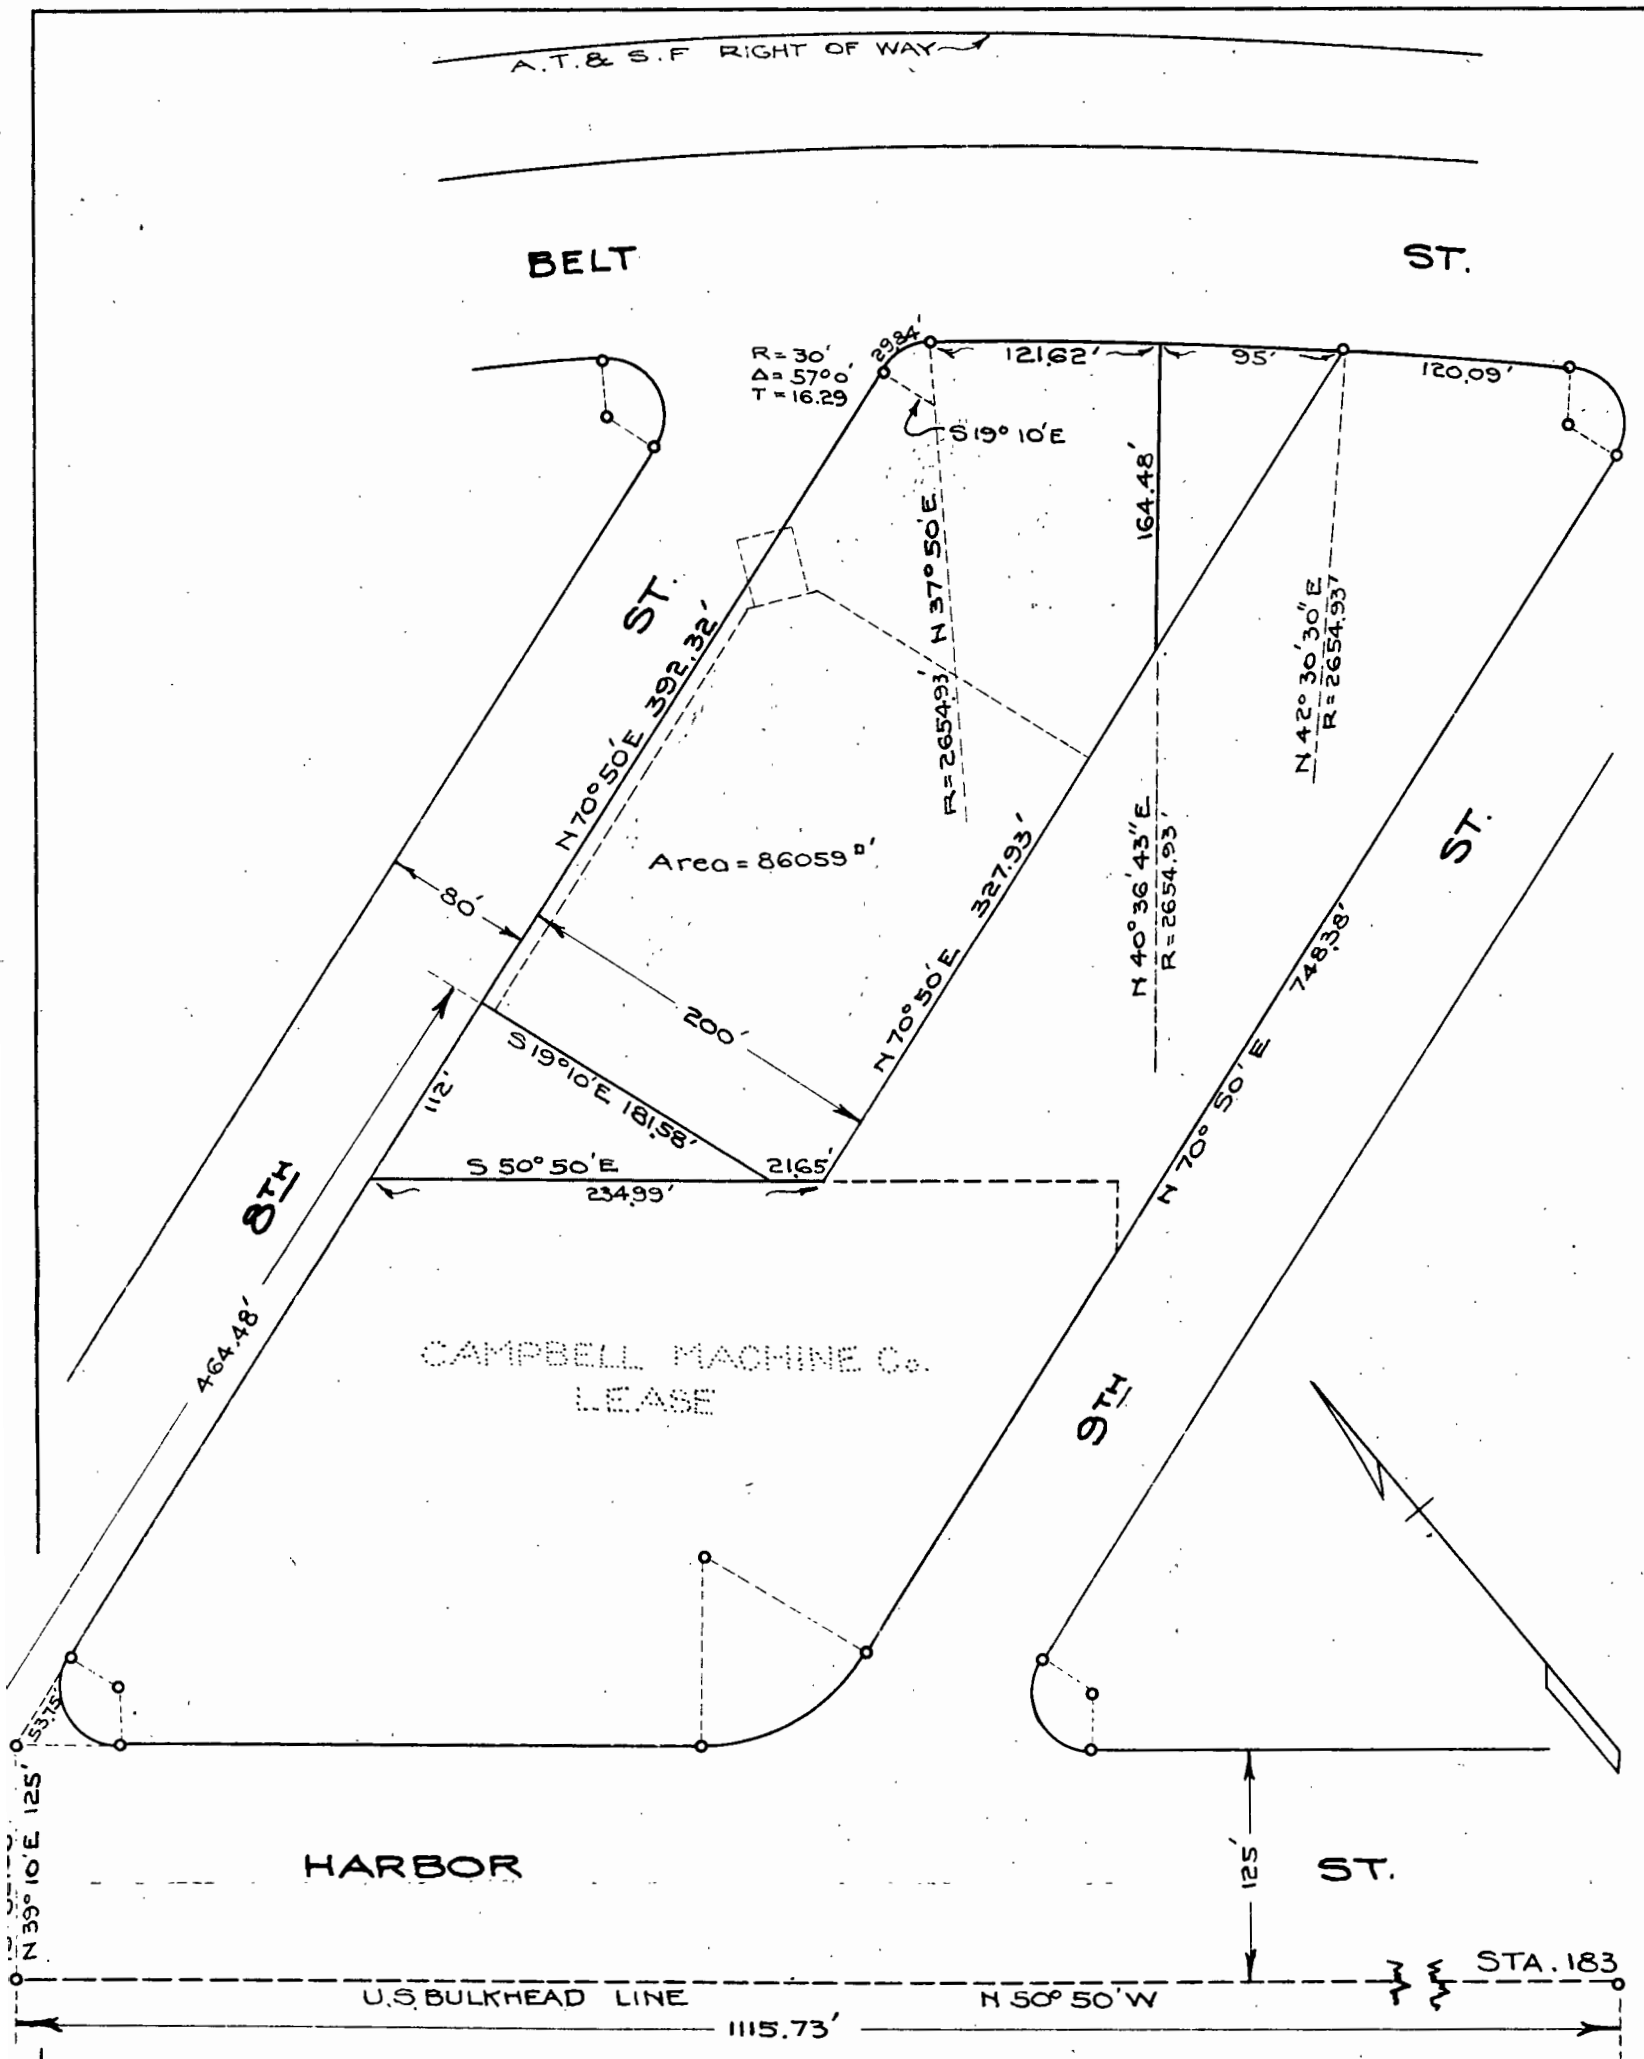

This instrument is executed in duplicate, both of which shall be deemed originals.

TERMS AND CONDITIONS

1. CONDITIONS OF GOVERNMENT'S OBLIGATION. - The United States of America (hereinafter referred to as the "Government") may elect to terminate all or any of its obligations under these TERMS AND CONDITIONS and the Government's Offer (hereinafter collectively referred to as the "Offer") to which they appertain:

(a) Representations. - If any representation of the applicant to which the Offer is made (hereinafter referred to as the "Applicant") in its application for Federal assistance, as amended or supplemented (hereinafter referred to as the "Application"), or in any document submitted to the Government by the Applicant, shall be incorrect or incomplete in any material respect;

(b) Financial Condition. - If, in case the Government has offered to purchase bonds or other securities of the Applicant (hereinafter referred to as "Bonds"), the financial condition of the Applicant shall have changed unfavorably in a material degree from its condition as theretofore represented to the Government;

(c) Financing of the Project. - If the Applicant will not be able, in the opinion of the Government, to provide funds sufficient, with the funds made available by the Government under the Offer, to pay the cost of the public works described in the Offer (such public works being hereinafter referred to as the "Project"), or if, in case the Government has offered to purchase Bonds, the Applicant shall not furnish a bond transcript satisfactory to the Government showing that the Bonds are valid and binding obligations;

2. GOVERNMENT NOT OBLIGATED TO THIRD PARTIES. - The Government shall not be obligated or liable hereunder to any party other than the Applicant.

3. INTEREST OF MEMBER OF OR DELEGATE TO CONGRESS. - No member of or delegate to the Congress of the United States of America shall be admitted to any share or part of the agreement or contract resulting from the Applicant's acceptance of the Offer or in any benefit arising therefrom.

4. OTHER PROHIBITED INTERESTS. - No official of the Applicant who is authorized in such capacity and on behalf of the Applicant to negotiate, make, accept or approve, or to take part in negotiating, making, accepting, or approving any architectural, engineering, inspection, construction or material supply contract or any subcontract in connection with the construction of the Project, shall become directly or indirectly interested personally in any such contract. No official, employee, architect, attorney, engineer or inspector of or for the Applicant who is authorized in such capacity and on behalf of the Applicant to exercise any executive, supervisory or other functions in connection with the construction of the Project, shall become directly or indirectly interested personally in any construction or material supply contract or subcontract pertaining to the Project. The Applicant shall be responsible for enforcement of the foregoing provisions of this paragraph.

5. EXPENSES PRIOR TO DATE OF OFFER. - In determining the amount of Federal Assistance to be paid to the Applicant under the Offer, the Government will exclude from consideration all Project costs incurred by the Applicant prior to the date of the Offer unless, in the opinion of the Government, such costs were incurred by the Applicant in anticipation of Federal assistance for defense public works.

6. GRANT ADVANCES AND PAYMENTS. - The Applicant may requisition advances or payments on account of the grant provided in the Offer at any time after receipt of the Offer, but not later than six months following completion of the Project. Such requisitions shall be accompanied by such supporting data as the Government may require. After the Applicant's acceptance of the Offer and subject to the provisions of the Offer, the Government will honor such requisitions in amounts and at times deemed by it to be proper to insure the expeditious prosecution and payment of the costs of the Project. Payment on account of the grant may be made in cash or by cancellation of Bonds or other obligations owing by the

Applicant to the Government, or partially in cash and partially by cancellation, at the option of the Government. No request for review of a determination of the Government affecting the grant payable under the Offer will be considered unless such request is received by the Government not later than three months following notice to the Applicant of such determination.

7. LOAN ADVANCES AND PAYMENTS.- The Applicant may requisition on account of the loan, if any, provided in the Offer, advances in anticipation of the issuance of the Bonds, or payments, at any time after receipt of the Offer. Such requisitions shall be accompanied by such supporting data as the Government may require. After the Applicant's acceptance of the Offer, and subject to the provisions of the Offer, the Government will honor such requisitions in amounts and at times deemed by it to be proper. If, after advances have been made on account of the loan in anticipation of the issuance of the Bonds, the Applicant is unable, in the opinion of the Government, to issue the Bonds because of circumstances beyond the control of the Applicant's governing body, the Government may, at its election treat such advances as a grant.

8. CONSTRUCTION ACCOUNT. - All funds, however, provided, for the payment of the cost of the Project shall be deposited, promptly upon the receipt thereof, in a separate account or accounts (hereinafter collectively referred to as the "Construction Account"). Unless otherwise required by law, the Construction Account shall be set up in a bank or banks which are members of the Federal Deposit Insurance Corporation. Moneys in the Construction Account shall be expended only for costs of the Project and in accordance with such purposes as shall have been previously specified in a signed certificate of purposes filed with and as approved by the Government: Provided, That if any Bonds are held by the Government after all costs incurred in connection with the Project have been paid, all moneys then remaining in the Construction Account shall be used to re-purchase Bonds or shall be transferred to a bond fund for the payment of interest on and principal of the Bonds.

9. ABANDONMENT OF PROJECT. - If the Applicant shall abandon the Project prior to its completion:

(a) The Government shall thereupon be relieved of all of its obligations under the Offer with respect to payment of grant, except that if such abandonment is consented to or concurred in by the Government, the Government's obligations shall continue as to an amount of grant bearing the same ratio to expenditures theretofore made and costs incurred by the Applicant in accordance with the provisions of the Offer that the maximum grant provided by the Offer to be paid to the Applicant bears to the estimated cost of the Project upon which the Offer has been based;

(b) The Government shall thereupon be relieved of all of its obligations under the Offer with respect to the purchase of Bonds thereunder, except that the Government shall have the right at its election to purchase such Bonds under the Offer as it shall deem necessary to assure payment of incurred Project costs, and to cause the Applicant to deliver Bonds on account of which the Government has theretofore made advances;

(c) The Applicant shall forthwith cause to be returned to the Government the portion of all advances or payments made under the Offer not theretofore expended on the Project in accordance with the Offer, except that an amount thereof equal to the principal of the Bonds purchased by the Government and then outstanding, together with accrued interest thereon, may be transferred by the Applicant to a bond fund for the payment of such principal and accrued interest; Provided, That only so much of the expenditures on the Project shall be considered as having been made from advances or payments made under the Offer as shall be determined by applying the ratio which such advances or payments at the time bore to the total funds then available for the making of such expenditures;

(d) If the Government shall determine to take over and complete the Project so abandoned, there shall be applied on the acquisition cost of the completed portion thereof so much of the advances or payments made by the Government under the Offer as shall not have been returned by the Applicant to the Government, less the amount, if any, transferred by the Applicant to the bond fund pursuant to the provisions of subparagraph (c) hereof.

Nothing herein shall be construed to waive any right which the Government may have to the return of the whole or any part of the advances or payments made under the Offer in addition to the advances or payments above provided to be repaid, or any other right which the Government may have, if the Applicant shall have abandoned the Project prior to its completion without the consent of the Government or shall have acted in bad faith or made any misrepresentations concerning the completion of the Project or the use of such advances or payments.

10. SALE OF BONDS TO OTHERS. - If the Offer provides for a loan, the Applicant may, with the prior consent of the Government, sell all or any part of the Bonds to purchasers other than the Government.

11. CONSTRUCTION OF THE PROJECT. - (a) Unless the Government shall consent to the use of a different method in the construction and equipment of the Project, and to the award of contracts on a basis other than that herein provided, the contract method shall be used in the construction and equipment of the Project, and all construction, material and equipment contracts shall be awarded to the lowest responsible bidder and, except as to contracts estimated to cost not more than \$1,000, upon free, open and competitive bidding after advertisement for bids sufficient to insure adequate competition: Provided, That no contract on a cost plus a percentage of cost basis shall be made; Provided further, That no contract on a cost plus a fixed fee basis shall provide for a fixed fee in excess of 6 per centum of the estimated cost.

(b) The Applicant shall require that, where a general contract is let for the work, specialty subcontractors shall be utilized for the performance of such parts of the work as, under normal contract practices, are performed by specialty subcontractors, unless (1) the general contractor has theretofore customarily performed such specialty work with his own organization and is then equipped to do so, or (2) in the opinion of the Applicant, concurred in by the Government, the performance of specialty work by specialty subcontractors will result in materially increased costs or inordinate delays.

12. CONTRACT SECURITY. - The Applicant shall require that each construction contractor shall furnish a bond or bonds of such type and in an amount or amounts adequate to secure the faithful performance of his contract.

13. CONTRACTORS' AND SUBCONTRACTORS' INSURANCE. - The Applicant shall require that there be maintained:

(a) adequate compensation insurance for all contractors' and subcontractors' employees engaged in work on the Project;

(b) adequate public liability and property damage insurance to protect each contractor and subcontractor on the Project from claims for damages for personal injury, accidental death, and to property, which may arise from operations under his contract, whether such operations be by himself or by anyone directly or indirectly employed by him.

14. QUALIFICATIONS FOR EMPLOYMENT. - The Applicant shall require that (a) in the employment of laborers and mechanics for work on the Project, preference shall be given to qualified local residents; (b) no person under the age of sixteen (16) years shall be employed on the Project; (c) no person currently serving sentence in a penal or correctional institution and no inmate of an institution for mental defectives shall be employed on the

Project; and (d) no person whose age or physical condition is such as to make his employment dangerous to his health or safety or to the health or safety of others shall be employed on the Project: Provided, That this shall not operate against the employment of physically handicapped persons, otherwise employable, where such persons may be safely assigned to work which they can ably perform.

15. NON-DISCRIMINATION. - The Applicant shall require that there shall be no discrimination by reason of race, creed, color, national origin or political affiliations in the employment of persons qualified by training and experience for work on the Project.

16. COLLECTIVE BARGAINING. - The Applicant shall require that the legal rights of all workers on the Project to organize and to bargain collectively, to be protected from the requirement to join a company union, and to enjoy freedom of expression and action with respect to wages, hours and conditions of labor shall not be infringed.

17. LABOR REGISTRATION. - The Applicant shall require that, at the election of the Government, workers on the Project must register at such times and places and in such manner as the Government shall direct.

18. WAGE RATES. - The Applicant shall cause minimum wage rates for the various classes of laborers and mechanics engaged in work on the Project to be determined in accordance with applicable law. In the absence of such law, the Applicant shall determine, and submit to the Government for its concurrence, such minimum wage rates, and in so doing shall give consideration to the rates prevailing for the corresponding classes of laborers and mechanics employed upon projects of a character similar to the Project work in the area from which labor for the Project must be drawn, and to new wage rates, negotiated and concluded through bona fide collective bargaining processes, to become effective at a later date. The Applicant shall require that a complete schedule of all such minimum wage rates (whether determined by the Applicant with the concurrence of the Government, or as required by law) shall be set forth in each construction contract prior to inviting bids for such contract, and that the wages paid to such laborers and mechanics be not less than the minimum rates so determined therefor. The Applicant shall also require that all determined minimum wage rates and all authorized deductions, if any, from unpaid wages actually earned shall be posted at appropriate conspicuous points at the site of the Project. Unless otherwise required by law, wage rates need not be established for non-manual workers, including executive, supervisory, administrative and clerical employees.

19. COMPUTATION OF WAGES ON 8-HOUR DAY. - The Applicant shall require (a) that the wages of every laborer and mechanic engaged in work on the Project shall be computed on a basic day rate of eight hours per day, eight hours of continuous employment, except for lunch periods, constituting a day's work when a single shift is employed, and seven and one-half hours of continuous employment, except for lunch periods, constituting a day's work when two or more shifts are employed; and (b) that work in excess of eight hours per day shall be permitted upon compensation, when a single shift is employed, at one and one-half times the basic rate of pay for all hours worked in excess of eight hours on any one day, or at any time during the interval from 5 P.M. Friday to 7 A.M. Monday, or on holidays, and when two or more shifts are employed, at one and one-half times the basic rate of pay for all hours worked in excess of seven and one-half hours on any one day or at any time during the interval from Friday midnight to Sunday midnight.

20. PAYMENT OF EMPLOYEES. - The Applicant shall require that each construction contractor and subcontractor shall pay each of his employees engaged in work on the Project in full in cash and not less often than once each week, less legally required deductions and also deductions made pursuant to the regulations prescribed under the so-called "Kick-Back Statute" (48 Stat. 948): Provided, That when circumstances render payment in cash infeasible or impracticable payment by check may be effected upon consideration that funds are made available in a local bank and checks may be cashed without charge, trade requirements or inconvenience, to the worker.

21. WAGE UNDERPAYMENT AND ADJUSTMENTS. - The Applicant shall require that, in cases of underpayment of wages by any contractor, it shall withhold from such contractor out of payments due, an amount sufficient to pay workers employed on the work covered by his contract the difference between the wages required to be paid under the contract and the wages actually paid such workers for the total number of hours worked and may disburse such amounts so withheld by it for and on account of the contractor to the respective employees to whom they are due.

22. APPRENTICES. - Unless otherwise required by law the Applicant shall require that the number of apprentices, in each trade or occupation employed by each construction contractor or subcontractor, shall not exceed the number permitted by the applicable standards of the United States Department of Labor, or, in the absence of such standards, the number permitted under the usual practice prevailing between the unions and the employers' associations of the respective trades or occupations.

23. ACCIDENT PREVENTION. - The Applicant shall require that precaution shall be exercised at all times for the protection of persons (including employees) and property, and that hazardous conditions be guarded against or eliminated.

24. INSPECTION. - The Applicant shall require that the Federal Works Administrator and his authorized representatives and agents be permitted, and it will itself permit them, to inspect all work, materials, pay rolls, records of personnel, invoices of materials and other relevant data and records. The Applicant shall cause to be provided and maintained during the construction of the Project adequate facilities at the site thereof for the use of the Administrator's representatives or agents assigned to the Project.

25. SIGNS. - The Applicant shall cause to be erected at the site of the Project such signs, identifying the Project, as the Government may prescribe.

26. REPORTS, RECORDS AND DATA. - The Applicant shall submit, and shall require each contractor and subcontractor on the Project to submit, to the Government such schedules of quantities and costs, progress schedules, pay rolls, reports, estimates, records and miscellaneous data as may be required under applicable Federal statutes or rules and regulations promulgated thereunder.

27. PAYMENTS TO CONTRACTORS. - Not later than the fifteenth day of each calendar month the Applicant shall make a partial payment to each construction contractor on the basis of a duly certified and approved estimate of the work performed during the preceding calendar month by the particular contractor, but shall retain until final completion and acceptance of all work covered by the particular contract a reasonable amount, specified in the contract, sufficient to insure the proper performance of the contract.

28. CONVICT MADE AND FOREIGN MATERIALS. - The Applicant shall require that (a) no materials manufactured or produced in a penal or correctional institution be incorporated into the Project, and (b) only such unmanufactured articles, materials or supplies as have been mined or produced in the United States of America, and only such manufactured articles, materials, or supplies as have been manufactured in the United States of America substantially all from articles, materials or supplies mined, produced, or manufactured, as the case may be, in the United States of America, shall be employed in the construction of the Project. Exceptions to the foregoing shall be made only with the Government's consent.

29. NAMING PROJECT. - The Applicant shall not name the Project for any living person.

31. STATE OR TERRITORIAL LAW.- Anything in the Offer to the contrary notwithstanding, nothing in the Offer shall require the Applicant to observe or enforce compliance with any provisions thereof, perform any other act or do any other thing in contravention of any applicable State or Territorial law; Provided, That if any of the provisions of the Offer violates any applicable State or Territorial law, or if compliance with the provisions of the Offer would require the Applicant to violate any applicable State or Territorial law, or if because of any other reason the Applicant cannot comply with any of such provisions, the Applicant will at once notify the Federal Works Administrator in writing in order that appropriate changes and modifications may be made by the Federal Works Administrator and the Applicant to the end that the Applicant may proceed as soon as possible with the construction of the Project.

(2) That all plans for buildings and improvements to be erected or placed upon said leased premises shall comply with all the ordinances of The City of San Diego, and shall be subject to the approval of the Harbor Commission and Planning Commission of said City.

(3) That upon the expiration of the term of this lease, or upon the sooner termination thereof, except upon a termination for a cause entitling the Corporation to be paid compensation for its buildings, structures and physical improvements placed upon the demised premises, as hereinabove provided, and which compensation shall have been paid to the Corporation, said Corporation shall have the right and shall be required to remove from said premises such buildings, structures, appliances and appurtenances as may have been constructed by it on said premises.

(5) At no time during the life of this lease shall billboards be erected or maintained on the leased premises.

(6) That said City reserves the right to make such improvements for the development of the facilities of the Bay of San Diego for the purpose of navigation and commerce and the fisheries, at such time and in such manner as may be provided in any general plan of harbor improvement adopted by the Council of said City, or by the Harbor Commission of said City, and that the Corporation will remove any structures or buildings placed or erected on said demised premises by the said Corporation as shall interfere with carrying out the adopted harbor plan in any way whatsoever, at its own costs and expense, and without any claim or right to damages or compensation therefor; provided, only that said Corporation shall not be disturbed in the possession and use of said premises to any greater degree than is necessary in the carrying out and completion of said general plan of improvement.

(7) Said Corporation further agrees that if said City, without fault on its part, should be made a party to any action brought against the Corporation, and arising out of the acts or defaults of the Corporation, its agents, servants or employees, or in connection with said Corporation's occupation of said demised premises, then and in that event said Corporation covenants and agrees with said City to pay, indemnify and save harmless the said City against all reasonable expense incurred by the City in defending such suit or action.

(8) The Corporation agrees that it will not record this lease without the written consent of the City.

(9) Reference is hereby made to all laws as now existing, and as hereafter amended or enacted, applicable to the leasing of tidelands by The City of San Diego, and by such reference all restrictions or conditions imposed or reservations made therein are made a part of this lease with like effect as though the same were expressly set forth herein; and the Corporation does hereby expressly covenant that it will in all respects abide by all such laws, and further that it will in the use and occupancy of said leased premises and in all business conducted thereon strictly comply with and abide by all Federal and State laws and municipal ordinances as now existing and as hereafter amended or enacted applicable thereto.

(10) That this lease shall not be assignable without the consent of the Harbor Commission of said City evidenced by resolution duly passed; and no portion of said leased premises shall be underlet or sublet without the consent of said Harbor Commission, likewise evidenced by resolution duly passed; provided, however, that consent is hereby given the Corporation to sublet space in one of the buildings located upon the leased premises to California Packing Corporation, for the purpose of storing machinery and equipment belonging to said California Packing Corporation.

(11) In the event the Corporation shall fail to fulfill in any manner the uses and purposes for which the said premises are leased, as above set forth, or shall fail or refuse to perform any of the obligations undertaken by it under this lease, including the prompt payment when the same shall be due of all rentals reserved herein, then and in that event after ten (10) days' written notice to the Corporation demanding the performance,

remedying or curing of the same, and upon the failure, neglect or refusal of the Corporation so to do within said ten (10) days, this lease shall terminate, and said Corporation shall have no further rights hereunder, and shall forthwith remove from said premises and shall have no further right or claim thereto or interest therein; and the City shall immediately thereupon, without recourse to the courts, have the right to re-enter and take exclusive possession of said premises, and said Corporation shall forfeit all rights and claims there-to and thereunder. Said Corporation in accepting this lease hereby acknowledges the right of said City so to do.

In the event the City takes possession of the leased premises under the provisions of this paragraph, or otherwise, it may remove any further and other personal property in the leased premises and place the same in storage in any warehouse, or other suitable place, in The City of San Diego, for the account and at the expense of the Corporation, who hereby agrees to save the City harmless from any cost, loss or damage occasioned thereby. In this connection the Corporation expressly waives all claims for damages that may be caused by the City re-entering and taking possession of the premises and removing property therefrom, as herein provided.

IN WITNESS WHEREOF, a majority of the members of the Harbor Commission of The City of San Diego have hereunto subscribed their names as and for the act of said City, and the said Corporation has caused this instrument to be executed, and its corporate name and seal to be hereunto affixed, by its proper officers thereunto duly authorized, the day and year first hereinabove written.

This instrument is executed in duplicate, both of which shall be deemed originals, and the instrument when so executed shall be deemed effective from the date first hereinabove written.

THIS INDENTURE OF LEASE, made and entered into this ____ day of ____, 1942, by and between THE CITY OF SAN DIEGO, a municipal corporation in the County of San Diego, State of California, acting by and through the Harbor Commission of said City, as Lessor, hereinafter sometimes called the City, and SAN DIEGO GAS & ELECTRIC COMPANY, a corporation organized and existing under and by virtue of the laws of the State of California, as Lessee, hereinafter sometimes called the Company, WITNESSETH:

That the City, lessor as aforesaid, does by these presents demise and lease unto the Company, lessee as aforesaid, upon the terms and conditions and for the purposes and uses hereinafter recited, and the Company hereby hires and accepts from the City, upon the terms and conditions and for the uses and purposes hereinafter recited, the lands bordering and extending into the Bay of San Diego, and being a portion of those lands conveyed to The City of San Diego by the State of California under the provisions of that certain Act of the Legislature of the State of California, entitled, "An Act conveying certain tidelands and lands lying under inland navigable waters situate in the Bay of San Diego to the City of San Diego in furtherance of navigation and commerce and the fisheries, and providing for the government, management and control thereof," approved on the 1st day of May, 1911, and as subsequently amended, more particularly described as follows, to-wit:

Beginning at a point on the U. S. Bulkhead Line, as said line is now established for the Bay of San Diego, distant 540.28 feet northwesterly from U. S. Bulkhead Station No. 183; thence north 40° 53' 05" east, a distance of 984.92 feet to the true point or place of beginning; thence continuing north 40° 53' 05" east a distance of 39.61 feet to a point; thence south 66° 42' 33" east a distance of 14.04 feet, more or less, to a point of intersection with the southwesterly boundary line of that tideland area leased to The Atchison, Topeka and Santa Fe Railway Company on November 12, 1919, said lease bearing Document No. 127750, on file in the office of the City Clerk of The City of San Diego, said boundary line being a curve concave to the southwest, having a radius of 2814.93 feet, the center of which bears south 40° 51' 33" west from said point of intersection; thence southeasterly along the said southwesterly boundary line an arc distance of 275.13 feet to a point; thence north 58° 13' 30" west, a distance of 145.12 feet, more or less, to an intersection with the northeasterly boundary line of that strip of tidelands described as Parcel No. 2, and dedicated by the Harbor Commission of The City of San Diego to the public use as and for a public street by Resolution No. 227; thence north 52° 06' 33" west along the northeasterly boundary of said strip of tidelands, a distance of 145.0 feet, more or less, to the true point or place of beginning; containing 8124 square feet of tideland area.

The said lands hereinabove described being shown on the map or plat attached hereto, marked "Exhibit A," and made a part hereof.

In addition to and in connection with the premises hereby leased, there is included the right of the lessee to operate, maintain, repair, replace and use the eight-inch and twenty-four inch pipelines, as shown upon said plat, extending from the leased premises to the bulkhead line; including, also, the right to occupy, use and operate the pump house, as shown upon said plat, located at the bulkhead line at the southwesterly extremity of said eight-inch pipeline.

TO HAVE AND TO HOLD the said premises, and each and every parcel thereof, unto the lessee, for a term commencing on the ____ day of ____, 1942, and terminating on the ____ day of ____, 1957, unless sooner terminated as herein provided, at the following rentals:

For the first five (5) years of said term, two cents (2¢) per square foot per year;

For the last ten (10) years of said term, three cents (3¢) per square foot per year.

All rentals hereunder shall be due and payable monthly in advance upon the first day of each and every month during the term of this lease.

If at any time during the term of this lease the tenancy hereunder shall interfere with the use of any of the tidelands of San Diego Bay lying bayward of the bulkhead line as now established for navigation, commerce and fisheries, or in any manner become inconsistent with the trust under which the said tidelands are held from the State of California, the City shall have the right to terminate this lease upon one year's notice and the payment to the Company of reasonable compensation, which shall be based upon and limited to compensation for the actual value at the time of the termination of this lease of such buildings, structures and physical improvements placed upon the demised premises by the Company as are authorized or permitted under the terms of this lease. The actual value of such buildings, structures and physical improvements shall, for the purpose of determining the compensation to be paid therefor, be deemed to be the cost thereof, less depreciation as allowed by the Railroad Commission of the State of California. Said compensation shall not include the payment of any amount to said Company for any damage to or interference with or loss of business or franchise occasioned by any such termination.

Neither the whole, nor any part of this lease shall be assignable or transferable, nor shall the Company have the right to sublet the leased premises, or any part thereof, without the consent of the Harbor Commission, evidenced by resolution duly and regularly passed and adopted; provided, however, that nothing in this paragraph contained shall be deemed to apply to a mortgage or deed of trust, approved or authorized by the Railroad Commission of the State of California, which the Company may execute or enter into for the purpose of securing its indebtedness.

In addition to the foregoing provisions, it is hereby agreed by the parties to this lease that the same is granted and accepted upon the further terms and conditions hereinafter provided, to-wit:

(1) That the demised premises hereinabove described shall be used only and exclusively for the construction, operation and maintenance thereon of settling pits and equipment necessary and convenient in and about the operation of the Company's public utility business.

(2) All structures and improvements to be erected upon the demised lands shall be in accordance with all valid City ordinances and regulations having application thereto, and the plans therefor shall, prior to the erection of such buildings or improvements, be submitted to and approved by the Harbor Commission and Planning Commission of said City.

(3) That upon the expiration of the term of this lease, or upon the sooner termination thereof, except upon a termination for a cause entitling the Company to be paid compensation for its buildings, structures and physical improvements placed upon the demised premises as hereinabove provided, and which compensation shall have been paid to the Company, the Company shall have the right and shall be required to remove from said premises such buildings, structures, appliances and appurtenances as may have been constructed by it on said premises.

(4) At no time during the life of this lease shall The City of San Diego be required to make any improvement on or for the benefit of the leased lands hereinabove described.

(5) The City reserves the right to make such improvements for the development of the facilities of the Bay of San Diego in furtherance of navigation, commerce and the fisheries at such time and in such manner as may be provided in any general plan of harbor improvement adopted by the Council of said City or by the Harbor Commission thereof, and the Company shall have no claim or right to damages or compensation by reason thereof; provided, however, that such improvements or developments shall not be of such a character as to require the removal or reconstruction by the Company of any substantial portion of the buildings, structures and physical improvements placed upon the demised premises by it, nor disturb the possession or use of said premises by the Company to any greater extent than may be necessary in the carrying out and completion of said general plan of improvement.

(6) In the event the Company shall fail to fulfill in any manner the uses and purposes for which the said premises are leased, as above set forth, or shall fail or refuse to perform any of the obligations by it under this lease undertaken, and shall persist in any such failure or refusal for a period of thirty (30) days after receiving notice from the lessor requiring it to comply with the provisions of this lease in any and all respects wherein the Company may be in default, then and in that event this lease shall terminate and said Company shall have no further rights hereunder, and said Company shall thereupon forthwith remove from said premises and shall have no further right or claim thereto, and that the said City shall immediately thereupon, without recourse to the Courts, have the right to take possession of said premises, and said Company shall forfeit all rights and claims thereto and thereunder; and said Company, in accepting this lease, hereby acknowledges the right of said City to take possession of said premises immediately upon the neglect or refusal of said Company to comply with the terms and conditions hereinbefore mentioned.

(7) Reference is hereby made to all laws as now existing and as may hereafter be amended or enacted applicable to the leasing of tidelands by The City of San Diego, and by such reference all restrictions or conditions imposed or reservations made thereby are made a part of this lease with like effect as though the same were expressly set forth herein, provided, however, that in no event shall the term of this lease or the rentals herein provided to be paid be in any wise affected.

IN WITNESS WHEREOF, a majority of the members of the Harbor Commission of The City of San Diego, acting for and on behalf of said City, have hereunto subscribed their names as and for the act of said City, and the said Company, lessee as aforesaid, has caused this instrument to be executed and its corporate name and seal to be hereunto affixed by its proper officers, and this instrument, when so executed, shall be deemed effective from the date first hereinabove written. This instrument is executed in duplicate, both of which shall be deemed originals.

(2) Subject to the conditions in this paragraph expressed the Company shall have the right at any time within five (5) years, provided it is not then in default as to any of the terms of said lease, to have added to the ground area included in said lease, one or more or all of said parcels A to F, both inclusive. In this connection, it is understood and agreed that in the exercise of said option to increase the leased area the Company, if it elects to take less than the whole area, shall be required to take portions of the same by parcels; that is to say, Parcel A or Parcels A and B, etc. In the event the Company shall elect only to exercise its option as to Parcel A within said five-year period, then its option to take the remaining portions of said total area, to-wit, Parcels B to F, inclusive, shall be extended for a period of five (5) years from and after the exercise of its option to take Parcel A. If within said extended option period the Company shall elect to exercise its option only as to Parcel B, then its option to take Parcel C shall be extended for an additional period of five (5) years from and after the exercise of its option to take Parcel B. It is further understood and agreed that the right of the Company to exercise said option or options is conditioned upon its showing to the Harbor Commission at the time of the exercise thereof that the increased area desired to be added to the premises already leased is actually immediately needed by the Company for the extension or enlargement of its plant and operations, and that the same will promptly be put to such beneficial use. Such showing shall be made to the Harbor Commission, together with written notice of intention to exercise such option or options at least ninety (90) days prior to the end of the option period or periods.

It is further understood and agreed that the rental payable by the Company for the premises now included within said lease shall be increased at the rate of twenty-five dollars (\$25.00) per month for each of said additional parcels of land when and if taken by the Company, as herein set forth, and that except as to such increased rental each parcel so added to the present leased premises shall be subject to all of the terms and conditions of said lease with like effect as though the same had been originally included therein. PROVIDED, however, anything to the contrary in this paragraph or in this agreement notwithstanding, it is specifically understood and agreed that if at any time the City shall have a bona fide offer from a responsible party or parties to lease any or all of said parcels not already taken by the Company, the City shall notify the Company thereof, and the Company within thirty (30) days from the receipt of such notice, upon a showing to the Harbor Commission that such parcel or parcels are actually immediately needed by the Company for the expansion or enlargement of its plant and operations, and that the same will promptly be put to such beneficial use, shall have the right if it so elect to have such parcel or parcels immediately added to the premises covered by its said lease. In event of the Company's failure within said thirty-day period to make such showing and election, it shall automatically forfeit any right or claim to such parcel or parcels under this agreement, and the City shall be free to lease the same to another party or parties.

IN WITNESS WHEREOF, a majority of the members of the Harbor Commission of the City of San Diego have hereunto subscribed their names as and for the act of said City, and the said Company has caused this instrument to be executed, and its corporate name and seal to be hereunto affixed, by its proper officers thereunto duly authorized, the day and year first hereinabove written.

This agreement is executed in duplicate, both of which shall be deemed originals, and the agreement when so executed shall be deemed effective from the date first hereinabove written.

RESOLUTION OF INTENTION NO. 77787

RESOLUTION OF INTENTION TO DISCONTINUE THE USE OF LAND FOR PARK PURPOSES, AND TO CALL A SPECIAL ELECTION TO SUBMIT THE QUESTION OF THE DISCONTINUANCE OF THE USE OF SUCH LAND AS A PUBLIC PARK.

WHEREAS, The City of San Diego is the owner in fee of Pueblo Lot 1340 of the Pueblo Lands of The City of San Diego, which property has heretofore been set aside and placed in use by The City of San Diego as a public park; and

WHEREAS, the public interest and convenience now require the discontinuance of the use of a portion of said land as a public park; and

WHEREAS, in the furtherance of the public interest and convenience, it is desired to abandon a portion of said property as a public park, and to devote the said portion to another public use; and

WHEREAS, the discontinuance and abandonment of the use of such portion of said park lands as a park will not cause the reversion of any such lands to any private ownership and will not cause the forfeiture of the ownership thereof in fee by The City of San Diego; and

WHEREAS, such portion of the park lands to be abandoned as a park was not acquired in any proceeding wherein a local assessment based on benefits was levied to provide funds for the acquisition thereof, nor was the same acquired for park purposes by the expenditure of any moneys derived from the sale of bonds authorized for park purposes; NOW, THEREFORE,

BE IT RESOLVED By the Council of The City of San Diego, as follows:

That the public interest and convenience of said City require the discontinuance of the use as a public park of that portion of the lands owned by said City, known as "TORREY PINES PARK," more particularly described as follows:

That the public interest and convenience of said City require that the portion of Torrey Pines Park above described be used for another public purpose, to-wit: for the purpose of permitting The City of San Diego to lease all or portions of said land for the erection and maintenance of houses thereon.

That the Council of The City of San Diego intends to call a special election to submit to the qualified electors of The City of San Diego the question of the discontinuance of the use of the portion of said Torrey Pines Park hereinabove described as a public park.

RESOLUTION NO. 77846

WHEREAS, the United States Government has filed a certain suit in Eminent Domain in the District Court of the United States in and for the Southern District of California, Southern Division, for the purpose of taking title in fee to certain real property immediately adjoining the Marine Base between Bean Street and Witherby Street in connection with the improvement of the Marine Base in that area and which suit is entitled "United States of America, plaintiff vs. 10 blocks containing 16.5 acres of land, more or less, in San Diego etc., et al" No. 95 S.D. Civil; and

WHEREAS, the City of San Diego is a party defendant in said action and was duly served with process therein; and

WHEREAS, the United States Government, through its Marine Base, has closed and is now using for other purposes certain small portions of streets in said area which has changed the use and location of said streets as originally dedicated to the City for public highways and which dedicated streets are more particularly described and set forth in the complaint in said action and Government drawing entitled "P.W. No. KP102/N1-1(10)" filed in said action, reference to which is hereby made for further particulars; and

WHEREAS, said respective portions of streets as aforesaid will not now be needed and used for highway purposes, and the use thereof by the Government for other purposes will not interfere with the Major Street Plan of the City of San Diego or the through streets located in said area; and

WHEREAS, the City Planning Engineer, on behalf of the Planning Commission, addressed a communication to the City Attorney's office, under date of January 21, 1943, reading as follows:

"I have examined Public Works drawing No. KP102/N1-1(10) showing property condemned by the United States on the west side of Pacific Highway between Bean Street and Witherby Street including portions of eleven city streets.

"It is my understanding that the thirty-five feet of the condemned property adjacent to Pacific Highway has been devoted to the widening of Pacific Highway and that it will be given to the City; also, that the property at Witherby Street, necessary for the grade separation structure, will likewise be given; it is further understood that provision is being made by the Navy Department for the City to control the extension of Harasthy Street into the Municipal Airport.

"Therefore, it is the recommendation of this department that the City interpose no objection to the condemnation.";

and

WHEREAS, it is the desire of the City of San Diego to cooperate with the United States Government in all matters pertaining to the war effort, and said Government, in a communication to the City Attorney's office, dated the 14th day of January, 1943, has now requested a Stipulation to be filed in said action, authorizing a judgment in accordance with the Declaration of Taking entered therein and to accept the sum of One Dollar (\$1.00) deposited by the United States Government with the Registry of the United States District Court, as the consideration for the taking of said streets and property of the City as aforesaid; NOW THEREFORE

BE IT RESOLVED, By the Council of the City of San Diego, as follows:

That the City Attorney be, and he is, hereby directed to enter into a Stipulation to be filed in said action authorizing judgment in accordance with the Declaration of Taking entered therein and to accept the sum of One Dollar (\$1.00) deposited by the United States Government with the Registry of the United States District Court, as the consideration for the taking of said streets and property as aforesaid.
